

GENERAL 2019-2020 CATALOG

AS WE COME MARCHING, MARCHING IN
THE BEAUTY OF THE DAY,
A MILLION DARKENED KITCHENS
A THOUSAND MILL LOFTS GRAY,
ARE TOUCHED WITH ALL THE RADIANCE
THAT A SUDDEN SUN DISCLOSES,
FOR THE PEOPLE HEAR US SINGING,
BREAD AND ROSES, BREAD AND ROSES.

AS WE COME MARCHING, MARCHING,
WE STRUGGLE TOO FOR MEN,
FOR THEY ARE WOMEN'S CHILDREN,
AND TOGETHER WE CAN WIN.
OUR LIVES SHALL NOT BE SWEATED
FROM BIRTH UNTIL LIFE CLOSES,
HEARTS STARVE AS WELL AS BODIES
GIVE US BREAD, BUT GIVE US ROSES.

**ON STRIKE
LOCAL 50 IWW
AFL-CIO**

AS WE COME MARCHING, THROUGH
UNNUMBERED WOMEN DEAD
GO ONING THROUGH OUR SINGING
THEIR ANCIENT SONG FOR BREAD
SMALL ART AND LOVE AND BEAUTY
THEIR STRUGGLING SPIRITS KNEW
YES IT IS FOR BREAD WE FIGHT FIGHT
BUT WE FIGHT FOR ROSES, TOO!

AS WE COME MARCHING, MARCHING,
WE BRING THE GREATER DAYS
THE RISING OF THE WOMEN
MEANS THE RISING OF US ALL
NO MORE THE DRUDGE AND IDLER -
TEN THAT TOIL WHERE ONE REPOSES
BUT A SHARING OF LIFE'S GLORIES
BREAD AND ROSES, BREAD AND ROSES.

"The 'Bread and Roses' Girl Column"

ACCURACY STATEMENT

The Los Angeles Community College District and East Los Angeles College have made every effort to make this publication accurate and may, without notice, change general information, courses, or programs offered. The reasons for change may include student enrollment, level of funding, or other issues decided by the district or college. The district and college also reserve the right to add to, change, or cancel any rules, regulations, policies, and procedures as provided by law.

ACCREDITATION

East Los Angeles College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, 10 Commercial, Ste. 204, Novato, CA 94949, (415) 506-0234, accjc@accjc.org, an institutional accrediting body recognized by the Council for Higher Education Accreditation and the U.S. Department of Education.

DISCLAIMER

Throughout this catalog, and any other East Los Angeles College publications that list courses in East Los Angeles College's academic programs, use of trademark product names in course titles and descriptions does not imply sponsorship or endorsement of those products by East Los Angeles College or the Los Angeles Community College District.

THIS INFORMATION AND INSTRUCTIONAL MATERIALS ARE AVAILABLE IN ALTERNATIVE FORMATS (BRAILLE, LARGE PRINT, E-TEXT, ETC). FOR QUALIFIED PERSONS WITH DISABILITIES. PLEASE CALL (323) 265-8787 FOR ADDITIONAL INFORMATION.

WELCOME TO EAST LOS ANGELES COLLEGE

Welcome students, faculty, staff, and administration! We're starting off the academic year with a beautiful campus, thousands of eager learners, and high hopes for the future.

Students, whatever your goal is please remember that ELAC is your college, and faculty, staff, and administration are here to support and nurture you. Completing your academic goals is top priority for us at ELAC and I know that everyone of you can earn a certificate or transfer to a top university.

For those who are first-time college students, there will be a period of adjustment as you learn to approach your education as an adult. That includes assuming responsibility for your time management. Regular class attendance is important, as is keeping up with your academic work. Don't be afraid to ask for help, whether academic or personal. Your professor and/or academic counselor is your best source for academic assistance. For emotional or physical challenges, please seek help from the campus health center in F-5. Your health fee covers these services, so take advantage if you need them. There is nothing wrong with needing to talk to someone.

Well-qualified tutors stand ready to help you in the Math Tutoring Center and the Learning Assistance Center. I encourage you to establish a pattern of using these centers early and often.

Our mission statement says: East Los Angeles College empowers students to achieve their educational goals, to expand their individual potential, and to successfully pursue their aspirations for a better future for themselves, their community, and the world.

Take pride in being apart of the ELAC community and remember to give back to your communities so others can follow in your footsteps. All of us want nothing but the best for you.

Again, welcome and Have a wonderful semester!

“East Los Angeles College is the largest public community college in California”

A handwritten signature in black ink, appearing to read 'Raúl Rodríguez'.

RAÚL RODRÍGUEZ, Ph.D.
Interim President, East Los Angeles College

How to Use this Catalog

INFORMATION SECTION

Following General Information at the beginning, this section is divided into additional information sections which are described below.

ADMISSION AND MATRICULATION - REGISTRATION INFORMATION

This contains information on the admission process, residency requirements, International Student admissions, matriculation, student fees, enrollment policies, auditing classes, adding and dropping classes.

STUDENT INFORMATION

This contains information on College and District regulations regarding student rights and responsibilities, discipline procedures, student grievance procedures, financial aid policies, and satisfactory academic progress by students.

STUDENT SERVICES

This contains information on the different services which are available for students. It includes office location and phone numbers where students can obtain more information.

SCHOLASTIC POLICIES

This contains information on attendance policies, prerequisites and corequisites, grading policies, scholastic awards, grade changes, repetition of courses, and credit by examination.

ACADEMIC RESOURCES/PROGRAMS

This contains information on instructional programs which are available to students and the community. It includes office locations, phone numbers, and email addresses where students can obtain more information.

GRADUATION AND TRANSFER REQUIREMENTS

This section gives the procedures for students to apply for graduation and transfer, the requirements for graduation and transfer, and options for courses which must be taken to qualify for graduation and transfer.

DEPARTMENTAL LISTINGS

Course names and abbreviations are listed with "Academic Subjects and Abbreviations" on page 96.

Departmental listings start with "Administration of Justice Department" on page 119 of this catalog. All listings generally follow the same format, which includes:

1. Department name, office, and phone number of the chairperson
2. Subjects - Academic/Vocational areas covered by courses in the department
3. Faculty - Full-time and Adjunct
4. Educational Programs - Summary of Skills Certificates, Certificates of Achievement, Associate Degrees, and Transfer Curriculum offered by the department
5. Skills Certificate program details
6. Certificate of Achievement program details
7. Associate Degree Program details
8. Course descriptions - listed by Subject

APPENDIX

This section lists faculty of the college with the date of their first appointment, title, and degrees, along with the institutions conferring the degrees.

This section also contains a listing of emeriti faculty, a glossary, and an index.

General Information

HISTORY

CAMPUS FOUNDED

East Los Angeles Junior College was established in June 1945 by the Los Angeles City Board of Education. The College opened its doors for the fall 1945 semester in September in a wing of Garfield High School boasting 19 faculty members and 117 students, many of whom were World War II veterans.

The College quickly outgrew the borrowed high school facilities. In 1947, the Board of Education was able to purchase 82 acres of agricultural land in what was then East Los Angeles, thanks to funding from a bond issue. Three years later, in January 1949, classes began at the College's present location in wooden bungalows moved to the campus from the Santa Ana Army Base. More than 1700 students enrolled that year.

An evening program that began in 1947 was expanded and offered at many locations. By 1954, the popular program offered classes at 25 different locations. The Civic Center program alone enrolled over 1,900 students that year.

In 1948 a name change was proposed. Angeles Bella Vista College, Ramona Hills College, and Hillview College were considered. The following year "Junior" was dropped and the name East Los Angeles College (ELAC) was firmly established.

Permanent buildings were constructed to accommodate growing enrollment. In 1951 the stadium and auditorium were built. More classrooms, an administration building, a library, a planetarium, men's and women's gyms, a swim stadium, a theater, and an art gallery followed.

COMMUNITY SUPPORT AND ENROLLMENT GROWTH

Today's Vincent Price Art Museum began with a gift from Vincent Price—noted actor and art collector—who donated 90 pieces from his collection to establish the first "teaching art collection" in 1957. Over the years, the collection has grown to more than 8,000 pieces including works on paper, paintings, and three-dimensional art work. This collection provides an extraordinary and unique resource for students to see original art firsthand to reinforce lectures in Art History and art appreciation.

During the 1960s and 1970s, buildings were added to campus to house the nursing program, a new library, and later the automobile technology center. Many of the original bungalows were still used as classrooms until 2007 when they were finally demolished to make way for new campus structures.

In 1969 the California State Legislature clearly defined higher education in the state and designated the (then) eight community colleges of the Los Angeles Unified School District as the Los Angeles Community College District (LACCD). A seven-member Board of Trustees was elected to govern the new district. Today, the ELAC service area, home to more than 1.5 million people, includes the communities

of Alhambra, Bell, Bell Gardens, City of Commerce, Cudahy, East Los Angeles, Huntington Park, Los Angeles, Maywood, Montebello, Monterey Park, Rosemead, San Gabriel, South San Gabriel, South Gate, and Vernon.

In 1972 the City of Monterey Park annexed the College and surrounding neighborhood, officially changing the main campus address. ELAC began growing, adding faculty members, programs, and classes as demand for higher education increased.

During the 1984 Olympic Summer Games, ELAC hosted swimming and field hockey events, welcoming thousands of spectators to campus and increasing the international visibility of the College. Despite funding challenges that limited growth during the 1980s, ELAC continued to offer a variety of vocational and transfer programs.

CAMPUS TRANSFORMATION

During the 1990s ELAC experienced unprecedented growth and change. Enrollment grew from 13,000 to approximately 30,000 students and the number of permanent faculty almost doubled. Outreach programs were located throughout the service area for the convenience of students who could not easily travel to the main campus. In August, 1997 the full-service South Gate Educational Center was established in the southern part of the service area so that students could complete a transfer program and several career programs without attending the main campus. In 2007, a third site was opened in Rosemead to serve students in the northeastern portion of ELAC's service area.

Growth during the first decade of the 21st century was not limited to increasing enrollment. An emphasis on student-centered education and providing support that engendered student success increased ELAC's graduation numbers. Between 2000 and 2005, East Los Angeles College graduated the highest number of Latinos in California.

In 2000, voters approved two bond issues, Propositions A and A/S, initiated by the LACCD. Funding of more than \$281 million allowed ELAC to begin the most ambitious building program in its history to substantially improve the college's infrastructure. In the fall of 2004, a state-of-the-art technology building opened. The Technology Building was the first; since then we have completed two parking structures, a new Visual and Performing Arts complex, a Social Sciences building, a Language Arts building, a Student Center, and a Math/Science complex. The South Gate Educational Center has acquired a 19-acre site across the street from its current location. The new site, which is projected to open in 2022, will be developed into a campus complete with a parking structure, a new classroom building, and retrofitted space that will accommodate various student services.

MISSION

COLLEGE MISSION STATEMENT

East Los Angeles College empowers students to achieve their educational goals, to expand their individual potential, and to successfully pursue their aspirations for a better future for themselves, their community, and the world.

GOAL 1: Increasing student success and academic excellence through student-centered instruction, student-centered support services, and dynamic technologies.

GOAL 2: Increasing equity in successful outcomes by analyzing gaps in student achievement and using this to identify and implement effective models and programming to remedy these gaps.

GOAL 3: Sustaining community-centered access, participation, and preparation that improves the college's presence in the community, maximizes access to higher education and provides outlets for artistic, civic, cultural, scientific, and social expression as well as environmental awareness.

GOAL 4: Ensuring institutional effectiveness and accountability through data-driven decision-making as well as evaluation and improvement of all college programs and governance structures.

In collaboration with the District's Mission, ELAC is committed to advancement in student learning and student achievement that prepares students to transfer, successfully complete workforce development programs, earn associate degrees, and pursue opportunities for lifelong learning and civic engagement.

COLLEGE VISION STATEMENT

Through our emerging focus on student-centered instruction, student-centered services, and integrated learning, East Los Angeles College will be an exemplary model for student academic achievement, skill development, and artistic expression.

GENERAL EDUCATION PHILOSOPHY

GENERAL EDUCATION PHILOSOPHY

East Los Angeles College offers all students a robust academic foundation through the General Education program, whether or not a student has decided upon a particular program of study. In recognition of that which East Los Angeles College value for our students and the community we serve, the Faculty of this college affirms that the primary purpose of our General Education is to help students become life-long learners who can think critically, analyze issues, and make reasoned judgments in the spirit of open-mindedness and personal growth. We strive to imbue our students with a sense of self-awareness and self-confidence so that they have an opportunity to pursue their full potential and come to understand how they can contribute to their surroundings and society in general. Furthermore, we encourage our students to appreciate and value multiple perspectives and backgrounds so that they can participate successfully in an increasingly diverse global community.

DISTRICT PHILOSOPHY

DISTRICT MISSION & PRINCIPLES

A NEW DISTRICT MISSION

"Changing Lives in a Changing Los Angeles"

In an era of civic renewal, economic change, and cultural revitalization that is unprecedented in the history of Los Angeles, we--the faculty, staff, and administrators of the nine Los Angeles community colleges--dedicate ourselves to the goal of expanding access to educational opportunity across the many, diverse communities that contribute to the greater Los Angeles area.

We serve all Angelenos by providing an unparalleled array of educational offerings, including programs that prepare students for successful careers, for transfer to four-year colleges and universities, for the improvement of essential life and workplace skills, and for civic engagement and lifelong learning.

To achieve this mission, we strive to create supportive instructional environments that challenge students to meet rigorous academic standards, to become active, self-directed learners, to develop critical and creative habits of mind, and to develop an abiding appreciation for other peoples and other cultures.

DISTRICT GUIDING PRINCIPLES

ACCESS & OPPORTUNITY

We are committed to expanding educational opportunity and access to everyone who has the desire to learn, and we welcome all students, including those from communities that have been traditionally underserved.

EXCELLENCE & INNOVATION

In all of our services and institutional activities, we strive to create a culture of excellence and innovation, and we challenge our students to meet the highest educational standards.

STUDENT LEARNING & SUCCESS

All of our institutional efforts and resources are dedicated to one central purpose--the support of our students as they work toward the achievement of their academic and professional goals.

FREE INQUIRY

We value the vigorous, critical, and free exchange of ideas and opinions, and we work actively to create communities of mutual respect and shared concern that support and sustain open debate and constructive, democratic discourse.

THE POWER OF DIVERSITY

We embrace diversity as a central part of our civic and institutional identity and as a powerful element in the education and development of every individual.

COMMUNITY CONNECTION

Our colleges must be rooted in the communities they serve, and we are determined to build and maintain strong, durable, and responsive collaborations with our educational partners across Los Angeles, and with business, labor, and other organizations that contribute to the fabric of our larger community.

THE PROMISE OF TECHNOLOGY

Technology plays a critical role in all of our institutional operations and educational programs, and we are committed to keeping both our district systems and classrooms on the forefront of technological innovation and efficiency.

PUBLIC ACCOUNTABILITY

We are accountable to the public for all aspects of our mission, and we owe the students we serve, the people of Los Angeles, and the State of California regular and timely assessments of all of our efforts in support of student learning and student success.

THE EAST LOS ANGELES COLLEGE FOUNDATION

The East Los Angeles College Foundation (ELACF) is an independent 501(c)(3) non-profit organization. The Foundation's singular goal is to support the programs of East Los Angeles College through its board membership. The volunteer Board of Directors embarks upon advocacy, building community goodwill and seeking fiscal support for the unfunded needs of the college. The mission of the East Los Angeles College Foundation is to promote and elevate the College in fulfilling its mission and reaching its goals through marketing and advocacy, community and industry connections, and financial support. The Foundation strives to improve the quality, sustainability, and student involvement in many of the campus programs, such as Entrepreneurship, Logistics, Business Administration, Science, Technology, Engineering & Math (STEM) and Advanced Manufacturing. Community college foundations statewide are expected to play a pivotal role in college advancement in the years to come and the East Los Angeles College Foundation is building the capacity to lead that charge. To learn more about the ELAC Foundation programs please visit: www.elacfoundation.com.

ELAC FOUNDATION PROGRAMS

The East Los Angeles College Foundation's "Transform a Life Today" Program is a multi-faceted approach through sustained engagement with government, community, school, and business partners to support the college initiatives such as GO East LA, Internship Programs, President's Circle, Alumni Association, and College Promise.

ELACF Programs seek to meet the following goals to low income and underserved students:

- Every child being prepared to enter school
- Healthier students supporting every child in his or her academic pursuits by supporting academic pursuits financially thus causing healthier living by reducing stress caused by financial burdens
- Supporting the newly opened a 95,000 square foot Mathematics and Science Complex hosting vibrant Nursing and STEM programs and educating current and future professionals
- Every student being successful academically and enrolling in postsecondary education
- Every student completing a postsecondary certificate or degree and entering a viable career
- The community being provided with the human resources that employers need to be successful
- Provide grants and scholarships awarded and used in accordance to the mission of ELAC College and the ELAC Foundation for better economic opportunities to our low-income students to achieve their dreams.

The ELAC Foundation works with government, business and community partners, families and students to:

- Increase college awareness, access, and preparation through ongoing support efforts and ensuring a guaranteed pathway to college completion for all students.
- Expand opportunities to complete college credits while enrolled at ELAC's feeder schools and to ensure that these opportunities accelerate college preparedness and align with career pathways developed to support the East Los Angeles community
- Expand career pathways and career readiness opportunities through expanded partnerships with business partners, early exposure to career opportunities, and the use of internships to expose students to potential careers
- Partner with the community to develop a support network to support student success
- Provide the needed academic and student support services to enhance college completion and student success.

CENTER FOR ENTREPRENEURSHIP & INNOVATION – ESTEC™ LA INCUBATOR

The Center's premier program, ESTEC™ LA Incubator – Powered by OmniWorks™, is a powerful new program that brings a comprehensive suite of professional business development programs to ELAC students and local entrepreneurs. This is the first such incubator program for ELAC and the East Los Angeles region. The social and economic mobility program's mission is to accelerate startup and growth-phase minority, women, veteran, formerly incarcerated and LGBTQIA owned businesses in the communities of East and Southeast Los Angeles. The program's goal is to help build economic prosperity, support quality job growth, develop intellectual property, and create generational wealth in under-served communities.

TRANSFORMING LIVES CAMPAIGN

The purpose of the ELAC Foundation Transforming Lives Campaign (TLC) is to raise awareness of the immediate needs of many of our students, and provide an opportunity for our campus community to help our students meet their needs through payroll giving and program support. There are many reasons our students lack fixed, regular and adequate housing, including parental conflict, family separation, exiting foster care, neglect, or abuse. Most recently,

the TLC campaign assisted students who were displaced due to domestic violence issues. As our campus community becomes more aware of the student issues with food, transportation and housing insecurity, the program will continue to help more students in the future.

WASHINGTON D.C. SUMMER INTERNSHIP PROGRAM

ELAC students spend part of their summer in Washington D.C. as paid interns in the summer internship program.

The Summer Internship Program benefits includes: a) Participating in the legislative, political, and administrative process; b) Learning about pursuing a career in government service; c) Paid travel, room and board, and stipend. The program will provide students with opportunities to work in the House of Representatives, United States Senate, or advocacy organizations at the Nation's Capitol. The hands-on program is designed to mentor and cultivate today's young leaders, strengthen their understanding of our system of democracy, and to build their leadership skills.

PRESIDENT'S CIRCLE

The President's Circle is an elite group of community members, businesses, non-profit groups, government leaders, and others committed to empower students to achieve their educational goals, to expand their individual potential, and to successfully pursue their aspirations for a better future for themselves, their community, and the world.

The annual giving program helps school districts eliminate the first year of community college tuition for hard working students who graduate from high school through ELAC's College Promise Program. It develops a robust and diverse network of community partners committed to increasing student success and academic excellence through student-centered instruction, student-centered support services, and dynamic technologies. It strengthens our community businesses by growing a network, which will identify "new members" and "new ideas" designed to provide 21st-century workforce skills that will strengthen and sustain our economy. Furthermore, it helps raise funds for existing and future creative, entrepreneurial, and innovative programs designed to prepare students to transfer, successfully complete workforce development programs, earn associate degrees, start & grow businesses, and pursue opportunities for lifelong learning and civic engagement. To learn more about the program, please visit: www.elacfoundation.com/presidents-circle.

EAST LOS ANGELES COLLEGE ALUMNI ASSOCIATION

The newly restructured program is designed to support and promote the interests of the College, students, and alumni association members. The Alumni Association is an auxiliary organization of the ELAC Foundation. The Association's goal is to work collaboratively to empower and support ELAC students to achieve their educational goals, to expand their individual potential, and to successfully pursue their aspirations for a better future for themselves, their community, and the world.

The Alumni proudly counted among their membership include, Actor Edward James Olmos, former City of Los Angeles Mayor Antonio Villaraigosa, Los Angeles County Supervisor Hilda Solis, Artist Kent Twitchell, 41st Treasurer of the United States Rosario Marin, former California State

Assembly Member & Los Angeles City Council Member Richard Alatorre, Former 25th District United States Congress member & Los Angeles City Council Member Edward Roybal, former Television Reporter, co-founder of Tele-mundo & Former Chairman and Founder of Gulf Atlantic Life Insurance Frank Cruz, and rocket scientist Gilberto Palacios-Perez, to name a few. To learn more about our famous Alumni and the program please visit: www.elacfoundation.com/join-alumni-association.

EQUAL EMPLOYMENT OPPORTUNITY

The policy of the Los Angeles Community College District is to implement affirmatively, equal opportunity to all qualified employees and applicants for employment without regard to race, color, national origin, ancestry, religion, creed, sex, pregnancy, age, disability, marital status, medical condition (cancer-related), sexual orientation, or veteran status. Positive action will be taken to ensure that this policy is followed in all personnel practices, including recruitment, hiring, placement, upgrading, transfer, demotion, treatment during employment, rate of pay or other forms of compensation, selection for training, layoff, or termination. A vigorous equal employment opportunity program will be maintained to ensure a diverse work force and to achieve expected representation of qualified members of under represented groups through the implementation of specific result-oriented plans and procedures (Board Rule 101301).

NONDISCRIMINATION POLICY

All programs and activities of the Los Angeles Community College District shall be operated in a manner which is free of discrimination on the basis of race, color, national origin, ancestry, religion, creed, sex, pregnancy, marital status, sexual orientation, age, disability, or veteran status.

POLITICA DE AUSENCIA DE DISCRIMINACION

Todos los programas y eventos del Distrito de los Colegios de la Comunidad de Los Angeles se llevarán a cabo en una manera libre de discriminación en cuanto a raza, color, nacionalidad, ascendencia, religión, creencias, sexo, embarazo, estado civil, orientación sexual, edad, incapacidad física, o estado como veterano.

EQUAL OPPORTUNITY POLICY COMPLIANCE PROCEDURE

Inquiries regarding insuring equal opportunity policy compliance should be directed to Compliance Officer at (323) 415-5078; Disabled Student Program and Services, Grace Hernandez at (323) 265-8745 or Compliance Officer, Mr. Nghi Nghiem, at (323) 265-8669. In addition, inquiries may also be directed to the District office of Diversity Programs at (213) 891-2315.

PROCEDIMIENTOS HACIA EL ACUERDO CON LA POLITICA DE ECUANIMIDAD DE OPORTUNIDAD

Preguntas sobre la política de igualdad de oportunidades en el Colegio del Este de Los Angeles, se pueden dirigir a las siguientes personas: Oficial de Accion Afirmativa, ext 5078; Programa de Estudiantes Incapacitados y Servicios, Grace

Hernandez al (323) 265-8745; Mr. Nghi Nghiem al (323) 265-8669. Además, puede también dirigir sus preguntas a la oficina de Diversidad del Distrito, teléfono (213) 891-2315.

PROHIBITED DISCRIMINATION AND HARASSMENT

POLICY

The policy of the Los Angeles Community College District is to provide an educational, employment, and business environment free from Prohibited Discrimination. Employees, students, or other persons acting on behalf of the District who engage in Prohibited Discrimination as defined in this policy or by state or federal law shall be subject to discipline, up to and including discharge, expulsion, or termination of contract. The specific rules and procedures for reporting allegations of Prohibited Discrimination and for pursuing available remedies are incorporated in the Board Rules in Chapter 15. Copies may be obtained from each College and District Compliance Officer.

POLITICA SOBRE HOSTIGAMIENTO SEXUAL

Es la política del Distrito de los Colegios de la Comunidad de Los Angeles mantener un ambiente educativo, de trabajo, y de negocio libre de avances sexuales importunos, de solicitudes de favores sexuales, de cualquier otro comportamiento verbal o físico o de comunicaciones que constituyan hostigamiento sexual. Empleados, estudiantes, u otras personas actuando bajo el interés del Distrito que toman parte en el hostigamiento sexual, según se define por la política del Distrito o por reglamentos estatales y federales, serán sometidos a la disciplina, incluyendo la despedida, expulsión o terminación de contrato.

Las reglas y los procedimientos específicos para reportar cargos de hostigamiento sexual y para seguir remedios disponibles están incorporados en las Reglas de la Junta del Distrito de los Colegios de la Comunidad de Los Angeles, Capítulo XV. Copias de esta política pueden ser obtenidas del oficial de conformidad de la Política Sobre Hostigamiento Sexual, Angelica Toledo al teléfono (323) 267-3746, de la Oficina del Vice Canciller de Servicios Educativos y de la Oficina de Programas de Acción Afirmativa del Distrito. Más información puede obtenerse confidencialmente de la Oficina del Presidente y de la Oficina de Programas de Diversidad del Distrito.

ACADEMIC FREEDOM

The Board of Trustees reaffirms its commitment to academic freedom, but recognizes that academic freedom does not allow Prohibited Discrimination. The discussion of ideas, taboos, behavior, or language which is an intrinsic part of the course content shall in no event constitute Prohibited Discrimination. It is recognized that an essential function of education is a probing of received opinions and an exploration of ideas which may cause some students discomfort. It is further recognized that academic freedom insures the faculty's right to teach and the student's right to learn.

PROHIBITED DISCRIMINATION

Prohibited Discrimination is defined as discrimination or harassment in violation of state or federal law on the basis

of actual or perceived ethnic group identification, race, color, national origin, ancestry, religion, creed, sex (including gender-based sexual harassment), pregnancy, marital status, cancer-related medical condition of an employee, sexual orientation, age, physical or mental disability, or veteran status.

DEFINITION OF SEXUAL HARASSMENT

Sexual harassment is unwelcome sexual advances, requests for sexual favors, and other verbal, visual, or physical conduct of a sexual nature where:

- Submission to the conduct is made either explicitly or implicitly a term or condition of employment, academic status, or progress;
- Submission to, or rejection of, the conduct is used as the basis for employment or academic decisions;
- Conduct has the purpose or effect of having a negative impact upon work or academic performance, or creating an intimidating, hostile, or offensive work or educational environment;
- Submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district.

RETALIATION

Retaliation against anyone who makes a complaint, refers a matter for investigation or complaint, participates in investigation of a complaint, represents or serves as an advocate for an alleged victim or alleged offender, or otherwise furthers the principles of this policy is prohibited.

FALSE ALLEGATIONS

Anyone who files a complaint pursuant to this policy in which he or she knowingly makes false allegations of fact shall also have violated this policy and be subject to applicable or appropriate disciplinary process. Complaints that a complainant has made false allegations about a violation of this policy shall be made through this policy only.

CONFIDENTIALITY

All persons involved in investigation of complaints shall have a duty to maintain the confidentiality of the matters discussed, except as may be required or permitted by law, which include the rules and regulations of the District.

A complete record of each complaint and investigation shall be kept by the Director of Diversity Programs.

The Written Decision or any Settlement Agreement regarding the results of the investigation shall be placed in the personnel file of each employee involved as an alleged offender, alleged victim or complainant.

The specific rules and procedures for reporting charges of sexual harassment and for pursuing available remedies are incorporated in the LACCD Board Rules, Chapter XV. Copies of the policy may be obtained from the college sexual harassment compliance officer, Angelica Toledo at (323) 267-3746, the office of the Vice Chancellor of Educational Programs and Institutional Effectiveness, and the District Diversity Programs Office.

EQUAL EMPLOYMENT OPPORTUNITY IS THE LAW

Applicants to and employees of most private employers, state and local governments, educational institutions, employment agencies and labor organizations are protected under Federal law from discrimination on the following bases:

RACE, COLOR, RELIGION, SEX, AND NATIONAL ORIGIN

Title VII of the Civil Rights Act of 1964, as amended, protects applicants and employees from discrimination in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment, on the basis of race, color, religion, sex (including pregnancy), or national origin. Religious discrimination includes failing to reasonably accommodate an employee's religious practices where the accommodation does not impose undue hardship.

DISABILITY

Title I and Title 5 of the Americans with Disabilities Act of 1990, as amended, protect qualified individuals from discrimination on the basis of disability in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment. Disability discrimination includes not making reasonable accommodation to the known physical or mental limitations of an otherwise qualified individual with a disability who is an applicant or employee, barring undue hardship.

AGE

The Age Discrimination in Employment Act of 1967, as amended, protects applicants and employees 40 years of age or older from discrimination based on age in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment.

SEX (WAGES)

In addition to sex discrimination prohibited by Title VII of the Civil Rights Act, as amended, the Equal Pay Act of 1963, as amended, prohibits sex discrimination in the payment of wages to women and men performing substantially equal work, in jobs that require equal skill, effort, and responsibility, under similar working conditions, in the same establishment.

GENETICS

Title II of the Genetic Information Nondiscrimination Act (GINA) of 2008 protects applicants and employees from discrimination based on genetic information in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment. GINA also restricts employers' acquisition of genetic information and strictly limits disclosure of genetic information. Genetic information includes information about genetic tests of applicants, employees, or their family members; the manifestation of diseases or disorders in family members (family medical history); and requests for or receipt of genetic services by applicants, employees, or their family members.

RETALIATION

All of these Federal laws prohibit covered entities from retaliating against a person who files a charge of discrimination, participates in a discrimination proceeding, or otherwise opposes an unlawful employment practice.

WHAT TO DO IF YOU BELIEVE DISCRIMINATION HAS OCCURRED

There are strict time limits for filing charges of employment discrimination. To preserve the ability of the U.S. Equal Employment Opportunity Commission (EEOC) to act on your behalf and to protect your right to file a private lawsuit, should you ultimately need to, you should contact EEOC promptly when discrimination is suspected: The U.S. Equal Employment Opportunity Commission (EEOC), (800) 669-4000 (toll-free) or (800) 669-6820 (toll-free TTY number for individuals with hearing impairments). EEOC field office information is available at www.eeoc.gov or in most telephone directories in the U.S. Government or Federal Government section.

LOS ANGELES COUNTY SHERIFF SERVICES & STATISTICS

The Los Angeles Community College District has a Sheriff Department for the protection of students, staff, visitors, and other persons on campus from bodily harm or the deprivation of their property. They are also responsible for the protection of the district's buildings and property, the enforcement of federal, state, and county laws, and the rules and regulations for East Los Angeles College. Aside from the regular duties of crime prevention and investigations, patrol, and traffic enforcement, the Sheriff Department will respond to assist students, staff, and visitors on campus in a variety of personal emergencies, i.e., emergency notification (in compliance with the Privacy Act), lost and found property, police escort upon request, etc. For further information regarding their services, you can contact the Sheriff Department.

CAMPUS SECURITY/CRIME STATISTICS

East Los Angeles College crime statistics may be viewed at www.elac.edu, clicking on "Jeanne Clery/Crime Stats", or by contacting the college sheriff's office (323) 265-8800.

USCIS VISA POLICY

Effective April 12, 2002, students who are admitted to the United States with or change their status to or applied for an extension of their B visa after April 12, 2002, are required to file an application with the United States Citizenship and Immigration Services ("USCIS") to change their status to either F-1 or M-1 nonimmigrant status and the USCIS must approve the change prior to pursuing a course of study at any college in the Los Angeles Community College District. Students with B visas issued before April 12, 2002 may attend classes as long as they have filed an application with USCIS to change their status to either F-1 or M-1 non-immigrant status.

STUDENT RIGHT-TO-KNOW DISCLOSURE

Student Right-to-Know Rates for Fall 2013 Cohort Completion Rate: 36.82 % Transfer Rate: 4.24 %

In compliance with the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542), it is the policy of our college district to make available its completion and transfer rates to all current and prospective students. Beginning in Fall 2013, a cohort of all certificate-, degree-, and transfer-seeking first-time, full-time students were tracked over a three-year period. Their completion and transfer rates are listed above. These rates do not represent the success rates of the entire student population at the College nor do they account for student outcomes occurring after this three year tracking period.

Based upon the cohort defined above, a Completer is a student who attained a certificate or degree or became 'transfer prepared' during a three-year period, from Fall 2013 to Spring 2016. Students who have completed 60 transferable units with a GPA of 2.0 or better are considered 'transfer prepared'. Students who transferred to another post-secondary institution, prior to attaining a degree, certificate, or becoming 'transfer prepared' during a five semester period, from Spring 2014 to Spring 2016, are transfer students..

More information about Student Right-To-Know Rates and how they should be interpreted can be found at the California Community Colleges "Student Right-To-Know Rates Information Clearinghouse Website" located at <http://srtk.cccco.edu>.

The U.S. Department of Education requires institutions to report certain information about students who enrolled in Title IV-eligible educational programs that lead to "gainful employment" in a recognized occupation. This information, which includes East Los Angeles College's graduation rates, the median debt of students who completed the program, and other important information, can be found on the college's website at www.elac.edu/academics/programs/gainfulemployment/index.htm.

RETENTION

Information regarding the retention of Los Angeles Community College District students can be obtained from the Admissions Office of each campus.

REGISTRATION INFORMATION

ACADEMIC YEAR

The academic year is divided into two full term semesters and two sessions. Winter Session begins in January and ends at the end of the month; Spring begins in February and runs through early June; Summer session one begins early June through early July; session two starts early July and runs through mid August; Fall term starts late August and ends mid December.

DAYS, EVENINGS, AND WEEKENDS

Classes are taught from 7 a.m. to 10 p.m., Monday through Friday, as well as on Saturday mornings. Students may enroll concurrently at East Los Angeles College in both day and evening classes.

SUMMER AND WINTER SESSIONS

East Los Angeles College offers multiple five week and seven week sessions during the summer months and a five-week winter session in January. Summer and Winter Sessions courses are condensed and cover the same material as a full semester. Courses are taught Monday-Thursday and allow students to accelerate the educational program through a full year of study.

ADMISSION ELIGIBILITY

GENERAL ELIGIBILITY

Any high school graduate or the recipient of a Certificate of Proficiency awarded by the State Board of Education or any other person over 18 years of age who is capable of profiting from the instruction offered is eligible for admission to East Los Angeles College.

ADMISSION OF K - 12TH GRADE STUDENTS

In order to provide educational enrichment opportunities for a limited number of eligible students, East Los Angeles College may admit elementary and secondary school students (grades K-12) as special part-time students or special full-time students. These students will be admitted for the purpose of enrolling in advanced scholastic or vocational work at the college, under the provisions of Education Code sections 48800, 48800.5 and 76001.

Special part-time or special full-time students must submit a supplemental application for admissions for student in K-12 grade for each semester or session in which they wish to enroll, students may only enroll in the courses recommended by the district school and specifically approved by the college for that term/session.

Students admitted under the provisions of this regulation are expected to follow the regulations and procedures established for all college students. The Los Angeles Community College District and its colleges are not responsible for the supervision of minor students outside of the classroom setting. Students admitted as special part-time or special full-time students will not be afforded any special consideration or supervision as a result of their special admission status. Parents are responsible for ensuring that their children are appropriately supervised before class begins, after class finishes and if or when a class is canceled and/or dismissed early. Parents or guardians will not have access to a student's records (including grades and transcripts) without the student's written consent, the student's minor status notwithstanding.

A parent or guardian of a pupil who is not enrolled in a public school may directly petition the college to authorize attendance as a special part-time or special full-time student on the grounds that the pupil would benefit from advanced scholastic or vocational work available at the college.

Students admitted continue in their attendance at their school of origin for the minimum school day. Students shall receive credit for the community college courses completed. Arrangements for receiving high school credit for course work completed must be made with students' respective high schools. A special part-time student may enroll in up to 11 units per semester.

ADMISSIONS PROCEDURES FOR SPECIAL ADMIT STUDENTS IN GRADES K-12TH

Part-Time Special Admit Student: To be considered for admittance as a Special Part-Time Student, the student must meet the eligibility standards as established by the Los Angeles Community College Board Rule 8100.01. Admission is subject to seat availability. The student must submit:

1. District Application for Admission;
2. Written and signed parental or guardian consent;
3. Written and signed approval of his or her principal*;
4. Demonstration that the student is capable of profiting from instruction; and
5. Form YS-1 "Supplemental Application for Admission by a Student in Grades K-12."

**Note: A parent or guardian of a pupil who is not enrolled in a public or private school, may petition directly without the signature of a principal.*

The college's Chief Instructional Officer or designee has the authority to make the final decision as to whether a student can benefit from instruction.

Full-Time Special Admit Student: To be considered for admittance as a Special Full-Time Student, the student must meet the eligibility standards as established by the Los Angeles Community College Board Rule 8100.04. Admission is subject to seat availability. The student must submit:

1. District Application for Admission;
2. Written and signed parental or guardian consent;
3. Written and signed acknowledgment of his or her principal*;
4. Demonstration that the student is capable of profiting from instruction;
5. Form YS-1 "Supplemental Application for Admission by a Student in Grades K-12"; and
6. Written approval of the governing board of the school district of attendance.

**Note: A parent or guardian of a pupil who is not enrolled in a public or private school, may petition directly without the signature of a principal.*

The college's Chief Instructional Officer or designee has the authority to make the final decision as to whether a student has the abilities and sufficient preparation to benefit from instruction at the college.

DETERMINATION: All required documents shall be sent to the Chief Instructional Officer or designee.

A. High School Students

For students attending High School, the Chief Instructional Officer or designee will review the materials, and

will determine if the student has the abilities and sufficient preparation to benefit from instruction at a Community College. This determination may be done by:

1. a review of the material submitted by the student;
2. meeting with the student and his or her parent or guardian;
3. consultation with the Chief Student Services Officer;
4. consultation with the faculty;
5. consultation with counseling staff;
6. consideration of the welfare and safety of the student and others; and/or
7. consideration of local, State, and/or Federal laws.

The college's Chief Instructional Officer or designee has the authority to make the final decision as to whether a student has the abilities and sufficient preparation to benefit from instruction at the college, except in the case of highly gifted and talented pupils.

B. Middle and Lower School Students

For students attending Middle and Lower Schools, the determination shall be made by a committee chaired by the Chief Instructional Officer, or designee, and composed of the Chief Student Services Officer, and representatives from the office of Admissions and Records, and faculty from the appropriate department, as identified by the local senate. The parent or guardian of the Middle and Lower School students must submit a petition for his or her child to be admitted for enrollment in college courses. This petition must include an explanation of how the student can benefit from these specific college-level courses and must be accompanied by previous school transcripts or, in the absence of transcripts, any supporting documentation that can be used in lieu of transcripts. If the student is attending public school the petition must be signed by the school's principal or designee, indicating that he or she concurs with the parent's opinion that the student can benefit from these college level courses. The committee will review the petition and determine if the student has the abilities and sufficient preparation to benefit from instruction at a Community College, and that the student's safety and that of others will not be affected. This determination may be done by applying the following criteria:

1. a review of the materials submitted by the student;
2. meeting with the student and his or her parent or guardian;
3. consultation with counseling staff;
4. consideration of the welfare and safety of the student and others;
5. consideration of local, State, and/or Federal laws;
6. consultation with appropriate faculty/specialists;
7. review of the content of the class in terms of sensitivity and possible effects on the minor;
8. requirements for supervision of the minor;
9. times the class(es) meet and the effect on the safety of the minor; and/or
10. consultation with campus police.

The decision of the committee shall be final, except in the case of highly gifted and talented pupils as defined in Section IV.

Upon completion of the review process, each member of the committee shall sign the petition indicating their participation in the review.

Once a decision has been made, the student, his or her parent or guardian and the school Principal shall be informed of the decision.

HIGHLY GIFTED AND TALENTED STUDENTS

A. Admission Of Highly Gifted and Talented Students

The admission of highly gifted and talented students shall follow the same Admissions and Determination Procedures stated herein, except:

1. Highly gifted and talented pupils must achieve a measured intelligence quotient of 150 or more points on an assessment of intelligence administered by certified licensed personnel or demonstrate extraordinary aptitude and achievement in language arts, mathematics, science, or other academic subjects, as evaluated and confirmed by both the pupil's teacher and Principal.
2. In the cases where a parent or guardian of a highly gifted and talented pupil who is not enrolled in a public school petitions the President (or designee) to authorize attendance as a special part-time or special full-time student on the grounds that the pupil would benefit from advanced scholastic or vocational work available at the college, an intelligence assessment test must be administered by certified, licensed personnel, and the highly gifted and talented pupil must achieve a measured intelligence quotient of at least 150 points.

B. Right To Appeal Denial For Special Part-Time Or Full-Time Enrollment

Following a written denial for special part-time or special full-time enrollment of a highly gifted and talented pupil, the parent or guardian of the highly gifted and talented pupil may appeal the denial directly to the Board pursuant to Board Rules 8100.07 and 8100.08.

C. Appeal Procedure

1. Within 30 days after a request for special enrollment for a highly gifted and talented pupil has been submitted, the Chief Instructional Officer (or designee) shall issue a written decision to the parent or guardian of the highly gifted and talented pupil. In the case of a denial, the written decision shall include the findings and the reasons for the denial.
2. Within 30 days after a written denial has been issued to the parent or guardian of the highly gifted and talented pupil, the Board must take action to either confirm or reject this denial at a Board meeting which takes place within 30 days after the denial has been issued. The parent or guardian of the highly gifted and talented pupil will have an opportunity to appeal the denial directly to the Board during this Board meeting.
3. In order to facilitate this appeal, the Chief Instructional Officer (or designee) who issued the written denial shall immediately forward a copy of the written denial to the Chancellor and the Senior Director of Instructional and Student Programs so that this matter can be placed on a subsequent Board meeting agenda.

Admission and Matriculation

RESIDENCY REQUIREMENTS

CALIFORNIA RESIDENCE REQUIREMENT

A California resident is defined as one who has established both physical presence and intent to make California their permanent home, for more than a year and a day immediately preceding the opening day of instruction. Physical presence is defined as continuous physical presence within the State of California, excluding temporary absences. Intent to make California the permanent home is determined based upon acceptable evidence showing California is the student's permanent home and evidence showing the student is not precluded from establishing permanent residency in the United States.

1. If the applicant is under the age of 18, his or her parents must have had legal residence in California for a minimum of 12 consecutive months preceding the day before the first day of the semester or session.
2. If the applicant is 18 but not yet 19 years of age, the applicant and the applicant's parents or legal guardian must have combined residence in California for a minimum of 12 consecutive months preceding the day before the first day of the semester or session.
3. If the applicant is 19 years of age or older, the applicant must have had legal residence in California for a minimum of 12 consecutive months preceding the day before the first day of the semester or session.

NON-RESIDENT STATUS

A non-resident student is one who has not resided in the State of California for more than one year and one day immediately preceding the start of the semester or who has shown conduct inconstant with a claim for California residence or who is precluded from establishing domicile in the United States within the last 12 months. Non-residents still may attend the college subject to non-resident tuition fees as established by the District's Board of Trustees.

RESIDENCE RECLASSIFICATION

Students who have been classified non-residents may petition to be reclassified as California residents if their status has changed. The Residence Reclassification form is available in the Admissions Office and must be submitted with the appropriate documentation showing both physical presence and intent to make California their permanent home, for more than one year and one day before the start of an upcoming semester. Reclassification requests must be submitted prior to the start of the semester in which reclassification is requested to be effective.

RESIDENCE CLASSIFICATION APPEAL

A student may appeal the residence classification determined by the college. The appeal must be made within 30 calendar days of receipt of notification of the residence classification from the Enrollment Center. The written

appeal along with supporting documents must be submitted to the college Registrar. Any further appeals will be forwarded to the District Residency Appeal Officer.

AB 540 NON-RESIDENT TUITION EXEMPTION

AB 540 is a bill authored by Marco Firebaugh (D-Los Angeles), which was signed into law by the Governor on October 12, 2001. In some cases, this new legislation waives non-resident tuition for students, regardless of immigration status, who have attended and graduated from California high schools.

Students are eligible for non resident tuition exemptions for semesters or terms beginning on or after January 1, 2002 as long as they meet the following conditions:

1. Attended a California high school for three or more years.
2. Graduated from a California high school or earned an equivalent of a high school diploma (for example a GED or a passing score on the high school proficiency exam).
3. Signed an affidavit stating that the student meets these conditions and stating that the student has filed, or will file, an application with the United States Citizenship and Immigration Service (USCIS) to legalize his/her immigration status as soon as possible.
4. Do not currently have "nonimmigrant alien" immigration status (for example F-series student visas and B-series visitor visas).

Additional proof of residency (for example, high school transcripts or diploma) is not required unless the college has conflicting information. Otherwise, the student's signed application for admission and the affidavit requesting the exemption will be all that is required for the exemption from non-resident tuition. Also, the college is not required to explore the student's eligibility for legalization of residency status nor is the college required to monitor future changes in eligibility. AB 540 does not grant residency in California for Financial Aid or any other purpose; it only exempts eligible students from non-resident tuition fees.

OUTREACH AND RECRUITMENT

The office of Outreach and Recruitment was established to coordinate relations with East Los Angeles Colleges' surrounding schools and community. The primary function of this office is to provide information about ELAC's admission policies, student services, and curriculum via presentations, workshops, visitations, and campus tours. For further information, please contact the office of Outreach and Recruitment at (323) 265-8642.

APPLICATION FOR ADMISSION

Students must apply online at www.elac.edu.

The Los Angeles Community College District maintains a student record system that uses student identification numbers assigned by the college.

Transcripts: Official transcripts mailed directly from the last high school attended and from each college attended should be submitted at the time of application. All transcripts become the property of the college and cannot be returned to the applicant.

Transcripts are required if students wish to claim credit for prerequisites taken at other colleges. High school transcripts are required if a student wishes to use high school foreign language courses for IGETC language certification.

REGISTRATION POLICIES

OPEN ENROLLMENT

Unless specifically exempted by law, every course for which state aid is claimed is fully open to any person who has been admitted to the college and who meets the appropriate academic prerequisites.

PROGRAM PLANNING—UNIT LIMIT

In cooperation with a counselor, students should carefully plan their academic programs. Students may enroll for a maximum of 19 units for the spring or fall semesters, and 9 units for summer or winter sessions. Students may petition for additional units for Spring and Fall semesters only. Petition to enroll in additional units are available at the Admissions Office, Admissions South Gate Educational Center, and Online at www.elac.edu. Careful planning will facilitate progress through a curriculum with maximum learning and minimum difficulty. In general, students may receive no more than 30 semester or 45 quarter units of credit for remedial coursework. Exceptions to this limitation exist for students enrolled in ESL courses and students who have learning disabilities. "Remedial coursework" is defined as "pre-collegiate basic skills courses" which are described as "those courses in reading, writing, computation, and English as a Second Language which are designated by the community college district as nondegree credit courses." Degree and non-degree applicable units are noted on student records. A student who intends to transfer to another college or university should consult the catalog of that institution. The Transfer Requirements section of this catalog gives general education requirements for the California State University, and breadth requirements for the University of California, as accurately as could be determined at the time of publication of this catalog.

REGISTRATION PRIORITY

Students in good academic standing shall be granted registration priority on the basis of cumulative units completed within the LACCD in the order listed below, from highest to lowest:

1. New and fully matriculated students as follows:
 - Members of the armed forces or veterans

- CalWORKs recipients in good standing with fewer than 100 degree applicable units
- Disabled Student Programs and Services (DSPS) students in good standing with fewer than 100 degree-applicable units
- Extended Opportunity Programs and Services (EOPS) students in good standing with fewer than 100 degree-applicable units, and
- Foster youth or former foster youth, regardless of academic standing and units taken.

2. Student Athletes and LA College Promise students.
3. Continuing students in good standing with fewer than 100 degree applicable units, middle college students in good standing with fewer than 100 degree-applicable units, new, fully matriculated students, returning exempt students, and new students who are exempt from matriculation.
4. Students who have lost their enrollment priority, as set forth below.
5. Special K-12 admits pursuant to Education Code section 76001.

To be eligible for registration priority as listed above, students must have completed orientation, assessment, and developed student education plans.

LOSS OF REGISTRATION PRIORITY

Students, with the exception of foster youth or former foster youth, will lose registration priority at the first available registration after:

- a. They are placed on academic or progress probation, or any combination thereof, for two consecutive terms.
- b. Have earned one hundred (100) or more degree-applicable units in the District; however, non-degree applicable basic skills units do not count towards the 100 units.

APPEALING LOSS OF REGISTRATION PRIORITY

The college has established a Registration Priority Appeals Committee to review requests from students appealing the loss of enrollment priority. Petition to Appeal Loss of Enrollment Priority can be obtained at Admissions and submitted by the appropriate deadline dates (see Class Schedule for deadlines) along with supporting documentation. A student may appeal on one or more of the following grounds:

- a. The student has extenuating circumstances. Extenuating circumstances are verified cases of accidents, illnesses, or other circumstances beyond the student's control.
- b. The student applied for reasonable accommodation for a disability, but did not receive it in a timely manner.
- c. The student has demonstrated significant academic improvement. Significant academic improvement is defined as achieving no less than a 2.0 grade point average in the prior term.

The College's Registration Priority Appeals Committee shall notify the student within ten (10) business days of its decision. The decision of the college Registration Priority Appeals Committee shall be final.

LIMITATIONS ON ENROLLMENT

All courses shall be open to enrollment, however, enrollment in specific courses or programs may be limited as follows:

- a. Students meeting prerequisites and corequisites established pursuant to Title 5, and Board Rule 8600.
- b. Health and safety considerations, facility limitations, faculty workload, the availability of qualified instructors, funding limitations, the constraints of regional planning or legal requirements imposed by statutes, regulations, or contracts. Fair and equitable procedures will be used for determining who may enroll in affected courses or programs. Such procedures shall be consistent with one or more of the following approaches:
 1. Limiting enrollment to a “first-come, first-served” basis or
 2. Limiting enrollment using a registration procedure authorized by Title 5, section 58108; or
 3. In the case of intercollegiate competition, honors courses, or public performance courses, allocating available seats to those students judged most qualified; or
 4. Limiting enrollment in one or more sections of course to a cohort of students enrolled in one or more other courses, provided however, that a reasonable percentage of all sections of the course do not have such restrictions.
 5. Students on probation or subject to dismissal, consistent with the provisions of Title 5, and Board Rule 8200 et seq., may be limited to enrollment in a total number of units, or to selected courses, or required to follow a prescribed educational plan.

CHALLENGES TO LIMITATION ON ENROLLMENT

A student may challenge an enrollment limitation on any of the following grounds:

1. The enrollment limitation is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner; or
2. The District is not following its policy on enrollment limitations; or
3. The basis upon which the District has established an enrollment limitation does not in fact exist.

The student shall bear the burden of showing that grounds exist for the challenge. Challenges shall be addressed within 5 working days and, if the challenge is upheld, the enrollment limitation shall be waived.

The college shall, upon completion of the challenge, advise the student that he or she may file a formal complaint of unlawful discrimination pursuant to Title 5, California Code of Regulations, section 59300 et seq. Completion of this challenge procedure shall be deemed to satisfy the requirement of Title 5, California Code of Regulations, section 59328(b) that the District and the student attempted to informally resolve the complaint.

ONLINE REGISTRATION

Prior to the semester/session start date students must utilize the Student Information System (SIS).

IN-PERSON LATE REGISTRATION

Late registration for open classes begins the first day of class. Students may register up until the add deadline with the permission code of the instructor. See the class schedule for registration deadlines. Students should be aware that missing the first class meeting might severely affect their chances to succeed in the course and may result in the student being dropped or excluded from the course. Students entering classes late are responsible for making up missed work.

SECTION TRANSFER

Students who have a change of work schedule or other extenuating circumstances may request a section transfer from one class to another class in the same Subject.

Consent must be granted by the new instructor for the new class, and may involve instructor-to-instructor transfer of grade records.

CANCELLATION OF CLASSES

The college reserves the right to discontinue any class with insufficient enrollment prior to the end of the second week of the class.

INTERNATIONAL STUDENT ADMISSION

East Los Angeles College welcomes students from all over the world. We invite international students to take advantage of the many opportunities the college offers, both academically and socially. With over 500 students from 35 countries, East Los Angeles College's International Student body presents many opportunities for sharing and understanding other cultures, which is an important part of the educational process.

All F-1 visa students seeking admission to East Los Angeles College must apply through on-line application through CCCApply – International. All applicants for F-1 status must provide the following documents:

1. Application Processing Fee
2. English Proficiency
3. Academic Records/Transcripts
4. One passport-sized photo
5. Affidavit of Support
6. Confidential Financial Statement
7. Guardian Statement – student who is under the age of 18 must have a guardian in Los Angeles County
8. Copy of current Passport, I-94 and US visa stamp (Transfer Students Only)
9. All current and previous status documents (I-20, DS-2019, etc.) (Transfer Students Only)
10. Transfer Status Verification Form (Transfer Students Only)

All documents submitted must be either originals or certified copies, and all documents must be translated into English. Upon receipt of the above mentioned, a decision is made regarding acceptance. If the application is approved, an immigration form I-20 will be issued to the candidate. Immigration regulations require that all F-1 (student) visa holders must be enrolled in a minimum of 12 units and maintain 2.0 grade-point average each semester. Failure to comply with the above will jeopardize your F-1 student visa status.

APPLICATION DATES

SEMESTER	OUTSIDE THE U.S.	WITHIN THE U.S.
Spring	September - November 1	September - December 15
Fall	April - June 15	April - July 15

Additional information regarding International Student admission or immigration regulations may be obtained at the International Student Office by telephoning (323) 265-8796, email: elac_iso@elac.edu, on the web: www.elac.edu/prospectivestudents/international/index.htm

STUDENT SUCCESS AND SUPPORT PROGRAM – MATRICULATION PROCESS

Senate Bill 1456 revised and renamed the Matriculation Act of 1986 as the Seymour-Campbell Student Success Act of 2012. Signed by Governor Brown on September 27, 2012, the program began on January 1, 2013 and will be implemented through stages over a five-year period.

The Student Success and Support Program (formerly Matriculation) supports the transition of new students into the college by providing services that promote academic achievement and successful completion of degrees, transfer preparation, career technical education certificates, or career advancement.

Effective Fall 2014, based on student responses to the East Los Angeles College application for admission, students will be identified as matriculating or non-matriculating. Students identified as matriculating are referred to core matriculation services: placement, orientation, and counseling (AOC). Students must complete the placement, orientation, and counseling (abbreviated student educational plan) prior to their priority registration date and time. The abbreviated student educational plan is provided during the in-person orientations. After registration and sometime during the semester, a comprehensive student educational plan must be completed within a reasonable time period by making an appointment to meet with a counselor. Non-matriculating students are exempt from participating in the core matriculation services, but are advised to access these services if they plan to pursue a degree or certificate.

STUDENT RIGHT AND RESPONSIBILITIES: (TITLE 5 SECTION 55530)

- Identify an educational and career goal.
- Diligently engage in course activities and complete assigned coursework.

- Complete courses and maintain progress toward an educational goal and completing a course of study.
- Matriculating Student:
 - a. Must identify a course of study.
 - b. Participate in the placement process.
 - c. Complete an orientation activity provided by the college.
 - d. Participate in counseling to develop at minimum an abbreviated student education plan.
 - e. Failure to complete a, b, c, and d (above) may result in a hold on a student’s registration or loss of registration priority until the services have been completed.
 - f. A Comprehensive educational plan must be completed by the 3rd semester or after completion of 15 semester units of degree applicable coursework (effective Fall 2015).

ADMISSIONS

Prospective students must complete the ELAC admissions application online at www.elac.edu; Submit official high school transcripts and any previous official college transcripts; and submit proof of residency.

AOC: PLACEMENT PROCESS

The Placement Process at ELAC consists of ESL and English and Math multiple measures, and guided self placement. Admission application must be submitted and processed prior to participating in the Placement Process. All new students are required to participate in the Placement Process. ESL assessments are offered at the main campus (E1-183) and South Gate Educational Center (Room 120). For more information, please call or visit the Matriculation/Assessment Office at (323) 415-4141 (E1-183).

Any student with a verified disability may arrange for alternative administration of the Placement Process by contacting the Disabled Student Program and Services (E1-160) at (323) 265-8787.

AOC: ORIENTATION AND COUNSELING

After participation in the placement process, students must participate in orientation. In-person orientations are led by faculty counselors and an abbreviated student educational plan will be provided. The orientation schedule is provided to all students participating in the placement process and is accessible on the ELAC website www.elac.edu under Academic Counseling.

All students should meet with a counselor during the semester to develop a comprehensive student educational plan. All students who have not declared an educational goal and students who are enrolled in pre-collegiate basic skills courses are highly encouraged to meet with a counselor to develop a student educational plan. Students who are on academic or progress probation are referred to participate in a probation workshop.

EXEMPTIONS (TITLE 5 SECTION 55532)

Exemption from AOC core matriculation services (assessment, orientation, and counseling) are provided if the student:

1. Has completed an associate degree or higher;
2. Has enrolled at the college for a reason other than career development or advancement, transfer, attainment or a degree or certificate, or completion of a basic skills or English as a Second Language course sequence;
3. Has completed these services at another community college within a time period as identified by the district;
4. Has enrolled at the college solely to take a course that is legally mandated for employment as defined in section 55000;
5. Has enrolled at the college as a special admit student pursuant to Education Code section 76001.

ENGLISH, ESL, AND MATH PLACEMENT

California Assembly Bill (AB) 705, a law which took effect January 1, 2018, requires that California Community Colleges use multiple methods of placing students into transfer-level English, English as a second language (ESL) and math courses. These methods must include the use of high school cumulative grade point average (HSGPA), high school course grades, and high school courses taken. The law also requires that the method that yields the highest placement overrides all other methods.

In response to the AB 705 law, the California Community Colleges Chancellor's Office established "default" (standardized) HSGPA ranges for colleges to use as the basis for placing students in English and math courses. Colleges may depart from these standardized HSGPA ranges, but they must provide statistical evidence that such departures meet or exceed the standardized targets set by the California Chancellor's Office, and that students placed into any pre- or corequisite for a transfer-level course are highly unlikely to pass the course without it.

Additional resources on AB 705:

- Assembly Bill 705: (https://leginfo.ca.gov/faces/billTextClient.xhtml?bill_id=201720180AB705)
- Assembly Bill 1805: (https://leginfo.ca.gov/faces/billTextClient.xhtml?bill_id=201720180AB1805)
- CCC Chancellor's Office Memo AA 18-40: (<https://assessmentplacement.squarespace.com/s/0718-AB-705-Implementation-Memorandum.pdf>)
- CCC Chancellor's Office Memo AA 18-41: (https://assessmentplacement.squarespace.com/s/AA-18-41-AB-705-Initial-Guidance-Language-for-Credit-ESL_.pdf)

Students who apply to the Los Angeles Community College District (LACCD) using CCCApply or update their placement information using the LACCD MMAP Web Form on their To-Do Checklist will be placed into tiers (groups) of courses in English; math for business, science, technology, engineering, and mathematics (BSTEM) programs; and statistics or liberal arts math (SLAM). Those who choose to complete ESL placement will be placed into an ESL tier, as well. Each tier includes the transfer-level courses cleared for enrollment, as well as optional or required support courses intended to help students succeed in transfer-level coursework in that tier. These tiers will be combined to produce an

"E" placement level (English plus ESL, if completed) and "M" placement level (SLAM plus BSTEM), which will be shown on the online Student Portal Assessment Page.

ENGLISH AND ESL PLACEMENT CRITERIA

ENGLISH

The following criteria is used for placement into transfer-level English composition courses. Assignment to a tier is based on the student's HSGPA (US high school cumulative grade point average). All students who provide placement data may enroll in transfer-level English composition (English 101) with or without the optional support courses or services listed in the placement message.

TIER	PLACEMENT CRITERIA
ENG 1	HSGPA \geq 2.6
ENG 2	$2.3 \leq$ HSGPA $<$ 2.59
ENG 3	HSGPA $<$ 2.29
ENG N	INSUFFICIENT DATA TO APPLY THE ABOVE

Students placing in Tier ENG 1 should enroll in English 101 without a support course.

Students placing in Tier ENG 2 are highly recommended to enroll concurrently in either Reading 101 or ESL 10, which are support courses for English 101.

Students placing in Tier ENG 3 are highly recommended to enroll concurrently in English 72, a support course for English 101.

ENGLISH AS A SECOND LANGUAGE (ESL)

Each LACCD college uses its own criteria for ESL placement. In most cases, these involve a combination of a placement exam score and the Multiple-Measures Assessment Project (MMAP) placement criteria, which place students based on their anticipated success rates using high school performance data (like grade point average). Note: ESL placement does not override English placement.

MATH PLACEMENT CRITERIA

BUSINESS, SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS (BSTEM) PLACEMENT CRITERIA

The following criteria is used for placement into mathematics courses typically seven of the nine LACCD colleges use the default placement criteria below for placement into courses typically required for business, science, technology, engineering, and mathematics programs (BSTEM). HSGPA=US high school cumulative grade point average; HS=US high school course.

BSTEM TIERS

TIER	PLACEMENT CRITERIA
1	HSGPA \geq 3.4 or HSGPA \geq 2.6 & HS Calculus
2	HSGPA \geq 2.6 or HS Precalculus (or equivalent/higher)
3	HSGPA $<$ 2.6
N	INSUFFICIENT DATA TO APPLY THE ABOVE

TIER	PLACEMENT CRITERIA
1	Grade \geq B in HS Algebra 2 / Integrated Math 3 (or equivalent or higher)
3	Grade $<$ B in HS Algebra 2 / Integrated Math 3 (or equivalent)
N	Insufficient data to apply the above

STATISTICS AND LIBERAL ARTS MATH (SLAM)

The following criteria is used for placement into courses that may be required for programs that require statistics or liberal arts math (SLAM). HSGPA=US high school cumulative grade point average; HS=US high school course.

SLAM TIERS

TIER	PLACEMENT CRITERIA
1	HSGPA \geq 3.0
2	$2.3 \leq$ HSGPA $<$ 3.0
3	HSGPA $<$ 2.3
N	Insufficient data to apply the above

All students who provide placement data except those placed into a level including BSTEM or SLAM tier 3 may enroll in some form of transfer-level math. In some cases these include courses with required additional hours per week and/or corequisites. For levels including tier 3, students are required to take a below-transfer-level math courses prior to their transfer-level course. Students are encouraged to see a counselor and the catalog to determine which (if any) of the courses they are cleared to take are required for their education plan.

GUIDED SELF-PLACEMENT

Students who are not able to provide enough information for automated placement, who have been away from high school for more than 10 years, or did not attend or graduate from a US high school or earn a GED or CA High School Proficiency certificate, may use the Guided Self-placement process. This may involve meeting with a counselor or other college officer to discuss topics such as the following in order for the student to place him/herself:

- Courses taken and grades received
- The transfer-level English and math courses offered at the student's home college, and which of them (if any) are required for the student's chosen major, general education plan, or transfer plan
- The support courses and services offered to students enrolled in transfer-level courses
- Students' rights under the AB 705 law

CONTINUING STUDENTS

Continuing students are those who were admitted in an earlier term and continue to take courses. Continuing students whose placement has been updated using the new placement criteria are not required to take any course that is part of their old placement. This is especially true if they were placed below transfer-level in English or more than one level below-transfer in math. Such students may enroll in any course listed in their new placement message

without taking any course below it in the sequence, even if that means skipping several courses that would have been required under the old placement.

HOW PLACEMENT AFFECTS PRE-/COREQUISITES AND MAJOR REQUIREMENTS

Students who place into a course that is part of a sequence do not need to take any course lower in that sequence, whether such a course is a pre- or corequisite to any course in the same or any other subject or a prerequisite or requirement for any program.

Students who place into any transfer-level math course are not required to take any below-transfer-level math course for any reason. However, students who intend to earn an associate of arts/science degree and cannot meet math competency through any other means will need to pass a course approved to meet math competency prior to graduation.

Students who place into ENGLISH 101 are not required to take any below transfer level English course for any reason.

STUDENT FEES

ENROLLMENT FEE FOR RESIDENTS

California residents are required to pay \$46 per unit. For example, if you take 10 units, the cost is \$460.

Note: Fees Subject to change by the California legislature.

FEE FOR OUT-OF-STATE NON-RESIDENTS

U.S. Citizens and Permanent Resident Card holders who have lived in California for less than a year are required to pay a non-resident tuition fee of \$265 per unit plus an enrollment fee of \$46 for a total of \$311 per unit.

Note: Fees Subject to change by the California legislature.

FEE FOR INTERNATIONAL (F-1 VISA) STUDENTS

International students are required to pay non-resident tuition fee of \$265 per unit and enrollment fee of \$46 per unit, for a total of \$311 per unit.

They are also subject to a non-refundable SEVIS fee of \$25 per semester for monitoring and maintenance of the SEVIS system as required by the Department of Homeland Security.

In addition, an International Student Medical Insurance (IMED) Fee equal to the cost of medical insurance purchased by the District on the student's behalf is charged. For 2019-2020 the annual fee schedule is \$1,390.

Note: Fees Subject to change by the California legislature.

HEALTH FEE

The Los Angeles Community College District charges an \$11.00 per semester (and a \$8.00 per Summer or Winter Session) mandatory Health Fee payable at one Los Angeles Community College District campus only to cover the costs of the Student Health Center. Students may be exempt from paying the Health Fee if they are eligible for religious reasons. Contact the Dean of Student Activities for religious exemption procedures.

8502. STUDENT HEALTH. The Board of Trustees shall give diligent care to the health, safety, and physical development

of students enrolled in the public colleges under its jurisdiction. The Chancellor or designee shall establish such regulations as shall be necessary for the administration of the college health program. The Board of Trustees shall require that each campus collect a mandatory fee for these services to all full-time and part-time students pursuant to Education Code Section 76355 and Title 5 of the California Code of Regulations, Section 54702, which define the services, fee procedures, and specific allowable fee expenditures. Except in cases where it is allowable under the law, health services will not be provided to minors under the age of eighteen (18), unless the student has a consent form signed by his or her parent or guardian.

Exempt from the payment of these fees are: (a) students who depend exclusively on prayer for healing in accordance with the teaching of a bona fide religious sect, (b) students who are attending classes under an approved apprenticeship training program, (c) noncredit education students, (d) students enrolled in District colleges exclusively at sites where student health services are not provided, (e) students who are enrolled in District colleges exclusively through Instructional Television or distance education classes, (f) students who are enrolled in District colleges exclusively through contract education, (g) students admitted as Special Part-time Students (K-12) or Special Summer School Students under the provisions of Board Rule 81001.01 or 81001.02. Student exempted under the provisions of (b), (c), or (g) above are eligible to receive the services of the college health program; all other exempt students are not eligible to receive the services of the college health program, unless they opt to pay the fee.

PARKING FEE

The parking fee is \$20.00 per semester and \$7.00 for summer or winter session. You may pay the parking fee and obtain the parking permit from the Fiscal Office. Parking in areas on campus marked "Parking by Permit Only" will be restricted to vehicles displaying a valid permit. Students who purchase a regular "Student" permit may park at the Stadium Lot, and Avalanche Roads. Students who purchase an "ASU" permit may park at the Stadium Lot, Avalanche Roads, and Levels 2-6 of Parking Structure 3, and Levels 1-4 of Parking Structure 4. Student should NOT park in spaces marked "Faculty Staff." The Fiscal Office is NOT responsible for parking citations.

ASSOCIATED STUDENT ORGANIZATION FEE

The ASU fee is \$7.00 per semester and \$3.00 for summer or winter session. This fee entitles you to participation in student organization activities and, in conjunction with paying the parking fee, it further entitles you to first come-first served parking in the ASU lot, bookstore discounts, and other discounts at local commercial establishments. The ASU sticker cannot be refunded.

INSTRUCTIONAL MATERIALS FEE

Students may be required to pay for instructional and other materials required for some courses. Fee amounts vary for each course. Please check with the course instructor for details.

ENROLLMENT FEE WAIVER-CCPC

If at the time of enrollment you are receiving benefits under the Aid to Families with Dependent Children program

(AFDC), the Supplemental Security Income (SSI) or State Supplementary programs (SS), the General Assistance Program (GAP), or have low income as defined by the State of California and classified as a California resident, the enrollment fee will be waived at the Financial Aid Office (E1-173).

FEE REFUND POLICIES

ENROLLMENT FEES

Student who drop their classes by the respective refund deadline will receive a credit to their student accounts. Refunds are processed at pre-scheduled times throughout the academic year. Refunds for cash and check payments will be made electronically (ACH) to a bank account that the student selects. The account selection process occurs after a student registers. Each student will receive a selection package by the LACCD vendor BankMobile. Refunds for credit card payments will be made to the credit card used for payment.

Note: Please refer to the Student Portal for the refund deadline for each class.

AUDITED COURSE FEE

Audited classes are not taken for college credit and cannot be dropped. No refund is given for audit courses.

PARKING FEE

Parking permits may be returned and refunded on or before Drop Deadline #1. Please refer to current semester Academic Calendar.

HEALTH FEE

Refunds for the health fee are made only to students who drop all of their classes by the refund deadlines or to students who change all on campus classes to off campus classes.

ASSOCIATED STUDENT UNION FEES

Associated Student Union fees are not refundable.

STUDENT PREREQUISITE OR COREQUISITE CHALLENGE POLICY

STUDENTS WITHOUT PREREQUISITES MAY BE DROPPED FROM A COURSE BY THE INSTRUCTOR OR THE OFFICE OF ADMISSIONS.

It is the student's responsibility to know and to meet any and all course prerequisites and corequisites. These requirements are indicated in the individual course description sections of this catalog or the accompanying catalog update. Students who are currently enrolled in the prerequisite course at East Los Angeles College will be allowed to conditionally enroll in the next sequence-level course. Failure to successfully pass the prerequisite course with a "C" or better may result in exclusion from the sequential course. Students challenging prerequisites or corequisites will be required to file proof of meeting these course requirements along with an appropriate "Challenge Petition".

In keeping with requirements and provisions of Section 55003 of Title 5 and Section I.B. 1-3 of the Los Angeles Community College District Model Policy, East Los Angeles

College has an established procedure by which any student who provides satisfactory evidence, may seek entry into a class according to the college's challenge process.

THE GROUNDS FOR STUDENT CHALLENGES

(ACCORDING TO SECTION 55003 OF TITLE 5)

1. Successful completion of a course similar to the one listed as the prerequisite and/or corequisite for the course in question (documentation must be provided). Such courses must be from collegiate institutions accredited by the Western Association of Universities and College or related accrediting agency;
2. Requirement (prerequisite or corequisite) not established by adopted LACCD process;
3. Requirement established in violation of Title 5;
4. Requirement is unlawfully discriminating or applied in an unlawful discriminatory manner;
5. Student has the appropriate documented knowledge or ability to succeed in the course for which the prerequisite or corequisite is specified (documentation must be provided);
6. Student will be delayed in completing educational objectives by one or more semesters in fulfilling the requirements for a degree and/or certificate because the prerequisite and/or corequisite course has not been made reasonably available (documentation must be provided).*

*NOTE: A CHALLENGE USING THIS PORTION OF SECTION 55003 WILL BE CONSIDERED VALID ONLY IF:

1. Alternate ELAC courses to fulfill degree and/or certificate requirements are not available.
2. The student has specified an educational goal after having completed 15 units of college work with a GPA of "C" or better, and has filed an educational plan no later than 90 days after completing the aforementioned 15 units.
3. Any campus established prerequisite and/or limitations on enrollment for a course that involves:
 - a. Health and safety considerations (a student must demonstrate that he or she does not pose a health threat to himself or herself or others; documentation must be provided)
 - b. Intercollegiate competition, honors students, and/or public performance (a student is given a seat in such course based on competitive performance or judged to be most qualified); and
 - c. Block or limited enrollment for a group (cohort) of students in specific courses or a section of a course.

For definitions, see glossary of terms (Page 369).

STUDENT PREREQUISITE OR COREQUISITE CHALLENGE PROCESS

1. A student may challenge a prerequisite or corequisite by filing a Prerequisite or Corequisite Challenge Petition. This form can be obtained from the Admissions Office.
2. The completed challenge petition and any and all appropriate documentation (e.g. transcripts, verifications

of experience, etc) must be filed no later than 10 working days before a semester or session begins with the Admissions Office.

3. The challenge petition will be processed within 5 working days of its receipt, and the student notified accordingly.
4. If the challenge is found to be justified, and no space is available in the course at the time the challenge is filed, the student shall be permitted to enroll for the next term. Enrollment will be permitted only if space is available when the student registers for the subsequent semester or summer session.
5. Notification of the appeal decision will be sent to the student within 5 working days after its receipt by the office of Academic Affairs.

CREDIT FOR PREREQUISITES

Students may not concurrently enroll in and receive credit for an advanced course and its prerequisites.

Students may not enroll in and receive credit for the prerequisites to an advanced course if they have previously completed the advanced course.

Violation of these conditions will result in exclusion from class and denial of course credit.

FULL-TIME DEFINITION

A study program of 12 units or more is considered a full-time study program for the fall or spring semesters.

Minimum study loads for specific programs:

1. Veterans and veterans' dependents: 12 units.
2. Social security benefits: 12 units.
3. Foreign Students (F-1 visa): 12 units.
4. Athletes: 12 academic units.

The Veterans Administration uses the following definition for eligibility:

FULL-TIME	12 OR MORE UNITS
3/4 benefits	9 through 11 units
1/2 benefits	6 through 8 units

Any change in a Veteran's status whether it be increase, decrease, or complete withdrawal should be brought to the immediate attention of the Certifying Official. The Social Security Office is given notice by the office of Admissions and Records when the status of a student receiving benefits is changed.

CONCURRENT COURSE ENROLLMENT

Concurrent enrollment in more than one section of the same course during a semester is not permitted, with the exception of certain Kinesiology classes on a limited basis.

Consult with the department for additional detail. Concurrent enrollment in courses which are cross-referenced to each other is not permitted (i.e., courses designated "same as" in the District Directory of Educational Programs and Courses).

Violation of this regulation will result in loss of transfer credit.

Enrolling in classes scheduled or conducted during overlapping times is not permitted.

AUDITING CLASSES

Students who have completed an application and who are authorized to register may be permitted to audit a class under the following conditions:

1. Payment of a fee of \$15 per unit. Students enrolled in classes to receive credit for ten or more semester units shall not be charged a fee to audit three or fewer semester units per semester.
2. No student auditing a course shall be permitted to change his or her enrollment in that course to receive credit for the course.
3. Priority in class enrollment shall be given to students desiring to take the course for credit.

ADDING AND DROPPING CLASSES

A STUDENT MAY ADD AND DROP CLASSES BETWEEN CERTAIN DATES AS PUBLISHED IN THE SCHEDULE OF CLASSES EACH SEMESTER.

REGISTRATION APPOINTMENTS

Students continuing from the prior semester will automatically receive registration notification through the district email. New and returning students are issued a Registration Appointment when the application for admission is approved.

Admission and registration information may be obtained by phoning (323) 265-8966.

DROPPING CLASSES AND WITHDRAWING FROM COLLEGE

The student is asked to consult with a counselor when considering withdrawing from the College. Clearance of the record in courses where equipment has been issued is required when the student separates from such classes. Individual classes may be dropped online through the student portal. Students who cease attending class or classes officially or unofficially are Subject to the following regulations:

1. Dropping officially from a class or withdrawing from the College by the end of 20% of the term will prevent classes from appearing on the student's permanent record.
2. Dropping a class after 20% of the term is completed will result in a "W" being recorded by the Admissions Office. IT IS THE STUDENT'S RESPONSIBILITY TO DROP BEFORE THE DEADLINE DATES. Excessive "W" grades may lead to progress dismissal.
3. Students are not permitted to drop a class or withdraw from the College after 75% of the term. Grades shall be recorded by the instructor based on the grade-point average of the student during the period of attendance. Students may receive a failing grade in any course when they stop attending class and do not officially drop the class.
4. Students seeking withdrawal from a class after the "W" deadline for extenuating circumstances must submit a petition to Admissions clearly stating the circumstances

and providing documentation of such circumstances. Petitions are available in the Admissions Office after the "W" deadline. Petitions will not be accepted without documentation.

The Registrar will review petitions. The following criteria will be applied:

Verified cases of accidents, illness, or other circumstances beyond the control of the student, such as death of an immediate family member, natural disaster, and/or other reasonable obstacles that prevented a student from complying with college procedures for dropping a class.

If approved the students academic record will be noted with a "EW" Excused Withdrawal.

Students wishing to appeal the final decision should be referred to the Student Grievance Procedures, Administrative Regulation E-55.

IT IS THE STUDENT'S RESPONSIBILITY TO DROP CLASSES HE/SHE NO LONGER WISHES TO ATTEND. FAILURE TO DROP A CLASS, MAY RESULT IN FEE CHARGES, AND/OR HAVING GRADES OF "W" OR "F" LISTED ON OFFICIAL TRANSCRIPTS.

"W" records count as attempted enrollment. Students are currently limited to three attempts in the same course.

The EW grade should be excluded from the progress probation and dismissal calculation and should not be counted as an enrollment attempt.

Student Information

STUDENT POLICIES

STANDARDS OF STUDENT CONDUCT AND STUDENT RIGHTS

A student enrolling in one of the Los Angeles Community Colleges may rightfully expect that the faculty and administrators will maintain an environment in which there is freedom to learn. This requires that there be appropriate conditions and opportunities in the classroom and on the campus. As members of the College Community, students should be encouraged to develop the capacity for critical judgment to engage in sustained and independent search for truth and to exercise their rights to free inquiry and free speech in a responsible, non-violent manner.

Students shall respect and obey civil and criminal law, and shall be subject to legal penalties for violation of laws of the city, county, state, and nation.

Any questions concerning standards of student conduct and student rights should contact the Vice President of Student Services in EI.

Student conduct in all of the Los Angeles Community Colleges must conform to District and College rules and regulations. Violations of such rules and regulations, for which students are subjects to disciplinary action, include, but are not limited to, the following:

BOARD RULE 9803.10

WILLFUL DISOBEDIENCE

Willful disobedience to directions of College officials acting in the performance of their duties.

BOARD RULE 9803.11

VIOLATION OF COLLEGE RULES AND REGULATIONS

Violation of college rules and regulations, including those concerning student organizations, the use of college facilities, or the time, place, and manner of public expression or distribution of materials.

BOARD RULE 9803.12

DISHONESTY

Dishonesty such as cheating or knowingly furnishing false information to the colleges.

POLICY ON ACADEMIC HONESTY

EAST LOS ANGELES COLLEGE

Approved February 28, 2006 by the Academic Senate and Vice President of Student Services.

Students, you are expected to refrain from engaging in the following behaviors:

1. Using, receiving, or providing unauthorized information during tests or on any written assignments.
2. Changing answers on assignments after work has been graded.
3. Using unauthorized electronic devices, such as cell phones, PDAs, electronic dictionaries, IPODs, etc.
4. Having another student take an examination for you or taking an examination for another student. Photo identification may be required at the first examination.
5. Plagiarizing or presenting someone else's work as your own.
6. Forging or altering registration documents, grades, or add permits.
7. Bribing or attempting to bribe an instructor or other college official for grade consideration or other special favors.
8. Violating any other standard that an instructor identifies as cheating in that particular course or Subject area.

When there is evidence of academic dishonesty, the instructor may issue the student a zero or "F" on that particular assignment or test. The instructor may also initiate student discipline under LACCD BOARD RULE 91101, which may include the issuance of a verbal or written warning. Pursuant to LACCD BOARD RULE 91101.11 (a), the Vice President of Student Services will place documentation of such warnings in the student's file.

Any student concerned about the implementation of this policy should contact the office of Student Services in EI or the Ombudsperson at ombuds@elac.edu for information where he/she will find references to the Student Grievance Procedure and the relevant Board Rules.

BOARD RULE 9803.13

UNAUTHORIZED ENTRY

Unauthorized entry to or use of the college facilities.

BOARD RULE 9803.14

COLLEGE DOCUMENTS

Forgery, alteration, or misuse of college documents, records, or identification.

BOARD RULE 9803.15

DISRUPTION OF CLASSES OR COLLEGE ACTIVITIES

Obstruction or disruption of classes, administration, disciplinary procedures, or authorized college activities.

BOARD RULE 9803.16

THEFT OF OR DAMAGE TO PROPERTY

Theft of or damage to property belonging to the college, a member of the college community, or a campus visitor.

BOARD RULE 9803.17

INTERFERENCE WITH PEACE OF COLLEGE

The malicious or willful disturbance of the peace or quiet of any of the Los Angeles Community Colleges by loud or unusual noise or any threat, challenge to fight, fight, or violation of any rules of conduct as set forth in this Article. Any person whose conduct violates this section shall be considered to have interfered with the peaceful conduct of the activities of the college where such acts are committed.

BOARD RULE 9803.18

ASSAULT OR BATTERY

Assault or battery, abuse or any threat of force or violence directed toward any member of the college community or campus visitor engaged in authorized activities.

BOARD RULE 9803.19

ALCOHOL OR DRUGS

Any possession of controlled substances which would constitute a violation of Health and Safety Code section 11350 or Business and Professions Code section 4230, any use of controlled substances the possession of which are prohibited by the same, or any possession or use of alcoholic beverages while on any property owned or used by the District or colleges of the District or while participating in any District or college-sponsored function or field trip. "Controlled substances" as used in this section, include but are not limited to the following drugs and narcotics:

- a. opiates, opium, and opium derivatives
- b. mescaline hallucinogenic substances
- c. marijuana
- d. peyote
- e. stimulants and depressants
- f. cocaine

BOARD RULE 9803.20

LETHAL WEAPONS

Possession, while on a college campus or at a college-sponsored function, of any object that might be used as a lethal weapon is forbidden to all persons except sworn peace officers, police officers, and other governmental employees charged with policing responsibilities.

BOARD RULE 9803.21

DISCRIMINATORY BEHAVIOR

Behavior while on a college campus or at a college-sponsored function, inconsistent with the District's Non-discrimination Policy, which requires that all programs and activities of the Los Angeles Community College District be operated in a manner which is free of "Prohibited Discrimination" defined as discrimination or harassment in violation of state or federal law on the basis of race, color, national origin, ancestry, religion, creed, actual or perceived ethnic group identification, sex (including gender-based sexual harassment), pregnancy, marital status, sexual orientation, age, physical or mental disability, or veteran status.

BOARD RULE 9803.22

UNLAWFUL ASSEMBLY

Any assemblage of two or more persons to 1) do an unlawful act, or 2) do a lawful act in a violent, boisterous, or tumultuous manner.

BOARD RULE 9803.23

CONSPIRING TO PERFORM ILLEGAL ACTS

Any agreement between two or more persons to perform illegal acts.

BOARD RULE 9803.24

THREATENING BEHAVIOR

A direct or implied expression of intent to inflict physical or mental/emotional harm and/or actions, such as stalking, which a reasonable person would perceive as a threat to personal safety or property. Threats may include verbal statement, written statements, telephone threats or physical threats.

BOARD RULE 9803.25

DISORDERLY CONDUCT

Conduct which may be considered disorderly includes: lewd or indecent attire or behavior that disrupts class or college activities; breach of the peace of the college; and aiding or inciting another person to breach the peace of college premises or functions.

BOARD RULE 9803.26

THEFT OR ABUSE OF COMPUTER RESOURCES

Theft or abuse of computer resources including but not limited to:

- a. Unauthorized entry into a file to use, read, or change the contents, or for any other purpose.
- b. Unauthorized transfer of a file.
- c. Unauthorized use of another individual's identification and password.
- d. Use of computing facilities to interfere with the work of a student faculty member or college official, or to alter college or district records.
- e. Use of unlicensed software.
- f. Unauthorized copying of software.
- g. Use of computer facilities to access, send or engage in messages which are obscene, threatening, defamatory, present a clear and present danger, violate a lawful regulation and/or substantially disrupt the orderly operation of a college campus.
- h. Use of computing facilities to interfere with the regular operation of the college or district computing system.

BOARD RULE 9803.27

PERFORMANCE OF AN ILLEGAL ACT

Conduct while present on a college campus or at a location operated and/or controlled by the District or at a District-sponsored event, which is prohibited by local, state, or federal law.

BOARD RULE 9803.28

ACADEMIC DISHONESTY

Violations of Academic Integrity include, but are not limited to, the following actions: cheating on an exam, plagiarism, working together on an assignment, paper or project when the instructor has specifically stated students should not do so, submitting the same term paper to more than one instructor, or allowing another individual to assume one's identity for the purpose of enhancing one's grade.

BOARD RULE 9804

INTERFERENCE WITH CLASSES

Every person who, by physical force, willfully obstructs, or attempts to obstruct, any student or teacher seeking to attend or instruct classes at any of the campuses or facilities owned, controlled, or administered by the Board of Trustees of the Los Angeles Community Colleges District, is punishable by a fine not exceeding five hundred dollars (\$500) or imprisonment in a county jail not exceeding one year, or by both such fine and imprisonment. As used in this section, "physical force" includes, but is not limited to, use of one's person, individually or in concert with others, to impede access to or movement within or otherwise to obstruct the students or teachers of the classes to which the premises are devoted.

BOARD RULE 9805

INTERFERENCE WITH PERFORMANCE OF DUTIES BY EMPLOYEES

Every person who attempts to cause, or causes, any officer or employee of any of the Los Angeles Community College or any public officer or employee to do or refrain from doing, any act in the performance of his/her duties, by means of a threat to inflict any injury upon any person or property, is guilty of a public offense.

BOARD RULE 9805.10

ASSAULT OR ABUSE OF INSTRUCTOR

Every parent, guardian, or other person who assaults or abuses any instructor employed by the District in the presence or hearing of a community college student, or in the presence of other community college personnel, or students and at a place which is on District premises or public sidewalks, streets, or other public ways adjacent to school premises, or at some other place where the instructor is required to be in connection with assigned college activities is guilty of a misdemeanor.

BOARD RULE 9806

UNSAFE CONDUCT

Conduct which poses a threat of harm to the individual and/or to others. This includes, but is not limited to, the following types of conduct:

- a. Unsafe conduct in connection with a Health Services Program (e.g., Nursing, Dental Hygiene, etc.);
- b. Failure to follow safety directions of District and/or College staff;
- c. Willful disregard of safety rules as adopted by the District and/or College; and/or
- d. Negligent behavior which creates an unsafe environment.

BOARD RULE 9901

COLLEGES AS NON-PUBLIC FORUMS

The colleges of the Los Angeles Community College District are non-public forums, except for those portions of each college designated as Free Speech Areas are hereby designated as limited public forums, which designation may be removed and reversed to non-public forum designations by the Board of Trustees.

BOARD RULE 9902

FREE SPEECH AREAS

The college president shall designate an area or areas on the college campus as areas for free discussion and expression by all persons. A Free Speech Area may only be located where there is a normal flow of student traffic with unlimited accessibility. Necessary campus rules governing the operation of such areas shall govern only the time, place, and manner in which said areas are to be used. All such rules shall be applied equally and fairly to all persons desiring to use the Free Speech Areas. No restrictions shall be placed on subject matter, topics of viewpoints expressed in Free Speech Areas.

BOARD RULE 9902.10

RESPONSIBILITIES OF PERSONS USING FREE SPEECH AREAS

All persons using the Free Speech Area of a college are expected to monitor the content of their speech such that the expression (1) is not obscene, libelous, or slanderous according to current legal standards, (2) does not create a clear and present danger of the commission of unlawful acts on community college premises, (3) is not violative of lawful community college regulations, or (4) does not substantially disrupt the orderly operation of the college. Any person who is found to have expressed speech in violation of this section may be Subject to the sanctions applicable respectively to students, staff, faculty, or visitors.

BOARD RULE 9902.11

DISTRIBUTION OF MATERIALS

Persons using a Free Speech Area shall be allowed to distribute petitions, circulars, leaflets, newspapers, miscellaneous printed matter, and other materials, Subject to the following restrictions:

- a. Such distribution shall take place only within the geographical limits of the Free Speech Area;
- b. Any material being distributed which is discarded or dropped in or around the Free Speech Area other than in an appropriate receptacle must be retrieved and removed or properly discarded by those persons distributing the material prior to their departure from the Free Speech Area that day;
- c. Persons distributing material shall not impede the progress of passersby into taking the proffered material.

BOARD RULE 9902.12

FORMS OF SPEECH

Persons using a Free Speech Area shall be entitled to exercise their speech privileges in any manner which does not violate the rules of conduct set forth in Article VIII or in this

Article, including but not limited to the use of printed materials and the wearing of buttons, badges, or other insignia, except that:

- a. No means of amplification may be used, electronic or otherwise, which creates any noise or diversion that disturbs or tends to disturb the orderly conduct of the campus or classes taking place at the time;
- b. No person using the Free Speech Area shall physically touch, strike, or impede the progress of passers-by, except for incidental or accidental contact, or initiation of such contact by a passerby;
- c. No person using the Free Speech Area shall solicit donations of money, through direct requests for funds, sales of tickets, or otherwise, except where he/she is using the Free Speech Area on behalf of and collecting funds for an organization which is registered with the Secretary of State as a nonprofit corporation, or is an approved Associated Student Organization or Club.

BOARD RULE 9902.13

TIME ALLOTMENTS FOR SPEECH

The president of each college or his/her representative may set reasonable time restrictions on the use of Free Speech Areas, in order to ensure that all persons are given equal access to the use of the Free Speech Area.

The times at which the Free Speech Area may be used shall be Subject to reasonable campus regulations.

East Los Angeles College's rules, regulations, and related policies regarding its Free Speech Areas may be obtained from the Student Activities Office.

BOARD RULE 9903

STUDENT EXERCISE OF FREE SPEECH IN AREAS OUTSIDE OF DESIGNATED FREE SPEECH AREA

The president of each college may designate areas outside of the Free Speech Areas where students, faculty, and staff may exercise freedom of expression Subject only to reasonable time, place, and manner restrictions.

BOARD RULE 9903.10

BULLETIN BOARDS

Students shall be provided with bulletin boards for use in posting student materials at campus locations convenient for student use. The location and number of such bulletin boards shall be determined by the college president or his/her representative.

Each college may have bulletin boards. The use of the bulletin boards shall be open to use only by students or recognized student organizations and shall be based on a first-come, first-served basis.

Posting of materials on bulletin boards shall be Subject to the limitations concerning the manner of exercising students' rights of free expression in Free Speech Areas pursuant to Section 9902.10

All material displayed shall clearly indicate the author or agency responsible for its production and shall be dated with the date of posting by the College president's designee.

The president of each college shall prescribe reasonable lengths of time during which such printed material may be posted on the bulletin boards with the object of assuring fair access to the bulletin boards for all students.

BOARD RULE 9903.11

POSTING AREAS

The president of each college, or his/her representative, may designate areas other than the bulletin boards for display of materials.

BOARD RULE 9904

STUDENT USE OF AREAS NOT DESIGNATED FOR FREE SPEECH ACTIVITIES

Student use of classrooms, rooms, buildings, facilities and grounds not designed as Free Speech Areas or otherwise designated for student free speech exercises in accordance with this article shall be governed by the rules and regulations established pursuant to Article X, relating to student activities and events.

BOARD RULE 9905

VISITOR USE OF AREAS NOT DESIGNATED FOR FREE SPEECH ACTIVITIES

Visitor use of any areas, classrooms, rooms, buildings, facilities, and grounds not designated as Free Speech Areas is Subject to the Civic Center Permit rules set forth in Chapter VII, Article 2 of these Board Rules.

BOARD RULE 91001

APPLICATION OF THIS ARTICLE TO NON-FREE SPEECH AREAS

Events and activities conducted on a college campus by students or associated student organization clubs or groups which do not take place in an area designated for student free speech by the president of the college pursuant to Article IX shall be governed by the rules set forth in this Article.

BOARD RULE 91002

PRESIDENT'S AUTHORITY TO CREATE ADDITIONAL RULES

The president of each college may adopt and approve rules not set forth in these rules for the purpose of governing the use of the college's facilities. The president shall not approve any rules which are inconsistent with this Article.

BOARD RULE 91003

FUND-RAISING EVENTS FOR NON-PROFIT PURPOSES

A college or student body participating with outside organizations in non-profit fund-raising events such as membership drives, merchandising sales, book collections, or other events when the public is asked to contribute, or solicited to purchase tickets or any merchandise, shall ascertain that the organization is registered with the Secretary of State as a nonprofit corporation.

BOARD RULE 91004

SPEAKERS TO CAMPUS GROUPS

The president of each college shall establish regulations regarding the appearance of visiting speakers in accordance with the following regulations.

BOARD RULE 91004.10**GUEST LECTURERS**

An instructor may invite an individual to participate in his/her class as a guest lecturer. The instructor shall give written notice identifying the speaker to the college president or his/her designated representative.

BOARD RULE 91004.11**LECTURERS AND SPEAKERS AT STUDENT-SPONSORED FORUMS**

Recognized student organizations may invite and hear persons of their own choosing, provided they give prior written notice identifying the speaker to the college president or his/her designated representative.

BOARD RULE 91004.12**NON-CENSORSHIP OF LECTURERS AND SPEAKERS**

Those routine procedures required by an institution before a guest speaker is invited to appear on campus shall be designed only to insure that there is an orderly scheduling of facilities and adequate preparation for the event, and that the occasion is conducted in a manner appropriate to an academic community. The institutional control of campus facilities shall not be used as a device of censorship. It shall be made clear to the academic and larger community that sponsorship of guest speakers does not necessarily imply approval or endorsement of the views expressed, either by the sponsoring group or the institution.

BOARD RULE 91005**APPLICABILITY OF FREE SPEECH RIGHTS**

All free speech rights accorded students in Article IX shall be accorded them in activities conducted under this Article; the college president shall not approve any rules relating to non-Free Speech Areas which would deny students their free speech rights were they conducting such activities in Free Speech Areas.

COPYRIGHT STATEMENT

Unauthorized distribution of copyrighted material, including unauthorized peer-to-peer file sharing, may Subject students to civil and criminal liability. Civil liability for copyright infringement may include payment of monetary damages to the copyright owner. Criminal penalties for copyright infringement may include fines up to \$250,000 and imprisonment up to ten years. Students who violate the District's computing facilities usage policy (LACCD Administrative Regulation B-27) may also be Subject to college disciplinary action, including, but not limited to, suspension or expulsion.

DRUG AND ALCOHOL-FREE SCHOOL AND CAMPUS

Students and employees are prohibited from unlawfully possessing, using or distributing illicit drugs and alcohol on District premises, in District vehicles, or as part of any activity of the Los Angeles Community College District.

The Los Angeles Community College District is committed to drug- and alcohol-free campuses, and we expect you to share in this commitment and dedication.

NO SMOKING POLICY

Smoking is not permitted on campus.

STUDENT DISCIPLINE PROCEDURES

Community college districts are required by law to adopt standards of student conduct along with applicable penalties for violation (Education Code Section 66300). The Los Angeles Community College District has complied with this requirement by adopting Board Rule 9803, Standards of Student Conduct (see above).

The District has adopted Board Rule 91101, Student Discipline Procedures, to provide uniform procedures to assure due process when a student is charged with a violation of the Standards of Student Conduct. All proceedings held in accordance with these procedures shall relate specifically to an alleged violation of the established Standards of Student Conduct. These provisions do not apply to grievance procedures, student organization councils and courts, or residence determination and other academic and legal requirements for admission and retention. Disciplinary measures may be taken by the College independently of any charges filed through civil or criminal authorities, or both.

Copies of the Student Discipline Procedures are available in the office of the President, and the Vice President of Student Services in E1.

STUDENT GRIEVANCE PROCEDURES

The purpose of the Student Grievance Procedures is to provide a prompt and equitable means for resolving student grievances. The procedures enumerated in Administrative Regulation E-55 shall be available to any student or applicant for admission, who believes a college decision or action has adversely affected his or her status, rights, and/or privileges as a student.

Administrative Regulation E-55 specifies the procedures when grades may be changed because they were given as the result of mistake, fraud, bad faith, or incompetence. Additional information is available at www.elac.edu/currentstudents/studentresources/ombudsperson.htm. Copies of the procedures are also available through the office of the President and the office of Student Services located in E1 or by calling 323-265-8778.

ROLE OF THE OMBUDSMAN

The President of each college appoints an Ombudsman to assist students with their grievances. This person's responsibility is to help students reach a resolution. If an informal resolution is not obtained, the Ombudsman will explain to the student the policies and procedures necessary to present a grievance to the campus' Grievance Hearing Committee. Please contact (323) 265-8712.

FAMILY EDUCATION RIGHTS AND PRIVACY**STUDENT RECORDS AND DIRECTORY INFORMATION**

The Los Angeles Community College District, in compliance with Federal and State law, has established policies and procedures governing student records and the control of

personally identifiable information. The Los Angeles Community College District recognizes that student records are a confidential matter between the individual student and the College.

The Family Educational Rights and Privacy Act (FERPA) affords students the following rights with respect to their educational records:

1. The right to inspect and review the student's educational records which includes discipline records, within 45 days from the date the College receives a request for access.

Students may submit to the College Admissions Office written requests that identify the specific record(s) they wish to inspect. Within 45 days, the College Admissions Office will make arrangements for access and will notify the student of the time and place where the records may be inspected.

Education records are those records that are directly related to students and are maintained by the College. Students may not inspect education records pertaining to parents' financial records and certain confidential letters or recommendations.

2. The right to request an amendment of the student's educational records which the student believes to be inaccurate, misleading, or otherwise in violation of the student's privacy rights.

Students may ask the College President, or his/her designee to amend a record that they believe is inaccurate, misleading, or in violation of their privacy rights. A student seeking to amend an educational record should write to the College President and clearly identify the part of the record he/she wants changed and specify why it is inaccurate, misleading, or in violation of his/her privacy rights.

If the College President, or his designee, decides not to amend the record as requested by the student, the College, in accordance with section 99.21 of the Code of Federal Regulations and section 76232 of the Education Code, will notify the student of the decision and of his/her right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's educational records, except to the extent that FERPA and California law authorize disclosures without consent.

If a student authorizes the release of his/her education record to a third party, he/she shall provide a dated written consent to the College Admissions Office authorizing said release with a specific list of the information to be released.

Federal and California law authorize certain disclosures of personally identifiable information without a student's written consent. One such exception is the disclosure of personally identifiable information to school officials with legitimate educational interests. School officials with legitimate educational interests are employees or agents of the Los Angeles Community College District who need to review educational records in order to fulfill their professional responsibilities.

4. The right to restrict disclosure of personally identifiable information that the College has designated as directory information which may be released without the written consent of the student.

Directory information may be disclosed without a student's consent unless the student has notified the college that he/she does not want all or portions of the directory information released. To do so, the student must submit the appropriate District form to the College Admissions Office requesting that some or all of the categories of directory information not be released without his/her consent. This form must be submitted in accordance with College policy.

Pursuant to Board Rule 5201.10, the Los Angeles Community College District has designated the following student information as directory information:

- a. the student's name, city of residence, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most previous educational agency or institution attended by the student;
- b. student employee records may be released in order to comply with collective bargaining agreements;
- c. the names, addresses, and telephone numbers of students or former students may be released to the foundation for each college for college-related activities at the discretion of the College President, unless the student or former student has informed the College that such information should not be released. The release of this information is conditioned upon the foundation's agreement that such information will be released in accordance with District policy and that information will not be released to third parties;
- d. at the discretion of the College President, the names, addresses, and telephone numbers of students from the College may be released to heads of private and/or public institutions of higher education, or their designees, for the purpose of providing information to students regarding transfer opportunities to those institutions, unless the student has indicated that such information should not be released. The release of this information will be conditioned upon the institution's agreement that student privacy rights under federal and state law will be protected and that information will not be released to third parties.

5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

FAMILY POLICY COMPLIANCE OFFICE
U.S. DEPARTMENT OF EDUCATION
400 Maryland Avenue S.W.
Washington, DC 20202-4605

At the same time, the District has a responsibility to fulfill public information needs (i.e., information about students participating in athletics, announcement of scholarships and awards, etc). To meet this responsibility the District may release Directory Information unless the student states in writing that he or she does not want it released.

The responsibility for carrying out these provisions is charged to the Dean Registrar who services as the College Records Officer. The Admissions and Records Officer may be contacted via the Admissions and Records Office. Copies of Federal and State laws and District policies and procedures are maintained by the Admissions and Records Officer and are available for inspection and inquiry.

All student records maintained by the various offices and departments of the College, other than those specifically exempted by law, are open to inspection by the student concerned. The accuracy and appropriateness of the records may be challenged in writing to the Records Officer. A student has the right to receive a copy of his or her record, at a cost not to exceed the cost of reproduction. (Requests for transcripts should be made directly to the Admissions Office).

No student records, other than Directory Information, will be released without the written consent of the student concerned except as authorized by law. A log of persons and organizations requesting or receiving student record information is maintained by the Admissions and Records Officer. The log is open to inspection only to the student and the community college official or his or her designee responsible for the maintenance of student records.

Directory information includes the student's name, city of residence, email, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student. Directory information about any student currently attending the College may be released or withheld at the discretion of the Admissions and Records Officer. In addition, special provisions exist for release of specific categories of student directory information to College Foundations and heads of private and public institutions if certain conditions are satisfied.

No Directory Information will be released regarding any student who has notified the Admissions and Records Officer in writing that such information shall not be released.

Under federal law, the military is entitled to receive directory information for recruiting purposes. A student can refuse the release of directory information by completing a "Release of Directory Information" form and submitting it to the Admissions Office.

All inquiries regarding student records, Directory Information, and policies for records access, release, and challenge should be directed to the Records Officer via the Admissions Records Office.

Students have the right to file a complaint with the United States Department of Education concerning alleged violations of Federal and State laws governing student records.

STUDENT IDENTIFICATION NUMBERS

The Los Angeles Community College District is committed to protecting student privacy and uses data collection and storage systems to eliminate the use of social security numbers as the primary method of student identification.

FINANCIAL AID

EI-173

WHAT IS FINANCIAL AID?

The purpose of student financial aid is to provide financial assistance to students who, without such aid, may be unable to attend college. Although it is expected that students and parents will make a maximum effort to meet the cost of education, financial aid is available to fill the gap between family resources and their annual educational expenses. Financial aid is intended to supplement the family's existing income/financial resources and should not be depended upon as the sole means of income to support other non-educational expenses.

Financial aid is available from various sources such as federal and state governments, institutional, and community organizations, as well as individual donors. Financial aid can be awarded in the form of grants, waivers, loans, work-study, scholarships, or a combination of these.

WHO IS ELIGIBLE FOR FINANCIAL AID?

To be considered for financial aid, students must meet the following minimum requirements:

- For federal aid eligibility, be a U.S. citizen or an eligible non-citizen. An eligible non-citizen is a U.S. permanent resident who has documentation from the Department of Homeland Security verifying that his/her stay in the U.S. for other than a temporary purpose.
- For state aid eligibility, be either a 1) U.S. citizen or eligible non-citizen, or 2) be classified as an AB 540 student by your college's Admissions & Records Office.
- Demonstrate financial need (for most programs).
- Be enrolled as a regular student in an eligible baccalaureate degree, associate degree, transfer program, or certificate of achievement program.
- Be making Satisfactory Academic Progress in an eligible program of study.
- Not be in default on any student loan such as Federal Perkins Loans, Federal Stafford Loans (subsidized and unsubsidized), Federal Direct Loans (subsidized and unsubsidized), Supplemental Loans to Assist Students (SLS) at any college attended.
- Not owe an overpayment on a Federal Pell Grant or Federal Supplemental Educational Opportunity Grant (FSEOG), Academic Competitiveness Grant (ACG), SMART Grant, or Iraq and Afghanistan Service Grant.
- If a male, be registered with Selective Service (including California Dream Act applicants).
- Have a valid Social Security Number (SSN) for federal aid eligibility.
- Must have resolved any drug conviction issues.
- File an income tax return if required to do so.
- Have a valid high school diploma (as determined by the college Admissions & Records Office) or a recognized equivalent such as General Education Development (GED) Certificate, passed a high school proficiency examination or completed a high school education in

a homeschool setting. (Students who were enrolled in a college or university prior to July 1, 2012, who do not meet this requirement should check with their Financial Aid office for alternative qualifying options).

- For state eligibility, be either a
 1. U.S Citizen or eligible non-citizen, OR
 2. Be classified as an AB 540 students by your college's Admissions & Records Office.

STUDENT DEPENDENCY CRITERIA STATUS

If you meet one or more of the criteria below, you are considered an INDEPENDENT student for financial aid purposes. Complete the Free Application for Federal Student Aid (FAFSA) or California Dream Act Application (CADAA, for AB540 students) with your (and your spouse's, if applicable) income and asset information. If you do NOT meet any of the criteria below, you are a DEPENDENT student and must provide your and your parents' income and asset information on the FAFSA or CADAA.

DEPENDENCY CRITERIA

- You were born before January 1, 1996.
- You are married.
- You will be enrolled in a master's or doctoral program (graduate or professional program beyond a bachelor's degree) in 2019-2020.
- You are a veteran of the US Armed Forces.
- You have or will have children who will receive more than half of their support from you between July 1, 2018 and June 30, 2019.
- You have dependents (other than your spouse or children) that live with you and receive more than half of their support from you now and through July 30, 2019 and June 30, 2020.
- At any time since you turned age 13, both your parents were deceased, or you were in foster care, or you were a dependent/ward of the court.
- As of today, you are an emancipated minor as determined by a court in your state of legal residence.
- As of today, you are in legal guardianship as determined by a court in your state of legal residence.
- At any time on or after July 1, 2018, your high school or school district homeless liaison determined that you were an unaccompanied youth who is homeless or were self-supporting and at risk of being homeless.
- At any time on or after July 1, 2018, the director of an emergency shelter or transitional housing program funded by the US Department of Housing and Urban Development determined that you were an unaccompanied youth who was homeless or were self-supporting and at risk of being homeless.
- At any time on or after July 1, 2018 the director of a runaway or homeless youth basic center or transitional living program determined that you were an unaccompanied youth who was homeless or were self-supporting and at risk of being homeless.

- The Financial Aid & Scholarship Office may require documentation showing you meet the criteria for being an INDEPENDENT student.

SPECIAL DEPENDENCY EXCEPTIONS

Under federal and state laws, if you are a dependent student you are required to provide parental information and signatures on your aid application. Under very limited conditions, you may be able to submit your application without parental information due to special circumstances. Examples of special circumstances include: your parents are incarcerated, or you left home due to an abusive family environment. Notify the Financial Aid & Scholarship Office if you feel that you have special circumstances.

If you believe you have a special circumstance and are unable to provide parental information, you will need to provide documentation to verify your situation. Written evidence may include court or law enforcement documents, letters from school counselor, social worker, or clergy member, and other relevant data that explains your situation.

HOW TO APPLY

We encourage all students to apply for financial aid online at fafsa.gov or at caldreamact.org (for AB540 students). Processing is fastest and most accurate when completing your application online. If you want to request a paper application, you may print one from the websites above or you may contact the Federal Student Aid Information Center at (800) 433-3243 (for the FAFSA) or the California Student Aid Commission at (888) 224-7268 (for the CADAA).

After the results of your FAFSA (or CADAA for AB540 students) are received by the college, you can view your financial aid status through the Los Angeles Community College District (LACCD) Student Information System (SIS) at mycollege.laccd.edu.

Students applying for Federal Direct Loans, Federal PLUS Loans, Emergency Loans, or scholarships, must complete additional processes and forms. Not all colleges participate in all of these programs. The FAFSA and/or CADAA are not required for some scholarships and emergency loans.

Staff members are available to answer your questions and help you complete any of the financial aid forms.

DEADLINES

March 2, 2019

For Cal Grant Consideration, you must submit a FAFSA (or CADAA for AB540 students) and a verified Grade Point Average (GPA).

May 1, 2019

Complete and submit all required documents to your Financial Aid Office. This will ensure that we are able to process your financial aid file in time for the start of the Fall 2019 semester.

September 2, 2019

Second chance deadline for community college students to apply for a Cal Grant B (except for AB540 students). Since the number of awards available in September is limited, it is best to apply by March 2, 2019.

June 30, 2020

Deadline for submitting a 2019–2020 FAFSA or CADAA (for AB540 students). For Federal Pell Grants, a valid electronically processed FAFSA must be received by the college from the US Department of Education before the last day of the semester for which you are enrolled or June 30, 2019, whichever comes first. Do not wait until the last minute to apply for financial aid.

FEDERAL DIRECT LOAN DEADLINE

Federal Direct Loans: Please check with the Financial Aid Office for campus specific deadlines.

VERIFICATION POLICY

If your application has been selected for verification, you will be required to provide additional documentation. Refer to the Financial Aid Office for pertinent deadlines. Failure to meet deadlines may result in the denial of financial aid.

Students can check their financial aid file status (and complete the verification process or download the appropriate forms) from the LACCD SIS. The LACCD SIS is accessible through mycollege.laccd.edu.

The Financial Aid Office may request additional documentation based on the information submitted on your financial aid application such as:

- Federal tax transcript, wage and income (W2) transcripts, and/or proof of non-filing
- Verification of untaxed income and benefits
- Verification Worksheet
- Other documents as needed to verify your application or situation

Verification requirements apply to all federal aid programs and the state Cal Grant program.

ENROLLMENT FEES & NON-RESIDENT TUITION**CALIFORNIA RESIDENT TUITION**

The Admissions Office determines the residency status for all students. Effective Summer 2018, the enrollment fee for a California resident is \$46.00* per unit. Enrollment fees may be waived for students who are eligible for a California College Promise Grant (CCPG) (formerly known as the Board of Governors (BOG) Fee Waiver).

** (Fees tuition may be subject to change)*

ASSEMBLY BILL 1899 STUDENTS

Victims of trafficking, domestic violence and other serious crimes may apply for and receive CCPG.

ASSEMBLY BILL 540 STUDENTS

Assembly Bill 540 (AB540) allows qualified students to be exempt from paying out-of-state tuition at public colleges and universities in California. Contact your Admissions & Records Office to determine if you qualify under this classification.

NON-RESIDENT STUDENTS

Non-resident students are required to pay a non-resident tuition fee of \$265 per unit in addition to the enrollment fees of \$46 per unit for a total of \$311 per unit. Non-resident students are not eligible for California College Promise Grant (formerly known as Board of Governor's Fee Waiver)

* Note: Fee and Tuition may be subject to change

GENERAL INFORMATION**ENROLLMENT AND AID ELIGIBILITY**

Students must be enrolled at the LACCD college at which they have been processed for financial aid in order to be eligible for federal and state aid (other than the CCPG). This college will be considered your Home School.

AUDITED CLASSES

Students cannot receive financial aid, including the CCPG, for enrollment in audited classes. No exceptions to this policy can be made.

ENROLLMENT AT OTHER COLLEGES

Consortium Agreements are in effect for all colleges within the LACCD. If you are attending more than one college within the District in the same term, your enrollment status will be the sum total of all approved units in which you are enrolled throughout the District.

Approved Units are courses within a student's academic program. For students who have had an Extension Petition approved, Approved Units refer to the units/classes listed on their Student Educational Plan (submitted with their petition) that have been approved by the Financial Aid Office for financial aid eligibility.

Please note that if you have an Extension Petition approved by our Financial Aid Office, you must be enrolled in at least one approved class at your Home School. If the classes you are enrolled in are not approved, the units will not be included in the calculation of your aid.

If you plan to enroll in courses outside of the LACCD and wish to have those courses count for enrollment and payment, you must complete a Consortium Agreement form. The institution outside of the LACCD must be an eligible institution in order for your home school to process the Consortium Agreement.

SUMMER FINANCIAL AID

Your 2018–2019 or 2019–2020 FAFSA or (CADAA) can be used for financial aid for Summer 2019. For more information, check with the Financial Aid & Scholarship Office.

WINTER FINANCIAL AID

The winter session is considered part of the fall semester for financial aid program purposes. Courses taken during the winter session are defined as short-term courses. Winter session units count toward the total unit enrollment payment for the Fall semester. If you take a winter course, you must complete the course in order to be eligible for disbursement. If you withdraw from the winter course, you may be subject to an overpayment or Return to Title IV (R2T4) regulations.

TAX CREDITS

American Opportunity Tax Credit – The American Opportunity Tax Credit is a tax credit of up to \$2,500 of the qualified education expenses paid for an eligible student during the tax year.

The tax credit is available to individuals whose modified adjusted gross income is \$90,000 or less, or \$180,000 or less for married couples filing a joint return.

Lifetime Learning Credit – Families may be able to claim up to \$2,000 for qualified education expenses. The maximum credit is determined on a per-taxpayer (family) basis, regardless of the number of postsecondary students in the family. Students whose fees are covered by a fee waiver, scholarship, or grant would not be able to include their costs for tax credit calculation.

For more information on tax credit programs you should consult your tax professional, the Internal Revenue Service (IRS) Publication 970 or the IRS website at irs.gov.

STATE FINANCIAL AID PROGRAMS

CALIFORNIA COLLEGE PROMISE GRANT (FORMERLY BOARD OF GOVERNORS (BOG) FEE WAIVER)

We encourage all students to apply using the FAFSA or CADAA (for AB540 students) so that they will be considered for all available financial aid programs.

The CCPG is offered by the California Community Colleges. Applicants are not required to be enrolled in a specific number of units or courses to receive the CCPG. The CCPG only waives enrollment fees and no other fees. Approval for the CCPG is district wide. Your academic standing within the LACCD may impact your ability to receive the CCPG.

You are eligible to apply for the CCPG if you are:

- A California resident or are classified as an AB540 students AND
- You are enrolled in credit coursework.

YOU MAY QUALIFY FOR THE CCPG IF ANY OF THE FOLLOWING CATEGORIES APPLY TO YOU:

Method A: Receipt of Benefits

At the time of application, you are a recipient of benefits under the TANF/CalWORKs Program, Supplemental Security Income/State Supplementary Payment (SSI/SSP), or General Assistance Program (GA). Documented proof of benefits is required.

Method B: Income Standard

You and/or your family must meet the specified income standards by household size.

Method C: Student Aid Applicant

You may be eligible if you have applied for financial aid via the FAFSA or CADAA (for AB540 students) and you have been determined to have sufficient financial need based on the information you have provided.

Method D: Homeless Youth

You may be eligible if you are a homeless youth under the age of 25.

Other Ways to Qualify for the CCPG

- You are eligible if you have Certification from the California Department of Veterans Affairs or the National Guard Adjutant General that you qualify for a Dependent's CCPG.
- If you are a dependent of deceased law enforcement/ fire suppression personnel killed in the line of duty, you must show documentation from the public agency employer of record. The documentation must specify eligibility for the 2018-2019 academic year.
- If you are a recipient of the Congressional Medal of Honor or a child of a recipient, submit documentation from the Department of Veterans Affairs.
- If you are a dependent of a victim of the September 11, 2001 terrorist attacks, submit documentation from the California Victim Compensation and Government Claims Board.

Registered Domestic Partnership

If you are in a Registered Domestic Partnership (RDP), you will be treated as an independent, married student to determine eligibility for the CCPG and will need to provide income and household information for your domestic partner. If you are a dependent student and your parent is in a Registered Domestic Partnership, you will be treated the same as a student with married parents and income and household information will be required from your parent's domestic partner. This is applicable to state aid only, not federal aid.

Qualify by 2019–2020 Income Standards

You meet the following income standards:

Number in Total Family Income 2018 Household adjusted gross income (including yourself) and/or untaxed income)

FAMILY SIZE	2018 INCOME
1	\$18,210
2	\$24,690
3	\$31,170
4	\$37,650
5	\$44,130
6	\$50,610
7	\$57,090
8	\$63,570

Each Additional Family Member \$6,480

LOSS OF (BOG) CCPG

CALIFORNIA COLLEGE PROMISE GRANT (FORMERLY BOARD OF GOVERNORS (BOG) FEE WAIVER)

CCPG PROGRAM CHANGES EFFECTIVE FALL 2016

Important! Effective Fall 2016, students who are placed on academic and/or progress probation or Disqualified in two consecutive primary terms (Fall/Spring) will lose their eligibility for CCPG.

ACADEMIC & PROGRESS STANDARDS

Students will lose their CCPG if they reach two consecutive primary terms (Fall/Spring) of not meeting academic and/or progress standards.

- Academic Standard: Cumulative GPA of at least 2.0.
- Progress Standard: Cumulative satisfactory completion of more than 50% of attempted units.
- Disqualified Students will be notified of probation and/or disqualification status within 30 days of the end of the term.

APPEALS PROCESS

Students would need to submit an appeal to the Financial Aid & Scholarship Office, appeals will be forwarded to the Admissions and Records Office for review.

- Loss of eligibility becomes effective at the first registration opportunity after determination of Probation or Disqualification status is determined.
- The effective date is based on each student's individual registration date, not the date that registration opens for all students.

There will be published deadlines for submitting CCPG appeals for each term.

Students that lose eligibility will have access to options to regain CCPG Program eligibility in the following ways:

- Work to regain academic or progress standards, or;
- Successfully appeal the loss of the fee waiver, or;
- Sit out two consecutive terms

Students that are Exempt:

Foster Youth and Former Foster Youth who are 24 years and younger are not subject to loss of fee waiver under these new regulations.

STATE FINANCIAL AID PROGRAMS

California College Promise Grant (CCPG) (formerly known as Board of Governors (BOG) Fee Waiver):

The CCPG is offered by the California Community Colleges.

California Community College Completion Grant (CCCG)

The main purpose of the CCCG grant is to provide students with \$1,500 a year. The CCCG will help offset their total cost

of community college attendance. With CCCG grant, students are to enroll in 15 units ensuring timely completion of their program.

Students must enroll in at least 15 units each semester and also be receiving and the Cal grant B or C award. The CCCG is a grant, designed to work in conjunction with other financial aid.

To receive a CCCG payment, students must meet the following requirements.

- Be receiving the Cal Grant B or C.
- Be enrolled in at least 15 units for a primary term (fall and spring), or be enrolled in 12 units for a primary term and also enrolled in at least three units in any adjacent winter or summer term.
- Be enrolled in a sufficient number of units per term as determined by the community college to be considered on track to receive a degree or certificate within the published length of time.
- Maintain a cumulative GPA of 2.0.
- Maintain pace and adhere to his or her qualifying comprehensive student education plan (SEP) and
- Must have financial need.

CALIFORNIA STUDENT AID COMMISSION (CSAC) PROGRAMS

CAL GRANTS

Students must meet the general eligibility requirements as well as the following eligibility requirements for the Cal Grant Programs:

- Be a California resident or AB540 eligible
- Attend a Cal Grant participating California college or university.
- Have family income and assets below the ceilings.
- Not have a bachelor's or professional degree before receiving a Cal Grant.
- Not be incarcerated.

DEADLINE DATE: ENTITLEMENT GRANTS

March 2, 2019 – Primary Deadline

September 2, 2019 – Second Deadline for community college applicants for Competitive Grants (except for AB540 students), but we highly recommend that applicants meet the March 2nd deadline when more funding is available.

Students must submit their FAFSA (or CADAA for AB540 students) by the applicable deadline to the CSAC. They must also have their verified GPA submitted to CSAC by the applicable deadline. GPA verification for students enrolled within the LACCD will be electronically sent to the Commission by the deadline date for those who meet specific criteria.

Check with the Financial Aid & Scholarship Office regarding eligibility for having your LACCD GPA submitted automatically on your behalf.

Students who are awarded Cal Grants can manage their award through the CSAC WebGrants 4 Students website at webgrant4students.org.

TYPES OF CAL GRANTS AVAILABLE

ENTITLEMENT GRANTS

- Cal Grant A – Provides grant funds to help pay for tuition/fees at qualifying institutions offering baccalaureate degree programs. If you receive a Cal Grant A but are enrolled in an associate degree, transfer, or Certificate of Achievement program, your award will be held in reserve for up to three years until you transfer to a bachelor's degree program.
- Cal Grant B – Provides subsistence payments for new recipients in the amount of \$1,672* for a full-time, full year award (* 2018-2019 award year amount).
 1. Payments are reduced accordingly for three-quarters and half-time enrollment for each payment period.
 2. Cal Grant B recipients who transfer to a tuition/fee-charging school after completing one or two years at a community college may have their grant increased to include tuition and fees as well as subsistence.
- Cal Grant Transfer Entitlement Award – This award is for eligible California Community College students who are transferring to a four-year college and are under the age of 28 as of December 31st of the award year.

COMPETITIVE GRANTS

- Cal Grant A and B Competitive Awards are used for the same purpose as the entitlement awards, except that they are not guaranteed and the number of awards is limited.
- Cal Grant C recipients are selected based on financial need and vocational aptitude. Students must be enrolled in a vocational program at a California Community College, private college, or career technical school in a course of student lasting from four months to two years. The 2018-2019 Cal Grant C maximum award amount was \$547.00.

LAW ENFORCEMENT PERSONNEL DEPENDENTS GRANT (LEPD)

STUDENT ELIGIBILITY

- Be a dependent or spouse of California Peace Officers employed by public entities, who have been killed in the performance of duty or totally disabled as a result or caused by external violence or physical force incurred in the performance of duty.
- Be enrolled in a minimum of six (6) units in the LACCD.
- Demonstrate financial need as determined by the Financial Aid Office at your Home School.

The grant will be in an amount equal to the amount provided to a student who has been awarded a Cal Grant. Awards may be used for tuition and fees, books, supplies, and living expenses.

For more information and to obtain an application:

- Go to Commission Programs www.csac.ca.gov. or email specialized@csac.ca.gov.
- Call the CSAC Specialized Programs Branch at (888) 224-7268, option #3 OR
- Submit a request in writing to:

CALIFORNIA STUDENT AID COMMISSION
SPECIALIZED PROGRAMS
P.O. Box 419029
Rancho Cordova, CA 95741-9029

CHAFEE GRANT

The California Chafee Grant is a federally funded grant administered by CSAC. It provides assistance to current or former foster youth under the age of 22 as of July 1, 2018, and dependent or ward of the court between 16 and 18 with financial need, to use for college courses or vocational school training. Eligible students may receive up to \$5,000 per academic year.

To learn more about this program and to apply, visit the Chafee website at chafee.csac.ca.gov or call (888) 224-7268. or email your questions to studentssupport@csac.ca.gov with "Attn: Chafee" in the subject line or write the commission or email your application to:

CALIFORNIA STUDENT AID COMMISSION
SPECIALIZED PROGRAMS OPERATIONS BRANCH
Attn: California Chafee Grant Programs
P.O. Box 419029
Rancho Cordova, CA 95741-9029
Fax to (916) 526-7977

CALIFORNIA NATIONAL GUARD EDUCATION ASSISTANCE AWARD PROGRAM (CNG EAAP)

The CNG EAAP is a program for active members in the California National Guard, the State Military Reserve, or the Naval Militia designed to provide an educational incentive to improve skills, competencies and abilities.

To qualify, you must:

- Be an active member who has served two (2) years in the California National Guard, the State Military Reserve, or the Naval Militia;
- Agree to remain an active member throughout the participation period in the program;
- Agree to use the award to obtain a certificate, degree, or diploma that you currently do not possess;
- Be enrolled in, registered at, or accepted to a qualifying institution;
- Agree to maintain enrollment of a minimum of three (3) academic units per semester, or the equivalent, at a qualifying institution;
- Agree to maintain at least 2.0 cumulative grade point average (GPA); AND
- Be a resident of California for at least one year.

For more information, go to nationalguard.csac.ca.gov.

OTHER RESOURCES

SCHOLARSHIPS

Throughout the year, the Financial Aid and Scholarship Office receives announcements on scholarship opportunities. The focus of each scholarship is different; some require good grades, some required financial need, and some are awarded to students who are majoring in certain areas. Contact the Financial Aid and Scholarship Office for more information.

TRIO/STUDENT SUPPORT SERVICES PROGRAMS

The Federal TRIO Programs are federal outreach programs designed to identify and provide services to low-income, first-generation college students, and individuals with disabilities evidencing academic need. They were created to motivate these students towards the successful completion of their postsecondary education. Students must be either a US citizen or permanent resident.

EXTENDED OPPORTUNITY PROGRAM & SERVICES (EOP&S)

The EOP&S Program is designed primarily for the recruitment and retention of students affected by social, economic, education, or language disadvantages.

EOP&S services include grants and book loans; educational, personal, and career counseling; personal development courses; college survival skills; cultural awareness activities; career workshops; and field trips to four-year colleges and universities.

Criteria for EOP&S students: Be currently receiving a CCPG (Method A or B), be educationally disadvantaged, be enrolled in 12 or more units, have completed less than 70 units or 6 consecutive semesters, and be a California resident (or AB540 student).

NEXT UP (FORMERLY KNOWN AS COOPERATIVE AGENCIES FOSTER YOUTH EDUCATIONAL SUPPORT (CAFYES))

The mission of Next Up is to provide additional services and support to eligible current or former foster youth. The Next Up program is administered by the EOP&S.

COOPERATIVE AGENCIES RESOURCES FOR EDUCATION (CARE)

CARE is a state funded support service for single parents receiving public assistance who have children under the age of 14.

Services include books and supplies, cash grants, child care, auto repair reimbursement, meal tickets, auto gas cards, parking permits, buss/tokens, parenting workshops, counseling series, and on and off-campus referrals. Not all services are offered at all colleges within the LACCD.

GAIN/CALIFORNIA WORK OPPORTUNITY AND RESPONSIBILITY TO KIDS (CALWORKS)

CalWORKS is a welfare program that gives cash aid and services to eligible needy families. The Greater Avenues for Independence (GAIN) program provides employment related services to CalWORKS participants. This is a state

program that provides an educational environment where the student may develop the needed vocational skills to enhance his/her job market value.

Services offered include job development, child-care, counseling, books, paid work-study and other support services. Programs offered include General Equivalency Diploma (GED), Adult Basic Education, ESL classes, and vocational classes such as Office Administration, Child Development, Home Health Aide, and Culinary Arts.

AMERICORPS

By becoming a volunteer with one of the AmeriCorps programs, you may earn up to \$5,920 a year for college. To claim your award or learn more, visit americorps.gov.

LA COLLEGE PROMISE

The Los Angeles College Promise program provides one year of FREE enrollment to all full-time (12 units or more) students graduating from approved Los Angeles Unified School District (LAUSD) and charter high schools beginning with seniors graduating in 2017. Included in this program are priority enrollment, placement in Math and English courses required to succeed in college and career support and counseling.

To receive more information on the specific requirements, contact the application specialist at your home campus.

EMERGENCY LOANS

Some colleges within the LACCD offer limited emergency loan funds to students who face financial emergencies. Contact the college financial aid office for information.

OTHER

- Veterans Benefits can be found at benefits.va.gov
- Vocational Rehabilitation Assistance can be found at dor.ca.gov

Contact the appropriate off-campus agency for more details.

FEDERAL FINANCIAL AID PROGRAM

FEDERAL PELL GRANTS

The Federal Pell Grant provides gift aid assistance to undergraduates who have not yet earned a baccalaureate or first professional degree and who demonstrate financial need. Awards are based on your Expected Family Contribution (EFC, as calculated by the results of your FAFSA) and enrollment status. The maximum annual award is \$6,095. Students have a maximum lifetime Pell eligibility of 600% (equivalent to 12 full-time semesters), where 100% is equal to two full-time semesters.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (FSEOG)

The FSEOG is a federal grant program designed to supplement other sources of financial aid for students with exceptional need. FSEOG awards are based on financial

need and fund availability. A minimum enrollment in six Approved Units is required. Students must be eligible to receive Pell Grant funds in order to receive FSEOG.

IRAQ AND AFGHANISTAN SERVICE GRANT

Students may be eligible to receive the Iraq and Afghanistan Grant if:

- They are not eligible for a Federal Pell Grant on the basis of their EFC, but they meet the remaining Federal Pell Grant eligibility requirements, and
- Their parent or guardian was a member of the US armed forces and died as a result of military service performed in Iraq or Afghanistan after the events of 9/11, and
- They were under 24 years old or enrolled in college at least part-time at the time of their parent's or guardian's death.

FEDERAL WORK-STUDY

The Federal Work-Study Program (FWS) enables students to earn a portion of their financial aid award through part-time employment either on or off campus. To be eligible, a student must meet the eligibility requirements for federal financial aid and must maintain good academic standing while employed under the program. A minimum enrollment level may be required for FWS eligibility. Check with the Financial Aid and Scholarship Office.

LOANS (AID THAT YOU MUST PAY BACK)

A caution about student loans – It takes time for a loan application to be processed by the school, lender, and/or the US Department of Education. Student loan funds are delivered to the student after enrollment and academic progress requirement have been verified. All loans require a minimum of six (6) Approved Units.

Loans are sources of financial assistance that allow you to spread the cost of education over time. Federal student loans are not automatically included in students' award packages. Students are not required to borrow a federal student loan.

Loans are serious legal obligations. They must be repaid. You are obligated to repay principal plus interest. We urge all first-time borrowers to spend time learning about the loan process and their responsibilities so that they can make informed choices about their education.

If you borrow federal student loans, you can track your loans through the National Student Loan Data System (NSLDS) website at nslds.ed.gov.

FEDERAL DIRECT LOANS

The Federal Direct Loans (subsidized and unsubsidized) are loans borrowed directly from the federal government which serves as the lender. The student's annual borrowing limit may vary based upon the following:

- The amount of unmet need after other financial assistance has been considered;
- The applicant's grade level in their academic program;
- The applicant's current level of indebtedness;
- The applicant's previous delinquent or defaulted loan history.

Fees may be charged by the US Department of Education (ED) and deducted from each loan disbursement.

Interest rates are set by the US Department of Education (ED) and are fixed rates for the term of the loan.

FEDERAL DIRECT LOANS (SUBSIDIZED)

Student must complete the FAFSA and demonstrate financial need according to the federal formula in order to be eligible for subsidized direct loans. Under this program, the federal government will pay the interest on behalf of qualified borrowers for as long as the borrower is enrolled at least half-time in a degree-seeking program.

Effective July 1, 2013, eligibility for subsidized Direct loans is limited to 150% of a student's program. For example, if you are pursuing an associate degree (2-year program) your eligibility for a subsidized loan will be limited to three (3) years. Students must also maintain satisfactory academic progress towards completing their program requirements.

Fees may be charged by the US Department of Education and deducted from each loan disbursement. Interest may be charged during the 6-months grace period, after a student drops below half-time, completes their educational program, or withdraws from college.

FEDERAL DIRECT LOANS (UNSUBSIDIZED)

Eligibility for the Unsubsidized Direct Loan is not based on a family's demonstrated need. The US Department of Education is the lender under this program. The government does not pay the interest on behalf of borrowers under the Unsubsidized Direct Loan Program. The student borrower can choose either to make periodic payments of the interest or to have the interest added back into the principal of each loan.

FEDERAL DIRECT PLUS LOAN

A creditworthy parent of a dependent undergraduate can apply for Federal Direct PLUS loan. Federal Direct PLUS loans are not based on demonstrated need and may be used to replace all or portions of the calculated family contribution for students who completed a FAFSA.

Not all colleges participate in PLUS loans. Contact the Financial Aid & Scholarship Office to learn about loan programs that are offered at your home school and details about interest rates, fees, repayment terms, etc.

MASTER PROMISSORY NOTE

Before you receive a Federal Direct Loan, you will need to sign a Master Promissory Note (MPN) which is your legally binding promise to repay the loan funds you received. The college will not disburse your Federal Direct Loan until your MPN has been signed/e-signed and approved by the US Department of Education. Students can complete their MPN online at studentloans.gov.

MANDATORY LOAN COUNSELING

- **ENTRANCE LOAN COUNSELING FOR FIRST-TIME BORROWERS** – All first-time Federal Direct Loan borrowers must complete loan entrance counseling. Entrance counseling for direct loans can be completed online at studentloans.gov
- **EXIT LOAN COUNSELING** – All borrowers of Federal Direct loan funds are required to have an exit counseling

during their final semester, if their enrollment status drops below half-time, or if they withdraw from the college. Students will be notified when Exit Loan Counseling needs to be completed.

FINANCIAL AID PROCESS

DETERMINING FINANCIAL NEED

Most financial aid awards are based on demonstrated financial need, which is the difference between the Cost of Attendance (COA) and the Expected Family Contribution (EFC). EFC is the amount that the government believes you and your family can be reasonably expected to contribute towards your college costs this year and is based on our FAFSA information (or CADAA for AB540 students).

COA – EFC = Unmet Financial Need.

COST OF ATTENDANCE (COA)

Standardized budgets (COA) have been established by each college. Students with similar circumstances will receive the same allowances for tuition and fees, room and board, books and supplies, transportation, and personal expenses. Adjustments may be made on an exception basis to a student's COA for certain documented expenses. For example, if you are paying for child care during the academic year, please contact your college's Financial Aid and Scholarship Office to request an adjustment.

HOW FINANCIAL AID IS PACKAGED

Once the student's financial aid eligibility is established, a "package" of aid is provided which may be a combination of grants, fee waivers, work-study, and loan funds.

Grant eligibility is based on the number of Approved Units a student is enrolled in at the time of disbursement. Full-time is considered 12 or more units per semester; three-quarter time is considered 9–11½ units; half-time is considered

6–8½ units per semester; less-than half-time is 1–5½ units per semester.

Federal Pell Grants are scheduled for payment twice a semester. FSEOG, FTSSG and Cal Grants are scheduled for payment once per semester. Federal Work-Study is paid twice a month. Loans are disbursed twice per loan period (period of enrollment for which your loan covers).

THE FINANCIAL AID AWARD

Once a student's financial aid package is processed, awards are posted to the Student Information System (SIS) for viewing. Most financial aid programs offered in the LACCD do not require the student to accept the awards. Grants, scholarships, and fee waivers are assumed to be accepted by the student and will be appropriately disbursed during the semesters for which the student enrolls and is eligible. Student loans and Federal Work Study have additional processes beyond the packaging and posting of the awards in the SIS, so students should contact the Financial Aid Office for additional information on these types of aid programs.

Students may receive email notifications of revisions to their original Award Offer throughout the academic year. The revisions may reflect additional fees or allowances added to the Cost of Attendance, educational resources

which must be accounted for, semesters of enrollment (partial year vs full year and vice versa) changes, and additions or deletions of specific awards. Award Offers can be viewed online through the LACCD SIS (mycollege.laccd.edu).

SPECIAL CIRCUMSTANCES

In certain cases, a family's financial situation can change because of:

- Death in the family
- Separation or divorce
- Loss of employment
- Loss of non-taxable income or benefits

If you encounter circumstances like the above, contact the Financial Aid Office.

FINANCIAL AID REFUND/DISBURSEMENT

Disbursement dates and deadlines are determined by Federal, State, District and/or institutional regulations and policies.

Students who are new to the LACCD will receive information by e-mail regarding the process to select their refund/disbursement preference. Students have two choices: have their refund routed to a currently-open bank account, or open an account through BankMobile Vibe. Students who open a BankMobile Vibe account will receive a myLACCD-card debit card and information on how to activate their card and account.

AB540 students who currently have an open bank account or are eligible to open an account will receive their funds electronically via BankMobile. All others will receive their disbursements by paper check.

It is critical that students update their address on file with the Admissions & Records Office to ensure receipt of their myLACCDcard. If a student has not received their myLACCDcard, he/she should contact the Fiscal Office.

Disbursements will be adjusted if enrollment is less than full-time. Supplemental disbursements occur throughout the academic year. If your enrollment status has increased and you are due an additional disbursement, it will be deposited to your account. Disbursements will be adjusted if enrollment increases or decreases. Payment of late-starting classes cannot be issued until the class begins. After the second disbursement date of each semester, no further award adjustments can be made based on late enrollment. (Exception: Short-term classes that start after the second disbursement date and winter classes.)*

Students are encouraged to log-on to the Student Information System (SIS) at mycollege.laccd.edu to view their disbursement information. Please note that if you have an approved Extension Petition, you must be enrolled in approved courses from your petition to receive payment.

** Courses taken during the winter session are defined as short-term courses. Students must complete their short-term courses that start after the second disbursement date to be eligible for disbursement*

CHANGE OF ENROLLMENT STATUS

Colleges must review payments of funds to students each enrollment period to determine if students have received overpayments. If you did not attend any of your classes prior to the first day of instruction, and were dropped by the instructor after you already received financial aid funds, you will have to repay all of the funds you received. If you received a disbursement and then drop units, you may be subject to repayment of some or all of the funds you received.

Students who received federal financial aid and then withdrew from ALL classes at their home school will not receive further disbursements and may owe an overpayment.

Example: You were enrolled in 12 units (full-time) at the beginning of the semester and received your first disbursement for \$1,000. You then drop 9 units and remain in 3 units (less-than half-time). The disbursement for less-than half-time enrollment is \$432. You are overpaid \$568 and you must repay this amount before receiving any future financial aid.

RETURN TO TITLE IV (R2T4)

Students who receive federal financial aid and then withdraw from ALL approved classes at their home school may have to repay some or all of the federal funds they received. This also applies to students enrolled at more than one campus.

A student's eligibility for financial aid is based upon enrollment. The Higher Education Amendment of 1998 governs the Return to Title IV Funds Policy for a student who completely withdraws from a period of enrollment (i.e., semester) at their home school. A student who receives federal financial aid and then withdraws to less than one financial aid eligible unit at their home school is considered withdrawn for R2T4 purposes and may have to repay some or all of the federal funds received.

R2T4 rules indicate that during the initial 60% of the semester a student "earns" aid in direct proportion to his/her enrollment. The percentage of time the student remains enrolled is the percentage of aid for that period of enrollment. A student who remains enrolled beyond the 60% point of the semester earns all aid disbursed for the period. "Unearned" aid is the amount of federal financial aid disbursed that exceeds the amount the student has earned. Unearned aid other than Federal Work-Study may be subject to repayment.

If R2T4 calculations determine that a student owes a payment, the student will be notified by email. The student has 45 calendar days from the date of the notification to repay. A hold will be placed on the student's academic and financial aid records. The hold will prevent the student from receiving college services and will jeopardize future financial aid eligibility at all institutions. Unpaid overpayments will be reported to the US Department of Education for collection.

Students should contact the Financial Aid Office before withdrawing from all of their classes to understand the implications of their actions. Please refer to the college schedule of classes or the college catalog for the policy regarding the refunding of enrollment fees and non-resident tuition refund.

STUDENT INFORMATION

Students may inquire about the following information at the Financial Aid and Scholarship Office:

1. Information on all financial assistance available, which includes all federal, state, and institutional financial aid programs.
2. Disclosure of deadlines for applications of each financial aid program and for any supporting documentation.
3. The effect of dropping classes on a student's financial aid eligibility.
4. An explanation of how students are selected for receipt of financial aid and how financial need is determined.
5. If a student feels he/she has special circumstances or the financial aid awards does not reflect his/her current situation, a consideration for review may be requested.
6. An explanation of the student's financial aid Award Offer, including the portion of financial aid the student receives that must be repaid (loans) and portion that is grant aid or work-study and does not need to be repaid.
7. An explanation of the types and terms of loans available including interest rates, repayment terms and conditions of deferment and cancellation.
8. How the Los Angeles Community College District (LACCD) determines whether students are making Satisfactory Academic Progress and what happens if they are not.

STUDENT RESPONSIBILITIES

Students must take responsibility for:

1. Checking their email at mycollege.laccd.edu on a regular basis. All official communication will be done through this website.
2. Submitting all financial aid applications and requested documents by specified deadlines.
3. Having a valid Social Security Number (SSN) on file in the Admissions & Records Office for the purpose of processing and reporting federal aid and most state aid (this does not apply to California Dream Act applicants).
4. Enrolling in an eligible program which is defined as a Certificate of Achievement of at least 16 units, an associate degree (AA, AS, AA-T, AS-T), a two-year academic transfer program that is acceptable for full credit toward a baccalaureate degree. Students must declare an eligible educational goal and major.
5. Maintaining Satisfactory Academic Progress (SAP) standards.
6. Completing all financial aid forms ACCURATELY AND COMPLETELY. If this is not done, aid could be delayed. Errors must be corrected before any financial aid can be disbursed.
7. Reading and understanding all financial aid forms and information. We advise students to retain copies of all documents submitted.

8. Notifying the appropriate entity (college, lender, California Student Aid Commission, US Department of Education, etc.) of changes in your name, address, school enrollment status, or transfer to another college.
9. Dropping or withdrawing from classes for which you are no longer attending and actively participating.
10. Repaying financial aid funds if determined to be ineligible to receive funds for any reason (i.e. Return to Title IV, overpayments, over-awards).
11. Providing accurate information. Intentional misreporting of information on application forms for financial aid is a violation of the law and is considered a criminal offense subject to penalties under the US Criminal Code, and the denial of the student's application. Additionally, regulations require that all cases of suspected fraud emanating from misrepresentation be reported to the US Department of Education Office of Inspector General (OIG).

Satisfactory Academic Progress (SAP) Policy

GENERAL REQUIREMENTS

In accordance with the Higher Education Act of 1965, as amended, the Los Angeles Community College District (LACCD) established the following standards of Satisfactory Academic Progress (SAP). These standards apply to all students who apply for and receive financial aid from the programs listed below.

- Federal Pell Grant
- Iraq and Afghanistan Service Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- Federal Work Study (FWS)
- Federal Direct (Student) and PLUS (Parent) Loan
- Full-Time Student Success Grant (FTSSG)
- Cal Grant (A, B and C)
- California Chafee Grant
- California National Guard Education Assistance Award Program (CNG EAAP)

Current and previous coursework earned at any college within the LACCD will be reviewed for compliance with the standards put forth in this policy. Units reported on transcripts submitted to Admissions & Records Offices in the LACCD may be evaluated for SAP purposes.

CONSORTIUM COURSES

- All classes throughout the LACCD will be included when reviewing satisfactory academic progress.
- For students aided under a Consortium Agreement with colleges outside the LACCD, consortium class units will be counted during satisfactory academic progress review.

TRANSFER UNITS

Transfer units from institutions outside the LACCD will be counted for SAP standing. Transfer units are added when the institution receives transcripts from outside the district.

GENERAL REQUIREMENTS

Students receiving financial aid must be enrolled in an eligible program. An eligible program is defined as:

- A Certificate of Achievement of at least 16 units, or
- An Associate Degree (AA, AS, AA-T, or AS-T), or
- A two-year academic transfer program that is acceptable for full credit toward a bachelor's degree, or
- Bachelor's Degree

SATISFACTORY ACADEMIC PROGRESS STANDARDS

To meet satisfactory academic progress standards, students must:

- Maintain a 2.0 or higher cumulative GPA (Grade Point Average).
- Complete a minimum of 67% cumulative units attempted:
 - Entries recorded in the student's academic record as Fail (F), Incomplete (INC), No Pass (NP), No Credit (NC or NCR), and/or Withdrawal (W) are not considered to be successfully completed and must be less than 33% of the cumulative units attempted.
- Have attempted less than 150% of the number of units required of the student's academic program.
- Remedial ESL and other remedial classes classified as "Basic Skills" are excluded from the unit limit when determining attempted units.
- Students who have already earned an associate or higher degree outside the LACCD (excluding students enrolled under the BA/BS Dental Hygiene program at West Los Angeles College) will need to follow the petition process.
- In Progress (IP) grades count as attempted units in the maximum time frame only. They do not affect cumulative grade point average in the qualitative measure nor are they included as completed units in the quantitative measure.

APPLICATION OF STANDARDS

- Satisfactory Academic Progress for financial aid applicants will be determined at the end of each payment period/semester.
- Students who were initially in good standing but now have a cumulative GPA of less than 2.0 and/or their successful completion rate is less than 67% will receive Warning notifications by email but remain eligible for the following term of enrollment in the LACCD.
- Students will be disqualified if they have one or more of the following academic deficiencies:
 - Total units attempted (excluding remedial ESL and other remedial classes) are equal to or greater than 150% of the normal length of their academic program.
 - Associate or higher degree earned outside the LACCD.

- Cumulative GPA is less than 2.0 following a semester for which the student received a Warning Notification.
- Cumulative successful completion is less than 67% following a semester for which the student received a Warning Notification.
- Students who are disqualified from financial aid will be notified by email and receive information regarding the petition process.
- A student who has been disqualified at any college in the LACCD is disqualified at all colleges within the LACCD.

MAXIMUM TIME LENGTH

Students need to complete their objective before reaching the 150% limit. Exceptions may be made when the requirements of a student's objective cause the student to exceed the maximum time limit.

The table below shows the normal completion time and maximum time for certificate programs of varying lengths.

UNITS FOR A CERTIFICATE	NORMAL LENGTH	MAXIMUM LENGTH
16 to 24	2 semesters	3 semesters
25 to 36	3 semesters	5 semesters
37 to 48	4 semesters	6 semesters

Summer and Winter terms are included in the evaluation of Satisfactory Academic Progress standards. Summer is considered a separate semester for evaluation purposes. Winter, as it is combined with the Fall semester for disbursement purposes, will be included with the Fall semester for SAP evaluation purposes.

FRAUD

A student who attempts to obtain financial aid by fraudulent means will be suspended from financial aid for unsatisfactory conduct. The college will report such instances to local law enforcement agencies, to the California Student Aid Commission, and to the US Department of Education Office of Inspector General. Restitution of any financial aid received in such manner will be required.

OTHER INFORMATION YOU SHOULD KNOW

FEDERAL SCHOOL CODE

001222 EAST LOS ANGELES COLLEGE

Information regarding the various accreditations or licenses under which each LACCD campus operates is available through the Office of Academic Affairs and/or the Admissions & Records Office.

RETENTION

Information regarding the retention of Los Angeles Community College District students can be obtained from the Admissions & Records Office. You can also visit scorecard.cccco.edu.

SUBSTANCE ABUSE

Each college is required to provide information to students aimed at preventing substance abuse (drug and alcohol) abuse. Contact the Student Health Center for details on what information and/or services are available.

STATE TAX OFFSET

Students should be aware that state income tax refunds might be offset by the institution for repayment of financial aid funds if it is determined the students were ineligible to receive funds, have defaulted on a student loan, or owe other debts to the school.

SCHOLARSHIPS

East Los Angeles College offers a variety of scholarships.

The requirements for each scholarship vary with each organization and department. Such qualifying requirements can be based on the following: your financial need, overall GPA, educational field, overall units, and sometimes your ethnicity. While many scholarships are offered once a year, many others are offered year round and students are strongly encouraged to check with the office of Student Services in EI for availability of scholarships.

The office of Student Services will also gladly assist you in establishing your own personal profile and student e-mail

account for scholarship searches on the Internet. Stop by or contact the office of Student Services at (323) 265-8777. Applications for East Los Angeles College's Scholarships, College and Foundation Scholarships/Endowments are available in the Financial Aid and Scholarship Office and are typically due in March.

Student Services

BOOKSTORE

F5 • (323) 265-8730

Instructional materials are available in alternative formats (Braille, large print, e-text, etc.) for qualified persons with disabilities. Please call (323) 265-8787 for additional information.

The East Los Angeles College Bookstore hours are 7:45 a.m. to 7:15 p.m., Monday through Thursday and 8:00 a.m. to 4:00 p.m. on Fridays. (Shorter hours during vacations and during Summer session). Extended hours are posted during the beginning of each semester. Full refunds on textbooks will be allowed during the first 15 school days of the Fall and Spring semesters and during the first 5 days of the Summer and Winter intersessions and short-term courses, if they meet the following conditions:

1. ALL RETURNS must be accompanied by a current cash register receipt. No exceptions.
2. New textbooks must be returned in new condition and without any marks, EVEN YOUR NAME. New books that are refunded as used will receive 75% of the new price. We reserve the right to judge the condition of returned items.
3. Methods of refunds:
 - a. Cash purchases will be refunded in cash.
 - b. Charge purchases will be refunded by credit to your charged account.
 - c. Check purchases will receive a check in about four to six weeks after the date of purchase, unless the canceled check (front and back) are presented to the Fiscal Office.
4. Textbooks purchased after the 10th school day must be returned within 24 hours accompanied by a current dated cash register sales receipt.
5. No refunds will be given on any unwrapped textbooks that have computer disks or record cassettes.
6. No refunds are permitted on purchases made during the last 10 days of classes and final exam.

For further information call (323) 265-8722.

CARE PROGRAM

E1 227 • (323) 265-8798 OR (323) 780-6785

Cooperative Agencies Resources for Education (CARE) is a student support program for single parents funded by the state. CARE provides additional services to single parents to help them reach their educational goals. To be eligible for CARE, a student must be an EOP&S student, a single parent, head of household, a participant of CalWORKS/GAIN, receiving cash aid, have at least one child under the age of 14, and enrolled in 12 or more units.

CARE services may include: advisement, workshops, meal tickets, book grants, book loans, tutoring, scholarship application assistance, legal aid assistance, graduation cap and gown vouchers, scientific calculators, and other services. If you have any questions, please call (323) 265-8679 or visit the EOP&S Office.

CAREER & JOB SERVICES

E1176 • (323) 415-4126

Career & Job Services offers many services and resources to assist students in the process of career exploration and employment opportunities:

- Office hours are 8:00 a.m. – 7:00 p.m. Monday – Thursday, and 8:00 a.m. – 3:30 p.m. on Fridays. Hours are Subject to change.
- Job and internship listings are posted weekly at the ELAC website and in the center to include part-time and full-time opportunities.
- Workshops on career-related topics and job preparation skills are offered throughout the semester.
- The Career Library offers a collection of books, computer programs, and other resources on career-related topics and job preparation skills.
- Assessments and inventories are available for career exploration.
- Appointments are available for resume critiques, mock interviews, and deciding on a career path. To schedule an appointment, call (323) 415-4126.

CHILD DEVELOPMENT CENTER

A1 (323) 265-8788

The Child Development Center offers its programs to children 2-5 years of age. In order to qualify for the current school year, children must be 2 years old by September 1st.

Applications are received on a continuous basis for the current year and are available beginning the 3rd week of March. An application for enrollment can be uploaded at www.elac.edu.

Applications placed on the eligibility list are valid for only one school year. Parents will need to reapply every year (3rd week of March).

PROGRAMS OFFERED ARE (SUMMER THROUGH SPRING):

ALL DAY, AGES 2-5

7:45 a.m. – 3:30 p.m., Monday-Friday

MORNING, AGES 3-5

7:45 a.m. – 11:45 a.m., Monday-Friday

AFTERNOON, AGES 3-5

12:00 p.m.– 4:00 p.m., Monday–Friday

Summer program is contingent upon available funding. All programs are subject to change without prior notice.

We offer breakfast, lunch, and a snack to all children enrolled in our program at no cost during the times they are enrolled. Nutritional services are provided by the California Department of Education Nutrition Services Division.

FOR FURTHER INFORMATION CALL (323) 265-8788.

COOPERATING AGENCIES FOSTER YOUTH EDUCATIONAL SUPPORT (CAFYES) & FOSTER YOUTH SERVICES

E1227 • (323) 265-8797

The Cooperating Agencies Foster Youth Educational Support Program is a support program that assists foster youth. CAFYES is a supplemental component of the existing Extended Opportunity Programs and Services (EOP&S) program. The purpose of CAFYES is to support the higher education success, health, and well-being of some of the current and former foster youth who are enrolled in California's community colleges. To be eligible for CAFYES, a student must be part of the EOP&S Program and enrolled in a least 9 units per semester.

CAFYES services may include: book vouchers, school supplies, bus tokens, gas cards, food assistance, assistance with housing, calculators, legal assistance, and many other resources.

Foster Youth who do not qualify for the CAFYES Program are eligible for other services to assist with their educational success. These services may include: computer lab, backpacks, school supplies, assistance with housing, legal assistance, and many other resources.

If you have any questions, please call (323) 265-8797 or visit the EOP&S Office.

COUNSELING

MAIN CAMPUS: E1127 • (323) 265-8751

SOUTH GATE EDUCATIONAL CENTER • (323) 357-6213

The Counseling Department empowers students to achieve their educational goals, expand their individual potential, and successfully pursue their aspirations for a better future for themselves and their community. The goal of the department is to increase student success and academic excellence through student-centered instruction and support services.

Counselors provide an extensive program of individual and group counseling interventions including: one-on-one appointments, online and in person quick questions, workshops, and new student orientations. The Counseling Department is open Monday through Saturday. Students are encouraged to make appointments well in advance of registration periods. Appointments are scheduled starting at 8:00a.m. on Friday for the upcoming week. Priority is

given to the students who schedule in person and online. To schedule by phone, call (323) 265-8751 (main campus) or (323) 357-6213 (South Gate campus). For more information visit the counseling department website: www.elac.edu/prospectivestudents/counseling/index.htm.

DIVERSABILITIES SUPPORT PROGRAM AND SERVICES (DSPS)

E1160 • (323) 265-8787

This information and instructional materials are available in alternative formats (Braille, large print, e-text, etc.) for qualified persons with disabilities. Please call (323) 265-8787 for additional information.

The Diversabilities Support Program and Services (DSPS) provides educational, academic, vocational, and personal support services to students with verified disabilities. A primary goal of the statewide DSPS is to assure an equal educational opportunity for students with disabilities. The services listed below have been designed to alleviate the barriers that may interfere with that opportunity.

ACADEMIC AND VOCATIONAL ADVISEMENT

The DSPS program provides full registration support, referrals to campus services such as tutoring centers, orientation to the college community, loan of and assistance with adaptive equipment, and can act as liaison in connecting with college faculty and staff. DSPS Specialists may prescribe academic accommodations when appropriate based on the documented disability. Referrals are also made to the state Department of Rehabilitation for assistance with such things as career selection, transportation, and textbooks. Personal counseling is also available as appropriate.

ACADEMIC ACCOMMODATIONS

Students with disabilities may be provided with supportive accommodations in the educational setting based upon the documented disability. This may include classroom aids such as a tape recorder or talking calculator, or prescribed services such as a text enlarger, test facilitation, or text reader. Instructional materials may also be provided in alternative formats such as Braille, large print, and e-text for those students who need such modifications.

On-campus transportation is also available for students with mobility limitations.

LEARNING DISABILITIES PROGRAM

The Learning Disabilities Program is designed to identify and assist students who may be eligible for additional academic support to compensate for a disability that directly affects some component of learning. Examples of possible accommodations include textbooks in an auditory format, test facilitation, and study strategies geared to the specific type of disability.

HIGH TECH CENTER

E1152A

DSPS has a computer laboratory available for student use. This lab offers computer-assisted instruction in a format accessible to students with disabilities. The tables and

computer keyboards can be adapted, and text may be enlarged and/or read out loud. Voice-activated systems are available for students who may not be able to use a keyboard. These computers may be used for coursework or skill-building activities. Internet access is also available.

For further information, please call the DSPS Office at (323) 265-8787 or 8681. For V/TDD, Please call (323) 265-8746.

DREAM RESOURCE CENTER

E1142 • (323) 415-5483

The Dream Resource Center provides support to undocumented students, AB540 students, DACA recipients, LGBTQIA identified students, and other students at East Los Angeles College. Whether you are a new or continuing student, we are happy to assist you with the ELAC admissions process, Dream Act or FAFSA applications, and questions regarding your residency status. The Dream Resource Center is also a safe and supportive place to connect with resources.

SERVICES OFFERED

Residency Status Questions: Do you have questions about your residency status? You might qualify for in-state tuition and financial aid. We can help you correct your residency status, including assisting with the paperwork for AB540.

Financial Aid Assistance: We can help you apply for the Dream Act, FAFSA, or CCPG(BOG) Fee Waiver and scholarships to help pay for college.

Enrollment and Registration Assistance: We are happy to guide you through the process of becoming a new ELAC student. We also help returning and continuing students with class registration and other services.

Connect with Resources: Learn about the many resources available to you as an ELAC student. Resources include free or low-cost attorney consultations, physical and mental health services, housing support, food banks, and other services.

Safe Zone Training and Events: East Los Angeles College provides ally training for ELAC employees in order to better support undocumented and LGBTQIA students.

EXTENDED OPPORTUNITY PROGRAM & SERVICES (EOP&S)

E1227 • (323) 265-8769

EOP&S is a state-funded student support program that helps students who have not done well in school in the past, or thought that they did not have the money or language skills to attend college. In addition, EOP&S helps students maintain satisfactory progress to stay in college. The programs and services are designed to help students successfully take the best steps necessary to pursue and achieve their goals.

ELIGIBILITY REQUIREMENTS

- Be a California resident
- Be enrolled as a full-time student (12 units or more)

- Have fewer than seventy (70) units of degree applicable college credit
- Qualify to receive a California College Promise Grant (CCPG) (Enrollment Fee Waiver)
- Have completed the AOC process.

BENEFITS AND SERVICES

Students who are determined EOP&S eligible may receive the following benefits:

- Registration & Enrollment Assistance
- Educational Planning & Goal Advisement
- Program Review & Follow-up
- University Transfer Assistance
- Books Grants & Bus Passes (Monetary Award)
- Assistance in Completion of Financial Aid Applications
- Development Workshops
- Cultural Activities
- Single Parent Program (See CARE)

For further information, call (323) 265-8769 or visit the office located in EI-227. Office hours are Monday through Thursday from 8:00 a.m. to 7:00 p.m., and Friday from 8:00 a.m. to 4:00 p.m.

FISCAL OFFICE

G1107 • (323) 265-8701

Hours: 8:00 a.m. to 7:00 p.m. Monday through Thursday, and 8:00 a.m. to 3:30 p.m. Friday. The Fiscal Office is the campus center for fee collections and fund disbursements.

The Office conducts the following transactions:

- Collection of tuition and fees
- Sale of semester parking permits and ASU membership
- Collection of class material fees (paid in cash)
- Issuance of refund checks for tuition and fees (under special circumstances)
- Maintenance of all Associate Student Union Accounts.

Parking permits purchased online should be picked up at the Fiscal Office.

FOOD SERVICES/CAFETERIA

GRAB-N-GO

F5103

Monday – Thursday, 6:45 a.m. – 8:00 p.m.

Friday, 6:45 a.m. – 1:00p.m.

Closed on Saturday and Sunday

**Hours Subject to change.*

CAFÉ EAST

Offers hot food selections.

Fall and Spring Semesters

Monday–Thursday 7:30 a.m. – 8:00 p.m.

Friday 7:30 a.m. – 2:00 p.m.

Winter and Summer Intersessions

Monday–Thursday 7:30 a.m. – 2:00 p.m.

Closed on Friday.

HOUSING

The college maintains no housing facilities. Students are responsible for their own housing.

INSTRUCTIONAL CENTERS

LEARNING ASSISTANCE CENTER

E3 280

The Learning Assistance Center is designed to assist all students in their pursuit of excellence at East Los Angeles College. All services focus on assisting community college students to become independent, responsible learners.

The central activity is peer tutoring for students in basic skills; reading, writing, mathematics, science, study and test-taking skills, and other college-level courses. The Computer-Assisted Instruction Lab is available to supplement tutoring or to serve as an alternative learning mode. Workshops and study groups are available, as well as Internet and e-mail services.

Students may also sign up for the following course in the Learning Assistance Center:

Supervised Learning Assistance IT (0)

Note: concurrent course enrollment; referral by an instructor.

TBA, 20 HOURS PER SEMESTER.

Upon faculty/counselor referral, students will receive tutoring and computer-assisted instruction in a designated Subject area in the Learning Assistance Center. Cumulative progress and attendance records will be maintained for this noncredit, open-entry/open-exit course. No tuition will be charged nor will grades be received for enrollment in this course. Supervised Learning Assistance IT will not appear on the student's transcript.

The high-tech lab for disabled students is located in E1. Students should contact this program directly for use of its services.

To register for the program, students must be referred by an instructor or counselor. The Learning Assistance Center is located in Building E7, Room 210 and the phone number is (323) 265-8762.

LIBRARY

F3

The ELAC libraries offer a variety of resources and services to students, faculty, and staff. They include:

- Books (Print and Electronic) and DVDs
- Textbook and reserve collection

- Magazines, journals, and newspapers
- ELAC Campus News Digital Archives (coverage: 1945–1999)
- Online databases accessible on and off-campus
- Research help
- Research skills instruction
- Computers, printers, scanner, and copiers
- Wireless Internet access
- Book borrowing privileges at California State University, Los Angeles

Librarians are available to assist with research needs during the library's regular business hours. The Library Department also offers 1-unit credit courses in Library and Information research skills, both in-person and online. For more information, please call (323) 265-8758.

SOUTH GATE EDUCATIONAL CENTER (SGEC)

The fulfillment of ELAC's vision for reaching out beyond its campus in Monterey Park into the wider community began with the opening of its satellite center in the City of Huntington Park in the spring of 1994. By 1996, the Southeast Center in Huntington Park was too small to accommodate the rapid growth experienced in two short years, so the program was moved in the fall of 1996 to the larger present day facility in the City of South Gate, the South Gate Educational Center (SGEC).

Although the SGEC is only 11 miles away from the ELAC main campus, personal vehicle transportation between the sites can take an hour or more depending on the time of day. For that reason, the SGEC serves a population that cannot attend classes on the ELAC main campus or find it more convenient to attend at the SGEC.

For students wishing to complete programs not entirely available at the SGEC, there is a shuttle running directly to-and-from the ELAC main campus, with the schedule changing each term to accommodate the flow of students. The shuttle schedule is posted on the website at <http://www.elac.edu/southgate/index.htm>

The South Gate Educational Center is currently located at 2340 Firestone Blvd., South Gate, California, 90280-2646.

For more information call (323) 357-6200.

Office hours are 9:00 a.m. – 10:00 p.m., Monday through Thursday, and 9:00 a.m. – 4:30 p.m. Fridays.

MATH TUTORING CENTER

G5 009

All students can take advantage of free mathematics tutoring through the Math Tutoring Center. Walk-in peer tutoring help is available for all mathematics courses. Students are asked to register for a free tutorial section and login and out to keep track of the hours they spend in the center. The center is open Monday through Thursday from 9 a.m. until 8 p.m., Friday from 9 a.m. until 5 p.m., and on Saturday from 10 a.m. until 4 p.m. No appointment is necessary. Calculators are available for rent upon request.

Along with tutoring, the center has approximately 60 computers for student use.

Any mathematics student can make use of the mathematical software on the computers. The computer contains software for courses from basic arithmetic through calculus. Students can also use the computer for completing work for hybrid mathematics courses.

All students are welcome to use the computers for classwork, Internet research, or writing papers.

For further information call (323) 415-4191.

WRITING CENTER

E3 220

The Writing Center offers tutoring, word processing, and Internet access for students in all subjects. Students may improve their writing and thinking skills through one-on-one tutoring sessions, group workshops, and grammar assistance programs. Tutors assist with all stages of writing such as brainstorming, organizing thoughts, developing ideas, writing thesis statements, and analyzing texts. Workshops cover the same areas as well as grammar and punctuation. Students are also welcome to our Conversation Lab where they can improve their listening as well as speaking skills in a relaxed environment.

The Writing Center hours are Monday through Thursday 7:00 a.m. – 9:00 p.m., Friday through Saturday 10:00 a.m. – 4 p.m. Walk-in and scheduled appointments are available.

STUDENT HEALTH SERVICES

F5 302 • (323) 265-8651

The Student Health Center is located in F5 302. Through a partnership between East L.A. College and White Memorial Medical Center, Student Health Services promotes students' physical, emotional, spiritual, and social well-being. It offers programs designed to help students meet their educational, career, and personal goals by encouraging healthy attitudes and behavior, and fostering students' responsibility for their own health. Visit their location for a brochure. Call (323) 265-8651 to arrange an appointment to see a licensed board-certified physician, licensed psychologist, and marriage-family-child therapist.

SUBSTANCE ABUSE

Each college is required to provide information to students aimed at preventing substance (drug and alcohol) abuse. Contact the Student Health Center for details on what information and/or services are available at your college.

TRANSFER CENTER

D7 STUDENT SERVICES ANNEX • (323) 415-4125

The Transfer Center provides many services to students wishing to transfer to four-year colleges and universities. The Center publishes a monthly calendar of activities that includes: workshops on specific majors; assistance with college and financial aid applications; College Fairs; and more.

University representatives from UCLA, USC, and California State University, Los Angeles, among many others, visit the center on a regular basis to provide up-to-date

information on the admission requirements, support programs and services, financial aid, housing facilities, and specific majors. Students can make appointments with representatives or attend a workshop to shop around for the university of their choice.

A complete library of college/university catalogs, and brochures on transfer are available to all students. Assistance with applications for the University of California, California State Universities, and some independent colleges is available in the Center. Application fee waivers are available for eligible students.

Students may obtain additional information regarding transfer concerns in person or by calling (323) 265-8623. The center is open Monday through Thursday, 8:00 a.m. to 7:00 p.m. and Fridays, 8 a.m. to 4 p.m.

VETERANS' SERVICES AND PROGRAMS

D7 STUDENT SERVICES ANNEX • (323) 415-4147

The programs of this college are approved for the training of veterans and other eligible persons.

Provisions for Veterans under Public Law 358: To qualify for V.A. benefits a veteran must have served at least 181 days of active duty, and have received other than a dishonorable discharge. A veteran may receive educational benefits of 1 1/2 months for each month or fraction of a month of creditable active duty. Reduction of this entitlement will be at the same rate as the training time for which he/she receives benefits: 1/2 month reduction for each month at the 1/2-time rate, and one-month reduction for each month of the full-time rate. All educational benefits must be used within 10 years from the date of separation: 1/2 month reduction for each month at the 1/2-time rate, 3/4 month reduction for each month at the 3/4-time rate, and one-month reduction for each month at the full-time rate.

ADMISSION REQUIREMENTS FOR VETERANS

1. File application for V.A. Educational Benefits (V.A. Form 22-1990 or 22-8821) and an application for admittance in to the college.
2. Fill out Veterans Card for school records declaring major, transfer school, and schools previously attended.
3. Request transcripts from all colleges attended. Have them sent directly to the Admissions Office. This applies even if the attendance at a college was for a short time with no units completed or if it was prior to entering the service.
4. File V.A. Form 22-1995, if you are a transfer student – Request for Change of Program or Place of Training.
5. Apply each semester for continuous V.A. Educational Benefits.

PROGRAM PLANNING FOR VETERANS

Veterans are required to complete a Student Educational Plan and submit to Veterans clerk.

The counseling department will advise you in preparing your Student Educational Plan (known as the SEP). This plan basically consists of the educational goal and major which

you intend to pursue, the classes you expect to take in order to achieve your goal and major, and the student services you expect to use in order to help you complete your college program.

The Veterans Administration will not pay for courses that do not fit in a veteran's selected major.

1. 70 Unit Rule – Once a veteran has received an Associate Degree in any major, he/she is eligible for further training at the college only if he/she takes courses required for upper division status at his/her transfer institution, or if he/she changes his/her objective. These courses must be approved by the Veterans Administration.
2. If a veteran desires units beyond the Associate Degree (60–69 units), approval is needed from a four-year college, and/or the college counseling department.

CREDIT FOR MILITARY SERVICE

Adds and Drops for Veterans must be reported to the Veterans Clerk in the Admissions Office as soon as possible. To fail to do so may result in an overpayment or underpayment. The Veterans Administration holds the veteran responsible for reimbursement of overpayments.

Attendance Verification: Veterans must sign in with the Veterans Clerk from the 20th to 28th of each month or they will be discontinued from receiving benefits.

WELCOME & SUPPORT RESOURCE CENTER

E1176 • (323) 780-6800

The Welcome & Support Resource Center is a one-stop location where new and prospective students can find information about the college's academic programs, access to computers, and directions to various student support services on campus.

We provide accurate information, campus tours, and appropriate referral services to college programs, and procedures to students, faculty, staff, and the community at large in a manner that is pleasant and inviting. Our goal is to effectively reach out to both traditional and non-traditional students for the purpose of recruitment, matriculation, and retention.

Key Services Provided:

- Campus Tours
- Student Success Workshops
- Welcome Session Mixers
- New Student "Tip" sheet
- Additional resources for undocumented, LGBTQIA, Veterans, and unhoused students

For further information, please call (323) 780-6800 or visit the office located in E1176. Office hours are Monday through Thursday from 8:00 a.m. to 7:00 p.m., Friday from 8:00 a.m. to 4:00 p.m., and Saturday from 9:00 a.m. to 1:00 p.m.

LOS ANGELES COUNTY SHERIFF SERVICES

B5 (323) 265-8800

LOST AND FOUND

The Lost and Found Office is located in the Sheriff Department in the Southwest corner of the football stadium, between tunnels 12 and 13. The Sheriff Department is staffed 24 hours a day, 7 days a week. Persons who have lost an item can check at their convenience for their lost property at the Sheriff Department. Persons who find an item and return it to the Lost and Found Office are asked to identify themselves, and to disclose the location where the item was found. This information is logged at the office before storage. If items with identification are turned in, contact is attempted by the Sheriff Department. The Sheriff Department reserves the right to dispose of items not claimed within 30 days. Lost and Found can be reached at (323) 265-8800.

PARKING REGULATIONS

The Board of Trustees of the Los Angeles Community College District, in compliance with the laws of California, have established regulations regarding traffic and parking on campus, including, but not limited to, the following:

- Any motor vehicle parked at East Los Angeles College Monday through Saturday, must clearly display a valid parking permit from the rearview mirror facing the front, or placed on the top left corner of the dashboard (Permit Facing Up). Parking permits may be purchased at the Fiscal Office. Vehicles not properly displaying a valid parking permit are Subject to citation for violation of California Vehicle Code (CVC) Section 21113(A). Park in marked stalls only.
 - Board Rule #7401 "The Board of Trustees or the District will not be responsible for damage, loss of vehicle or its contents unless the District is liable under the Government Codes 810 to 966.6 inclusive."
1. Students with regular Student Permits may park only at the Stadium Lot and Lots A & B of the South Gate Campus.
 2. Students who have paid the ASU fees are allowed to purchase an "ASU" parking permit, which allows them to park in the Stadium Lot, level 2–6 of Parking Structure 3 on Cesar Chavez, level 1 and part of level 2, levels 3–5 of Parking Structure 4 on Collegian, and the main lot at the South Gate Campus. Any vehicles found parking in any of these lots failing to display valid parking permits will be cited per CVC Section 21113.a. Park in marked stalls only.
 - Handicapped students are allowed to park in all student lots. There are designated handicapped parking stalls in every one of these parking areas. To park in these stalls, vehicle must display a valid handicapped placard, along with a valid parking permit. Any vehicle parked in a handicap stall without displaying a handicapped placard will be fined (CVC Section 22507.8(A)).
3. Faculty and staff are allowed to park in the Stadium Concourse and level 1 of Parking Structure 3, Level 2 of

Parking Structure 4, B2 Lot, West Access Road, and CDC Center. Vehicles must display a current Staff Parking Permit. Any vehicle without a valid parking permit are Subject to citation (CVC Section 21113.a. Park in marked stalls only. There is a \$20 fee for lost or additional permits.

- Parking spaces designated “Car Pool” are for staff car-poolers only. Vehicles parked in such stalls must display both a valid staff/faculty permit and a Car Pool permit. Any vehicles parked in a Car Pool stall without a Car Pool parking permit will be fined. Car Pool is limited to faculty/staff only. For information call (323) 265-8669. (See: CVC Section 21113(A)).
- 4. Any vehicle traffic or vehicle parked on campus fire roads without the specific consent of the Sheriff Department, will be cited per CVC Section 22500.1.
- 5. “ONE DAY” parking permits are only valid at the Stadium Lot, Level 6 of Parking Structure 3 on Cesar Chavez, and Level 5 of Parking Structure 4 on Collegian for \$2.00 per day. Daily permits are only valid at the Stadium Lot and top levels of both parking structures.
- All parking rules and regulations will be strictly enforced, 24 hours a day, (Monday – Saturday).
- Motorcycles and open-top vehicles: There is no designated motorcycle parking area. Please park in a regular marked parking stall. Permits need not be displayed for motorcycles or open-top vehicles, however, a valid permit is required and must be registered at the Sheriff’s office every semester.
- Lost permits: A new permit must be purchased at the Fiscal Office while supplies last.
- 6. No overnight parking without approval from the Sheriff’s Department.

There is a two-week grace period at the beginning of the Fall and Spring semesters. There is a one-week grace period for the first Summer session only. Citing will begin immediately following the respective time period. Failure to display a valid student permit will result in the issuance of a citation (CVC21113(A)). Students are restricted to Student Parking Lots only.

Four points to aid students to avoid parking citations issued by the Sheriff Department or the City of Monterey Park Police:

1. Parking permits for off-street parking are issued by the City of Monterey Park and are available to residents in the immediate vicinity of the college only.
2. Parking on public streets without a valid city parking permit may result in a parking citation.
3. To avoid parking citations, please purchase a parking permit and park in the designated student lots.
4. Student parking permits must be renewed every semester.

STUDENT ACTIVITIES – STUDENT CENTER

F5

East Los Angeles College maintains the Student Center where students can meet informally. This Center includes the following offices: Associated Student Union, and Student Activities (323) 265-8742. For more information call the number above.

The Student Center is open between 8:00 a.m. and 6:30 p.m. Monday through Thursday, and Friday from 8:00 a.m. to 4:00 p.m. Student Government office hours are posted in Student Activities Office.

STUDENT ACTIVITIES

The office of Student Activities is responsible for a diverse program which includes but is not limited to: extra-curricular activities, drives (e.g. Red Cross Blood Drive), commencement, major cultural events, ASU/Club events, free speech, vendors and award luncheons. For more information call (323) 265-8742.

ASSOCIATED STUDENT UNION (ASU)

The students of East Los Angeles College manage their own affairs through the organization known as the Associated Students Union. All regularly enrolled students are encouraged to become members. For more information, call the ASU President (323) 265-8389.

QUALIFICATION FOR ASU OFFICERS

Administrative Regulation S-9 pertains to elected Associated Student Union (ASU) officers appointed to elected positions and heads of ASU Standing Committees. Administrative Regulation S-9 does not apply to clubs, club representatives, ASU special committees, and all-college committees.

1. A candidate for office, an elected or appointed Associated Students Union officer, must adhere to the following standards:
 - a. Be a currently paid member of the ASU at the college where the election is being held; and have successfully completed no more than 80 degree-applicable units.
 - b. Be a candidate for only one campus office on the same ballot.
 - c. Have a cumulative and current GPA of 2.0 at the college/district during the semester in which the student government office is applied for and held. Current means the most recently completed semester.
 - d. Not be on progress probation. Progress probation is defined as fifty percent or higher of the percentage of all units in which a student has enrolled and for which entries of “W” (Withdrawal), “INC” (Incomplete), and “NP” (No-Pass) have been recorded.
 - e. Be actively enrolled, attending, and successfully completing classes in a minimum of five (5) units. Students may be enrolled in more than one college in the district yet a minimum of five (5) units must be taken at the college where the student is seeking office.

Any candidate or officer with a disability may request an accommodation for the above requirements of 1e.

2. A student cannot be a candidate for ASU office if he/she has served more than four semesters in a student government elected and/or appointed office, or in any office or position where he/she voted on the expenditure of ASU funds in any college.
 - a. Ten weeks or more in office or service will be counted as a full semester.
 - b. An officer may serve a fifth semester if eligible at the time of assuming office (e.g. has served three semesters and is a candidate for an office with a one-year term) with the approval of the college president or designee.

Please contact the ASU Advisor concerning Administrative Regulation S-9.

The ASU Constitution provides for a tripartite form of government consisting of executive, legislative, and judicial branches. The executive branch is headed by the president, who serves for a one-year term. He/she serves as chairperson of the Board of Directors (BOD), which is composed of elected/appointed officers. The BOD is the legislative branch, which has the power to approve presidential appointments. The Inter-Club Council is headed by the ASU Executive Vice President. A judicial branch is developed around a Supreme Court. The court tries all impeachments and reviews BOD legislation.

Input is vital if an educational institution wishes to be successful in adapting to the growing needs of its students. The opportunity for student involvement exists through the ASU.

ASU MEMBERSHIP STICKER

Membership in the Associated Student Union is important to a quality program of extra and co-curricular activities which includes student government, athletics, clubs, choir, drama, etc. Supporting ASU is beneficial to both the student and the college.

STUDENT ORGANIZATIONS

Approximately 50 campus organizations have open membership to students who are members of the Associated Student Union. Service clubs, special interest clubs, activity clubs, department-related organizations, and religious clubs offer a variety of opportunities for student involvement. The club program is coordinated by the Inter-Club Council (I.C.C)

Additional information on organizations is available in the Associated Students Union Office, Student Center G8-119, Executive Vice President (323) 265-8650, Ext 8162.

STUDENT TRUSTEE ELECTION PROCEDURE

The Los Angeles Community College District conducts an election annually whereby each student in the District has an opportunity to be involved in the process of selecting a student representative to the Los Angeles Community College District Board of Trustees.

The process contained in Board Regulation 21002 provides for a thorough evaluation of the candidates' qualifications and ensures an equal opportunity for any individual from any District college campus to seek the position of student representative to the Los Angeles Community College District Board of Trustees.

Qualifications: In accordance with existing law and District regulations to be established by the Chancellor, candidates for Student Trustee must:

1. Be residents of the District.
2. Be currently enrolled at a District college, and in good standing (i.e., not on academic or progress probation).
3. Be currently enrolled in 5 units.
4. Plan to continue as a District resident and enroll as a District student through the one-year term of office.
5. Have completed a minimum of 12 units and a maximum of 80 transferable units within the Los Angeles Community College District. Exception will be decided by the chancellor or designee based upon recommendations made by the Chief Student Services Officer or designee at the student's primary college of attendance.

Please contact the ASU advisor at (323) 265-8742 concerning Board Rule 21002.

CULTURAL ACTIVITIES

DANCE

The East Los Angeles College Let's Dance Company (LDC) consists of passionate, committed, and talented young women and men. LDC represents a diverse group of prestigious dancers with multi-cultural backgrounds who obtain a common goal to grow and prosper by taking an enthusiastic approach to learning, bonding, and gathering memorable experiences. Many of our Let's Dance Company alumni are teaching dance in community services, recreation, and after school programs everywhere in our service area. Some of our dancers are dancing in Community Theater, on Cruise Lines, and even on Broadway! The ELAC Dance Department has performance opportunities each semester in the Recital Hall, in the community, and the Let's Dance Company has even performed in European performance tours. The S2 Dance Building houses two of the largest smart classrooms for dance technique classes in Southern California, and we also share a beautiful 350-seat recital hall in our building with Music. For more information about Dance at ELAC and the LDC, performance information, audition schedules, and ticketing, please call the Director/Chair, Kimberly Rabins, at 323-265-8740.

INTERCOLLEGIATE ATHLETICS

East Los Angeles College offers competitive intercollegiate athletic programs for both men and women. Sports presently offered for men are football, basketball, baseball,

wrestling, soccer, cross country, and track and field. Sports presently offered for women are badminton, basketball, volleyball, soccer, softball, cross country, track and field, swimming, and water polo.

Students must carry a minimum of 12 semester units, 9 of which must be in academic courses, to be eligible for the first season of participation in intercollegiate athletics. Second season athletes must have completed a minimum of 24 semester units, 18 of which must be in academic courses, with a minimum grade-point average of 2.0 in order to be eligible to participate, and also carry a minimum of 12 units during every season of participation.

MUSIC

The Music Program offers students the opportunity to perform in various concerts and cultural events each semester. These performances include classical, jazz, folk, rock, Latin, and popular styles performed by vocal and instrumental soloists, small and large ensembles, including chorus, orchestra, jazz band, symphonic band, and pop groups. For further information, or inclusion on the email list, contact (323) 265-8894.

THE VINCENT PRICE ART MUSEUM

Located on the campus of East Los Angeles College, the Vincent Price Art Museum (VPAM) is the first institutional art space to serve the East Los Angeles area. VPAM is a cultural center that benefits the college and its community by offering significant exhibitions and by providing all of Los Angeles with the resource of a regional showcase.

Beginning in 1951, noted actor and art collector Vincent Price donated art objects from his personal collection to ELAC, establishing the first "teaching art collection" owned by a community college. In 1957, the Vincent and Mary Grant Price Gallery -- as it was then known -- was founded. Even today, ELAC remains one of the few community colleges in the United States with the resource of a major art collection. Over the course of more than fifty years, the gallery space has expanded and the collection has grown to more than 8,000 objects.

VPAM is now the cornerstone of ELAC's new performing and visual arts center. The new four-story museum, designed by the firm Arquitectonica, is located on the corner of Avenida Cesar Chavez and Collegian Avenue. It features three floors of gallery spaces for temporary shows and displays of our permanent collection. The collection is housed in a custom-designed basement storage area known as the Thomas Silliman Vault, named in honor of the long-serving director and generous benefactor of the Museum.

VPAM hosts temporary, rotating shows curated by museum staff and guest curators. Additionally, we partner with other organizations to host travelling exhibitions. We strive to make our exhibitions socially, culturally, and historically relevant to our community. The Museum is particularly interested in showcasing work by mid-career artists and artists whose work is under-recognized by regional arts institutions. Recent exhibitions have included solo surveys of artists Shizu Saldamando, John Valadez, Macha Suzuki, Carlos Almaraz, Barbara Carrasco, Ken Gonzales-Day, Pearl C. Hsiung, and Rebekah Bogard.

VPAM regularly employs ELAC student workers as gallery assistants and offers internships for credit to art, art

history, and museum studies majors from local colleges and universities. Please contact VPAM for more information about opportunities and to learn about upcoming exhibitions: email vincentpriceartmuseum@elac.edu; on the web, vincentprice.elac.edu; and tel. (323) 265-8841. Admission is free. Guided tours are available

THEATER ARTS

The Theater Arts program offers drama students an opportunity to learn about all aspects of drama - both on and off stage. The theater presents a number of major productions each semester. For further information, ticket reservations, or inclusion on the mailing list, contact the box office at (323) 415-5034.

PUBLICATIONS

COLLEGE NEWSPAPER

The College newspaper and a newspaper website are published as a learning experience, offered under the College journalism instructional program. The editorial and advertising materials published by the newspaper and website, including any opinions expressed, are the responsibility of the student journalists. Under appropriate State and Federal court decisions, these materials are free from prior restraint by virtue of the First Amendment to the United States Constitution. Accordingly, materials published, including any opinions expressed, should not be interpreted as the position of the Los Angeles Community College District, the College, or any District or College officer or employee.

CATALOG

The campus publishes a yearly catalog and catalog supplement.

SCHEDULE OF CLASSES

The campus publishes Fall, Winter, Spring, and Summer schedules of classes as well as Community Services class offerings.

Scholastic Policies

ATTENDANCE

The student is expected to attend every meeting of all classes for which he or she is registered. Attending a class without being registered is contrary to the Los Angeles Community College District rules and cannot be used as the basis for a petition to add a class.

Students who have enrolled for a class and who do not attend or who are late or absent from the first meeting of the class may be excluded by the instructor.

STUDENT RESPONSIBILITIES

Students will only be able to enroll in or attempt a course three times. Students who stay in a course past the “no penalty” withdrawal date and then drop it or are excluded, will receive a grade of “W” and have used one of their three attempts.

Any student who has three attempts at any given class, with any combination of “W”, “D”, or “F” grades, will not be able to register for the class again, and will need to take the class again at a college outside the Los Angeles Community College District.

Students may petition for one more attempt by citing “extenuating circumstances,” however, for the most part the only extenuating circumstances that are allowed are military deployment or natural disaster.

It is the responsibility of the student to notify the instructor of circumstances which will prevent attendance at any meeting of the class. Students may notify instructors by e-mail or by phone using the number listed on the course syllabus. If the number is not listed, use the number for the department chair listed in the class schedule and ask that the message be forwarded.

Whenever absences in hours exceed the number of hours the class meets per week, the student may be excluded from class by the instructor.

IT IS THE STUDENT’S RESPONSIBILITY TO DROP FROM A COURSE. Any drops or exclusions that occur between 20% and 75% of the term will result in a “W” on the student’s record, which will be included in the determination of progress probation. Drops are not permitted beyond 75% of the term. An evaluative grade (“A”, “B”, “C”, “D”, “F”, “P”, or “NP”) will be assigned to students who are enrolled past 75% of the term even if they stop attending class, except in cases of extenuating circumstances. After 75% of the time the class is scheduled, the student may petition to the Dean of Admissions to withdraw from class demonstrating extenuating circumstances. For further details, refer to “W” section of “Grading Symbols and Definitions”.

TARDIES

Three tardies will be considered the equivalent of one hour of absence. A tardy is defined as coming in to class after the class officially begins.

FINAL EXAMINATIONS

Final examinations are given in all courses according to the schedule which is printed in the Schedule of Classes.

GRADING SYMBOLS AND DEFINITIONS AND CONDITIONS FOR USE

Only the symbols in the grading scale given in this section shall be used to grade all courses.

Grades shall be averaged on the basis of the point equivalences to determine a student’s grade-point average, using the following evaluative symbols:

GRADE SYMBOL	DEFINITION	GRADE POINTS
A	Excellent	4
B	Good.....	3
C	Satisfactory.....	2
D	Less than satisfactory.....	1
F	Failing.....	0
P	Pass (at least satisfactory - units awarded not counted in GPA. Has the same meaning as “CR” as that symbol was defined prior to June 30, 2007.) Applies to credit and noncredit courses.	
NP	No-Pass (less than satisfactory - units awarded but not counted in GPA. NP has the same meaning as “NC” as that symbol was defined prior to June 30, 2007.) Applied to credit and noncredit courses.	
SP	Satisfactory Progress towards completion of the course (used for noncredit courses only and is not supplanted by any other symbol.	

(P and NP grades may be given only in courses authorized by the District Pass/No-Pass Option and Credit by Examination Policies).

The following non-evaluative symbols may be entered on a student’s record, but are not part of the GPA calculation.

SYMBOL	DEFINITION
--------	------------

I Incomplete

Incomplete academic work for unforeseeable, emergency, and justifiable reasons at the end of the term may result in an “I” symbol being entered in the student’s record. The condition for removal of the “I” and the grade which is assigned in lieu of shall be stated by the instructor in an Incomplete Grade Record.

This record shall be given to the student, with a copy on file in the college Admissions Office until the “I” is made up and a final grade assigned, or when one year has passed. The “I” symbol shall not be used in calculating units attempted nor for grade points. The “I” may be made up no later than one year following the end of the

term in which it was assigned. The student may petition for a time extension due to unusual circumstances.

IP In Progress

The "IP" (In Progress) symbol shall be used only in those courses which extend beyond the normal end of an academic term. It indicates that work is "in progress," but that assignment of a grade must await the course completion. The "IP" symbol shall remain on the student's permanent record in order to satisfy enrollment documentation. The appropriate evaluative grade and unit credit shall be assigned and appear on the student's record for the term in which the required work of the course is completed. The "IP" shall not be used in calculating grade point averages.

RD Report Delayed

The "RD" symbol may be assigned when there is a delay in reporting the grade beyond the control of the student. The "RD" may be assigned by the Dean of Student Services only. It is a temporary notation to be replaced by a permanent symbol as soon as possible.

W Withdrawal

Withdrawal from a class or classes shall be authorized through the last day of the fourteenth week of instruction or 75% of the time the class is scheduled to meet whichever is less.

No notation ("W" or other) shall be made on the record of a student who withdraws before the census date of the course.

Withdrawal between the end of the fourth week (or 30% of the time the class is scheduled to meet, whichever is less) and the last day of the fourteenth week of instruction (or 75% of the time the class is scheduled to meet, whichever is less) shall be authorized after informing the appropriate faculty. A student who remains in class beyond the fourteenth week of 75% of the time the class is scheduled shall be given a grade other than a "W", except in cases of extenuating circumstances.

After the last day of the fourteenth week (or 75% of the time the class is scheduled, whichever is less) the student may withdraw from class upon petition demonstrating extenuating circumstances and after consultation with the appropriate faculty.

Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the student. Withdrawal after the end of the fourteenth week (or 75% of the time the class is scheduled, whichever is less) which has been authorized in extenuating circumstances shall be recorded as a "W".

For purposes of withdrawal policies, the term "appropriate faculty" means the Instructor of Record for each course in question or, in the event the instructor cannot be contacted, the department chair or equivalent faculty officer.

The "W" shall not be used in calculating units attempted nor for the student's grade point average.

"W's" will be used as factors in progress probation and dismissal.

A "W" shall not be assigned, or if assigned shall be removed from a student's academic record, if a determination is made that the student withdrew from the course due to a discriminatory treatment or due to retaliation for alleging discriminatory treatment or that the student withdrew because he or she reasonably believed that remaining in the course would subject him or her to discriminatory treatment or retaliation for alleging discriminatory treatment.

A student may not withdraw and receive a "W" symbol on his or her record more than three times for enrollment in the same course. A student may enroll again in the same course after having previously received the authorized number of "W" symbols in the same course, if a designated college official approves such enrollment after review of a petition filed by a student.

MW Military Withdrawal

"Military Withdrawal" occurs when a student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. Upon verification of such orders, a withdrawal symbol may be assigned at any time after the period established by the governing board during which no notation is made for withdrawals. The withdrawal symbol so assigned shall be a "MW".

1. Military withdrawals shall not be counted in progress probation and dismissal calculations.
2. MW shall not be counted towards the permitted number of withdrawals.

The District shall refund the entire enrollment fee unless academic credit has been awarded.

EW Excused Withdrawal

"Excused Withdrawal" occurs when a student must withdraw from a course or courses under circumstances beyond their control. Upon verifiable documentation (i.e. job transfer, illness of family member, incarcerated student, subject to immigration action, chronic or acute illness, accident or natural disaster) a student may petition for an "EW" non-evaluative symbol.

Excused withdrawals shall not be counted in progress probation and dismissal calculations nor shall it be counted towards the permitted number of withdrawals or counted as an enrollment attempt.

The student with an approved "EW" grade may file a petition with the District requesting a refund of the enrollment fee unless academic credit has been awarded or they received the California College Promise Grant or a waiver of fees from AB 19 funds.

PASS/NO-PASS OPTION

The College may designate courses in the college catalog wherein all students are evaluated on a Pass/No-Pass basis or wherein each student may elect on registration or no later than the end of the first 30% of the term, whether the basis of evaluation is to be Pass/No-Pass or a letter grade. These courses will be noted in the college catalog as being eligible for the Pass/No-Pass option.

The Pass/No-Pass grading system shall be used in any course in which there is a single satisfactory standard of

performance for which unit credit is assigned. A grade of Pass shall be assigned for meeting that standard (earning 70% or higher), and a grade of No-Pass shall be assigned (earning a grade below 70%) for failure to do so.

The student who is enrolled in a course on a Pass/No-Pass basis will be held responsible for all assignments and examinations required in the course and must meet the same standards of evaluation as required for all students.

NOTE THAT UC AND CSU POLICIES ON ACCEPTING P/NP VERSUS GRADES VARY BY CAMPUS. SEE YOUR COUNSELOR FOR CURRENT INFORMATION.

EAST LOS ANGELES COLLEGE OFFERS PASS/NO-PASS COURSES IN THE FOLLOWING CATEGORIES:

A. NON-OPTIONAL

The courses wherein all students are graded on a Pass/No-Pass basis. These courses are indicated in the Schedule of Classes:

ACCEPTANCE OF PASS CREDITS

All courses and units (including those units earned on a "Pass/No-Pass" basis) used to satisfy requirements, including graduation requirements, educational program requirements, and transfer core curriculum requirements, shall be from accredited institutions, unless otherwise specified in this Board Rule.

"Accredited institution" shall mean a postsecondary institution accredited by an accreditation agency recognized by either the U.S. Department of Education or the Council on Postsecondary Accreditation. It shall not mean an institution "approved" by the California Department of Education or by the California Council for Private Postsecondary and Vocational Education.

RECORDING OF GRADE

A student who is enrolled in a course on the "Pass/No-Pass" basis shall receive both course and unit credit upon satisfactory completion of the course. Satisfactory completion (earned 70% or higher) is equivalent to the grade of "C" or better and will be assigned a "Pass" (P) grade. A student with unsatisfactory performance (earned less than 70%) will be assigned a "No-Pass" (NP) grade.

GRADE POINT CALCULATION

Units earned on a "Pass/No-Pass" basis shall not be used to calculate grade point averages. However, units attempted for which "NP" (No-Pass) symbol is recorded shall be considered in probationary and dismissal procedures.

STANDARDS OF EVALUATION

The student who is enrolled in a course on a "Pass/No-Pass" basis will be held responsible for all assignments and examinations required in the course and the standards of evaluation are identical for all students in the course.

CONVERSION TO LETTER GRADE

A student who has received credit for a course taken on a "Pass/No-Pass" basis may not convert this credit to a letter grade.

GRADE CHANGES

GRADES AND GRADE CHANGES

The Instructor of record for the course shall determine the grade to awarded to each student. The determination of the student's grade by the instructor is final in the absence of mistake, fraud, bad faith, or incompetency. For purposes of this section, "mistake" may include, but is not limited to, clerical errors and errors made by an instructor in calculating a student's grade. The removal or change of an incorrect grade from a student's record shall only be done upon authorization by the Instructor of Record for the course, or upon authorization by the College President upon the conclusion of the grade grievance process.

In the case of fraud, bad faith, or incompetency, the final determination concerning removal or change of grade will be made by the College President.

The changing of a grade is a serious matter that must be supported with documentation provided by the student of the course. To request a grade change, students may submit a petition for review to the Admissions Office.

No grade may be challenged by a student more than one year from the end of the term in which the course was taken absent extenuating Circumstances; If a college's academic senate has determined that extenuating circumstances apply, then that period of time during which grades may be challenged should be more than one year, such longer period shall apply at that college.

TRANSCRIPTS/VERIFICATIONS

Requests for transcripts or verifications may be obtained in the Admissions and Records Office or online. Transcripts from another institution are not available for copying.

Upon written request of the student, a copy of the student's academic record shall be forwarded by the Admissions Office to a designated addressee promptly by U.S. mail.

A student or former student shall be entitled to two free copies of the transcript of his or her record or two free verifications of student records. Additional copies shall be made available to the student, or to an addressee designated by the student, at a cost of \$3.00. Students may request special processing to expedite their request for an additional fee of \$7. This option is subject to the college's ability to provide this service.

The student's transcript may be withheld if there are any unpaid fees or charges due to the College or other restrictive hold.

SCHOLASTIC AWARDS

DEAN'S HONOR LIST

FULL-TIME STUDENTS DEAN'S HONOR LIST

1. Twelve (12) or more graded units completed in the qualifying semester.
2. Grade-point average of 3.5 or higher in the qualifying semester.

PART - TIME STUDENTS DEAN'S HONOR LIST

1. Six (6) or more graded units completed in the semester where student is being considered for inclusion on the Dean's Honor List.
2. Grade-point average of 3.5 or higher in the qualifying semester.

GRADUATION HONORS

Graduation honors and awards are based on the student's cumulative grade-point average in degree-applicable courses in the LACCD.

SUMMA CUM LAUDE

This award is granted to the student who, at the time of graduation, has the highest grade-point average for work taken in the LACCD.

MAGNA CUM LAUDE

This award is granted to the student who at the time of graduating has the second highest grade-point average for work taken in the LACCD.

CUM LAUDE

This award is granted to those graduating students who have attended East Los Angeles College for a minimum of 24 units of work and who have maintained not less than a 3.5 grade-point average in all college work taken at East Los Angeles College and all other institutions. Cum Laude graduates will have the option to purchase a gold honor cord to wear during the graduation ceremony.

ACADEMIC STANDARDS

ACADEMIC RENEWAL (BOARD RULE 6705)

Students may petition for an academic renewal action in order to alleviate substandard academic performance under the following conditions:

- a. Students must have achieved a grade point average of 2.5 in their last 15 semester units, or 2.0 in their last 30 semester units completed at any accredited college or university, subsequent to the coursework to be alleviated, and
- b. At least one calendar year must have passed since the course work to be removed was completed.

Granted, academic renewal shall result in:

- a. Eliminating up to 30 semester units of coursework taken within the Los Angeles Community College District from consideration in the student's cumulative grade point average, and
- b. Annotating the student academic record to note which courses have been removed through academic renewal.

Graduation honors and awards are to be based on the student's cumulative grade point average for all college work attempted.

COURSE REPETITION TO REMOVE A SUBSTANDARD GRADE

Students may repeat courses in which substandard grades ("D", "F", or "NC", or "NP") were awarded provided they have not already attempted the same course three times.

When course repetition under this section occurs, the student's permanent academic record shall be annotated in such a manner that all work remains legible, ensuring a true and complete academic history

For the first and second repetitions of a course where a substandard grade was awarded, the highest grade earned shall be used when computing the student's cumulative grade point average.

- a. Students who have received three substandard grades for the same course may repeat it one more time upon approval of a filed petition documenting extenuating circumstances. Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the student.

COURSE REPETITION: FOURTH ATTEMPT OR MORE

A student may enroll and receive an evaluative symbol of "D", "F" or "NC", or "NP" and/or a non-evaluative symbol of "W" in the same credit course a maximum of three times. Title 5 Regulation 55024 allows a district to establish a petition process for students attempting this same course a fourth time due to extenuating circumstances.

Extenuating Circumstances. According to Board Rule 6701.10, "Extenuating circumstances may include, but are not limited to, verified cases of accidents, illness, military service, significant lapses of time, changes in program or major, or other circumstances beyond the control of the student."

Filing periods: (Fourth Attempt Petitions will be considered for spring/fall semesters only).

- Spring semester: October 1 to December 21
- Fall semester: April 1 to June 1

REPETITION OF COURSES IN WHICH A SATISFACTORY GRADE WAS RECORDED

- a. Repetition of courses for which a satisfactory grade of "A", "B", "C", "CR" or "P" has been recorded shall be permitted only upon an advanced petition of the student and with the written permission from the college president, or designee, based on a finding that extenuating circumstances exist which justify such repetition or that there has been a significant lapse of time since the student previously took the course. Significant lapse of time is defined as no less than 36 months since the most recent grade was awarded.
- b. When course repetition under this section occurs, the student's permanent academic record shall be annotated in such a manner that all work remains legible, ensuring a true and complete academic history.
- c. Grades awarded for courses repeated under this provisions of subsection "a" and "b" of this section shall not be counted in calculating a student's grade point average.
- d. When such repetition is necessary for a student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment, such courses may be repeated for credit any number of times, and the grade received each time shall be included for purposes of calculating the student's grade point average. The college shall establish policies and procedures requiring students to certify or document that course repetition is necessary to complete legally mandated training pursuant to this subsection. The college's process for certification or documentation of legal training requirements shall be developed in accordance with the provisions of Chapter XVIII of the Board Rules - - ACADEMIC SENATE AND BOARD OF TRUSTEES SHARED GOVERNANCE POLICY.
- e. A student may repeat any course if the college has properly established a recency prerequisite for a course, if there has been "significant lapse of time." In no instance shall this be less than three years.
- f. A student with a disability may repeat a class any number of times, if such repetition is required as a disability-related accommodation for that particular student.

- g. A student who receives a grade of SP in a noncredit course pursuant to repeatability regulations governing noncredit courses.

REPEATABLE COURSES

Certain courses in the Catalog may be repeated for additional unit credit. These courses, marked "RPT" in the Course Section of the Catalog, allow the student to build on skills and proficiencies by supervised repetition and practice within class periods. Enrollment in these courses is limited in any similar course to a maximum of three repeats for a total of four (4) enrollments, regardless of the repeatability of individual courses.

DUPLICATIVE CREDIT

Duplicative credit in non-repeatable courses should not be used towards the 60 units required for graduation regardless of whether or not the student petitioned to have the transcript annotated.

DIRECTED STUDY

A maximum total of 6 units in directed study are accepted for credit.

AUDITING CLASSES

Students may be permitted to audit a class under the following conditions:

- a. Payment of a fee of \$15 per unit. Students enrolled in classes to receive credit for ten or more semester units shall not be charged a fee to audit three or fewer semester units per semester.
- b. No student auditing a course shall be permitted to change his/her enrollment in that course to receive credit for the course.
- c. Priority in class enrollment shall be given to students desiring to take the course for credit.

AWARDING CREDIT**ACCEPTANCE OF UPPER-DIVISION COURSEWORK TO MEET ASSOCIATE DEGREE REQUIREMENTS**

The colleges within the LACCD will accept upper division coursework completed at other colleges for the purpose of fulfilling Associate Degree requirements using the following guidelines:

1. Coursework must be completed at a United States regionally accredited institution.
2. A student must submit official transcripts from the originating institution.
3. Upper division courses may be applied to an LACCD general education area or major and/or elective requirements based on content equivalency to a general education, major, or elective course offered at an LACCD campus.
4. Upper division courses in Math or English composition may be used to satisfy competency requirements for the Associate Degree.

USE OF UPPER DIVISION COURSES TO SATISFY IGETC OR CSU GE BREADTH

Policy on the use of upper-division coursework on the IGETC and CSU GE is governed by the University of California and California State University systems. Consult the IGETC Standards and CSU Executive Order 1100 for complete details.

PREVIOUSLY EARNED COLLEGE UNITS

College credits earned at any accredited institutions of higher education. Credits are posted to transcripts upon completion of all other graduation requirements. Students must request copies of official sealed transcripts be mailed to the office of Admissions and Records from each college attended.

ACCEPTANCE OF COURSE TO MEET ASSOCIATE DEGREE AND GENERAL EDUCATION REQUIREMENTS

The college within the LACCD will accept degree-applicable coursework completed at other colleges for the purpose of satisfying the LACCD Associate degree general education plan, graduation competency, and unit (elective) credit using the following guidelines:

1. Coursework must be completed at an institution accredited by a recognized United States regional accrediting body. Note: For coursework taken at institutions of higher learning outside the United States, refer to LACCD Administration Regulation E-101.
2. Coursework must be degree applicable at the originating institution.
3. A student must submit official transcripts from the originating institution consistent with current Board policy.
4. Students may receive credit for the following:
 - LACCD General Education Plan:
 1. The college will honor each course in the same general education area in which the originating institution placed each course. Equivalency to an LACCD course is not required and does not prohibit application of the course to an alternative general education area, if deemed beneficial to the student.
 2. Courses taken at the originating institution that do not appear on that college's general education pattern will be applied to an LACCD general education area based on course content equivalency to a general education course offered at an LACCD campus.

Note: For applicability to statewide transfer general education patterns refer to IGETC Standards, and CSU Executive Order 1100

- LACCD Competency Requirement:
 1. A minimum grade of "C" is required in each course used to fulfill the English and Mathematics competency requirement.
- LACCD unit (elective) credit. There is no maximum on the number of units that may be applied to local associate degrees. The LACCD residency requirement must still be met per LACCD Board Rule 6201.11.
- LACCD Course Credit

1. Each college shall develop procedures for determining whether the courses taken at other U.S. regionally accredited institutions of higher education are equivalent to courses in the college's curriculum. These procedures shall be developed in consultation with the college's Academic Senate in accordance with the provisions of Chapter XVIII of the Board Rules – Academic Senate and the Board of Trustees Shared Governance Policy.

**This policy does not apply to Associate Degrees for Transfer (ADT's): refer to the LACCD ADT Reciprocity Guidelines.*

ADVANCED PLACEMENT CREDIT

1. COURSE EQUIVALENCY

Course equivalency for Advanced Placement exams, for purposes other than meeting General Education and graduation competency requirements for the Associates Degree, shall be determined by the college, using policies developed in consultation with the college's Academic Senate, in accordance with the provisions of LACCD Board Rules, Chapter XVIII, Article I.

Course equivalency does not award unit credit. For unit credit policy, see item 3 below.

2. USE OF ADVANCED PLACEMENT

Use of Advanced Placement exams for meeting General Education Requirements and graduation competency requirements for the Associate of Arts and Associate of Science Degrees

Advanced Placement (AP) Exams shall be used toward meeting General Education requirements and Graduation Competency for the Associate of Arts and Associate of Science Degrees, as defined in Board Rule Chapter VI, Article II.

Students must receive a passing score (3, 4, or 5) on an AP exam to receive the credit indicated in Appendix A.

3. ADVANCED PLACEMENT UNIT CREDIT

For the purpose of granting unit credit towards meeting General Education and graduation competency requirements, the LACCD shall follow the guidelines for Advanced Placement credit set by the American Council on Education:

In general, the recommended minimum number of semester hours from ACE corresponds to the status of the corresponding high school AP course:

- 3 semester hours are recommended in the case of a half-year course
- 6 semester hours for most full-year courses
- 8 semester hours for some of the mathematics, sciences, and foreign languages

4. CSU GE BREADTH AND IGETC

The placement of courses in the California State University General Education Breadth (CSU GE Breadth) and the Intersegmental General Education Transfer Curriculum (IGETC) Plans is determined by the University of California and California State University systems respectively; therefore it is not necessary for the college to grant course equivalency for this to occur. Refer to IGETC standards and CSU AP policy to see how to apply the exams to these GE patterns.

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP) CREDIT

1. COURSE EQUIVALENCY

Course equivalency for CLEP (College-Level Examination Program) exams, for purposes other than meeting General Education and Graduation Competency requirements for the Associate Degree, shall be determined by the college, using policies developed in consultation with the college's Academic Senate, in accordance with the provisions of LACCD Board Rules, Chapter XVIII, Article I.

Course equivalency does not award unit credit. For unit credit policy, see item 3 below.

2. USE OF CLEP EXAMS for meeting General Education requirements and Graduation Competency requirements for the Associate in Arts and Associate in Science Degrees.

CLEP Exams shall be used toward meeting General Education requirements and Graduation Competency for the Associate in Arts and Associate in Science Degrees, as defined in Board Rule Chapter VI, Article II.

Students must receive a passing score (50) on most CLEP exams, except Foreign Language level 2 exams which require a higher score.

Students who take an Advanced Placement (AP) exam, an International Baccalaureate (IB) exam, or College-Level Examination Program (CLEP) exam in the same topic area will receive credit for only one exam (for example, if a student takes both the CLEP exam in Biology and the AP exam in Biology, they will only be awarded credit for one exam because the topics are duplicative). The college should award credit for the exam that most benefits the student.

3. CLEP UNIT CREDIT

For the purpose of granting unit credit towards meeting General Education and Graduation Competency requirements, the LACCD shall follow the guidelines for CLEP credit set by the American Council on Education:

- 3 semester hours are recommended in the case of a half-year course.
- 6 semester hours for most full-year courses.
- 12 semester hours for Level 2 Foreign Language exams equivalent to four semesters of college-level foreign language course work.

Note: See pages 66 and 67.

INTERNATIONAL BACCALAUREATE (IB) CREDIT

The International Baccalaureate® (IB) Diploma Program is a challenging two-year curriculum, primarily aimed at students aged 16 to 19. The IB Diploma Program is a comprehensive and challenging pre-university course of study, leading to examinations that demand the best from motivated students and teachers. It is widely recognized for its high academic standards.

- The two-year curriculum is rigorous and intellectually coherent, encouraging critical thinking through the study of a wide range of subjects in the traditional academic disciplines while encouraging an international perspective.
- Beyond completing college-level courses and examinations, Diploma Program students are also required to engage in community service, individual research, and an inquiry into the nature of knowledge.
- The two-year course of study leads to final examinations in six Subject areas.

THE IB GOVERNANCE IS COMPOSED OF:

- An IB Board of Governors
- Six committees (access and advancement, audit, compensation, education, finance, and governance)

The IB curriculum offers language at various levels for native and non-native speakers. Language B courses are offered at the intermediate level for non-natives. Language A1 and A2 are advanced courses in literature for native and non-native speakers, respectively.

REQUIREMENTS

1. COURSE EQUIVALENCY

Course equivalency for IB (International Baccalaureate) exams, for purposes other than meeting General Education and graduation competency requirements for the Associate Degree, shall be determined by the college, using policies developed in consultation with the college's Academic Senate, in accordance with the provisions of LACCD Board Rules, Chapter XVIII, Article I.

Course equivalency does not award unit credit. For unit credit policy, see item 3 below.

2. USE OF IB EXAMS for meeting General Education Requirements and Graduation Competency requirements for the Associate in Arts and Associate in Science Degrees

IB Exams shall be used toward meeting General Education requirements and Graduation Competency for the Associate in Arts and Associate in Science Degrees, as defined in Board Rule Chapter VI, Article II.

Students must receive a minimum score of 4 on most IB exams; other exams may require a score of 5.

Credit will only be given for Higher Level (HL) exams. No credit is given for Standard Level (SL) exams.

Students who take an Advanced Placement (AP) exam, an International Baccalaureate (IB) exam, or College-Level Examination (CLEP) exam in the same topic area will receive credit for only one exam. (For example, if a student takes both the AP exam in Biology and the IB Biology HL exam,

they will only receive credit for one exam because the topics are duplicative). The college should award credit for the exam that most benefits the student.

3. IB UNIT CREDIT

For the purpose of granting unit credit towards meeting General Education and graduation competency requirements, the LACCD shall follow the guidelines for IB credit set by the International Baccalaureate Organization:

Students can receive a score of 1 (poor or elementary) to 7 (excellent) for each Subject studied. Universities and colleges typically expect individual HL Subject scores to be a minimum of 4 (satisfactory) or sometimes 5 (good) for credit consideration.

4. CSU GE BREADTH AND IGETC

The placement of courses in the California State University General Education Breadth (CSU GE Breadth) and the Intersegmental General Education Transfer Curriculum (IGETC) Plans is determined by the University of California and California State University systems respectively; therefore it is not necessary for the college to grant course equivalency for this to occur. Appendix A indicates how IB exams are used to meet these requirements.

5. ANNOTATION OF IB GE/ELECTIVE CREDIT ON LACCD TRANSCRIPTS

IB credit should be annotated on LACCD transcripts using the following format: IB Exam name: Score received; A.A./A.S. GE Area met; units awarded (if applicable); A.A/A.S. electives; units awarded (if applicable); competency met (if applicable). See Page 68 for more information.

CREDIT FOR MILITARY SERVICE

1. Credit for military service will be awarded toward Associate Degree requirements as follows:

- Three units of credit towards LACCD Associate Degree general education Area E: Health and Kinesiology (Board Rule 6201.14)
- Three units of elective credit toward the 60 units required for an associate degree

2. Application Requirements:

- Complete an LACCD Application
- Arrange for all transcripts (including A/ASRTS, SMART, and CCAF) and other application materials to be sent to the LACCD campus of attendance
- Provide verification of U.S. military service, as follows:
 1. Military Personnel of Active Duty: documentation must verify at least 181 days of active duty
 2. Former Military Personnel currently NOT on Active Duty: Active Duty documentation (DD 214) must indicate student's length of service, which must include 181 days of active duty

3. Acceptable Documentation for Verifying Military Course Completion:

- Army/American Council on Education Registry Transcript System (A/ASRTS)

- Form DD 295, “Application for the Evaluation of Learning Experiences During Military Service”
 - DD Form 214, “Armed Forces of the United States Report of Transfer or Discharge”
 - Course completion certificates
 - Sailor/Marine American Council on Education Registry Transcript (SMART)
 - Community College of the Air Force (CCAF) Transcript
 - Defense Acquisition University (DAU) Transcript
4. There is no LACCD residency requirement. Students may receive military credit upon entrance to any college within the LACCD.

5. Transcript Annotation

Military credit will be posted on student transcripts in keeping with the provisions of Administrative Regulation E-118.

Adds and Drops for Veterans must be reported to the Veterans Clerk in the Admissions Office as soon as possible. To fail to do so may result in an overpayment or underpayment. The Veterans Administration holds the veteran responsible for reimbursement of overpayments.

Attendance Verification: Veterans must sign in with the Veterans Clerk from the 20th to 28th of each month or they will be discontinued from receiving benefits.

CREDIT BY EXAMINATION

- a. The governing board shall adopt and publish policies and procedures pertaining to credit by examination; and
- b. The governing board may grant credit to any student who satisfactorily passes an examination approved and conducted by proper authorities at each college. Such credit may be granted only to a student who is registered at the college and in good standing and only for a course listed in the college catalog.
- c. The nature and content of the examination shall be determined solely by faculty in the discipline who normally teach the course for which credit is to be granted in accordance with policies and procedures approved by the college curriculum committee. The faculty shall determine that the examination adequately measures mastery of the course content as set forth in the outline of record. The faculty may accept an examination conducted at a location other than the college.
- d. A separate examination shall be conducted for each course for which credit is to be granted. Credit may be awarded for prior experience or prior learning only in terms of individually identified courses for which examinations are conducted.
- e. The student’s academic record shall be clearly annotated to reflect credit was earned by examination.
- f. Grading shall be according to the regular grading system, except that students shall be offered a “pass-no pass” option if that option is ordinarily available for the course.
- g. Units for which credit is given for credit by examination shall not be counted in determining the 12 semester units in residence required for an associate degree.

- h. The college may charge a student fee for administering an examination provided the fee does not exceed the enrollment fee which would be associated with enrollment in the course for which the student seeks credit by examination.

THE FOLLOWING COURSES MAY BE TAKEN BY EXAM:

TRANSFER CREDIT POLICY

CREDIT FOR COURSES TAKEN AT INSTITUTIONS OF HIGHER LEARNING OUTSIDE THE UNITED STATES

The intent of this policy is to provide a process for granting LACCD Associate Degree general education, graduation competency, and unit (elective) credit for course work completed at institutions of higher education outside the United States. This policy does not apply to Associate Degrees for Transfer (ADT’s), IGETC, or CSU GE: refer to the LACCD ADT reciprocity Guidelines.

- 1. Students petitioning for credit must provide comprehensive, detailed, course by course evaluation of their transcripts completed by an independent transcript evaluation service approved by the California Commission on Teacher Credentialing.
- 2. Students may receive credit for the following:
 - a. LACCD General Education plan, excluding Area BI American Institutions.
 - b. LACCD Competency Requirement, excluding Reading and Written Expression.
 - c. LACCD unit (elective) credit. There is no maximum on the number of units that may be applied to local associate degrees. The LACCD residency requirement must still be met per LACCD Board Rule 6201.11.
 - d. LACCD Course Credit
 - Each college may develop procedures for determining whether the courses taken at the institution of higher education outside the United States are equivalent to courses in the college’s curriculum. These procedures shall be developed in consultation with the college’s Academic Senate in accordance with the provisions of Chapter XVIII of the Board Rules - Academic Senate and the Board of Trustees Shared Governance Policy.
 - Courses that are part of a program that also meets licensing requirements, must be approved by the receiving college, in accordance with college policies developed in consultation with the college’s Academic

Senate in accordance with the provisions of Chapter XVIII of the Board Rules – Academic Senate and the Board of Trustees Shared Governance Policy.

- This evaluation is valid only in the Los Angeles Community College District and may not necessarily meet the requirements of other colleges and universities.

CREDIT FOR UNITS EARNED FOR LAW ENFORCEMENT ACADEMY TRAINING

- Credit for basic recruit academy training instructional programs in Administration of Justice or other criminal justice occupations shall, for the purposes of meeting certificate of achievement and associate degree major requirements, be granted as follows:
 - Credit will be given for training from institutions which meet the standards of training of the California Peace Officers Standards and Training Commission.
 - Course credit may be granted, if the faculty in the discipline determine that the content of the academy training is equivalent to courses offered in the discipline.
 - 1 unit of credit may be granted for each 50 hours of training, not to exceed 18 semester units or their equivalent.
- This only applies to training received at public law enforcement academies; training provided by private agencies does not apply.
- Credit awarded for law enforcement academy training will appear on that portion of the transcript designated for course and test equivalencies.

Note: Students who complete public service academy training are exempted from LACCD GE Area and E1 and E2.

ACADEMIC PROBATION AND DISMISSAL

PROBATION POLICIES

1. STANDARDS FOR PROBATION

The following standards for academic and progress probation shall be applied as required by regulations adopted by the Board of Governors of the California Community Colleges. A student enrolled in the LACCD shall be placed on academic or progress probation, under the following conditions:

Academic Probation

The student has attempted at least 12 semester units of work and has a grade point average of less than a “C” (2.0).

Progress Probation

The student has enrolled in a total of at least 12 semester units, and the percentage of all units in which they enrolled with recorded entries of “W” (Withdrawal), “I” (Incomplete), “NC” (No Credit) or “NP” (No Pass) reaches or exceeds fifty percent (50%).

California College Promise Grant – Loss of Eligibility

A student eligible to receive a CCPG fee waiver shall lose eligibility if they are placed on academic or progress probation for two consecutive semesters. Loss of eligibility shall become effective at the first registration opportunity after such determination is made.

Foster youth, or former foster youth under the age of 24, are exempt from the loss of fee waiver due to academic or progress probation.

Appeal Probation and Loss of Fee Waiver

A student who is placed on academic or progress probation may submit a written appeal in compliance with regulations issued by the Chancellor.

Appeal the loss of CCPG fee waiver: A student who has lost the CCPG fee waiver due to academic standing may submit a written appeal of that standing in accordance with existing regulations issued by the Chancellor.

Units Attempted

“Units attempted” means all units of credit in the LACCD.

Units Enrolled

“Units enrolled” means all units of credit in the LACCD for which the student is enrolled after census.

2. REMOVAL FROM PROBATION AND REINSTATEMENT OF FEE WAIVER

A student shall be removed from academic probation and have their fee waiver restored upon meeting the following criteria:

Academic Probation

A student shall be removed from academic probation when his/her cumulative grade point average is 2.0 or higher.

Progress Probation. A student shall be removed from progress probation when the percentage of units for which entries of “W” (Withdrawal), “I” (Incomplete), “NC” (No Credit) or “NP” (No Pass) are recorded drops below fifty percent (50%).

Notification

East Los Angeles College and the LACCD shall notify students placed on academic or progress probation of their status no more than 30 days after the end of the term that resulted in academic or progress probation. The notice shall clearly state that two consecutive primary terms of probation will lead to loss of the CCPG Fee Waiver.

The college shall make reasonable efforts to provide counseling and other support services to help students on probation overcome academic difficulties. Colleges should also help mitigate potential loss of the CCPG Fee Waiver and ensure that students have the opportunity to receive appropriate counseling, assessment, advising, or other services on a timely basis.

The college shall make reasonable efforts to notify a student of removal from probation, reinstatement after dismissal, and restoration of CCPG Fee Waiver within timelines established by the District in consultation with the campus Academic Senate. Probation, dismissal, and loss of CCPG Fee Waiver policies and procedures shall be published in the college catalog.

3. DISMISSAL OF STUDENTS ON PROBATION

Students on academic or progress probation are subject to dismissal, as follows:

Dismissal – Academic Probation

A student who is on academic probation shall be subject to dismissal if the student has earned a cumulative grade point average of less than 2.0 in all units attempted in each of three (3) consecutive semesters.

A student who is on academic probation and earns a semester grade point average of 2.0 or better shall not be dismissed as long as this minimum semester grade point average is maintained.

As used in this Rule, “consecutive semesters” are those where a break in the student’s enrollment does not exceed one full primary term.

Dismissal – Progress Probation

A student who is on progress probation is subject to dismissal if the cumulative percentage of units for which he/she received “W”, “I”, “NC”, and “NP” reaches or exceeds fifty percent (50%) over a period of three (3) consecutive semesters.

As used in this Rule, “consecutive semesters” are those where a break in the student’s enrollment does not exceed one full primary term.

Notification of Dismissal

A student who is subject to dismissal shall be notified by the College President, or his/her designee, of the dismissal. Dismissal becomes effective the semester following notification. Dismissal from any one college in the District shall disqualify a student from admission to any other District college.

4. REMOVAL FROM PROGRESS-PROBATION

A student on progress probation because of an excess of units for which entries of “W”, “I”, “NC” and “NP” are recorded shall be removed from probation when the percentage of units in this category drops below fifty percent (50%).

POLICY ON DISQUALIFICATION

A student at East Los Angeles College who is on academic or progress probation shall be subject to disqualification whenever he or she meets one of the two conditions listed below:

1. ACADEMIC DISQUALIFICATION

Any student on academic probation for three consecutive semesters shall be subject to disqualification. However, any student on academic probation whose most recent semester grade-point average equals or exceeds 2.0 or whose cumulative grade-point average equals or exceeds 2.0 shall not be disqualified but shall be continued on academic probation.

2. PROGRESS DISQUALIFICATION

Any student who is on progress probation for three consecutive semesters shall be subject to disqualification for lack of satisfactory progress. However, any student on progress probation whose most recent semester work indicates

fewer than 50 percent units of “W”, “I”, “NC” and “NP” shall not be disqualified but shall be continued on progress probation.

3. DISMISSAL

A student who is subject to dismissal shall be notified by the Admissions and Records office of the dismissal which will become effective the semester following notification. Dismissal from any one college in the District shall disqualify a student from admission to any other District college.

4. APPEAL FOR EXTENDED PROBATION

A student who is subject to dismissal may be continued on probation for the subject to dismissal semester (Spring/Fall only) under the following conditions:

- a. The dismissal determination is based on the academic record for one semester in which the record does not reflect the student’s usual level of performance due to accident, illness, or other circumstances beyond the control of the student.
- b. The student selects to enroll in a prescribed corrective program designed to assist him/her in improving academic skills. The student must meet with a college counselor and complete and file an Academic Contract with the Admissions Office.

5. RE-ADMISSION AFTER DISMISSAL

A student who has been dismissed may request reinstatement after two semesters have elapsed. The student shall submit a written petition requesting re-admission to college in compliance with college procedures. Re-admission may be granted, denied, or postponed subject to fulfillment of conditions prescribed by the colleges. Re-admitted students are returned to probationary status and will be subject to dismissal.

6. APPEAL OF DISMISSAL

The student has the right to file with the college Admissions Office a written petition to appeal a proposed dismissal action if the student feels that a situation exists which warrants an exception to the dismissal action. The student must file the written petition of appeal within 15 calendar days after the dismissal letter was mailed. If the student fails to file a written petition within the 15-day period, the student waives all future rights to appeal the dismissal action. It is the student’s responsibility to indicate on the petition a clear statement of the grounds on which continued enrollment should be granted and to provide evidence supporting the reasons.

Academic Resources/Programs

INSTRUCTIONAL ALTERNATIVES: CREDIT

ADELANTE FIRST-YEAR EXPERIENCE PROGRAM

The Adelante First-Year Experience (FYE) Program is committed to the educational success of scholars. Adelante FYE is a comprehensive program that collaborates with student services, committed faculty, and provides linked courses centered on a theme to create a stimulating learning environment. The goal of Adelante FYE is to provide students with counseling and enrichment opportunities to help them succeed during their first-year and gain the knowledge to be “transfer thinking”. For further information please call (323) 780-6795. Visit us on Facebook (Adelante First Year Experience Program), Instagram (AdelanteFYE) and at www.adelante.elac.edu.

ADELANTE FYE HIGHLIGHTS:

- Priority enrollment to Adelante FYE Math or English cohorts
- Full or Part-Time enrollment options
- Dedicated Adelante FYE counselor
- Assigned Adelante FYE Academic Coaches provide personalized assistance
- Dedicated and Inspired faculty make courses interesting
- Supplemental Instruction (SI) Coaching/study groups provide additional academic support
- Empowering and Enriching workshops to help scholars develop a collegiate identity
- University Campus Tours and Cultural Enrichment Excursions
- Optional Peer Mentor Program for FYE Scholars
- Participation in Adelante FYE Summer Bridge Program

ADELANTE FYE REQUIREMENTS:

- Commitment to the Adelante FYE Program for one year
- Enroll in Adelante FYE Program courses
- Perform well in all FYE courses with a grade of (C) or better
- Participate in FYE sponsored activities and events
- Meet with Adelante FYE Counselor and Academic Coaches during the academic year
- Attend SI sessions for math or writing tutor sessions for English
- Qualify for Math 125, start Summer or Fall semester
- Qualify for English 101, start Fall semester

- ELAC scholars with 0 units completed (Exception: concurrent high school students in good standing)

COOPERATIVE EDUCATION

Cooperative Education is a three-way relationship between the student, the college, and the employer. It is an academic program that offers an opportunity to combine classroom learning with on-the-job experience; the purpose of which is to help the student choose a career or find the “right” job and to achieve success based on the choice. It also provides opportunities for the student who is already employed or who is seeking employment in a particular field of study. The student learns to establish short- and long-range career objectives and to recognize his/her progress through establishing measurable learning objectives. The following departments offer Cooperative Education: Administration of Justice, Business, Child, Family and Education Studies, Computer Applications and Office Technologies, and Theater Arts.

Supervision, evaluation, and suggestions for improvement are provided.

COOPERATIVE EDUCATION BENEFITS FOR THE STUDENT

- College credit
- Career guidance in a realistic setting
- An opportunity to apply classroom learning on the job
- Networking and job contacts
- An opportunity to recognize changing job conditions and job prospects
- An opportunity to experience socialization in the workplace
- Challenges and rewards
- Transferable college units

DELLORO PROGRAM

The Delloro Transfer Program in Social Justice is a cohort learning community designed to provide scholars with a strong foundation of skills to succeed both academically and as advocates for their communities. The program prepares students to be transfer-ready in two years by providing student-centered classes, close student-faculty interactions, one-to-one peer mentoring, academic counseling

and workshops, and guaranteed enrollment in courses that fulfill IGETC completion. The program is based on exploring significant social justice concerns through an academic lens and thinking critically about ways to address both global and local inequalities in order to promote positive change. Students develop an encouraging network of support as they complete the two-year program together and gain a strong understanding of the transfer process. The Delloro Transfer Program is rooted in the belief that a diverse group of knowledgeable and empowered students can and will thrive academically and serve as leaders for social justice in their communities and campuses.

PROGRAM HIGHLIGHTS:

- Cohort model
- Guaranteed general education classes
- Peer-Mentoring
- Transfer workshops and university tours
- Academic resources, support, and counseling
- Community organizing and engagement
- Connection to program such as UCLA’s CCCP Scholars Program and Cal State Northridge’s Build PODER Program
- Internships and service learning opportunities

DISTANCE EDUCATION – PHILOSOPHY

The District Education Program is committed to providing high quality, student centered programs and services, meeting community needs in a supportive and innovative learning environment with a strong foundation of cultural diversity and inclusivity, fostering learning for all. East Los Angeles College ensures that distance education course offerings are designed to ensure there is regular and substantive instructor-initiated contact between students and instructors.

DISTANCE EDUCATION – ONLINE COURSES

Online learning provides students the flexibility in time and classroom location in order to meet their educational goals, transfer goals, certificates, and life-long learning goals. Online learning is a form of instruction in which the instructor and student are in different locations and interact via the use of a computer. Distance learning at ELAC, encompasses online/hybrid classes and follows the principles of high standards and student-focused learning. These types of courses are designed for students who work independently, can’t come to campus on a regular basis, and/or who need flexibility in their schedules. Distance learning classes and instruction are held to the same standards regardless of delivery and meet the same General Education and Transfer requirements as their on-campus counterparts.

Online courses operate asynchronously, which means students may go online to complete their course work at a time that is convenient for them (within the framework of course

deadlines as determined by the instructor), whereas hybrid courses combine online asynchronous contact with meetings on campus at specific times and locations.

The following courses have been approved as online/hybrid courses at ELAC. To check ELAC latest online course listing, go to <http://www.elac.edu/online/index.htm> and click on “Current Online Course Offerings”. For further information, please call (323) 415-5313 or email us at onlinehelp@elac.edu.

**This course has a prerequisite.*

ESCALANTE PROGRAM

The principal objective of the Jaime Escalante Math and Science Program is to engage inner-city disadvantaged junior high and high school youths in a demanding academic regimen of pre-college and college mathematics in order to foster matriculation into college and college-level math and science courses. The Escalante Program aims at raising the percentage of students which pass or are exempt from taking the Entry Level Mathematics (ELM) Placement Examination, giving inner-city students an equal chance for success in college. Once in college, Escalante students begin with college-level math classes, thereby decreasing the number of years spent in school.

The Escalante Math and Science Program provides students with a challenging academic environment in which to practice and master complex mathematical theory and applications. This program operates on the basic principle that, given the availability of excellent teaching and a commitment to work hard, more time spent by the student working on the Subject will result in improved student outcomes.

The Escalante Program is an integrated sequence of intermediate and advanced mathematics coursework supported by the commitment of each student and instructor to a rigorous schedule. Classes are taught by instructors selected for their teaching skills and history of success with students.

Escalante classes fall within the purview of the mathematics departments of the participating schools and are designed to augment and integrate with the middle and high school's own curriculum. The secondary school's regular instructional program is augmented by the Escalante Program, which provides six years of math in a four-year span, with an opportunity to take two College Board exams for college credit.

HONORS PROGRAM

The East Los Angeles College Honors Program is designed for students with a minimum 3.0 GPA who plan on transferring to a four-year college or university. It is the college's premier transfer program consisting of academically enriched general education courses in which extensive critical analysis, discussion, writing, and research are required. To facilitate this level of interaction, enrollment is limited to twenty-five students per class. Honors courses are offered in a wide range of subjects on a rotating basis (see list of courses below).

In addition to a challenging classroom experience, Honors students receive specialized counseling services, as well as access to UCLA libraries. They also participate in

research conferences and field trips to local museums, theaters, and universities. Students who complete five Honors courses with a 3.0 GPA and a 3.0 cumulative GPA are given priority admission consideration at UCLA and eleven other participating universities in California and Washington. Additionally, all Honors courses are specially designated on the transcripts.

Evening and/or part-time students are welcome. For further information, contact Dr. Nadine Bermudez, Director, at (323) 265-8784.

LATINA COMPLETION AND TRANSFER ACADEMY

The East Los Angeles College Latina Completion and Transfer Academy (LCTA) cultivates a holistic approach to self-efficacy through culturally relevant teaching and learning that empowers and supports Latina students and their families.

LCTA focuses on supporting Latina students who have attended ELAC for longer than expected due to the lack of core course needed for transfer and/or graduation. We support our students with mentors, tutors, and evening classes and increase the success of our students.

LCTA is here to help non-traditional Latina students complete a degree and/or transfer to a four year university. We provide our students with mentors, workshops, tutors, and much more.

For further information contact (323) 415-4197.

MESA PROGRAM

MESA (Mathematics, Engineering and Science Achievement) serves educationally and financially disadvantaged students, and to the extent possible by law, emphasizes participation by students from groups with low eligibility rates to four-year colleges. Our goals are to help students transfer to four-year colleges by providing comprehensive academic support and enrichment, as well as to provide them with the tools and strategies to be successful once they transfer and beyond.

CALIFORNIA MESA COMMUNITY COLLEGE PROGRAM (CCP) COMPONENTS:

ACADEMIC EXCELLENCE WORKSHOPS - MESA students that have successfully taken select courses facilitate a group-learning experience in these workshops. Cooperative learning is encouraged, with a focus on developing academic study skills and mastery of concepts.

Advising Staff

STEM Counselors provide academic advisement. Students are also advised in financial aid, research and internship opportunities scholarships, and other enrichment opportunities. The outcome is that students are competitive applicants to four-year universities.

Facilitation Of Research Opportunities

Through partnerships with four-year universities, federal- and state-funded grants, students are given the opportunity to participate in research experiences at top universities with renowned researchers. This program has been instrumental in engaging students in STEM fields, and in increasing the number of students interested in obtaining graduate and doctorate degrees.

Loan Program

On a semester basis, the MESA program loans out books and calculators in order to help with the burden of coming up with financial resources. Students must be in good academic standing and comply with MESA guidelines to receive this assistance.

Personal Statement And Resume Assistance

Because students are constantly encouraged to apply for scholarships and internships, having a personal statement and resume on hand is highly encouraged. STEM counselors assist students through the process of completing these.

Collaboration With Student Organizations

We work closely with the student run organizations Society for Hispanic Professional Engineers (SHPE), Priority of Biology and Chemistry (POBC), Physics Club, Math Club, Chicanos(as) for Community Medicine (CCM), and Society for Advancement of Chicanos and Native Americans in Science (SACNAS). MESA facilitates field trips, outreach activities, speaker presentations, leadership development activities, and state and national conferences/meetings through these affiliations.

For further information contact the MESA Program (323) 780-6730.

PATHWAY TO LAW SCHOOL TRANSFER PROGRAM

The Pathway to Law School Transfer Program at ELAC is a member of the California State Bar's "Community College Pathway to Law School" Initiative. Participants in the program who have completed all requirements for transfer to a four-year institution and the seven courses required by the California State Bar listed below, will receive preferential consideration upon applying to any of the six law schools in California that are partners in the State Bar's Initiative.

For those students interested in a legal career, the advantages of the Pathway are that the program will: demystify law school with visits to law classes, moot court competitions, bar events, and scholarly presentations. In addition, students have access to a designated counselor and are provided with opportunities to do internships and service learning. Students also have opportunities to network with law students, attorneys, judges, and other students, attorneys, and one another.

The following courses are required for the Pathway to Law School Transfer Program:

Political Science 1, Political Science 40 or Sociology 14, History 11 or History 12, Communication Studies 103, English 101, English 103, and Math 227.

For further information contact Kenneth Chairprasert at 323-415-5466 or chairprkv@elac.edu.

PUENTE PROJECT

The Puente Project's mission is to increase the number of educationally underserved students who enroll in four-year colleges and universities, earn degrees, and return

to the community as leaders and mentors to future generations. Puente provides students with English instruction, academic advising and mentoring.

For further information, contact Dorothy Teola at (323) 267-3763 or teoladv@elac.edu, or Carlos Centeno at (323) 780-6713 or centenc@elac.edu.

TECH PREP

Tech Prep prepares high school students to go to college and enter high-performance technology careers. Starting in the 11th grade, Tech Prep students learn technical skills as well as academics. Career preparation is the main goal of Tech Prep and its contextual learning. Tech Prep high school students can graduate in two years with their technical degree from East L.A. College or continue their studies into college to earn their four-year degree.

East L.A. College departments offering Tech Prep programs coordinated with high schools include:

ADMINISTRATION OF JUSTICE
ARCHITECTURE
ART
AUTO TECHNOLOGY
BUSINESS ADMINISTRATION
CHILD, FAMILY AND EDUCATION STUDIES
COMPUTER APPLICATIONS AND OFFICE TECHNOLOGIES
ELECTRONICS
ENGINEERING
JOURNALISM
LIFE SCIENCES
MUSIC
NURSING
PHOTOGRAPHY
PSYCHOLOGY
THEATER ARTS

Contact the Tech Prep program office at (323) 265-8859 for a brochure and further information.

WINTER AND SUMMER INTERSESSIONS

Winter and Summer intersessions are held in accordance with the guidelines established by the Board of Trustees. The Winter intersession schedule is included in the Spring class schedule. The Summer intersession schedule is published separately.

INSTRUCTIONAL ALTERNATIVES: NOT FOR CREDIT

COMMUNITY SERVICES

K7 107 (323) 265-8793

The Community Services department responds to needs and interests of our diverse community by offering short-term programs for children and adults. Community Services courses are not-for-credit and they are fee-based.

- a. CHILDREN'S COLLEGE - Courses for children in Early Childhood, English Language Arts, Mathematics, Science, Study Skills, Foreign Languages, Fine Arts, Computers & Technology, and Music.
- b. RECREATIONAL ACTIVITIES - Courses for children and adults in Dance, Fitness, Swimming, Martial Arts, and Sports.
- c. CAREER TRAINING - Courses for adults in Cake Decoration, Floral Arrangements, EKG Technician, Pharmacy Technician, Phlebotomy, Notary Public, Solar Installer, Makeup Artistry, and Special Effects Makeup.
- d. GENERAL INTEREST - Courses for adults in Personal Finance, Medical Training, Computers & Technology, Music, Arts & Crafts, and Personal Development.

THESE SERVICES INCLUDE:

- Information
- Vocational training
- Basic skills training: GED, ESL, Adult Basic Education
- Liaison with DPSS (Department of Public Social Services) regarding training programs and contracts
- Childcare assistance and referrals
- Work study assignments, on/off campus
- Job development: employment skills, resumes, interview skills, and job opportunities
- Learning assistance and tutorial coursework

The CalWORKS program through DPSS provides childcare services, transportation, and textbooks.

*STUDENTS: PLEASE NOTE THAT THE CALWORKS PROGRAM AT ELAC CAN ASSIST YOU IN MEETING THE NEW 32/35 HOUR WORK-PARTICIPATION REQUIREMENT, WHICH CAN INCLUDE THE HOURS YOU ARE ATTENDING CLASSES.

CALWORKS PROGRAM

A5 • (323) 265-8998

CalWORKS (California Work Opportunity and Responsibility to Kids), previously GAIN, is an East Los Angeles College Program offering training and support services to students receiving TANF (Temporary Assistance to Needy Families), previously AFDC.

Graduation Requirements

A PETITION TO GRADUATE MUST BE FILED BY THE STUDENT. CHECK THE SCHEDULE OF CLASSES FOR DEADLINE DATES.

AUTHORIZATION

The Board of Governors of the California Community Colleges has authorized the Los Angeles Community College District Board of Trustees to confer the degrees of Associate in Arts and Associate in Science, Associate Degrees for Transfer, and Certificates of Achievement.

ASSOCIATE DEGREE REQUIREMENTS

The awarding of an Associate Degree symbolizes a successful attempt on the part of the college to lead students through patterns of learning experiences. Among these are the ability to think and to communicate clearly and effectively both orally and in writing; to use mathematics; to understand the modes of inquiry of the major disciplines; to be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for self-understanding.

CATALOG RIGHTS

For these purposes, a catalog year is defined as beginning with the fall semester through the subsequent summer. A student remaining in continuous attendance in the Los Angeles Community College District may elect to satisfy the degree, certificate, or graduation requirements in effect at the college from which the student will either earn his/her degree, certificate, or graduate:

1. at the time the student began such attendance at the college, or
2. allow students to select an intervening catalog in years between the time the student began continuous attendance and time of graduation, or
3. at the time of graduation.

For the sole purpose of satisfying graduation competency requirements, students entering the Los Angeles Community College District prior to Fall 2009 who remain in continuous attendance within the LACCD may graduate from any LACCD College by satisfying graduation competency by either:

1. fulfilling competency requirements in place at the time the student began such attendance within the district, or
2. fulfilling competency requirements in place at the time of graduation.

For the purposes of implementing this policy, the college may develop a policy to:

1. authorize or require substitutions for discontinued courses; or
2. require a student changing his/her major to complete the major requirements in effect at the time of the change.

The college's policy shall be developed in consultation with the college Academic Senate in accordance with the provisions of Chapter XVIII of the Board Rules - ACADEMIC SENATE AND THE BOARD OF TRUSTEES SHARED GOVERNANCE POLICY, and published in all college catalogs under appropriate headings.

This policy does not apply to college programs which are governed or regulated by outside government agencies or which require licensure or certification through one of these agencies.

CONTINUOUS ATTENDANCE

"Continuous attendance" means no more than one semester absence within a school year, excluding Summer Sessions and Winter Intersession.

Students granted a "military withdrawal" under the provisions of Board Rule 6701.10, will be considered to be in "continuous attendance" for their required period of military service.

UNIT REQUIREMENT

A minimum of 60 semester units of course credit in a selected curriculum with at least 18 semester units of study in a major or area of emphasis and at least 18 semester units of study in general education. Associate degrees for transfer, as defined in California Education Code 66746, must be aligned with transfer model curricula as approved by the State Chancellor and must require 60 semester units for completion, with at least 18 units of study in a major/area of emphasis and completion of Intersegmental General Education Transfer Curriculum (IGETC) or California State University General Education Breadth Requirements.

RESIDENCY REQUIREMENT

Students must complete no fewer than 12 units at the college conferring the degree. Exceptions to residence requirements for the associate degree may be made through the colleges' petition process for cases when it determines that an injustice or undue hardship would be placed on the student.

SCHOLARSHIP REQUIREMENT

A "C" (2.0) grade average or better in all work attempted in the curriculum upon which the degree is based. Effective for all students admitted for the Fall 2009 term or any term thereafter, each course counted toward the major requirements must be completed with a grade of "C" or better or a "P" if the course is taken on a "Pass/No Pass" basis.

COMPETENCY REQUIREMENTS

The following courses and examinations are approved to meet the competency requirement for the Associate Degree as defined in Board Rule 6201.12 for all students entering beginning Fall 2009:

A. MATHEMATICS COMPETENCY

The competency requirement in mathematics for the Associate Degree may be met by completion of one of the following:

1. Completion of one of the following courses (or its equivalent at another college) with a grade of "C" or better:
 - Mathematics 120, 123C, 124A&B, 125, 125S, or 127 & 128, 134 or any higher-level Mathematics course with a pre-requisite of at least mathematics 125 or its equivalent
2. A passing score on the District (Intermediate Algebra) Mathematics Competency Examination.
3. A score of 3 or higher on the following AP Exams:
 - Calculus AB
 - Calculus BC
 - Statistics
4. Completion of the college assessment exam in mathematics and achievement of a score determined comparable to satisfactory completion of intermediate algebra (Mathematics 123C, 124A & B, 125, 125S, or 127 & 128, 134). That is, students who place into a mathematics course above the level of intermediate algebra have met the competency requirement.

B. READING & WRITTEN EXPRESSION COMPETENCY

The competency requirement in reading and written expression for the Associate Degree may be met by completion of one of the following:

1. Completion of English 101 (or its equivalent at another college) with a grade of "C" or better.
2. A score of 3 or higher on the following AP Exams:
 - English Language and Composition
 - English Composition and Literature
3. In meeting the Reading and Written Expression competency requirement, course work is the primary measure of competency. However, competency may be met through credit-by-examination, as determined by the individual colleges.

Complete the college assessment exam in English and achieve a score determined comparable to satisfactory completion of English 101. That is, students who place into an English course above the level of English 101 have met the competency requirement.

C. COMPETENCY REQUIREMENTS AND GENERAL EDUCATION AREA D

Assessment cannot be used to waive General Education requirements. Students who meet Mathematics and/or Reading and Written Expression competencies through assessment must still complete the LACCD Associate Degree Area D General Education course and unit requirements.

CURRICULUM ALIGNMENT

In order to ensure that local requirements are aligned with the California State University General Education Breadth (CSUGE Breadth) and Intersegmental General Education Transfer Curriculum (IGETC) patterns, all courses meeting the following requirements will be honored as satisfying the competency requirements for the Associate Degree.

- a. Completion of a course that meets the California State University General Education Breadth (CSUGE Breadth) requirement in Area B4: Mathematics/Quantitative Reasoning and/or the Intersegmental General Education Transfer Curriculum (IGETC) in Area 2A: Mathematical Concepts and Quantitative Reasoning shall meet the Mathematics Competency.
- b. Completion of a course that meets the California State University General Education Breadth (CSUGE Breadth) requirement in Area A2: Written Communication and/or the Intersegmental General Education Transfer Curriculum (IGETC) in Area 1A: English Composition shall meet the reading and written expression competency.

DEGREE AND CERTIFICATE REQUIREMENTS

CONFERRING THE DEGREE WHEN OFFERED AT MULTIPLE LACCD COLLEGES

When the same major is offered at multiple colleges in the LACCD, the degree shall be conferred by the college where the student has taken the majority (greater than 50.0%) of units in the major. When units are split equally among two or more colleges, the college where the student was last enrolled shall award the degree.

CERTIFICATE OF ACHIEVEMENT REQUIREMENTS

Residency Requirement

Students must complete a minimum of one-fifth of the units required for a certificate at the college conferring the certificate

Scholarship Requirement

A "C" (2.0) grade average or better, or a "P" if the course is taken on a "pass-no pass" basis, in all work attempted in the curriculum upon which the certificate of achievement is based. The CSUGE Breadth Certificate of Achievement is exempt from this requirement.

CONFERRING THE CERTIFICATE WHEN OFFERED AT MULTIPLE LACCD COLLEGES

When multiple colleges in the LACCD offer identical Certificates of Achievement, as defined by Top Code, the certificate shall be awarded by the college where the majority (greater than 50.0%) of the certificate units were taken. When units are split equally among two or more colleges, the college where the student was last enrolled shall award the certificate.

The CSUGE Breadth Certificate of Achievement and IGETC Certificate of Achievement are exempt from this requirement. The college that certifies completion of either of these plans may award the Certificate of Achievement to the student regardless of the number of units completed at the certifying college.

AUTOMATIC AWARDING OF CERTIFICATES OF ACHIEVEMENT

Students who have completed the degree requirements for which there is a paired Certificate of Achievement or other State approved and transcribed certificate(s), will be awarded the certificate(s) automatically.

SKILLS CERTIFICATE REQUIREMENTS (LOCAL POLICY)

The following requirements must be fulfilled before skill certificate(s) can be granted by East Los Angeles College.

1. Grade of "C" or better in all courses required for certificate.
2. All courses acceptable for credit must be approved by the Western Association of Universities and Colleges or by a comparable regional accrediting agency. Requirement shall be determined by the Department Chair for the discipline. Transcripts from institutions outside the Los Angeles Community College District must be mailed directly to the Admissions and Records Office. No hand delivered transcripts accepted.
3. Course required for the Certificate must be completed at East Los Angeles College, unless otherwise approved.
4. All courses fulfilling the requirements for one certificate may be applied other certificates.

GRADUATION APPLICATION PROCEDURES

Associate degrees are not automatically awarded when the student completes the requirements. The student must file a petition in the office of Admissions and Records according to the following schedule:

<u>GRADUATION PERIOD</u>	<u>FILING PERIOD</u>
Summer	June - August
Fall	September - December
Spring	February - May

A commencement ceremony is conducted for spring graduation, but the graduation date is posted on the student's transcripts after the graduation period in which the Associate degree is earned.

GRADUATION REQUIREMENTS FOR ASSOCIATE DEGREE IN NURSING

To obtain an associate degree in nursing, students who have baccalaureate or higher degrees from a United States regionally accredited institution of higher education are only required to complete the course work that is unique and exclusively required for completion of the registered nursing program, including prerequisites and nursing course work. These students are not be required to complete any other courses required by the college for an associate degree.

DOUBLE-COUNTING OF COURSEWORK

A course may only be counted once for General Education purposes. However, a course may be used to simultaneously satisfy both a General Education requirement and a major/area of emphasis requirement. There is no limit on the number of courses that may be used simultaneously in this manner.

Students may also simultaneously apply the same course toward satisfaction of the LACCD General Education Plan,

the CSU GE Breadth Certification requirements, and the Intersegmental General Education Transfer Curriculum (IGETC) requirements.

ASSOCIATE DEGREES FOR TRANSFER AND LOCAL ASSOCIATE DEGREES

A student who completes an Associate Degree for Transfer (ADT) in a particular major/area of emphasis may also be awarded a local associate in the same major/area of emphasis provided that the student completes any additional coursework required for the local associate degree.

ADDITIONAL AND CONCURRENT ASSOCIATE DEGREE

Additional Associate Degrees: Students who have previously earned an associate degree from a United States regionally accredited institution will be granted an additional associate degree when the following requirements have been met:

1. Pursuant to catalog rights, described in Board Rule 6202, completion of all current degree requirements - i.e., scholarship, residency, competency, general education, and major requirements.
2. For local associate degrees, completion of a minimum of six (6) units in the major at the college awarding the degree. For the Associate Degrees for Transfer (ADTs), there is no major unit minimum requirement that must be completed at the college awarding the degree.
3. Major course requirements completed in previous degrees awarded can be used again for additional degrees.
4. All courses that count toward the associate degree major or area of emphasis must be satisfactorily completed with grade of "C" or higher or "P" (Pass).
5. There is no limit to the number of additional associate degrees that can be awarded provided that all the above requirements have been met.
6. Completion of any additional requirements, including new units, as determined by the college through collegial consultation with the college Academic Senate in accordance with the provisions of Chapter XVII of the Board Rules - Academic Senate and the Board of Trustees Shared Governance Policy.

Concurrent degree: Concurrent degree are degrees awarded in the same semester. Students may petition and be awarded concurrent associate degrees in different majors if the following criteria are met:

1. Pursuant to catalog rights, described in Board Rule 6202, completion of all current degree requirements: scholarship, residency, competency, general education, and major requirements.
2. There is no maximum number of concurrent degrees that a student may be awarded.
3. If a course is a major requirement for each concurrent degree, it may be applied toward satisfaction of each major degree requirement.
4. Completion of the General Education requirements for one associate degree will fulfill the general education requirements for concurrent degrees, if the same general education pattern applies to the additional

degree. If each degree requires the completion of different general education patterns, the general education pattern of each degree must be fulfilled. Courses may be applied toward the general education requirements for each concurrent degree.

5. All courses that count towards the associate degree major or area of emphasis must be satisfactorily completed with a grade of “C” or higher or “P” (pass).
6. The LACCD does not offer double majors.

Important: Students who have taken college courses elsewhere (outside the LACCD system) must have an official transcript sent from each of those colleges to ELAC’s office of Admissions and Records when they enroll at ELAC.

Failure to submit transcripts from other colleges when enrolling at ELAC will cause problems in creating the student’s educational plan and in awarding equivalent credit for courses taken elsewhere, and could eventually delay the student’s graduation from ELAC.

COURSE REQUIREMENTS

Students who are pursuing a local Associate in Arts or Associate in Science degree must complete the 21 unit LACCD General Education plan.

Per Senate Bill SB 1440, students pursuing an Associate in Arts for Transfer (AA-T) or an Associate in Science for Transfer (AS-T) must complete the general education requirements for these degrees with full certification of the *CSU GE Breadth Certification Plan* or the *IGETC* as defined by CSU Executive Order 1100 and the IGETC Standards respectively. Course work from Areas A1, A2, A3 and B4 of the CSU GE Breadth Certification Plan must be completed with a “C-” or better to be applied toward degree requirements.

STUDENT LEARNING OUTCOMES – WHAT STUDENTS NEED TO KNOW

What’s a Student Learning Outcome?

A Student Learning Outcome (SLO) is the broad term to describe the campus endeavor towards improving student learning. SLOs tell students what they will know or be able to do at the end of each stage of their studies (e.g., courses, programs)

What’s a Course Learning Outcome and where can I find them?

A Course Learning Outcome (CLO) tells students what they will know or be able to do at the end of a course. A CLO describes the knowledge, skills or abilities that students should gain by the end of a course. CLOs focus on “big picture” items; they should help to describe how the course curriculum functions together.

CLOs are required to appear on the course syllabus. You will see them listed under “Course Learning Outcomes” or “Student Learning Outcomes.” Feel free to ask your instructor about them. The CLOs for each course also appear here.

Do I need to know the CLOs for my course?

Yes because CLOs are a good indicator of what faculty teaching the course think it is important for you to learn. However, since CLOs focus on the big picture, they may

not help you with studying specific chapters or for specific exams. Make sure you understand what the CLOs are at the beginning of the course because they should help you set goals for what you will learn. Throughout the course, you should also consider how what you are learning will contribute to each CLO.

Will CLOs mean more work or another test or assignment for me?

It probably won’t mean more work for you. The faculty decide what the assessments will be and when they will be given. Some faculty may use a current assignment in the course as the assessment or they may create an assignment that will be embedded into the course. You may or may not know what’s being used as the CLO assessment.

Also, the assignments used for CLO assessment will probably be looked at or assessed for other qualities than how the instructor grades the assignment. For example, you might be asked to write a research paper that is given an overall grade as part of the course but your instructor might also look at it to see how well he or she taught research skills. As another example, you might be asked to solve a problem for which your grade focuses on getting the right answer, but your instructor will look at it to see how well he or she taught a specific procedure or thought process.

What are CLO assessment results used for?

The assessments are designed to help faculty understand how well their students in their courses are learning. It helps faculty determine where they can make instructional improvement. Usually, assessment information will be collected anonymously to look at students as a whole group rather than as individuals. Often, the assessment for the CLO takes place at the end of the semester.

Who can I talk to about CLOs?

If you have questions about this process, you can talk to your instructors, department chairs, or members of the Learning Assessment Team in the Office of Institutional Effectiveness and Advancement (OIEA).

What’s LAC?

LAC stands for the Learning Assessment Committee. This committee is made up of the Learning Assessment Facilitators, faculty from each department, student service professionals, staff members, and administrators. LAC works to guide the campus through the learning outcomes assessment process and to create policy to ensure the process is a smooth one.

INSTITUTIONAL LEARNING OUTCOMES AND GENERAL EDUCATION LEARNING OUTCOMES

Throughout their experiences in general education coursework, in elective coursework or in campus life experiences at East Los Angeles College, students will develop their knowledge and ability to become engaged, global citizens, achieve their educational goals, and expand their individual potential. As an institution, we value students gathering a wide breadth of knowledge of human cultures and the physical and natural world while they also develop their intellectual and practical skills and become lifelong learners.

PART ONE – INSTITUTIONAL LEARNING OUTCOMES

As students complete required or elective coursework or participate in campus life, they will gain our core academic values.

- a. exploring ethical reasoning by understanding, analyzing, and resolving moral dilemmas;
- b. demonstrating information competency and research skills by identifying, locating, evaluating, and effectively and responsibly using and sharing information;
- c. engaging diverse perspectives through exposure to a breadth of ideas and to fellow students, faculty, staff, and administration with individual racial, ethnic, gender, and sexual orientation differences and physical, mental, and emotional disabilities and practicing tolerance to these who express differing views;
- d. demonstrating technological competency skills by producing academic work using computing devices or adapting to new computing environments or programs;
- e. participating responsibly in civil society by demonstrating a strong commitment and responsibility to work with others towards public purposes;
- f. developing, evaluating, and refining academic and/or career goals;
- g. developing oral communication skills by demonstrating the ability to speak coherently and appropriately for various audiences and situations and to present ideas and information effectively for specific purposes;
- h. developing analytic inquiry skills by demonstrating the ability to analyze text, data, or issues before accepting or formulating an opinion or conclusion;

PART TWO – GENERAL EDUCATION

As students complete coursework in the following General Education areas, they will also gain these learning outcomes:

- i. In the area of Natural Sciences, students will be able to demonstrate an understanding of natural phenomena and the fundamental laws of science AND
 - Do one of the following:
 1. The student presents a valid, current California certificate as a licensed registered nurse to the designated administrative officer;
 2. Apply scientific knowledge/theoretical models used in course discipline to solve problems and draw conclusions
- j. In the area of Social and Behavioral Sciences, students will be able to demonstrate knowledge and understanding of the theories, sources, and interpretations of human behavior and organization AND
 - Do one of the following:
 1. Describe contemporary or historical perspectives on individual or collective human behavior
 2. Explain the scientific/interpretive methods used in the acquisition of knowledge and the testing of competing theories in the social and behavioral sciences

k. In the area of Arts and Humanities, students will be able to:

- Do one of the following:
 1. Demonstrate knowledge and understanding of how creating different forms of art engages multiple sensory experiences
 2. Communicate a recognition and understanding of diverse forms of expression across the globe, past and present
 3. Demonstrate an understanding of the research and creative methods used in the construction and knowledge of the arts or humanities
 4. Demonstrate a critical recognition of the historical and philosophical approaches to the formation of culture, including the impact of technology on aesthetic experience
 5. Identify how different theories and practices, over time, shape our interpretation of cultural or creative expression

l. In the area of Language and Rationality, students will be able to:

1. Develop written communication skills, demonstrating the ability to use language to convey logical thought in both expository and argumentative writing
2. Develop quantitative reasoning skills, demonstrating the ability to compute and organize data effectively and to use mathematical, symbolic, and graphical techniques to evaluate and present information

m. In the area of Health and Physical Education, students will be able to:

- Do one of the following:
 1. Develop strategies for enhancing physical, social, or psychological well-being
 2. Examine the behaviors and actions needed in order to acquire a healthy lifestyle
 3. Demonstrate improvement in cardiovascular endurance, muscular strength, muscular endurance, body composition and/or flexibility
 4. Demonstrate proper technique, skills, and/or strategies for the designated activity

By acquiring many of the above outcomes, students will show their ability to be lifelong learners so that they can pursue their aspirations for a better future for themselves, their community and the world.

LACCD GENERAL EDUCATION PLAN

MAJOR REQUIREMENTS

Minimum of 18 units in a single or related field.

GENERAL EDUCATION REQUIREMENTS

This associate-level general education plan is appropriate for students planning to earn an associate degree who do not plan to transfer to a 4-year institution.

At least 21 semester/28 quarter units of general education coursework must be completed in the following areas, to include an ethnic studies course in at least one of the area:

A. NATURAL SCIENCES (3 SEMESTER/4 QUARTER UNITS MINIMUM)

ANTHRO 101, 103
 ANATOMY 1
 ASTRON 1, 15
 BIOLOGY 3, 6, 9, 20, 22, 25, 46
 CHEM 51, 65, 101
 EARTH 1
 ENV SCI 1, 24

E. HEALTH AND PHYSICAL EDUCATION (3 SEMESTER/4 QUARTER UNITS MINIMUM)

1. Health Education

(one course minimum)

HEALTH 2, 7, 8, 11, 12, 15, 43

Note: The A.S. degrees in Nursing and Respiratory Therapy, and students who complete Public Service Academy Training, are exempted from LACCD GE Area E1. Students who complete Public Service Academy Training, are also exempted from LACCD GE Area E2.

2. Physical Education Activity

(1 semester/1 quarter unit minimum, unless exempt)

*Chosen from one of the following subject (*refer to pages 236-241 and 270-276 for a list of Physical Activities that will meet this requirement):*

DNCESPC 491, 492

DANCEST 452, 814, 820, 822, 823

*DANCETQ ALL

*KIN ALL

*KIN ATH ALL

KIN MAJ 135

Note: Health 2 includes the Physical Education activity.

A college may adopt and publish policies and procedures, through collegial consultation with the college Academic Senate, which would allow a student to reduce their General Education requirement for the AA/AS degree to the 18-unit minimum as required by Title 5, provided the following conditions are met:

1. The total units required for the major are 42 or greater, with none of the major coursework eligible for double-counting in a General Education area;
2. The student, during their last semester as part of the petition to graduate process, requests to have 3 units of General Education waived; and
3. The student completes a minimum of 3 semester/4 quarter units from each of Area A through C and a minimum of 3 semester/4 quarter units from each of Area D1 and D2 as listed above.

REQUIREMENTS FOR THE ASSOCIATE IN ARTS FOR TRANSFER (AA-T) OR ASSOCIATE IN SCIENCE FOR TRANSFER (AS-T) DEGREES

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees priority consideration for admission to a California State University (CSU) campus for any community college student who completes an "Associate Degree for Transfer", a newly established variation of the Associate Degrees traditionally offered at a California community college.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a Bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed priority consideration for admission to the CSU system, but not to a particular campus or major. In order to earn one of these degrees, students must complete a minimum of 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a Bachelor's degree (unless the major is a designated "high-unit" major. This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

REQUIREMENTS:

The following is required for all AA-T or AS-T degrees:

1. Minimum of 60 CSU-transferable semester units.
2. Minimum grade-point average (GPA) of a least 2.0 in all CSU-transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
3. Completion of a minimum of 18 semester units in a "AA-T" or "AS-T" major. All courses in the major must be completed with a grade of "C" or better or a "P" if the course is taken on a "Pass/No-Pass" basis (Title 5, 55063).
4. Completion of the California State University General Education-Breadth (CSU GE Breadth) or Intersegmental General Education Transfer Curriculum (IGETC) pattern (see pages 90 to 94).

The college of the LACCD shall not impose any requirements in addition to the CSUGE plan or IGETC requirements, including any local college or district requirements, for students completing either of these general education plans for an associate degree.

COURSE IDENTIFICATION NUMBERING SYSTEM (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example COMM 110, students at the college can be assured that it will be accepted in lieu of a course bearing the C-ID COMM 110 designation at another community college. In other words, the C-ID designation can be used to identify comparable

courses at different community colleges. However, students should always go to www.assist.org to confirm how each college's course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Because these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

Students may consult the ASSIST database at www.assist.org for specific information on C-ID course designations. Counselors can always help students interpret or explain this information.

Transfer Requirements

TRANSFER PROGRAM

Information has been compiled here to help the many East Los Angeles College students who plan to continue studying at another college or university after completing studies at East Los Angeles College.

East Los Angeles College provides the lower division preparation and general education requirements for most universities in California.

With careful planning, a student can complete the equivalent courses of the first two years of study at most universities and complete the requirements for the Associate Degree simultaneously.

Students are urged to study the requirements of the University to which he or she plans to transfer and to check regularly with the counselors in the Counseling Office to be certain that they are taking courses which will meet their transfer requirements.

It is also recommended that students regularly use the many services provided by the Transfer Center to assist them in preparation for transfer.

ASSOCIATE DEGREES FOR TRANSFER

California Community Colleges are now offering associate degrees for transfer to the CSU. These may include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses.

Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units.

To view the most current list of East Los Angeles College Associate Degrees for Transfer and to find out which CSU campuses accept each degree, please go to <http://www.calstate.edu/transfer/adt-search/search.shtml>. Current and prospective community college students are encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

ASSIST - WWW.ASSIST.ORG

As a prospective transfer student, it is important to make sure that the community college courses you take are acceptable to the university for transfer credit. ASSIST is California's official statewide repository of transfer information for the California State University (CSU) and University of California (UC) university systems, offering easy

access to a single database of course transfer information. ASSIST will help you determine if you will receive credit for courses you've already taken or plan to take and how those courses will apply to a specific academic major or general education requirement.

ARTICULATION AGREEMENTS

Articulation agreements identify coursework completed at one institution that meets the requirements of another institution for major preparation, general education, or transferable units. Most articulation agreements are between a community college and a university, but there are also agreements between universities. Articulation agreements are agreed upon by both institutions involved in transferring course credits. Articulation agreements with the CSU and UC systems maybe accessed on www.assist.org. Other agreements with independent institutions are accessible on the ELAC website under "Transfer Requirements" or through the Counseling Department in EI.

CALIFORNIA STATE UNIVERSITY

ADMISSION

Students intending to transfer to a California State University campus should plan a program to meet the graduation requirements of the specific institution which they plan to attend. Transfer admission eligibility is based on transferable college units. Consult the catalog issued by the individual campus for a complete description of the curricula or with a counselor in the Counseling Office.

Applicants who are California Residents and who have completed 60 to 70 transferable semester units (84-105 quarter units) are eligible for admission if (a) they are in good standing at East Los Angeles College, and (b) have achieved a 2.0 or better grade-point average in all college units attempted (non-residents, 2.4 or better). Any student applying for admission must complete Area A1. Oral Communication, A2. Written Communication, A3. Critical Thinking, and Area B3. Mathematics/Quantitative Reasoning for admission.

DEPARTMENTAL MAJORS

In some transfer programs, East Los Angeles College does not offer all courses required by the departmental major. It is essential, therefore, to refer to the appropriate California State University catalog for complete departmental majors. Since many of the Departmental Majors Requirements are revised after a college catalog has been printed, students are also urged to consult with a counselor for current information.

GENERAL EDUCATION REQUIREMENTS

The following program meets the needs of the student for essentially all the California State Universities; however,

due to the fact that the requirements for general education often change, it is essential for students to consult with a counselor for information about any recent changes.

To be eligible for the Bachelor's degree from a State University, the candidate must have completed a minimum of 48 semester units of General Education requirements. At least 9 semester units must be upper division and must be earned at the campus granting the degree. The California Administrative Code authorizes East Los Angeles College to certify that the student has completed the lower division portion of the General Education requirements, i.e., 39 semester units, from the pattern listed below.

The CSU General Education–Breadth (GE–Breadth) program allows California community college transfer students to fulfill lower-division general education requirements for any CSU campus prior to transfer. This plan is governed by the California State University system.

The 39 semester/58 quarter units required for CSU GE–Breadth are distributed as follows:

CSU GENERAL EDUCATION CERTIFICATION FOR 2019–2020

CALIFORNIA STATE UNIVERSITY

• 39 Units Required

A. ENGLISH LANGUAGE COMMUNICATION AND CRITICAL THINKING (9 SEMESTER OR 12–15 QUARTER UNITS)

One course required from each subarea:

1. COMM 101
2. ENGLISH 101
3. PHILOS 6, 8, ENGLISH 102, 103, COMM 104

B. SCIENTIFIC INQUIRY AND QUANTITATIVE REASONING (9 SEMESTER OR 12–15 QUARTER UNITS)

One course in subareas B1, B2, and B4, plus laboratory activity related to one of the completed science courses.

Note: At least one science course must include a laboratory class.

Laboratory classes are marked with a “+”.

1. Physical Science
ASTRON 1, 15
CHEM 51+, 65+, 101+, 102+, 201+, 211+, 212+, 221+

APPLICATION FOR GENERAL EDUCATION CERTIFICATION REQUIRED

East Los Angeles College will accept credits from any U.S. regionally accredited institution of higher education for general education certification for the California State University system.

In order to receive full credit for General Education Certification from East Los Angeles College and not to be held to the variable California State University pattern, you need to complete 39 units from the above pattern. You must petition the Admissions Office to certify your transcripts.

GENERAL EDUCATION CERTIFICATION FOR THE CALIFORNIA STATE UNIVERSITY

A student planning to transfer to the California State University system should request to have their general education units certified by East Los Angeles College.

General Education Certification is a contractual agreement between East Los Angeles College and the California State University and Colleges. Students meeting the requirements for Full Certification will have met the necessary requirements completing all lower division general education for the California State Universities. Three additional upper division general education classes will be required at the university.

In order to be fully certified, a student must complete a total of 39 units of general education at East Los Angeles College and/or any accredited institution of higher education. A total of 39 units is reached by completing courses in categories A through E (see previous pages for General Education course listings).

When partial certification is requested, a checklist is completed by our credit clerks indicating which categories have been met. Your records are then evaluated by the university based on the contractual agreement rather than on requirements for non-community college transfer students. Certification must be requested at the Admissions Office at the time your final Transcript Request Form is submitted.

For further clarification please review the general education certification pattern with your counselor.

APPROVED ASSOCIATE DEGREE FOR TRANSFER

Students are considered lower-division CSU GE certified if they successfully complete and are awarded a CCC Associate Degree for Transfer (ADT) that includes that CSU lower-division GE requirements.

GENERAL EDUCATION BREADTH FOR STEM MAJORS WITHIN ADTS

Students pursuing certain ADTs may be eligible to take "GE Breadth for STEM," deferring one lower-division course in Subarea C and one lower-division course in Subarea D until after transfer. GE Breadth for STEM is applicable only to majors for which the Transfer Model Curriculum specifies GE Breadth for STEM. (i.e. ADT Biology)

CCC preparing a CSU GE Breadth for STEM certification as part of an ADT shall ensure that the student has completed:

- a. All courses in Area A, B, and E of the traditional GE Breadth curriculum; and
- b. One course in Area C1 Arts and one course in Area C2 Humanities; and
- c. Two courses in Area D from two different disciplines.

Details of each Transfer Model Curriculum are maintained and published at www.c-id.net.

GUIDELINES FOR CALIFORNIA STATE UNIVERSITY GENERAL EDUCATION CERTIFICATION

A student must file a written petition in order to obtain CSUGE Breadth Certification.

LACCD colleges shall provide CSUGE Breadth Certification to students, regardless of last community college attended.

CSUGE Breadth Certifications will be processed without regard to the student's current enrollment status or number of units accrued at the certifying college.

TRANSFER REQUIREMENTS UNIVERSITY OF CALIFORNIA

ADVANCED STANDING ADMISSION

It is suggested that students planning for transfer to the University of California discuss their transfer plans with a counselor semester by semester, in-as-much as major changes frequently occur in requirements subsequent to the printing of this catalog.

The University defines an advanced standing applicants as a high school graduate who has been a registered student in another college or university or in college-level extension classes other than a summer session immediately following high school graduation. Advanced standing applicants may not disregard their college records and apply for admission as freshmen.

ADVANCED STANDING ADMISSION REQUIREMENTS:

Any student ineligible as a freshman to the University of California because of grade-point and Subject deficiencies will be eligible for admission to the University of California after completing 60 transferable college units with a grade-point average of 2.4 or better. Students will be required to make up all but two of the "A-G" requirements before admission. These students are urged to see a counselor.

In addition, students who were ineligible for the University only because of a Subject deficiency may transfer to the University after completing eight or more semester units in college with a grade-point average of 2.0 or better, including the appropriate subjects which were lacking with grades of "C" or better. Also see a counselor for assistance.

Students planning to transfer to the University of California are required to complete 60 semester units of transferable work with a minimum 2.4 grade-point average. No more than 70 semester units (105 quarter units) from community colleges will be credited towards a bachelor's degree. If you have attended and received credit from any four-year college or university, you will be ineligible for admission to a UC with 80 semester units or more.

Students eligible to enter the University directly on graduation from high school may transfer at any time provided their grade-point average is 2.0 or better.

As an integral part of the system of public education in California, the University accepts, usually at full unit value, approved transfer courses completed with satisfactory grades in the public community colleges of the State. Such transfer courses are limited, however, to a maximum of 70 semester units or 105 quarter units.

In addition, credit is allowed for having completed with high scores certain tests of the College Board. These include Advanced Placement Examinations and International Baccalaureate Examinations (see pages <OV>-<OV> for more information).

2019-2020 UNIVERSITY OF CALIFORNIA/CALIFORNIA STATE UNIVERSITY

INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC)

The Intersegmental General Education Transfer Curriculum (IGETC) is a general education program which community college transfer students can use to fulfill lower-division general education requirements at either the CSU or UC system without the need, after transfer, to take additional lower-division general education courses. This policy is governed by the Intersegmental Committee of the Academic Senators (ICAS). Completion of IGETC is not an admissions requirement.

Some students may be better served by taking courses which fulfill the CSU General Education Breadth requirements or those specific major requirements of the UC campus or college to which they plan to transfer. Students pursuing majors that require extensive lower-division major preparation such as Engineering or Business majors at UC Berkeley may not find the IGETC option to be advantageous. The IGETC will probably be most useful for students who want to keep their options open before making a final decision about transferring to a particular CSU or UC campus. Please see a counselor for more information.

If you are planning to transfer to any of the California State Universities or University of California systems, you need to have your course work in IGETC certified by East Los Angeles College. You MUST REQUEST certification at the time you order your final transcript. In addition to the course requirements for each Subject area, full certification for the CSU must include completion of the Oral Communication requirement. For the UCs, Oral Communication is not required, but the certification must include satisfaction of the foreign language proficiency requirement.

ALL COURSES MUST BE COMPLETED WITH A GRADE OF "C" OR BETTER.

AREA 1 – ENGLISH COMMUNICATION

UC Requirement Two courses required, one from group A and one from group B

CSU Requirement Three courses required, one each from groups A, B, and C

1A ENGLISH COMPOSITION one course (3 semester/4-5 quarter units)

ENGLISH 101

1B CRITICAL THINKING – ENGLISH COMPOSITION one course (3 semester/4-5 quarter units)

ENGLISH 102, 103

1C ORAL COMMUNICATION (CSU requirement only) one course (3 semester/4-5 quarter units)

COMM 101, 104

AREA 2 – MATHEMATICAL CONCEPTS AND QUANTITATIVE REASONING

Required: One course (3 semester/4-5 quarter units).

The college of the LACCD shall not impose any requirements in addition to the CSUGE plan or IGETC requirements, including any local college or district requirements, for students completing either of these general education plans for an associate degree.

IGETC for STEM Majors is applicable only to majors in which the TMC explicitly indicates the availability of the option. As of May 2015 only Chemistry, Biology, and Environmental

Science allow for IGETC for STEM. A current list of ADT's that allow for use of IGETC for STEM can be found at www.c-id.net.

For IGETC for STEM certification

Complete the following courses before transfer:

- All courses in Areas 1 (except 1C for UC-bound students), 2, and 5 of the traditional IGETC; and
- One course in Area 3A; one course in Area 3B; and two courses in Area 4 from two different disciplines.

Complete the following courses after transfer::

- One remaining lower-division general education course in Area 3;*
- One remaining lower-division general education courses in Area 4;* and
- One course in Area 6 for UC-bound students who have not satisfied it through proficiency.*

*These deferred lower division courses must be replaced with calculus and/or science courses required by the major before transfer.

For CSU

If any specific AS-T degree allows IGETC for STEM Majors as its general education pattern, the specific courses that should replace the deferred lower division general education courses may be indicated on the Transfer Model Curriculum (TMC) for that discipline.

University of California Credit Limit Index

ACCOUNTING

No credit for:

ACCTG 21 OR 22 IF TAKEN AFTER 1

1 course from:

ACCTG 21 AND 22 COMBINED ARE EQUIVALENT TO 1

Maximum credit: 5 units, Accounting 21 and 22 must both be taken in order to receive transfer credit.

ADMINISTRATION OF JUSTICE

1 course maximum from:

ADM JUN 1, 4

ANATOMY

8 units maximum from:

ANATOMY 1, BIOLOGY 20, PHYSIOL 1

BIOLOGY

8 units maximum from:

Guided Pathways

GUIDED PATHWAYS–REDESIGNING ELAC

Guided Pathways is a framework adopted by all 114 California community colleges that places students' completion of their academic and career goals at its center.

Mission Statement: Redesigning ELAC is an equity-focused enhancement committed to student learning and advancing degrees, certificates, and skills-building course completion providing clear guidance with active support of faculty and support services.

The four pillars of Guided Pathways are: Clarify the Path, Enter the Path, Stay on the Path, and Ensure Learning. These pillars will inform the implementation of Guided Pathways–Redesigning ELAC and will involve the entire college community in order to ensure that all students have the opportunity to attain their academic and career goals. To this end, work teams have been created to carefully examine how Guided Pathways will best serve the unique campus culture and student population of ELAC. These include:

- Academic Mapping Work Team
- Meta-Majors Work Team
- Outreach & Workforce Team
- Professional Development
- Student Services Team
- Student Advisory Team

Implementation of Guided Pathways–Redesigning ELAC will be a multi-faceted, iterative process that will focus on streamlining programs of study into areas of interest. This will allow students to make informed choices based on their interests, their career/academic goals and information easily accessible to them. Student voice and involvement will be also be key in decisions pertaining to this process.

Guided Pathways provide students with clear, educationally coherent academic maps that include specific course sequences, progress milestones, and program learning outcomes. These maps are aligned to knowledge and skills required by four-year institutions and the labor market, thus ensuring that students can continue their studies and advance in their careers. They help to simplify decision-making for students by providing intentional opportunities for exploration and informed choices. Students are assisted from the start to understand academic and career options, choose a program of study, and develop a plan.

Guided Pathways Ambassadors are campus community members who voluntarily participate in work teams and campus events that promote this exciting transformation at ELAC. Any member of the campus community is invited to become an ambassador and/or a work team member.

For more information, please contact the Guided Pathways Facilitators at guidedpathways@elac.edu.

Program Learning Outcomes

PROGRAM LEARNING OUTCOMES – PROGRAM OF STUDY

A Program of Study identifies the pathway a student might take to complete a skills certificate, certificate of achievement, an associate degree, or transfer to a four-year college or university. Each Program of Study defines the Program Learning Outcomes (PLOs) to be achieved. East Los Angeles College offers following Programs of Study:

PoS – Administration of Justice

ADMINISTRATION OF JUSTICE

- Achieve competency in a public safety work environment in policing, corrections and forensic science.
- Apply the historical background of safety regulations in policing, corrections and forensic science.
- Recognize community needs and employ appropriate solutions.
- Students successfully demonstrate proficiency in applying learned tactics, techniques, and information in citizen contact and field situations related to the performance of the job classification practiced in the Public Service Academy course.

ADMINISTRATION OF JUSTICE AA

- Achieve competency in a public safety work environment in policing, corrections and forensic science.
- Apply the historical background of safety regulations in policing, corrections and forensic science.
- Recognize community needs and employ appropriate solutions.

ADMINISTRATION OF JUSTICE AA-T

- Analyze content of statutory and case law.
- Apply critical thinking skills to solve a criminal justice problem.
- Describe individual functions and components of the criminal justice system.

ADMINISTRATION OF JUSTICE CERTIFICATE OF ACHIEVEMENT

- Apply strategies for prevention of criminal behavior related to gang activity, drug and alcohol abuse.
- Identify historical concepts of criminal law.
- Summarize policies regarding corrections, probation and institutional services.

ADMINISTRATION OF JUSTICE/LAW EMPHASIS CERTIFICATE OF ACHIEVEMENT

- Apply critical thinking skills to solve a community problem.

- Identify roles and responsibilities of each component in the criminal justice system.
- Interpret individual rights related to case studies.

ADMINISTRATION OF JUSTICE/SOCIOLOGICAL EMPHASIS CERTIFICATE OF ACHIEVEMENT

- Categorize content of statutory and case law.
- Demonstrate competency in identifying juvenile delinquency.
- Summarize theories of crime and application of punishment.

BASIC POLICE ACADEMY PREPARATION CERTIFICATE OF ACHIEVEMENT

- Achieve competency in application of law regarding criminal behavior.
- Apply safety regulations in police procedure.
- Identify community needs to solving a problem.

FORENSIC CRIME SCENE INVESTIGATION CERTIFICATE OF ACHIEVEMENT

- Achieve competency in a forensic science work environment utilizing acceptable practices and methods.
- Apply the knowledge of the historical background of applied methods of investigation.
- Recognize the importance of ethical standards in evidence handling using professional code of ethics.

FIRE TECHNOLOGY

- Student shall recognize environmental hazards that will adversely affect personal safety.
- Student shall select and don the appropriate personal protective equipment based upon a given emergency incident.
- Student will identify a patient in distress, assess the patient, and apply the appropriate treatment modality.

FIRE TECHNOLOGY AA

- Identify a patient in distress and apply the appropriate treatment based on the chief complaint.
- Implement the appropriate tactical and strategic plans based on the emergency incident priorities of life safety, incident stabilization and property conservation.
- Recognize hazardous environments that affect respondent and public safety.

FIRE TECHNOLOGY/STATE FIRE MARSHALL CORE CLASSES CERTIFICATE OF ACHIEVEMENT

- Demonstrate how to effectively prepare for a career in the Fire Service.

- Distinguish the various types of services the Fire Department provides to the community.
- Illustrate the culture of safety in the Fire Service and its importance when providing quality service to the community.

PoS – Allied Health

HEALTH INFORMATION CODING AND STATISTICS CLERK CERTIFICATE OF ACHIEVEMENT

- Implement and evaluate legal principles, policies, healthcare ethics, and standard procedures governing the analysis and quality of data in the management of health information.
- Critically examine and code medical diagnoses and procedures from electronic health records in a clinical setting with high quality and accuracy.
- Implement and evaluate principles of life sciences and information technology solutions to healthcare information technology problems.

HEALTH INFORMATION CODING SPECIALIST CERTIFICATE OF ACHIEVEMENT

- Critically examine and code medical diagnoses and procedures from electronic health records in a clinical setting with high quality and accuracy.
- Implement and evaluate legal principles, policies, healthcare ethics, and standard procedures governing the analysis and quality of data in the management of health information.
- Implement and evaluate principles of life sciences and information technology solutions to healthcare information technology problems.

HEALTH INFORMATION TECHNOLOGY AS

- Critically examine and code medical diagnoses and procedures from electronic health records in a clinical setting with high quality and accuracy.
- Implement and evaluate legal principles, policies, healthcare ethics, and standard procedures governing the analysis and quality of data in the management of health information.
- Implement and evaluate principles of life sciences and information technology solutions to healthcare information technology problems.

HEALTH INFORMATION TECHNOLOGY: HEALTH INFORMATION CLERK TYPIST CERTIFICATE OF ACHIEVEMENT

- Critically examine and code medical diagnoses and procedures from electronic health records in a clinical setting with high quality and accuracy.
- Implement and evaluate legal principles, policies, healthcare ethics, and standard procedures governing the analysis and quality of data in the management of health information.
- Implement and evaluate principles of life sciences and information technology solutions to healthcare information technology problems.

INTERVENTIONAL RADIOLOGY CERTIFICATE OF ACHIEVEMENT

- Students must demonstrate knowledge on clinical application of interventional options relevant to vascular and interventional radiology.
- Students must build practical skills and techniques required to accurately code interventional radiology procedures.
- Students should examine various disease processes in terms of epidemiology, pathophysiology, clinical manifestations, treatment alternatives and expected outcome/prognosis in IR specialty services.
- Students should be altruistic and accountable, and adhere to principles of medical ethics by respecting and protecting patients' best interest.
- Students should demonstrate an awareness of and responsiveness to the larger context and system of health care, as well as the ability to call effectively on other resources in the system to provide optimal health care.

HEALTH OCCUPATIONS

- To foster a sense of service and commitment.
- To produce knowledgeable and effective health care professionals.
- To support quality of care in the healthcare industry.

RESPIRATORY THERAPY

- Student should be able to demonstrate equipment manipulation, infection control and quality control.
- Student should be able to evaluate a patient and develop a respiratory care treatment plan.
- Student should be able to initiate and modify therapeutic procedures.
- Student should be able to make recommendation and evaluate patient data.

NON-TRADITIONAL RESPIRATORY THERAPY AS

- Demonstrate competent and safe equipment manipulation including lab simulations and patient contact during clinical rotations.
- Evaluate patient data to develop respiratory care treatment plan recommendations that initiate and modify therapeutic procedures, and infection and quality control.

RESPIRATORY THERAPY AS

- Demonstrate competent and safe equipment manipulation including lab simulations and patient contact during clinical rotations.
- Evaluate patient data to develop respiratory care treatment plan recommendations that initiate and modify therapeutic procedures, and infection and quality control.

RESPIRATORY THERAPY CERTIFICATE OF ACHIEVEMENT

- Demonstrate competent and safe equipment manipulation including lab simulations and patient contact during clinical rotations.
- Evaluate patient data to develop respiratory care treatment plan recommendations that initiate and modify therapeutic procedures, and infection and quality control.

PoS – Anthropology/ Geography/Geology

ANTHROPOLOGY AA-T

- Distinguish a culturally relativistic explanation of human behavior from an ethnocentric one.
- Identify the general path of human evolution and the evidence in support of it.
- Utilize empiricism, scientific principles, and/or the scientific method in order to analyze data from an anthropological perspective.

GEOGRAPHY AA-T

- Analyze and interpret geographic patterns using maps, graphs, Geographic Information Systems, and other analytic tools commonly employed by geographers.
- Describe the geographic character of human society and activities, and aspects of globalization in contemporary life.
- Identify and explain the planet’s human and biological characteristics and processes, from global to local scales.
- Illustrate the complex linkages between the geosphere, the atmosphere, the hydrosphere, and the biosphere, and the manner in which Earth’s different landscapes are formed.

PoS – Architecture

ARCHITECTURE

ARCHITECTURAL COMPUTER-AIDED DESIGN AA

- Appraise and compare traditional architectural techniques along with CAD(Computer Aided Design) design process.
- Create complex professional multi-media presentations as a means to communicate design intent.

ARCHITECTURAL COMPUTER-AIDED DESIGN CERTIFICATE OF ACHIEVEMENT

- Analyze and examine traditional architectural techniques along with CAD (Computer-Aided Design) design process.
- Create complex professional multi-media presentations as a means to communicate design intent.

ARCHITECTURAL DESIGN CERTIFICATE OF ACHIEVEMENT

- Analyze and diagram case studies and/or historical precedents.
- Analyze and discuss effectively the impact of theoretical, social, political, economic and cultural concepts that affect our built environment.

ARCHITECTURAL DRAFTING AA

- Analyze and discuss effectively the impact of construction technologies and methodologies that affect our built environment.
- Assemble and evaluate past and current construction documentation techniques.
- Create professional written and graphic documentation to communicate architectural design technology.

ARCHITECTURAL DRAFTING CERTIFICATE OF ACHIEVEMENT

- Analyze and discuss effectively the impact of construction technologies and methodologies that affect our built environment.
- Create professional written and graphic documentation to communicate architectural design technology.

ARCHITECTURAL DRAWING CERTIFICATE OF ACHIEVEMENT

- Assemble and evaluate past and current architectural graphic techniques.

PoS – Art

ANIMATION (LEVEL I) CERTIFICATE OF ACHIEVEMENT

- Creatively reference historical and cultural perspectives in an animation portfolio.
- Demonstrate creative and technical knowledge by developing a successful portfolio.

ANIMATION (LEVEL II) CERTIFICATE OF ACHIEVEMENT

- Creatively reference historical and cultural perspectives in an animation portfolio.
- Demonstrate creative and technical knowledge by developing a successful portfolio.

ANIMATION AA

- Creatively reference historical and cultural perspectives in an animation portfolio.
- Demonstrate creative and technical proficiency by developing a professional portfolio.

Art

ART GRAPHIC COMMUNICATION CERTIFICATE OF ACHIEVEMENT

- Creatively reference historical and cultural perspectives in a graphic design portfolio.
- Demonstrate creative and technical knowledge by developing a successful portfolio.

ARTS GRAPHIC COMMUNICATION AA

- Creatively reference historical and cultural perspectives in a graphic design portfolio.
- Demonstrate creative and technical proficiency by developing a professional portfolio.

MULTIMEDIA (LEVEL I) CERTIFICATE OF ACHIEVEMENT

- Creatively reference historical and cultural perspectives in a multimedia portfolio.
- Demonstrate creative and technical knowledge by developing a successful portfolio.

MULTIMEDIA (LEVEL II) CERTIFICATE OF ACHIEVEMENT

- Creatively reference historical and cultural perspectives in a multimedia portfolio.
- Demonstrate creative and technical knowledge by developing a successful portfolio.

MULTIMEDIA AA

- Creatively reference historical and cultural perspectives in a multimedia portfolio.
- Demonstrate creative and technical proficiency by developing a professional portfolio.

STUDIO ARTS AA-T

- Develop the analytical and observational skills necessary to enhance students' visual literacy.
- Develop the technical skills necessary to enhance students' visual literacy.

Art History

ART HISTORY AA-T

- Analyze, interpret, and present ideas, utilizing the specific language of art history.
- Evaluate the historical and aesthetic significance of visual culture in context of the cultures, religions, and traditions of peoples of the World.

PoS – Automobile Technology

Automobile Technology

AUTOMOBILE TECHNOLOGY AS

- Analyze wiring diagrams/flowcharts and determine the circuit and/or system fault.
- Evaluate and communicate the cause of the concern of the specific automotive system.
- Perform the technical skills required to correct the specific automotive system.

AUTOMOBILE TECHNOLOGY CERTIFICATE OF ACHIEVEMENT

- Analyze wiring diagrams/flowcharts and determine the circuit and/or system fault.
- Evaluate and communicate the cause of the concern of the specific automotive system.

- Perform the technical skills required to correct the specific automotive system.

COOLING SYSTEMS AND CLIMATE CONTROL CERTIFICATE OF ACHIEVEMENT

- Analyze wiring diagrams/flowcharts and determine the circuit and/or system fault.
- Evaluate and communicate the cause of the concern of the specific automotive system.
- Perform the technical skills required to correct the specific automotive system.

DRIVETRAIN SPECIALIST CERTIFICATE OF ACHIEVEMENT

- Analyze wiring diagrams/flowcharts and determine the circuit and/or system fault.
- Evaluate and communicate the cause of the concern of the specific automotive system.
- Perform the technical skills required to correct the specific automotive system.

ENGINE PERFORMANCE AND DRIVABILITY CERTIFICATE OF ACHIEVEMENT

- Analyze wiring diagrams/flowcharts and determine the circuit and/or system fault.
- Evaluate and communicate the cause of the concern of the specific automotive system.
- Perform the technical skills required to correct the specific automotive system.

PoS – Business Administration

Accounting

ACCOUNTING AA

- Evaluate and analyze financial information for economic decision making.
- Compile financial data into financial reports required by both internal and external users.

ACCOUNTING CERTIFICATE OF ACHIEVEMENT

- Compile financial data into financial reports required by both internal and external users.
- Evaluate and analyze financial information for economic decision making.

Business

BUSINESS MANAGEMENT AA

- Formulate, design and develop an entrepreneurial business plan.
- Identify and integrate the functional areas of business including management, marketing, computer and software systems, accounting and finance

BUSINESS MANAGEMENT CERTIFICATE OF ACHIEVEMENT

- Formulate, design and develop an entrepreneurial business plan.
- Identify and integrate the functional areas of business including management, marketing, computer and software systems, accounting and finance

COMPUTER SCIENCE INFORMATION TECHNOLOGY – MICROCOMPUTERS CERTIFICATE OF ACHIEVEMENT

- Create word processing documents, spreadsheets, databases and presentations in a business environment.
- Design a program using a programming language to produce software and/or an interactive website.
- Determine the best computer operating system and network solution required to suit organizational needs.

COMPUTER SCIENCE INFORMATION TECHNOLOGY – PROGRAMMING – CERTIFICATE OF ACHIEVEMENT

- Design a program using a programming language to produce desired results based on a specific input.
- Utilize basic skills in computer applications and introductory programming techniques for software development.

COMPUTER SCIENCE INFORMATION TECHNOLOGY AA

- Create word processing documents, spreadsheets, databases and presentations in a business environment.
- Design a program using a programming language to produce software and/or an interactive website.
- Determine the best computer operating system and network solution required to suit organizational needs.

MARKETING AA

- Analyze qualitative data to generate effective marketing strategies for an advertising campaign.
- Identify and integrate the functional areas of business including management, marketing, digital media, e-commerce and finance.

MARKETING CERTIFICATE OF ACHIEVEMENT

- Analyze qualitative data to generate effective marketing strategies for an advertising campaign.
- Identify and integrate the functional areas of business including management, marketing, digital media, e-commerce and finance.

REAL ESTATE

- Apply Real Estate terminology, concepts, and office procedures to complete standard real estate forms and contracts in order to effectuate a successful real estate transaction.
- Incorporate the theory and principles necessary to pass the State of California Real Estate Salesperson and Real Estate Broker licensing examination.

REAL ESTATE AA

- Apply Real Estate terminology, concepts, and office procedures to complete standard real estate forms and

contracts in order to effectuate a successful real estate transaction.

- Incorporate the theory and principles necessary to pass the State of California Real Estate Salesperson and Real Estate Broker licensing examinations.

REAL ESTATE BROKER CERTIFICATE OF ACHIEVEMENT

- Apply Real Estate terminology, concepts, and office procedures to complete standard real estate forms and contracts in order to effectuate a successful real estate transaction.
- Incorporate the theory and principles necessary to pass the State of California Real Estate Salesperson and Real Estate Broker licensing examinations.

PoS – Chemistry

CHEMISTRY

- Apply concepts and theories in Chemistry to describe or explain chemical phenomena.
- Develop conclusions from laboratory experiments that test hypotheses devised in classroom lectures.

PoS – Chicana/o Studies

Chicana/o Studies

CHICANA/O STUDIES AA

- Critically examine and interpret cultural expressions of Chicana/o and Latina/o communities within a critical context.
- Evaluate the historical experiences of the Chicana/o people within the legal, political cultural, and social structures found in the United States, Mexico, and Central America.

PoS – Child, Family, and Education Studies

CHILD DEVELOPMENT

- Create developmentally appropriate and culturally relevant curriculum experiences and quality environments.

CHILD DEVELOPMENT AA

- Create developmentally appropriate and culturally relevant curriculum experiences in order to provide individualized care for the whole child.
- Distinguish the role of the teacher when developing healthy relationships with the child, school, family and community.
- Implement observation skills, critical thinking and theoretical perspectives to support the development of the whole child.

CHILD DEVELOPMENT: TEACHER – CERTIFICATE 2 CERTIFICATE OF ACHIEVEMENT

- Define developmental milestones, theoretical perspectives, and observation techniques to best support the development of the whole child.

- Distinguish the role of the teacher when developing healthy relationships with the child, school, family and community.
- Identify the best and promising teaching and care practices in the ECE field including the environment, the curriculum, and strategies to develop teaching practices.

EARLY CHILDHOOD EDUCATION AS-T

- Create developmentally appropriate and culturally relevant curriculum experiences in order to provide individualized and group care for the whole child.
- Distinguish the role of the teacher when developing healthy relationships with the child, school, family and community.
- Implement observation and assessment skills, critical thinking and theoretical perspectives to support the development of the whole child.

INFANT/TODDLER EMPHASIS CERTIFICATE OF ACHIEVEMENT

- Distinguish the role of the teacher when developing healthy relationships with the infant, toddler, school, family and community.
- Identify developmental milestones, theoretical perspectives, and observation techniques to best support the development and curriculum experiences of the growing infant and toddler.

SITE SUPERVISOR – CERTIFICATE 3 CERTIFICATE OF ACHIEVEMENT

- Distinguish the role of the ECE supervisor/administrator in connection to professionalism, marketing, budgeting, obtaining funding, team building, and developing relationships with colleagues, families, children and the community
- Implement appropriate processes to create, format, and edit basic Microsoft documents (Word, Excel, PowerPoint) containing tables, graphics, and various formatting styles to be used in the ECE workforce.

Family and Consumer Studies

GERONTOLOGY/HEALTH CERTIFICATE OF ACHIEVEMENT

- Interpret gerontological frameworks in relationship to aspects and problems of aging persons, families, environment and their communities.
- Synthesize basic information about human development, nutrition and body functions to provide quality care and safety to the older-adult and across the continuum of care from wellness to illness.

NUTRITION AND DIETETICS AS-T

- Analyze data to determine the nutritional status of individuals in various life-cycle stages.
- Apply knowledge from anatomy, chemistry, biology, physiology, psychology and math as a basis for understanding the role of food for Nutrition and Dietetics transfer degree.

- Examine and explain the relationship between diet, lifestyle, behavior, and health, within the framework of cultural and social influences.

PoS – Communication Studies

Communication Studies

COMMUNICATION STUDIES AA-T

- Produce effective oral presentations in delivery of speeches, arguments, or group projects.
- Research and analyze data, ideas, and concepts of human communication.

PoS – Computer Applications and Office Technology

Computer Applications and Office Technology

ADMINISTRATIVE ASSISTANT CERTIFICATE OF ACHIEVEMENT

- Demonstrate competence in the use of business-related software applications to produce letters, memos, email messages, reports, tables, spreadsheets, databases, websites, and other applications.
- Compose effective written communications; apply correct grammar, spelling, punctuation, and formatting.

BUSINESS INFORMATION WORKER I CERTIFICATE OF ACHIEVEMENT

- Demonstrate competence in the use of business-related software applications to produce letters, memos, email messages, reports, tables, spreadsheets, databases, websites, and other applications.
- Compose effective written communications; apply correct grammar, spelling, punctuation, and formatting.

CLERICAL ASSISTANT CERTIFICATE OF ACHIEVEMENT

- Demonstrate competence in the use of business-related software applications to produce letters, memos, email messages, reports, tables, spreadsheets, databases, websites, and other applications.
- Compose effective written communications; apply correct grammar, spelling, punctuation, and formatting.

CUSTOMER SERVICE REPRESENTATIVE CERTIFICATE OF ACHIEVEMENT

- Demonstrate competence in the use of business-related software applications to produce letters, memos, email messages, reports, tables, spreadsheets, databases, websites, and other applications.
- Compose effective written communications; apply correct grammar, spelling, punctuation, and formatting.

EXECUTIVE ASSISTANT AA

- Demonstrate competence in the use of business-related software applications to produce letters, memos, email

messages, reports, tables, spreadsheets, databases, websites, and other applications.

- Compose effective written communications; apply correct grammar, spelling, punctuation, and formatting.

EXECUTIVE ASSISTANT CERTIFICATE OF ACHIEVEMENT

- Demonstrate competence in the use of business-related software applications to produce letters, memos, email messages, reports, tables, spreadsheets, databases, websites, and other applications.
- Compose effective written communications; apply correct grammar, spelling, punctuation, and formatting.

INTERNET SPECIALIST CERTIFICATE OF ACHIEVEMENT

- Demonstrate competence in the use of the Internet to complete such business-related activities as communication, research, and e-commerce.
- Demonstrate competence in the use of web-authoring software to design and edit web pages, applying grammar, spelling, punctuation, and formatting.

OFFICE ASSISTANT CERTIFICATE OF ACHIEVEMENT

- Demonstrate competence in the use of business-related software applications to produce letters, memos, email messages, reports, tables, spreadsheets, databases, websites, and other applications.
- Compose effective written communications; apply correct grammar, spelling, punctuation, and formatting.

OFFICE SYSTEMS SPECIALIST AA

- Demonstrate competence in the use of business-related software applications to produce letters, memos, email messages, reports, tables, spreadsheets, databases, websites, and other applications.
- Compose effective written communications; apply correct grammar, spelling, punctuation, and formatting.

OFFICE SYSTEMS SPECIALIST CERTIFICATE OF ACHIEVEMENT

- Demonstrate competence in the use of business-related software applications to produce letters, memos, email messages, reports, tables, spreadsheets, databases, websites, and other applications.
- Compose effective written communications; apply correct grammar, spelling, punctuation, and formatting.

International Business

INTERNATIONAL TRADE CERTIFICATE OF ACHIEVEMENT

- Assess and formulate knowledge of global trade, cultures, languages, and technology as a foundation for applicable workforce skills and/or further studies in international business.
- Explain and employ import/export procedures, documentation, and international commercial terms of trade and payments.
- Recognize and distinguish the vast components of global trade ranging from international treaties, laws,

regulations, and transport systems to international supply chain management and marketing.

LOGISTICS

- Analyze various logistics business scenarios and operations to determine where there is an increase or decrease in income or expenses.
- Illustrate the major processes within a global supply chain network and explain their various contributions toward creating value.

TECHNOLOGY & LOGISTICS AS

- Illustrate the major processes within a global supply chain network and explain their various contributions toward creating value.
- Analyze various logistics business scenarios and operations to determine where there is an increase or decrease in income or expenses.

TECHNOLOGY & LOGISTICS CERTIFICATE OF ACHIEVEMENT

- Analyze various logistics business scenarios and operations to determine where there is an increase or decrease in income or expenses.
- Illustrate the major processes within a global supply chain network and explain their various contributions toward creating value.

PoS – Dance

DANCE SPECIALTIES

- Articulate terminology directly related to this type of dance technique, and recognize the qualities as related to the five components which make this type of dance technique uniquely different from other types.

DANCE STUDIES

- Articulate technical qualities of many genre of dance performance, which make each genre of dance technique uniquely different from others.
- Describe the artistic or cultural significance of the creation of the performance of many forms of dance and the process of how it was created through the recall and application of appropriate terminology and concepts.
- Select specific equipment and operating parameters for complete live stage performances in dance.

DANCE TECHNIQUES

- Articulate technical qualities of many genre of dance performance, which make each genre of dance technique uniquely different from others.
- Describe the artistic or cultural significance of the creation of the performance of many forms of dance and the process of how it was created through the recall and application of appropriate terminology and concepts.

PoS – Engineering and Technologies

Engineering Graphics and Design

ENGINEERING GRAPHICS AND DESIGN TECHNOLOGY AS

- Apply 2-D and 3-D Computer Aided Drafting (CAD) techniques to construct and test project prototypes through technical reports/presentations while employing Geometric Dimensioning & Tolerancing (ASME Y14.5) industry standard.
- Apply concepts and theories in Engineering Graphics and Design to describe or explain use in industry.
- Develop conclusions for laboratory experiments that verify theory from classroom lectures.

ENGINEERING GRAPHICS CERTIFICATE OF ACHIEVEMENT

- Apply 2-D and 3-D Computer Aided Drafting (CAD) techniques to render parts and assemblies.
- Develop, construct and test project prototypes and disseminate through technical reports and presentations.
- Employ Geometric Dimensioning & Tolerancing (ASME Y14.5) industry standard while interpreting 2-D and 3-D drawings.

PoS – English

ENGLISH

DEVELOPMENTAL READING AND COMPOSITION

- Analyze college-level texts and deliver effective summaries and critical responses.
- Compose an essay that makes use of source material that is relevant and reliable, and which integrates sources in accordance with an appropriate style guide.
- Demonstrate critical thinking skills by conducting research, evaluating source material and presenting supportive, reasoned arguments on substantive issues.

ENGLISH AA-T

- Discuss the significance of one to two writers' contributions to a specific genre by analyzing passages/texts from representative works.
- Illuminate one or two particular literary texts by effectively integrating outside sources in a 7-10 page research paper.

ENGLISH AS A SECOND LANGUAGE

- Students will demonstrate readiness for mainstream English classes by composing a basic, coherent academic essay.
- Students will demonstrate readiness for mainstream English classes by comprehending, summarizing, and responding to academic texts.
- Students will have adequate academic reading skills to successfully complete mainstream English classes.
- Students will have adequate academic writing skills to successfully complete mainstream English classes.

READING

- Analyze college-level texts and deliver effective summaries and critical responses.
- Compose an essay that makes use of source material that is relevant and reliable, and which integrates sources in accordance with an appropriate style guide.
- Demonstrate critical thinking skills by conducting research, evaluating source material and presenting supportive, reasoned arguments on substantive issues.

PoS – Journalism

Journalism

DESKTOP PUBLISHING AA

- Demonstrate creative and technical proficiency by developing a publication on a desktop.
- Synthesize information to produce a publication on a desktop.

DESKTOP PUBLISHING CERTIFICATE OF ACHIEVEMENT

- Demonstrate creative and technical proficiency by developing a publication on a desktop.
- Synthesize information to produce a publication on a desktop.

JOURNALISM AA

- Create a professional portfolio for a career in news media by analyzing historical, cultural, ethical perspectives.ate ethical journalism.
- Demonstrate creative and technical proficiency by developing a professional portfolio for a career in news media.

JOURNALISM AA-T

- Create a professional portfolio for a career in news media by analyzing historical, cultural, ethical perspectives.
- Demonstrate creative and technical proficiency by developing a professional portfolio for a career in news media.

JOURNALISM CERTIFICATE OF ACHIEVEMENT

- Create a successful portfolio for a career in news media by analyzing historical, cultural, ethical perspectives.
- Demonstrate creative and technical proficiency by developing a successful portfolio for a career in news media.

PoS – Kinesiology

Kinesiology

HEALTH

- Analyze and interpret data to distinguish various physiological anomalies.
- Compare and contrast healthy versus diseased tissue.
- Locate and identify various organs, muscles and bones in the human body.

KINESIOLOGY AA-T

- Demonstrate physical fitness concepts, healthy living practices, lifelong wellness, appropriate stress reduction techniques, sport, dance, and physical skill development.
- Explain the validity of fitness, health, and human movement using the scientific method and the relationship between scientific research and established knowledge.
- Identify the importance of lifelong participation in a fitness program as related to overall health and well-being.

PHYSICAL EDUCATION AA

- Demonstrate physical fitness concepts, healthy living practices, lifelong wellness, appropriate stress-reduction techniques, sport, dance, and physical skill development.
- Explain the validity of fitness, health and human movement using the scientific method and the relationship between scientific research and established knowledge.
- Identify the importance of lifelong participation in a fitness program as related to overall health and well-being.

PoS – Life Sciences

BIOLOGY

- Describe the relationship between biochemical pathways, molecular biology, and the flow of genetic information
- Evaluate the principles of evolutionary biology by classifying organismal diversity and ecological relationships.
- Recognize the relationship between structure and function of organisms at the cellular, anatomical, and physiological level.

HEALTH SCIENCES

- Analyze the physiological function of the human body, including the interactions and integration of the organ systems in maintaining homeostasis.
- Examine the anatomical structure of human cells, tissues, and organ systems.
- Examine the biology of microorganisms and their clinical importance in infectious diseases.

PoS – Mathematics

MATHEMATICS

- Compose a program
- Solve a problem requiring derivatives
- Solve a problem requiring integration
- Find and graph a function
- Apply mathematical concepts to proofs, definitions and problem solving
- Apply mathematical and scientific principles to areas of sciences

MATHEMATICS AA

- Compose a program
- Solve a problem requiring derivatives
- Solve a problem requiring integration

- Find and graph a function
- Apply mathematical concepts to proofs, definitions and problem solving

MATHEMATICS AS

- Compose a program
- Solve a problem requiring derivatives
- Solve a problem requiring integration
- Find and graph a function
- Apply mathematical concepts to proofs, definitions and problem solving
- Apply mathematical and scientific principles to areas of sciences

MATHEMATICS AS-T

- Compose a program
- Solve a problem requiring derivatives
- Solve a problem requiring integration
- Find and graph a function
- Apply mathematical concepts to proofs, definitions and problem solving
- Apply mathematical and scientific principles to areas of sciences

PoS – Media Arts & Technologies

PHOTOGRAPHY

- Correctly operate technology to record and display photographic imagery.
- Demonstrate the practical application of aesthetics.

PHOTOGRAPHY PROFESSIONAL

- Correctly operate technology to record, manipulate and display photographic imagery.
- Demonstrate aesthetics in keeping with entry level or better freelance or industry work.
- Demonstrate the presentation that meets or exceeds professional standards.

PoS – Modern Languages

Spanish

SPANISH AA-T

- Analyze and develop cultural, historical and artistic concepts related to Spanish-speaking communities.
- Communicate clearly and accurately in a variety of contexts and formats in Spanish.

PoS – Music

Music

MUSIC AA

- Analyze and execute musical excerpts.
- Analyze the historical and cultural contexts of various music.
- Perform assigned repertoire at a polished level.

MUSIC AA-T

- Analyze and execute musical excerpts.
- Perform assigned repertoire at a polished level.

PoS – Non-Credit Program

BASIC MATH SUCCESS CERTIFICATE OF COMPLETION

- Identify and compare whole numbers, fractions, decimals and proportions.
- Perform operations and solve word problems utilizing whole numbers, fractions, decimals and proportions.

BASIC READING SUCCESS CERTIFICATE OF COMPLETION

- Comprehend and analyze basic level literature readings.
- Comprehend and analyze basic level non-fiction readings.

BASIC WRITING SUCCESS CERTIFICATE OF COMPLETION

- Write essays with grammatically-correct sentences, structure, development and focus.

FOUNDATIONS FOR ACADEMIC SUCCESS CERTIFICATE OF COMPLETION

- Incorporate critical thinking skills when reading or taking notes in college-level courses.

Basic Skills

BASIC SKILLS MATHEMATICS PREPARATION CERTIFICATE OF COMPLETION

- Apply mathematical concepts to proofs, definitions and problem solving.
- Develop mathematical ability to collaborate intellectually and creatively in diverse contexts.
- Write, analyze, and graph functions.

ESCALANTE DISCIPLINE OF STUDY

- Apply mathematical concepts to proofs, definitions and problem solving.
- Develop mathematical ability to collaborate intellectually and creatively in diverse contexts.
- Write, analyze, and graph functions.

ENGLISH SECOND LANGUAGE - NC

- Adult and limited English language learners utilize the English language effectively at work and in everyday life

- Adult and limited English language learners utilize the English language to succeed in higher education

ENGLISH AS A SECOND LANGUAGE, LEVEL 1 CERTIFICATE OF COMPLETION

- Communicate orally at a low-beginning level for work and everyday life.
- Produce grammatically-correct sentences at a low-beginning level by reading and interpreting information.

ENGLISH AS A SECOND LANGUAGE, LEVEL 2 CERTIFICATE OF COMPLETION

- Communicate orally at a high-beginning level for work and everyday life.
- Produce grammatically-correct sentences at a high-beginning level by reading and interpreting information.

ENGLISH AS A SECOND LANGUAGE, LEVEL 3 CERTIFICATE OF COMPLETION

- Communicate orally at a low-intermediate level for work and everyday life.
- Produce grammatically-correct paragraphs at a low-intermediate level by reading and interpreting information.

ENGLISH AS A SECOND LANGUAGE, LEVEL 4 CERTIFICATE OF COMPLETION

- Communicate orally at a high-intermediate level for work and everyday life.
- Produce grammatically-correct paragraphs at a high-intermediate level by reading and interpreting information.

Vocational Education

JOB READINESS AND CAREER EXPLORATION CERTIFICATE OF COMPLETION

- Apply individual research to job performance, including interactions with colleagues at work.
- Explore career, educational and personal growth material to prepare for the workplace.

JOB READINESS CERTIFICATE OF COMPLETION

- Apply individual research to job preparation and performance, including interactions with colleagues at work.

PoS – Nursing

NURSING

- The graduate nurse, guided directly or indirectly by an experienced Registered Nurse, in a variety of health care settings will demonstrate the ability to make reasonable clinical judgements through the use of nursing process and evidence based practice by integrating the nursing process to promote health of individuals and groups.
- Utilizing a body of scientific knowledge that incorporates the Nursing Process, Eric Erikson's Developmental Theory, and Maslow's Hierarchy of Need, the graduate nurse will demonstrate competence in caring for patients and in participating with patients, families, significant others, and members of the health care team to establish patient-oriented goals and plans of care directed

towards promoting and restoring the patients optimal level of functioning.

LICENSED VOCATIONAL NURSE TO REGISTERED NURSE AS

- Make reasonable clinical judgments by integrating the nursing process and evidence-based practice by promoting health of individuals.
- Incorporate the Nursing Process, Eric Erikson's Developmental Theory, and Maslow's Hierarchy of Needs, the graduate nurse will care for patients, families and significant others.

NURSING, REGISTERED AS

- Make reasonable clinical judgments by integrating the nursing process and evidence-based practice by promoting health of individuals.
- Incorporate the Nursing Process, Eric Erikson's Developmental Theory, and Maslow's Hierarchy of Needs, the graduate nurse will care for patients, families and significant others.

PoS – Philosophy

PHILOSOPHY

- Apply a value theory to an ethical situation.
- Demonstrate logical skills through argument analysis.
- Name key thinkers and theories in the field of Philosophy.

PoS – Physics

PHYSICS

- After completing the Physics Program of Study at East Los Angeles College, students will be able to apply their knowledge of physics principles, concepts and equations to solve a wide variety of problems in physics including mechanics, thermodynamics, waves, optics, electricity, magnetism & modern physics using calculus.
- After completing the Physics Program of Study at East Los Angeles College, students will be able to demonstrate an ability to effectively collect, record and analyze data, as well as to express their findings in written form.

PoS – Psychology

Psychology

CHEMICAL DEPENDENCY

- Apply appropriate assessment and treatment methods in the clinical setting.
- Compare and contrast the difference among assessment, intervention, treatment, and prevention in the recovery process.
- Differentiate between the major theoretical perspectives in psychology.

PSYCHOLOGY AAT

- Apply critical thinking, skeptical inquiry, and the scientific approach to solve problems related to behavior and mental processes.
- Understand and apply basic research methods in psychology, including research design, statistical analysis, and interpretation.

RECOVERY SPECIALIST

- Compare and contrast the difference among assessment, intervention, treatment, and prevention in the recovery process.
- Differentiate between the major theoretical perspectives in psychology.
- The student will compare and contrast alcohol and drug abuse vs. alcohol and drug dependence.

PoS – Social Sciences

ASIAN-AMERICAN STUDIES

- Develop coherent skills as a form of empowerment to articulate and define one's identity in relationship to one's heritage and societal norms.

ASIAN-AMERICAN PROGRAM OF STUDY

- Define the complex nature of Asian identities through a historical and cultural analysis within these groups and in contrast with other groups.

History

HISTORY AA-T

- Analyze and evaluate, using historical arguments, the roles of race, class, gender, culture, and/ or ethnicity in the history of the United States, Western, and/ or Global societies across time as regards historical issues and/ or historical evaluations.
- Analyze and evaluate, using historical arguments, the significance of change across time in the intellectual, political, economic, social, and/ or cultural history of the United States, Western, and/ or Global societies as regards historical issues and/ or historical evaluations.
- Interpret and evaluate a primary source document including articulating its context and composing an argument that uses the document as evidence.

POLITICAL SCIENCE AA-T

- Students in Political Science classes will demonstrate greater interest in Political Science through experiential learning, such as civic engagement and applied research projects.
- Students majoring in Political Science will be able to apply, analyze and evaluate the leading theories and essential concepts in American Government, Comparative Politics, International Relations, Political Theory, and Women in Politics.

SOCIOLOGY

- Students will be able to apply and recognize sociological terms, concepts and theories to everyday situations and their own lives and communities.

SOCIOLOGY AA-T

- Apply and recognize Sociological terms, concepts and theories to everyday situations and their own lives and communities.
- Garner a critical understanding of the complex interplay between social circumstances and individual experience.
- Understand and express in writing the implementation of methods for a social scientific research project.

PoS – Theater Arts

Technical Stage Production

STAGE MANAGEMENT AND PRODUCTION CERTIFICATE OF ACHIEVEMENT

- Manage production teams, rehearsals, and performances in theater productions.

Theater

THEATER AA

- Achieve competency in a theater work environment, either in production or performance.
- Synthesize the historical and philosophical context of theater arts to broaden individual perspective.

THEATER AA-T

- Achieve competency in a theater work environment, either in production or performance.
- Synthesize the historical and philosophical context of theater arts to broaden individual perspective..

General Studies

The following programs provide an opportunity to earn an Associate in Arts degree in a broad area of study and is intended for students who may or who may not be planning to transfer to a four-year college or university, or who may need to explore possibilities before committing themselves to a major. Students interested in achieving a General Studies Associates in Arts degree must complete the following:

1. Completion of LACCD—General Education requirements (21 units)
2. A minimum of 18 units in one Area of Emphasis
3. A minimum of 21 elective units (any CSU transferable courses)

Students planning to transfer to a four-year college or university are cautioned that this curriculum may not provide for completion of the lower-division requirements for transfer; however, careful educational planning with a counselor can help to ensure that if a student does decide at a later date to transfer to a four-year college or university, the student will have a solid beginning in the transfer-planning process.

Please consult with a counselor for specific information regarding your intended major at the colleges/universities of choice.

General Studies with the following Areas of Emphasis:

ARTS AND HUMANITIES

These courses emphasize the interrelationship of cultural, literary, humanistic activities and the artistic expression of human beings. Students evaluate and interpret the way in which people through the ages in different cultures have responded to themselves and the world around them in artistic and cultural creation. Students will also learn to value aesthetic understanding and incorporate these concepts when constructing value judgments.

No more than two courses from any one Subject area may be applied to this 18-unit Area of Emphasis.

Note: Only one-5-unit Foreign Language course permitted.

NATURAL SCIENCES

These courses emphasize the natural sciences which examine the physical universe, its life forms and its natural phenomena. Students demonstrate an understanding of the methodologies of science as an investigative tool. Students will also examine the influence that the acquisition of scientific knowledge has on the development of the world's civilizations.

No more than two courses from any one Subject area may be applied to this 18-unit Area of Emphasis.

COURSE SUBSTITUTION POLICY FOR THE GENERAL STUDIES DEGREES

The following criteria should be used when evaluating external courses for the General Studies Area of Emphasis Degrees. (A course only needs to meet one of the criteria to be applied to one of the degrees)

- The external course may be substituted if it is content equivalent to a course listed on the area of emphasis.
- The external course may be substituted if it is approved for an appropriate IGETC or CSU GE area that matches the area of emphasis.
 - General Studies: Art and Humanities: the external course must be approved for at least one of the following areas:
 - IGETC Areas 3A Arts or 3B Humanities
 - CSU GE Area C1 Arts or C2 Humanities
 - General Studies: Natural Sciences: the external course must be approved for at least one of the following areas:
 - IGETC 5A Physical Sciences or 5B Biological Science, or 5C Science Laboratory
 - CSU GE Area B1 Physical Science or B2 Life Science or B3 Laboratory Activity
 - General Studies: Social Behavioral Sciences: the external course must be approved for at least one of the following areas:
 - IGETC Area 4 Social and Behavioral Sciences
 - CSU GE Area D Social Sciences
- Any Foreign Language course from an external college or university may be substituted on the General Studies: Arts and Humanities degree. The one 5-unit course limit rule would still apply. This allows for languages not offered at ELAC to be applied to the area of emphasis, (examples of such courses include: Armenian, German, Hebrew, Korean, Latin, Persian, Portuguese, Russian, etc.)

Note: This applies to external courses only, and cannot be used to justify substituting an ELAC course on the degrees.

CSU General Education Breadth

CERTIFICATE OF ACHIEVEMENT

Students are eligible to receive a Certificate of Achievement when they fulfill the requirements for California State University General Education Certification.

Refer to Transfer Requirements on pages 90-91.

IGETC

CERTIFICATE OF ACHIEVEMENT

Students are eligible to receive a Certificate of Achievement when they fulfill the requirements for the Intersegmental General Education Transfer Curriculum.

Refer to Transfer Requirements on pages 92 - 94

Liberal Studies

LIBERAL STUDIES (TEACHING PREPARATION)

ASSOCIATE IN ARTS DEGREE

The Liberal Studies Associate in Arts degree is designed for future elementary school teachers. The curriculum is designed to satisfy lower-division transfer requirements, however, students should consult with a counselor for specific information regarding the intended major at the specific college or university of choice. Students interested in achieving a Liberal Studies Associate in Arts degree must complete the following:

**This course has an advisory.

Associate in Arts in Elementary Teacher Education for Transfer

The Associate in Arts in Elementary Teacher Education for Transfer degree is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Elementary Teacher Education, Integrated Teacher Education, or Liberal Studies. The degree provides a beginning foundation in subject matter competency in the areas of language arts, natural sciences, mathematics, social sciences, humanities, visual and performing arts, and human development that is required of all prospective elementary school teachers. The Associate in Arts in Elementary Teacher Education for Transfer degree provides students priority admission to the CSU system in a Liberal Studies major or a major that is deemed similar by a CSU campus.

Students are required to complete 60 semester units or 90 quarter units of CSU transferable coursework with a

minimum overall grade point average of 2.0, including a minimum grade of “C” (or “P”) for each course in the major, and completion of IGETC and/or CSU GE-Breadth.

Administration of Justice Department

F9-107 • (323) 265-8834

The criminal justice system in the United States is a diverse and dynamic clustering of numerous agencies, departments, and professions. It is a continuing challenge to educational institutions, training academies, and criminal justice agencies to keep abreast of the myriad legal and sociological shifts that occur in this field on almost a daily basis.

The Administration of Justice Department at East Los Angeles College has been recognized at both the local and state levels for its innovative efforts toward the continuing education and training of both pre-service and in-service criminal justice system personnel. The winner of several Excellence in Workforce Development Awards from both the Los Angeles Community College District and the California Community College Association of Occupation Educators (CCCAOE), East's certificate, degree, and transfer programs set the standard in this field.

Our unique relationships with criminal justice agencies, including the Los Angeles County Sheriff's Department, the Los Angeles County Probation Department, and the Los Angeles City Fire Department; our diverse, experienced, and award-winning faculty; our involved and dedicated Department Advisory Committee; and most importantly, our continued commitment to the development and education of our students, make our programs among the best available anywhere.

FOR A LISTING OF CLASSES CURRENTLY BEING OFFERED FOR THE SHERIFF'S DEPARTMENT, PLEASE CONTACT THE ADMINISTRATION OF JUSTICE DEPARTMENT AT (323) 265-8834.

Associate of Science in Administration of Justice for Transfer

This Associate of Science in Administration of Justice for Transfer degree is designed for students wishing to complete work for a Bachelors Degree in criminal justice or related field. Students will be able to describe the individual functions and components of the modern criminal justice system; use introductory concepts of legal research to locate, analyze, and discuss the content of statutory and case law; and apply critical thinking skills to solve a criminal justice problem. Proper selection of curriculum electives further enables students to study other academic disciplines, such as sociology, and public administration. This program is appropriate for students considering law schools as well as certain careers in criminal justice. The Associate in Science in Administration of Justice transfer degree can also lead to careers in law enforcement, courts, and corrections. Students are required to complete a minimum of 60 required semester units of CSU transferable

coursework with a minimum GPA of 2.0, including a minimum of 18–19 semester units in the major with a minimum grade of “C” (or “P”) for each course in the major.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Administration of Justice (ADM JUS)

Certain courses offered within the Administration of Justice curriculum are designed for in-service and pre-service Law Enforcement personnel. These courses are certified by the California Commission on Peace Officers Standard and Training and are recommended for members of Law Enforcement Agencies.

1 Introduction to Administration of Justice (3) UC:CSU IGETC 4H (C-ID AJ 110)

(UC Limit: ADM JUS 1 + ADM JUS 4 combined, maximum credit, one course).

LECTURE, 3 HOURS.

This course presents an introduction to the administration of justice in the United States, its history, philosophy, sub-systems, roles of its members and their relationships. It also introduces theories of crime, punishment, and rehabilitation and looks at ethics, education, professionalism, and training in the system.

2 Concepts of Criminal Law (3) UC:CSU IGETC 4J (C-ID AJ 120)

LECTURE, 3 HOURS.

This course presents concepts of criminal law, philosophy of law and constitutional provisions, definitions, classification of crime, and the applications of these to the system of justice. How legal research, case law, methodology, and concepts flow as a social force are looked at in depth.

3 Legal Aspects of Evidence (3) CSU (C-ID AJ 124)

LECTURE, 3 HOURS.

This course presents the legal aspects of evidence, constitutional and procedural considerations affecting arrest, search and seizure, kinds and degrees of evidence and rules, governing administratively, and judicial decisions interpreting individual rights and case studies.

4 Principles and Procedures of the Justice System (3) UC:CSU (C-ID AJ 122)

(UC Limit: AJ 1 + AJ 4 combined, maximum credit, one course).

LECTURE, 3 HOURS.

This course provides an in-depth study of the role and responsibilities of each segment within the criminal justice system: Law enforcement, judicial, and corrections. Consideration is given to past, present, and future exposures to the procedures of each sub-system from initial entry to final disposition, and the relationship each segment maintains with its system members and the community.

5 Criminal Investigation (3) CSU (C-ID AJ 140)

LECTURE, 3 HOURS.

This course covers the fundamentals of investigation: Crime scene, search and recording, and the collection and preservation of physical evidence. Scientific aids, modus operandi and sources of information, interviews and interrogation, follow-up, and case preparation are also emphasized.

6 Patrol Procedures (3) CSU

LECTURE, 3 HOURS.

This course presents the history and development of patrol philosophy and planning for field activities. The topics considered include the functions of patrol, traffic, and other preliminary investigative duties of the field officer. The handling of civic and domestic disturbances and other community crime incidents are also discussed.

14 Report Writing for Peace Officers (3) CSU

LECTURE, 3 HOURS.

This course presents the various types of technical writing used in police reports. The appropriateness of different styles in different contexts, the conceptualization of the material, and the use of these reports by crime analysts in police agencies are emphasized. Grammatical aspects of good report writing are also included.

49 Narcotics and Vice Control (3) CSU

LECTURE, 3 HOURS.

This course presents the covert criminal activities of organized crime within the community and the impact that these activities have on the social structure. This course discusses the history of illegal drugs and analyzes how law enforcement has attempted to control the widespread use of illegal drugs and the criminal enterprises that dominate

the narcotics trade. Vice operations and the criminal enterprises that control these activities are also examined in depth.

60 Arrest, Search and Seizure (3) CSU

LECTURE, 3 HOURS.

This course offers a comprehensive study of the laws of search and seizure leading to arrest, emphasizing Supreme Court interpretations of these laws, the application of these laws by the police officer, and the reference sources for these laws.

62 Fingerprint Classification (3) CSU

LECTURE, 3 HOURS.

This course covers practical aspects of fingerprint classification. Technical terminology, pattern interpretation, classification of fingerprints, search for fingerprints at crime scenes, and the preservation of prints and print development are emphasized.

67 Community Relations I (3) UC:CSU (C-ID AJ 160)

LECTURE, 3 HOURS.

This course explores the relationship between all aspects of the justice system and the community it serves. Principal emphasis is placed upon the professional image of members of the justice system and the development of positive relationships with the community including the challenges and prospects of administering justice within a diverse multicultural population.

69 Basic Forensics for Detectives (0.5)

LECTURE, 0.5 HOUR.

This course provides the student with information on processing a crime scene and the types of evidence that need to be collected.

75 Introduction to Corrections (3) CSU (C-ID AJ 200)

LECTURE, 3 HOURS.

This is a basic course dealing with the nature of the correctional system and the aims and objectives of corrections, probation, institutions, services, and supervision of inmates.

82 Law Enforcement Professional Standards (1)

LECTURE, 1 HOUR.

This course provides an entry-level law enforcement officer the tools necessary to become a strong and responsible leader along with an understanding of how their leadership can impact the community they serve

83 Introduction to Security (3) CSU

LECTURE, 3 HOURS.

This course presents an introduction to the private security field including historical, philosophical, and legal background of security services, the inter-relationships with governmental agencies, and the role of the contemporary security officer, career opportunities, and required qualifications.

88 Laser Firearms Training I, Basic (0.5)

Limitation on Enrollment: Pursuant to Title 5, Section 58106B., Health and Safety Considerations, the student must possess a certificate of successful completion of an 832 Penal Code Firearms Course for the State of California.

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides training on police safety, field tactics, and the proper shooting techniques for officer safety. Safety considerations for human life are emphasized.

89 Laser Firearms Training II, Intermediate (0.5)

Limitation on Enrollment: Pursuant to Title 5, Section 58106B., Health and Safety Considerations, the student must possess a certificate of successful completion of an 832 Penal Code Firearms Course for the State of California.

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides training on tactical responses, building entries, building searches, and proper shooting techniques.

93 Use of Force III (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course introduces techniques used to control individuals who may be violent, insane, under the influence of drugs, or physically aggressive. Medical and legal implications also are discussed.

94 Intermediate Forensics for Detectives (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with information on the identification, collection, storage, and presentation of evidence.

95 Successful Habits For Law Enforcement – 24 Hour Course (1.5)

LECTURE, 1.5 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with successful habits for law enforcement professionals and ways in which to connect these habits to their work in policing.

96 Successful Habits For Law Enforcement – 8 Hour Course (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with successful habits for law enforcement professionals and ways in which to connect these habits to their work in policing.

98 Basic Training Academy (18) CSU

LECTURE, 3 HOURS; LABORATORY, 46 HOURS.

This course meets the minimum training requirements established by Peace Officer Standards and Training (POST) for individuals entering the career of law enforcement.

101 Police Academy Extended (23.5) CSU

LECTURE, 7 HOURS; LABORATORY, 50 HOURS.

This course meets the minimum training standards established by the California Peace Officers Standards and Training (P.O.S.T.) for individuals entering the career of law enforcement.

103 Community Services Officer (3.5)

LECTURE, 3 HOURS; LABORATORY, 1.5 HOURS.

This course prepares the student to operate in the position of a community service officer for a law enforcement agency. The training includes report writing, criminal and civil law, driving techniques, and defensive tactics.

105 Advanced Training Instructor-Update (1.25)

LECTURE, 1.25 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with information on up-to-date material and methodologies associated with teaching law enforcement personnel new training methods and procedures.

107 Analytical Interviewing-Basic (2.25)

LECTURE, 2.25 HOURS.

This course provides the student with information on analytical interviewing techniques for law enforcement personnel.

108 Arrest and Firearms (2.25)

LECTURE, 2.25 HOURS.

This course provides the student with the training that is necessary to meet the requirements for 832 of the Penal Code that deals with arrest training. Successful completion of this course gives the student limited peace officer powers.

109 Bicycle Patrol - Basic (1.5)

LECTURE, 1.5 HOUR; LABORATORY, 0.75 HOUR.

This course provides the student with information on the challenges and advantages of policing on a bicycle.

110 Career Ethics/Integrity (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course is a peer-oriented workshop involving the monitoring of discussions regarding ethics and integrity in law enforcement.

112 Field Training Officer - Basic (2.25)

LECTURE, 2.25 HOURS.

This class is designed for officers who supervise and train other officers newly assigned to patrol. Topics presented include leadership, teaching methodology, officer safety, documentation skills, and career motivation.

113 Field Training Officer - Update (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with updated information on supervision techniques for law enforcement officers newly assigned to the patrol function that include legal updates, patrol, and communication techniques.

114 Field Operations School - Intermediate (2.25)

LECTURE, 2.25 HOURS.

This course emphasizes field tactics for the line supervisor, including barricaded suspects, command post operations, evacuation procedures, and related field operations. The target audience for this course is sergeants newly assigned to patrol.

115 Field Operations School - Advanced (1.25)

LECTURE, 1.25 HOURS.

This course emphasizes field responsibilities for watch commanders, including command post operations, special weapons teams, administrative investigations, and all other emergency response situations.

116 Force Training - Instructor Preparation (5)

LECTURE, 4 HOURS; LABORATORY, 2.75 HOURS.

This course provides instruction on how to teach in the area of force training. This course includes an in-depth study of all lethal and non-lethal weapons and instruction on the use of each.

118 Handler Baton - Basic (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with information designed to meet certification requirements for the proper handling of the Handler-12 baton.

120 Patrol School (4.5) CSU

LECTURE, 3.5 HOURS; LABORATORY, 3 HOURS.

This course prepares the student to perform in a field operations assignment. The training includes legal updates, report writing, defensive tactics, weapons training, situational planning for crimes in progress, pursuit driving, and policies and procedures required by a law enforcement agency.

121 Search and Seizure Update (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides patrol officers or detectives with up-to-date information in the area of search and seizure. This course is appropriate for both patrol and detective personnel.

122 Street Gangs and Subcultures (2.25) CSU

LECTURE, 2.5 HOURS.

This course is designed to present all current aspects of prison, motorcycle, and ethnic gangs. The resources and investigative techniques available to law enforcement are reviewed. This is a basic course primarily designed for personnel assigned to work patrol, narcotics, homicide, gangs, or other investigative assignments dealing with gangs.

124 Supervisory Training First Level (4.5)

LECTURE, 4.5 HOURS.

This course provides basic supervisory training for newly promoted first-line supervisors. The course includes ethics, problem solving, media relations, the role of the supervisor, morale, discipline issues, and administrative duties.

125 Tear Gas Refresher/Handler (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course reviews the basic training in use of chemical agents and methods of delivery as well as providing the latest techniques and legal ramifications of chemical agent use.

127 Security Officer Training (7)

LECTURE, 5 HOURS; LABORATORY, 6.25 HOURS.

This course meets the minimum requirements established by the California Peace Officer Standards and Training for individuals entering the field of court security officer and assistant court security officer.

128 Blast and Explosive Recognition (2.25)

LECTURE, 2.25 HOURS.

This course emphasizes the task force approach to investigate cases involving explosives. Recognition of the various devices and the proper explosive handling techniques are stressed.

133 AR-15 Rifle (0.25)

Limitation on Enrollment: Pursuant to Title 5, Section 58106B., Health and Safety Considerations, the student must possess a certificate of successful completion of an 832 Penal Code Firearms Course for the State of California.

LABORATORY, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course offers basic instruction in safety, tactical considerations, malfunctions, and firing of the AR-15 Rifle.

134 Advanced Vehicle Theft Investigation (2.25)

LECTURE, 2.25 HOURS.

This course offers advanced instruction for vehicle theft investigators including identification of vehicle numbers, vehicle theft and fraud, and common problems associated with these investigations.

135 Advanced Criminal Investigation (2.25)

LECTURE, 2.25 HOURS.

This course provides the student with advanced criminal investigative tools and techniques in processing a crime scene. The legal aspects of an investigation and appropriate collection of crime scene evidence are emphasized.

136 Child Abuse Investigation (2.25)

LECTURE, 2.25 HOURS.

This course supplies basic training for the child abuse investigator and satisfies the requirements specified by the Child Abuse Investigation Foundation for the California Peace Officer Standards and Training Institute of Criminal Investigations.

137 Mounted Patrol (1.5)

LECTURE, 1 HOURS; LABORATORY, 1.25 HOURS.

This course provides information to peace officers newly assigned to mounted patrol units. Topics presented include equipment familiarization, tactical maneuvers, policies and procedures, and unit liabilities.

139 Policy and Procedures/Equipment for Bailiffs (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This is a refresher course for officers assigned to the position of bailiff in the Los Angeles court system.

140 Custody Assistant Training (12)

LECTURE, 9 HOURS; LABORATORY, 9 HOURS.

This course satisfies the basic California Standards and Training for Corrections requirements for entry-level custodial officers.

142 Bailiff Orientation (2.25)

LECTURE 2.25 HOURS.

This course reviews court procedures and provides the student with the basic bailiff responsibilities and related court functions.

144 Special Weapons and Tactics (3.5)

Limitation on Enrollment: Pursuant to Title 5, Section 58106B., Health and Safety Considerations, the student must possess a certificate of successful completion of an 832 Penal Code Firearms Course for the State of California.

LECTURE, 3 HOURS; LABORATORY, 1.5 HOURS.

This course provides special weapons and tactics including legal issues, use of canines, special deployment techniques, and the use of specialized weapons.

145 Advanced Special Weapons and Tactics Instruction (3)

Limitation on Enrollment: Pursuant to Title 5, Section 58106B., Health and Safety Considerations, the student must possess a certificate of successful completion of an 832 Penal Code Firearms Course for the State of California.

LECTURE, 1.75 HOURS; LABORATORY, 3.75 HOURS.

This course provides advanced training tactics for those currently assigned to special weapons and tactics units. Course study includes helicopter operations, dignitary protection, special operations, advanced firearm and entry techniques, and hostage rescue.

146 Vehicle Theft for Patrol Officers (1.5)

LECTURE, 1.5 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides a basis for the recognition, identification, and investigation of the various stolen vehicles encountered in field patrol.

147 Basic Long Rifle Instruction (1.25)

Limitation on Enrollment: Pursuant to Title 5, Section 58106B., Health and Safety Considerations, the student must possess a certificate of successful completion of an 832 Penal Code Firearms Course for the State of California.

LECTURE, 0.75 HOURS; LABORATORY, 1.5 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course offers practical training in the use of long rifles including legal limitations, operational considerations, and practical application of shooting fundamentals.

148 Sexual Assault Investigation (2.25)

LECTURE, 2.25 HOURS.

This course meets the training needs of investigators assigned to sexual assault cases. This course satisfies the Sexual Assault Investigation Foundation specialty for the California Peace Officers Standards and Training.

152 Court Security Assistant (4.25)

LECTURE, 3.75 HOURS; LABORATORY, 3 HOURS

This course provides the basic knowledge and skills required by the California Peace Officer Standards and Training for an entry-level position as an assistant security officer for the court system.

155 Tactical Communications for Law Enforcement (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with practical skills and techniques in the area of oral communication. The student develops expertise in dealing with difficult people, resolving conflicts, and non-verbal communication.

156 Supervision for Civilians in Law Enforcement (4.5)

LECTURE, 4.5 HOURS.

This course provides the newly appointed civilian supervisor with formal training in the concepts, techniques, and practical applications of basic supervisory skills in the law enforcement field.

157 Public Safety Dispatcher (5)

LECTURE, 4.5 HOURS; LABORATORY, 2.25 HOURS.

This course provides entry-level knowledge and skills to properly receive and dispatch calls for service to law enforcement personnel.

158 Homicide and Death Investigation (4.5)

LECTURE, 4.5 HOURS.

This course provides an overview of the investigative techniques and resources that are utilized when investigating a homicide or death, including forensics and criminal profiling.

160 Police Organization and Administration (3) CSU

LECTURE, 3 HOURS.

This course offers the effect of organizational structure and administrative procedure on the implementation of police functions; assessment of processes of recruitment, career advancement and leadership; and administrative problems of staffing, supervision, and morale.

161 Drug/Alcohol Recognition Training (2.25)

LECTURE, 2.25 HOURS.

This course provides formal training in recognizing drug and alcohol use for successful detection in criminal cases.

162 Basic Traffic Collision Investigation (2.25)

LECTURE, 2.25 HOURS.

This course provides the basic principles related to traffic collision investigations, including skid mark identification, determination of collision factors, basic diagramming techniques, and physical evidence identification.

163 Intermediate Traffic Collision Investigation (2.25)

LECTURE, 2.25 HOURS.

This course provides advanced principles related to traffic collision investigations, including computation of speed and drag factors, scope and grade calculations related to collision causal factors, and time and distance formulas.

164 Advanced Traffic Collision Investigation (4.5) CSU

LECTURE, 4.5 HOURS.

This course provides specialized training in traffic collision investigations including advanced collision scene measurement tools and techniques, vehicular damage analysis, and collisions that include a pedestrian or motorcycle.

165 Contemporary Aspects of the Fourth Amendment of the United States Constitution, Basic (0.25)

LECTURE, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course reviews the basic requirements of the Fourth Amendment of the United States Constitution and the impact of recent court decisions on its applications.

166 Contemporary Aspects of the Fourth Amendment of the United States Constitution, Advanced (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course reviews the basic elements of search and seizure as it relates to the Fourth Amendment of the United States Constitution and presents an in-depth study of consensual encounters. The course also examines the Exclusionary Rule from both a field and courtroom perspective.

167 Advanced Search Warrants (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course covers the advanced aspects of search warrant affidavits including telephonic and e-mail. It details warrant service restrictions, scope, and return procedures.

168 Current Miranda Rights (0.25)

LECTURE, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course is designed to review and update the basic requirements of the Miranda decision.

169 Current Aspects of Statements and Confessions (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course updates the legal interactions of the 4th, 5th, 6th, and 14th amendments of the United States Constitution with daily applications.

170 Civilian Orientation Seminar (2.25) CSU

LECTURE, 2.25 HOURS.

This course offers an introduction of the law enforcement organizations for newly hired civilian personnel. This course includes an overview of enforcement of required job skills and techniques.

171 Basic Search Warrants (0.25)

LECTURE, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course presents the basic concepts of search warrants and how to prepare and serve them according to the law.

172 Criminalistics I (3) CSU

Prerequisite: Administration of Justice 5.

LECTURE, 3 HOURS.

This course provides the student with an in-depth study of the evolution of forensic science and the collection techniques for evidence in a criminal investigation.

173 Criminalistics II (3) CSU

Prerequisite: Administration of Justice 172.

LECTURE, 3 HOURS.

This course provides the student with forensic techniques for crime scene investigations which include fingerprint and handwriting examinations, identification of human remains, discovery of trace evidence, and firearms recovery.

174 Offender Profiling in Criminal Investigations (3) CSU

LECTURE, 3 HOURS.

This course offers explanations and predictors for offender behavior in specific types of crimes including classification of offenders, profiling techniques, and the legal aspects of offender behavior.

175 Law Enforcement Security Assistant (3.5)

LECTURE, 3 HOURS; LABORATORY, 1.5 HOURS.

This course provides information for the entry-level security assistant in the law enforcement field. Topics include professionalism, officer survival, tactical communications, legal updates, and report writing.

176 Probation Core Correctional Practices (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on juvenile correctional facilities with an emphasis on security, authority, and supervision.

177 Motivational Interviewing for Camp Staff (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on interviewing skills for probation officers within a juvenile custodial facility including motivational interviewing, the client-centered interview, and feedback techniques.

178 Terrorism: The First Responder (3) CSU

LECTURE, 3 HOURS.

This course provides the student with an overview and understanding of terrorism from a historical perspective and provides a timeline of terrorism activities from past to present. The information provided prepares a student as a first responder to acts of terrorism, and allows the student to understand all aspects of response tactics by emergency service agencies including law enforcement, fire, medical technicians, and private security. Topics include

tactical coordination, scene awareness, crime scene operations, and an overview of real-world incident management techniques.

179 Introduction to Internal Affairs (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides an introduction to internal affairs including inquiries, investigations, and citizen complaints. Policy and procedures regarding use of force and officer-involved shootings are also covered.

182 Law Enforcement Technician Course (2.25)

LECTURE, 2.25 HOURS.

This course offers an introduction to the policies and procedures on the technical aspects of law enforcement for civilian personnel employed as law enforcement technicians.

183 Legal Update Affecting Law Enforcement Procedures (2)

LECTURE, 2 HOURS.

This course reviews contemporary changes in the law and the impact of recent court decisions as it applies to law enforcement procedures.

184 Legal Update For Investigations (2)

LECTURE, 2 HOURS.

This course offers updated information related to conducting criminal investigations involving search and seizure, case and statutory law, and search and arrest warrants.

187 Correctional Personnel Supplemental Academy (4.5)

LECTURE, 4.5 HOURS.

This course offers supplemental information on correctional policies and procedures for personnel who have completed basic police academy training.

188 Basic Leadership Institute (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course is designed to identify and develop basic leadership qualities for law enforcement personnel.

189 Operation Safe Streets Investigation (2.25)

LECTURE, 2.25 HOURS.

This course provides instruction for field officers in the application of laws, tactics, and intelligence-gathering techniques for investigations of California street gangs.

190 Narcotics and Gang Prevention (2.25)

LECTURE, 2.25 HOURS.

This course provides teaching strategies related to classroom environment and classroom management for law enforcement officers that instruct K-12 students in the area of narcotics and gang information.

191 Field Operations for Detectives (2.25)

LECTURE, 2.25 HOURS.

This course provides instruction in the application of laws, tactics, and safety techniques related to field operations during criminal investigations.

193 Background Investigation (2.25)

LECTURE, 2.25 HOURS.

This course presents the basic requirements and skills necessary for the evaluation and investigation of law enforcement applicants.

194 Basic Motorcycle Training (3)

LECTURE, 2.25 HOURS; LABORATORY, 2.25 HOURS.

This course is designed to provide the basic skills for motorcycle safety and patrol procedures for the motorcycle patrol trainee.

195 Breathalyzer Operator Training (0.25)

LECTURE, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the necessary skills to operate the Datamaster Breathalyzer in compliance with California state law.

196 Intermediate Report Writing (3)

LECTURE, 3 HOURS.

This course is designed to enhance the ability of students to effectively prepare written reports commonly required in the law enforcement profession, with particular emphasis on observational arrest reports, documenting the use of force, and civil liability issues related to report preparation.

199 Basic Leadership Institute Facilitator Workshop (2.25)

LECTURE, 2.25 HOURS.

This course provides instruction to police officers in the teaching strategies related to classroom management and the theories related to adult learning in order to instruct law enforcement management on basic leadership techniques.

211 Supervision Accountability (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course defines accountability for law enforcement supervisors including employee and vicarious liability issues.

212 Management and Leadership Training (4)

LECTURE, 4 HOURS.

This course provides management and leadership training for law enforcement and emergency services supervisors.

214 First Aid Instructor Training (1.5)

LECTURE, 1 HOUR; LABORATORY, 1.25 HOURS.

This course provides first aid instructor training.

215 Four-Wheel Drive Vehicles and Equipment (0.5)

LECTURE, 0.5 HOUR; LABORATORY 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides instruction on driving off-road vehicles used in law enforcement.

216 Cultural Sensitivity Training for Law Enforcement Personnel (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides sensitivity training and cultural diversity exposure to law enforcement personnel.

218 Radar Operator Training (1.75)

LECTURE, 1.5 HOURS; LABORATORY 0.75 HOUR.

This course provides instruction on the operation of radar devices used in law enforcement.

220 Laws and Policies Pertaining to Sexual Harassment (0.25)

LECTURE, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on laws and policies relating to sexual harassment.

221 Advanced Tactical Communications in Custody Facilities (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course is designed to provide communication skills required to interact with inmates in custody settings.

222 Administrative Investigation Process (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides supervisors with the necessary knowledge to apply the various components of the administrative investigation process.

223 Civilian Defensive Driving (0.25)

LECTURE, 0.25 HOUR; LABORATORY 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides instruction to civilian personnel on basic driving techniques of emergency vehicles associated with law enforcement.

224 Driver Awareness-Instructor Driving Techniques (1)

LECTURE, 0.75 HOUR; LABORATORY, 0.75 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides individuals with driver awareness instructional techniques to teach effective and safe driving methods to law enforcement personnel.

225 Advanced Driver Training I (0.25)

LECTURE, 0.25 HOUR; LABORATORY, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides instruction on basic precision driving techniques of emergency vehicles.

226 Advanced Driver Training II (0.5)

LECTURE, 0.5 HOUR; LABORATORY, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides additional advanced instruction on precision driving of emergency vehicles.

227 Driver Training Instructional Techniques (1.75)

LECTURE, 1.5 HOURS; LABORATORY, 0.75 HOUR.

This course offers instructional techniques that can be used when training law enforcement personnel in the operation of emergency vehicles.

228 Driving Simulator Application (0.25)

LECTURE, 0.25 HOUR; LABORATORY, 0.25 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides specialized driving techniques through the use of a law enforcement simulator.

229 Driving Techniques for Executive Security (0.5)

LECTURE, 0.5 HOUR; LABORATORY, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides specialized vehicle training for individuals who are required to provide transportation for public officials.

231 Criminal Abatement (1.5)

LECTURE, 1.5 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides instruction on the abatement of criminal activity within urban communities.

232 Community Policing I (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the history and philosophy of community policing and an introduction to problem solving and approaches to surveying the community.

233 Community Policing II (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides further study of the history and philosophy of community policing and solutions to criminal nuisance activities.

236 Community Policing for Supervisory Personnel (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on instruction and management strategies in community policing including practical strategies for community mobilization and problem-solving techniques for gang and nuisance activity.

239 Criminal History Access Techniques (0.25)

LECTURE, 0.25 HOUR; LABORATORY, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on how to access the Consolidated Criminal History Reporting System (CCHRS) through the use of the Windows operating system.

240 Instructional Techniques for Accessing Criminal Histories (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on instructional techniques used with the processing of criminal histories through the use of the Windows operating system.

241 Crime Inquiry Training (0.25)

LABORATORY, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information concerned with accessing an individual's complete criminal history through the computer information program, Consolidated Criminal History Reporting System (CCHRS).

243 Police Case Management (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on criminal case management including management reports, statistics, and suspect information.

245 Data Entry for Law Enforcement Personnel (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides instruction on data entry for the Los Angeles Regional Crime Information System (LARCIS).

246 Law Enforcement Instructor Training Involving Data Entry (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides teaching techniques for law enforcement personnel involved with data entry into the Los Angeles Regional Crime Information System (LARCIS).

247 Personnel Performance Index (0.25)

LECTURE, 0.25 HOUR; LABORATORY, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides instruction on how to enter employee data into the Personnel Performance Index (PPI).

248 Law Enforcement Explorer Academy (5)

LECTURE, 2.5 HOURS, LABORATORY, 8.5 HOURS.

This course is designed to train students for public service employment in law enforcement including an overview of job duties, criminal laws, self defense, evidence collection, first aid, and physical training.

251 Motorcycle Training Quarterly Update (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides a periodic update for law enforcement officers assigned to motorcycle details.

253 Crime Prevention through Environmental Analysis (0.5)

LECTURE, 0.5 HOURS, LABORATORY, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course presents the principles of crime prevention through environmental analysis.

254 College Security Officer Training (7)

LECTURE, 5 HOURS, LABORATORY, 6 HOURS.

This course provides the minimum training established by the State of California for individuals entering a career as a college security officer.

258 Narcotics for Patrol (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on narcotics for the patrol officer in the field including drug categories, drug identification, courtroom testimony, search and seizure issues, and the use of informants.

260 Juvenile Corrections Officer Core Course (JCOC) (16) CSU

LECTURE, 15 HOURS; LABORATORY, 4 HOURS.

This course provides the basic training for an entry-level juvenile corrections officer. Subject areas include an overview of the criminal justice system, the roles and responsibilities of the juvenile corrections officer, casework management, court procedures, psychological and medical issues, correctional security issues, gang and drug problems, supervision of offenders, arrest procedures, confidentiality, and report writing.

261 Probation Officer Core Course (12) CSU

LECTURE, 10.5 HOURS; LABORATORY, 5 HOURS WITHOUT HOMEWORK.

This course provides the basic training for an entry-level field probation officer. Subject areas include the criminal justice system, roles and responsibilities of the probation officer, casework management, court procedures, domestic abuse issues, first aid, and report writing.

316 Reserve Police Academy Level I (5)

LECTURE, 1.5 HOURS; LABORATORY, 10.75 HOURS.

This course provides the first level of training for the position of reserve police officer. The student learns the basic overview of the criminal justice system including criminal laws and criminal procedures, patrol operations, report writing, traffic enforcement, self-defense techniques, and firearm control and safety.

317 Reserve Police Academy Level II (6.5)

LECTURE, 1.5 HOURS; LABORATORY 14 HOURS.

This course provides the second level of training for the position of reserve police officer. The second level of study includes criminal law, criminal procedures, investigative report writing, and specialized law enforcement such as gangs and narcotics, mental illness, victimology, and community relations.

318 Reserve Police Academy Level III (8)

LECTURE, 1.5 HOURS; LABORATORY 20.5 HOURS.

This course provides the third level of training for the position of reserve police officer. The third level of study includes patrol techniques, the special handling of unusual occurrences, traffic accident investigations, traffic enforcement, and preliminary criminal investigations.

322 Custodial Report Writing I (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides law enforcement personnel with basic skills to write reports required in a custody facility.

324 Civilian Career Development in Law Enforcement (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides instruction on career development for civilian personnel in law enforcement agencies.

325 Anger Management Techniques (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course presents anger management techniques for law enforcement personnel.

326 CPR Recertification for Law Enforcement (0.25)

LECTURE, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course reviews the basic principles of CPR and the mechanics involved with life support.

327 Self-Defense Techniques for Law Enforcement Personnel (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides self-defense techniques to be used in a custodial setting by law enforcement personnel.

328 Law Enforcement Fraternization Policy (0.25)

LECTURE, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course informs law enforcement personnel about fraternization issues within a custodial setting.

329 First Aid Recertification for Law Enforcement (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course reviews first aid concepts and techniques used by law enforcement personnel in a custody environment.

331 Jail Security (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course presents basic jail security techniques and escape prevention measures.

332 Prisoner Transportation (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on the law enforcement policy regarding the procedures used for the transportation of inmates.

333 Sign Language for Emergency Personnel (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on basic sign language for emergency personnel.

334 Tactical Weapons Qualification (0.25)

Limitation on Enrollment: Pursuant to Title 5, Section 58106B., Health and Safety Considerations, the student must possess a certificate of successful completion of an 832 Penal Code Firearms Course for the State of California.

LECTURE, 0.25 HOUR; LABORATORY, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides instruction on the operation and safety of weapon systems and qualifies an individual in the use of tactical weapons.

335 Jail Cell Extraction (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on the proper techniques used in the removal of a hostile inmate from a jail cell.

336 Survival Techniques for Custodial Personnel (0.25)

LECTURE, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information to law enforcement personnel on the survival techniques for hostage situations and appropriate off-duty behavior.

337 Suicide Prevention Measures for Inmates (0.25)

LECTURE, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course presents detailed procedures for inmate suicide prevention.

338 Jail Intelligence Gathering (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course familiarizes the student with the concepts of and techniques for analytical interviewing in a custodial setting.

339 Drug Recognition, Investigation, and Reporting (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course develops the technical knowledge and procedures needed for basic narcotics investigations in the custody setting.

340 The Use of Force Update for Supervisors (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course is designed to provide an update of law enforcement policy regarding the use of force.

341 Custodial Report Writing II (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on report writing techniques that improve the quality of reports in the custody environment.

342 Custodial Report Writing III (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course enhances investigative and report writing skills for law enforcement personnel beyond an intermediate level.

343 Inmate Control Techniques (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on inmate control techniques.

347 Taser Training (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course familiarizes the student with the nomenclature, operation, and tactical deployment considerations of the taser.

349 Inmate Civil Litigation (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on the civil litigation process and inmates' rights.

350 Video Training for Law Enforcement (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides law enforcement personnel with the purpose, standards, and techniques for videotaping crime scenes.

352 Courtroom Testimony (0.25)

LECTURE, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course familiarizes the student with courtroom testimony procedures and techniques.

353 First Aid Breathing Mask (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on the basic principles of CPR and the use of a breathing mask for infants and adults.

354 Emergency Response Procedures for Custody Personnel (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on emergency response procedures for custody personnel including evacuation and tactical planning.

356 Gangs in the Custodial Environment (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course familiarizes law enforcement personnel with gang activity within the custodial environment.

357 Law Enforcement Stress Management Techniques (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides law enforcement personnel with stress management techniques including exercise, diet, and meditation.

359 Custody Incident Command Training (2.25)

LECTURE, 2.25 HOURS.

This course provides information on the identification and handling of potentially dangerous security issues in a custody facility including custodial disturbances, emergency mobilization, hostage negotiations, and incident command procedures.

360 Custody Incident Command Training Update (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides updated information on effective emergency preparedness in a custodial facility.

361 Custody Training Officer School (1)

LECTURE, 1 HOUR; LABORATORY, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information to assist the experienced custody officer with current information necessary to become a qualified custodial trainer.

363 Custody Executive Command Training (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on executive command policy and procedures in the custodial facility.

365 Custodial Legal Update (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on legal updates in the laws and policies regarding the custody and care of inmates.

366 Law Enforcement Strategies Against Hate Crimes (0.5)

LECTURE, 0.5 HOUR; LABORATORY, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on identifying and responding to hate crimes including the motivational factors of hate crimes and the initial response by law enforcement.

367 Law Enforcement Responses to Domestic Violence (0.5)

LECTURE, 0.5 HOUR; LABORATORY, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information for the appropriate response to domestic violence including current case law requirements, threat assessment, and protection orders.

368 Law Enforcement Strategies Against Violence (0.5)

Lecture, 0.5 hour; Laboratory, 0.5 hour. *Note: This course is offered on a PASS/NO-PASS basis only.*

This course provides information to law enforcement officers on family, school, and workplace violence.

371 Investigator Case Management (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on investigator case management techniques including the types of case assignments, creation of a master file, and removal and case closure procedures.

372 Report Writing for Law Enforcement Civilians (0.5)

LECTURE, 0.5 HOUR; LABORATORY, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on report writing techniques for civilians working in the law enforcement field.

374 Case Management for Supervisors (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides management techniques to students for handling a regional crime system.

376 Intermediate Search Warrants (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with requirements for preparing a search warrant.

377 Defensive Tactics for Female Law Enforcement Personnel (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with defensive tactic techniques specially targeted to the female police officer.

378 Driver Awareness (0.25)

LECTURE, 0.25 HOUR; LABORATORY, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides instruction in safe driving techniques for law enforcement personnel.

398 Urban Terrorism: First Responders (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information for first responders on terrorist activities involving explosives, characteristics of a suicide bomber, and a terrorist's ability to carry out a suicide bombing.

400 Citizen Complaint Intake and Investigation Issues (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on law enforcement's citizen complaint intake and investigation policies and

practices. The topics covered include the citizen complaint process, process stages, and recommended revisions of existing policy.

402 Custodial Health Issues (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on HIV, hepatitis, tuberculosis, mental health, and substance abuse issues in a custodial environment. The topics covered include an overview of inmate health issues, strategies for effective communication with inmates, and workplace considerations of occupational exposure in a custody setting.

404 Custodial Weapons Training (0.5)

Limitation on Enrollment: Pursuant to Title 5, Section 58106B., Health and Safety Considerations, the student must possess a certificate of successful completion of an 832 Penal Code Firearms Course for the State of California.

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with information on special weapons used in a custodial environment for the control and containment of the inmate population. The topics covered include the operation and proper handling techniques for each particular weapon.

407 Racial Profiling (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on racial profiling and the legal implications of racial profiling for law enforcement agencies. The topics covered include the policies regarding racial profiling, legal considerations, and the impact that racial profiling has on an individual's civil rights.

408 Terrorism Awareness Training (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on domestic terrorism. The topics covered include domestic terrorist groups, extremist groups, internal terrorism, and officer safety issues.

409 Community Policing Use of Force Issues (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on the use-of-force issues in law enforcement. This information can be used to review and revise law enforcement policy on use of force in police operations. The topics covered include current law enforcement policy on the use of force, use-of-force legal issues, and appropriate model(s) that can be employed to decrease the number of force cases.

411 Civilian Employee Management in Law Enforcement Administration (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information for civilian employee managers who work in law enforcement administrations.

412 Basic Narcotics Investigations (2.25)

LECTURE, 2.25 HOURS.

This course provides instruction on basic narcotics investigations including informant management, drug recognition, search warrant operations, and specialized investigations

415 Instructor Development Course (2)

LECTURE, 1.75 HOURS; LABORATORY, 0.5 HOUR.

This course provides information on critical thinking, instructional designs, evaluating and testing, and the learning resources that are available to law enforcement instructors.

419 Domestic Violence Crime Scene Investigation (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides investigation techniques specific to domestic violence cases.

420 Basic Dual Purpose Motorcycle Riding for Emergency Personnel (2.75)

LECTURE, 2 HOURS; LABORATORY, 2.5 HOURS.

This course provides an update on basic motorcycle riding techniques, and provides new instruction on off-road motorcycle techniques and procedures.

421 Respect-Based Leadership in Law Enforcement (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on the policy of equality in law enforcement including core values, respect-based leadership, and individual action plans.

422 CPR Instructor Update (1.5)

LECTURE, 1.5 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with updated CPR information necessary for valid instruction.

428 Ethics in Forensic Science (3) CSU

LECTURE, 3 HOURS.

This course provides the student with ethical standards and guidelines in forensic science as they relate to the criminal case and the investigator. Topics covered include the key elements of ethical guidelines, individual aspects of the ethical code, procedural and substantive law issues pertaining to crime scene investigations, courtroom testimony and admissibility issues, and ethical standards for all written reports.

430 Expandable-Straight Baton (0.25)

LECTURE, 0.25 HOUR; LABORATORY, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course teaches appropriate techniques in the use of the expandable-straight baton.

432 Mental Illness Identification and Restraint Procedure of Inmates (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information to identify and legally restrain inmates in a custodial setting who suffer from mental illness.

433 Weapons of Mass Destruction (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides an overview of terrorist threats in the United States and regulatory guidelines provided by the State of California. Threat indicators, protective measures, crime scene management, and response actions are examined in detail.

435 Human Trafficking Awareness (0.5)

LECTURE, 0.5 HOUR.

This course provides the student with the nature and scope of human trafficking, types of offenses, legal requirements, and investigative techniques to identify victims and offenders.

440 Asset Forfeiture (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on the asset forfeiture program for law enforcement including narcotics seizures, investigative methods, forfeiture proceedings, and distribution of forfeiture properties.

442 DNA Evidence for Law Enforcement (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides a foundation in the basic science and the practical application of forensic DNA identification evidence.

443 Elder Abuse Awareness for Law Enforcement (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on elder abuse including its identification, domestic elder abuse, scams and schemes, mandatory reporting, and criminal prosecution.

444 Graffiti Investigation (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on the major types of graffiti with an emphasis on tagger graffiti. Subject areas include graffiti identification, investigation, expert testimony, and successful prosecution.

445 Investigating and Prosecuting High-Tech Crimes (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on the new forms of identity theft, network intrusions, digital and electronic evidence, high-tech search and seizure, and analyzing computers and cell phones for criminal investigations.

446 Identity Theft: First Responders (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on identity theft law, investigative techniques for identity theft crimes, and the use of computers as crime tools.

447 Identity Theft Investigation and Prosecution (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information in the investigation and prosecution of identity theft crimes. Subject areas include basic identity crimes law, access card fraud, search warrants, charging and presenting identity crimes, and victims' issues.

448 Chronic Truancy (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides a better understanding of the truancy problem among school-aged children. Subject areas include truancy and delinquency, anti-truancy enforcement efforts, new trends in truancy prevention, and available community resources.

452 Legal Update - 4 Hours (0.25)

LECTURE, 0.25 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides a legal update on current topics affecting the criminal justice system. Also included in this course is how these legal updates might affect the policy and procedures of law enforcement, the courts, and corrections.

453 Legal Update - 8 Hours (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides a legal update on current topics affecting the criminal justice system. Also included in this course is how these legal updates might affect the policy and procedures of law enforcement, the courts, and corrections.

454 Legal Update - 12 Hours (0.75)

LECTURE, 0.75 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides a legal update on current topics affecting the criminal justice system. Also included in this course is how these legal updates might affect the policy and procedures of law enforcement, the courts, and corrections.

455 Legal Update - 16 Hours (1)

LECTURE, 1 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides a legal update on current topics affecting the criminal justice system. Also included in this course is how these legal updates might affect the policy and procedures of law enforcement, the courts, and corrections.

456 Legal Update – 24 Hours (1.5)

LECTURE, 1.5 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides a legal update on current topics affecting the criminal justice system. Also included in this course is how these legal updates might affect the policy and procedures of law enforcement, the courts, and corrections.

457 DNA Awareness for Law Enforcement (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the most recent court decisions on the legal requirements for the use of forensic DNA in criminal investigations. Subject areas also include recent DNA studies and programs, a juror's perspective of DNA technology, partial and familial DNA searches, and an understanding of the application of DNA technology for homicides and mass fatality events.

458 Child Abuse Prevention and Reporting (0.25)

LECTURE, 0.25 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course covers the major types of child abuse, legal and ethical issues, and methods of intervention and prevention. Topics also include child abuse reporting guidelines, time limits, and probation policy.

459 Effective Management for Detained Minors (0.25)

LECTURE, 0.25 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information to correctional staff to identify and avoid abusive institutional practices according to the most current policy. Topics include corporal punishment, denial of basic needs, verbal abuse, and ways to lessen a threatening environment for minors.

460 Fundamentals of Prosecution (7.5)

LECTURE, 6 HOURS; LABORATORY, 5 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on the fundamentals of prosecution including misdemeanor trial phases, preliminary hearings, calendar management, victims' rights, and criminal procedure. Other components include office processes and culture, field practice, and ethics.

461 Mobile Data Computer System (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides information on the mobile data computer system for law enforcement vehicles including new radio procedures involving wanted person inquiries, terrorist hits, and Code 4 notifications.

462 Active Shooter Strategies (0.5)

LECTURE, 0.5 HOUR.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides basic skills in the Enhanced Active Shooter Strategies so that an individual could successfully deploy a contact team or squad to locate and neutralize violent offenders and terrorists.

475 Contemporary Issues in Corrections (3) CSU

Prerequisite: Administration of Justice 75.

LECTURE, 3 HOURS.

This course examines and analyzes the growing problems within the correctional environment including the warehousing of inmates, managing the prison population, restorative justice, correctional reorganization, and inmate issues and concerns. The death penalty is evaluated in terms of morality, economics, and the legal basis on which it rests. This course also examines other contemporary topics including the juvenile correctional process and the problems associated with the housing of American youth, the victim and the role that they play in this process, and the future careers that are available in corrections in this changing environment.

488 Legal Update – 36 Hours (1.5)

LABORATORY, 0.5 HOUR.

This course provides a legal update on current topics affecting the criminal justice system. Also included in this course is how these legal updates might affect the policy and procedures of law enforcement, the courts, and corrections.

489 Legal Update – 40 Hours (1.75)

LECTURE, 1.5 HOURS; LABORATORY, 0.75 HOUR.

This course provides a legal update on current topics affecting the criminal justice system. Also included in this course is how these legal updates might affect the policy and procedures of law enforcement, the courts, and corrections.

490 Legal Update – 80 Hours (3.5)

LECTURE, 3 HOURS; LABORATORY, 1.5 HOUR.

This course provides a legal update on current topics affecting the criminal justice system. Also included in this course is how these legal updates might affect the policy and procedures of law enforcement, the courts, and corrections.

491 Legal Update – 120 Hours (4.5)

LECTURE, 4 HOURS; LABORATORY, 2.75 HOURS.

This course provides a legal update on current topics affecting the criminal justice system. Also included in this course is how these legal updates might affect the policy and procedures of law enforcement, the courts, and corrections.

492 Legal Update – 160 Hours (6)

LECTURE, 5 HOURS; LABORATORY, 4 HOURS.

This course provides a legal update on current topics affecting the criminal justice system. Also included in this course is how these legal updates might affect the policy and procedures of law enforcement, the courts, and corrections.

185 Directed Study – Administration of Justice (1) CSU**285 Directed Study – Administration of Justice** (2) CSU**385 Directed Study – Administration of Justice** (3) CSU
CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Administration of Justice on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC does not grant credit for variable topics courses in Administration of Justice because of credit restrictions in this area.

931 Cooperative Education (3) CSU

Note: Requires 15 to 19 hours per week; paid employment related to the occupational major and enrollment in at least 7 units (which include Co-op Ed).

This course offers advanced supervised training in an employment area that enhances the student's educational goals.

941 Cooperative Education (4) CSU

Note: Requires 20 hours per week; paid employment related to the occupational major and enrollment in at least 7 units (which include Co-op Ed).

This course offers advanced supervised training in an employment area that enhances the student's educational goals.

Fire Technology (FIRETEK)**24 Fire Company Management and Operations** (3) CSU

LECTURE, 3 HOURS.

This course is an extensive in-depth coverage of fire company management and operations. It includes planning and training, accident prevention and safety, reports and records, performance evaluations, fire investigations, fire systems, enforcement procedures, fire protection, and inspections.

27 Wildland Firefighter (4) CSU

LECTURE, 3.5 HOURS, LABORATORY, 1 HOUR.

This course prepares the student for entry level jobs in Wildland Firefighting. It combines classroom instruction with hands-on training. Certificates of recognition for completing the course are awarded including S130, S190, and L180 certificates from the National Wildland Coordinating Group.

29 Public Safety Leadership and Ethics (2.25)

LECTURE, 2.25 HOURS.

This course introduces ethics and leadership to entry-level firefighters. This course provides a deeper understanding of self as it relates to ethical philosophies, knowledge, skills, and abilities for the exercise of effective and ethical leadership in fire service.

30 Fire Marshal Certification: Instructor 1 (2.25) CSU

LECTURE, 2.25 HOURS.

This course introduces fire service training methods to fire-fighters. Emphasis is placed on using the occupational analysis, identifying training needs, and training others to perform manipulative skills.

32 Advanced Fire Management and Leadership (7.5) CSU

LECTURE, 7.5 HOURS.

This course provides information to fire command staff regarding human motivation, satisfaction, and performance abilities within the fire profession. Subject areas include aspects of effective leadership, integration of daily leadership practices, developing and achieving personal potential, and mechanics of the leadership process within the fire profession.

33 Wildland Fire Behavior Calculations (1.75)

LECTURE, 1.75 HOURS.

This course provides information on methods of calculating fire behavior characteristics, environmental factors and processes that affect fire behavior predictions, and fire behavior prediction models.

35 Fire Academy Training (17)

LECTURE, 4 HOURS, LABORATORY, 40 HOURS.

This course is designed to provide the initial training necessary for basic fire-fighting skills. It includes the California State Fire Marshal curriculum requirements for Fire Fighter I and Fire Fighter II. Subjects include fire service responsibility; use of equipment, tools, ladders, extinguishers; fire theory, behavior, and control; fire protection systems; wildland fire-fighting applications; and all different types of rescue techniques.

40 Fire Marshal Certification: Company Officer 2C Investigations and Inspections (2.25) CSU

LECTURE, 2.25 HOURS.

This course provides the student with knowledge on how to conduct basic fire prevention inspections.

41 Fire Marshal Certification: Fire Prevention 1B (2.25) CSU

LECTURE, 2.25 HOURS.

This course provides the student with information on extinguishment systems, responsibility and authority for inspections, handling and storage of materials, and life safety considerations.

50 Fire Marshal Certification: Company Officer 2B – General Administration (1.5) CSU

LECTURE, 1.5 HOURS.

This is one of eleven courses leading to the Certified Fire Officer designation by the California State Fire Marshal. This course provides the student with the basic supervisory skills necessary to be a competent fire officer.

55 Fire Marshal Certification – Fire Management 2E (2.25) CSU

LECTURE, 2.25 HOURS.

This course provides the student with an overview of contemporary fire management including governmental relations, policy formation, and program management.

**60 Fire Marshal Certification: Company Officer
2A – Human Resources Management (2.25) CSU**

LECTURE, 2.25 HOURS.

This is one of eleven courses leading to the Certified Fire Officer designation by the California State Fire Marshal. This course provides the student with an introduction to organizational structure and basic communication and leadership skills for fire personnel.

61 Fire Marshal Certification: Command 1B (2.25) CSU

LECTURE, 2.25 HOURS.

This is one of eleven courses leading to the Certified Fire Officer designation by the California State Fire Marshal. This course provides the student with information and direction for initial operations of multi-casualty, hazardous materials, and wildland fire incidents.

**63 Fire Technology In-Service
Update-54 Hour Class (1)**

LABORATORY, 3 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with updated training in the fields of fire apparatus, specialized emergency operations, current department policy and procedures, and fire suppression and investigation.

**64 Fire Technology In-Service
Update-81 Hour Class (1.5)**

LABORATORY, 4.5 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with updated information in the fields of fire apparatus, specialized emergency operations, current department policy and procedures, and fire suppression and investigation.

**65 Fire Technology In-Service
Update-108 Hour Class (2)**

LABORATORY, 6 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with updated information in the fields of fire apparatus, specialized emergency operations, current department policy and procedures, and fire suppression and investigation.

**66 Fire Technology In-Service
Update-135 Hour Class (2.5)**

LABORATORY, 7.5 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with updated information in the fields of fire apparatus, specialized emergency operations, current department policy and procedures, and fire suppression and investigation.

**70 Fire Marshal Certification: Fire
Investigation 1A (2.25) CSU**

LECTURE, 2.25 HOURS.

This course provides the student with knowledge of the principles of fire investigation and origin and cause determination. The course highlights the skills and abilities necessary for the fire investigator to successfully execute his or her responsibility in today's complex world of fire investigation.

**80 Fire Command 2A: Command
Tactics at Major Fires (1.5)**

LECTURE, 1.5 HOURS, LABORATORY, 0.75 HOUR.

This course prepares the fire officer to use management techniques and the Incident Command System when commanding multiple alarms or large suppression forces.

**81 Fire Command 2B: Management of Major
Hazardous Materials Incidents (1.5)**

LECTURE, 1.5 HOURS, LABORATORY, 0.75 HOUR.

This course provides Incident Commanders with the skills and competency necessary to mitigate a major hazardous material incident, initiate remedial action, and ensure the restoration of normal services with a comprehensive resource management approach.

**82 Fire Command 2C: High-Rise
Fire Fighting Tactics (1.5)**

LECTURE, 1.5 HOURS, LABORATORY, 0.75 HOUR.

This course is approached from a system basis and is applied to both small and large high-rise buildings. Topics include pre-fire planning, building inventory, problem identification, ventilation methods, water supply, elevators, life safety, and strategy and tactics.

**83 Fire Command 2D: Planning for
Large Scale Disasters (1.5)**

LECTURE, 1.5 HOURS, LABORATORY, 0.75 HOUR.

This course includes principles of disaster planning and management, fire service emergency plans, emergency operations centers, case studies of various natural and man-made disasters, and the roles of all agencies involved.

**84 Fire Command 2E: Wildland
Fire Fighting Tactics (1.5)**

LECTURE, 1.5 HOURS, LABORATORY, 0.75 HOUR.

This course contains topics that address problems related to wildland fires including fire safety, weather effects, fuels, fire behavior, initial attack methods, and support and strategy techniques.

**85 Fire Management 2A: Organizational
Development and Human Relations (1.5)**

LECTURE, 1.5 HOURS, LABORATORY, 0.75 HOUR.

This course provides information on the foundations of 1) individual behavior, personality and emotions, motivational concepts, individual decision making; 2) group behavior, work teams, group dynamics, group communication, conflict and negotiations, power and politics, leadership and creating trust; and 3) organizational structure, human resources policies and practices, organizational culture, and organizational change and development within the fire service.

**86 Fire Management 2B: Fire Service
Financial Management (1.5)**

LECTURE, 1.25 HOURS, LABORATORY, 0.25 HOUR.

This course is designed to provide insight into the cyclical nature of budgeting and financial management within the fire service. As a management course, the student becomes familiar with essential elements of financial planning, budget preparation, budget justification, and budget controls.

87 Fire Management 2C: Personnel and Labor Relations (1.5)

LECTURE, 1.25 HOURS, LABORATORY, 0.25 HOUR.

This course is designed to provide a fire manager with knowledge and insight on personnel, human resources, diversity management, legal mandates, labor relations, and related areas. Topics include areas of organizational development, productivity, recruitment and selection, performance systems, discipline, and collective bargaining.

88 Fire Management 2D: Strategic Planning (1.75)

LECTURE, 1.25 HOURS, LABORATORY, 1 HOUR.

This course is designed to educate Chief Officers on the strategic planning process and why each of the steps is critical for success. This course provides advice and tools to assist in the strategic planning process and is intended to be consistent with critical elements of the Fire Management accreditation process and its associated self-assessment manual.

91 I-100 Incident Command System Orientation (0.5)

LECTURE, 0.5 HOUR.

Students learn management principles for a general Incident Command System and a basic plan for control and containment of a major fire incident for fire company officers.

93 I-300 Intermediate Incident Command System (1.5)

LECTURE, 1.5 HOURS.

This course is designed for the student who will be assigned to incident command system supervisory positions. This course provides more description and detail of the organization and operation of the incident command system including management of resources, description of duties of all positions, and the essential principles necessary for incident and event planning.

94 I-400 Advanced Incident Command System (1.25)

LECTURE, 1.25 HOURS.

This course provides the student with information on the principal responsibilities, guidelines, and the purpose of the command and general staff in the incident command system.

96 Emergency Medical Technician I (8) CSU

Limitation on Enrollment: Pursuant to Title 5, Section 58106B, (Health and Safety Considerations), as well as other state regulations, the student must present to the instructor a Basic Life Support for the Healthcare Provider card from the American Heart Association and an updated immunization record card prior to the beginning of the class or no later than the first examination.

LECTURE, 7.5 HOURS; LABORATORY, 1.5 HOURS.

This course provides the theory and techniques of emergency medical services to be performed by an Emergency Medical Technician (EMT). This course prepares the student for the National Registry Examination.

186 Fire Marshal Certification: Company Officer 2E – Wildland Fire Operations (2.25)

LECTURE, 2.25 HOURS.

This course provides information on evaluating and reporting incident conditions, analyzing incident needs,

developing and implementing a plan of action to deploy incident resources completing all operations to suppress a wildland fire, establishing an incident command post, creating an incident action plan, and completing incident records and reports.

187 Internal Investigations (1.5)

LECTURE, 27 HOURS; LABORATORY, 13 HOUR.

This course provides information on the legal requirements of an internal investigation for an employee within a municipal fire agency. Also provided is a detailed look at the policy and procedures that are a part of this internal investigation including disciplinary guidelines, preliminary investigations, and employee rights within a public agency. Included in this course are report writing forms and procedures for the documentation of these investigations.

188 Tactical Decision Making in Wildland Fires (1.5)

LECTURE, 1.5 HOURS.

This course provides knowledge and practice in decision-making that is necessary to effectively apply tactical decision-making in wildland fires. There is also information provided on how to analyze the potential for fires in different areas of the community where the urban setting meets the wildland areas.

189 Basic Leadership Skills For Fire Supervisors (1)

LECTURE, 1 HOUR.

This course provides a fire supervisor with basic leadership skills in order to handle a small-unit leadership position in a high-risk work environment.

190 Fireline Leadership (1.5)

LECTURE, 1.25 HOURS; LABORATORY, 0.25 HOUR.

This course provides leadership skills for fire unit supervisors. Topics include effective and cohesive team building, decision making in a unit command structure, stress as an operational risk, and building accountability within a fire agency.

191 Advanced Fire Engine Techniques (1)

LECTURE, 1 HOUR.

This course is designed to increase the skills of a fire engineer during emergency work. The student is required to use only the equipment found on a triple apparatus to perform extrication, forcible entry, above-ground hose lays, and interior firefighting.

201 Fire Protection Organization (3) CSU

LECTURE, 3 HOURS.

This course introduces fire technology: its career opportunities; philosophy and history of fire protection; fire loss analysis; fire protection functions and systems; basic fire chemistry and physics; and fire strategy and tactics. The course describes the organization of fire departments, their relation to local governments, and the laws regulating fire service.

202 Fire Prevention (3) CSU

LECTURE, 3 HOURS.

This course provides fundamental information regarding the history and philosophy of fire prevention and organization. This course includes information on the operation of a fire prevention bureau, fire codes, identification and

correction of fire hazards, relationship of fire prevention with fire safety education, and detection and suppression systems.

203 Fire Protection Equipment and Systems (3) CSU

LECTURE, 3 HOURS.

This course introduces the fundamentals of fire protection systems and equipment: Features of design and operation of fire detection and alarm systems, heat and smoke control systems, special protection and sprinkler systems, water supply for fire protection and portable fire extinguishers.

204 Building Construction for Fire Protection (3) CSU

LECTURE, 3 HOURS.

This course studies building construction from the point of view of fire protection, focusing on design, construction materials, and the safety concerns of lightweight building components.

205 Fire Behavior and Combustion (3) CSU

LECTURE, 3 HOURS.

This course provides the theory and fundamentals of how and why fires start, spread, and are controlled. Fire chemistry and physics, fire characteristics of materials, extinguishing agents, and fire control techniques are covered.

207 Wildland Fire Control (3) CSU

LECTURE, 3 HOURS.

This course provides information on the characteristics and behavior of wildland fires in the Southern California watershed system. It covers organization, staffing, equipment, initial attack, large fire management, and tactical situations.

209 Fire Tactics and Strategy (3) CSU

LECTURE, 3 HOURS.

This course introduces fire-fighting tactics and strategies including the art of using manpower, effective use of equipment and apparatus, and methods of how to attack, control, and extinguish structural, waterfront, oil, and other types of fires.

216 Fundamentals of Personal Fire Safety and Emergency Action (3) CSU

LECTURE, 3 HOURS.

This course introduces the basic concepts of occupational health and safety as it relates to emergency service organizations. Topics include risk evaluation and control procedures for fire stations, training sites, emergency vehicles, and emergency situations involving fire, emergency medical services, hazardous materials, and technical rescue. This course provides information on the establishment and management of a safety program in an emergency service organization.

217 Fire Apparatus (3) CSU

LECTURE, 3 HOURS.

This course focuses on the aspects of care, maintenance, and operation of fire apparatus and pumps. It also examines the principles of pumping, pumps and pump accessories, power development and transmission, and effective fire streams.

220 I-200 Incident Command System (1)

LECTURE, 1 HOUR.

This course provides the student with the primary management functions of the Incident Command System including unified command, span of control, transfer of command, and resource management.

221 In-Service Update - 27 Hour Class (0.5)

LABORATORY, 1.5 HOURS.

This course provides the student with updated information in the fields of fire apparatus, specialized emergency operations, current department policy and procedures, and fire suppression and investigation.

222 Fire Marshal Certification - Fire Instructor 2A (2.25)

LECTURE, 2.25 HOURS.

This course provides the student with information on how to develop testing procedures for fire-fighters that include the testing process, performance testing, and testing problems.

223 Fire Marshal Certification - Fire Instructor 2B (2.25)

LECTURE, 2.25 HOURS.

This course provides the student with information on how to instruct fire-fighters in a group environment including the format of discussion groups, group development and techniques, and group demonstrations.

224 Fire Marshal Certification - Fire Instructor 2C (2.25)

LECTURE, 2.25 HOURS.

This course provides the student with information on how to utilize media technology for fire-fighting instruction.

225 Fire Marshal Certification: Company Officer 2D All Risk Command Operations (2.25)

LECTURE, 2.25 HOURS.

This course is one of six leading to the Certified Company Officer designation by the California State Fire Marshal. This course provides information on conducting incident size-up, developing and implementing an initial plan of action involving single and multiunit operations for various types of emergency incidents to mitigate the situation following agency safety procedures, conducting preincident planning, and develop and conduct a post-incident analysis.

226 Emergency Medical Technician Training for First Responders - Refresher (1)

LECTURE, 0.5 HOUR; LABORATORY, 1 HOUR.

This course is a refresher course for the first responder of medical emergencies. This course is mandated by the State every two years for EMT certification for the first responder.

227 Paramedic Training - Refresher (1.0)

LECTURE, 1 HOUR; LABORATORY, 0.5 HOUR.

This course provides the student with information on all aspects of emergency medical care for paramedics that has been updated or changed due to recent medical technology or change in the emergency medical response field.

228 Fire Technology In-Service Update - 162 Hour Class (3)

LABORATORY, 9 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with updated information in the fields of fire apparatus, specialized emergency operations, current department policy and procedures, and fire suppression and investigation.

229 Fire Technology In-Service Update - 189 Hour Class (3.5)

LABORATORY, 10.5 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with updated information in the fields of fire apparatus, specialized emergency operations, current department policy and procedures, and fire suppression and investigation.

230 Fire Technology In-Service Update - 216 Hour Class (4)

LABORATORY, 12 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with updated information in the fields of fire apparatus, specialized emergency operations, current department policy and procedures, and fire suppression and investigation.

231 Fire Technology In-Service Update - 243 Hour Class (4.5)

LABORATORY, 13.5 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with updated information in the fields of fire apparatus, specialized emergency operations, current department policy and procedures, and fire suppression and investigation.

232 Fire Technology In-Service Update - 270 Hour Class (5)

LABORATORY, 15 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course provides the student with updated information in the fields of fire apparatus, specialized emergency operations, current department policy and procedures, and fire suppression and investigation.

233 Intermediate Fire Behavior (1)

LECTURE, 1 HOUR; LABORATORY 1 HOUR.

This course provides the student with information on wild-land fire behavior for effective and safe fire management operations.

234 Strike Team/Task Force Leader (1.75)

LECTURE, 1.75 HOURS.

This course provides the student with information on how to recognize, plan for, and implement the appropriate tactics for risk incident situations utilizing strike teams or task forces.

235 Division Group Supervisor (1)

LECTURE, 1 HOUR.

This course provides the student with information required to perform the tasks of a division or group supervisor.

236 Fire Safety Officer (1.75)

LECTURE, 1.75 HOURS.

This course provides the student with information on developing safety briefings, safety documentation, and informational memos on issues relating to incident hazards for all levels of fire fighters.

237 Fire Marshal Certification - Fire Apparatus Driver/Operator 1A (1.5)

LECTURE, 1.25 HOURS; LABORATORY, 1 HOUR.

This course provides the student with information on driver responsibilities, recognized standards, basic maintenance, and driver practices of fire emergency vehicles.

238 Fire Marshal Certification - Fire Apparatus Driver/Operator 1B (1.5)

LECTURE, 1.25 HOURS; LABORATORY, 1 HOUR.

This course provides the student with information concerning fire pump construction and theory, hydraulics, and pump practices for fire emergency vehicles.

239 Basic Emergency Vehicle Operations (0.5)

LECTURE, 0.5 HOURS; LABORATORY, 0.5 HOUR.

This course provides the student with information on vehicle laws, driving techniques for emergency vehicles, and actual driving exercises under simulated emergency conditions.

240 Fire Marshal Certification: Basic Pump Operations (0.5)

LECTURE, 0.5 HOUR; LABORATORY, 0.5 HOUR.

This course provides the student with information on the techniques of operating fire service pumps including types of pumps, gauges, unsafe condition of pumps, pressure relief devices, and water supply issues.

241 Automobile Extrication (0.5)

LECTURE, 0.5 HOUR; LABORATORY, 0.5 HOUR.

This course provides information on procedures and systems utilized during an automobile extrication.

242 Fire Control 2: Basic Operations (0.5)

LECTURE, 0.5 HOUR; LABORATORY, 0.5 HOUR.

This course provides information on methods and techniques for operating basic fire-fighting tools and carrying out basic fire-fighting evolutions.

243 Roof Ventilation (0.5)

LECTURE, 0.25 HOUR; LABORATORY, 0.75 HOURS.

This course provides the technical knowledge, terminology, and the practical application that is required to open vertical ventilation holes in several different types of roof fires.

244 Ethical Leadership for Fire Service Instructors (0.5)

LECTURE, 0.5 HOUR.

This course provides the policy and principles of ethical leadership in the classroom as mandated by the State Fire Marshal.

245 Ignition Operations (0.5)

LECTURE, 0.5 HOUR; LABORATORY, 0.5 HOUR.

This course introduces the roles and responsibilities of a Firing Boss (FIRB), common firing devices, and general firing operations and techniques.

246 Low Angle Rope Rescue (1.5)

LECTURE, 1.5 HOURS.

This course provides information on all types of rope rescue equipment; methods and techniques for maintenance, knotting, and use; rescue scene organization and management; and application of low angle rope rescue techniques, litter walkouts, and ladder systems.

247 Ocean Lifeguard Training Academy (1.5)

LECTURE, 1 HOUR; LABORATORY, 1.5 HOURS.

This course prepares the student for employment as an ocean lifeguard and includes training in CPR, first aid, rescue and swimming drills, and environmental hazard identification.

248 Lifeguard Recertification (0.25)

LECTURE, 0.25 HOUR; LABORATORY, 0.25 HOUR.

This course is a refresher course for certified lifeguards that includes CPR update, first aid and lifeguard operations review, and a successful mandatory swim.

249 Ambulance Operatory Academy (4.5)

LECTURE, 3 HOURS; LABORATORY, 5 HOURS.

This course provides the theory and techniques of emergency medical services to be performed by an Emergency Medical Technician while employed as an ambulance operator.

250 Fire Service Labor/Management Relations (1)

LECTURE, 1 HOUR.

This course provides participants with an overview of labor/management history, stakeholders, roles and responsibilities, and legislation and the tools to initiate and maintain positive labor/management partnerships.

251 Rescue Systems 1 (1.5)

LECTURE, 1.5 HOURS; LABORATORY, 1 HOUR..

This course provides team organization, rescue, and environmental considerations, use of ropes, knots rigging and pulley systems, descending, rappelling, and belaying tools and techniques, subsurface rescue techniques, use of cribbing, wedges, cutting/prying and hydraulic tools, use of fire service ladders in specialized rescue situations, and day and night simulated rescue exercises.

252 Rescue Systems 2 (1.25)

LECTURE, 1.25 HOURS; LABORATORY, 1 HOUR.

Provides advanced heavy rescue system techniques. Key topics include: Structural building types, wood and mechanical shores, crib capacities, floor weight calculations, building search, confined space considerations, damaged structure hazard assessment, use of power tools, air bags, and USAR ICS.

253 Rope Rescue Technician (1.5)

LECTURE, 1.25 HOURS; LABORATORY 1 HOUR.

This course prepares participants to undergo competency testing for high angle rescue. The scope of the course is to

familiarize participants with the high angle environment and experience; and for them to safely participate in the engineering and operation of simple to complex rescue systems.

254 Trench Rescue Technician (1.5)

LECTURE, 1.5 HOURS.

This course is an intensive hands-on training program that prepares you to respond to confined space emergencies. This course of instruction prepares the student in identifying confined spaces and permit-required confined spaces, the hazards associated with permit required confined spaces, target industries and hazards, state and federal regulations, components of a rescue operation, and the roles and responsibilities of the rescue team.

255 Fire Apparatus Tiller (2)

LECTURE, 2 HOURS.

This course provides information on operating a fire department aerial apparatus equipped with a tiller. Topics include practical driving exercises; and operating, positioning, and stabilizing the apparatus from both the tractor and tiller positions.

256 Fire Apparatus Aerial (2)

LECTURE, 2.25 HOURS.

This course provides information on aerial apparatus preventive maintenance and operations. Topics include routine tests, inspections, and servicing functions on the systems and components unique to an aerial apparatus; maneuvering, positioning, and stabilizing an aerial apparatus; maneuvering, positioning, and lowering the aerial device; and deploying and operating an elevated master stream.

257 All-Hazard Strike Team Leader/ Task for Leader (AH-330) (1.5)

LECTURE, 1.5 HOURS.

All-hazards complex incident management training for Type-I incident management teams (IMT).

258 Crew Boss (S-230) (1)

LECTURE, 1 HOUR.

This is a classroom course designed to produce student proficiency in the performance of duties associated with the single resource boss position from initial dispatch through demobilization to the home unit. Topics include operational leadership, preparation and mobilization, assignment preparation, risk management, entrapment avoidance, safety and tactics, offline duties, demobilization, and post incident responsibilities.

259 Field Observer (S-244) (1)

LECTURE, 1 HOUR.

This course provides students with the skills necessary to perform as a Field Observer (FOBS) and/or a Fire Effects Monitor (FEMO). Topics include roles and responsibilities of the FOBS and FEMO; how to make observations and document those observations; how to produce hand drawn and GPS field maps; and how to navigate using a compass and GPS.

260 Engine Boss (S-231) (1)

LECTURE, 1 HOUR.

This is a skill course designed to produce student proficiency in the performance of the duties associated with engine boss, single resource (ENGB). Topics include engine and crew capabilities and limitations, information sources, fire sizeup considerations, tactics, and wildland/urban interface.

261 Confined Space Rescue Technician (1.5)

LECTURE, 1.5 HOURS; LABORATORY, 1 HOUR.

This course is an intensive hands-on training program that prepares students to respond to confined space emergencies. This course prepares the student in identifying confined spaces and permit-required confined spaces, the hazards associated with permit-required confined spaces, target industries and hazards, state and federal regulations, components of a rescue operation, and the roles and responsibilities of the rescue team.

262 River & Flood Water Rescue (1.5)

LECTURE, 1.25 HOURS; LABORATORY, 1 HOUR.

This course provides preparation for participants to demonstrate competency in dynamic water rescue. It familiarizes participants with the dynamic water environment and experience in order to prepare them to safely execute simple to complex rescue techniques.

270 Basic Air Operations (S-270) (0.5)

LECTURE, 0.5 HOUR.

This course covers aircraft types and capabilities, aviation management and safety for flying in and working with agency aircraft, tactical and logistical uses of aircraft, and requirements for helicopter take-off and landing areas.

185 Directed Study – Fire Technology (1) CSU**285 Directed Study – Fire Technology** (2) CSU**385 Directed Study – Fire Technology** (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Fire Technology on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Allied Health Department

G5-211M (323) 265-6802

Healthcare is the second largest industry in the United States, employing over eight million workers. There are over 200 professions within the areas of Allied Health, and many of these professions can be entered directly with an A.S. degree or certificate. With an increased focus on the need for well-trained and effective healthcare personnel, the Allied Health Department offers state and nationally approved programs in the areas of Health Information Technology and Respiratory Therapy, as well as the gateway courses in the Health Occupations Program. The in-depth classroom instruction is blended with practical, hands-on learning to equip students with the necessary knowledge and skills to work in a wide variety of healthcare-related facilities and organizations. The faculty members are highly educated, with extensive professional experience needed to teach today's students; clinical students train with the most modern medical devices and technology in both actual and simulated healthcare environments, to learn the latest industry practices and procedures. All program graduates are eligible to take all local, state, or national credentialing and/or licensure examinations.

Students pursuing careers in Health Information Technology (HIT) learn the essential skills and technologies of healthcare information management, including finance, law, medical billing and coding, that permit healthcare facilities to run smoothly, while the Associate Degree Respiratory Therapy Program (RT) prepares students to meet both the Advanced Practice standards of the National Board for Respiratory Care (NBRC) and the Respiratory Care Board of California's (RCB) increased licensure requirements. The Health Occupations Program provides individuals interested in working in healthcare the opportunity to enhance their knowledge, skills, and competencies to meet the demands and the commitment required for a career in a healthcare profession. The core courses provide in-depth information into health occupations careers and trends, the occupational and educational opportunities, and the educational, physical, emotional, and attitudinal requirements.

Faculty

*Thurston, Monica, Chair, Professor, Director,
Health Information Technology*

Avila, Raul, Professor, Respiratory Therapy

*Booth, Kevin, Professor, Program
Director, Respiratory Therapy*

*Chhun, Bunnarith, Associate Professor,
Respiratory Therapy*

SKILLS CERTIFICATE

Health Occupations Program

One of the fastest growing career areas of employment today is in the medical or healthcare industry. Employment in the healthcare industry is in demand with ten of the top 20 fastest growing occupations in the United States as health-related according to the Bureau of Labor Statistics. Healthcare professionals enjoy great earning potential, amazing opportunities for rapid advancement, and flexibility in hours, location, and job types.

The Health Occupations Program offer four courses that allow students to learn new skills that lead to a Health/Service Careers Foundational Skills Certificate (7.5 units) and/or Gerontology/Health Certificate of Achievement (16.5 units), in collaboration with the Family, Child, and Consumer Studies Department. Students who complete these courses may exit for employment into an entry-level position in the healthcare industry, continue to earn an Associate Degrees offered within the Allied Health Department, or transfer credits to four year colleges and universities.

In addition to providing education and training for those entering a new field of employment, the Health Occupations Program offers an avenue for professional development and the refinement of skills for those currently employed in healthcare.

Health/Service Careers Foundational

This certificate prepares students with entry-level skills and competencies needed for employment opportunities within the healthcare and social service industry. This core courses provide in-depth information into health occupations careers and trends, the occupational and educational opportunities, and the educational, physical, emotional, and attitudinal requirements. Topics focus on competencies required of healthcare and social service providers, such as HIPAA, Professionalism/Ethics, Diversity/Cultural Awareness, Teamwork, Collaboration, Conflict Resolution, Customer Service, Safe Practice/Infection Control, Medical Terminology, and First Aid. Completion of this skills certificate provides the first step in making an informed decision regarding the selection of additional programs of study leading to healthcare and service careers.

SUBJECT & NO.	COURSE	UNITS
HLTHOCC 62	Skill Set for the Healthcare Professional....	2
HLTHOCC 63	Basic Medical Terminology, Pathophysiology and Pharmacology for the Healthcare Professional.....	2
HLTHOCC 64	Cultural and Legal Topics for Healthcare Professionals.....	1
HLTHOCC 65	Fundamentals for the Healthcare Professional.....	2.5
Total.....		7.5

CERTIFICATES OF ACHIEVEMENT

Satisfactory completion of all courses with a “C” or better is required for all Certificates of Achievement.

Gerontology/Health

This certificate is an interdisciplinary program designed to prepare students to pursue entry level employment serving the aging population and provide the fundamentals needed to work in the healthcare industry. This program is designed to prepare students for employment in the field of gerontology to support the needs, interests, abilities, and issues of the aging population in California. In addition to the four HLTHOCC Core courses students may take three additional courses Family & Consumer Studies (FCS) to receive this stackable Certificate of Achievement.

SUBJECT & NO.	COURSE	UNITS
HLTHOCC 62	Skill Set for the Healthcare Professional....	2
HLTHOCC 63	Basic Medical Terminology, Pathophysiology and Pharmacology for the Healthcare Professional.....	2
HLTHOCC 64	Cultural and Legal Topics for Healthcare Professionals.....	1

Health Information Coding and Statistics Clerk

This program is designed to prepare students to work in a statistical clerical unit or independently in the collection, compilation, verification, and presentation of statistical data where a highly-specialized knowledge of patient data using the international classification of diseases and procedural codes is required. Students learn to compile and compute data according to statistical formulas for use in statistical studies and perform actuarial computations and compile charts and graphs for use by actuaries.

*This course has a prerequisite.

Interventional Radiology Coding

The Interventional Radiology Coding certificate prepares individuals seeking to work as coders for a radiology department or other healthcare setting where procedures are performed on the gastrointestinal, genitourinary, biliary, cardiovascular, and other body systems. Upon completion of the Coding Specialist courses, students complete one additional course to learn how to abstract and analyze radiologic documentation to become proficient in radiologic procedural coding specifically related to non-vascular interventional radiology.

Respiratory Therapy

A Certificate of Achievement for Respiratory Therapy may be applied for upon attaining the Respiratory Therapy Associate of Science Degree.

This certificate program provides students with the strong academic foundation and clinical proficiency necessary to utilize modern respiratory devices (under the direction of a physician) in the complete treatment of cardiopulmonary diseases and other life-threatening conditions.

SUBJECT & NO.	COURSE	UNITS
RESP TH 2*	Fundamentals of Respiratory Therapy.....	4

Total.....		53

Note: Comm 101 or 121 must be completed before the start of second year (Clinical).

*This course has a prerequisite.

ASSOCIATE DEGREE PROGRAMS

SATISFACTORY COMPLETION OF ALL COURSES WITH A "C" OR BETTER IS REQUIRED FOR ALL ASSOCIATE DEGREE PROGRAMS.

Health Information Technology, Associate in Science Degree

The Commission on Accreditation for Health Informatics and Information Management (CAHIIM) education accredit the Health Information Technology Program at East Los Angeles College. The program provides instruction and Professional Practice Education (PPE) to assist students in developing the technical skills necessary to maintain components of Health Information Systems consistent with the medical, ethical, legal, and administrative requirements of all accreditation and regulatory agencies.

Upon completion of the Health Information Technology Program, one receives an Associate in Science degree and eligibility to write the Certification Examination given by the American Health Information Management Association.

Those who pass the Certification Examination are known as Registered Health Information Technicians (RHIT). This program may be completed entirely as a day student, an evening student, on a part-time basis, or full-time.

Traditionally, Registered Health Information Technicians have primarily been employed in the health information management departments (formerly medical record departments) of hospitals. With the rapid expansion of healthcare needs, opportunities for employment are increasing in managed care, ambulatory healthcare facilities and a number of other areas. Registered Health Information Technicians work with all types of health information systems, computerized data and information, including electronic medical records. RHITs are found in any organization that uses patient data.

Note: It is recommended students to complete CAOT 82, MATH 125 or higher, or 125S or higher, or 134 or higher and PHYSIOLOGY 6 before enrolling in HTHTEK courses.

Note: 3 units from PHYSIOL 6 may be double counted in GE area A.

*This course has a prerequisite or corequisite.

**This course has an advisory.

HEALTH INFORMATION TECHNOLOGY ADVISEMENT: Once a student is formally admitted to the college, they should schedule an appointment to meet with the Program Director or Designee to establish their written Plan of Study.

GENERAL EDUCATION ACADEMIC ADVISEMENT: Students must meet with a regular ELAC academic advisor to review their preparation for meeting ELAC's Associate Degree General Education requirements.

TRANSFER STUDENTS: If any of prerequisite courses or core courses have been taken elsewhere, transcripts should be sent to both the ELAC office of Admissions and the Health Information Technology Program office located within the Allied Health Department. Students should initiate a General Petition in the Admissions Office requesting that credit be granted for those courses which the student feels

they are eligible. Supporting documentation should be attached to the General Petition to support the student's request.

BACKGROUND CHECK: Background checks must be done and successfully completed by all students before being placed on a directed practicum site. If the background check is unsuccessful, the student will not be admitted to a clinical site. The student will be assigned to a non-clinical site. A Drug screening will also be required for entry into the clinical training.

HEALTH: The student must be free from any conditions that would present a health threat to the well-being of the consumer (Title 22, College Regulations, Division 5, Section (a). A complete physical examinations, including laboratory test with select immunizations, will be required before starting the directed program.

Medical Assistant, Associate in Science Degree

A medical assistant interacts with doctors, nurses, technicians and patients. These professionals require specific technical knowledge and skills needed in the evolving healthcare field in clinics, hospitals, and physician offices, especially as new technology is introduced. Course content includes anatomy and physiology, medical coding, medical terminology, clinical procedures, medical office safety, patient intake, medical law and ethics, pharmacology, phlebotomy, laboratory and other therapeutic medical assisting procedures. Students acquire information on the various types of exams used in different healthcare environments and where medical assistants are assimilated into the process. In addition to the required didactic and laboratory instruction classes, general education courses are taken to help strengthen writing and mathematics skills. An internship with local medical facilities will provide students with the opportunity to gain hands-on experience reinforcing classroom content into real world applications.

Pharmacy Technology, Associate in Science Degree

The Pharmacy Technology Program courses prepares individuals with the necessary skills to work as a pharmacy technician in pharmacies, including those found in drug, general merchandise, and grocery stores, and in hospitals. Most work full time, but many work part time. This program will cover a variety of subjects, such as arithmetic used in pharmacies, recordkeeping, ways of dispensing medications, and pharmacy law and ethics. Technicians also learn the names, uses, and doses of medications. Most programs also include clinical experience opportunities, in which students gain hands-on experience in a pharmacy.

Respiratory Therapy, Associate in Science Degree

This program provides students with the strong academic foundation and clinical proficiency necessary to utilize modern respiratory devices (under the direction of a physician) in the complete treatment of cardiopulmonary diseases and other life-threatening conditions.

The ELAC/SMC RT Program is nationally accredited through the Committee on Accreditation for Respiratory Care (CoARC); the Registry (RRT) licensure examinations are administered through the National Board for Respiratory Care, and the Respiratory Care Board of California (RCB), a division of the California Department of Consumer Affairs, issues and regulates all licensed respiratory care practitioners in the state. To enroll into the RT Program, students must first submit an application to the Program that demonstrates the satisfactory completion of all admission prerequisite requirements as described below.

PROGRAM ADMISSION PREREQUISITES: The following courses, demonstrating satisfactory completion with a grade of "C" or better, are required to apply for admission to the Program.

1. Human Anatomy (Anatomy 1) = 4 semester units or Biology 20 (a combined course of Anatomy/Physiology,** = 8 semester units)
2. Human Physiology (Physiology 1) = 4 semester units** or Biology 20 (a combined course of Anatomy/Physiology,** = 8 semester units)
3. Introductory General Chemistry (Chemistry 51 or 65) = 4 - 5 semester units
4. Intermediate Algebra or its Equivalent (Math 125 or 125S, or 134) = 5-6 semester units
5. English 101 (Freshman Composition) = 3 semester units
6. Microbiology 1 or 20 (General Microbiology) = 4 - 5 semester units**

***Course Recency Requirement: Students must have received a grade of "C" or better in Physiology 1 and

Microbiology 20 or their equivalent within seven (7) years prior to the date of their program application.

Communication Studies 101, 121 or 151 is NOT a program admission prerequisite, but is a major requirement, and may be taken at any time prior to the start of the clinical phase of the program, but MUST be completed before clinical placement can be made.

GENERAL EDUCATION ACADEMIC ADVISEMENT: Students must periodically meet with an academic counselor on their 'home' campus of origin to review their progress towards either the ELAC or SMC Associate Degree General Education (GE) requirements. Please note that there may be different GE requirements for each college. Students may NOT enter the clinical phase of the Program without having completed all non-RT degree requirements; at ELAC, RT students are exempt from taking the Health GE requirement.

TRANSFER STUDENTS: For ELAC applicants, if any portion of the prerequisite courses have been taken outside of the nine campus LACCD system, one set of official transcripts from each outside institution must be sent directly from the originating college or university to the ELAC Admissions

office AND a second set attached to the application for admission when submitted to the Respiratory Therapy Program. For the college to accept this outside course work in satisfaction of any program or degree requirement, the student must make an appointment with an academic counselor to review all courses being requested for acceptance in lieu of being taken at ELAC; all documentation must be presented at the time of the appointment. SMC applicants should check with the college counseling or Allied Health departments as to the process for accepting transfer credit.

APPLICATION SUBMISSION: Each fall semester, a cohort group of fifty (50) applicants is selected to begin the two-year sequence of coursework in the RT Program. No student may enroll directly into the RT Program; students must first submit an application, with official transcripts to verify the completion of the required prerequisite coursework. In order for a student to be considered for possible admission, a complete application must be received by the RT Program. Please Note: Do NOT submit applications or transcripts to the College Admissions Office. The annual application period will run annually from the start of the fall semester until the end of the following spring semester. No late applications will be considered.

IN-PROGRESS APPLICANTS: Students who are in the process of completing the last of the prerequisite requirements may submit an application to the program, provided they demonstrate proof of enrollment in all outstanding classes at the time of submission. Any applicant who does not satisfactorily complete any remaining prerequisite class (es) will not be considered for admission.

PRIORITY APPLICANT STATUS: The RT Program extends priority admission status to active duty military members, veterans and their (current) spouses provided they meet all other existing admission requirements. Priority enrollment status is also granted to any alternate from a prior cohort year who was not permitted to enroll into that cohort. Priority applicants are not subject to the applicant lottery process.

SELECTION PROCESS: If the applicant pool exceeds the CoARC-mandated cohort size, all non-priority applicant names will be placed into a lottery pool. A blind draw will be utilized to randomly select the applicant names which will be placed on a list according to their lottery number. The Respiratory Therapy Department will inform applicants of the results and their individual status by e-mail approximately two (2) weeks after the application deadline.

ALTERNATE LIST: An additional number of names, not to exceed more than ten (10%) percent of the total cohort capacity, will be selected from any remaining names in the applicant pool for a position on the cohort alternate list. A blind draw will also be utilized to randomly select from the applicant pool names which will be placed on the list of alternates according to their lottery number. Should an admitted applicant be unable to or declines to enroll in the cohort, the first name on the alternate pool list will be given the opportunity to enroll. The process will continue as needed, until all names on the alternate list have been exhausted. If a vacancy in the cohort still remains, a second alternate list will be drawn from any remaining names in the applicant pool and the cohort selection process

Allied Health Department

repeated until the cohort is full. Any alternate who is not selected for admission to the Program will be given priority registration in the next available cohort.

Program-applicable courses to be completed before admission to the Program

LACCD GENERAL EDUCATION PLAN * 19

*Students in this program are exempt from the 2 unit EI Health Education requirement.

Total 87-89

Note: 9 units of program prerequisite courses may be double counted in GE area A, D1, D2.

*This course has a prerequisite or corequisite.

**This course has an advisory.

RESPIRATORY THERAPY ADVISEMENT: Once the student is formally admitted to the program, they will be assigned a member of the FT RT faculty, who will act as their program 'advisor'. This advisor will work with the student to establish their written "Respiratory Therapy Education Plan". Once created, the education plan will detail the (exact) sequence of courses which must be followed for the student to successfully complete the program. The student may not modify this education plan WITHOUT the prior, written consent of their RT advisor. Failure to adhere to this policy may result in the student being placed on Program probation and at risk for program dismissal.

SATISFACTORY ACADEMIC PROGRESS: Satisfactory completion (as demonstrated by a grade of "C" or better) is required in all prerequisite and Respiratory Therapy courses, including COMM 121 or 151. Per LACCD policy, Students must have an overall GPA of 2.0 in all general education work completed, except for the Math and English competency.

Any student who modifies their education plan by withdrawing from any RT class while earning a grade of less than a "C" AND without formal Respiratory Therapy advisor approval, will also be prohibited from further program progression until they have met with their assigned advisor AND the Program Director.

ADDITIONAL PROGRAM REQUIREMENTS: The following are additional criteria for entry into the "Clinical Phase" of the program:

SUPPLIES, HEALTH AND MISCELLANEOUS REQUIREMENTS: In addition to the above background check and health clearance required for entry into the clinical phase, all students will be required to purchase an equipment kit, lab coats (optional), scrubs, shoes, a stethoscope, watch, and other materials for their classroom and clinical training.

BACKGROUND CHECK: A background check and MINIMUM ten-panel drug screen is required by all students PRIOR to placement into a clinical facility. A student background

check and/or drug screening that returns with a “Not Clear” status may inhibit or jeopardize the student’s placement into a clinical facility.

HEALTH SCREENING: A complete physical examination, including laboratory tests and immunizations, that states that the student is free from any condition that would present a health threat to the well-being of the consumer [Title 22, College Regulations, Division 5, Section (a)], must be successfully completed before the student will be permitted into the clinical phase of the program. Students with a chronic medical condition must present documentation at the time of clinical placement from the physician primarily responsible for the treatment of that condition that states that the student is capable of functioning in a hospital environment.

MALPRACTICE INSURANCE: Malpractice insurance is required for the clinical component of the RT program and must be purchased by the student PRIOR to the start of the clinical phase of the program.

SPECIAL NOTE: Please be advised that the fees associated with the required health clearances, drug screening, uniforms, equipment, parking and other related costs and/or materials are the sole responsibility of the student.

Special Notes Applied to all RT Curricula:

1. Respiratory Therapy courses are scheduled sequentially every semester and must be completed successfully before the student may progress into the next semester.
2. Students who wish to transfer from another RT program or any other clinical health occupation training program must first be evaluated by the RT Program Director for suitability of transfer credit. The student must submit a general petition form to the Admissions office with the syllabi and college catalog course descriptions of all courses they wish to have considered for transfer. Additionally, transfer candidates with clinical experience in any health care discipline must submit a letter from their former respiratory therapy program director which states that the applicant is deemed “clinically safe”.
3. Students who take a break in enrollment for any reason for greater than one (1) academic year while formally admitted to the program will be subject to all / any new prerequisites, corequisites, Program and / or College policies in effect when they return.
4. Since January 1, 2015, the California Respiratory Care Board (RCB) has required all new applicants to successfully complete both parts (TMC and CSE) of the National Board for Respiratory Care (NBRC) Registered Respiratory Therapist (RRT) Examination PRIOR to a license being issued.

Non-Traditional Respiratory Therapy, Associate in Science Degree

This program is designed for the experienced licensed therapist, who may not be registry eligible or have transfer credit in Respiratory Therapy. Graduates of this program are eligible to sit for the advanced Practitioner Examination (RRT), Neonatal-Pediatric Respiratory Care Specialty Examination (NPS), the Adult Critical Care Examination

(ACCS) and the Certified and Registered Pulmonary Function Technologist (CPFT and RPFT) examinations administered by the National Board for Respiratory Care (NBRC).

PROGRAM PREREQUISITES

The student must satisfy the following requirements:

1. Be a certified Respiratory Therapist having earned a minimum of an associate degree from an entry-level respiratory therapist educational program supported by the Committee on Accreditation for Respiratory Care (CoARC), or its predecessor the Joint Review Committee for Respiratory Therapy Education (JRCRTE), or accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP)
2. Satisfy all of the same college-level prerequisites described for an applicant to the regular respiratory therapist program. In addition, they must also complete the same Microbiology 20 and Physiology 1 courses.
3. Satisfy the current General Education course requirements for an Associate Degree from East Los Angeles College; including General Education areas B1, C, D1 and E2. Students are exempt from taking the Health requirement.
4. Completion of an application for the Respiratory Therapy program, including official transcripts and course descriptions for those courses the student wishes to transfer to ELAC. Applications can be obtained from the Respiratory Therapy program office (323) 265-8813.

REQUIRED RESPIRATORY THERAPY COURSEWORK: This is evaluated on a course by course basis, depending upon the students previous documented Respiratory Therapy courses. Described below is the typical course work required for this special program:

SUBJECT & NO.	COURSE	UNITS
REQUIRED PROGRAM PREREQUISITES:		
		27-30
ANATOMY 1**	Introduction to Human Anatomy.....	4
PHYSIOL 1*	Introduction to Human Physiology.....	4
OR		
BIOLOGY 20*	Human Anatomy and Physiology.....	8

RESP TH 29*	Neonatal and Pediatric Respiratory Therapy	4

LACCD GENERAL EDUCATION PLAN * 19

Students in this program are exempt from the 2 unit EI Health Education requirement.

Total 63-66

Note: 9 units of program prerequisite courses can be double counted in GE area A, D1 and D2.

*This course has a prerequisite or corequisite.

**This course has an advisory.

Coursework must have been completed at an United States a regionally accredited institution in the United States. In addition to above classroom work, the advanced standing student is required to enroll in "Independent Study" courses to permit the assignment of clinical practice. The clinical practice requirement will vary, according to the student's documented past clinical experience. The minimum requirements will be for the student to perform critical care practice at one of our clinical affiliates and then pass the same "clinical evaluation" process in critical care required of the students pursuing the regular program track. The advanced standing student will also be required to do a "Neonatal ICU" clinical rotation. Additionally, students must supply written proof from the Medical Director of their current employer that they are safe for clinical practice. Program admission is Subject to space availability in the program's clinical affiliates.

TRANSFER STUDENTS: If any or all of the prerequisite courses or their equivalents have been taken elsewhere, transcripts should be sent to both the ELAC Admissions Office and the Respiratory Therapy Program office located within the Life Sciences Department. Students should initiate a "General Petition" in the Admissions Office requesting that credit be granted for those courses. Supporting documentation should be attached to the General Petition to support the student's request.

Course Recency Requirement. Students must have received a grade of "C" or better in Microbiology 20 and Physiology 1 (or their equivalents) within seven (7) years prior to admission to the Non-Traditional Respiratory Therapy program.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Allied Health (ALD HTH)

56 Communication & Customer Service in Healthcare (1)

Corequisites: Pharmacy Technician 21 and Pharmacy Technician 23.

LECTURE, 1 HOUR.

This course introduces students to the workplace skills necessary to succeed in healthcare professions. The focus is on professional behavior, communication techniques, and HIPAA regulations.

57 Computers in Health Occupations (1)

LECTURE, 0.5 HOUR; LABORATORY, 1 HOUR.

This course will introduce students to the use of computers in a variety of health care settings. Students use software systems used in pharmacies, medical offices, and hospitals.

Health Information Technology (HTHTEK)

100 Introduction to Health Information Technology (3) CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This is an introduction to the Health Information Management (HIM) profession and the record keeping practices in alternative healthcare delivery systems. Emphasis is placed on the development, maintenance, and content of patient health records, including format and documentation requirements, filing and number system, medical staff organization, regulatory and accrediting agencies.

103 Introduction to Basic Coding (3)

Prerequisites: Health Information Technology 100, 133, 134 and Physiology 6.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course introduces the use of the International Classification of Diseases Clinical Modification (CM) codes for diagnoses and Procedural Coding System (PCS) to code procedures. Students learn to analyze clinical disease processes, use diagnosis and procedural terminology, sequence and assign codes correctly using current coding manuals and computerized encoder.

106 Hospital Ethics and Law (2)

Prerequisite: Health Information Technology 100.

LECTURE, 2 HOURS.

This course introduces students to the concepts of confidentiality, ethics, healthcare legislation at various levels, and regulations relating to maintenance, release and use of health information. Topics covering medico-legal issues and court systems, liability, Health Information Portability and Accountability Act (HIPAA), and guidelines relevant to electronic health records are discussed.

108 Introduction to Pharmacology (1)

Corequisite: Health Information Technology 134.

LECTURE, 1 HOUR.

This course is an introduction to basic pharmacology for healthcare professionals and how drugs relate to body systems, disease, and conditions. Topics covered include the history of drug laws, routes of drug administration, drug

usage, drug interactions, and drug categories. Other topics include contraindications, precautions, side effects, use of drug references, and other terminology related to the study of drugs.

110 Ambulatory Care Coding (3)

Prerequisites: Health Information Technology 134 and Physiology 6.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course introduces the practice and principles of classification systems utilized in alternate health care facilities. Classification systems studied include Diagnostic and Statistical Manual of Mental Disorders (DSM), Systematized Nomenclature of Medicine (SNOMED), Ambulatory Payment Classification (APC), Healthcare Common Procedural Coding System (HCPCS Level II) used for reimbursement of outpatient services rendered.

133 Medical Terminology (3)

LECTURE, 3 HOURS.

This course emphasizes etymology of disease terms, nomenclature of word roots, prefixes, and suffixes related to body systems. Surgical procedures, laboratory tests, abbreviations and other terms related to the human body are discussed.

134 Introduction to Pathology (3)

Prerequisites: Computer Applications and Office Technologies 82, Health Information Technology 133, and Physiology 6.

Corequisite: Health Information Technology 108.

LECTURE, 3 HOURS.

This course focuses on disease processes affecting human body systems including major signs and symptoms. Emphasis is placed on pathogenic causes and effects on normal physiologic functions in relation to degenerative, genetic, and pathogenic causes. Other topics covered include treatment modalities, pharmacology, and various clinical, laboratory, and diagnostic assessments.

202 Directed Practice for Coding Specialists (1)

Prerequisites: Health Information Technology 103, 106, 110, and 215.

LABORATORY, 4 HOURS.

This coding lab is designed to prepare students for the Certified Coding Specialist (CCS) certification exam. The CCS exam preparation includes completing coding practice on a variety of electronic patient records such as inpatient, ambulatory surgical, outpatient, physician office and emergency patient records using an Electronic Health Record (EHR) virtual lab simulation system. In addition, online testing questions that focus on American Health Information Management Association (AHIMA) competencies are mapped to cover the other CCS examination content.

207 Introduction to Health Statistics (3)

Prerequisites: Health Information Technology 100 and Mathematics 125 or 125S or 134.

LECTURE, 3 HOURS.

This course is an introduction to basic concepts of health statistics using both manual and computer compilations. A review of vital statistics include preparation of data from

births, deaths, autopsies, postoperative surgeries, daily census, discharges and bed occupancy. An overview of research methodology and terminology is included.

215 Advanced Inpatient Coding and Abstracting (3) CSU

Prerequisites: Health Information Technology 103 and Physiology 6.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This lecture and lab-based course includes intermediate and advanced study of the more complex areas of coding using International Classification of Diseases and Procedure codes, Current Procedural Terminology codes, and Diagnostic Related Group coding introduced in previous coding courses. Using case studies, students apply abstracting skills and coding principles and guidelines related to complex diagnoses and procedures. Coding references and coding software are utilized in this course.

216 Interventional Radiology Coding (3)

Prerequisites: Health Information Technology 202.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This Interventional Radiology Coding course prepares individuals seeking to work as coders for a radiology department or other healthcare setting where procedures are performed on the gastrointestinal, genitourinary, biliary, cardiovascular, and other body systems. Students completing this course learn how to abstract and analyze radiologic documentation to become proficient in radiologic procedural coding specifically related to non-vascular interventional radiology.

221 Quality Management and Leadership (3)

Prerequisite: Health Information Technology 106.

Corequisite: Health Information Technology 222.

LECTURE, 3 HOURS.

This course covers concepts on effective communication, supervision and employment relations, development of policies and procedures, job descriptions, organizational and leadership skills, quality control and planning in a Health Information Management department.

222 Health Information Services Organization and Management (3)

Prerequisite: Health Information Technology 106.

Corequisite: Health Information Technology 221.

LECTURE, 3 HOURS.

This course covers organizational management concepts as applied to supervision of health information services. Topics include roles functions of teams/committees, leadership, communication and interpersonal skills, designing and implementing orientation/training programs, monitoring workflow, performance standards, revenue cycles, and organizational resources.

230 Electronic Health Records in the Health (3)

Prerequisites: Health Information Technology 106 and CAOT 82.

LECTURE, 3 HOURS.

This course is designed to provide health information students with the basic knowledge and skills necessary to use electronic health record (EHR) systems in the healthcare

setting. The importance of national, regional, and state initiatives will be discussed in addition to practical experience using software.

241 Directed Practice in Health Information Procedures II (4)

Prerequisites: Health Information Technology 207, 215, 221, 222, 230.

LABORATORY, 8 HOURS.

This course is a supervised professional practical experience (PPE) in the health information management department of a hospital designed to enable students to obtain actual work experience in theoretical and application-based procedures previously studied. Students complete non-paid work experience for 144 hours, which can be scheduled on a full-time or part-time basis. This course is also designed to help students prepare for the American Health Information Management Registered Health Information Technician certification examination. This course gives the students practice interpreting documentation and applying their knowledge by answering questions regarding the theory that was taught throughout the program.

242 Cancer Registry Management I (3)

Prerequisite: English 101.

Corequisite: Health Information Technology 243.

LECTURE, 3 HOURS.

This course introduces the daily operations of a Cancer Registry Department including staffing, office planning, case finding, tumor board presentations, abstracting and quality control, monitoring outcomes, and the accreditation process and standards. Cancer informatics topics including data confidentiality, data editing, and computer resources are discussed.

243 Cancer Disease Management (3)

Prerequisites: Health Information Technology 133 and Physiology 6.

Corequisite: Health Information Technology 242.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course provides an overview of the disease process of cancer and an introduction to the basic concepts of cancer identification, staging of disease at diagnoses, and review of the first course treatment data items required on an abstract are discussed. Rules and guidelines for oncology coding and various staging systems, including the Clinical Trial process are introduced.

244 Oncology Coding and Staging System (3)

Prerequisite: Health Information Technology 243.

Corequisite: Health Information Technology 245.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS..

This course introduces rules used to determine the number of primary and site specific elements using guidelines for oncology coding including Multiple Primary & Histology, International Classification of Diseases for Oncology (ICD-O), and various staging systems such as American Joint Commission of Cancer Staging and Summary Staging.

245 Abstracting Principles and Practice I (3)

Prerequisite: Health Information Technology 243.

Corequisite: Health Information Technology 244.

LECTURE, 3 HOURS.

This course introduces practical knowledge for abstracting and reporting skills required for malignancies in compliance with cancer registry regulatory codes and requirements. Medical data using pathology department slide review results, tumor board presentations, and consultation cases will be examined. An overview of data collection and requirements from Cancer Registry operations including case finding, registry files, policies and procedures of governmental agencies, and monitoring of outcome follow-ups are discussed.

246 Abstracting Principles and Practice II (3)

Prerequisite: Health Information Technology 245.

Corequisite: Health Information Technology 247.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course introduces abstract reporting skills in compliance with cancer registry regulatory codes and requirements for diagnosed oncology cases. Practical knowledge of abstracting enables students to apply oncology coding, staging systems and abstracting principles for various cancer sites. Abstracting practice focuses on major organ sites in specific body systems (skin, circulatory, nervous, respiratory, digestive, genitourinary, and respiratory) in United States.

247 Cancer Registry Management II (2)

Prerequisite: Health Information Technology 242

Corequisite: Health Information Technology 246.

LECTURE, 2 HOURS.

This course introduces the professional organizations, cancer registries, federal and other types of registries in other countries. Data utilization and reporting, such as survival analysis, clinical practice guidelines, central cancer registry data use, standard setters, and geographic information systems are discussed.

248 Cancer Statistics & Epidemiology (3)

Prerequisite: Health Information Technology 247.

LECTURE, 3 HOURS.

This course introduces data analysis and how it applies to the cancer registry. Students learn how to use statistical and epidemiologic methodology, data presentation, performance improvement and data quality management used in an accredited program. The importance of monitoring an accredited quality program to provide high-quality, multidisciplinary, and patient-centered cancer care are discussed.

249 Cancer Information Management Practicum (4)

Prerequisite: Health Information Technology 248.

LECTURE, 1 HOUR; LABORATORY, 9 HOURS.

This course is designed to provide hands-on experience in all aspects of registry organization and operation. The 162 practicum hours are divided into online course assignments, virtual lab simulations, and an on-site facility training experience in a supervised clinical registry setting. Upon completion of this class, students are expected to fulfill the requirement for the Certified Tumor Registrar (CTR) examination.

Health Occupations (HLTHOCC)

40 Introduction to Medical Assisting (3)

LECTURE, 3 HOURS.

This course introduces the students to the history of health care and the role of a medical assistant. It also focuses on professionalism, communication skills, ethics, and legal issues in both front and back office.

51 Medical Office Microcomputer Management Applications (1)

LECTURE, 0.5 HOUR; LABORATORY, 1.5 HOURS.

This course prepares medical assistants students to learn the essential microcomputer management applications of a medical office. Students learn how to create spreadsheets, understand accounts receivable, enter insurance information, patient demographics, and schedule appointments.

52 Medical Office Procedures I (4)

LECTURE, 3 HOURS; LABORATORY, 2 HOURS.

This course prepares students for the role of a Medical Assistant. This course covers the procedures for office operations, communication, professionalism, legal/ethical issues, and basic medical office procedures.

53 Medical Office Procedures II (4)

LECTURE, 3 HOURS; LABORATORY, 2 HOURS.

In this course, the medical assisting students learn diagnostic coding, procedural coding, patient billing and collections, banking and finance, and medical office equipment.

54 Human Disease for Health Occupations (4)

LECTURE, 4 HOURS.

In this course, students learn anatomy and physiology of body systems and pathophysiology of the diseases and disorders of the body.

55 Clinical Assisting Techniques I (4)

LECTURE, 2.5 HOURS; LABORATORY, 4.5 HOURS.

In this first clinical course, the student learns how to work as a medical assistant in a variety of healthcare settings. This course covers information a medical assistant will need to know how to assist a physician with an examination, medical specialty, reproductive specialty, ear, eyes, nose and throat, minor surgery, pediatrics, medical emergencies, infection control, vital signs, clinical laboratory, and microbiology.

56 Clinical Assisting Techniques II (4)

LECTURE, 2.5 HOURS; LABORATORY, 4.5 HOURS.

In this second course, the student also learns how to work as a medical assistant in a variety of healthcare settings. This course covers how to collect and process labs, perform EKG, administer medications, and provide patient education.

59 Practicum for the Medical Assistant (2)

LECTURE, 0.5 HOUR; LABORATORY, 4.5 HOURS.

This course allows the student to apply knowledge, perform administrative skills and develop professional attitudes while interacting with other professionals and consumers in a health care setting. Students work under the

supervision of a medical assistant preceptor and are expected to complete 81 contact hours at the assigned placement and participate in weekly meetings with faculty supervisor. At the completion of this course, the student is eligible to sit for the National Certification Medical Office Assistant (NCMOA) certification exam offered by the National Commission for Certifying Agencies (NCCA).

60 Medical Assistant Clinical Internship (3)

LECTURE, 0.5 HOUR; LABORATORY, 7.5 HOURS.

This course allows the student to apply knowledge, perform clinical procedures and develop professional attitudes while interacting with other professionals and consumers in a health care setting. Students work under the supervision of a medical assistant preceptor and are expected to complete 135 contact hours at the assigned placement and participate in weekly meetings with faculty supervisor. At the completion of this course, the student is eligible to sit for the National Certification Medical Assistant (NCMA) certification exam offered by the National Commission for Certifying Agencies (NCCA).

61 Medical Insurance (3)

LECTURE, 3 HOURS.

In this course, students learn the different types of health insurance and billing procedures including procedure codes, international classification of diseases and clinical modifications.

62 Skill Set for the Health Care Professional (2) CSU

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This course is an introduction of the concepts and skills that serve as a foundation for the health care professions. Topics include hygiene and safety, infection control, basic client monitoring and basic first aid, therapeutic communication, and basic health documentation.

63 Basic Medical Terminology, Pathophysiology and Pharmacology (2) CSU

LECTURE, 2 HOURS.

This basic medical language course discusses common diseases and injuries and their pharmacological treatment using medical terminology in English and Spanish, when appropriate.

64 Cultural and Legal Topics for Health Care Professionals (1) CSU

LECTURE, 1 HOUR.

This course provides an overview of the concepts of health and illness, cultural diversity, and legal issues that affect the health care professional.

65 Fundamentals for the Health Care Professional (2.50) CSU

LECTURE, 2.5 HOURS.

This course explores career options in the health care industry, healthy behavior for health care workers, work ethics, professional resumes and interviewing skills, and personality traits of a health care professional. Students participate in an externship during which area employers introduce students to direct and indirect patient care opportunities.

67 Basic Phlebotomy (2)

Prerequisites: Health Occupations 62, 63, 64 and 65.

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This course is an introduction of the phlebotomy concepts and skills that serve as a foundation for the individuals seeking certification as phlebotomist. Topics include basic infection control, universal precautions and safety; basic anatomy and physiology of body systems with emphasis on the circulatory system and appropriate medical terminology; proper identification of patient and specimens, proper selection and preparation of skin puncture sites. The types of tubes and additives; proper order of draw when additives are required, selection of disinfectant, blood collection equipment, special precautions; and appropriate disposal of sharps, needles, and waste are discussed.

68 Advanced Phlebotomy (2)

Prerequisite: Health Occupations 67.

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This Advanced Phlebotomy course expands on topics related to advance infectious disease control and biohazards, coagulation theory, specimen handling and routing, special collections and procedures, routine venipuncture and arterial blood collection, complications of venipuncture, blood collection in special populations, and professional issues related to quality and legal issues in phlebotomy.

69 Phlebotomy Technician Directed Clinical Practicum (2)

Prerequisite: Health Occupations 68.

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This course provides student with 40 hours Phlebotomy Directed Clinical Practicum necessary for obtaining California Certified Phlebotomy Technician I Certification as required under Sections 1035.1. After successfully demonstrating basic and advanced objectives covering topics on selecting blood collection equipment, infection control, skin punctures, venipunctures, post puncture care, processing of blood, disposal of needles, sharps, and medical waste, students are placed at a clinical site to gain hands on practice.

Pharmacy Technician (PHRMCTK)

21 Retail Products for Pharmacy Clerks (3) CSU

LECTURE, 3 HOURS.

This course prepares individuals seeking to work as a pharmacy clerk for a pharmacy or other healthcare settings where medications are dispensed. Students learn the steps included in choosing a safe non-prescription product.

23 Introduction to Pharmacy (2) CSU

LECTURE, 2 HOURS.

This course examines the roles and opportunities open to pharmacy clerks and technicians in various practice settings. Students are introduced to pharmaceutical dosage forms, the drug development process, and drug classification systems. This course also includes an introduction to prescription labeling and to the law and ethics for pharmacy practice.

29 Body Systems I (3) CSU

LECTURE, 3 HOURS.

In this course students learn the use and side effects of prescription medications, nonprescription medications, and alternative therapies used to treat diseases affecting the muscular, skeletal, respiratory, renal, cardiovascular, and hematologic systems. Students first master an understanding of basic anatomy and physiology and learn the brand and generic name, standard pronunciation, and routes of administration for each medication studied. Students also learn medical terminology and abbreviations associated with the use of medication therapy affecting the body systems studied.

30 Body Systems II (3) CSU

LECTURE, 3 HOURS.

In this course students learn the use and side effects of prescription medications, nonprescription medications, and alternative therapies used to treat diseases affecting the nervous, endocrine, gastrointestinal, reproductive, immune, ears/nose/throat, and dermatologic systems. Students first master an understanding of basic anatomy and physiology and learn the brand and generic name, standard pronunciation, and routes of administration for each medication studied. Students also learn medical terminology and abbreviations associated with the use of medication therapy affecting the body systems studied.

31 Pharmacy Calculations (2) CSU

LECTURE, 2 HOURS.

In this course students learn calculations related to drug dosage, measurements of strength and preparation of medications. This course also includes inter-conversion of units in the metric and common systems of measurement. Emphasis is placed on unit-cancellation for solving pharmacy problems. This course includes a strong verbal component.

32 Pharmacy Operations (4.75) CSU

Prerequisites: Pharmacy Technician 23, Pharmacy Technician 29 and Pharmacy Technician 31.

LECTURE, 2.5 HOURS; LABORATORY, 4.5 HOURS.

In this course students become competent in handling and preparing medications in both the outpatient and compounding pharmacy settings in a manner consistent with the legal and ethical guidelines. After successful completion of this course, the student has the skills needed to begin an outpatient pharmacy externship.

34 Community Pharmacy Externship (2.25) CSU

Prerequisites: Allied Health 56 and 57 and Pharmacy Technician 23, 29, 30, 31 and 32.

LABORATORY, 4.5 HOURS.

In this course students practice skills developed in other courses in a community or outpatient pharmacy.

35 Inpatient Pharmacy Services (2) CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

In this course students become competent in the technical aspects of drug distribution for the inpatient (hospital) pharmacy setting. This course includes hands-on training in medication order processing, pharmacy patient profile maintenance, medication preparation, and inpatient drug distribution using manual and automated systems.

36 Inpatient Pharmacy Externship (2.25) CSU

Prerequisites: Allied Health 56 and 57 and Pharmacy Technician 35.

LABORATORY, 7 HOURS.

In this course, students practice newly developed skills in the in-patient pharmacy setting.

37 Sterile Products (4.75) CSU

Prerequisites: Pharmacy Technician 23, Pharmacy Technician 29 and Pharmacy Technician 31.

LECTURE, 2.5 HOURS; LABORATORY, 4.5 HOURS.

In this course students learn the aseptic techniques and use of the laminar flow hood used in the preparation of sterile products. Emphasis is placed on parenteral calculations, sterile dosage forms, and quality assurance procedures.

38 Sterile Products Externship (2.25) CSU

Prerequisites: Allied Health 56 and 57 and Pharmacy Technician 37.

LABORATORY, 7 HOURS.

This Pharmacy Technology course allows the students to practice skills developed in the Sterile Products class in an ambulatory clinic with infusion services.

Respiratory Therapy (RESP TH)**2 Fundamentals of Respiratory Therapy** (4)

Prerequisites: Microbiology 20 and Physiology 1.

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This course covers the structure and functions of respiratory therapy equipment. It also acquaints students with most of the equipment used in the profession of respiratory care. Students are expected to select, assemble, and correct malfunctions on most equipment used to provide respiratory care.

3 Applications of Respiratory Therapy & Clinical Experience I (5)

Prerequisite: Respiratory Therapy 15.

Corequisites: Respiratory Therapy 4 and 27.

LABORATORY, 15 HOURS.

This course provides students with clinical application of diagnostic techniques, equipment, medications, and therapeutic procedures based on the national Clinical Practice Guidelines as well as local standards of practice. Students are assigned to a selection of clinical facilities where they complete clinical competencies under continuous direct supervision of experienced Respiratory Therapists and college faculty to validate competence in the skills required to care for patients in a variety of related cardiopulmonary conditions and/or diseases.

4 Applications of Respiratory Therapy & Clinical Experience II (5)

Prerequisite: Respiratory Therapy 15.

Corequisite: Respiratory Therapy 3.

LABORATORY, 15 HOURS.

This course provides students with clinical application of diagnostic techniques, equipment, medications, and therapeutic procedures based on the national Clinical Practice Guidelines as well as local standards of practice. Students are assigned to a selection of clinical facilities where they

complete clinical competencies under continuous direct supervision of experienced respiratory Therapists and college faculty to validate competence in the skills required to care for patients in a variety of related cardiopulmonary conditions and/or diseases.

5 Applications of Respiratory Therapy & Clinical Experience III (5)

Corequisite: Respiratory Therapy 11.

LABORATORY, 15 HOURS.

In this course, the student is placed in a clinical setting to show competency in the following areas: Maintaining records and communication information, maintaining a patient's airway including care of artificial airways, achieving adequate respiratory support, evaluating and monitoring patient's objective, and subject's responses to respiratory care.

6 Respiratory Physiology (4)

Corequisite: Respiratory Therapy 21.

Advisory: Health Information Technology 133.

LECTURE, 4 HOURS.

This course presents the physiology of the cardiopulmonary system from a clinical perspective including a review of cardiopulmonary and renal anatomy and physiology. Also included is an extensive presentation of pulmonary ventilation, gas transport and diffusion, cardiopulmonary circulation, ventilation/perfusion balance, acid-base balance, and mechanics and neurologic control of breathing. Emphasis is placed on the bedside interpretation of the acid-base status of patients that is used in the management of clinical respiratory patients.

7 Applied Medicine and Pathology (3)

Prerequisite: Respiratory Therapy 6.

Corequisite: Respiratory Therapy 23.

Advisory: Health Information Technology 133.

LECTURE, 3 HOURS.

In this course, the physiology, pathology, diagnosis, and treatment of the common diseases and disorders of the cardiovascular, respiratory, and neuromuscular systems are covered in detail. Techniques of laboratory evaluation and specific monitoring methods are discussed. A review of cardiopulmonary pharmacology, including anti-asthmatic and anti-infective drugs, is included.

11 Applications of Respiratory Therapy & Clinical Experience IV (5)

Prerequisite: Respiratory Therapy 4.

LABORATORY, 15 HOURS.

In this clinical experience course, the student is assessed on competencies to perform independently and modify therapeutic procedures based on patient's response; recommending modifications in the respiratory care plan based on the patient's response; the appropriateness of the prescribed respiratory care plan and recommending modifications when indicated by data; initiating, conducting, or modifying respiratory care techniques in an emergency setting; acting as an assistant to the physician performing special procedures; and initiating and conducting pulmonary rehabilitation and home care.

15 Clinical Experience (4)

Prerequisites: Respiratory Therapy 2 and Respiratory Therapy 30.

LABORATORY, 12 HOURS.

This course provides clinical insight into the indications, contraindication, administration, and assessment of essential therapeutic procedures. Students are introduced to problem-based learning and critical thinking skills crucial in evaluating, creating, and modifying a respiratory care plan. Information gathering and decision-making comprehension is developed with the use of case study-based computerized clinical simulations. Introduction into the clinical setting is initiated with students being placed into the college's various contracted clinical affiliates.

21 Physics of Gas Therapeutics (3)

Corequisite: Respiratory Therapy 6.

LECTURE, 2 HOURS; LABORATORY 2 HOURS.

This course presents an overview of the principles of physics that apply to respiratory care equipment, technology, and patient care including the behavior of gases, electricity, and electrical safety. Internal heat, temperature scales, and measurement are covered in detail. Molecular phenomena such as osmosis and dialysis, and the mechanics of the cardiovascular and respiratory systems are applied to bedside patient care. Principles of electricity and hospital electrical safety from both a patient and practitioner perspective are emphasized.

23 Advanced Respiratory Pathophysiology (1) CSU

Prerequisite: Respiratory Therapy 6.

Corequisite: Respiratory Therapy 7.

Advisory: Health Information Technology 133.

LECTURE, 1 HOUR.

This course covers the pathology, assessment, diagnosis, and treatment of the common diseases and disorders of the respiratory, cardiovascular, and neuromuscular systems. Emphasis is placed on the practice of patient assessment techniques, including common bedside and laboratory evaluation methods and practice, specific patient monitoring methods practice, medical record review, and communication and documentation skills practice.

27 Respiratory Clinical Problem-Solving I (1) CSU

LABORATORY, 4 HOURS.

This course provides a hospital setting in which the Respiratory Care student accompanies a Physician on patient clinical rounds to assess and determine the appropriateness of the prescribed respiratory care plan. The student also participates in the development of the respiratory care plan. Students are given computer clinical simulations based on respiratory care scenarios to solve, using clinical information gathering and decision making skills. In addition, CAI (computer assisted instruction) software is used to enhance the student's knowledge in specialty areas. The student critiques respiratory therapy case studies making recommendations, modification and discusses appropriate care. The use of critical thinking and problem solving skills are developed and implemented during classroom case study presentations. The student also participates in the development of the respiratory care plan,

confers/interacts with the RT program's Medical Director, and discusses patient assessment and respiratory therapist expectations from the physician's perspective.

28 Respiratory Clinical Problem-Solving II (1)

Corequisites: Respiratory Therapy 5 and II.

LABORATORY, 4 HOURS.

Given a clinical scenario, students collect, analyze, synthesize, and create an appropriate patient care treatment plan. Students take computer-based clinical simulation examinations comprised of respiratory disease scenarios. Students apply their clinical information-gathering and decision-making skills in the computer-assisted instruction (CAI) format via testing software to enhance the student's knowledge in all respiratory care areas and replicate National Board for Respiratory Care (NBRC) licensure examination conditions.

29 Neonatal and Pediatric Respiratory Therapy (4) CSU

Prerequisites: Physiology 1 and Microbiology 20.

LECTURE, 4 HOURS.

This course presents prenatal development, high risk pregnancy, and normal labor and delivery as they relate to respiratory care. Assessment of the newborn and pediatric patient is covered as are neonatal and pediatric diseases and disorders with an emphasis on the respiratory care interventions, techniques, and equipment used in neonatal and pediatric patient care.

30 Adult Critical Care Monitoring and Diagnostics (3)

Prerequisite: Respiratory Therapy 6.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course presents current techniques of monitoring the critically ill adult patient. This includes electrocardiography, cardiovascular/hemodynamic monitoring, capnography, and pulmonary function testing. Cardiovascular pharmacology and common approaches to supporting the unstable intensive care patient are presented. Advanced Cardiac Life Support (ACLS) algorithms for treatment of the patient with acute coronary syndrome and other related disorders are reviewed.

101 Survey of Respiratory Therapy (2)

LECTURE, 2 HOURS.

This course provides an introduction to the profession of Respiratory Therapy, with an emphasis on the duties, responsibilities, and qualifications of a Respiratory Therapist. Elementary introduction into the lung disease processes and basic data identification are also introduced.

Anthropology, Geography and Geology Department

G8-101A • (323) 780-6744

Anthropology, Geography, and Geology is a multidisciplinary department. We offer classes in a wide range of disciplines, including Earth Science, Environmental Science, Geographic Information Systems, Meteorology, Oceanography, and of course, Anthropology, Geography, and Geology.

Anthropology is the study of human beings. Anthropologists seek to understand all aspects of what it is to be human and explore the diversity of ways that human beings and their ancestors have forged a living over the last several million years. Cultural anthropologists compare living cultures and societies throughout the world to document and explain the full range of human variation in beliefs and behaviors. Archaeological anthropologists explore the human past and seek to understand how and why human cultures have changed over time by using materials left behind by ancient societies. Biological anthropologists examine the biological nature of humans by studying human biological and genetic diversity, the behaviors of humans' closest living relatives, the primates, and the evolution of humans as shown through the fossil record. Linguistic anthropologists study the ways humans communicate using language. Anthropology is perhaps the most broad of all social science disciplines, and a degree in anthropology can be useful in a wide range of careers, including medicine, business, marketing, law, public health, ethnic studies, cultural studies, linguistics, education, ecology, and psychology.

Geography is so much more than learning about different places. Geography introduces students to the different components of nature and human society that shape the world in which we live. What sets geography apart from other disciplines is that our studies compel us to look at our world in new ways that reveal connections within the patterns of nature and societal processes that define contemporary life. Geographers are trained to analyze and interpret geographic patterns using maps, graphs, Geographic Information Systems, and other analytical techniques to interpret our world. Geography majors hone valuable skills in spatial thinking, geographic analysis, landscape interpretation, and field research. These skills position geographers to collaborate on solutions to such wide-ranging issues as urbanization, climate change, natural disasters mitigation, environmental justice, international conflict, health, and migration. Professional geographers pursue exciting careers in city and transportation planning, marketing studies, cartography, environmental impact assessment, sustainability and resource management, law enforcement, intelligence, diplomatic services, teaching, and many others.

Geology is the scientific study of the Earth and its natural resources. It is a diverse field offering specialties ranging from the study of earthquakes and prospecting for minerals to examination of the history of life on Earth and the prevention of environmental degradation. Most geologists

divide their time between field, laboratory, and office work. In the field, geologists collect samples, make maps, and record observations of the nature of the materials and structures exposed at the earth's surface. Some geologists are highly trained laboratory specialists and may spend all of their time there. In the office, geologists must have the ability to assemble, correlate and interpret data, write reports and articles, and draft maps and illustrations. This is most important as the results of the work must be read by employers, government officials, attorneys, or the public.

Faculty

Bernard, Dr. Julienne, – Chair,
Associate Professor, Anthropology
Adsit, Randall J., Assistant Professor, Earth Science
Haddad, Emily E., Assistant Professor, Earth Science
Koletty, Dr. Stephen, Associate Professor, Geography
Li, Janny, Associate Professor, Anthropology
Seeley, Tiffany, Assistant Professor, Geography
Sepulveda, Christine, Assistant Professor

ASSOCIATE DEGREE PROGRAMS

Environmental Studies: Physical Sciences, Associate in Arts Degree

The Environmental Studies: Physical Science Program is an interdisciplinary and multidisciplinary course of study that presents an overview of basic principles of chemistry, physics and earth science applied to environmental issues. The program also studies the interrelationship between humans and nature by examining the behavior of matter and natural phenomena. The curriculum prepares students to deal with the complex environmental problems that confront society by providing a broad, basic understanding of how physical and human components of the environment interact. The degree's core courses examine the relationship between nature and social systems. Furthermore, they introduce students to the interplay between natural and social systems, and the ideological foundations of humankind's attitudes and behaviors with respect to their ever-changing environments. The courses are designed to equip students with necessary lab skills that involve the scientific method, and the critical understanding of the interrelationship between science and nature, helping students to be more avid in the studying and in the solving of environmental problems that could be better understood by examining basic behavior and interaction principles of matter and its surroundings. Specifically, this program uses an interdisciplinary approach to introduce students to an overview of environmental issues from a physical science perspective, preparing students to research, analyze, and propose solutions to the different and intricate environmental challenges that the world may face.

SUBJECT & NO.	COURSE	UNITS
CORE REQUIREMENTS		23
ENV SCI 1	Introduction to Environmental Science.....	3
ENV SCI 22	The Human Environment: Physical Processes Lab.....	2
ECON 60	Economics and the Environment.....	3
PHILOS 28	Environmental Ethics.....	3
BIOLOGY 9	Man and His Environment: Biological Processes.....	3
CHEM 101*	General Chemistry I.....	5
MATH 227*	Statistics.....	4
OR		
MATH 227S*	Statistics with Support.....	4
RESTRICTED ELECTIVE: CHOOSE ONE COURSE FROM THREE OF THE FOLLOWING FOUR AREAS		7-10
A. Choose one: (3-4 units)		
ENV SCI 24	Global Climate Change.....	3
PHYSICS 17	Energy and Environment.....	4
GEOG 3	Introduction to Weather and Climate.....	3
OR		
METEOR 3	Introduction to Weather and Climate.....	3
B. Choose one: (3 units)		

HISTORY 78	The Environment in World History.....	3
HISTORY 97	Introduction to History of Science.....	3
LAW 60	Environmental Law and Policy.....	3
C. Choose one: (3 units)

FREE ELECTIVES: COMPLETE 15-18 UNITS FROM ANY CSU OR UC TRANSFERABLE COURSES	15-18
LACCD GENERAL EDUCATION PLAN	21
<i>Total</i>	<i>60</i>

Note: 9 units of major courses may be double counted in LACCD General Education.

**This course has a prerequisite.*

Associate in Arts in Anthropology for Transfer

The Department of Anthropology, Geography and Geology offers an Associate in Arts in Anthropology for Transfer degree. The Transfer degree ensures enrollment and transfer opportunities at California State Universities and meets the lower division major requirements at most universities. The major provides students with a comprehensive understanding and appreciation for the human species in both biological and cultural aspects. Students study diverse cultures and their social, political, and economic ways of life, and they examine the biological roots of humanity and the ways it has evolved anatomically, behaviorally, and culturally. The required courses introduce students to human diversity with respect to all aspects of behavior, language, material culture, religion, and adaptation to the environment, and students receive training in basic scientific methods, including data collection and analysis. The skills and perspective acquired through achievement of a Bachelors degree in anthropology prepare students for careers in academia, medicine, business, marketing, law, criminal science, forensics, public health, education, and diverse forms of public service. Students completing this degree will be prepared for upper division courses in Anthropology. Students are required to complete 60 semester units of CSU transferable coursework with a minimum GPA of 2.0, including a minimum of 18 units in the major with a grade of "C" (or "P") for each course in the major. In List B, Students must choose only one lecture/laboratory course combination for a maximum of 5 units. Certified completion of the California State University General Education–Breadth (CSU GE Breadth) or Intersegmental General Education Transfer Curriculum (IGETC) Pattern is also required.

Required Core Courses

SUBJECT & NO.	COURSE	UNITS

Associate in Arts in Geography for Transfer

The Department of Anthropology, Geography and Geology offers an Associate in Arts in Geography for Transfer. The Transfer degree ensures enrollment and transfer opportunities at California State Universities. The major provides students with a comprehensive understanding and appreciation for the complex linkages between the geosphere, the atmosphere, the hydrosphere, and the biosphere, and the manner in which Earth's different landscapes are formed. Students also study the geographic character of human society and activities, and aspects of globalization in contemporary life. Students are trained to analyze and interpret geographic patterns using maps, graphs, Geographic Information Systems and other analytic tools commonly employed by geographers to interpret our world. The required courses help students hone skills in spatial thinking, geographic analysis, landscape interpretation, and field research. Students completing this degree will be well prepared for upper division coursework in Geography at a CSU. Students are required to complete 60 semester units of CSU transferable coursework with a minimum GPA of 2.0, including a minimum of 20 units in the major with a grade of "C" (or "P") for each course in the major. Certified

completion of the California State University General Education-Breadth (CSU GE Breadth) or Intersegmental General Education Transfer Curriculum (IGETC) Pattern is also required.

Associate in Science in Geology for Transfer

The Associate of Science in Geology for Transfer degree is designed to meet the minimum requirements for transfer to a California State University (CSU) Bachelor of Science Degree program in the Geological Sciences. The Transfer degree ensures a competitive advantage for transfer opportunities at California State Universities. The degree provides students with a foundational set of preparatory courses designed to maximize their transfer success as they pursue a degree in Geology or a related field. The major provides students with an overarching view of the origin and evolution of the Earth and its inhabitants in the context of dynamic internal and external processes driving environmental change. Students learn to recognize the importance and impacts of resource exploitation. Students gain an expanded sense of self and existence through their inquiries into deep time and gain a growing sense of understanding of the nature of the world through supportive STEM coursework requirements. The required courses help students hone skills in spatial thinking, quantitative analysis, landscape interpretation, and field research. Students completing this degree will be well prepared for upper division coursework in Geology at a CSU. Students are required

to complete a minimum of 60 required semester units of CSU transferable coursework with a minimum GPA of 2.0, including a minimum of 30 units in the major with a grade of "C" (or "P") for each course in the major. Certified completion of the Intersegmental General Education Transfer Curriculum (IGETC) Pattern is also required.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Anthropology (ANTHRO)

101 Human Biological Evolution (3)

UC:CSU IGETC Area 5B (C-ID ANTH 110)

LECTURE, 3 HOURS.

This course covers the concepts, methods of inquiry, and theory of biological evolution and their application to the human species. There is a specific focus on molecular, Mendelian and population genetics, mechanisms of evolution, primatology, paleoanthropology, biocultural adaptations, human variation, and current bioethical issues. The philosophy of science and the scientific method serve as foundations to the course.

102 Human Ways of Life: Cultural Anthropology

(3) UC:CSU IGETC Area 4A (C-ID ANTH 120)

LECTURE, 3 HOURS.

This course is an introduction to the study of human culture and the concepts, theories, and methods used in the comparative study of sociocultural systems. Subjects include subsistence patterns, social and political organization, language and communication, family and kinship, religion,

the arts, social inequality, ethnicity, gender, and culture change. The course applies anthropological perspectives to contemporary issues.

103 Archaeology: Reconstructing the Human Past (3) UC:CSU (C-ID ANTH 150)

LECTURE, 3 HOURS.

This course is an introduction to the study of concepts, theories, and methods of anthropological archaeology as well as a review of significant data and models that contribute to knowledge of the human past. The course includes a discussion of the history and interdisciplinary nature of archaeological research; dating techniques and methods of survey, excavation, and analysis; cultural resource management; and selected cultural sequences.

104 Human Language and Communication

(3) UC:CSU IGETC Area 3B, 4A

LECTURE, 3 HOURS.

This course is an introduction to the anthropological study of language. This course includes a survey of core topics in linguistics (phonetics, phonology, morphology, syntax, and semantics) and the relationship of language to social, cultural, and psychological factors. The course may include topics in nonverbal communication, the evolution of language abilities, and historical linguistics.

109 Gender, Sex and Culture (3) UC:CSU IGETC Area 4D

LECTURE, 3 HOURS.

This course provides a world-wide comparison of sexuality and gender as viewed from various perspectives, including the biological/evolutionary, the cultural, the psychological, the historic, and the prehistoric, especially as they relate to the experiences of males and females in contemporary Western society.

111 Laboratory in Human Biological Evolution (2) UC:CSU IGETC Area 5C

Corequisite: Anthropology 101.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course is a laboratory course that covers the methods, techniques, and procedures used in biological/physical anthropology research. Subjects include: Molecular, Mendelian, and population genetics; modern human variation; human osteology and forensic analysis; modern primate studies; and the hominid fossil record.

121 Anthropology of Religion, Magic and Witchcraft (3) UC:CSU IGETC Area 4A

LECTURE, 3 HOURS.

This course is an anthropological introduction to forms, functions, origins, and expressions of belief systems and ritual within their cultural contexts. Topics include religious symbolism, myth, magic, divination, animism, animatism, shamanism, totemism, ancestor worship, religious specialists, witchcraft, syncretism, millenarian, and other religious movements.

132 Native People of North America

(3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course examines the history, culture, religion, art, and political organization of selected Native North American cultures from pre-Western contact to the contemporary

period, with particular emphasis on the processes of social, cultural, and political change in the post-contact period. The history of interactions between indigenous North Americans and other ethnic groups and their relevance to contemporary Native American issues are also explored.

185 Directed Study - Anthropology (1) CSU

285 Directed Study - Anthropology (2) CSU

385 Directed Study - Anthropology (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Anthropology on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Earth Science (EARTH)

1 Earth Science (3) UC:CSU IGETC Area 5A (C-ID GEOL 120)

LECTURE, 3 HOURS.

This course surveys the science of whole Earth inquiry and thereby includes the following topics: Scientific method, Earth systems, Earth materials, internal processes, surface processes, oceans, atmosphere, Earth origins, and Earth history. Students are introduced to important contributions to the study of these topics from the fields of geography, geology, oceanography, chemistry, astronomy, physics, and biology with special attention to the cycling of elements such as Carbon through Earth systems within the organizing paradigms of contributory disciplines such as Plate Tectonic Theory, the Theory of Evolution, and the Big Bang.

2 Earth Science Laboratory (2) UC:CSU

IGETC Area 5C (C-ID GEOL 120L)

Corequisite: Earth Science 1.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

Note: Credit given for only one of Earth Science 2 or Geology 6.

Earth Science Laboratory supplements Earth Science 1. Students are introduced to the study of Earth materials by learning to identify common minerals and rocks. Interpretations of processes acting on and within the Earth are approached through the study of information contained in maps, aerial photographs, and data sets collected from a variety of Earth-sensing instruments.

185 Directed Study - Earth Science (1) CSU

285 Directed Study - Earth Science (2) CSU

385 Directed Study - Earth Science (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue directed field or laboratory study in Earth Science under the direction of

a supervising instructor. Directed study for one unit may consist of field study undertaken during three field trips given each semester.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN. *Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.*

Environmental Science (ENV SCI)

1 Introduction to Environmental Science (3) UC:CSU IGETC Area 5A

LECTURE, 3 HOURS.

This course encompasses the scientific analysis of real-world challenges arising from the impact of human activities upon our environment. Topics include environmental systems, population growth, uneven consumption and degradation of global resources, sustainability, climate change, conventional and alternative energy sources, air and water pollution, waste treatment and recycling. Practical solutions are encumbered by the economics of pollution, inadequate regulation and policy, and issues of environmental justice.

17 Geography of California (3) UC:CSU

IGETC Area 4E (C-ID GEOG 140)

LECTURE, 3 HOURS.

Note: Credit given for only one of Environmental Science 17 or Geography 14.

This regional study surveys the distinctive physical and human geography of California and the processes shaping these landscapes. This course explores the state's natural features and resources, and examines historical and current trends in human population, cultural diversity, migration, and settlement patterns. Economic activities, resource use, transportation routes, and trade are assessed with an emphasis on the profound interconnections between these subjects, on California's diversity, and on the rapid change that is transforming our people and its landscapes.

22 The Human Environment: Physical Processes Lab (2) UC:CSU IGETC Area 5C

Corequisite: Environmental Science 1.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This is an introductory lab course in which students work individually and in teams to investigate the causes and consequences of key environmental issues. Field sampling, laboratory procedures and data analysis skills are emphasized as we explore our natural world. Particular attention is paid to water, energy, consumption, food, sustainability, waste, and recycling.

24 Global Climate Change (3) UC:CSU IGETC Area 5A, 5C

LECTURE, 3 HOURS.

This course covers the concepts, methods of inquiry, and theory of climate change brought on by both natural and human influences. The course covers the physical and

biological impacts of a changing climate, earth's paleo-climate, and the current climate as well as future climate prediction models.

Geographic Information Systems (GIS)

25 Introduction to Geographic Information Systems and Laboratory (4) CSU (C-ID GEOG 155)

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

Note: Credit given for only one of Geographic Information Systems 25 or Geography 25.

Geographic Information Systems (GIS) describe the specific software and set of techniques designed to manipulate, interpret and display geographic data. This course examines the basic principles and methods of GIS, including computer representation of geographic data, map projections, coordinate systems, vector and raster data models, spatial analysis, and effective map design. In the laboratory students acquire hands-on experience with geospatial concepts, GIS functionalities, and mapping techniques.

32 GIS Applications (3) CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

Prerequisite: Geographic Information Systems 25 or Geography 25.

This course focuses on intermediate GIS applications relating to industry-specific issues. This includes the various ways in which Geographic Information Systems (GIS) is used to acquire, represent, organize, analyze, and visualize information. The emphasis is on hands-on experience in GIS, particularly vector-based data structures using ArcGIS. Topics include data sources and accuracy, data structures, map overlays, manipulation of databases, spatial analysis, creation of charts and graphs, and effective presentation of data in map layouts.

Geography (GEOG)

1 Physical Geography (3) UC:CSU IGETC Area 5A (C-ID GEOG 110)

LECTURE, 3 HOURS.

This course examines the Earth's physical features and processes from the Geographer's perspective. Topics include: Earth-sun geometrics, weather and climate, water systems, landforms and their formation, soils, and the biogeography of plants and animals. Particular emphasis is on the dynamic interrelationships among environmental and human systems and the patterns and distributions they produce. Tools of geographic inquiry include: Maps and their interpretation, landscape analysis, remote sensing, and Geographic Information Systems (GIS).

2 Cultural Elements of Geography (3)

UC:CSU IGETC Area 4E (C-ID GEOG 120)

LECTURE, 3 HOURS.

This course explores the intrinsic geographic character of human societies. Students apply techniques commonly used by geographers to understand our world which reveals the origins, diffusion, and contemporary spatial expressions of such diverse aspects of the human experience such as cultural traditions and popular culture, attributes of populations and migration, languages, religions,

and ethnic identity, political structures and nationalism, agriculture and food, economic systems, urbanization, and landscape modification.

3 Introduction to Weather and Climate

(3) UC:CSU IGETC Area 5A (C-ID GEOG 130)

LECTURE, 3 HOURS.

Note: Credit given for only one of Geography 3 or Meteorology 3.

This course is an introduction to processes that shape weather and climate on Earth. Topics investigated in this course include the structure and composition of the atmosphere, solar radiation, energy balances, seasonal changes, atmospheric pressure, atmospheric moisture, cloud and fog development, cyclones, and frontal systems. Discussions on climate and climate change include major controls of climate, the distribution of climates around the world, climate classification, and the causes and impacts of global climate change. Special emphasis is placed on the use of weather instruments and forecasting to understand and predict weather.

7 World Regional Geography (3) UC:CSU

IGETC Area 4E (C-ID GEOG 125)

LECTURE, 3 HOURS.

This course provides a geographical survey of the world's regions and nations, including physical, cultural, and economic features. Emphasis is on spatial influences and historical legacies on population growth, cities, transportation networks, and natural environments. Focus is placed on distinctive features and also regional issues of global concern.

14 Geography of California (3) UC:CSU

IGETC Area 4E (C-ID GEOG 140)

LECTURE, 3 HOURS.

Note: Credit given for only one of Geography 14 or Environmental Science 17.

This regional study surveys the distinctive physical and human geography of California and the processes shaping these landscapes. This course explores the state's natural features and resources, and examines historical and current trends in human population, cultural diversity, migration, and settlement patterns. Economic activities, resource use, transportation routes, and trade are assessed with an emphasis on the profound interconnections between these subjects, on California's diversity, and on the rapid change that is transforming our people and its landscapes.

15 Physical Geography Laboratory (2)

UC:CSU IGETC Area 5C (C-ID GEOG 111)

Corequisite: Geography 1.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course provides laboratory experiences in topics covered in Physical Geography lecture such as map analysis and interpretation, weather prognostication, landform processes and evolution, tectonics, biogeography, habitat analysis, and computer applications in geography.

25 Introduction to Geographic Information Systems and Laboratory (4) UC:CSU (C-ID GEOG 155)

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

Note: Credit given for only one of Geography 25 or Geographic Information Systems 25.

Geographic Information Systems (GIS) describe the specific software and set of techniques designed to manipulate, interpret and display geographic data. This course examines the basic principles and methods of GIS, including computer representation of geographic data, map projections, coordinate systems, vector and raster data models, spatial analysis, and effective map design. In the laboratory students acquire hands-on experience with geospatial concepts, GIS functionalities, and mapping techniques.

185 Directed Study - Geography (1) CSU

285 Directed Study - Geography (2) CSU

385 Directed Study - Geography (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

These courses allow students to pursue Directed Study in Geography on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Geology (GEOLOGY)

1 Physical Geology (3) UC:CSU (GEOL 1 + GEOL 6 = GEOL 4) IGETC Area 5A (C-ID GEOL 100)

LECTURE, 3 HOURS.

An introduction to the principles of geology with emphasis on Earth processes. This course focuses on the internal structure and origin of the Earth and the processes that change and shape it.

2 Earth History (3) UC:CSU IGETC Area 5A (C-ID GEOL 110)

LECTURE, 3 HOURS.

In this course, students receive an introduction to the geological history of Earth and its inhabitants, with emphasis on the evolution of life and landforms of North America. Topics include how Earth processes produce and alter landforms, climate, and energy and water resources on which humans depend; significant tectonic events, such as mountain building episodes; and the evolutionary history of life on Earth, including plants, fish, dinosaurs, mammals, and humans. Field trips are taken.

4 Physical Geology and Laboratory (5)

UC:CSU IGETC Area 5A, 5C (C-ID GEOL 101)

LECTURE, 4 HOURS; LABORATORY, 2 HOURS.

This is an introductory course designed to acquaint the student with a general knowledge of planet Earth. Materials and structures of the Earth are studied along with the processes and agencies by which the Earth is changed.

The laboratory supplements the lecture with the study of minerals, rocks, aerial photographs, maps, and analysis of geologic data sets.

6 Physical Geology Laboratory (2) UC:CSU IGETC

Area 5C (C-ID GEOL 100L) (GEOL 6 + GEOL 1 = GEOL 4)

Corequisite: Geology 1.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

Note: Credit given for only one of Geology 6 or Earth Science 2.

This course supplements Geology 1 lectures with exercises in rock and mineral identification, reading and construction of topographic maps and profiles, interpretation of geologic maps and diagrams, evaluation of seismic and tectonic data, and the recognition and evaluation of landforms from topographic maps and aerial photos.

7 Earth History Laboratory (2) UC:CSU

IGETC Area 5C (C-ID GEOL 110L)

LECTURE, 1 HOURS; LABORATORY, 2 HOURS.

COREQUISITE: GEOLOGY 2.

This is a supplemental laboratory course for Geology 2, intended to teach the scientific methods of reasoning and to acquaint students with the fundamental principles of historical geology. Laboratory exercises examine the history of Earth from its origin to the present as interpreted from the fossil record and radiometric dating techniques. Topics include the evolutionary study of fossils, the study of rock types and ancient land forms, and the methods used to determine events in Earth history and reconstruct past environmental conditions. Field trips may be taken. Strongly recommended for the student who is enrolled in or has completed Geology 2.

15 Geological Catastrophes (3) UC:CSU IGETC Area 5A

LECTURE, 3 HOURS.

This course provides a survey of the geological and tectonic forces behind the most common natural disasters on Earth. The course studies how earthquakes, tsunamis, volcanoes, mass movements, weather-related phenomena, wildfires and floods are generated, how they affect populations, and specific hazard mitigation techniques. Special emphasis is placed on the disaster risk of the Los Angeles region.

185 Directed Study - Geology (1) CSU

285 Directed Study - Geology (2) CSU

385 Directed Study - Geology (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

These courses allow students to pursue Directed Study in Geology on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Meteorology (METEOR)

3 Introduction to Weather and Climate

(3) UC:CSU IGETC Area 5A (C-ID GEOG 130)

LECTURE, 3 HOURS.

Note: Credit given for only one of Meteorology 3 or Geography 3.

This course is an introduction to processes that shape weather and climate on Earth. Topics investigated in this course include the structure and composition of the atmosphere, solar radiation, energy balances, seasonal changes, atmospheric pressure, atmospheric moisture, cloud and fog development, cyclones, and frontal systems. Discussions on climate and climate change include major controls of climate, the distribution of climates around the world, climate classification, and the causes and impacts of global climate change. Special emphasis is placed on the use of weather instruments and forecasting to understand and predict weather.

185 Directed Study - Meteorology (1) CSU

285 Directed Study - Meteorology (2) CSU

385 Directed Study - Meteorology (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

These courses allow students to pursue Directed Study in Meteorology on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Oceanography (OCEANO)

1 Introduction to Oceanography (3) UC:CSU IGETC Area 5B

LECTURE, 3 HOURS.

This course introduces the student to the field of physical oceanography. Major topics include: plate tectonics and features of seafloor topography, coastal processes, estuaries, properties of seawater, waves, tides, currents, marine resources and pollution, global ocean/atmosphere interactions, and the effects of physical oceanographic factors on marine life and marine ecosystems.

10 Physical Oceanography Laboratory

(2) UC:CSU IGETC Area 5C

Corequisite: Oceanography 1.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course supplements Oceanography 1 by providing introductory practical experience in measurements, and quantitative analytical skills in oceanography. Major topics include navigational charts, scientific graphs, bathymetric contours and profiles, properties of seawater, waves, tides, atmospheric phenomena, coastal features, marine pollution, and sediments. Some time outside of the classroom may be required. See the instructor for details.

185 Directed Study - Oceanography (1) CSU

285 Directed Study - Oceanography (2) CSU

385 Directed Study - Oceanography (3) CSU

CONFERENCE 1 HOUR PER WEEK UNIT.

These courses allow students to pursue Directed Study in Oceanography on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Architecture Department

E7-112 (323) 265-8839

Since 1945 the architectural program at East Los Angeles College (ELAC) has served the ever evolving community of the East and the Southeast side of Los Angeles. As we head in to 2020, we have evidence that our college, and specifically, the Architecture program, has changed the lives of students from around the world, offering a career path in architecture to anyone who applies. Diversity at ELAC is the direct result of its location and community. ELAC's achievement over the last decade has exerted a remarkable influence on University Architecture programs across the nation by educating the most competitive transfer candidates in the country. ELAC currently produces the highest number (23+) of annual university transfers in the State, more than 330 over the last thirteen years, with a retention/graduation rate of 97%. Local Universities, including USC, SCI-Arc, Cal Poly Pomona & Woodbury compete for our transfer students, who often receive multiple acceptance offers and scholarships. In addition, we send students across the nation to universities such as, Harvard, Pratt, Copper Union, Syracuse, Virginia Tech, IIT, etc. In addition to the transfer success and University relationships, the Architecture program engages in many University competitions and activities.

The phenomenal success of ELAC, given the challenges that its students face on a daily basis, is clearly connected to the innovated teaching philosophy and a connection to its community. The transformative and innovative ELAC Design Studio curriculum mirrors the 1st and 2nd year design studios of the Universities, however, includes coursework in technology, practice, and the arts and humanities to provide a broader foundation and perspective on the profession. Within industry sponsored competitions and exhibits, ELAC competes head to head with universities, ELAC students win scholarships and competitions, including the prestigious AIA-Los Angeles Student Competitions and 2x8 Student Exhibition.

ELAC has developed a support system of former students and role-model architects and their firms to connect with current students as mentors, coaches, jurors, instructors and guest lecturers, and created a unique "architecture specific" departmental link to Academic College Counseling. ELAC has assembled a highly proactive Advisory Board from six Universities and some of the most influential Architecture firms in California, including the California State Architect and the California Architecture State License Board. Internationally renowned architects serve as both faculty and lecturers. More than 23 Scholarships from industry and firm advisors are awarded annually. ELAC also created a Community Outreach program that includes presentations and grant-supported programs with regional high schools and middle schools, as well as a Community Studio with ambassadors from its diverse local and international student body to assist and reach out to municipal and community organizations. This has now morphed into a Dual Pathway program with LAUSD and MUSD. We are currently on 5 High School campuses offering a variety of our introductory courses that lead to certificates and of course, to the transfer course work.

We are an open campus and program. The approximate annual number of students in our program is between 200 to 250 students, primarily part-time and engaged in employment. The average time spent per student in our department greatly depends on the course load they are able to manage between work and family. The average duration per student is about 3 years.

Please visit our website, www.elarchitecture.org and/or visit us on Facebook, "ELAC Architecture"

MISSION STATEMENT

The Department of Architecture at East Los Angeles College is committed to providing students of all populations' access to the Profession of Architecture and the allied careers with the highest level of curricular offerings and professional development.

1. Develop community awareness of how architecture and the built environment has an impact on productivity and personal well-being through livable communities and sustainable cities.
2. Respond effectively to the significant environmental, political and economic challenges facing society.
3. Provide effective and innovative instruction through relevant courses in the architecture profession, and digital technology.
4. Provide courses that encourage students to think critically and increase awareness of the dynamic between the environment and themselves.
5. Develop courses for students to think creative and develop problem solving abilities.
6. Communicate design and ideas through drawing and visual languages.
7. Provide transfer programs to continue upper division work at universities and institutions.
8. Provide Occupational Programs to develop skills for employment, job advancement, certification and associate degree.
9. Make learning innovative and fun.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Note: All Architecture and Architectural Technology students must see the Architectural Advisor in room E7-136 for program approval.

Architecture majors may take other classes in architecture when signing up for ARC 110, 130 or 131. Counseling by department chair is highly recommended prior to doing so.

See Architecture 170, 171, 172, 173, 271, and 272 for Drafting courses.

See Architecture 160, 161, 162, 164, 261, 262, and 264 for Computer-Aided Design courses.

Architecture (ARC)

110 Introduction to Architecture (1) CSU

LECTURE, 1 HOUR.

Note: Open to all students. Satisfies 1 unit of General Education in Humanities requirements for graduation.

This is an introductory lecture course on the profession of architecture and related fields which provides a general overview of the profession of architecture in terms of its history and development, the education process, the practice of architecture and allied professionals in the construction industry, and environmental design.

115 Architectural Practice (2) CSU

LECTURE, 2 HOURS.

This course presents a study of the architecture profession and the construction field with respect to education and registration; professional relations; office procedures; marketing; business; and legal aspects.

121 Freehand Drawing I (2) UC:CSU

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This course involves the development of freehand graphic skills for visual communication, expression, and as a medium for perception of form and visual thinking.

Developmental methods are explored through a variety of graphic media and tools applied to a wide variety of architectural subjects and design themes.

122 Architectural Perspective (2) UC:CSU

Advisory: Architecture 170.

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This course covers the various methods of making three-dimensional pictorial drawings. Through a series of exercises, students develop technical skills to simulate 3D spaces on a 2D plane. Topics include: Review of the different pictorial systems used in the field of architecture, the technical principles of traditional perspective, tips and tricks to promptly create freehand perspective sketches that are proportionate, rendering vocabulary (tones, values, light, shadows, reflections) and computer applications. Upon successful completion of the course, students are able to produce traditional architectural "napkin" sketches to quickly convey their design intent.

130 History of Architecture I (2) UC:CSU

LECTURE, 2 HOURS.

Note: Open to all students. Satisfies 2 units of General Education in Humanities requirements for graduation.

The development of architecture from prehistoric times to the beginning of the Renaissance. The development of Architecture as influenced by geographical, geological, climatic, religious, social, and historical forces.

131 History of Architecture II (2) UC:CSU

LECTURE, 2 HOURS.

Note: Open to all students. Satisfies 2 units of General Education in Humanities requirements for graduation.

The course covers the development of architecture from the Renaissance to the present. The following influences are emphasized in the shaping of architecture: Geographical, geological, climatic, religious, social, and historical.

160 Computers for Designers (3) CSU

LECTURE, 1.5 HOURS; LABORATORY, 4.5 HOURS.

This is an introductory course emphasizing how to optimize and understand the role of digital medium in today's design industry. Scanning, image manipulation, digital presentations, printing, Web publishing, imaging, and graphics software are covered.

161 Introduction to Computer-Aided Architectural Design (2) CSU

Corequisite: Architecture 180.

LECTURE, 1 HOURS; LABORATORY, 2 HOURS.

This is the first course in a series of Computer Aided Design (CAD) classes using AutoCAD. Through lectures, demonstrations, and hands-on lab exercises, students learn the basic concepts involved in the creation of CAD-generated architectural drawings. Topics include: Drawing setup, basic and intermediate draw and modify commands, layers, text, dimensioning, and printing. Upon successful completion of this course, students are able to accurately produce 2-D architectural drawings such as plans and elevations that follow CAD standards.

162 Computer-Aided Design and Drafting (3) CSU

Prerequisite: Architecture 161.

Corequisite: Architecture 182.

LECTURE, 1 HOURS; LABORATORY, 5 HOURS.

This is the second course in a series of Computer-Aided Design (CAD) classes using AutoCAD. Through lectures, demonstrations, and hands-on lab exercises, students learn advanced concepts involved in the creation of CAD-generated architectural drawings. Topics include: Advanced draw and modify commands, block creation, paper space/model space, layouts, external references, and isometric drawings. The semester ends with an introduction to 3D modeling. Upon successful completion of this course, students are able to accurately produce complex 2D drawings and to create basic 3D digital models.

164 Design Software for Architecture (2) CSU

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This is a hands-on introduction to software used in the fields of architecture, interior design and construction. Through lectures, demonstrations and hands-on lab exercises, students learn the concepts of Building Information Modeling (BIM). Tools used for parametric building design and documentation are covered. By the end of the class, students are able to create an entire project, from schematic design through construction documentation and identify the benefits of BIM. Photorealistic rendering techniques and walkthroughs are also introduced.

165 Sustainable Design and Building Information Modeling (2) CSU

Prerequisite: Architecture 164.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course examines the underlying principles of sustainability design. Major aspects of sustainable design such as site location, energy efficiency, and material selection are covered. In addition, this course addresses the importance of Building Information Modeling (BIM) as it relates to sustainable design. Several application projects are designed during the semester.

170 Beginning Architectural Drafting (2) CSU

LECTURE 1 HOUR; LABORATORY, 3 HOURS.

This course is an introduction to graphics for students with no drafting knowledge, and for the person entering architecture, urban planning, landscape architecture, art, interior design, and the allied fields. Training in developing multi-view drawings of building exteriors, interiors, floor plans, and furniture is emphasized.

171 Architectural Detailing (2) CSU

Prerequisite: Architecture 170.

LECTURE 1 HOUR; LABORATORY, 3 HOURS.

In this course, drafting skills as well as construction knowledge are developed by the study of specific construction details. Specialized drawings are drafted of foundations, walls, ceilings, roofs, doors, windows, cabinets, etc. Some drawings are made 'full-size' in order to comprehend joinery techniques. Scale models, freehand sketching of details, and metrics are also explored.

172 Architectural Drawing I (3) CSU

Prerequisite: Architecture 170.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course covers the preparation of working drawings for a one-story, wood-framed residence, and the study of construction methods, materials, and building ordinances. It also examines the integration and implementation of active and passive sustainable practices of design and construction technologies. Graphic representation of site, foundation, floor and roof plans, schedules, cross sections, details, and interior and exterior elevations are also included.

173 Architectural Drawing II (3) CSU

Prerequisite: Architecture 172.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course covers the preparation of working drawings for a two-story, wood-framed building and the study of construction methods, materials, and building ordinances. Students examine the integration and implementation of active and passive sustainable practices of design and construction technologies. Special consideration is given to solving problems involving two-story construction in addition to existing one-story structures. Other topics include graphic representation of site, foundation, floor and roof plans, schedules, cross sections, details, and interior and exterior elevations.

180 Computer-Aided Architectural Laboratory (1) CSU

Corequisites: Architecture 161.

LABORATORY, 2 HOURS.

This course is a lab that is a corequisite for ARC 161. This lab allows the students to have access to the software used in the Architecture department to either complete class assignments or work on projects.

182 Computer-Aided Architectural Laboratory (1) CSU

Corequisite: Architecture 162.

LABORATORY, 2 HOURS.

This course is a lab that is a corequisite for ARC 162. This lab allows the students to have access to the software used in the Architecture department to either complete class assignments or work on projects.

201 Architectural Design I (3) UC:CSU

Prerequisite: Environmental Design 102.

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This course is a design studio of small scale architectural projects that explore the development of space and form through the influences of functional/social programs and materiality/structure/construction systems situated within a limited site context. Emphasis is placed on internally driven forces and relationships as primary influences within the design process to generate architectural design solutions. Comprehensive analysis and research of significant architecture precedents and building types additionally inform the process for the design problems.

202 Architectural Design II (3) UC:CSU

Prerequisite: Architecture 201.

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This course is a design studio of medium-scale architectural projects investigating the development of space and

form through the influences of the existing context and environment, including cultural, geography, scale, private/public concerns, historical precedents, social and cultural conditions, and pertinent planning guidelines. Strategies in sustainability and lighting are also studied and applied to the architectural projects within urban environments. Emphasis is placed on the externally driven forces and relationships as primary influences within the design process to generate architectural design solutions that are contextual and responsive to the immediate and larger contextual environment.

210 Construction Estimating (3) CSU

LECTURE, 3 HOURS.

The students are introduced to methods used in determining quantity take-offs and cost estimates of labor and materials in the construction industry. Topics include: Excavation, concrete, masonry, wood framing, wet and dry walls systems, paints and wall coverings, hardware, and building equipment.

211 Introduction to Building Codes (3) CSU

LECTURE, 3 HOURS.

This course is an introduction to the California Building Codes, current edition and municipal ordinances regulating various types of occupancies and zoning regulations. Introduction to the basic chapters from occupancy, occupant load calculation, construction types, allowable heights and areas, fire resistive construction, means of egress and accessibility, in addition, an introduction to the California Green Standards Code is provided.

221 Architectural Rendering (2) UC:CSU

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This course offers opportunities for the development of graphic techniques and the use of media for visual communication in a variety of two-dimensional formats and compositions. The methods employed in the selection of media, techniques, and composition are also studied in relation to the communication of architectural design and concepts.

223 Portfolio Development (1) CSU

LABORATORY, 2 HOURS.

This course assists students in the development and production of a portfolio to present a student's creative, technical and graphic communication work. Principles of graphic design are studied and applied to the visual organization and presentation of the contents. Topics include critical selection of contents, storyboard development, developing a project description, graphic layout, typography, and photography techniques of a student's work. These topics are examined in terms of the intended audience and effective communication strategies. The fundamentals of a variety of digital applications are reviewed and applied to edit images, layout of contents, and final visual presentation of the portfolio.

261 Computer-Aided Design for Architecture I (3) CSU

Prerequisite: Architecture 162.

Corequisite: Architecture 280.

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This is the third course in a series of Computer-Aided Design (CAD) classes using AutoCAD. Through lectures,

demonstrations, and hands-on lab exercises, students learn the concepts involved in the creation of 3D digital architectural models. Topics include: Solid modeling, surface modeling, mesh modeling, Non-Uniform Rational B-Spline (NURBS), materials, lighting, photorealistic rendering, fly-around, and walk-through. Upon successful completion of this course, students are able to generate professional 3D digital models, renderings, and Animations that they can use to convey their design.

262 Computer-Aided Design for Architecture II (3) CSU

Prerequisite: Architecture 261.

Corequisite: Architecture 282.

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This is the fourth and final course in a series of Computer-Aided Design (CAD) classes using AutoCAD and advanced 3D modeling software such as 3ds Max Design. Through lectures, demonstrations, and hands-on lab exercises, students learn the concepts involved in the creation of complex 3D digital architectural models. Topics include: Advanced 3D modeling, material creation, lighting, special effects, advanced rendering and Animation, and basic video compositing. Upon successful completion of this course, students are able to generate high-impact visual 3D digital Animations that communicate the story behind the design.

264 3D Modeling for Designers (3) CSU

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This course is an introduction to 3-D digital modeling using SketchUp Pro and similar software for the field of Architecture. Through lectures, demonstrations, and hands-on lab exercises, students learn the fundamentals of design visualization and apply the learned concepts to quickly create compelling 3-D conceptual digital models. Upon successful completion of this course, students are able to use the software to develop design ideas, generate layouts of their projects, and produce full-featured renderings and animations such as walkthroughs.

271 Architectural Drawing III (3) CSU

Prerequisite: Architecture 173.

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This course covers the study of concrete block and/or brick buildings along with the further development of wood frame construction. Analysis is made of long span techniques and construction. It includes the further study of construction materials and building ordinances, and an introduction to interior design colors, materials, and furniture. Creative graphic representation via site and floor plans and interior and exterior elevations is also considered.

272 Architectural Drawing IV (3) CSU

Prerequisite: Architecture 271.

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This course covers the design and construction of concrete buildings in working drawings with specific emphasis on tilt-up concrete construction and wood frame, long span beam techniques. Further study is provided for construction materials, details, and building ordinances as well as interior design color and material board presentation of finishes, materials, fixtures, and furniture selections. Working drawings, creative architectural design, and graphic presentation methods are emphasized.

280 Computer-Aided Design for Architecture I Laboratory (1) CSU

Corequisite: Architecture 261.

LABORATORY, 2 HOURS.

This course is a lab that is a corequisite for ARC 261. This lab allows the students to have access to the software used in the Architecture department to either complete class assignments or work on projects.

282 Computer-Aided Design for Architecture II Laboratory (1) CSU

Corequisite: Architecture 262.

LABORATORY, 2 HOURS.

This course is a lab that is a corequisite for ARC 262. This lab allows the students to have access to the software used in the Architecture department to either complete class assignments or work on projects.

185 Directed Study - Architecture (1) CSU

285 Directed Study - Architecture (2) CSU

385 Directed Study - Architecture (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Architecture on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC does not grant credit for variable topics courses in Architecture because of credit restrictions in this area.

Environmental Design (ENV)

101 Foundations of Design I (3) UC:CSU

Advisory: Architecture 170.

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This course is a design studio introducing formal and spatial visual design concept and principles, strategies and systems related to the design of the built environment. Two- and three-dimensional problems are introduced, processes studied and solutions evaluated. Examples exhibited in the natural environment are referenced and applied to inform these processes. Drawing and modeling techniques are developed as investigative tools, representational and expressive visual media.

102 Foundations of Design II (3) CSU

Prerequisite: Environmental Design 101.

Advisory: Architecture 170.

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This course is a design studio introducing environmental, architectural and societal design considerations. Two- and three-dimensional problems are introduced, processes studied and solutions evaluated. Principles of how a process and solution to a design problem is derived and influenced by the physical laws of nature; derived by the physical materials and methods of working with those materials; human and natural environmental factors; and physical dimensions and activities with the human cultural, political and social environment. These topics and processes are also investigated in their inter-relationship to sustainable design considerations and objectives.

Art Department

S2-202 • (323) 265-8842

The department acknowledges a commitment to the entire community for providing a comprehensive program of art courses. These are designed to stimulate and encourage visual experience as it relates to culture, past, present, and future. Further, the course offerings emphasize knowledge of the relationships between the arts, and bring to each student a greater awareness of his or her potential as a unique human being.

The programs offered by the Art Department stresses the study of art both as a subject and an activity. This approach provides the flexibility necessary to maintain both a rigorous and a personal training. Courses and course sequences are designed to develop the student's powers of observation and aesthetic awareness. Simultaneously the student is given the opportunity to develop the discipline of technique and craft with which to use these powers creatively. The faculty encourages the student to explore and experiment.

Whether the student's goals are vocational or personal, the recognition of art as a qualitative concern characterizes the philosophy of this department. Ultimately, the Art Department's program seeks to give the student every opportunity to develop his/her potential for aesthetic awareness, aesthetic expression, and critical analysis.

The Art Department strives to provide up-to-date, accurate, and functional educational experiences to every student.

*This course has a prerequisite or corequisite.

Associate in Arts in Art History for Transfer

The Associate in Arts in Art History for Transfer Degree offers academic training in visual literacy of Europe, Asia, Africa, and the Americas. Emphasis on visual, written, and oral communication and the language and methodology of art history prepares students for university transfer and to compete in upper-division coursework in a range of disciplines including the history of art and visual communication. Students must complete 60 required semester units of CSU transferable course work with a minimum grade point average of 2.0 including a minimum grade of "C" (or "P") for each course in the major. Certified completion of

Art Department

the California State University General Education–Breadth (CSU GE Breadth) or Intersegmental General Education Transfer Curriculum (IGETC) Pattern is also required.

Required Core Courses

SUBJECT & NO.	COURSE	UNITS

Associate in Arts in Studio Arts for Transfer

Visual communication is an essential part of the human experience. This Associate in Arts in Studio Arts for Transfer explores and analyzes the ways in which the visual arts take place in the public sphere, between individuals, in new media, and in other contexts. Students who successfully earn the Associate in Arts in Studio Arts for Transfer by completing a maximum of 60 transferrable units are guaranteed transfer admission into a California State University campus to further their study of Art.

Students who earn the Associate in Arts in Studio Arts for Transfer are able to:

- Transfer to a four-year CSU institution to pursue baccalaureate studies in Studio Arts or a related field.
- Define and apply aesthetic choices in daily life.
- Recognize and use different types of art making techniques and media.

Requirements:

- Completion of 60 CSU transferrable semester units:
 - 24 semester units in the approved Studio Arts courses;
 - Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements (CSU GE);
- Achieve a grade point average of 2.0.
- Earn a C (or "P") for each course in the major.

Notes: No remedial or non-collegiate level course work will be counted in the total units for this degree, Associate in Arts Degree

COMPLETE ADDITIONAL CSU UNITS, IF NEEDED, TO REACH 60 CSU TRANSFERABLE UNITS		
<i>IGETC or CSU GE Pattern</i>		
<i>Total</i>		<i>60</i>

**This course has a prerequisite or corequisite.*

Note: 6 units of major courses may be double counted towards General Education.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Title 5 changes effective Fall 2013 substantially restrict how many times students can take specific types of classes. Students enrolled in "active participation courses" in Kinesiology, visual arts, or performing arts are limited to four (4) enrollments per "family". Failures and W grades count as enrollments. A family can contain multiple courses, but a student can only take four of them. LACCD courses in Art, Dance Techniques, Kinesiology, Music, and Theater are all affected. For courses in the Art department, families have been created as follows:

ART FAMILY NAMES AND COURSE NUMBERS:

Art	ART 201, 202, 203
Ceramics	ART 708, 709, 710, 711
Design	ART 501, 502, 503
Drawing	ART 201, 202, 203, 209
Life Drawing	ART 204, 205, 206, 207, 215
Oil	ART 307, 308, 309
Water Color and Acrylic.	ART 213, 301, 302, 303, 304, 305, 306

Animation (ANIMATN)

212 Character Animation and Design (3) CSU

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course provides foundational character animation concepts. The concepts include key positions, breaking down movement, acting, takes, accents, gestures, dialogue, and facial expressions.

216 Layout and Background Art (3) CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course focuses on the fundamentals of background layout with an emphasis on perspective, composition, design basics, staging, mood, texture and lighting. Students also learn the basics of using props as background and foreground design elements.

217 Storyboards (3) CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course focuses on applying industry-standard storyboarding and scripting techniques to animation. Contents to be covered include the various purposes and formats of storyboards, the basic terminology and concepts used in storyboarding, and the application of storyboarding techniques to the creation of storyboards with or without a written script. Research and visualization are emphasized.

218 Fundamentals of Animation (3) CSU

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course provides foundational animation concepts and experimental techniques. The concepts include squash and stretch, anticipation, overlapping action, analyzing, and depicting natural forces. The techniques introduced

include drawing, puppet making, sand, paint, and cutouts, providing the basic principles of animation focusing on timing and weight through a series of projects..

219 Animation Process and Production (3) CSU

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course exposes students to the process and production in animation and related industries. Topics covered include preproduction and production, as well as project management from concept to completion including scheduling, budget management, and team building.

221 Advanced Three-Dimensional Animation I (3) CSU

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This advanced course introduces students to high-end three-dimensional Animation software. Students acquire familiarity with the expansive interface. Students gain basic understanding and proficiency in 3-D modeling, texture, and Animation. Basic Animation concepts are reinforced and demonstrated through regular projects.

225 Three-Dimensional Character Animation (3) CSU (Formally Animation 222)

Prerequisite: Animation 221.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course explores 3-D character animation, focusing on the 12 principles of traditional animation with emphasis on timing, weight, and performance. In addition, students are introduced to rigging a character using a skeleton, morph targets to create facial expressions, lip sync, and other animation techniques uniquely relevant to 3-D character animation including changes in translation, scale, and rotation through space in time as well as learning camera control and lighting techniques.

226 Three-Dimensional Previsualization and Camera Techniques (3) CSU

(Formally Animation 223)

Prerequisite: Animation 221.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course concentrates on 3-D animation techniques used in pre-production and production including cameras, lenses, mounting equipment, framing and composition, and natural and studio lighting as it applies to CGI. Students learn the difference between real cameras and 3D digital cameras, and create appropriate camera rigs to support the creation of digital animatics used in 3-D production.

227 Three-Dimensional Animation Project (3) CSU

Prerequisites: Animation 225 and Animation 226.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course concentrates on using advanced 3-D techniques to create, design and produce an animated 3-D project from concept to final edit. With the supervision of the instructor, students design, model, animate, render, and composite a project suitable for their portfolio while learning pre-production, production, and post-production pipelines and methods.

261 Introduction to Virtual, Mixed, and Augmented Reality (4) CSU

Prerequisite: Animation 227.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course covers Virtual, Augmented, and Mixed Reality. Through lectures, demonstrations and hands-on lab exercises, students learn the concepts involved in creating experiences in room scale virtual reality. Topics include asset preparation from 3-D software such as Maya for use in the Unreal Engine, lighting systems in Unreal, special effects, material and texture preparation, animation, sound, layout of production assets and navigation in Unreal Engine for room scale virtual reality. Upon successful completion of this course, students understand the production pipeline for studio-based projects in both Entertainment and Game Design. They will understand the needs of employers in this emerging field.

Art (ART)

103 Art Appreciation I (3) UC:CSU IGETC Area 3A (C-ID ARTS 100)

LECTURE, 3 HOURS.

This course is an introduction to world visual cultures. It involves a comparative study of the visual arts, from selected historical periods, designed to expand visual awareness and experience in order to increase one's ability to understand and evaluate visual forms that are part of their environment.

201 Drawing I (3) UC:CSU (C-ID ARTS 110)

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course provides beginning instruction in drawing with graphite, charcoal, conte' crayon, and other drawing media through the visual elements of art: Line, value, shape, form, mass, texture, and color. Subject matter from nature and still life is included. Basic skills are developed, such as eye-hand coordination and sighting techniques. The emphasis is on learning how to depict illusionistic space through the use of light logic and one- and two-point perspective. It is a basic course required for all art majors and is recommended for non-art majors.

202 Drawing II (3) UC:CSU (C-ID ARTS 205)

Prerequisite: Art 201.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course provides continuing instruction in drawing, developing a more sophisticated use of materials introduced in Art 201, and expanding the variety of drawing materials and techniques. In addition to convincingly representing three-dimensional objects on a two dimensional surface, students learn to recognize and utilize various genres as they relate to drawing, articulate perceptual vs. conceptual approaches to drawing, and develop an awareness of current trends in the art world. Emphasis is placed on creating a content outside of the subject matter.

203 Drawing III (3) UC:CSU

Prerequisite: Art 202.

Advisory: Art 501.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course provides continuing instruction in drawing, developing a more sophisticated use of materials introduced in Art 202 and expanding the variety of drawing materials and techniques. Students begin to employ

non-objective methods of description and visually interpret abstract, as well as concrete, ideas non-objectively, abstractly and realistically. Color and experimentation with media are encouraged.

204 Life Drawing I (3) UC:CSU (C-ID ARTS 200)

Advisory: Art 201.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course is an introductory and integrative course in the arts. It involves a study of the structure, proportion and articulation of the human figure for use in advertising, fashion, and illustration. Exercise in rapid figure indication.

205 Life Drawing II (3) UC:CSU

Prerequisite: Art 204.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

A course designed to develop the student's ability to draw from life in various media using quick sketch and long pose. Emphasis is placed on composition.

206 Life Drawing III (3) UC:CSU

Prerequisite: Art 205.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

A course designed to develop the student's ability to draw from life in various media using quick sketch and long pose. Emphasis is placed on anatomy.

207 Life Drawing IV (3) UC:CSU

Prerequisite: Art 206.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

A course designed to develop the student's ability to draw from life in various media using quick sketch and long pose with emphasis on placed on composition.

209 Perspective Drawing I (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course is an introductory and integrative course in the visual arts. As an extensive study of drawing, the course is designed to help the student to draw accurately. Development of drawing skills and the knowledge necessary to create the illusion of three-dimensional space on a two-dimensional surface, is sought through the understanding of 1pt, 2pt, and 3pt linear perspective. Included in this course is the exploration of rendering in various media and exploring both mechanical and freehand drawing from actual site observation and concept-based subject matter.

213 Color Theory (3) UC:CSU (C-ID ARTS 270)

Prerequisite: Art 501.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course examines color dynamics. The topics considered include form and value, harmony, and spatial effects. The major theorists introduced include Goethe, Itten, and Albers. In addition to the traditional 12-part color wheel, digital color principles are also examined.

215 Animal Drawing (3) UC:CSU

Prerequisite: Art 201.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

Note: This course requires the use of private vehicles for field trips.

This course is an introduction to drawing animals through analysis of form, including anatomical, environmental, and physiological.

300 Introduction to Painting (3) UC:CSU (C-ID ARTS 210)

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course provides beginning instruction in painting. Emphasis is placed on exploring painting materials and techniques towards the development of a representational image. A variety of subject matter are used, as well as a variety of art concepts related to imagery. Paint characteristics, light principles, and composition are stressed.

301 Watercolor Painting I (3) UC:CSU

Prerequisite: Art 201.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course is an introduction to transparent watercolor techniques, wet or dry washes, wet into wet, dry brush, resist, and preparation of the watercolor papers. Applications of drawing beginning, painting, and design fundamentals to these techniques are included.

302 Watercolor Painting II (3) UC:CSU

Prerequisite: Art 301.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

Advanced watercolor techniques, wet on dry washes, transparencies, wet into wet, and dry brush. Application of advanced painting and design fundamentals to these techniques.

304 Acrylic Painting I (3) UC:CSU

Prerequisite: Art 201.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course is an introduction to acrylic painting techniques, transparent and opaque. Techniques applied to a variety of surfaces, paper, board, canvas, application of painting and design fundamentals.

305 Acrylic Painting II (3) UC:CSU

Prerequisite: Art 304.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course is an intermediate and integrative course in painting and focuses on visual problems and concepts in space, form, structure, color, and content in studio painting.

306 Acrylic Painting III (3) UC:CSU

Prerequisite: Art 305.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This is an advanced and integrative course in painting that focuses on visual problems and concepts in space, form, structure, color, and content in studio painting.

307 Oil Painting I (3) UC:CSU

Prerequisite: Art 201.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This is an introductory course in oil painting and covers the basic skills and techniques of oil painting.

308 Oil Painting II (3) UC:CSU

Prerequisite: Art 307.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course is a continuation of Art 307. Composition, color and form are studied through a range of projects to bring the student in touch with contemporary ideas in the field of painting.

309 Oil Painting III (3) UC:CSU

Prerequisite: Art 308.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course is a continuation of Art 308. It emphasizes a more personal means of expression through individually-conceived projects.

501 Beginning Two-Dimensional Design (3) UC:CSU (C-ID ARTS 100)

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

Note: Required of all Art majors. Art 501 should be taken before more advanced studio classes and preferably in the same semester as Art 201.

This is an introductory and integrative course in the arts. It provides a study of the elements and principles common to the visual arts. A variety of tools and media are utilized in solving problems of relationships of the elements: line, value, color, texture, shape, form, mass, and space and the use of the principles: rhythm (variation and repetition), transition, balance, proportion emphasis (dominance and subordination), and contrast (opposition and tension). Projects are primarily abstract and two-dimensional. This is a basic requirement for all art majors and is recommended for non-art majors.

502 Beginning Three-Dimensional Design (3) UC:CSU (C-ID ARTS 101)

Prerequisite: Art 501.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This is a course in the use of art principles as applied to three-dimensional design. Emphasis is upon the development of abilities to adapt from two dimensions into three dimensions. Students work within actual limitations imposed upon professional designers.

503 Intermediate Design (3) UC:CSU

Prerequisite: Art 501.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course offers further examination of two- and three-dimensional design with an emphasis on research, experimentation, and further development of the ability to present ideas clearly and concisely using the elements and principles of design.

600 Typography I (3) CSU

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

A study of letterforms with emphasis on their use in graphic communication. Focus is placed on style/matrix, spacing regarding positive/negative space, proportion and their applied use in Graphic Design. Technical and conceptual skills in the use of typography are stressed.

601 Typography II (3) CSU

Prerequisite: Art 600.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course is an advanced study of letterforms with emphasis on their use in graphic communication. Focus is placed on digital use and digital font creation.

604 Graphic Design I (3) CSU

Prerequisite: Art 501.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course introduces beginning graphic design students to the concepts, principles, and procedures used in the field of graphic design.

605 Graphic Design II (3) CSU

Prerequisite: Art 604.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course is a continuation of the principles of Art 604 and continues beyond the basics to advanced principals and procedures in advertising and graphic design. It includes projects in advertising, publication design, packaging, and corporate identity.

606 Graphic Design III (3) CSU

Prerequisite: Art 605.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course is a continuation of principles of Art 605 and emphasizes advanced problem-solving skills and solutions to more advanced advertising/promotional graphic design. It includes a graphic design workshop and computer graphics. Emphasis is placed on corporate identity (logos, letterheads and promotional communications) and portfolio preparation and evaluation.

633 Introduction to Computer Graphics (3) CSU (C-ID ARTS 250)

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course serves as an introduction to basic computer graphics with the emphasis and focus being on how it is employed in the fields of Graphic Design and Art. Basic design principles, typography, and color theory are also introduced.

635 Desktop Publishing Design (3) CSU

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course serves as an introduction to basic computer graphic layout and composition with the emphasis on how it is employed in the fields of Graphic Design and Art. This course can also be applicable for advertising design, journalism and fine art. Software includes, but is not limited to the current versions of Adobe InDesign, Photoshop and Illustrator, with a major emphasis on InDesign and multi-page layout design. The class focuses on creating strong designs and layouts featuring both text and image. Basic concepts relating to typography, page layout, and grid systems are explored.

639 Introduction to Digital Imaging (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This is an introductory computer graphics course that focuses on the manipulation of still images. Software includes, but is not limited to, the current version of Adobe Photoshop. Topics presented include, but are not limited to,

image editing, application of filters, integration of text, restoration of photographs, and the fundamentals of basic two-dimensional design as applied to both fine art and graphic design.

641 Advanced Desktop Publishing (3) CSU

Prerequisite: Art 635.

LECTURE, 2 HOURS; LABORATORY 4 HOURS

This is an advanced course in computer graphic layout and composition with the emphasis on how they are employed in the fields of Graphic Design and Art. The content builds upon Art 635 and focuses on the creation of strong, multi-page designs and layouts featuring both typography and visual imagery. This is a project-oriented course where the work is more advanced and more complex than that in Art 635. Software includes, but is not limited to, the current versions of Adobe InDesign, Photoshop and Illustrator, with a major emphasis on InDesign and multi-page layout design.

645 Introduction to Web Site Design (3) CSU

Prerequisite: Art 639.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course is designed to give students a basic introduction to the concepts and techniques used in designing websites employing the principles of design, color theory, typography, and composition. Software includes, but is not limited to the current versions of Adobe Dreamweaver and Photoshop.

646 Intermediate Web Site Design (3) CSU

Prerequisite: Art 645.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This is an intermediate course designed to build upon the content from Art 645. It focuses on the creation of strong, multi-page website designs and layouts employing the principles of design, color theory, typography, and composition. This is a project-oriented course where the work is more advanced and more complex than that in Art 645. Software includes, but is not limited to, the current versions of Adobe Dreamweaver and Photoshop.

708 Introduction to Ceramics (3) UC:CSU

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This is an introductory and integrative course in the ceramic arts. A variety of techniques will be covered as it relates to hand building, wheel throwing, glazing and firing. A thorough understanding of these processes will be developed as well as the beginnings of a personal aesthetic through discussion and hands on interaction with the material.

NOTE: Expectant mothers are advised against enrolling in this course due to exposure to chemicals known to the State of California to cause birth defects.

709 Ceramics I (3) UC:CSU

Prerequisite: Art 708.

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This course provides students with continued practice in forming processes and surface treatments, with an emphasis on design including beginning glaze chemistry and loading and firing of kilns.

710 Ceramics II (3) UC:CSU

Prerequisite: Art 709.

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This course offers continued practice in forming methods and surface treatments, with an emphasis on design, intermediate glaze chemistry, and various firing processes.

711 Ceramics III (3) UC:CSU

Prerequisite: Art 710.

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This course offers continued practice in forming methods and surface treatments, with an emphasis on design, advanced glaze chemistry, various firing processes, and portfolio development.

185 Directed Study - Art (1) CSU

285 Directed Study - Art (2) CSU

385 Directed Study - Art (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Art on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Art History (ARTHIST)

100 Introduction to Visual Culture and Cultural Studies (3) UC:CSU IGETC Area 3A

Advisory: English 101.

LECTURE, 3 HOURS; LABORATORY, 1 HOUR.

This introductory course explores visual representations across cultures and various media from prehistory to the present. Emphasis is placed on postmodern forms of visual communication, which include advertisements, film, YouTube, the Internet, fashion, music videos, posters, and other visual forms of communication. Situating the visual contextually requires investigation into other forms of cultural constructs, and may include study of ideology, commerce, power, religion, diaspora, gender and sexuality, politics, space of production, and memory.

110 Survey of Western Art History I (3)

UC:CSU IGETC Area 3A (C-ID ARTH 110)

Advisory: English 101.

LECTURE, 3 HOURS; LABORATORY, 1 HOUR.

This course follows the historical development of visual art (including painting, sculpture, architecture, and other forms) produced by European, North African, and Middle Eastern peoples from prehistory to ca. 1300. Art is discussed in its historical and cultural context. Among the cultures covered are: Mesopotamian, Egyptian, Persian, Greek, Roman, Early Christian, Byzantine, Medieval, and Islamic.

111 Introduction to Ancient Art of the Mediterranean (3) UC:CSU IGETC Area 3A

Advisory: English 101.

LECTURE, 3 HOURS.

This course follows the historical development of visual art (including painting, sculpture, architecture, and other forms) produced by European, North African, and peoples in the ancient world. Art is discussed in its historical and cultural context. Among the cultures covered are: Egyptian, Minoan, Mycenaean, Greek, and Roman.

116 Introduction to Medieval Art of Europe (3) UC:CSU IGETC Area 3A

Advisory: English 101.

LECTURE, 3 HOURS.

This course surveys art and architecture of Western Europe from the Early Christian period to the beginnings of the Renaissance. The monumental arts and the diverse minor arts of the Middle Ages are presented within the social, religious, and political frameworks of lands as varied as France and Denmark, Spain and Turkey. Stylistic and iconographic issues and themes are thoroughly addressed with attention paid to aesthetic and social contents.

120 Survey of Western Art History II (3)

UC:CSU IGETC Area 3A (C-ID ARTH 120)

Advisory: English 101.

LECTURE, 3 HOURS; LABORATORY, 1 HOUR.

This course follows the historical development of visual art (including painting, sculpture, architecture, and other forms) produced in Europe and United States from ca. 1300 to the present. Art is discussed in its historical and cultural context. The following styles are covered: Late Gothic, International, Renaissance, Mannerism, Baroque, Rococo, Neoclassicism, Romanticism, Modern, and Contemporary.

121 Introduction to Renaissance Through Rococo Art (3) UC:CSU IGETC Area 3A

Advisory: English 101.

LECTURE, 3 HOURS.

This course follows the historical development of visual art (including painting, sculpture, architecture, and other forms) produced in Europe from ca. 1300 to ca. 1800. Art is discussed in its historical and cultural context. The following styles are covered: Renaissance, Mannerism, Baroque, and Rococo.

126 Introduction to Modern Art (3) UC:CSU IGETC Area 3A

Advisory: English 101.

LECTURE, 3 HOURS.

This course is an examination of Western art and its relationship to social, political, and economic aspects of modern society, beginning with the French Revolution and ending with the outbreak of World War II. The influence of the Enlightenment, Industrial Revolution, cross-cultural influences of Western and non-Western cultures, artistic response to new intellectual trends and disciplines, innovations in technology, the impact of first World War, various stylistic movements, as well as methodological approaches to analysis of the subject are considered.

130 Survey of Asian Art History (3) UC:CSU IGETC Area 3A

Advisory: English 101.

LECTURE, 3 HOURS; LABORATORY, 1 HOUR.

This introductory survey course follows the development of Asian visual cultures, including India, China, Korea, Japan, and Southeast Asia (Thailand, Cambodia, Java). Art is discussed in its historical and cultural context. Religious and philosophical influences on art and architecture; as well as, the interchange of cultural influence and artistic expression, are considered. The following major systems of belief and their impact on artistic production are covered: Buddhism, Hinduism, Jainism, Confucianism, Taoism, Shinto, Islam, and Sikhism.

131 Introduction to Asian Art: East and the Pacific (3) UC:CSU IGETC Area 3A

Advisory: English 101.

LECTURE, 3 HOURS.

This course follows the historical development of visual culture from East Asia and the Pacific (including painting, sculpture, architecture, and other forms), from prehistory to the present. Art is discussed in its historical and cultural context, with emphasis on China, Korea, Japan, and Australia, while including areas of North Asia, such as Mongolia, and the Pacific, like Papua New Guinea, Easter Island, and Hawaii.

136 Introduction to Asian Art: South, Southeast, and Ancient Western Asia (3) UC:CSU IGETC Area 3A

Advisory: English 101.

LECTURE, 3 HOURS.

This course follows the historical development of ancient West, South, and Southeast Asian visual art (including painting, sculpture, architecture, and other forms), from prehistory to the present. Art is discussed in its historical and cultural contexts, with emphasis on the art of India, and cultural exchange extending west to Mesopotamia, and southeast to Indonesia, including Buddhist, Hindu, Islamic, Sikh, and other indigenous visual traditions.

139 Introduction to Islamic Art (3) UC:CSU IGETC Area 3A

Advisory: English 101.

LECTURE, 3 HOURS.

This course follows the global historical development of Islamic visual art (including painting, sculpture, architecture, and other forms). Art is discussed in its historical and cultural context.

140 Survey of Arts of Africa, Oceania, and Ancient America (3) UC:CSU IGETC Area 3A (C-ID ARTH 140)

Advisory: English 101.

LECTURE, 3 HOURS; LABORATORY, 1 HOUR.

This introductory survey course follows the development of the visual arts of Africa, the Pacific, and America (with an emphasis on the period before European contact). Art is discussed in its historical and cultural context. Deconstruction of the historiography of these peoples, and critical analysis of methods of display used in exhibiting the visual culture produced, is central to this course.

141 Introduction to African Art (3) UC:CSU IGETC Area 3A
Advisory: English 101.

LECTURE, 3 HOURS.

This course examines the history and appreciation of the arts of Africa and the African Diaspora, the continent of Africa within historical, cultural, religious, socio-political, and aesthetic contexts, the impact of African art in Europe and the Americas, and contemporary African art.

151 Introduction to Latin American Art (3) UC:CSU IGETC Area 3A
Advisory: English 101.

LECTURE, 3 HOURS.

This course is a survey of the art and architecture of Latin America, beginning with Pre-Columbian period but focusing primarily on the 19th to 21st centuries. This course examines the major historical periods of Latin American history and visual culture. These periods include an introduction to pre-Hispanic civilizations, Colonial rule and Independence, the emergence of Modernism and the Avant-garde, and contemporary art and architecture in Latin America. This course will examine the social, economic, political and religious context of the production and use of the works of art considered.

161 Introduction to American Art (3) UC:CSU IGETC Area 3A
Advisory: English 101.

LECTURE, 3 HOURS.

This course is an introductory survey of American Art from its pre-Colonial past to the contemporary era with a focus on the social, political, economic, and philosophical conditions that have resulted in a culturally diverse artistic tradition. The contributions and influences of immigrants, Native Americans, Chicano Americans, Latin Americans, and European Americans are studied in relation to historical contexts.

162 Introduction to California Art and Architecture (3) UC:CSU IGETC Area 3A
Advisory: English 101.

LECTURE, 3 HOURS; LABORATORY, 1 HOUR.

This course is an introduction to art in California, with emphasis on the Los Angeles area.

171 Introduction to Global Contemporary Art (3) UC:CSU IGETC Area 3A
Advisory: English 101.

LECTURE, 3 HOURS.

This course considers thematic and historical developments of Contemporary visual art (including painting, sculpture, architecture, new media, and other forms), produced by the global community, focusing on Postmodernism, Identity Politics, Diaspora, and Globalization.

181 History of Women and Art (3) UC:CSU IGETC Area 3A
Advisory: English 101.

LECTURE, 3 HOURS.

This introductory course surveys the history of women's contributions to the development of visual arts, with emphasis on the Western world from the Renaissance to the present. Students discuss art in its socio-political context, focusing on factors that impacted the role of women in patronage and production. They investigate

methodological approaches, master art historical vocabulary, perform close visual analyses and discuss the representation of women in visual culture.

191 Introduction to Street Art and Urban Visual Culture (1) CSU

LECTURE, 1 HOUR.

This course examines contemporary street art in Los Angeles. Students discuss media, techniques, and subject matter as well as the social, political, and economic influences on the development of graffiti and street art. Students gain appreciation for visual culture in the urban environment, including but not limited to murals, sculpture, architecture, site-specific, and transient work.

196 Current Art Events and Exhibitions (0.5) CSU

LECTURE, 0.5 HOUR.

Current art exhibits in the greater Los Angeles area are visited, and discussed, taking into consideration the historical context of the selected works displayed. Discussion of these activities may include guest artists and faculty. Exploration of concept and themes concerning art and cultural institution governing and the practice of art may also be considered. Exhibitions at the following institutions may be included: The Getty Center, the Getty Villa, the Los Angeles County Museum of Art, the Hammer Museum, the Fowler Museum, the Museum of Contemporary Art, the Huntington Museum, the Pacific Asia Museum, the Skirball Museum, the Museum of African Art, the Pasadena California Art Museum, the Autry Museum, and the Vincent Price Art Museum. Galleries, artist studios, and other art-related events in and around the Los Angeles area may be included.

200 Introduction to Museum Studies and Gallery Practices (3) CSU

Advisory: English 101.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This is an introductory course about Museum Studies and Gallery Practices including, but not limited to, the history and philosophy of museums; the social, economic, and political trends that shape museums; the staffing, management, and financing of museums; and the multiple functions of museums, such as the collection and care of objects, exhibition design and interpretation, education programs, research activities, library collections, and public relations. The course also includes curatorial strategies, exhibition design, proper handling of artworks and their installation, gallery preparation and maintenance, gallery lighting, production and distribution of press releases, announcements, exhibitions lists, and related gallery literature. Students personally engage with museum professionals, including: Department directors, curators, registrar, conservators, collection managers, educators, exhibit designers, and art preparation staff.

285 Directed Study - Art History (2) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Art History on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC

Automobile Technology Department

PI BUILDING • (323) 265-8726

The Automobile Technology program at East Los Angeles College is NATEF (National Automotive Technician Education Foundation) certified. This program prepares students for a career in the high tech world of transportation repair. Los Angelinos value and depend on their cars, making the maintenance and repair industry a growth field, a trend that is predicted to continue for decades. All major domestic and import auto manufacturers are located in the area, and repair departments are a major component of their operations. Computerization has revolutionized automobile design, and mechanics need a comprehensive knowledge of all the systems of a vehicle to be successful in industry.

Students may enter the program with no prior experience and build their skills so they are able to diagnose and repair today's sophisticated automobiles. Faculty members are ASE (Automotive Service Excellence) certified Master technicians with many years of experience in private industry. The automobile technology facilities are second to none. Students use state-of-the-art tools and equipment. Hands-on laboratories combined with lectures that describe all the mechanical systems of modern cars and the latest computer-assisted repair and testing equipment prepare students to transition easily into automotive dealerships or independent repair shops.

To inquire about all phases of the program, call the Automobile Technology Department at (323) 265-8726.

SKILLS CERTIFICATES

Automotive Customer Service Management

This skills certificate is designed to familiarize students with the theory and application of automotive technical systems and industry practices. Students will learn office and organizational skills necessary to deliver excellent customer service. Successful completion of this skills certificate will allow students the opportunity to enter the auto industry as service writers and customer service managers.

SUBJECTS & COURSE DESCRIPTIONS

Automobile Technology (AUTOMO)

101 Introduction to Automobile Technology (4) CSU
LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This course is designed to introduce fundamental operation of an automobile and its systems to students with little or no automotive knowledge. Discussion, demonstration, and hands on exercises are used throughout the course to facilitate the overall understanding of how a vehicle operates. Students acquire a basic understanding of automotive systems as well as develop essential skills to continue in the automobile technology program.

111 Engine Repair and Rebuilding (5) CSU
Prerequisite: Automobile Technology 101.

LECTURE, 3.5 HOURS; LABORATORY, 3.5 HOURS.

This course presents the basic principles of operation, nomenclature, and repair of the internal combustion engine. This course emphasizes problem solving skills as they apply to diagnosing engine mechanical problems. Topics include engine design, cylinder block assembly, cylinder head and valve train, lubrication system, cooling system, servicing the engine block, servicing the cylinder head, piston and ring service, gaskets, seals, and engine problem diagnosis.

115 Automobile Repair Work Experience (2) CSU
Prerequisite: Automobile Technology 101.

LABORATORY, 6 HOURS.

This course provides a repair facility atmosphere for students wanting to expand and fine-tune their automotive work skills. Students are assigned actual customer vehicles, thus simulating real work experience at an automobile repair facility.

201 Automatic Transmission and Transaxle (5) CSU
Prerequisite: Automobile Technology 101.

LECTURE, 3 HOURS; LABORATORY, 4 HOURS.

The course is designed to provide the student with the basic skills necessary to diagnose drive train and automatic transmission malfunctions. The topics presented include the construction, operation, maintenance, and adjustment of automatic transmission and drive train components as well as use of special tools. Students work in a laboratory environment where they are required to overhaul automatic transmissions, both front and rear wheel drive.

301 Manual Drive Train Axles (5) CSU
Prerequisite: Automobile Technology 101.

LECTURE, 3 HOURS; LABORATORY, 4 HOURS.

This course presents the theory and skills needed to diagnose and repair manual transmissions, transaxles, and drive-line components. Topics include: Clutches, drive-lines, half-shafts, transmissions, differentials, transfer cases, and related four-wheel-drive systems. Theory and hands-on experiences are utilized and at least one rear wheel drive and one front wheel drive transmission are disassembled, inspected, and reassembled.

401 Suspension, Steering, and Wheel Alignment (5) CSU

Prerequisite: Automobile Technology 101.

LECTURE, 3 HOURS; LABORATORY, 4 HOURS.

This course presents the theory and skills needed to diagnose and repair worn suspension components, steering components, drive axles, CV joints, and power steering components. Wheel alignment and wheel balancing on the latest computerized equipment is practiced. Upon successful completion of this course, students learn the theory and acquire the skills needed to pass the ASE examination.

501 Automobile Braking Systems (5) CSU

Prerequisite: Automobile Technology 101.

LECTURE, 3 HOURS; LABORATORY, 4 HOURS.

This course studies theory, operation, inspection, repair, and diagnosis of the modern automotive brake system. Extensive hands-on training includes replacing worn components, turning drums and rotors, bleeding and adjusting brakes, and the diagnosis and repair of anti-lock brake system. Upon successful completion of this course, students will be able to perform a complete brake job, and they have the skills to pass the Automotive Service Excellence (ASE) Brake Examination.

601 Automobile Electrical/Electronic Systems (5) CSU

Prerequisite: Automobile Technology 101.

LECTURE, 3 HOURS; LABORATORY, 4 HOURS.

This course presents the theory and skills needed to diagnose, troubleshoot and repair automobile electrical, electronic and computer control systems. Topics include: Electrical system principles, fundamentals of electronics, circuit diagrams, electrical and electronic test equipment, cranking and charging systems, lighting motors, audio, sensors, supplemental restraint systems (SRS), accessories, ignition, computer-controlled actuators and hybrid electronics.

701 Automobile Heating and Air Conditioning (5) CSU

Prerequisite: Automobile Technology 101.

LECTURE, 3.5 HOURS; LABORATORY, 3.5 HOURS.

This course is designed to provide instruction in the operation and repair of the modern automotive heating and air conditioning systems. With modern equipment students get hands-on experience testing, servicing, and repairing the automotive heating and air conditioning system as well as converting R-12 systems to R-134a. In addition, the Mobile Air Conditioning Society (MACS) license exam is covered and the test administered during this class.

801 Advanced Engine Performance (5) CSU

Prerequisite: Automobile Technology 101.

LECTURE, 3 HOURS; LABORATORY, 4 HOURS.

This course presents the theory and operation of engine performance control systems. Students interpret, verify, and perform engine diagnosis of fuel, fuel injection, ignition, cooling, electronic, electrical, and emission control systems and devices using the industry's latest text, tools, and test equipment such as: Digital multimeters, oscilloscopes, gauges, and gas analyzers.

901 Hybrid Service and Safety (3)

Prerequisite: Automobile Technology 101.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

Note: credit given for only one of Automobile Technology 901 or Automobile Service Technology 55.

This is an introductory course to service and safety procedures on Hybrid-Electric Vehicles. Topics include: Various Hybrid-Electric designs, operation, service, and safety of vehicles currently in production, as well as those being developed for the future. Students achieve a basic understanding of complex Hybrid-Electric systems through research and lab practices. Students learn safety and operation procedures of equipment used during diagnosis, maintenance, repair, and service of Hybrid-Electric Vehicles.

185 Directed Study - Automobile Technology (1) CSU

285 Directed Study - Automobile Technology (2) CSU

385 Directed Study - Automobile Technology (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Automobile Technology on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Business Administration Department

F7-303 • (323) 415-4149

With the economic expansion that has occurred in recent years and the great leaps that we have taken in the fields of Business and Computers, the need for well-trained, computer literate individuals who have a good understanding of Accounting and Business subjects has increased tremendously. The Business Department is well poised to train and nurture such individuals.

We offer programs, courses, certificates, and skills sets in several areas of accounting including Financial, Managerial, Governmental, Cost, Auditing and Taxation.

We offer courses in Computer Science and Computer Information Systems covering basic principles to major programming languages (BASIC, Visual BASIC, C, C++, JAVA, VB.net and others) from operating systems and different computer applications, the Internet and Web Design.

We offer courses in Business Law and Real Estate (from Real Estate principles to Real Estate Economics, Real Estate Finance, Mortgage Loan Brokering, Escrow and Appraisal), which can lead to positions as a Real Estate Salesperson, Real Estate Broker, Escrow Officer and Appraiser.

We have course offerings in the areas of Business Management, Hospitality, Marketing, Supervision, and Finance, which help individuals in running their own businesses to working for major businesses and governmental institutions.

All of our courses can lead to excellent job opportunities and/or transfer to universities.

Hospitality

This Certificate in Hospitality is comprised of a series of courses focus on developing students' knowledge and skills for advancement in the hospitality industry beyond entry level. This knowledge and skills consist of entrepreneurship, management, supervision, and general business operations. Through these courses students' will develop an understanding of various theories and concepts that can be applied in the hospitality industry. Students' will learn how to plan the launching of new ventures, advertising and explore management concepts for stand-alone and/or existing company models.

The requirements are chosen to optimize student preparation for development of soft skills, career advancement and job placement in the Hospitality field.

SUBJECT & NO.	COURSE	UNITS
HOSPT 100	Introduction to the Hospitality Industry ...	3
HOSPT 340	Introduction to Professional Food Service	3
HOSPT 136	Event Management	3
MGMT 13	Small Business Entrepreneurship	3
MGMT 2	Organization and Management Theory...	3
MARKET 11	Fundamentals of Advertising.....	3
SUPV 1	Elements of Supervision	3
Total.....		18

Real Estate Broker

This program is designed to prepare students to take the examination to become a State Licensed Real Estate Broker.

A licensed real estate broker sells houses and other real estate properties independently or under the guidance of another broker.

SUBJECT & NO.	COURSE	UNITS
REAL ES 3	Real Estate Practices.....	3
REAL ES 5	Legal Aspects of Real Estate I.....	3

Associate in Science in Business Administration for Transfer

The Associate in Science in Business Administration for Transfer (AS-T) degree meets the lower division course requirements necessary for the California State University (CSU) system. The Business Administration curriculum is designed for students who are interested in an encompassing, formal business education. Upon successful completion of this program, the student will have an extensive background in the principles and practices of the business world.

Students will acquire a broad fundamental knowledge of the theory and practice of business and the skills needed to successfully apply their knowledge in a professional environment.

Students are required to complete 60 semester units or 90 quarter units of CSU transferable coursework with a minimum overall grade point average of 2.0, including a minimum grade of "C" (or "P") for each course in the major, and completion of IGETC and/or CSU GE-Breadth.

Required Core Courses

Associate in Arts in Law, Public Policy, and Society for Transfer

The Associate of Arts in Law, Public Policy and Society for Transfer Degree is designed to meet requirements for transfer to the California State University System (CSU). The degree provides a broad range of courses that are appropriate preparation for a variety of CSU majors such as: American Studies, Communications, Criminal Justice, Criminology, Global Intelligence and National Security, International Relations, Philosophy, Political Science, Social Behavioral Sciences (Political Economy Concentration), etc. Students should consult a counselor and/or the catalog of the transfer college or university to plan a specific program of study to meet the college or university's requirements. The degree also provides students strong critical thinking, writing, and communication skills that are the foundation for success in law school or other graduate programs.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Accounting (ACCTG)

1 Introductory Accounting I (5) UC:CSU (C-ID ACCT 110)

LECTURE, 5 HOURS.
 Note: Business Administration majors who intend to transfer to a four-year college are advised to take this course their third semester.

This course is the study of accounting as an information system, examining why it is important and how it is used by investors, creditors, and others to make decisions. The course covers the accounting information system, including recording and reporting of business transactions with a focus on the accounting cycle, the application of generally accepted accounting principles, financial statements, and statement analysis. Includes issues relating to asset, liability, and equity valuation, revenue and expense recognition, cash flow, internal controls, and ethics.

2 Introductory Accounting II (5) UC:CSU (C-ID ACCT 120)

Prerequisites: Accounting 1, or Accounting 21 and Accounting 22.

LECTURE, 5 HOURS.
 This course focuses on the use and reporting of accounting data for managerial planning, cost control, and decision-making purposes. The course includes broad coverage of concepts, classifications, and behaviors of costs. Topics include cost systems, the analysis and use of cost information, cost-volume-profit analysis, contribution margin, profit planning, standard costs, relevant costs, and capital budgeting.

3 Intermediate Accounting I (3) CSU

Prerequisite: Accounting 1 or Accounting 21 and Accounting 22.

LECTURE, 3 HOURS.
 This course provides complete analytical application and an advanced review of topics discussed in Accounting I. Topics include assets (current, fixed, and intangible),

investments, financial statements, income taxes, liabilities, stockholders equity, revenue recognition, asset acquisition, and leases.

11 Cost Accounting (3) CSU

Prerequisite: Accounting 2.

LECTURE, 3 HOURS.
 In this course, students analyze both managerial and cost accounting, with emphasis on cost and non-cost systems; types of cost; elements of cost; cost behavior; variances for labor, materials, and overhead; indirect expenses; allocation of cost to by-products; and standard cost and budgets.

12 Auditing (3) CSU

Prerequisite: Accounting 2.

LECTURE, 3 HOURS.
 In this course, students study the principles of auditing and the techniques used in conducting an independent audit including an exploration of the requisite skills and knowledge needed to conduct an independent audit of financial statements. Practice is given in the preparation of audit working papers and audit reports.

15 Tax Accounting I (3) CSU

LECTURE, 3 HOURS.
 In this course, students are provided with a basic understanding of the federal income tax process, federal income tax laws that apply to individuals, and the application of tax principles to specific problems. Topics include gross income and exclusions, business deductions and itemized deductions, losses, certain tax credits and property transactions.

16 Tax Accounting II (3) CSU

Prerequisite: Accounting 1 or Accounting 21 and Accounting 22.

LECTURE, 3 HOURS.
 This course continues the study of Federal Income Taxes and the analysis of laws as well as consideration of appropriate accounting procedures and preparation of reports and returns as they apply to partnerships, limited liability companies, corporations, and S corporations.

17 Payroll Accounting (2) CSU

Prerequisite: Accounting 1 or Accounting 21.

LECTURE, 2 HOURS.
 This course provides students with the knowledge of all fundamental activities of a complete payroll system from manual to current automated systems, including Social Security benefits, taxes, payroll laws and regulations, and the ability to process an organization's payroll.

19 Ethics for Accounting Professionals (3)

LECTURE, 3 HOURS.
 This course is a survey and study of ethics in business and accounting areas including the study of moral values, personal integrity, professional accountability, business legitimacy, equity and fairness. This course also includes the study of the Sarbanes-Oxley Act, Codes of conduct, Circular 230, and case analysis.

21 Bookkeeping and Accounting I (3) UC:CSU

LECTURE, 3 HOURS.

Note: Accounting 21 plus 22 are equivalent to Accounting 1. Maximum UC Credit is 5 units. Both Accounting 21 and 22 must be taken for credit to be given.

This course is intended for students interested in basic bookkeeping and accounting for personal and small business use. This course covers basic accounting systems, including recording and reporting of business transactions with a focus on the accounting cycle, the application of generally accepted accounting principles, financial statements, and statement analysis. It includes issues relating to asset, revenue and expense recognition, internal controls, bank reconciliation, inventory valuation, and ethics

22 Bookkeeping and Accounting II (3) UC:CSU*Prerequisite: Accounting 21.*

LECTURE, 3 HOURS.

Note: Accounting 21 plus 22 are equivalent to Accounting 1. Maximum UC Credit is 5 units. Both Accounting 21 and 22 must be taken for credit to be given.

This course is the equivalent of the second half of Accounting 1. The course covers the application of generally accepted accounting principles, financial statements, and statement analysis. The course includes issues relating to assets, liabilities, and equity valuation, revenue and expense recognition, cash flow, internal controls, and ethics.

28 Introduction to Accounting Software (2) CSU

LABORATORY, 4 HOURS.

This course provides practice in the operation of typical accounting business software applications on a micro-computer. Students have to complete a company's practice set using accounting business software to record transactions, adjustments, and the presentation of financial statements.

32 Accounting Using QuickBooks Pro (3)

LECTURE, 3 HOURS.

This course to perform accounting uses QuickBooks software applications with an emphasis on setting up new companies, data input, updating information on lists, analyzing information, generating reports, and decision making using case studies.

33 Special Enrollment Examination Preparation - Individuals (2)

LECTURE, 2 HOURS.

In this course, students study federal income tax policies, regulations, and concepts relating to individuals in preparation for the Part 1 of the Special Enrollment Examination. Topics include preliminary work, taxpayer data, income, assets, deductions, credits, taxation advice, and specialized returns for individuals. Successful completion of this course does not guarantee students pass Part 1 of the Special Enrollment Examination.

34 Special Enrollment Examination Preparation - Businesses (2)

LECTURE, 2 HOURS.

In this course, students study federal income tax policies, regulations, and concepts relating to businesses in

preparation for the Part 2 of the Special Enrollment Examination. Topics include business entities, business financial information, as well as specialized returns and taxpayers. Successful completion of this course does not guarantee students pass Part 2 of the Special Enrollment Examination.

35 Special Enrollment Examination Preparation - Representation, Practices and Procedures (2)

LECTURE, 2 HOURS.

In this course, students study federal income tax policies, regulations, and concepts relating to taxpayer representation, practices, and procedures in preparation for the Part 3 of the Special Enrollment Examination. Topics include practice before the Internal Revenue Service, requirements for Enrolled Agents, types of representation and completing the filing process. Successful completion of this course does not guarantee students pass Part 3 of the Special Enrollment Examination.

38 International Accounting (3) CSU

LECTURE, 3 HOURS.

In this course, students study international accounting standards, guidelines, and practices relevant to multinational corporations. The course explores International Financial Reporting Standards (IFRS), the international convergence of financial standards, foreign currency transactions, international taxation, global auditing, and corporate governance in multinational corporations.

45 Governmental Accounting I (3)

LECTURE, 3 HOURS.

This course is designed to support the development of an understanding of Generally Accepted Accounting Principles (GA/ASP), Governmental Accounting Standards Board (GASB) and financial reporting standards for state and local government organizations. Topics include government accounting concepts, budget preparation and control, fund accounting, debt and fixed asset accounting, Comprehensive Annual Financial Report (CAFR) financial reporting and various other accounting concepts applicable to governmental accounting.

46 Governmental Accounting II (3)*Prerequisite: Accounting 45.*

LECTURE, 3 HOURS.

This course is a continuation of Accounting 45. It provides intense study of the accounting and financial reporting procedures for government and not-for-profit sectors. Promulgated accounting standards, conceptual issues, and special topics are examined. This class further explores the updates of financial reporting model and related FASB Codification topics with references to real world institutions, ranging from state and local governments and not-for-profit entities. Course emphasis is on proprietary, fiduciary, and not-for-profit fund accounting as well as financial reporting, auditing, budgeting, and performance measures.

66 Introduction to Forensics Accounting (3)*Prerequisite: Accounting 1 or Accounting 21 and Accounting 22.*

LECTURE, 3 HOURS.

This is a course on forensic accounting. This course includes discussions regarding the legal environment in

which a forensic accountant serves, an overview of how to manage the engagement, gathering of evidence, financial analysis, an overview of fraud investigation, and business valuation fundamentals.

Business (BUS)

1 Introduction to Business (3) UC:CSU (C-ID BUS 110)

LECTURE, 3 HOURS.

Students engage in a multidisciplinary examination of how culture, society, economic systems, legal, international, political, financial institutions, and human behavior interact to affect a business organization's policy and practices within the U.S. and global society. The course demonstrates how these influences impact the primary areas of business including: organizational structure and design, leadership, human resource management, risk management and insurance, organized labor practices, ethics and social responsibility, marketing, organizational communication, e-business/technology, entrepreneurship, legal, accounting, and financial practices, and the stock and securities market; and therefore how they affect a business' ability to achieve its organizational goals.

11 Job Retention and Responsibility (1)

LECTURE, 1 HOUR.

This course covers a variety of topics related to succeeding at work as an office assistant, an administrative assistant, a secretary, and/or a medical administrative assistant. Topics include job orientation, business office employer expectations, customer service, dealing with difficult co-workers in the office, goal setting and career planning, mentoring, continuing education, and business ethics. Students are also asked to examine their personal lives to determine and correct any potential issues that may hinder their ability to maintain their jobs in an office.

15 Business Statistics (3) UC:CSU IGETC Area 2A

Prerequisite: Mathematics 125, 125S or 134.

LECTURE, 3 HOURS.

This course covers topics in regression, correlation, experimental design, sampling methods, and other statistical methods with emphasis on their application to problems in practical business administration operations. The students learn to apply the above statistical methodologies to business decision making and risk assessment.

Computer Information Systems (CIS) Effective Spring 2020

101 Introduction to Computers and Their Uses (3) UC:CSU

(Formerly CO SCI 201).

LECTURE, 3 HOURS.

This course teaches concepts of information systems and their role in business. This course focuses on information systems, database management systems, networking, Internet, e-commerce, ethics and security, computer systems hardware and software components, and webpage development. This course includes a hands-on component for developing computer-based solutions to common business problems, and practical workplace skills.

111 Supporting Windows Desktops (3) CSU *(Formerly CO SCI 234).*

Prerequisite: Computer Information Systems 101 or Computer Science Information Technology 201.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course provides an introduction to operating systems concepts including installation, configuration, file systems, directory structures, memory and storage management, utilities, and maintenance using a variety of operating systems.

120 Introduction to Databases (3) CSU *(Formerly CO SCI 233).*

Prerequisite: Computer Information Systems 101 or Computer Science Information Technology 201.

LECTURE, 5 HOURS; LABORATORY, 2 HOURS.

This course covers a complete presentation of database creation and management using Access. It includes database design, creation of tables, forms, queries, reports, macros, integrating data into a database, and using Structured Query Language (SQL).

123 Microcomputers in Business (3) CSU *(Formerly CO SCI 200).*

Prerequisite: Computer Information Systems 101 or Computer Science Information Technology 201.

LECTURE, 3 HOURS.

This course teaches advanced techniques in word processing and spreadsheets. It includes creating mail-merged documents using Excel and Access data sources, Excel advanced formulas, and the use of advanced adaptive Excel tools (formulas, logic, conditional formatting, data validation, pivot tables, pivot charts, and relationships).

146 Introduction to Web Page Design (3) CSU *(Formerly CO SCI 257).*

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course is designed to introduce students the basics of web design using HTML (Hypertext Markup Language), CSS (Cascading Style Sheets), Photoshop, Content Management Systems, and web editing tools. The course does not require any prior knowledge of HTML or web design. Throughout the course students are introduced to planning and designing effective web pages; understanding of website development phases, implementing web pages by writing HTML and CSS code; enhancing web pages with the use of page layout techniques, text formatting, graphics, images, and multimedia; and developing dynamic websites.

147 CIWA Web Page Authoring Fundamentals (3) CSU *(Formerly CO SCI 259).*

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

Students learn basic internet concepts and technologies. Students learn to develop web sites by applying concepts like tables, layers, cascading styles sheets, frame sets, image maps, lists, forms, and dynamic content using basic JavaScript and JQuery. Website folder structures are covered to ensure students learn how to organize and maintain their website appropriately. Students also learn how to use SFTP to upload and maintain their websites.

162 Cyber Security I (3) CSU
(Formerly CO SCI 211).

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course introduces the fundamental concepts and skills required to pursue a career in Cyber Security, Information Security and Risk Management, at an organizational level. Topics covered include hardware, software, processes, communications, applications, policies, and procedures with respect to organizational Cyber Security and Risk Management best practices. This course also assists in the preparation for the CompTIA Security+ certification exams.

192 Introduction to Cloud Computing (3) CSU
(Formerly CO SCI 276).

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course introduces cloud computing which shifts information systems from on-premises computing infrastructure to highly scalable Internet architectures. The course provides a solid foundation of cloud computing technologies and provides students with the understanding required to effectively evaluate and assess the business and technical benefits of cloud computing and cloud applications. Students analyze a variety of cloud services (storage, servers and software applications) and cloud providers. Case studies are used to examine various industry cloud practices and applications. The course also surveys cloud careers and discusses industry demand for cloud skills.

193 Database Essentials in Amazon Web Services (3) CSU
(Formerly CO SCI 277).

Prerequisite: Computer Information Systems 192 or Computer Science Information Technology 276.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course addresses cloud database management which supports a number of different approaches for storing data. In the course, students define, operate and scale both SQL and noSQL data storage solutions. This course considers factors that should be balanced during the design of a storage solution. Principles are applied by performing exercises using Amazon RDS and SQL to create and fill tables, retrieve and manipulate data. Object-based APIs are used to serialize objects to Amazon DynamoDB for noSQL solutions. Topics include automated backups, transaction logs, restoration, and retention.

194 Computer Engines in Amazon Web Services (3) CSU
(Formerly CO SCI 278).

Prerequisite: Computer Information Systems 192 or Computer Science Information Technology 276.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

Cloud computing systems are built using a common set of core technologies, algorithms, and design principles centered around distributed systems. In this hands-on introductory course, students use the Amazon Web Services (AWS) Management Console to provision, load-balance and scale their applications using the Elastic Compute Cloud (EC2) and the AWS Elastic Beanstalk. This course

discusses, from a developer perspective, the most important reasons for using AWS and examines the underlying design principles of scalable cloud applications.

195 Security in Amazon Web Services (3) CSU
(Formerly CO SCI 279).

Prerequisite: Computer Information Systems 192 or Computer Science Information Technology 276.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

Protecting the confidentiality, integrity and availability of computing systems and data is of utmost importance to all organizations. In this hands-on introductory class, students learn how Amazon Web Service (AWS) uses redundant and layered controls, continuous validation and testing, and a substantial amount of automation to ensure the underlying infrastructure is continuously monitored and protected. Students examine the AWS Shared Responsibility Model and access the AWS Management Console to learn more about security tools and features provided by the AWS platform.

210 Introduction to Computer Networking (3) CSU
(Formerly CO SCI 237).

LECTURE, 3 HOURS.

This course covers the fundamental principles and concepts of networks and data communications. It explores the fundamentals of telecommunications, data and voice transmission, transmission media, network equipment and devices, networking software, topologies, architecture, protocols and standards, the Open Systems Interconnection (OSI) model, Transmission Control Protocol/Internet Protocol (TCP/IP), local area networks (LAN), wide area networks (WAN), and network security.

222 PC Maintenance and Troubleshooting (3) CSU
(Formerly CO SCI 212).

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course provides an introduction to troubleshooting and maintenance techniques for personal and laptop computers. The course provides the student with applicable knowledge in different hardware such as RAM, hard drives, and processors. A step by step approach is taken to operating system procedures used for maintaining and repairing personal computers. Some of these procedures include virus scan, program installation and removal, and Windows configurations.

**Computer Science (CS)
Effective Spring 2020****111 Programming in Visual BASIC** (3) UC:CSU
(Formerly CO SCI 208).

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course teaches the fundamental principles of object-oriented programming (OOP) design and concepts, using the Visual Basic programming language. It teaches the basics of the Visual Basic programming language using the latest version of Visual Studio Integrated Development Environment (IDE). Students learn to design and develop programs using the following programming constructs and techniques: data representation using variable and constant objects; sequential, selection, and repetition control structures; designing classes, subroutines, and functions; use of arrays to sort and search data lists;

and designing applications with a Graphical User Interface (GUI) using objects such as labels, buttons, text boxes, menus, dialog boxes, and multiple forms.

112 Programming in JavaScript (3) UC:CSU
(Formerly CO SCI 262).

Advisory: Computer Information Systems 146 or Computer Science Information Technology 257.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

Introduces JavaScript to Web developers with HTML and CSS background who want to create dynamic Web pages and to Server-side programmers who use languages like ASP, JSP, or PHP and would like to add JavaScript programming to their skill sets. Students integrate script elements, outputting to a web document, working with selections, repetition structures, writing functions; and accessibility to create dynamic web applications.

113 Programming in Java (3) UC:CSU
(Formerly CO SCI 290).

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course teaches the fundamental principles of object-oriented programming design and concepts to design applications, using the Java programming language. It uses the latest version of the Java Standard Edition Development Kit. Students learn to design and develop programs using the following programming techniques and constructs: Algorithm development, data representation using variable and constant objects; control structures; designing classes, methods, and functions; use of arrays; and Graphical User Interface design.

115 Programming in C# (3) UC:CSU
(Formerly CO SCI 295).

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course covers principles of event-driven programming and object-oriented design in Windows applications using the C# programming language (including data encapsulation, inheritance, and polymorphism). Topics include the Visual Studio IDE and .NET Framework control classes. Students create Graphical User Interface (GUI) classes, objects, methods, event-handlers, constructors, arrays, and multi-form projects, including use of strings, data validation, and exception handling and access modifiers.

116 Programming in C++ (3) UC:CSU
(Formerly CO SCI 243).

Prerequisite: Computer Information Systems 101 or Computer Science Information Technology 201.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

In this course, students are introduced to basic concepts of Computer Science, problem-solving methods, algorithms, software design principles, testing, debugging, and basics of C++. Topics include variables, expressions, data types, input/output (I/O), branches, loops, functions, parameter passing, file I/O, and arrays.

119 Programming in Python (3) UC:CSU
(Formerly CO SCI 224).

Prerequisite: Computer Information Systems 101 or Computer Science Information Technology 201.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course covers topics of the Python language, which include: Data types, variables, control structures, objects and object-oriented programming, standard mathematical libraries, tool-chain use and Python Frameworks, user-defined classes and abstract collections, single arrays, multidimensional arrays, Python lists, tuples, collections, and dictionaries.

130 Introduction to Computer Architecture and Organization (3) UC:CSU
(Formerly CO SCI 216).

Prerequisite: Computer Science 116 or Computer Science Information Technology 234.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course covers the basics of computer architecture concepts and Assembly language. Topics include data representation, number systems, records and arrays, instruction sets and addressing modes, subroutines and macros, I/O and interrupts, machine language, and Assembly programming.

131 Discrete Structures for Computer Science (3) UC:CSU
(Formerly CO SCI 252).

Prerequisite: Computer Science 113 or Computer Science Information Technology 290 or Computer Science 116 or Computer Science Information Technology 243.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course is an introduction to the discrete structures used in Computer Science with an emphasis on their applications. Topics covered include: Functions, Relations and Sets, Basic Logic, Proof Techniques, Basics of Counting, Graphs and Trees, and Discrete Probability.

136 Introduction to Data Structures (3) UC:CSU
(Formerly CO SCI 236).

Prerequisite: Computer Science 216 or Computer Science Information Technology 240.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course is an introduction to the study of Data Structures. It introduces the student to data structures as formed from primitive data types. The role of abstract data types (including stacks, queues, lists, trees, and graphs), their definitions, implementation and application in program design and algorithm development are discussed. The course covers the broader topic of Abstract Data Types (ADTs) - the study of classes of objects whose logical behavior is defined by a set of values and a set of operations. This course is equivalent to CS2 as defined by the Association for Computing Machinery (ACM) organization.

152 Server-Side Ruby Web Programming (3) CSU
(Formerly CO SCI 258).

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course introduces students to create database-driven web application using the open-source dynamic object-oriented scripting language Ruby. The course

covers the web development life cycle by using HTML 5, CSS, and Ruby a modern web scripting language used by several cutting edge companies. Students learn about object-oriented programming, conditionals, loops, methods, variables, arrays, classes, and objects. Debugging and error checking methods such as exception handling, regular expressions I/O objects, and modules are also covered in the class. Introduction to database languages such as SQL, and MySQL databases and the interaction both the server-side language and backend database are taught. This is course is for students who are interested in developing web applications using the latest scripting languages like Ruby on Rails.

211 Advanced Visual Basic Programming (3) CSU

Prerequisite: Computer Science 111 or Computer Science Information Technology 208.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course teaches advanced principles of object-oriented programming (OOP) design and concepts, using the Visual Basic programming language using the latest version of Visual Studio Integrated Development Environment (IDE). Students learn to design and develop programs with objects, classes, exception handling, GUI, DBMS, SQL, ASP.NET, Data Structures, and Recursion.

213 Advanced Programming in Java (3) CSU

Prerequisite: Computer Science 113 or Computer Science Information Technology 290.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course covers principles of object-oriented design and programming using Java. Additional topics include writing applets, working with exceptions, file input/output, networking, building event driven GUIs, and developing multithreaded programs using concurrency, and Unified Modeling Language.

216 Object Oriented Programming in C++ (3) UC:CSU (Formerly CO SCI 240).

Prerequisite: Computer Science 116 or Computer Science Information Technology 243.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

In this course, students learn Object-Oriented and Advanced programming with C++ including Classes, Data Abstractions, Inheritance, Composition, Virtual Functions, Operators & Functions Overloading, Templates, Exception Handling, Recursion, Pointers, Dynamic Data Types, and Linked Lists.

Computer Science Information Technology (CO SCI)

Note: As of Spring 2020 all courses under the CO SCI prefix will split into either CIS (Computer Information Systems) or CS (Computer Science). See CIS and CS course descriptions for conversions.

200 Microcomputers in Business (3) CSU

Prerequisite: Computer Science Information Technology 201.

LECTURE, 3 HOURS.

This course teaches advanced techniques in word processing and spreadsheets. It includes creating mail-merged documents using Excel and Access data sources,

Excel advanced formulas, and the use of advanced adaptive Excel tools (formulas, logic, conditional formatting, data validation, pivot tables, pivot charts, and relationships).

201 Introduction to Computer Information Systems (3) UC:CSU

(C-ID BUS 140)

LECTURE, 3 HOURS.

This course gives students an introduction to the uses, concepts, techniques and terminology of computing. Lectures and course materials place the possibilities and problems of computer use in historical, economical and social contexts. The course provides college-level and workplace skills in word processing, spreadsheets and presentation graphics. The course also provides familiarization with databases and programming and includes Internet methods and procedures.

208 Beginning Visual Basic Programming (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course teaches the fundamental principles of object-oriented programming (OOP) design and concepts, using the Visual Basic programming language. It teaches the basics of the Visual Basic programming language using the latest version of Visual Studio Integrated Development Environment (IDE). Students learn to design and develop programs using the following programming constructs and techniques: data representation using variable and constant objects; sequential, selection, and repetition control structures; designing classes, subroutines, and functions; use of arrays to sort and search data lists; and designing applications with a Graphical User Interface (GUI) using objects such as labels, buttons, text boxes, menus, dialog boxes, and multiple forms.

211 Introduction to Cyber Security (3) CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course introduces the fundamental concepts and skills required to pursue a career in Cyber Security, Information Security and Risk Management, at an organizational level. Topics covered include hardware, software, processes, communications, applications, policies, and procedures with respect to organizational Cyber Security and Risk Management best practices. This course also assists in the preparation for the CompTIA Security+ certification exams.

212 PC Maintenance and Troubleshooting (2) CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course provides an introduction to troubleshooting and maintenance techniques for personal and laptop computers. The course provides the student with applicable knowledge in different hardware such as RAM, hard drives, and processors. A step by step approach is taken to operating system procedures used for maintaining and repairing personal computers. Some of these procedures include virus scan, program installation and removal, and Windows configurations.

216 Computer Architecture and Assembly Language (3) UC:CSU (C-ID COMP 142)

Prerequisite: Computer Science Information Technology 243.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course covers the basics of computer architecture concepts and Assembly language. Topics include data representation, number systems, records and arrays, instruction sets and addressing modes, subroutines and macros, I/O and interrupts, machine language, and Assembly programming.

224 Python Programming (3) UC:CSU

Prerequisite: Computer Science Information Technology 201.

LECTURE, 2 HOURS; LABORATORY 2 HOURS.

This course covers topics of the Python language, which include: Data types, variables, control structures, objects and object-oriented programming, standard mathematical libraries, tool-chain use and Python Frameworks, user-defined classes and abstract collections, single arrays, multidimensional arrays, Python lists, tuples, collections, and dictionaries.

233 Microcomputer Database Programming (3) CSU

Prerequisite: Computer Science Information Technology 201.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course covers a complete presentation of database creation and management using Access. It includes database design, creation of tables, forms, queries, reports, macros, integrating data into a database, and using Structured Query Language (SQL).

234 Operating Systems (3) CSU

Prerequisite: Computer Science Information Technology 201.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course provides an introduction to operating systems concepts including installation, configuration, file systems, directory structures, memory and storage management, utilities, and maintenance using a variety of operating systems.

236 Introduction to Data Structures

(3) UC:CSU (C-ID COMP 132)

Prerequisite: Computer Science Information Technology 240.

LECTURE, 2 HOURS; LABORATORY 2 HOURS.

This course is an introduction to the study of Data Structures. It introduces the student to data structures as formed from primitive data types. The role of abstract data types (including stacks, queues, lists, trees, and graphs), their definitions, implementation and application in program design and algorithm development are discussed. The course covers the broader topic of Abstract Data Types (ADTs) - the study of classes of objects whose logical behavior is defined by a set of values and a set of operations. This course is equivalent to CS2 as defined by the Association for Computing Machinery (ACM) organization.

237 Introduction to Computer Networks (3) CSU

LECTURE, 3 HOURS.

This course covers the fundamental principles and concepts of networks and data communications. It explores the fundamentals of telecommunications, data and voice transmission, transmission media, network equipment and devices, networking software, topologies, architecture, protocols and standards, the Open Systems Interconnection (OSI) model, Transmission Control Protocol/Internet Protocol (TCP/IP), local area networks (LAN), wide area networks (WAN), and network security.

240 C++ Programming II (3) UC:CSU

Prerequisite: Computer Science Information Technology 243.

LECTURE, 2 HOURS; LABORATORY 2 HOURS.

In this course, students learn Object-Oriented and Advanced programming with C++ including Classes, Data Abstractions, Inheritance, Composition, Virtual Functions, Operators & Functions Overloading, Templates, Exception Handling, Recursion, Pointers, Dynamic Data Types, and Linked Lists.

243 Programming in C++ (3) UC:CSU

Prerequisite: Computer Science Information Technology 201.

LECTURE, 2 HOURS; LABORATORY 2 HOURS.

In this course, students are introduced to basic concepts of Computer Science, problem-solving methods, algorithms, software design principles, testing, debugging, and basics of C++. Topics include variables, expressions, data types, input/output (I/O), branches, loops, functions, parameter passing, file I/O, and arrays.

252 Discrete Structures with Application Programming (3) UC:CSU (C-ID COMP 152)

Prerequisite: Computer Science Information Technology 290 or Computer Science Information Technology 243.

LECTURE, 3 HOURS.

This course is an introduction to the discrete structures used in Computer Science with an emphasis on their applications. Topics covered include: Functions, Relations and Sets, Basic Logic, Proof Techniques, Basics of Counting, Graphs and Trees, and Discrete Probability.

257 Introduction to Web Page Design (3) CSU

LECTURE, 2 HOURS; LABORATORY 2 HOURS.

This course is designed to introduce students the basics of web design using HTML (Hypertext Markup Language), CSS (Cascading Style Sheets), Photoshop, Content Management Systems, and web editing tools. The course does not require any prior knowledge of HTML or web design. Throughout the course students are introduced to planning and designing effective web pages; understanding of website development phases, implementing web pages by writing HTML and CSS code; enhancing web pages with the use of page layout techniques, text formatting, graphics, images, and multimedia; and developing dynamic websites.

258 Server-Side Ruby Web Programming (3) CSU

LECTURE, 2 HOURS; LABORATORY 2 HOURS.

This course introduces students to create database-driven web application using the open-source dynamic object-oriented scripting language Ruby. The course covers the web development life cycle by using HTML 5, CSS, and Ruby a modern web scripting language used by several cutting edge companies. Students learn about object-oriented programming, conditionals, loops, methods, variables, arrays, classes, and objects. Debugging and error checking methods such as exception handling, regular expressions I/O objects, and modules are also covered in the class. Introduction to database languages such as SQL, and MySQL databases and the interaction both the server-side language and backend database are taught. This is course is for students who are interested in developing web applications using the latest scripting languages like Ruby on Rails.

259 Web Development Using HTML/CSS (3) CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

Students learn basic internet concepts and technologies. Students learn to develop web sites by applying concepts like tables, layers, cascading styles sheets, frame sets, image maps, lists, forms, and dynamic content using basic JavaScript and JQuery. Website folder structures are covered to ensure students learn how to organize and maintain their website appropriately. Students also learn how to use SFTP to upload and maintain their websites.

262 Programming in JavaScript (3) UC:CSU*Advisory: Computer Science Information Technology 257.*

LECTURE, 2 HOURS; LABORATORY 2 HOURS.

Introduces JavaScript to Web developers with HTML and CSS background who want to create dynamic Web pages and to Server-side programmers who use languages like ASP, JSP, or PHP and would like to add JavaScript programming to their skill sets. Students integrate script elements, outputting to a web document, working with selections, repetition structures, writing functions; and accessibility to create dynamic web applications.

276 Introduction to Cloud Computing (3) CSU

LECTURE, 2 HOURS; LABORATORY 2 HOURS.

This course introduces cloud computing which shifts information systems from on-premises computing infrastructure to highly scalable Internet architectures. The course provides a solid foundation of cloud computing technologies and provides students with the understanding required to effectively evaluate and assess the business and technical benefits of cloud computing and cloud applications. Students analyze a variety of cloud services (storage, servers and software applications) and cloud providers. Case studies are used to examine various industry cloud practices and applications. The course also surveys cloud careers and discusses industry demand for cloud skills.

277 Database Essentials in Amazon Web Services (3) CSU*Prerequisite: Computer Science Information Technology 276.*

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course addresses cloud database management which supports a number of different approaches for storing data. In the course, students define, operate and scale both SQL and noSQL data storage solutions. This course considers factors that should be balanced during the design of a storage solution. Principles are applied by performing exercises using Amazon RDS and SQL to create and fill tables, retrieve and manipulate data. Object-based APIs are used to serialize objects to Amazon DynamoDB for noSQL solutions. Topics include automated backups, transaction logs, restoration, and retention.

278 Computer Engines in the Cloud (3) CSU*Prerequisite: Computer Science Information Technology 276.*

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

Cloud computing systems are built using a common set of core technologies, algorithms, and design principles centered around distributed systems. In this hands-on introductory course, students use the Amazon Web Services (AWS) Management Console to provision, load-balance and scale their applications using the Elastic Compute Cloud (EC2) and the AWS Elastic Beanstalk. This course discusses, from a developer perspective, the most important reasons for using AWS and examines the underlying design principles of scalable cloud applications.

279 Security in the Cloud (3) CSU*Prerequisite: Computer Science Information Technology 276.*

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

Protecting the confidentiality, integrity, and availability of computing systems and data is of utmost importance to all organizations. In this hands-on introductory class, students learn how Amazon Web Service (AWS) uses redundant and layered controls, continuous validation and testing, and a substantial amount of automation to ensure the underlying infrastructure is continuously monitored and protected. Students examine the AWS Shared Responsibility Model and access the AWS Management Console to learn more about security tools and features provided by the AWS platform.

290 Programming in JAVA (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course teaches the fundamental principles of object-oriented programming design and concepts to design applications, using the Java programming language. It uses the latest version of the Java Standard Edition Development Kit. Students learn to design and develop programs using the following programming techniques and constructs: Algorithm development, data representation using variable and constant objects; control structures; designing classes, methods, and functions; use of arrays; and Graphical User Interface design.

295 Programing in C# (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course covers principles of event-driven programming and object-oriented design in Windows applications using the C# programming language (including data encapsulation, inheritance, and polymorphism). Topics include the Visual Studio IDE and .NET Framework control classes. Students create Graphical User Interface (GUI) classes, objects, methods, event-handlers, constructors, arrays, and multi-form projects, including use of strings, data validation, and exception handling and access modifiers.

185 Directed Study – Computer Science Information Technology (1) CSU

CONFERENCE, 1 HOUR PER WEEK PER UNIT.

The above courses allow students with the opportunity to gain additional programming and operating skills on a micro, midrange or mainframe computer on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Finance (FINANCE)

2 Investments (3) CSU

LECTURE, 3 HOURS.

In this course, students analyze the stock market from a practical viewpoint and they are introduced to important investment topics from the perspective of an individual financial planner. The analysis includes developing an understanding of diversification, risk management, growth stocks, mutual funds, dividends, technical and fundamental analysis, bonds, and stock options.

8 Personal Finance and Investments (3) CSU

LECTURE, 3 HOURS.

This course presents the theory and practice involved with applying personal financial decisions met in everyday living. Students learn about the functions of financial institutions, time value of money, setting budgets, and saving for major purchases and retirement. Also included are a selection of services that are chosen from topics such as borrowing money, lending money, buying insurance, buying a new home, and buying stocks and bonds.

Hospitality (HOSPT)

100 Introduction to the Hospitality Industry (3) CSU

LECTURE, 3 HOURS.

This course is an introduction to the hospitality industry. The course gives students an overview of careers in hotels, resorts, restaurants, private clubs, and institutional settings. Students learn knowledge of duties, organization, marketing, and revenue sources as well as world-wide opportunities for students in the hospitality industry.

136 Event Management (3) CSU

LECTURE, 3 HOURS.

This course provides future event managers with the essential training and skills required to research, plan, schedule, organize, and market special events anywhere in the world. Topics covered include event management, meeting planning, trade show and exposition operations, catering, and marketing for all types of special events.

340 Introduction to Professional Food Service (3)

LECTURE, 3 HOURS.

This course provides the student with a basic yet comprehensive introduction to foodservice operations and gives them the foundation they need to make smart decisions in food and beverage operations. Additionally, this course gives students a first-hand introduction to the various components of the professional foodservice industry. Subjects include food service operations, food and beverage service, bar operations, inventory control, and industry safety.

Law (LAW)

1 Business Law I (3) UC:CSU (C-ID BUS 125)

(UC Credit Limit for Law 1+2 combined: maximum credit, one course).

LECTURE, 3 HOURS.

This course covers the legal essentials of such topics as background of the law, contracts, agency, personal property, bailments, sales through the media of textual subject matter, lectures, cited cases, and various questions and problems.

2 Business Law II (3) UC:CSU

(UC Credit Limit for Law 1+2 combined: maximum credit, one course).

LECTURE, 3 HOURS.

This course covers the essentials of such topics as partnerships, corporations, real and personal property, suretyship, wills and bankruptcy through the media of textual subject matter, lectures, cited cases, and various questions and problems.

3 Civil Rights and the Law (3) CSU

LECTURE, 3 HOURS.

This course covers the comparative and analytical study of the law and related problems concerning the Bill of Rights and the U.S. Constitution, due process of law, freedom of speech and press, freedom of expression, freedom of religion, racial and sexual equality, right to privacy, and other related topics with emphasis on recent U.S. Supreme Court decisions interpreting individual rights.

13 Wills, Trusts and Probate Administration (3) CSU

LECTURE, 3 HOURS.

This course provides a study of the fundamental principles of the law of wills and trusts, including will and trust formation; an examination of the organization of jurisdiction of the California Probate Court; and an overview of the administration of estates in probate.

18 Marriage and Family Law (3) CSU

LECTURE, 3 HOURS.

This course presents fundamental common laws and statutory concepts of family law with emphasis on California's Community Property Laws.

21 International Public Law (3)

LECTURE, 3 HOURS.

This course provides an overview of international public law and the international legal system. Students cover a wide range of topics including the history of international

public law; sources of international public law; international dispute resolution; international court systems (civil and criminal); concepts of compliance, breach of responsibility, sanctions, and immunity; human rights; use of force; and the law of the sea.

26 International Law of Business and Commerce (3) CSU

LECTURE, 3 HOURS.

This course covers the international legal environment in which firms operate through a comparative and analytical study in the areas of treaties and laws, EU, NAFTA, international contracts, regulation of imports, exports and competition, government policies, enforcement of property rights and issues involving ethical responsibilities through case studies involving international organizations, governments and businesses.

60 Environmental Law and Policy (3) UC:CSU

LECTURE, 3 HOURS.

This course covers the history and evolution of environmental law and policy as it relates to climate change, air and water pollution, waste management, and the wetlands. The course focuses on the Clean Air Act, Endangered Species Act, and the National Environmental Policy Act.

931 Cooperative Education – Law (3) CSU

Note: Requires 15 to 19 hours per week; paid employment related to the occupational major and enrollment in at least 7 units (which include Co-op Ed).

This course offers advanced supervised training in an employment area that will enhance the student's educational goals.

Management (MGMT)

2 Organization and Management Theory (3) CSU

LECTURE, 3 HOURS.

This is an introductory course in theory and practice of strategic management. This course connects how the management of people and resources accomplish organizational goals. Students examine strategic managerial decision-making, planning, and policy under changing environments. Through case studies and research, students get a realistic account of what managers actually do and what they face.

6 Public Relations in Business (3) CSU

LECTURE, 3 HOURS.

This course covers the essentials of business public relations theory, practices, and techniques of business communication strategy essential to external and organizational communication; group and interpersonal communication; social media in business; and for demanding stakeholder relationships in a new era of openness and transparency.

13 Small Business Entrepreneurship (3) CSU

LECTURE, 3 HOURS.

This course delves into the fundamentals of small business entrepreneurship, with an emphasis on how to develop a new small business. The course also covers the processes involved in managing and growing a small business. Additional areas of study include personal qualifications for starting and managing a small business, determining market opportunity, legal business formation, business

plan development, marketing plan development, capital requirements, small business loans, and human resources management.

15 Small Business Management II (Advanced) (3) CSU

LECTURE, 3 HOURS.

This course provides the student with an opportunity to explore opportunities and challenges involved in entrepreneurship for the 21st Century. Students learn about the process of getting a new venture started, growing the venture, creating a profitable business model, and starting again as a serial entrepreneur. This course focuses on entrepreneurship from a global perspective and on opportunity recognition.

Marketing (MARKET)

1 Principles of Selling (3) CSU

LECTURE, 3 HOURS.

This course covers the basic principles of selling with emphasis on the partnering process, with recognition of multiple sales models. Additionally this course focuses on the total go-to-market strategies. Emphasis is placed on person-to-person sales strategies and understanding buyers' social styles, and recognizing multiple sales models.

11 Fundamentals of Advertising (3) CSU

LECTURE, 3 HOURS.

This course introduces students to the role of advertising in our economy. It gives a comprehensive overview of the planning and managing of advertising. The course also covers Integrated Marketing Communication (IMC) using a wide range of coordinated promotional tools, social media, television, radio, newspapers, magazines, and the Internet.

12 Advertising Copy and Layout (3) CSU

LECTURE, 3 HOURS.

In this course, emphasis is placed on practical applications of preparing layouts and advertising copy. Students learn theory and application of marketing through the use of the Internet, print media, radio, and television. The purposes of advertising are stressed and students become acquainted with the latest techniques of advertising.

23 Introduction to Social Media Marketing (3) CSU

LECTURE, 3 HOURS.

This course equips students with basic knowledge on how to use digital and social media to achieve business and marketing goals and focuses on web marketing, social media marketing channels, social media marketing strategies, social media analytics, and emerging trends in digital and social media. Students learn how to use digital and social media to market businesses domestically and globally.

31 Retail Merchandising (3) CSU

LECTURE, 3 HOURS.

This course covers retail operations including the world of retailing and the importance of the retail industry to the U.S. economy. The importance of developing retailing strategic assets, challenges of coordinating multiple channels, development of a retail marketing strategy, location strategy for retail outlets, merchandise management, human resources and store management are covered.

Real Estate (REAL ES)

1 Real Estate Principles (3) CSU

LECTURE, 3 HOURS.

Note: This course is required by the State of California prior to taking the California State Examination for a real estate salesperson license.

This course partially satisfies the educational requirements of the California Bureau of Real Estate for both Real Estate Salesperson and Real Estate Broker licenses. This is a beginning course in real estate which introduces the student to real estate fundamentals and principles. Major topics covered are: History of real estate in California, contracts, agency, introduction to financing, deeds, liens, and encumbrances, escrow and title insurance, land descriptions, and real estate math.

3 Real Estate Practices (3) CSU

LECTURE, 3 HOURS.

Note: Real Estate 3 partially satisfies the State educational requirement for the real estate salesperson and broker's license.

This is a practical course for agents. It offers guidelines in areas such as listing agreement and purchase and sale agreements, pricing property, qualifying the purchaser, agency relationships, financing, title and escrow, appraisal, and other information pertinent to real estate. All salespersons and brokers are required to take this course prior to taking their state licensing examination.

5 Legal Aspects of Real Estate I (3) CSU

LECTURE, 3 HOURS.

Note: Real Estate 5 partially satisfies the State educational requirement for the real estate salesperson and broker's license.

A study of those aspects of real property law most commonly encountered by salesmen and brokers in their real estate practice. Among the topics covered are contracts, mortgages, deeds of trust, homesteads, voluntary and involuntary liens, land descriptions, acquisition and transfer of property, easements, as well as a cursory review of the development of real estate law in California.

7 Real Estate Finance I (3) CSU

LECTURE, 3 HOURS.

Note: Real Estate 7 partially satisfies the State educational requirement for the real estate salesperson and broker's license.

This course covers the principles of real estate money and credit; analysis of money, markets, rates, new regulations and procedures for financing real estate: policies, problems, rules and current trends. Types of lenders, methods of qualifying, uses of mortgages, trust deeds and leases; financial analysis of real properties; and conventional, FHA, Cal Vet and VA loans are also covered. Operation of mortgage companies, insurance companies, and savings and loan associations. Methods of financing properties are emphasized.

9 Real Estate Appraisal I (3) CSU

LECTURE, 3 HOURS.

Note: Real Estate 9 partially satisfies the State educational requirement for the real estate salesperson and broker's license.

This is an introductory course covering the purposes of appraisals, the appraisal process, and the different approaches, methods, and techniques used to determine the value of various types of property. Emphasis is on residential and single-unit property.

11 Escrow Principles (3) CSU

LECTURE, 3 HOURS.

Note: Real Estate 11 partially satisfies the State educational requirement for the real estate salesperson and broker's license.

This course partially satisfies the educational requirements of the Department of Real Estate for both Real Estate Salesperson and Real Estate Broker licenses. It is an introductory course, which explains the general procedures followed in real estate escrow with examination and discussion of the concepts of third party neutrality, the contractual relationship, and the role of title insurance and government regulations in the escrow process. Topics covered include who may conduct an escrow, basic escrow processes, deeds, vesting, title insurance, liens and other encumbrances, purchase money lenders, seller financing, and the relevant government laws and regulations.

14 Property Management (3) CSU

LECTURE, 3 HOURS.

Note: Real Estate 14 partially satisfies the State educational requirement for the real estate salesperson and broker's license.

A basic course in the management of income properties, including residential management, shopping center management, office buildings, condominium management, and other types of management. Other topics covered will include negotiating leases, maintenance, landlord/tenant law and other related topics.

16 Income Tax Aspects of Real Estate (3) CSU

LECTURE, 3 HOURS.

This is a basic course for real estate professionals analyzing the income tax aspects of real estate. This course covers the impact of federal and California state income tax on the purchase, sale, exchange, and use of real property. Among the topics covered are: Depreciation of income-producing properties, capital gains tax, installments sales, and 1031 tax-deferred exchanges.

17 Mortgage Loan Brokering (3)

LECTURE, 3 HOURS.

This course is an option to complete the state licensing requirements for Real Estate Salesperson and Real Estate Broker. It offers guidelines and training in working in the mortgage loan business as a loan processor, junior underwriter, or loan officer. It provides understanding of the mortgage banking industry and the requirements for conducting a loan brokerage under the Department of Real Estate license. Students learn how to fill out a basic Fannie Mae 1003 loan application, as well as how to qualify a borrower following the Fannie Mae-Freddie Mac underwriting guidelines.

21 Real Estate Economics (3) CSU

LECTURE, 3 HOURS.

Note: Real Estate 21 partially satisfies the State educational requirement for the real estate salesperson and broker's license.

This course partially satisfies the educational requirements of the Department of Real Estate for both Real Estate Salesperson and Real Estate Broker licenses. It explains the general principles of economics and how the economy works in the United States and California. The course introduces economic indicators and how they are used in forecasting future economic activity. Topics covered include urban structural relationships, real estate market analysis, economic forecasting, the law of supply and demand and how it relates to real estate, land use controls, and the government's role in the real estate market.

24 Common-Interest Developments (3) CSU

LECTURE, 3 HOURS.

This course satisfies the educational requirements of the Department of Real Estate for both Real Estate Salesperson and Real Estate Broker licenses. It defines and explains the principles and laws regulating common-interest developments. It compares and contrasts the differences between condominiums, townhouses, own-your-own apartments, stock cooperatives, and other planned unit developments. Topics include the study of the formation, development, management, purchase, sale and lease involving California common-interest developments. The course presents an analysis of state and federal laws that govern the various aspects of common-interest developments and Homeowner's Associations. This course addresses the problems encountered by owners who live in common-interest developments. This course pays particular attention to recent legal cases that have brought about amendments and additions to the Davis-Stirling Act.

Supervision (SUPV)**1 Elements of Supervision (3) CSU**

LECTURE, 3 HOURS.

This course is a basic introductory course covering, in general terms, the total responsibilities of a supervisor in industry, such as organization, duties and responsibilities, human relations, grievances, training, rating, promotion, quality-quantity control, management-employee relations, and related topics.

EDUCATIONAL PROGRAMS

ASSOCIATE DEGREE PROGRAM

- Chemistry Technician

ASSOCIATE DEGREE PROGRAM

Chemistry Technician, Associate in Science Degree

The Chemistry Technician program prepares individuals to become chemical technicians. The program is highly hands-on, promotes teamwork, and trains students with analytical, practical, and communication skills that parallel the industry environment, enabling them to think critically and solve on-the-job problems. Employment opportunities include positions with job titles such as chemical analyst, chemical technician, formulation technician, laboratory analyst, laboratory technician, laboratory tester, organic preparation analyst, quality control technician, research technician, and water quality technician.

SUBJECT & NO.	COURSE	UNITS

Transfer Curriculum

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Chemistry (CHEM)

51 Fundamentals of Chemistry I

(5) UC:CSU IGETC Area 5A, 5C

Prerequisite: *Mathematics 125 or Mathematics 125S or Mathematics 134.*

LECTURE, 4 HOURS; LABORATORY, 3 HOURS.

This is an introductory course designed for nursing and Allied Health students, who do not take Chemistry 101, yet need a physical science course with a laboratory. This course covers, in an introductory manner, the basic principles, laws, and nomenclature of inorganic chemistry, organic chemistry, and biochemistry.

65 Introductory General Chemistry (4)

UC:CSU IGETC Area 5A, 5C (C-ID CHEM 101)

(UC Credit Limit: No credit for 65 if taken after 101).

Prerequisite: *Mathematics 125 or Mathematics 125S or Mathematics 134.*

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This is an introductory course that prepares students to take Chemistry 101. It presents the basic principles, laws, and theories of general chemistry. This course emphasizes problem-solving skills as they apply to chemical principles. Topics include measurements, significant figures, scientific notation, dimensional analysis, nomenclature, periodic trends, bonding models, atomic and molecular structure, chemical reactions, stoichiometry, thermochemistry, gases, solutions, acids, and bases.

100 Certified Quality Improvement Associate and the Industry (3)

LECTURE, 3 HOURS.

This is an introductory course to quality principles and tools applied in the industry. Topics on quality control, quality assurance, validation, documentation, and regulatory compliance are explored. Students are prepared for examination to become a Certified Quality Improvement Associate (CQIA).

101 General Chemistry I (5) UC:CSU

IGETC Area 5A, 5C (C-ID CHEM 110)

Prerequisites: Chemistry 65 and Mathematics 125 or Mathematics 125S or Mathematics 134.

LECTURE, 3 HOURS; LABORATORY, 6 HOURS.

This intensive technical course in general and inorganic chemistry is for students in the various professional curricula demanding competence in the utilization of basic chemical principles and information. The relationships between the structure and the properties of matter, physical and chemical, are emphasized. Chemical principles are presented both qualitatively and quantitatively. Topics include stoichiometry, colligative properties, gases, thermochemistry, bonding, and solution chemistry. The course has a laboratory component that emphasizes the quantitative aspect of chemistry; furthermore, the lab component introduces students to the study of chemistry - both physical and chemical changes - using current environmental examples.

102 General Chemistry II (5) UC:CSU IGETC Area

5A, 5C (CHEM 101 & 102 = C-ID CHEM 120S)

Prerequisite: Chemistry 101.

LECTURE, 3 HOURS; LABORATORY, 6 HOURS.

This course continues the topics presented in Chemistry 101. The topics include a detailed study of kinetics, equilibrium, acids and bases, thermodynamics, electrochemistry, and coordination chemistry. Nuclear chemistry, descriptive chemistry, and organic chemistry are introduced.

201 Quantitative and Instrumental Analysis (5) UC:CSU IGETC Area 5A, 5C

Prerequisite: Chemistry 102.

LECTURE, 3 HOURS; LABORATORY, 6 HOURS.

This course covers the theory and practice of chemical analysis techniques in a quantitative manner. Detailed discussion and analysis of simple and complex acid-base equilibria, and complex buffer systems, are presented, as related solubility problems, complex metal-ligand solution equilibria, and oxidation-reduction equilibria. The laboratory emphasizes the techniques for quantitative chemical analysis of specific elements and compounds in complex mixtures. These techniques include gravimetric, volumetric, potentiometric and spectroscopic methods, as well as chemical separation methods. Theoretical foundations of statistical treatment of chemical data generated from quantitative analysis results are presented.

211 Organic Chemistry for Science Majors I (5) UC:CSU IGETC Area 5A, 5C

Prerequisite: Chemistry 102.

LECTURE, 3 HOURS; LABORATORY, 6 HOURS.

This is the first part of a two-course sequence presenting the structure, equilibrium, nomenclature including conformational analysis, potential energy plots, hybridization, stereochemistry, preparation and mechanisms of reactions of aliphatic hydrocarbons and related functionalites. A mechanistic approach to reactions and a focus on multi-step synthesis is emphasized throughout the course. The laboratory presents the techniques of preparation, isolation, and analysis of organic compounds employing standard and modern instrumental methods. This course also emphasizes the use and interpretation of Nuclear Magnetic Resonance (NMR) and Infrared (IR) Spectroscopy in the analysis and identification of organic compounds.

212 Organic Chemistry for Science Majors II (5) UC:CSU IGETC Area 5A, 5C

Prerequisite: Chemistry 211.

LECTURE, 3 HOURS; LABORATORY, 6 HOURS.

This course is a continuation of Chemistry 211 with additional emphasis on reaction mechanisms, stereochemistry, organic synthesis of a variety of organic compounds including but not limited to aromatic compounds, alcohols, phenols, amines, heterocyclics, aldehydes, ketones, carboxylic acid and its derivatives, enols, enolates, carbohydrates, amino acids, polypeptides, nucleic acids, lipids, and synthetic polymers. A mechanistic approach to reactions and a focus on multi-step synthesis is emphasized throughout the course. The laboratory presents more techniques of preparation, isolation and analysis of organic compounds employing modern instrumental analysis. This course also emphasizes the use and interpretation of Nuclear Magnetic Resonance (NMR), Ultraviolet (UV), Infrared (IR), and Mass Spectroscopy in the analysis and identification of organic compounds.

221 Biochemistry for Science Majors

(5) UC:CSU IGETC Area 5A, 5C

Prerequisite: Chemistry 211.

LECTURE, 3 HOURS; LABORATORY, 6 HOURS.

The course is designed to provide the principles, concepts, and terminology of biochemistry, with an emphasis on the structure and function of biomolecules, the role of intermediary metabolism in energy production and common biochemical laboratory techniques. Topics include the chemistry and properties of biological molecules, including proteins, carbohydrates, lipids, and nucleic acids. The course also includes protein structure and function, enzyme catalysis, and the details of the central metabolic pathways (glycolysis, gluconeogenesis, glycogenolysis, the citric acid cycle, electron transport as well as oxidative phosphorylation, lipid degradation and biosynthesis, and nitrogen metabolism) including their regulation and integration. The laboratory exposes the students to a variety of biochemical techniques and how they are used to evaluate biomolecules and systems. These techniques include spectrophotometry, centrifugation, gel electrophoresis, chromatography, protein and enzyme assays, enzyme purification and kinetics, and Western blot.

Chicana/o Studies Department

E3-580 • (323) 415-5050

The major in Chicano Studies provides an excellent background for students interested in a variety of careers. A multi-disciplinary program, Chicano Studies offers courses in the Social Sciences, Humanities, and Basic Skills Development. The program generates an awareness and understanding of Mexican Americans in the United States. Moreover, it provides excellent preparation for students interested in careers in Education, Law, Social Welfare, Public Administration and/or Business.

A student may obtain an Associate in Arts Degree in Chicano Studies by successfully completing 21 units or more in the major in addition to satisfying graduation requirements.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Chicano Studies (CHICANO)

2 The Mexican-American in Contemporary Society (3) UC:CSU IGETC Area 4C

LECTURE, 3 HOURS.

The course introduces the student to the major characteristics of the largest growing ethnic group in the United States. Special attention is given to the social, cultural, economic, and political elements which differentiate Mexican-Americans in relationship to other groups in American society.

3 Sociology and Psychology of the Latin American (3) UC:CSU IGETC Area 4C

LECTURE, 3 HOURS.

The general focus of the course examines the psychological and sociological influences on the Latino/Mexican population within the U.S. Sociocultural and developmental factors are also covered. The application to Latinos of traditional psychological and sociological theories, developmental theories, and empirical research are examined and evaluated.

7 The Mexican-American in the History of the United States I (3) UC:CSU IGETC Area 4C

LECTURE, 3 HOURS.

Note: Chicano Studies 7 and 8 can either be taken in sequence or independently.

A survey of United States history from early colonial period through the Civil War with special emphasis on the contribution of Mexican Americans. This course provides a background in the political and social development of both the United States and Mexico, and, in addition, is for those who wish to gain a better understanding of Mexican culture in the Southwestern United States. Included is a survey of the U.S. Constitution.

8 The Mexican-American in the History of the United States II (3)

UC:CSU IGETC AREA 4C

LECTURE, 3 HOURS.

This course is a survey of the history of the Mexican people in the United States from 1848 to the present time. The content includes a discussion of the United States War with Mexico, the Treaty of Guadalupe Hidalgo, and the subsequent incorporation of Mexicans into the United States. Emphasis is placed on the politics of race, its origin in the colonial process and its impact on the historical development of a Mexican American ethnic identity in the United States.

19 History of Mexico (3) UC:CSU IGETC Area 4C

LECTURE, 3 HOURS.

This survey course covers the entire span of Mexican history. It includes a consideration of the Indian civilization, the Spanish period, the War of Independence, the turmoil of the nineteenth century (the Mexican-American War, French invasion, etc.), the period of Diaz, the 1910 Revolution (Villa, Zapata, etc.), the post- Revolution period, and a view of trends in contemporary Mexico.

20 The Mexican American In California

(3) UC:CSU IGETC Area 4C

LECTURE, 3 HOURS.

This course surveys the political, economic, social, and intellectual history of the Pacific Coast from the Pre-Columbian Era, the Spanish Era, the Mexican Years and lastly, the Anglo Presence, with special emphasis on California. A greater emphasis is given to the role of the Chicano/Latino people in the economic, political, social, and cultural development of California from the time of the Spanish Empire to the present.

22 Chicano/a and Latino/a Healthcare Issues (3) CSU

LECTURE, 3 HOURS.

This course explores health issues as well as conventional and alternative healthcare practices in the Chicano/Latino community. Special emphasis is placed upon the impact of socio-economic and environmental issues and nutritional and cultural attitudes regarding health and healing in Chicano/Latino communities.

24 Scholastic and Personal Development (3) CSU

LECTURE, 3 HOURS.

The basic goals of the course are to help students acquire a critical understanding of themselves and their culture and to recognize and understand the importance of self worth in an academic setting.

25 The LGBTQ Chicana/o in Contemporary Society (3) UC:CSU IGETC Area 4

LECTURE, 3 HOURS.

This course examines the unique experiences of LGBTQ Chican@s through an overview of a broad range of contemporary LGBTQ issues in the U.S. Special attention is given to the relationship between LGBTQ Chican@ individuals and the social and political constructs of gender, sexuality, and identity, as they relate to social and political institutions, with emphasis on the intersectionality of oppressions and identities for LGBTQ people of color in the U.S. and specific focus on LGBTQ culture and experience in Chican@ and Latin@ communities.

26 The Chicana/o in the LGBTQ History of the United States (3) UC:CSU IGETC Area 4

LECTURE, 3 HOURS.

This course is a historical survey of the role and contributions of LGBTQ Chican@s and Latin@s in the origins and developments of LGBTQ movements in the U.S. The course provides historical background in the lives, communities, organizations, and resistance movements created by LGBTQ peoples, with focus on the histories, cultures, identities, and unique contributions of LGBTQ Chican@ and Latin@ communities.

27 Chicana/o LGBTQ Literature (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course is an introduction to the history and development of Chican@ LGBTQ literature within the context of LGBTQ literature and mainstream literary traditions in the U.S. Emphasis is on the unique Chican@ contributions to the emergence of contemporary LGBTQ literatures and identities in the U.S. since the late twentieth century.

31 The Central American Experience

(3) UC:CSU IGETC AREA 4C

LECTURE, 3 HOURS.

This course introduces the Central American experience in the United States with emphasis on the transnational connections between the countries of origin and the communities of residence in the United States. Students learn about the conditions in Central America that lead to emigration to the United States. Additionally the course investigates specific challenges faced by Central American migrants on their journeys to the United States. The course also examines support networks established in the United States to help these communities adapt to their new homeland.

32 Central American Literature (3) UC:CSU IGETC Area 4C

LECTURE, 3 HOURS.

This course critically examines Central American literary traditions from pre-Hispanic times to the present. The course focuses on 20th and 21st century literary movements as they explore the historical and political context

in which Central American art is produced and the ways in which literary production contributes to the construction of a contemporary version of Central American identity.

33 Introduction to Central American Studies (3) UC:CSU IGETC Area 4C

LECTURE, 3 HOURS.

This course familiarizes students with the rich heritage of Central America and the social, economic, political, and cultural foundations of the region. It explores the diversity of issues informed by race, gender, ethnicity, the environments, and social classes in the Central American community in Latin America and the United States.

37 Chicano Literature (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course is an introductory analysis of the literary, social, and cultural aspects of the novel, short story, essay, poetry, and drama written by Mexican-Americans. The course reveals the progression of a people and culture in American society, artistically expressed by Mexican-American writers who seek to understand themselves and the world around them.

42 Contemporary Mexican Literature

(3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course introduces the student to contemporary Mexican literature and culture (with a background of earlier aesthetic works). Students will read translations of major literary writers.

44 Mexican Civilization (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

Note: Credit given for only one of Chicano Studies 44 or Spanish 16.

This course considers the significant elements of pre-Columbian Mexican Civilization, the impact of the Spanish domination upon the indigenous population and its influence upon the mores, art, and industry. Studies in the history, literature, art, and music of Mexico as they evolved from Colonial times to the present are included. The course also examines the present-day culture of the Mexican-American as influenced by cultural Mexican heritage and life in the United States.

46 Mexican-American Folklore (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course introduces the student to conventional studies of folklore, with special emphasis on the Mexicano/Chicano. The various folklore genres e.g. myths, legends, folk tales, folk medicine, folk speech, and related topics are introduced, evaluated, and analyzed in the context of historical and contemporary issues.

47 The Mexican-American Woman in Society (3) UC:CSU IGETC Area 4C

LECTURE, 3 HOURS.

This course provides students with a basic understanding of the Chicana in contemporary society. Emphasis is placed on establishing a framework from which to view the historical development and treatment of women in modern society. An analysis of selected Latina issues currently affecting Chicana women is included.

50 Gender and Sexuality in Chicano/Latino Communities (3) UC:CSU

LECTURE, 3 HOURS.

This course investigates diverse approaches to gender and sexuality among Chicano/Latino populations in the United States. Topics include cultural notions of masculinity and femininity in the family and religion. Special emphasis is placed upon the intersections of race, class, gender and how the diversity of sexuality shapes and impacts the Chicano/Latino community.

51 Mexican Art - Pre-Columbian

(3) UC:CSU IGETC Area 3A, 3B

LECTURE, 3 HOURS.

This course is a survey of the art of Mexico from pre-history to the nineteenth century. A chronological study covering the various indigenous civilizations, the encounter with European cultures, and the development of a Mexican art from the combination of the two cultures. Emphasis is given to the continuity of a distinctive Mesoamerican philosophical and religious outlook as manifested in painting, sculpture, architecture, and ceramics studied, and their utilitarian and ceremonial use.

52 Mexican Art-Modern (3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS.

This course is a survey of the pictorial arts of Mexico prior to and during the 20th century. The course focuses on the political and philosophical ideologies that influenced the broad range of arts that evolved in Mexico's Modernist period, including the evolution of Chicano art and iconography.

54 Mexican-American Arts in American Culture (3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS.

This course focuses on Mexican and Mexican-American arts, literature and music. Particular emphasis is given to the identification and the discussion of their contributions to the contemporary culture of the United States.

56 Chicano/a Youth and Gangs (3) CSU

LECTURE, 3 HOURS.

This course explores the root causes of why people join gangs and seeks to understand society's response to them. It reviews the current thinking and research on Chicano gangs and incorporates discussions of anecdotal experiences from the barrio.

57 Chicanas and Chicanos in Film

(3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course examines how Hollywood has depicted Chicanas and Chicanos through the medium of film from the early twentieth century to present day. The techniques, contents, and historical context of relevant films are analyzed.

62 Religion in Mesoamerica (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course presents the origin, nature, and function of religion in the individual and culture with emphasis upon and reference to outstanding personalities. Sacred writings,

and basic features of the leading religions of Mesoamerica, both Pre-Columbian and Contemporary, also are considered.

63 Chicano/Lation: Space, Place and Identity in Los Angeles (3) CSU

LECTURE, 3 HOURS.

This course is an introduction to the relationships between people and their environments, both designed and non-designed. Interpretations of architecture, cities, and landscapes as a means of understanding the role of social groups and individuals in the contemporary city are emphasized.

71 The Chicano in Los Angeles (3) CSU

LECTURE, 3 HOURS.

The course surveys the role of the Chicano in Los Angeles in relation to political, economic, social, cultural, and intellectual history from the Native American Era, the Colonial Era, the Mexican Years and lastly the Anglo presence. Emphasis is placed on events in the 20th century.

80 Chicano Politics (3) UC:CSU IGETC Area 4C

LECTURE, 3 HOURS.

This course focuses on contemporary Chicano studies and politics. Special attention is devoted to theoretical approaches to the study of Chicano politics: Community, state and national political organizations, the electoral process, immigration policies, the legislative process, and feminist politics.

185 Directed Study - Chicano Studies (1) CSU**285 Directed Study - Chicano Studies** (2) CSU**385 Directed Study - Chicano Studies** (3) CSU

CONFERENCE: 1 HOUR PER WEEK PER UNIT.

The above courses are for mature students to develop their ability to research a specific Subject area in Chicano Studies outside the traditional classroom lecture framework and to gain the benefit of individual direction from the supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Child, Family, and Education Studies Department

F7-305 • (323) 415-5060

Child, Family, and Education Studies incorporates three disciplines of study: Child Development, Family and Consumer Studies, and Education. Child, Family, and Education Studies offers a combination program of academic and vocational courses that enables the student to: graduate with an Associate in Arts degree, transfer, obtain a certificate for entry-level positions, or engage in professional development opportunities for advanced Certificates of Achievement.

There is a high public demand for early education programs for young children. Since there is considerable evidence, including brain research, that environment influences the development of young children, it is critical that well-trained students utilize “best practices” as either a parent or an early childhood educator. Students with a background in the child development discipline are able to pursue professional opportunities in many fields other than teaching, including production of children’s films, books and magazines; educational television; children’s toys and educational software; community and/or support services such as home visitor, family services; early intervention; and child advocacy at local, state, and national levels.

For those students pursuing Family and Consumer Studies courses, the discipline provides courses in marriage and family life and nutrition. In addition, as life span increases, so will the need for senior services and gerontology courses. All three disciplines provide educational opportunities for one to develop skills and competencies for multiple roles for home, family, and career.

SKILLS CERTIFICATES

Associate Teacher: Teacher – Certificate 1

This first certificate of the Child Development program is designed for students who wish to become a teacher in an Early Childhood Program. The certificate meets Title 22 and 5 guidelines. Requires 50 days (of at least 3 hours per day) teaching experience supervised by a full-time permitted and/or credentialed teacher in an approved and licensed ECE setting. Experience can be paid and/or volunteer and must be met within the last two years from the date of certificate application submission.

Associate in Arts in Elementary Teacher Education for Transfer

The Associate in Arts in Elementary Teacher Education for Transfer degree is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Elementary Teacher Education, Integrated Teacher Education, or Liberal Studies. The degree provides a beginning foundation in subject matter competency in the areas of language arts, natural sciences, mathematics, social sciences, humanities, visual and performing arts, and human development that is required of all prospective elementary school teachers. The Associate in Arts in Elementary Teacher Education for Transfer degree provides students priority admission to the CSU system in a Liberal Studies major or a major that is deemed similar by a CSU campus.

Students are required to complete 60 semester units or 90 quarter units of CSU transferable coursework with a minimum overall grade point average of 2.0, including a minimum grade of "C" (or "P") for each course in the major, and completion of IGETC and/or CSU GE-Breadth.

Associate in Science in Early Childhood Education for Transfer

The Associates in Arts in Early Childhood Education for Transfer focuses on the theory and practice of early childhood care and education for children from birth to age eight. Students must complete 60 required semester units of CSU transferable course work. The course of study includes the basic principles of educational and developmental psychology; the art of observing, teaching and guiding young children; planning and administration of developmentally appropriate educational activities; school safety and health issues; and the social and emotional foundations of early care and education. Students completing this program have the potential of obtaining occupations in educational settings such as infant/toddler caregivers; preschool teachers; family home childcare providers; master teachers, site supervisors, program directors, child life specialists, and social services workers. Students prepare to transfer to four-year schools to pursue advanced degrees in child development with the eventual goal of becoming Early Childhood Education (ECE) program directors, center principals, elementary school teachers, resource specialists, ECE resource specialists, consultants, or finding employment in related human service fields.

Students are required to complete 60 semester units or 90 quarter units of CSU transferable coursework with a minimum overall grade point average of 2.0, including a minimum grade of "C" (or "P") for each course in the major, and completion of IGETC and/or CSU GE-Breadth.

*This course has a prerequisite

Note: 3 units of major courses may be double counted towards IGETC or 6 units towards CSU GE.

Associate in Science in Nutrition and Dietetics for Transfer

The Associates in Science in Nutrition and Dietetics for Transfer Degree is designed to award an Associate in Science degree to those who are intending to transfer to the California State University system in Nutrition and Dietetics, or related majors. The Associate in Science in Nutrition and Dietetics for Transfer degree is intended to meet the needs of students who do not require significant coursework in the sciences to complete their degree. The requirements for the Associate in Science in Nutrition and Dietetics for Transfer degree were chosen solely to meet the requirements of the Transfer Model Curriculum in Nutrition and Dietetics and may not be adequate preparation for transfer to institutions outside of the California State University system.

Students are required to complete 60 semester units or 90 quarter units of CSU transferable coursework with a minimum overall grade point average of 2.0, including a minimum grade of "C" (or "P") for each course in the major, and completion of IGETC and/or CSU GE-Breadth.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Child Development (CH DEV)

1 Child Growth and Development (3)

UC:CSU IGETC area 4I (C-ID CDEV 100)

LECTURE, 3 HOURS.

This is an introductory child development course that examines the major physical, psychosocial, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. There is an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students observe children, evaluate individual differences, and analyze characteristics of growth and development at various stages.

2 Early Childhood: Principles and Practices (3) CSU (C-ID ECE 120)

LECTURE, 3 HOURS.

This course provides an examination of the underlying theoretical and philosophical principles of developmentally appropriate practices applied to programs, environments, emphasizing the key role of relationships, constructive adult-child interactions, and teaching strategies in supporting physical, social, creative and intellectual development for all young children. This course includes a review of the historical roots of early childhood programs and the evolution of the professional practices promoting advocacy, ethics, and professional identity.

3 Creative Experiences for Children I (3) CSU

LECTURE, 3 HOURS.

This course explores creative experiences for young children. Class instruction prepares students in designing and implementing developmentally appropriate teaching strategies, use of materials and media in the areas of visual arts, music, dramatic play, rhythm and movement, and literacy experiences. The importance of culture, tradition and home language is supported throughout the curriculum. Emphasis is on ways to make decisions and create and maintain a classroom atmosphere that allows creative expression, encourages and supports the interests and talents of children.

4 Creative Experiences for Children II (3) CSU

LECTURE, 3 HOURS.

Values the explorations of early math, science, and social science creative learning experiences designed to support young learners' (children ages 0-8) construction of knowledge of the concepts and skills essential to the basic understanding of mathematics, science, and the social sciences in early education programs. Encompasses planning early math, science, and social science creative experiences that are developmentally appropriate and culturally relevant in an organized and sequential approach,

referring to inquiry-based and early basic scientific methodology. Includes naturalistic, informal, and structured experiences for young children.

7 Introduction to Curriculum in Early Childhood Education (3) CSU

(C-ID ECE 130)

LECTURE, 3 HOURS.

This course provides an overview of the knowledge and skills to provide appropriate integrated curriculum and environments for young children from birth to age six. Students examine the impact that the interplay of quality interactions and curriculum development in early childhood education has on early brain development. The teacher's role in supporting optimal development and learning for all young children using appropriate observation and assessment strategies is emphasized. This course provides strategies for best practices based on observation, assessment, and planning across the curriculum, including academic content areas, play, art, and creativity, and development of social-emotional, communication, and cognitive skills.

10 Health, Safety and Nutrition (3) CSU (C-ID ECE 220)

LECTURE, 3 HOURS.

This course is an overview of the components of the Health, Safety, and Nutritional components of an early care and education program. Planning and issues of operating a child development program under the Title 22 Department of Social Services Community Care Licensing regulations are considered. Also included is a review of common childhood diseases, universal health precautions, First Aid and CPR requirements, environmental safety, nutritional planning, and special health considerations of the young child. Students are required to pass the American Red Cross Adult/Pediatric First Aid and Adult/Infant CPR Certification course or demonstrate current certification.

11 Child, Family and Community (3) CSU (C-ID CDEV 110)

LECTURE, 3 HOURS.

This course is a study of the developing child in a societal context focusing on the interrelationship of the family, school and community and emphasizes historical and socio-cultural factors. The processes of socialization and identity development are highlighted, showing the importance of respectful, reciprocal relationships that support and empower families. Some topics covered are: Social influences on parenting styles, communication, child-rearing and the relationships between the child, family, and the school.

22 Practicum in Child Development

I (4) CSU (C-ID ECE 210)

Prerequisites: All of the following: Child Development 1, 2, 3, 4, 10, 11 and 34.

LECTURE, 2 HOURS; LABORATORY, 6 HOURS.

Note: Tuberculosis clearance is required.

This course provides supervised experience in an approved licensed infant/toddler program, child development program, special education center, or other early care and education setting. Students relate all previous theory and curriculum courses to practical application in an approved early education classroom setting. State law requires a TB test (Mantoux Test) or chest X-ray and criminal record

clearance. In addition to the seminar class, students are required to complete a minimum of 108 hours at an approved field site.

23 Practicum in Child Development II (4) CSU

Prerequisites: Child Development 22 and 42.

LECTURE, 2 HOURS; LABORATORY, 6 HOURS.

Note: Tuberculosis clearance is required.

This course provides an advanced practicum experience in an approved early childhood education setting. Students apply observation and assessment strategies to plan, implement, and evaluate developmentally appropriate activities and demonstrate techniques that promote partnerships between teachers and families. Students assigned to directed practicum demonstrate professional and ethical behaviors. State law requires a TB test (Mantoux Test) or chest X-ray and criminal record clearance. In addition to the seminar class, students are required to complete a minimum of 108 hours at an approved field site.

30 Infant/Toddler Development (3) CSU

Prerequisite: Child Development 1.

LECTURE, 3 HOURS.

Note: Tuberculosis clearance is required.

This course provides an in-depth study of the development of infants and toddlers. Developmental domains and areas include cognitive/language, social/emotional, and perceptual/motor development, along with milestones of children from birth to thirty six months. Particular attention is given to attachment theory and research, with an overview on brain development, the value of exploration and play, early intervention, disabilities, and a relationship-based care in the context of family systems of culture, home language, and traditions. Respectful caregiving principles, practices, and routines, within culturally and developmentally appropriate environments are discussed. Class instruction includes objective observations and identification of developmental domains of infants and toddlers in diverse settings.

31 Infant/Toddler Care and Education (3) CSU

Prerequisite: Child Development 1.

LECTURE, 3 HOURS.

This course implements the principles of inclusive, respectful caregiving for infants and toddlers within a variety of curricular approaches. Infant-toddler education is presented within the context of observation, assessment, exploration, learning opportunities, and a relationship-based approach. Topics include typical and atypical development, early intervention, physical and social environments, as well as health, safety, and licensing standards. Students also examine skills in developing partnerships with families, and the influences that language, culture and traditions have on these relationships.

34 Observing and Recording Children's Behavior (3) CSU (C-ID ECE 200)

Prerequisite: Child Development 1.

Advisory: Child Development 2.

LECTURE, 3 HOURS.

Note: Tuberculosis clearance may be required.

This course examines appropriate use of assessment and observation strategies to document and interpret children's growth and development, and learning to join families and professionals in promoting children's success. The

student explores forms of documentation such as anecdotal notes, running records, rating scales, portfolios, and other forms that help to guide curriculum, support adaptations, and communicate progress. The course includes opportunity for observation in the field.

36 Literature for Early Childhood (1) CSU

LECTURE, 1 HOUR.

This course is an overview of early development of desirable attitudes towards reading and writing. A survey of literature suitable for children birth to six, with emphasis on techniques of selection and presentation methods is emphasized.

37 Literature for School Age Children (2) CSU

Advisory: Child Development 36.

LECTURE, 2 HOURS.

This course is a survey of literature appropriate for children ages 6 -12 years. Emphasis is given to selection, evaluation, and presentation of literature using developmental characteristics and needs of children. Includes development of appropriate curriculum materials for the classroom with a literature emphasis. Recommended for early childhood and primary school teachers and parents.

38 Administration and Supervision of Early Childhood Programs I (3) CSU

Prerequisites: Child Development 1, 2, 3, 4, 10 and 11.

LECTURE, 3 HOURS.

This course prepares the student to establish and administer an early childhood program. Financial aspects of administration and regulations pertaining to administration are emphasized. The course partially fulfills the licensing requirements for the director.

39 Administration and Supervision of Early Childhood Programs II (3) CSU

Prerequisite: Child Development 38.

LECTURE, 3 HOURS.

This course provides training for administrators of early childhood programs on a variety of topics pertaining to administering an early childhood program. Topics include: Leadership principles and practices, decision making processes, supervision and staff development, conflict resolution strategies, building family partnerships, and leading with emotional intelligence.

42 Teaching in a Diverse Society (3) CSU (C-ID ECE 230)

LECTURE, 3 HOURS.

This course examines the development of social identities in diverse societies including theoretical and practical implications affecting young children, families, programs, teaching, education, and schooling. It focuses on culturally relevant and linguistically appropriate anti-bias approaches supporting all children in becoming competent members of a diverse society. The course involves self-reflection of one's own understanding of educational principles in integrating anti-goals in order to better inform teaching practices and/or program development.

44 Early Intervention for Children with Special Needs (3) CSU

LECTURE, 3 HOURS.

This course is designed for students interested in working with young children with special needs and their families. Instruction focuses on accommodating and adapting the

physical environment, instructional strategies, and curriculum to meet the needs of differently-abled children from birth through preschool.

45 Programs for Children with Special Needs (3) CSU

Advisory: Child Development 1.

LECTURE, 3 HOURS.

Note: Tuberculosis clearance may be required.

This course is an introduction to the study of exceptional children, emphasizing their relationship to society. This course also includes assessment, classification, and special characteristics of children with disabilities. An overview of programs and services is included with observation in private and public special education programs.

46 School Age Programs I (3) CSU

LECTURE, 3 HOURS.

This course is designed for students interested in working with school age children in before and after school programs. An overview of programs and services and development of curriculum that is developmentally appropriate is evaluated. Theories related to the growth and development of school age children and issues related to school age programs are explored.

50 Parenting: Family Life Focus (1) CSU

LECTURE, 1 HOUR.

This course is designed for students interested in parent training with emphasis on family life. Includes parent-child relationships, alternatives in parenting styles, child development and family resources.

51 Parenting: Home and School Focus (1) CSU

LECTURE, 1 HOUR.

This course is designed for students interested in parent training. Includes child-parent-teacher-school relationships, parenting and teaching styles, and school strategies in parent involvement and parent education. Emphasis is on effective parent/school relationships.

52 Parenting: Community Resources Focus (1) CSU

LECTURE, 1 HOUR.

This course is designed for those interested in parent training. Includes parent-child relationship, alternatives in parenting styles, child development, and family resources. Emphasis is placed on community resources.

60 Introduction to Family Child Care I (1) CSU

LECTURE, 1 HOUR.

This course discusses the business and operations of a Family Child Care Home and provides an overview of entrepreneurship in developing a family child care home-based business. Introductory topics include small business start-up, state licensing regulations, business management, policies and procedures in operating a family day care business, environmental design, and curriculum planning.

61 Introduction to Family Child Care II (1) CSU

Prerequisite: Child Development 60.

LECTURE, 1 HOUR.

This course considers strategies that can enhance the operations of a family child care home (small business) and through review of standards, practices, ethical, and legal considerations in program planning as well as assists in the development of advertising tools and an operational manual.

62 Developmental Profiles: Pre-Birth Through Age Eight (2) CSU

LECTURE, 2 HOURS.

This course provides the study of developmental profiles from pre-birth through age eight. Key concepts in current child development literature, development of curriculum plans, and children's developmental assessment tools are examined.

63 Creative Curriculum in a Family Child Care Setting (2) CSU

LECTURE, 2 HOURS.

Note: Child Development 3 or 4 can be substituted for this course.

This course is designed for family childcare providers and persons entering the profession. Emphasis is on play and creative experiences in the home setting for children. Course includes art, music and movement, language and literacy, early math, dramatic play, and cooking.

65 Adult Supervision/Early Childhood Mentoring (2) CSU

Prerequisite: Child Development 39.

LECTURE, 2 HOURS.

This course is an overview of methods and principles of mentoring and supervision of adults in early childhood education settings. Topics explored include environmental quality assessment, performance evaluation, leadership styles, group dynamics, conflict resolution, staff development, and staff roles and responsibilities. This course is required for upper levels of the California Child Development Permit, and to become a California Early Childhood Mentor.

185 Directed Study - Child Development (1) CSU

285 Directed Study - Child Development (2) CSU

385 Directed Study - Child Development (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Child

Development on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS OF DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

931 Cooperative Education - Child Development (3) CSU

Note: Requires 15 to 19 hours per week; paid employment related to the occupational major and enrollment in at least 7 units (which include Co-op Ed).

This course offers advanced supervised training in an employment area that will enhance the student's educational goals.

941 Cooperative Education - Child Development (4) CSU

Note: Requires 20 hours per week; paid employment related to the occupational major and enrollment in at least 7 units (which include Co-op Ed).

This course offers advanced supervised training in an employment area that will enhance the student's educational goals.

Education (EDUC)

1 Introduction to Teaching (3) UC:CSU

LECTURE, 3 HOURS.

This course introduces students to the field of professional education and the concepts and issues that are related to

K – 12 education. Topics of this course include a basic understanding of a teacher's role and challenges in society, contemporary education issues within historical, social, philosophical, legal, and political contexts, impact of government policies on schools and children, and the various perspectives on curriculum and instruction.

203 Education in American Society (3)

UC:CSU IGETC area 4 (C-ID EDUC 200)

LECTURE, 2.5 HOURS; LABORATORY, 2.5 HOURS.

In this course, students examine the fundamental theories of the American educational institution in its social, political, and economic contexts. Concepts and methods from the fields of sociology, philosophy, and the politics of education are used to analyze the current conditions of American schools. Consideration of contemporary issues, including the roles of the American school in a democratic, multi-cultural society are emphasized. Analysis of the historical, philosophical, and social foundations of education and of school organization are used to evaluate selected proposals and models for reform.

250 Adult Learning and Motivation (3) CSU

LECTURE, 3 HOURS.

This course is designed for participants in the LACCD District Academic Senate's Professional Development College (PDC) and enrollment is limited to members of that program. The course provides tools for current or future teachers or Project MATCH participants to acquire and/or better understand the process of facilitating adult learning, conditions that stimulate adult student motivation, and the methods that can enhance this process. Topics covered are adult learning theory, characteristics of effective teachers, philosophical and teaching style orientations, instructional design, classroom management, and motivational teaching methods. This course examines the andragogical model of adult learning and surveys an array of research-based and culturally-responsive teaching strategies and techniques to use in the classroom.

252 Curriculum Development and Instructional Design (3) CSU

LECTURE, 3 HOURS.

This course is designed for participants in the LACCD District Academic Senate's Professional Development College (PDC) and enrollment is limited to members of that program. The course is designed to assist students made up of current or future teachers or Project MATCH participants in developing essential skills for curriculum restructuring, planning, and implementation and responds to the question, 'What will the students learn and how will we teach it?' Three essential processes – curriculum development, assessment, and instruction – are considered with respect to relevant theory, research, and practice. This course explores various teaching techniques and instructional strategies. Field experiences designed to provide a practical application for the demonstration of theory applied to practice is an integral part of the course.

Family and Consumer Studies (FAM & CS)**6 Challenges of Aging (3) CSU**

LECTURE, 3 HOURS.

This course is an analysis of the developmental changes, social problems, and specific needs of the older adult in the interdisciplinary study of gerontology. The course includes an investigation of everyday situations with emphasis on consumerism, housing, health, nutrition, community resources, and changing family roles. The course combines academic research with

an empathetic view of the lives of older people to involve students emotionally and intellectually in the material while reinforcing experiential learning.

21 Nutrition (3) UC:CSU (C-ID NUTR 110)

LECTURE, 3 HOURS.

This course reviews scientific concepts of nutrition relating to the functioning of nutrients in the basic life processes. It includes an overview of digestion and metabolism of nutrients. Foods are discussed as a source of nutrients, and the evidence is reviewed as to the effects of nutrition on health. The emphasis of the course is on issues of current interest and on worldwide problems of food nutrition. Personal dietary assessment, synthesizing data from computerized dietary program and family tree, appraises nutritional disease risk factors. Students evaluate excesses and deficiencies and construct practices that establish and maintain a healthy lifestyle and result in a healthier mind, healthier nutritional eating practices, enhancing the spirit and nourishing the body.

31 Marriage and Family Life (3) UC:CSU

IGETC Area 4G, 4J (C-ID SOCI 130)

LECTURE, 3 HOURS.

This course examines marriages and families as institutions within American society and as dynamic systems leading to interpersonal growth and intimate relationships over the course of the family life cycle, including historical and recent changes. The course explores the diversity of family patterns and marriages in the U.S. as well as comparisons to non-Western cultures. Areas of study include, but are not limited to, gender roles, sexuality, marital interaction and power, parenting issues, financial matters, and divorce and remarriage.

34 Child Nutrition (3) CSU

LECTURE, 3 HOURS.

This course focuses on basic principles covering the nutritional needs of pregnant/lactating women/infants and children to promote optimum physical/mental development and disease prevention. Special emphasis is placed on nutritional planning and education for children through the development of nutrition plans, individual projects, curriculum, and materials.

91 Life Management (3) CSU

LECTURE, 3 HOURS.

This course provides individuals with skills for understanding and using internal and external resources to function effectively in the present and in future society. Students learn techniques for improving self-understanding and interpersonal relationships that reflect decision-making, time, energy, stress, and conflict and money management.

185 Directed Study – Family and Consumer Studies (1) CSU**285 Directed Study – Family and Consumer Studies (2) CSU****385 Directed Study – Family and Consumer Studies (3) CSU**

CONFERENCE, 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Family and Consumer Studies on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS OF DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Communication Studies Department

E3-569 • (323) 415-5034

The East Los Angeles College Communication Studies Department offers a comprehensive program of communication courses. These courses prepare students for careers that require excellent communication and critical thinking skills including but not limited to education, business, telecommunications, and law. Courses offered also prepare students to transfer into a four-year degree program. The ELAC Communication Studies Program is the home of the nationally recognized ELAC Speech and Debate Team. Join our award-winning program as a Communication Studies specialist.

EDUCATIONAL PROGRAMS

ASSOCIATE DEGREE PROGRAM

- Communication Studies for Transfer

ASSOCIATE DEGREE PROGRAM

Associate in Arts in Communication Studies for Transfer

Communication is an essential part of the human experience. This Associate in Arts in Communication Studies for Transfer explores and analyzes the ways in which communication takes place in the public sphere, between individuals, in new media, and in other contexts. Students who successfully earn the AA-T in Communication Studies by completing a maximum of 60 transferrable units are guaranteed transfer admission into a California State University campus to further their study of Communication.

Students who earn the Associate in Arts in Communication Studies for Transfer will be able to:

- Transfer to a four-year CSU institution to pursue baccalaureate studies in Communication or a related field.
- Define and apply the communication theory in daily life.
- Recognize and use different types of communication techniques and media.
- Practice effective communication strategies in personal, public, and professional settings.

REQUIREMENTS

- Completion of 60 CSU transferrable semester units:
 - 18 semester units in the approved Communication Studies courses;
 - Completion of the Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements (CSU GE);
- Achieve a grade point average of 2.0.
- Earn a C (or "P") or better in major area courses.

Notes: No remedial or non-collegiate level course work will be counted in the total units for this degree.

Required Core Courses

COMPLETE ADDITIONAL CSU UNITS, IF NEEDED, TO REACH 60 CSU TRANSFERABLE UNITS

	<i>IGETC or CSU GE Pattern</i>	
	<i>Total.....</i>	<i>60</i>

Note: 9 units of major courses may be double counted towards general education.
 *This course has a prerequisite.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Communication Studies (COMM)

76 English Speech as a Second Language (3) CSU
 LECTURE, 3 HOURS.

This English speech improvement class stresses accent reduction, pronunciation, intonation, and phrasing. The course includes speaking assignments prepared by students. It is designed mainly for those who need to learn to speak Standard American English pronunciation more effectively in a variety of different environments.

100 Introduction to Communication Studies (3) CSU
 LECTURE, 3 HOURS.

Students explore the basic concepts of human communication as an academic field of study including history, principles, processes, variables, research methods, and specializations. Students learn about specific career opportunities a communication studies degree can provide. Students examine issues relevant to the systematic inquiry and pursuit of knowledge about human communication. Students analyze concepts of communication and the skills necessary to communicate in various contexts.

101 Public Speaking (3) UC:CSU IGETC Area 1C (C-ID COMM 110)
 LECTURE, 3 HOURS.

In this course, training is offered in effective speech composition and delivery. The course assists in building confidence in the delivery of original presentations, acquaints students with the sources of speech materials, and develops discriminating listening through speech analysis.

104 Argumentation and Debate (3)
 UC:CSU IGETC Area 1C (C-ID COMM 120)

LECTURE, 3 HOURS.

This course explores the critical thinking process, emphasizing the use of logic, reasoning, and evidence in the presentation and analysis of sound arguments.

106 Forensics (2) CSU RPT3 (C-ID COMM 160B)
 LABORATORY, 6 HOURS.

This laboratory course is for students preparing speeches, oral interpretation/acting performances, and debate/arguments to participate in competitive intercollegiate forensics (speech and debate) tournaments. Special emphasis is given to creating persuasive arguments through acting performances, competitive debates, or speeches. Students compete in at least one tournament or speak at a community event.

107 Speech Forensics – Individual Events (3) CSU RPT3
 Advisory: *Communication Studies 106*.

LABORATORY, 9 HOURS.

This intensive laboratory course develops critical speech performance skills in individual events and requires participation in multiple intercollegiate speaking competitions. Students are guided in preparing speeches and oral interpretation/acting performances. Students are required to participate in tournaments which are outside regularly scheduled class hours. Students who repeat this course benefit from additional competition experiences.

121 Interpersonal Communication (3)
 UC:CSU IGETC Area 4G (C-ID COMM 130)

LECTURE, 3 HOURS.

This course offers a study of the dynamics of everyday one-to-one communication focusing on the role that behavior, psychology, and environment play in friendship, family, workplace, and intimate relationships. Factors that influence communication such as non-verbal cues, language, perception, culture, power dynamics, listening, self-concept, and health and personal well-being are explored. Problems in relational communication and conflict management as well as adaption and success in interpersonal effectiveness are examined.

122 Intercultural Communication (3) UC:CSU IGETC Area 4

This course examines communication in the context of intercultural interactions, explores verbal and nonverbal communication, similarities and differences in communication across cultures, and provides strategies to enhance interpersonal communication skills within the context of intercultural communication. This course is an introduction to intercultural communication in domestic and/or global contexts. The influence of cultures, languages, and social patterns on how members of groups relate with members of different ethnic and cultural groups is examined. The course also studies the theory and knowledge of effective communication within and between cultures. Focus also includes appreciation and comparison of communication among diverse groups within the larger context of cultures in the United States.

130 Introduction to Oral Interpretation of Literature (3) UC:CSU (C-ID COMM 170)

LECTURE, 3 HOURS.

This course provides an overview of theory, principles, and techniques used in the performance and interpretation of literature in solo, duo, and group formats. Texts include prose, poetry, drama, and other literary genres. Appreciation of various literary voices and performance styles is taught through textual analysis, oral reading, and evaluation. Practical training is given in critical reading, editing, and performance of poetry, prose, drama, essay, and experimental forms of performance text drawn from a diverse range of cultural viewpoints and voices.

151 Small Group Communication

(3) UC:CSU (C-ID COMM 140)

LECTURE, 3 HOURS.

This course provides an analysis of the purposes, principles, and types of group processes, including development of individual skills in leadership, problem solving, and collaborative learning that can be achieved by responsible group participation.

190 Communication and New Media

(3) UC:CSU IGETC Area 4G

LECTURE, 3 HOURS.

This course introduces computer-mediated communication. Students examine how the Internet, specifically popular culture, social media, websites, blogs, podcasts, YouTube, and social networks, have reshaped communication practices. The course offers an overview of relevant theories and critical issues while providing students with the opportunity to apply communication skills using new media.

185 Directed Study - Communication Studies (1) CSU

285 Directed Study - Communication Studies (2) CSU

385 Directed Study - Communication Studies (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

During the first two weeks of the semester, the student will select an option as his/her semester project. Through regular meetings with the instructor, the student will develop the project to its final form. Research techniques and sources as well as the full requirements of each project will be discussed at these meetings. Students are expected to meet with the instructor at least weekly to discuss progress and to determine if resources available to the student are being fully utilized.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Computer Applications and Office Technologies Department

E7-420 • (323) 267-3737

The Computer Applications and Office Technologies Department (CAOT) has consistently made a valuable contribution in assisting students to meet their goals for employment or advancement in employment, college transfer, or personal enrichment in the office technologies field. As society and business rely more heavily on technology, new jobs and career opportunities in this area continue to expand. The employment outlook is excellent for persons who are well-qualified and up to date with the latest office technology. Salaries are excellent and tied to training and education.

The CAOT Department at ELAC offers a wide variety of degrees, Certificates of Achievement, and Skills Certificates which are designed to develop the knowledge, skills, and attitudes needed by employees in today's dynamic office environment. Students are taught in classrooms and labs that are state-of-the-art in technology and contemporary in appearance.

The CAOT Department has also incorporated a career-driven Technology and Logistics Program under its umbrella. As a key economic driver, Los Angeles boasts as the country's top import and export hub that thrives in global trade and logistics activity. In fact, according to the Department of Labor, from now until 2022 the job outlook for the logistics industry will continue to grow by 22%. ELAC's Technology and Logistics Program serves this industry. The program offers Technology & Logistics Level 1 and Level 2 Skill Certificates, a Logistics Material Handling Certification Skills Certificate, a Leadership in Global Logistics Skills Certificate, two nationally recognized certifications (Certified Logistics Associate and Certified Logistics Technician), a Technology & Logistics Certificate of Achievement, and a Technology & Logistics Associate of Science Degree with a seamless transfer pathway to CSULA and CSUDH. The Technology & Logistics certificates, certifications and degree emphasizes the use of technology in manufacturing, wholesale, e-commerce, distribution, and intermodal transportation.

Effective in 2016 the International Trade discipline was moved to the CAOT Department because of its logical fit with the logistics industry. The term "Global Trade & Logistics" is becoming the title used by the California State Chancellor's Office and as well as industry. Two new short skills certificates (Global Trade & Logistics - Import & Export and Global Trade & Logistics - International Trade & Transportation) are now available.

The CAOT Department recently adopted a Vision Statement, a Mission Statement, and Core Values to be the concentration of what the department will live by.

Vision

To lead in innovative, quality, and skill-driven instruction within a climate of constant technological change.

Mission

Through cutting-edge and technology-based instruction, produce skilled professionals who add value to any business environment.

Core Values

- Improve the quality of life for ELAC students through skill- and career-driven education
- Earn student loyalty and trust
- Increase student success as the core of all CAOT decisions
- Seize opportunities that add value and support CAOT's primary mission
- Apply integrity, excellence and innovative curriculum and instruction
- Align with emerging technological trends
- Capitalize on industry and community partnerships that drive student success

Technology & Logistics, Associate in Science Degree

The Technology & Logistics Associate Degree is designed for students who intend to pursue the field of logistics as a career path and with the goal of transferring to a university. Logistics is the management and control of all aspects of the movement of goods, energy, services, information, and people. Warehouse and distribution operations, flow of goods and documents, shipping and receiving concepts, communication skills, teamwork, customer service, applied math, and warehousing/inventory software will be covered. Students will also gain a knowledge and application of new technologies, including RFID, GIS, and GPS which coordinate the process and expedite the distribution of goods and services. Two (2) logistics national certifications (Certified Logistics Associate and Certified Logistics Technician) can be earned which are nationally portable logistics credentials from the Manufacturing Skills Standard Council (MSSC). In addition, students will complete general education courses designed to enable them to experience learning environments that foster and develop the ability to think and communicate clearly, to use mathematics, to be aware of other cultures, to think about ethical problems, and to develop the capacity for self-understanding and critical thinking.

SUBJECTS & COURSE DESCRIPTIONS

Computer Applications and Office Technologies (CAOT)

1 Computer Keyboarding and Document Applications I (3) CSU

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course provides basic training in proper keyboard technique and use of the computer to build speed and accuracy. Correct keying of letters, envelopes, tables, memorandums, and reports is also introduced, as well as proofreading with accuracy.

2 Computer Keyboarding and Document Applications II (3) CSU

Advisory: CAOT 1.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

Note: Entering students should be able to key 30 gross words a minute.

This course provides a thorough training in keying business and personal letters, tables, manuscripts, and memoranda on computers using word processing software. Emphasis is placed on keyboarding techniques, improving speed and accuracy on timed writings, and developing proofreading skills.

31 Business English (3) CSU

LECTURE, 3 HOURS.

This course provides the framework for understanding business language and terminology used by business and technology professionals. Students gain an understanding of the rules of building and analyzing business terms from word origins and learn correct pronunciation, definitions, and spelling.

32 Business Communications (3) CSU

Advisories: CAOT 31 and CAOT 1.

LECTURE, 3 HOURS.

In this introductory course in business writing logical thought and critical evaluation of communication are stressed. Topics covered include the techniques of writing all types of business letters, with emphasis on the application letter; review of the fundamentals of grammar, spelling, and punctuation; and development of business vocabulary. Students develop oral communication skills through presentation of reports.

33 Records Management and Electronic Filing (3)

LECTURE, 3 HOURS.

This course is an intensive study of the principles of manual and computerized alphabetic filing. A study of the field of records management, automated records systems, retrieval, retention, and transfer methods, and charge-out and follow-up procedures are discussed. Electronic records management concepts are also introduced.

34 Business Terminology (2) CSU

LECTURE, 2 HOURS.

This course helps students enrich their vocabulary and develop their spelling ability. Emphasis is placed on commonly misspelled words and definition of commonly confused word pairs and terminology related to the business and technology fields.

35 Concepts in Information Systems

(3) UC:CSU (C-ID Bus 140)

LECTURE, 3 HOURS.

This course provides students with the basis for understanding the concepts of information systems and their role in business. Emphasis is placed on the components of the computer, including the system unit and input, output, storage, and communication devices; application software; systems software; networks and the Internet; and privacy and security issues. Concepts and methods are

applied through the completion of hands-on computer-based projects using spreadsheet and database software that seek solutions to business problems.

48 Customer Service (3) CSU

LECTURE, 3 HOURS.

This course is designed to raise awareness, prompt thinking, give step-by-step suggestions for improvement, and provide information on how an organization can deliver service excellence. The information is beneficial whether one is new to dealing with others in a business setting or is more experienced with internal customers (e.g., coworkers or other employees) and external customers (e.g., consumers, vendors, or other end users of products). Emphasis is placed on communication, diversity, technology, time management, stress management, and customer retention.

82 Microcomputer Software Survey in the Office (3) CSU

Advisory: CAOT 1.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course provides hands-on training in the introduction to the basic concepts and functions of the Microsoft Office Suite including Word (word processing), Excel (spreadsheet), Access (database), and PowerPoint (presentation graphics).

84 Microcomputer Office Applications: Word Processing (3) CSU

Advisory: CAOT 1

LECTURE, 3 HOURS.

This course provides information and hands-on training using Microsoft Word. Students learn beginning and advanced concepts and functions and apply their skills and knowledge to a wide variety of simple and complex documents, such as letters, memoranda, columnar tables, text tables, manuscripts, mail merge, and graphics. Upon completion of this course, students are eligible to take the Microsoft Office Specialist Word exam.

85 Microcomputer Office Applications: Spreadsheet (3) CSU

Advisory: CAOT 1.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course is designed to teach office spreadsheet applications using the PC and a spreadsheet program. Students learn to create, edit, format, and print worksheets. Emphasis is placed on preparing computerized worksheets by inserting formulas and functions to analyze data and simplifying office accounting procedures.

86 Microcomputer Office Applications: Database (3) CSU

ADVISORY: CAOT 1.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course teaches the fundamentals of database creation and management. Students learn to create, edit, format, and print database objects, including tables, forms, reports, queries, and macros. Creating and using PivotTables and sharing database information with other software applications are also covered.

92 Computer Windows Application (2) CSU

Advisory: CAOT 1.

LECTURE, 1.5 HOURS; LABORATORY, 1 HOUR.

This course provides an in-depth study of a Windows operating system, Windows 10. Covers the Windows 10 environment, the Windows 10 desktop, folder and file management, personal information management and communication, developing a personal work environment, and customizing the computer using the control panel.

109 Web Multimedia for the Office (3) CSU

Advisory: CAOT 97.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course provides hands-on implementation skills in using multimedia tools to create and maintain Web sites. Students develop multiphase Web sites for the high-tech office environment that incorporate links, graphics, animation, and other multimedia capabilities using Web-authoring software.

110 Microcomputer Office Applications: Presentation Design (3) CSU

Advisory: CAOT 1.

LECTURE, 3 HOURS.

This course is designed to teach the fundamentals of presentation creation, enhancement, and modification. Students learn to create, edit, format, show, and print presentations including the use of PowerPoint templates, outlines, pictures, charts, tables, animation, video and sound.

111 Microcomputer Office Applications: Electronic Communications (2) CSU

Advisory: CAOT 82.

LECTURE, 1.5 HOURS; LABORATORY, 1 HOUR.

This course emphasizes the use of Microsoft Outlook for e-mail, calendar and scheduling, and managing contacts.

133 How to Succeed in an Online Course (1)

LECTURE, 0.5 HOUR; LABORATORY, 1 HOUR.

This course is intended for students wishing to enroll for the first time in an online class. It covers the basic navigation of the online environment including how to post to forums, take quizzes, submit assignments, and other common online skills focusing on, but not limited to canvas, as well as the soft skills needed to be successful in an online environment.

145 ePortfolio (1) CSU

Advisory: CAOT 1.

LECTURE, 1 HOUR; LABORATORY, 1 HOUR.

This course is a basic first course in planning and designing an electronic portfolio that can be used throughout the student's program of study in any field. The electronic portfolio can be used as an ongoing professional resource to display students' achievements and progress, showcase experiences and collections of works, as well as used as a valuable job search tool. This course focuses on the techniques and skills needed to develop the electronic portfolio, the contents of which are stored digitally and are accessible on the Internet.

152 Mobile Apps for Business (3) CSU

LECTURE, 3 HOURS.

This course introduces students to application development for both Android and iOS platforms. Students receive hands-on experience using MIT App Inventor. The course centers around building several small applications which utilize and effectively integrate specific features of an Android and iOS devices such as user interface, process creation, life cycle events, network/Web access, sound, multimedia, GPS, accelerometer, and other on-device sensors. Students learn about the mobile device and application market, how to register with the Google Play Store and Apple App Store to be an application developer, and what is involved in distributing their applications to both the Android and iOS user population.

153 Social Media (3) CSU

LECTURE, 3 HOURS.

This course is designed for those interested in understanding and using the power of social media. Students learn to use social media to promote and expand their online presence while developing meaningful relationships. Students learn to choose social media sites to find people in target markets, engage users, and build valuable relationships that can lead to sales and job opportunities. Topics covered include creating and building a fan base, web marketing, and building traffic to websites and business.

185 Directed Study - Computer Applications and Office Technologies (1) CSU

285 Directed Study - Computer Applications and Office Technologies (2) CSU

385 Directed Study - Computer Applications and Office Technologies (3) CSU

LABORATORY, 9 HOURS.

The above courses allow student to pursue Directed Study in Computer Applications and Office Technologies on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A CAMPUS MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

International Business (INTBUS)

1 International Trade (3) CSU

LECTURE, 3 HOURS.

This foundation course in international trade provides a global Logistics and international marketing perspective to importing and exporting. From world trade agreements and regulations to practices and procedures, the course surveys the global business environment, international supply chain management, international market entry, international contracts, terms of trade, terms of payment, currency of payment, documentation, U.S. Customs, and competitive advantage strategies.

2 Transport Systems (3) CSU

LECTURE, 3 HOURS.

This course examines the global transport systems used in importing and exporting. Emphasis is given to the role of ocean, air, land, and multimodal transport infrastructures as key components of international supply chain management operations. Supporting international trade

topics include commercial terms of trade, commercial and transportation documents, insurance, packaging for export, Logistics infrastructure and security, and United States Customs clearance.

3 Export Procedures I (3) CSU

LECTURE, 3 HOURS.

This course provides hands-on working knowledge in the business of exports, its procedures and required documentation. The course covers the export transaction from inception to receipt of payment. Topics include: Evaluation of a company's export readiness and potential, market research, identification of the best export markets, costing, quotations, letters of credit, major export products, marketing, terms of sale, marine insurance, transportation, sales contracts, documentation, and U.S. export controls.

4 Import Procedures I (3) CSU

LECTURE, 3 HOURS.

This course focuses on international trade strategies and techniques and presents an overview of importing terms. The concepts of management, finance, operations, law, communications, marketing, and ethics as they apply to imports are discussed. Topics include: Overseas purchasing, import operations, U.S. government regulations, finance, documentation, record keeping, international trade treaties, and global culture. Additionally, the class covers bilateral trade relations, unique country profiles, and product sourcing modalities. U.S. and World Customs duty rate structure and the role of customs brokers and freight forwarders are highlighted. International currency transactions, storage, distribution, and transportation are also discussed.

Logistics (LOGTIC)

101 Technology in Global Logistics (1) CSU

LECTURE, 1 HOUR.

This course introduces the technology that is used within global logistics. The emphasis is on state-of-the-art technologies and practices found within the mobile workforce and dynamic worksite environments that enable global commerce. Topics include handheld devices used in sales, inventory, and real-time tracking, GIS (Geographic Information Systems) used in distribution, GPS (Global Positioning Satellites) used in transportation, an introduction to global value networks, and a survey of global supply chain logistics careers.

102 Concepts in Global Logistics (2) CSU

LECTURE, 2 HOURS.

This course introduces the concepts, terminology, and practices found within the government regulations and commercial operations of global supply chains logistics, which are applicable throughout the manufacturing, distribution, wholesale, retail, and various transportation industries.

103 Inventory in Global Logistics (2) CSU

LECTURE, 2 HOURS.

This course introduces basic records and inventory management principles, practices, and software applications that support global supply chain logistics. The course teaches standard inventory concepts, procedures, and technologies that are used to maintain Records Information

Management systems that sustain global manufacturers, distribution centers, wholesale suppliers, retail networks, and transportation industries.

104 Logistics: Cornerstone Essentials (3) CSU

LECTURE, 3 HOURS.

This course introduces the fundamental knowledge, skills, and competencies to accomplish the critical workplace activities that are common to all logistics facilities across a global supply chain. Successful completion of this course prepares students to be eligible to take a foundational-level material handling industry certification exam.

105 Green Logistics and GIS Technology (3) CSU

LECTURE, 3 HOURS.

This course introduces environmentally sustainable concepts, technology, and 'Green' sustainable logistics practices within transportation geography, along with mid-technical level material handling competencies. Fundamental Geographic Information System (GIS) functions are introduced through hands-on training with route scheduling software. Successful completion of this course prepares students to be eligible to take a mid-level logistics industry material handling certification exam.

106 Leadership in Logistics (3) CSU

LECTURE, 3 HOURS.

This course is designed to provide 21st Century leadership skills and theories in a logistics environment. This course introduces the logistics environment, leading vs. managing, the key elements of leadership, the interrelationship between trait and behavioral leadership theories, influencing, communicating, coaching/mentoring, conflict resolution, team logistics leadership, ethics and diversity, and developing a logistics leadership culture.

107 E-Commerce for Global Logistics and Entrepreneurs (3) CSU

LECTURE, 3 HOURS.

This course explains how electronic commerce technological infrastructure, economic forces, and international characteristics are transforming 21st century business. Course case studies focus on how companies use e-commerce to create new products and services that require advanced processing methods and supply chain logistics operations. Additional topics include e-commerce definitions (business-to-business, business-to-consumer, consumer-to-consumer, business-to-government), social networking, mobile commerce, e-commerce application/software, e-security, Web marketing, online auctions, and e-payment.

108 Industry Safety Fundamentals (3) CSU

LECTURE, 3 HOURS.

This course is designed with OSHA standards in order to establish, maintain and foster a culture of safety. This course covers OSHA standards, policies, and procedures in general industry. Topics include scope and application of the OSHA General Industry Standards, general industry principles and special emphasis on those areas in general industry which are most hazardous. Successful completion of this course earns students the OSHA general industry authorization card.

931 Cooperative Education (3) CSU

Note: Requires 15 to 19 hours per week; paid employment related to the occupational major and enrollment in at least 7 units (which include Co-op Ed).

This course offers advanced supervised training in an employment area that enhances the student's educational goals.

SUBJECTS & COURSE DESCRIPTIONS

Counseling (COUNSEL)

1 Introduction to College (1) CSU

LECTURE, 1 HOUR.

This course is designed to provide students with skills needed to succeed in college. Emphasis is placed on college policies and procedures, campus services and resources, study skills and time management. Additional topics include: Certificate, associate degree requirements, and transfer admission requirements.

4 Career Planning (1) CSU

LECTURE, 1 HOUR.

This is a career planning course designed to help the undecided student make a meaningful decision regarding a career goal. The course includes career assessments, various self-appraisal techniques, and information regarding career characteristics and trends using career information technology. This course provides students with insights into their interests, and personality which gives them the ability to make realistic and informed career choices.

20 Post-Secondary Education: The Scope of Career Planning (3) UC:CSU

LECTURE, 3 HOURS.

This course introduces students to the higher education system and their role as students. Students explore personal attributes needed for college success. Topics covered include: Critical thinking skills, effective study strategies, communication skills, diversity issues, time management, health issues and lifestyle choices, the career planning and decision-making process, and transfer and educational planning. An overview of campus resources and policies is also provided.

22 The Transfer Process (1) CSU

LECTURE, 1 HOUR.

This course is an introduction to the transfer process. It is designed to enable students to become active participants in planning their long-term educational and career goals and provides students with an understanding of the process and the requirements for transferring to a four-year college or university. These goals enable the student to develop a transfer educational plan and to be prepared to apply to a transfer institution.

40 College Success Seminar (3) CSU

LECTURE, 3 HOURS.

This course introduces students to the higher education system, and provides a study of the educational, psychological, intellectual, social, and health-related factors that impact lifelong learning, well-being and success. Topics include: Motivation, critical thinking, learning strategies, time management, communication skills, career exploration, and educational planning. An overview of campus resources and policies is also provided.

Dance Department

S2-108F DANCE • (323) 265-8740

The ELAC Dance Department is concerned with the dance training of anyone with any level of interest, ability, and skill in dance in order to help each student reach a functional performance level in dance. The ambassadors of Dance at ELAC, our Let's Dance Company, has auditions every semester to place all levels of dancers in core technique courses, which significantly develop their skills in just two years. We provide an outstanding comprehensive curriculum for the student who aspires to become a professional dancer, or for the student who wants to complete a general education, or for someone who just wants to dance better throughout life.

Our S2 Dance Building houses two of the largest smart classrooms for dance technique classes in Southern California, and we also share a beautiful 350-seat recital hall in our building with Music. This state-of-the-art facility helps our dedicated faculty provide an exceptional, comprehensive curriculum for the dance student with any goals. Many of our Let's Dance Company alumni are teaching dance in community services, recreation, and after school programs everywhere in our service area. Some of our dancers are dancing in Community Theater, on Cruise Lines, and even on Broadway! The ELAC Dance Department has performance opportunities each semester in the Recital Hall, in the community, and the Let's Dance Company has even performed in European performance tours.

The East Los Angeles College Let's Dance Company (LDC) consists of passionate, committed, and talented young women and men. LDC represents a diverse group of prestigious dancers with multi-cultural backgrounds who obtain a common goal to grow and prosper by taking an enthusiastic approach to learning, bonding, and gathering memorable experiences. Through this process of unification, they develop a strong foundation of camaraderie and demonstrate persistent dedication. Years of refined disciplinary skills contribute towards their accomplishments in rehearsals, performances, community events, tours, academic goals, and future endeavors. The LDC members are well aware that they are constantly in the public eye throughout the community and always do their best to represent East Los Angeles College with the utmost respect, traditions, and pride. For more information about Dance at ELAC and the LDC, performance information, audition schedules, and ticketing, please call the Director/Chair, Kimberly Rabins, at 323-265-8740.

EDUCATIONAL PROGRAMS

SUBJECTS

- Dance Specialities
- Dance Studies
- Dance Techniques

Title 5 changes effective Fall 2013 substantially restrict how many times students can take specific types of classes. Students enrolled in "active participation courses" in Kinesiology, visual arts, or performing arts are limited to four (4) enrollments per "family". Failures and W grades count as enrollments. A family can contain multiple courses, but a student can only take four of them. LACCD courses in, Art, Dance Techniques, Kinesiology, Music, and Theater are all affected. For courses in the Dance department, families have been created as follows:

DANCE FAMILY NAMES AND COURSE NUMBERS:

Ballet Techniques	DANCETQ 111, 112, 113, 114
Latin and Social Dance.....	DANCETQ 321, 322, 411, 412
Dance Productions	DANCETQ 814, 815, 816, 820, 821
Hip Hop Techniques.....	DANCETQ 171, 172, 173, 174
Jazz Dance Techniques	DANCETQ 121, 122, 123, 124, 468
Modern Dance Techniques.....	DANCETQ 141, 142, 143, 144
Special Projects in Dance.....	DANCETQ 535, 536, 537, 538
Tap Dance	DANCETQ 211, 212
Yoga/Stress Management....	DANCETQ 181, 182, 221, 222, 570, 571, 572, 573, KIN 247
Dance Choreography.....	DANCEST 452
Dance Performance.....	DANCEST 822, 823
Folk Dance Forms	DANCESP 491, 492, DANCETQ 421, 422

SUBJECTS & COURSE DESCRIPTIONS

Dance Specialities (DNCEPC)

491 Special Topics in Dance I (1) CSU

LABORATORY, 3 HOURS.

This course introduces students to the historical and cultural origins and fundamental dance techniques of folk, ethnic, recreational, or other specialized dance genres. Foundational steps and combinations of steps from the particular genre are utilized by students to create an understanding of musical phrasing and rhythms utilized in that particular dance form. This level one course provides a foundation for further study in the particular genre of dance.

492 Special Topics in Dance II (1) CSU

Prerequisite: Dance Specialities 491.

LABORATORY, 3 HOURS.

This course continues to expose students to the historical and cultural origins and beginning dance techniques of folk, ethnic, recreational, or other specialized dance genres. Basic steps and combinations of steps from the particular genre are utilized by students to establish a

basic knowledge of musical phrasing and rhythms utilized in that particular dance form. This level two course provides a greater foundation for further study in the particular genre of dance.

Dance Studies (DANCEST)

452 Introduction to Choreography (2) UC:CSU

Advisories: Dance Techniques 111, or 121 or 141 or 171, or 535, or 570 or Dance Specialties 491.

Lecture 1 hour; Laboratory 2 hours.

This course introduces students to choreography with an emphasis on basic steps and combinations, creating dances, terminology, music, and appreciation of dance as a performing art form.

457 Dance Perspectives and Appreciation

(3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS.

This course focuses on historical perspectives, world dance cultures, dance as an art form, and appreciation of dance in its various forms, folk, ethnic, artistic-theatrical, and social.

458 Latin American Dance Cultures

(3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS.

This class focuses on Latin American folk dance appreciation, studying dance as culture, and how each region manifests its traditions, history, and lifestyle as expressed through movement. Students explore and analyze folk dances and how they are reflected by the worldview of people who practice them. They also analyze symbolic movements from selected dances to recognize the quality of movement and the relationship between religious and secular dances

814 Dance Production I (2) UC:CSU

Note: Audition required.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course provides fundamental instruction and laboratory experience in methods and techniques involved in producing a dance concert, including publicity, lighting, audio, costuming, audition and performance skills, and dance critique and assessment.

815 Dance Production II (2) UC:CSU

Prerequisite: Dance Studies 814.

LECTURE, 1 HOURS; LABORATORY, 2 HOURS.

This course provides basic instruction and laboratory experience in methods and techniques involved in producing a dance concert; including publicity, lighting, audio, marketing, and audition and performance.

816 Dance Production III (2) UC:CSU

Prerequisite: Dance Studies 815.

LECTURE, 1 HOURS; LABORATORY, 2 HOURS.

This course provides instruction and intermediate laboratory experience in methods and techniques involved in producing a dance concert; including publicity, lighting, audio, costuming, audition and performance skills, and dance critique and assessment.

820 Dance Staging and Methods (4) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course provides instruction and laboratory experience in methods and techniques involved in producing a dance concert or event, including rehearsal management, scheduling, choreographic applications, lighting, costuming, publicity, audition and performance skills, dance critique and assessment.

821 Dance Staging and Methods II (4) UC:CSU

Prerequisite: Dance Studies 820.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course provides basic discussion and laboratory experience in methods and techniques involved in producing a dance concert or dance event, including rehearsal management, scheduling, beginning choreographic applications, lighting, costuming, publicity, audition and basic performance skills, and dance critique and assessment.

822 Dance Rehearsals and Performances I (1) UC:CSU

LECTURE, 0.5 HOUR; LABORATORY, 2.50 HOURS.

This course is structured rehearsal time for the study and performance of selected dance works, which may be traditional, contemporary, or experimental in concept and composition. Students participate as dancers and may perform on campus and/or in the community.

823 Dance Rehearsals and Performances II (1) UC:CSU

Prerequisite: Dance Studies 822.

LECTURE, 0.5 HOUR; LABORATORY, 2.50 HOURS.

This course further explores the study and performance of selected dance works through structured rehearsal time. Examination of the dancer's role in the creative process such as, improvisational techniques, movement assignments, characterization and style attributes exposes students to a deeper understanding of dance as a historical and performing art form. Students participate as dancers and may perform on campus and/or in the community.

826 Dance Performance Company (1) UC:CSU RPT3

LABORATORY, 3 HOURS.

This course develops knowledge and techniques for students to perform in college-based, professional dance companies and/or touring dance troupes. Students explore various dance genres which enhance their abilities to become well-rounded dance artists in and around our community. This course provides opportunities for participation in the American College Annual Dance Festival and the Los Angeles Community College Dance Competition/Invitational as part of the East Los Angeles College Dance Company, as well as opportunities for master classes, community outreach, performances and college-sponsored events, and national and international tours.

Dance Techniques (DANCETQ)

111 Ballet Techniques I (1) UC:CSU

LABORATORY, 3 HOURS.

This fundamental course in classical ballet provides a foundation for the appreciation of how to take a ballet class by introducing fundamental step sequences and combinations, terminology, music, and appreciation of ballet dance as a historical performing art form, which prepares students for further study in ballet technique.

112 Ballet Techniques II (1) UC: CSU

Prerequisite: Dance Techniques 111.

LABORATORY, 3 HOURS.

This beginning level ballet course continues to establish a basic knowledge of a complete classical ballet class by utilizing compound step sequences and combinations, higher level codified terminology, and faster tempo music, and affirms each student's appreciation of ballet dance as a historical and performing art form by reviewing cumulative ballet technique and information while preparing students for further study at higher levels.

113 Ballet Techniques III (1) UC:CSU

Prerequisite: Dance Techniques 112.

LABORATORY, 3 HOURS.

This intermediate level ballet course solidifies learned techniques and knowledge of a complete classical ballet class through the application of acquired skills and technical elements demonstrated in compound step sequences and combinations. Advancement of codified ballet terminology, musical phrasing in ballet composition, physical aptitude and performance skills prepare students for higher study of ballet and affirm each student's appreciation of ballet dance as a historical and performing art form.

114 Ballet Techniques IV (1) UC:CSU

Prerequisite: Dance Techniques 113.

LABORATORY, 3 HOURS.

This pre-performance level ballet course advances acquired techniques and knowledge of a complete classical ballet class with emphasis placed on the development of stylistic nuances in ballet performance. Artistic development of performance components are applied to acquired skills and techniques learned in previous studies of ballet. Students apply knowledge of codified terminology, dancer technique and training, musical phrasing, and performance skills to existing dance technique vocabulary for the purpose of stage performance preparation. Performance practices prepare students for real world performance opportunities and solidify the student's appreciation of ballet dance as a historical and performing art form.

121 Jazz Dance Techniques I (1) UC: CSU

LABORATORY, 3 HOURS.

This fundamental course in Jazz dance provides a foundation for performance-based dance techniques of Jazz by introducing fundamental step sequencing and combinations, music, terminology and appreciation of the evolution of Jazz dance as a performing art form, which prepares students for further study in Jazz dance technique.

122 Jazz Dance Techniques II (1) UC: CSU

Prerequisite: Dance Techniques 121.

LABORATORY, 3 HOURS.

This beginning level Jazz dance course continues to establish basic knowledge of performance-based Jazz dance technique by utilizing compound step sequences and combinations, higher codified level terminology, diverse selections of musical rhythms and phrasing and affirms each student's appreciation of the evolution of Jazz dance as a performing art form by reviewing cumulative jazz technique and information while preparing students for further study at higher levels.

123 Jazz Dance Techniques III (1) UC:CSU

Prerequisite: Dance Techniques 122.

LABORATORY, 3 HOURS.

This intermediate level jazz dance course solidifies learned techniques and knowledge of a complete jazz dance class through the application of acquired skills and technical elements demonstrated in compound step sequences and combinations. Advancement of codified terminology used within the jazz genre, musical phrasing, physical aptitude and performance skills prepare students for higher study of jazz dance and affirm each student's appreciation of jazz dance as a historical and performing art form. Social issues in the mid 20th century, including globalization and popularization of jazz as an artistic expressive form are discussed.

124 Jazz Dance Techniques IV (1) UC:CSU

Prerequisite: Dance Techniques 123.

LABORATORY, 3 HOURS.

This pre-performance level jazz dance course advances acquired techniques and knowledge of a complete jazz technique course with emphasis placed on the development of stylistic nuances in jazz performance. Artistic development of performance components are applied to acquired skills and techniques learned in previous studies of jazz. Students have the opportunity to explore diverse stylings of jazz dance including, but not limited to theatrical jazz, lyrical jazz, jazz funk, and contemporary jazz. Students apply knowledge of codified terminology, dancer technique and training, musical phrasing, and performance skills to existing dance technique vocabulary for the purpose of stage performance preparation. Performance practices prepare students for real world performance opportunities. Sociocultural media influences are assessed to examine performance platforms available for professional jazz dancers today and analyzing jazz dance as a culturally relevant performing art form.

141 Modern Dance Techniques I (1) UC: CSU

LABORATORY, 3 HOURS.

This fundamental course in modern dance provides a foundation for the appreciation of how to take a modern dance class through an exploration into foundational body movement skills, introductory performance qualities, fundamental theory of modern dance principles, an introduction to various styles of modern dance for the new dancer, and exposure to the historical development of modern dance forms as we know them today. Emphasis is placed on the development of technique and style.

142 Modern Dance Techniques II (1) UC: CSU

Prerequisite: Dance Techniques 141.

LABORATORY, 3 HOURS.

This second level modern dance course establishes basic knowledge of beginning techniques of modern dance. Instruction includes broadening the exploration body movement skills, basic performance qualities, deeper study of modern dance principles, and a greater ability to distinguish the differences of various modern dance forms as we know them today. Emphasis is placed on the development of individual expression and integration of creativity in order to prepare dancers for further study in modern dance.

143 Modern Dance Techniques III (1) UC:CSU*Prerequisite: Dance Techniques 142.*

LABORATORY, 3 HOURS.

This intermediate level modern dance course solidifies learned techniques and knowledge of a complete modern dance class through the application of acquired skills and technical elements demonstrated within movement form, performance qualities and artistry. Advancement of modern dance terminology, movement theory, physical aptitude, and musical phrasing prepares students for higher study of modern dance and affirms each student's appreciation of modern dance as a historical and performing art form. A review of modern dance history and an exploration of choreographic principles reinforce an understanding of the creative and expressive foundations of modern dance. Social, cultural, and political ideologies illustrated within the genre are surveyed, as well as some basic theoretical perspectives used to analyze the development of modern dance during the early 20th century.

144 Modern Dance Techniques IV (1) UC:CSU*Prerequisite: Dance Techniques 143.*

LABORATORY, 3 HOURS.

This pre-professional level modern dance course advances acquired techniques and knowledge of a complete modern dance class with emphasis placed on the development of stylistic nuances and improvisational techniques demonstrated within movement form and artistry. Artistic development of performance components are applied to acquired skills and techniques learned in previous studies of modern dance. Students apply knowledge of codified terminology, dancer technique and training, musical phrasing, and performance skills to existing dance technique vocabulary for the purpose of stage performance preparation. Performance practices prepare students for real world performance opportunities and solidify student's appreciation of modern dance as a historical and performing art form. Students have the opportunity to create unique projects for a comprehensive understanding of contemporary relevance of this dance form. Social, cultural, and political ideologies illustrated within the genre are surveyed, as well as theoretical perspectives used to analyze the development of post-modern dance during the second half of the 20th century.

171 Hip-Hop Dance Techniques I (1) UC: CSU

LABORATORY, 3 HOURS.

This fundamental course in Hip Hop dance provides a foundation for Hip Hop and Funk dance techniques by introducing fundamental step sequencing and combinations, music, terminology and the appreciation of Hip Hop dance as a historical performing art form, which prepares students for further study in Hip Hop dance technique.

172 Hip-Hop Dance Techniques II (1) UC: CSU*Prerequisite: Dance Techniques 171.*

LABORATORY, 3 HOURS.

This beginning level Hip Hop course continues to establish a basic knowledge of Hip Hop and Funk dance techniques by utilizing compound step sequences and combinations, higher level codified terminology, diverse selections of musical rhythms and phrasing and affirms each student's appreciation of Hip Hop dance as a historical and

performing art form by reviewing cumulative Hip Hop technique and information while preparing students for further study at higher levels.

173 Hip-Hop Dance Techniques III (1) UC:CSU*Prerequisite: Dance Techniques 172.*

LABORATORY, 3 HOURS.

This intermediate level hip-hop course solidifies learned techniques and knowledge of a complete hip-hop and funk dance class through the application of acquired skills and technical elements demonstrated in compound step sequences and combinations. Advancement of hip-hop movement vocabulary, diverse selections of musical rhythms and phrasing, physical aptitude, and performance skills prepares students for higher study of hip-hop dance techniques and performance. Exploration of the origins of hip-hop movement and the artistic influences embedded within the culture affirms each student's appreciation of hip-hop dance as a historical and performing art form.

174 Hip-Hop Techniques IV (1) UC:CSU*Prerequisite: Dance Techniques 173.*

LABORATORY, 3 HOURS.

This pre-performance level hip-hop course advances acquired techniques and knowledge of a complete hip-hop and funk class with emphasis placed on the development of stylistic nuances in hip-hop performance. Artistic development of performance components are applied to acquired skills and techniques learned in previous studies of hip-hop. Students apply knowledge of funk and popping techniques, terminology, dancer technique and training, character, musical phrasing, and performance skills to existing dance technique vocabulary for the purpose of stage performance preparation. Exploration of hip-hop dance trends, including music and movement styles will be discussed. Performance practices prepare students for real world performance opportunities and solidify student's appreciation of hip-hop as a historical and performing art form.

181 Pilates I (1) UC: CSU

LABORATORY, 3 HOURS.

This fundamental level Pilates course focuses on the fundamental exercises which build a foundation of core strength and a nominal level of flexibility, strength, and endurance, which become essential in the proper execution of the exercises and in an increased functional capacity of the body, thereby preparing dancers for later levels of this course.

182 Pilates II (1) UC: CSU*Prerequisite: Dance Techniques 181.*

LABORATORY, 3 HOURS.

This course focuses on the basic exercises which continue to build a foundation of core strength and a greater level of flexibility, strength, endurance, and an increased functional capacity of the body, thereby preparing participants for more intermediate levels of this course.

211 Tap Dance Techniques I (1) UC: CSU

LABORATORY, 3 HOURS.

This course provides students the opportunity to learn and develop fundamental tap dance skills, thereby establishing a foundational knowledge of this dance technique.

Besides learning the fundamental elements of this dance style, emphasis is placed on developing skills to a fundamental performance level. In addition, students learn tap dance step terminology and history, which allow students to gain an appreciation for this type of dance as an art form.

212 Tap Dance Techniques II (1) UC: CSU

Prerequisite: Dance Techniques 211.

LABORATORY, 3 HOURS.

This course provides students the opportunity to learn and develop beginning tap dance skills, thereby establishing a basic knowledge of this dance technique. Besides learning the basic elements of this dance style, emphasis is placed on developing skills to a basic performance level. In addition, students learn tap dance step terminology and students also learn history and appreciation for this type of dance as an art form.

221 Yoga Skills I (1) UC: CSU

LABORATORY, 3 HOURS.

This introductory Yoga course provides a foundation to conditioning, flexibility, and endurance to supplement dance techniques. Yoga focuses on the development of the body/mind through the use of specific Yoga postures, breathing techniques, stretches, mental exercises, and relaxation exercises to obtain greater concentration, self-discipline, and improved physical, mental, and emotional health. The yogic system of exercise allows for different exercises to be modified in range of difficulty from beginning to advanced. Intensity can be increased over time as the body conditions and adapts to the exercises. This is a level one course with a foundational approach to practicing a complete Yoga class.

222 Yoga Skills II (1) UC: CSU

Prerequisite: Dance Techniques 221.

LABORATORY, 3 HOURS.

This beginning Yoga course provides the basic knowledge of yoga conditioning, flexibility, and endurance to assist the development of a yogic lifestyle. Beginning-level yoga asanas, pranayama techniques, meditation exercises, and relaxation techniques allow students to apply the greater concentration, self-discipline, and improved physical, mental, and emotional health they have previously adopted in the level one course. This level two course is a more intense Yoga class, thereby preparing dancers for more intermediate levels of Yoga.

321 Social Dance I (1) UC: CSU

LABORATORY, 3 HOURS.

This course is a fundamental survey of common, codified styles of dance typically performed in a social setting as a couple or group. Three or four varying types of social dance are taught each semester from a list that includes: American Rhumba, Cha-Cha-Cha, Line Dancing/Country-Western Swing, East Coast Swing, or American Tango. The dance history and the cultural background are presented for each type of social dance covered in this course. Also, music selection, basic rhythms, and cultural influences on the dance and music of social dance are covered.

322 Social Dance II (1) UC: CSU

Prerequisite: Dance Techniques 321.

LABORATORY, 3 HOURS.

This course is a beginning survey of common, codified styles of dance typically performed in a social setting as a couple or group. Three or four varying types of social dance are taught each semester from a list that includes: Waltz, Fox Trot, Samba, West Coast Swing, Danzon, or Disco. The dance history and the cultural background are presented for each type of social dance covered in this course. Also, music selection, basic rhythms, and cultural influences on the dance and music of social dance are covered.

411 Salsa Casino I (1) UC: CSU

LABORATORY, 3 HOURS.

This course is a fundamental survey of an intensified version of Salsa dance technique called Rueda de Casino, a form of Casino danced in a round with two or more couples exchanging partners as one chosen person calls out codified terminology or cues. Rueda is Spanish for Wheel, and Casino is known outside of Cuba as Salsa. This course explores a regional form of this type of Salsa. In this course, students learn Salsa dance terminology and also learn history and appreciation for this type of dance as an art form.

412 Salsa Casino II (1) UC: CSU

Prerequisite: Dance Techniques 411.

LABORATORY, 3 HOURS.

This beginning-level course covers an intensified version of Salsa dance technique called Rueda de Casino, a form of Casino danced in a round with two or more couples exchanging partners as one chosen person calls out codified terminology or cues. Rueda is Spanish for Wheel, and Casino is known outside of Cuba as Salsa. This course further explores a regional form of this type of Salsa. In this course, students learn further Salsa dance terminology and also explore history and appreciation for this type of dance as an art form in greater depth.

421 Mexican Folklorico I (1) UC: CSU

LABORATORY, 2 HOURS.

This fundamental level course teaches skills and dances from at least three or more of Mexico's dance regions. Emphasis is placed on the historical and cultural context of the development of these dances. Students learn to execute foundational dance steps and patterns with the style appropriate to each region. Discussion of costumes and crafts pertinent to the dances is included. This level one course provides a foundation for further study in the particular genre of dance.

422 Mexican Folklorico II (1) UC: CSU

Prerequisite: Dance Techniques 421.

LABORATORY, 2 HOURS.

This beginning level course teaches skills and dances from at least six or more of Mexico's dance regions. Emphasis is placed on the historical and cultural context of the development of these dances. Students learn to execute basic dance steps and patterns with the style appropriate to each region. Discussion of costumes and crafts pertinent to the dances is included. This level two course provides a basic knowledge for further study in the particular genre of dance.

535 Dance Team Techniques I (2) UC:CSU

LABORATORY, 6 HOURS.

This course focuses on providing a foundation of dance team technique, performance qualities, and choreography for the Dance Company/Team. Students are required to perform at selected dance department events and/or Dance Company conventions and tours as part of this course requirement. This course is required for the East Los Angeles College Dance Company/Team members.

536 Dance Team Techniques II (2) UC:CSU*Prerequisite: Dance Techniques 535.*

LABORATORY, 6 HOURS.

This course focuses on beginning dance team techniques, performance qualities and style, and basic repertoire choreography for the Dance Company/Team. Students are required to perform at selected dance department events and/or Dance Company conventions and tours as part of this course requirement. This course is required for the East Los Angeles College Dance Company/Team members.

537 Dance Team Techniques III (2) UC:CSU*Prerequisite: Dance Techniques 536.*

LABORATORY, 6 HOURS.

This course focuses on intermediate dance team techniques, performance qualities, and performance and touring choreography for the Dance Company/Team. Students are required to perform at selected dance department events and/or Dance Company conventions and tours as part of this course requirement. This course is required for the East Los Angeles College Dance Company/Team members.

538 Dance Team Techniques IV (2) UC:CSU*Prerequisite: Dance Techniques 537.*

LABORATORY, 6 HOURS.

This advanced course focuses on pre-performance dance team techniques, applies acquired techniques, and develops stylistic nuances of the particular genre. Students are required to perform at all dance department events and/or Dance Company conventions and tours as part of this course requirement. This course is required for the East Los Angeles College Dance Company/Team members.

570 Conditioning for Dance Team**Techniques I (1) UC:CSU**

LABORATORY, 3 HOURS.

This course develops knowledge and provides skills to condition the body for dance. In addition to exploring various conditioning programs, it offers an opportunity to enhance Dance Techniques.

571 Conditioning for Dance Team**Techniques II (1) UC:CSU***Prerequisite: Dance Techniques 570.*

LABORATORY, 3 HOURS.

This course establishes basic knowledge for beginning skills to condition the body for dance. In addition to developing conditioning programs aimed to increase flexibility, strength, core awareness, balance, coordination, and endurance, students have the opportunity to enhance

fundamental dance techniques through discussion and application of warm-up skills, movement sequences, and beginning dance combinations.

572 Conditioning for Dance Team
Techniques III (1) UC:CSU*Prerequisite: Dance Techniques 571.*

LABORATORY, 3 HOURS.

This intermediate level course solidifies learned techniques and knowledge to condition the body for dance through the application of acquired skills and technical elements demonstrated in flexibility and strength programs, compound step sequences, and combinations. Students have the opportunity to construct unique conditioning programs to challenge core awareness, balance, coordination and endurance. Advancement of dance techniques through discussion and application of warm-up skills, movement sequences, and intermediate dance combinations prepare students for dance performance. Dance team responsibilities, training, etiquette and the audition process are discussed to prepare students for future audition experiences.

573 Conditioning for Dance Team
Techniques IV (1) UC:CSU*Prerequisite: Dance Techniques 572.*

LABORATORY, 3 HOURS.

This pre-performance level dance course advances acquired techniques and knowledge of a complete conditioning for dance class with emphasis placed on the development of stylistic nuances and dynamic range for dancer performance. Artistic development of performance components and advancement in conditioning techniques are applied to acquired skills learned in previous dance conditioning programs. Students apply knowledge of codified terminology, dancer technique and training, musical phrasing, and performance skills to existing dance technique vocabulary for the purpose of stage performance preparation. Dancer marketing materials, including dance resume, bio and head shots are discussed. Simulation of professional dance auditions further prepare students for real-life audition processes.

Engineering and Technologies Department

E7-104 • (323) 265-8858

The Engineering and Technologies Department at ELAC was established in 1965 and offers the most comprehensive Engineering Program in California. The department offers programs and courses in Engineering transfer as well as Career Technology Education (CTE). The two-year Engineering program is designed to prepare students with lower division course requirements for transfer to a four-year engineering program at junior level. The CTE track offers opportunity for retraining the workforce, in addition to engineering students, earning a Skill Certificate in A+ Training and/or Engineering Graphics, Certificate of Achievement in Engineering Graphics, and Associate of Science in Engineering Graphics & Design. Classes at the ELAC Engineering and Technologies Department are small and, in this intimate setting, learning is greatly enhanced.

The learning is greatly enhanced by faculty interaction with students, small class size, and continual guidance from faculty mentors and club advisors which are important factors and pillars in students' success. In addition the Engineering and Technologies Department requires all students to do an educational plan and keep it updated during their educational journey at ELAC.

The Engineering Program curriculum includes core courses such as Intro to Engineering, Science and Technology, Object Oriented Programming (C++), Solid Mechanics - Statics, Materials of Engineering, and Electrical Circuits. Additionally the program offers advanced courses like; Introduction to Engineering Design, Digital Circuits Analysis, Solid Mechanics - Dynamics, Strength of Materials, Probability & Statistics for Engineers and Economic Analysis for Engineers. All offered Engineering courses are transferable to University of California or California State University systems depending on the requirements of the four-year engineering school of their choice. The course contents of the curriculum are aligned to transfer universities ABET approved programs to ease the articulation process and to facilitate transfer to baccalaureate engineering programs.

Graduates of this program continue their engineering education at various four-year colleges and universities. Many attend institutions such as UCLA, UCI, UCSD, UC Berkeley, CSULA, CSU Pomona, CSU San Luis Obispo, CSU Long Beach, CSU Northridge and University of Southern California. Students pursue degrees in many types of engineering, including aeronautical engineering, chemical engineering, civil engineering, computer engineering, electrical engineering, industrial engineering, manufacturing engineering, materials or metallurgical engineering and mechanical engineering.

Upon completing the Engineering Program, the graduate will be able to:

- Transfer with junior standing to engineering colleges in the CSU, UC, or private systems

- Develop critical thinking skills to solve engineering problems
- Develop math skills and physical concepts for problem solving
- Use the computer as a tool to help in problem solving
- Conduct and write laboratory tests/experiments in a thorough fashion using proper communications skills
- Develop an appreciation of the non-technical, human aspects of engineering
- Recognize the difference between a technician, technologist, and an engineer

The Technologies Program curriculum has been recently updated based on the recommendations of the advisory committee and local industries needs in Southern California. The Drafting and CAD programs evolved to Engineering Graphics and Design technology to train engineering technician suitable for the needs in aerospace and manufacturing industries.

The Engineering Club of East Los Angeles College provides a number of leadership opportunities to members. The club structure is comprised of sub-organizations catering to needs of the various engineering disciplines as well as the student body. This structure requires an added component of leadership with the purpose of providing the organization's leaders with the framework, skills, and knowledge that emphasize the importance of Academic Development, Professional Development, Leadership Development, Chapter/Club Development, and Outreach Opportunities.

The mission of the club highlights the importance of motivating aspiring Engineering and Technology students while encouraging an active engagement in the STEM fields. This is accomplished by promoting participation in engineering design competitions (i.e. RoboGames, Human Powered Vehicle Challenge, Shell Eco Marathon) as well as professional leadership organizations/conferences (i.e. SHPE, SWE, MAES, NSBE, CLSA, ASME, ASCE, IEEE, etc.). Activities hosted by the sub-clubs include club socials, fundraisers, study nights, celebrating Engineers Week and Noche De Ciencias, guest speakers, company tours and more. Join us today. EDUCATIONAL PROGRAMS

SUBJECTS

- Electrical Engineering Technology
- Electronics
- Engineering Graphics & Design
- Engineering Support
- Engineering Technician
- General Engineering
- Industrial Technology
- Manufacturing and Industrial Technology

SKILLS CERTIFICATE

- 3D Mapping for GIS Applications
- 3D Modeling for Building Information Modeling (BIM) Application
- A+ Certification Training
- Engineering Graphics
- LabVIEW Certification
- Land Surveying Technician Skills Certificate I
- Land Surveying Technician Skills Certificate II
- Land Surveying Technician for High School Students
- Network +
- Programming Certification
- Programming and Problem Solving
- Property Boundaries for Real Estate and Land Surveying
- Rocketry Level 1 Certification
- Sustaining Energy Certification

CERTIFICATES OF ACHIEVEMENT

- Engineering Graphics

ASSOCIATE DEGREE PROGRAMS

- Engineering Graphics and Design Technology

SKILLS CERTIFICATES

3D Mapping for GIS Applications

SUBJECT & NO.	COURSE	UNITS
GEOG 25	Introduction to Geographic Information Systems and Laboratory	4
OR		
GIS 25	Introduction to Geographic Information Systems and Laboratory	4
ENG SUP 121*	Plane Surveying I	3
<i>Total</i>		7

*This course has a prerequisite.

3D Modeling for Building Information Modeling (BIM) Application

SUBJECT & NO.	COURSE	UNITS
ARC 164	Design Software for Architecture	2
ENG SUP 121*	Plane Surveying I	3
<i>Total</i>		5

*This course has a prerequisite.

A+ Certification Training

The East Los Angeles College Electronics Department offers an "A+ Certification Training" program. Students who successfully pass the program requirements are eligible to take the A+ Certification examination.

SUBJECT & NO.	COURSE	UNITS
ELECTRN 121*	CISCO Essentials: Part 1 COMPTIAS A+ Hardware Certification	3
ELECTRN 122*	CISCO Essentials: Part 2 COMPTIAS A+ Software Certification	3
ELECTRN 126*	Installing, Configuring and Administering a Microsoft OS	3
<i>Total</i>		9

*This course has a corequisite.

Engineering Graphics

The Engineering and Technologies Department offers an Engineering Graphics & Design Technology program leading to a skill certificate in Engineering Graphics, which includes instruction in both 2-D and 3-D Computer Aided Drafting software courses. The skill set is achievable in one semester with the completion of three courses (8 units). Many students take advantage of the value of this skill set by working in industry while continuing their education leading to a Certificate of Achievement.

SUBJECT & NO.	COURSE	UNITS
EGD TEK 102*	Engineering Graphics with Introduction to GD&T and 2-D CAD	3
EGD TEK 111*	2-D Computer-Aided Drafting with Autocad	3
EGD TEK 121*	3-D Computer-Aided Design with SolidWorks	2
<i>Total</i>		8

*This course has a prerequisite.

LabVIEW Certification

SUBJECT & NO.	COURSE	UNITS
ENG GEN 121*	Programming for Engineers: C++	4
EET 121*	NI Certified LabVIEW Associate Developer 2	2
<i>Total</i>		6

*This course has a prerequisite.

Land Surveying Technician Skills Certificate I

SUBJECT & NO.	COURSE	UNITS
ENG SUP 121*	Plane Surveying I	3
ENG SUP 221*	Plane Surveying II	3
<i>Total</i>		6

*This course has a prerequisite.

Land Surveying Technician Skills Certificate II

SUBJECT & NO.	COURSE	UNITS
ENG SUP 224	Land Surveyors in Training Preparatory Course.....	2
ENG SUP 225	Boundary Control.....	2
<i>Total</i>		4

Land Surveying Technician for High School Students

SUBJECT & NO.	COURSE	UNITS
ENG SUP 100	Plane Surveying I: Boot Camp for High School Students	2
ENG SUP 101*	Plane Surveying II: Boot Camp for High School Students	2
OR		
ENG SUP 121*	Plane Surveying I.....	3
<i>Total</i>		4-5

*This course has a prerequisite.

Network +

SUBJECT & NO.	COURSE	UNITS
ELECTRN 121*	CISCO Essentials: Part 1 COMPTIAS A+ Hardware Certification	3
ELECTRN 122*	CISCO Essentials: Part 2 COMPTIAS A+ Software Certification.....	3
ELECTRN 125	COMPTIA Network+ Certification Training	3
ELECTRN 126*	Installing, Configuring and Administering a Microsoft OS	3
<i>Total</i>		12

*This course has a corequisite.

Programming Certification

SUBJECT & NO.	COURSE	UNITS
MIT 220	Introduction to Robotics.....	3
EET 123	Introduction to Arduino.....	2
<i>Total</i>		5

Programming and Problem Solving

SUBJECT & NO.	COURSE	UNITS
ENG GEN 121*	Programming for Engineers: C++	4
ENG GEN 122*	Programming and Problem-Solving in MATLAB.....	3
<i>Total</i>		7

*This course has a prerequisite.

Property Boundaries for Real Estate and Land Surveying

SUBJECT & NO.	COURSE	UNITS
REAL ES 5	Legal Aspects of Real Estate I.....	3
ENG SUP 225	Boundary Control for Surveyors.....	2
<i>Total</i>		5

Rocketry Level I Certification

SUBJECT & NO.	COURSE	UNITS
EGD TEK 102**	Engineering Graphics with Introduction to GD&T and 2-D CAD	3
EET 124*	Introduction Level 1 Rocketry	2
<i>Total</i>		5

*This course has a prerequisite.

**This course has an advisory.

Sustaining Energy Certification

SUBJECT & NO.	COURSE	UNITS
EET 120*	DC Circuits.....	3
EET 122*	Solar Cell and Hydrogen Fuel Cell Technologies.....	2
<i>Total</i>		5

*This course has a prerequisite.

CERTIFICATE OF ACHIEVEMENT

Engineering Graphics

The Engineering and Technologies Department offers a CAD program leading to a Certificate of Achievement that may enhance employment or promotion within industry, which is pursuable on a part time or full time basis. In addition to the skill set, students will complete 4 more courses (8 units) to fulfill the 16 units requirement for the Certificate of Achievement in Engineering Graphics. This certificate program prepares the student for an entry-level employment in the field of Engineering Graphics Technology (CAD) within the industry. Specialization during the coursework is possible in such fields as civil, electrical, mechanical and structural engineering.

SUBJECT & NO.	COURSE	UNITS
EGD TEK 102**	Engineering Graphics with Introduction to GD&T and 2-D CAD	3
EGD TEK 111*	2-D Computer-Aided Drafting with Autocad.....	3
EGD TEK 121*	3-D Computer-Aided Design with SolidWorks.....	2
EGD TEK 221*	CAD-Advanced Applications 3-D.....	2
IND TEK 103	Technical Writing and Communication....	2
IND TEK 104*	Print Reading with GD&T.....	2
IND TEK 106*	Shop Math and Measurements.....	2
<i>Total</i>		16

*This course has a prerequisite/corequisite.

**This course has an advisory.

ASSOCIATE DEGREE PROGRAM

Engineering Graphics and Design Technology, Associate in Science Degree

The Engineering & Technologies Department offers an Associate in Science Degree in Engineering Graphics & Design Technology. Upon completion of the Certificate of Achievement with at least 2.0 GPA, students should take 2 additional major courses ENG GEN 212 and MIT 201 as well as 17 more units of general electives as listed below. In addition to major courses, students should fulfill the general education graduation requirements to total 60 units. In addition to enhancement of employment or promotion within industry, this AS degree prepares students for 4-year programs.

SUBJECT & NO.	COURSE	UNITS
COMPLETE THE FOLLOWING COURSES		
EGD TEK 102**	Engineering Graphics with Introduction to GD&T and 2-D CAD	3

EGD TEK 111*	2-D Computer-Aided Drafting with Autocad.....	3
EGD TEK 121*	3-D Computer-Aided Design with SolidWorks.....	2
EGD TEK 221*	CAD-Advanced Applications 3-D.....	2
ENG GEN 212*	Introduction to Engineering Design.....	3
IND TEK 103	Technical Writing and Communication.....	2
IND TEK 104*	Print Reading with GD&T.....	2
IND TEK 106*	Shop Math and Measurements.....	2
MIT 201**	Manufacture and Processes.....	3
RESTRICTED ELECTIVES		17
EGD TEK 185	Directed Study - Engineering Graphics & Design Technology.....	1
EGD TEK 285	Directed Study - Engineering Graphics & Design Technology.....	2
EGD TEK 385	Directed Study - Engineering Graphics & Design Technology.....	3
ENG GEN 101	Introduction to Engineering and Engineering Technologies.....	3
ENG GEN 121*	Programming for Engineers C++.....	4
ENG GEN 122*	Programming and Proglem-Solving in Matlab.....	3
ENG GEN 131*	Statics.....	3
ENG GEN 151*	Materials of Engineering.....	3
ENG GEN 220*	Electrical Circuits I.....	4
ENG GEN 221*	Engineering Probability and Statistics.....	3
ENG GEN 225*	Digital Circuit Analysis.....	4
ENG GEN 231*	Dynamics.....	3
ENG GEN 241*	Strength of Materials.....	3
ENG GEN 242*	Strength of Materials Laboratory.....	1
ENG GEN 272*	Economic Analysis for Engineers.....	3
MIT 220	Introduction to Robotics.....	3
EET 120*	DC Circuits.....	3
EET 121*	Ni Certified Labview Associate Developer (CLAD).....	2
EET 122*	Solar Cell and Hydrogen Fuel Cell Technologies.....	2
EET 123	Introduction to Arduino.....	2
EET 124*	Introduction to Level I Rocketry.....	2
ENG SUP 121*	Plane Surveying I.....	3
ENG SUP 221*	Plane Surveying II.....	3
ENG SUP 224	Land Surveyor-In-Training Review Course.....	2
ENG SUP 225	Boundary Control for Surveyors.....	2
ELECTRN 121*	CISCO Essentials: Part 1 COMPTIAS A+ Hardware Certification.....	3
ELECTRN 122*	CISCO Essentials: Part 2 COMPTIAS A+ Software Certification.....	3
ELECTRN 125	COMPTIA Network+ Certification Training.....	3
ELECTRN 126*	Installing, Configuring and Administering a Microsoft OS.....	3

LACCD GENERAL EDUCATION PLAN		21
Total		60

Note: 6 units of major courses may be double counted in LACCD General Education area A and D2.

*This course has a prerequisite/corequisite.

**This course has an advisory.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Electrical Engineering Technology (EET)

120 DC Circuits (3) CSU

Prerequisite: Math 125 or 125S or 134.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS; DISCUSSION, 1 HOUR.

Note: This course is highly recommended for Engineering students planning to take General Engineering 220 and General Engineering 225.

In this introductory course students learn linear circuit analysis and practice its application to areas of importance in electrical engineering such as resistive circuits, Kirchhoff laws, node and loop analysis, Thevenin and Norton theorems, superposition theorem, capacitors and inductors, and AC circuits. Students also perform laboratory exercises to learn how to create circuit designs using electronic components and to use instruments such as millimeters, oscilloscopes, and signal generators.

121 Ni Certified LabVIEW Associate Developer (CLAD) (2)

Prerequisite: General Engineering 121.

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This course is the first step in the three-part NI LabVIEW certification process. It indicates a broad working knowledge of the LabVIEW environment, a basic understanding of coding and documentation best practices, and the ability to read and interpret existing code. Students can use this certification to assess and validate an individual's LabVIEW development skills for the purpose of project staffing or career advancement.

122 Solar Cell and Hydrogan Fuel Cell Technologies (2)

Prerequisite: Electrical Engineering Technology 120.

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This course helps students learn about sustainable energy generation and characteristics. The Emona HELEX ETT411 introduces students to these concepts through hands-on exercises, observation, measurement, and Lab VIEW-based data processing, and provides them with the fundamental, underpinning knowledge needed for the future.

123 Introduction to Arduino (2)

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

In this course, students gain new skills in programming and electronics engineering. Arduino is a groundbreaking, open-source electronics prototyping platform based on flexible, easy-to-use hardware and software. The Arduino board can read sensors, control motors and lights, and upload your hand-build code that interacts with the real world. Students learn the Arduino programming language, which is based on C/C++.

124 Introduction to Level 1 Rocketry (2)

Prerequisite: Engineering Graphics & Design 101.

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

The primary purpose of this course is to teach students to successfully build a level 1 solid fuel rocket. The course begins with basic definitions and elementary principles such as total impulse, mass flow, specific impulse, the ideal rocket equation, thrust chamber design, nozzle theory, heat transfer, flight performance, propellant chemistry, and propulsion operation in space. A detailed investigation of rocket fundamentals is necessary to acquaint the student with 21st century technology. At the end of this course students over 18 will be ready to launch their rocket and if successful receive a Level 1 certification from NAR (National Association of Rocketry).

Electronics (ELECTRN)

121 Cisco Essentials: Part 1 Comptia's A+Hardware Certification (3) CSU

Corequisites: Electronics 122 and 126.

LECTURE, 1 HOUR; LABORATORY 4 HOURS.

This is course 1 of 2 for CompTIA's A+ Hardware Essentials Certification examination. This training covers all five-course objectives identified in the CompTIA's A+ Essentials Certification examination. This training helps students to successfully pass the A+ Essentials Certification examination. This IT certification is the stepping-stone for individuals seeking an IT career. The course covers the areas of PC hardware, networking, laptops, printers, and operational procedure. Also, students will have access to a NETLAB+ system, a virtual system that allows topology configuration via online, and upon online completion; students physically configure the topology in class.

122 Cisco Essentials: Part 2 Comptia's A+ Software Certification (3) CSU

Corequisites: Electronics 121 and 126.

LECTURE, 1 HOUR; LABORATORY 4 HOURS.

This is course two of two for CompTIA's A+ Software Essentials Certification examination. This training covers all five-course objectives identified in the CompTIA's A+ Essentials Certification examination. This training helps students to successfully pass the A+ Essentials Certification examination. This IT certification is the stepping-stone for individuals seeking an IT career. The course covers the areas of PC hardware, networking, laptops, printers, and operational procedure. Also, students will have access to a NETLAB+ system, a virtual system that allows topology configuration via online, and upon online completion; students physically configure the topology in class.

125 Comptia Network+ Certification Training (3) CSU

LECTURE, 2 HOURS; LABORATORY 3 HOURS.

This course introduces the fundamental building blocks that form a modern network, such as protocols, topologies, hardware, network architecture, and network operating systems. In-depth coverage of the most important concepts in contemporary networking includes TCP/IP, Ethernet, wireless transmission, network administration, support, troubleshooting WANs (Wide Area Networks), and security. Students develop the skills to implement the best network topology, hardware, and software for their environment, develop skills to build a network from scratch, and maintain, upgrade, and troubleshoot an existing network. Finally, Students are well prepared to pass CompTIA's (The Computing Technology Industry Association) Network+ certification exam.

126 Installing, Configuring & Administering a Microsoft OS (3) CSU

Corequisites: Electronics 121 and 122.

LECTURE, 1 HOUR; LABORATORY 4 HOURS.

This course maps directly to Microsoft's Exam 70-680 & 70-698 Configuring Windows 7 & 10. This course provides students with the technical foundation in current operating system technologies. It covers PC architecture, preventive maintenance, and troubleshooting. It covers operating system installation, configuration, administration and performance optimization. This course also gives students a solid grounding in the fundamentals of computer security like access control, file and folder permissions, auditing and encryption. Students learn how to harden operating systems to repel attacks. This course prepares students to perform operating system support tasks including operating system batch and Windows script file programming. Also, students have access to a NETLAB+ system, a virtual system that allows topology configuration via online, and upon online completion; students physically configure the topology in class.

127 Microsoft Server Systems and Network Administration (3) CSU

Corequisite: Electronics 126.

LECTURE, 1 HOUR; LABORATORY 4 HOURS.

This course maps directly to Microsoft Certified Solutions Associate (MCSA) Exam 70-410: Installing and Configuring Windows Server 2012, which is the first of three exams required for MCSA: Windows Server 2012 certification. It covers implementing, managing, maintaining and provisioning services and infrastructure in a Windows Server 2012 environment. This course primarily covers the initial implementation and configuration of core services, such as Networking, Storage, Active Directory Domain Services (ADDS), Group Policy, File and Print services, and Hyper-V. Also, students have access to a NETLAB+ system, a virtual system that allows topology configuration via online, and upon online completion; students physically configure the topology in class.

128 Network Security Fundamentals (3) CSU

Prerequisite: Electronics 125.

LECTURE, 2 HOURS; LABORATORY 2 HOURS.

This course provides the training and skills needed to pass the CompTIA Security+ Certification Examination. The course includes but is not limited to: Security authentication

overview, email-attacks, web security directory and file transfer, devices, media, network security, and intrusion. Also, students have access to a NETLAB+ system, a virtual system that allows topology configuration via online, and upon online completion; students physically configure the topology in class

129 Python for Networking (2) CSU

Prerequisite: Electronics 125.

LECTURE, 1 HOUR; LABORATORY 3 HOURS.

In this course, students learn topics of the Python language such as data types, variables, control structures, Python Objects and Oriented Design, standard and advanced mathematical libraries, tool-chain use and Python Frameworks, user-defined classes and abstract collections, single and multidimensional arrays, Python lists, tuples, collections, and dictionaries. Also, students have access to a NETLAB+ system, a virtual system that allows topology configuration via online, and upon online completion; students physically configure the topology in class.

130 Routing & Switching Fundamentals (4) CSU

LECTURE, 2 HOURS; LABORATORY 7 HOURS.

This course is the equivalence to parts one and two of the Cisco Network Academy. Part 1 of this course introduces the architecture, structure, functions, components, and models of the Internet and computer networks. The principles of IP addressing and fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. By the end of Part 1, students are able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. Part 2 of this course describes the architecture, components, and operations of routers and switches in a small network. Students learn how to configure a router and a switch for basic functionality. By the end of Part 2, students are able to configure and troubleshoot routers and switches and resolve common issues with RIPv1, RIPv2, single-area and multi-area OSPF, virtual LANs, and inter-VLAN routing in both IPv4 and IPv6 networks. Students completing this course prepared to take the Cisco ICND1 and/or CCENT certification exam. Also, students have access to a NETLAB+ system, a virtual system that allows topology configuration via online, and upon online completion; students physically configure the topology in class.

131 Installing, Configuring and Administering Linux Operating System (2) CSU

LECTURE, 1 HOUR; LABORATORY 4 HOURS.

This course gives students a solid foundation in the fundamentals of the Linux operating system which plays a crucial role in academic and corporate computing. In fact, Unix/Linux powers more Internet server and corporate networks than Microsoft. The topics include Linux Overview and Architecture, The Kernel and Shell, File System, Users and Groups Management, Permission and Ownership Management, Services and Processes Management. Students gain system-level experience through problem-solving hands-on lab exercises at the command line and in the graphical user interface. Also, students have access to a NETLAB+ system, a virtual system that allows topology configuration via online, and upon online completion; students physically configure the topology in class.

132 Certified Ethical Hacking (2) CSU

LECTURE, 1 HOUR; LABORATORY 4 HOURS.

This course provides the training and skills needed to pass the Certified Ethical Hacking (CEH) Certification Examination. The course introduces students to the concepts, principles, and techniques, supplemented by hands-on exercises, for attacking and disabling a network within the context of properly securing a network. The course emphasizes network attack methods with the emphasis on student use of network attack techniques and tools and appropriate defenses and countermeasures. Also, students have access to a NETLAB+ system, a virtual system that allows topology configuration via online, and upon online completion; students physically configure the topology in class.

185 Directed Study - Electronics (1) CSU

285 Directed Study - Electronics (2) CSU

385 Directed Study - Electronics (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow student to pursue Directed Study in Electronics on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Engineering Graphics & Design (EGD TEK)

101 Engineering Graphics (3) UC:CSU

Advisory: Mathematics 120.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This introductory course covers the fundamentals of traditional board drafting, descriptive geometry, orthographic projection, graphical communication of technical engineering information and Computer-Aided Drafting (CAD). Topics include freehand drawing, lettering, and theory of orthographic and multi-view projections. Basic drafting skills, industry standards and technical graphics practices, and engineering scales are presented. The theory of descriptive geometry is taught including the fundamentals of auxiliary views, coordinate systems, sectioning, dimensioning, lines, planes intersections, visibility, and development. Coordinate dimensioning and Geometric Dimensioning and Tolerancing (GD&T) subjects are covered including location tolerance, datum reference, tolerance symbols and feature control frames. An introduction to both 2-D and 3-D CAD, in two separate software packages is given. CAD instruction includes drawing set up and settings, creating templates, title blocks, layers, drawing basic geometric objects, extrusion, dimensioning and creating basic engineering drawings such as part and assembly drawings as well as orthographic multi-view drawings.

102 Engineering Graphics with Introduction to GD&T and 2-D CAD (3) CSU

Advisory: Mathematics 120.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This introductory course covers the fundamentals of traditional drafting, descriptive geometry, orthographic projection, graphical communication of technical engineering information and Computer-Aided Drafting (CAD). Topics include freehand drawing, lettering, and theory of orthographic and multi-view projections as well as

Coordinate dimensioning and geometric dimensioning and tolerancing (GD&T). An introduction to 2-D CAD software package is presented and instruction includes fundamental tools to be able to create and edit basic drawings by learning and understanding the User Interface of the software. Essential skills developed include creating templates, title blocks, layers, drawing basic geometric objects, using parametric tools, and dimensioning.

111 2-D Computer-Aided Drafting with Auto CAD (3) UC:CSU

Prerequisite: Engineering Graphics & Design 101 or Engineering Graphics & Design 102.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course is an introductory course in Two-Dimensional Computer-Aided Drafting using AutoCAD. Students learn the basic tools to create and edit a simple drawing. Topics include object construction, object properties, layers, orthographic projections, auxiliary views, parametric tools, basic dimensioning, template building, and plotting.

121 3-D Computer-Aided Design with SolidWorks (2) CSU

Prerequisite: Engineering Graphics & Design 101.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This is an introductory course in Three-Dimensional Computer Aided Design (CAD) and solid modeling. Students learn the concept of creating parts by using features including extrusion, revolve, sweep and loft boss, base, and cut. Other topics covered include creating assemblies and generating engineering drawings from the solid model or the assembly, utilizing SolidWorks 3-D software.

131 CAD-Advanced Applications 3-D (2) CSU

Prerequisite: Engineering Graphics & Design 121.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course builds on the skills acquired in 2-D and 3-D CAD applications. The course explores advanced computer-aided design techniques using SolidWorks software such as Mold Tools, Simulation and Surface modeling, also students are prepared for the Certified SolidWorks Associate (CSWA) exam. During these training programs, students acquire advanced skills in using the software and design techniques for 3-D structures in various examples toward design, manufacturing, and mechanical applications.

221 CAD-Advanced Applications 3-D (2) CSU

Prerequisite: Engineering Graphics & Design 121.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course builds on the skills acquired in 2-D and 3-D CAD applications. The course explores advanced computer-aided design techniques using SolidWorks software such as Mold Tools, Simulation and Surface modeling, also students are prepared for the Certified SolidWorks Associate (CSWA) exam. During these training programs, students acquire advanced skills in using the software and design techniques for 3-D structures in various examples toward design, manufacturing, and mechanical applications. This course is cross-listed with EGD TEK 131 - students can not enroll in both EGD TEK 221 and EGD TEK 131 and units cannot be earned for both EGD TEK 221 and EGD TEK 131.

185 Directed Study - Engineering Graphics & Design Technology (1) CSU

285 Directed Study - Engineering Graphics & Design Technology (2) CSU

385 Directed Study - Engineering Graphics & Design Technology (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Engineering Graphics & Design on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Engineering Support (ENG SUP)

100 Plane Surveying I: Boot Camp for High School Students (2)

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This is a beginning course in plane surveying for high school students. Topics include horizontal linear measurements using pacing, steel tape, stadia, and electronic distance measurement (EDM); circuit and profile differential leveling; measurement of horizontal and vertical angles; computation of azimuth, bearing, latitude, departure and coordinates and area of a traverse; balancing a closed traverse using the compass rule and rotation adjustments of a closed traverse; and introduction to geographic information system (GIS) and global positioning system (GPS). Technical lectures also include topics pertaining to technical writing and presentations. An introductory topic in terrain modeling using Microstation and/or AutoCAD software is demonstrated and field work is also performed.

101 Plane Surveying II: Boot Camp for High School Students (2)

Prerequisite: Engineering Support 100.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course introduces high school students to computer applications and technologies used in civil engineering design works and land surveying field applications.

121 Plane Surveying I (3) UC:CSU

Prerequisites: Mathematics 241 or 241S.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This is a beginning course in plane surveying. Topics include horizontal linear measurements using pacing, steel tape, stadia and electronic distance measurement (EDM); circuit and profile differential leveling; measurement of horizontal and vertical angles; computation of azimuth, bearing, latitude, departure and coordinates and area of a traverse; balancing a closed traverse using the compass rule and rotation adjustments of a closed traverse; and introduction to geographic information system (GIS) and global positioning system (GPS). Technical lectures also include topics pertaining to technical writing and presentations. An introductory topic in terrain modeling using Microstation and/

or AutoCAD software is demonstrated and field work is also performed including a field demonstration of unmanned aerial systems for mapping and terrain analysis purposes.

200 Business Practices for Land Surveyors & Civil Engineers (1) CSU

LECTURE, 0.5 HOUR; LABORATORY, 1.5 HOURS.

This course teaches students fundamental business practices used in technical career opportunities in land development. Such skills include: An introduction to business practices in land development, professional conduct and ethics, proposal writing, office and field research and planning, quantity takeoff, pricing and cost estimates, and technical forms of communications.

201 Introduction to Engineering Technologies for Land Surveyors (2) CSU

Prerequisites: Engineering Support 121.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This is an advanced computer applications course for land surveyors, civil engineers and technicians. The course teaches the development of geographic information system (GIS) maps, usage of global positioning system for data collection, terrain modeling for both transportation and flood control purposes, surface analysis and as-built surveys using 3D scanners, least square analysis for coordinate adjustments, the usage of a robotic total station, and photogrammetry and remote sensing data acquisition and analysis including the usage and practical application of unmanned aerial systems (UAS's).

202 Advanced Engineering Technologies for Land Surveyors (2) CSU

Prerequisites: Engineering Support 201.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This is an advanced computer applications course for land surveyors, civil engineers and technicians. The course teaches the development of geographic information system (GIS) maps, the usage of global positioning system (GPS) units for data collection, terrain modeling for both transportation and flood control purposes, surface analysis and as-built surveys using a 3D scanner, least square analysis for coordinate adjustments, the usage of a robotic total station, and photogrammetric measurements using aerial photos and remote sensing imagery including unmanned aerial systems (UAS's).

221 Plane Surveying II (3) UC:CSU

Prerequisites: Engineering Support 121 or Civil Engineering 121.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This is an advanced course in plane surveying. Topics include topographic survey, earthmoving quantity take-off, horizontal and vertical curves, construction staking, real property survey using electronic data measurement (EDM), application of global positioning system (GPS) and geographic information systems (GIS), and green surveys. Field work is performed.

224 Land Surveyor-In-Training Review Course (2)

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This course prepares students for the State of California, Land Surveyor in Training (LSIT) certificate which is the first step required under California law towards becoming licensed as a Professional Land Surveyor.

225 Boundary Control for Surveyors (2) CSU

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This is an advanced course in boundary control surveying. Topics include history and concept of boundary control surveys and the role of the surveyor; creation of boundary lines, description of real property, metes and bounds, and boundary law; Federal and State non-sectionalized land, easements, reversions, riparian, and littoral boundaries; theory of retracing and resurveying of sectionalized lands, locating sequential conveyances, simultaneously created boundaries, and locating combination descriptions.

Engineering Technician (ENG TEK)

101 Engineering Technology Application (2) CSU

Advisory: Manufacturing & Industrial Technology 101.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This project based learning course utilizes various hands on modules in engineering technology fields, to familiarize and prepare the students for entry level engineering technician positions in industry.

111 Additive Manufacturing I (2) CSU

Prerequisites: Engineering Graphics & Design 121 and Manufacturing & Industrial Technology 101.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This is an introductory course into the world of Additive Manufacturing. Emphasis is given to the most common process in additive manufacturing technique such as 3-D printing of polymers. 3-D Laser Scanning and Laser Cutting is integrated to make the digital signature of parts. In addition to theoretical knowledge, students are expected to gain practical experience by manufacturing sample parts in the lab. The class integrates a project-based learning model which develop elements of creative thinking and problem solving used in prototype building and the manufacturing process.

125 CNC Setup and Operation (3) CSU

Prerequisite: Manufacturing & Industrial Technology 101.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This is an introductory course on the fundamental skills related to the setup and operation of Computer Numerical Controlled machines (CNC). Safety, tool selection, machine and controller functions, calculation and input of offsets, are also included.

130 Facility Design & Supply Chain (2) CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course examines manufacturing/supply chain facility and modern material handling techniques for efficient utilization of space within a plant. The course provides students with techniques to use in analyzing and designing facilities by considering: plant location, manufacturing layout, material handling, integration of human factors for layout safety and quality, and their implications on design.

135 Metrology and Inspection Level I (2) CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

Introduction to the science of measurement as it applies to metrology and inspection in fabrication and manufacturing environments. The lab work includes common industry measurements and standard practices with emphasis on Microscribe Digitizing Arm Inspection devices.

141 Mechanical Systems (3) CSU

LECTURE, 2 HOUR; LABORATORY, 2 HOURS.

This course presents fundamental concepts of mechanical drives and systems, including safe operation, installation, alignment, troubleshooting, and maintenance of a range of mechanical drives in automated manufacturing systems.

142 Fluid Power Systems (3) CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course presents fundamentals of mechanical fluid power concepts including hydraulic and pneumatic installation, maintenance, and adjustments for the safecontrol of automated manufacturing systems.

151 Basic Programmable Logic Controls (PLC) (2) CSU

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This course introduces Basic Programmable Logic Controllers, Programming Devices, Ladder Diagrams, and Designing PLC Programs for Automation Processes.

225 CNC Design with MasterCAM (2) CSU

Prerequisite: Engineering Technician 125.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course provides the student Computer Numerically Controlled (CNC) programming skills using Mastercam software in Computer Aided Design and Computer Aided Manufacturing (CAD/CAM) environments. Topics include a review of machining and CNC programming fundamentals, process overview, basic 2.5D geometry construction and modification, process and toolpath planning, and 2.5 axis toolpath generation and editing.

235 CMM and Inspection Level II (2) CSU

Prerequisite: Engineering Technician 135.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course introduces in-depth Measurement and Inspection skills utilizing a coordinate measuring machine (CMM) and other equipment. Concepts of dimensional metrology will be presented by using articulating arms to validate part geometry within GD&T standards. Advanced skills are developed by doing inspection with vision and/or Laser equipment and reverse engineering activities.

290 Engineering Technician Capstone (3) CSU

Prerequisites: Engineering Technician III and Manufacturing & Industrial Technology 201.

LECTURE, 1 HOUR; LABORATORY, 4 HOURS.

This course utilizes industrial-level engineering technology based projects under the direction of faculty and/or industrial liaison representative, the student is provided the opportunity to demonstrate the full spectrum of their learning, which facilitates their transition into industry.

General Engineering (ENG GEN)

101 Introduction to Engineering and Engineering Technologies (3) UC:CSU

LECTURE, 3 HOURS.

Note: This course is open to high school students for concurrent enrollment.

This course provides students with an understanding of the academic and professional behaviors and skills necessary to enhance their chances of success as an engineering major, and ultimately as a professional. The skills include working effectively in teams, goal setting, time

management, and developing oral communication skills. Students are introduced to the campus resources available to the engineering majors. Students have an opportunity to work collaboratively with their classmates on most of the assignments and in-class design projects.

121 Programming for Engineers: C++ (4) UC:CSU

Prerequisites: Mathematics 261.

LECTURE, 3 HOURS; LABORATORY, 2 HOURS.

Note: This course is highly recommended for Engineering students planning to take General Engineering 220 and General Engineering 225.

This course applies structured programming concepts to engineering problem types such as center of mass, ballistics, column buckling, design, and reduction of experimental data. Mathematical techniques include iterative solutions, bisection, Raphson-Newton, statistics, and matrix operations. Computer programming techniques include formatted input and output, selection, loops, functions, pointers, arrays, and objects. Concepts and techniques of Object Oriented Programming, structured design and modular construction, use of C++ or other high level languages to demonstrate fundamentals of Object Oriented Programming and structured programming are employed. Students use National Instruments Laboratory Virtual Engineering Workbench (LabVIEW) to demonstrate graphical programming environment.

122 Programming and Problem-Solving in MATLAB (3) UC:CSU

Prerequisites: Mathematics 261.

LECTURE, 2 HOURS; 3 HOURS.

This course utilizes the MATLAB environment to provide students with a working knowledge of computer-based problem-solving methods relevant to science and engineering. It introduces the fundamentals of procedural and object-oriented programming, numerical analysis, and data structures. Examples and assignments in the course are drawn from practical applications in engineering, physics, and mathematics.

131 Statics (3) UC:CSU (C-ID ENGR 130)

Prerequisites: Physics 1 or Physics 101 and Mathematics 262.

LECTURE, 2 HOURS; DISCUSSION, 3 HOURS.

This is a first course in engineering mechanics. The course considers two- and three-dimensional analysis of force systems on particles and rigid bodies in equilibrium. Topics also include static analysis of trusses, beams and cables, determination of center of gravity, centroids, friction, and moments of inertia of area and mass.

151 Materials of Engineering (3) UC:CSU (C-ID ENGR 140)

Prerequisites: Chemistry 101 and Physics 1 or Physics 101.

LECTURE, 3 HOURS.

This course is an introduction to materials science and engineering and different types of materials used in engineering design, emphasizing the relationships between structure, properties, and processing. Topics include: Atomic structure and bonding, atomic and ionic arrangements and imperfections, crystalline structures, metals, polymers, ceramics, composites including diffusion or atom and ion movements in materials, and mechanical properties and fracture including strain hardening and annealing. An illustration of the differences of materials fundamental and their applications in engineering is also covered.

212 Introduction to Engineering Design (3) UC:CSU

Prerequisite: Engineering Graphics and Design 121.

Advisory: General Engineering 131.

LECTURE, 1 HOUR; LABORATORY, 4 HOURS.

This is an introductory course in Engineering Design covering the engineering design process, step-by-step. Students achieve basic Engineering Design Core competency through hands-on, team-based, open-ended design projects. The project work is enhanced with lectures and reading on design theory and methods, and using manufacturing techniques and processes to build prototypes.

220 Electrical Circuits I (4) UC:CSU (C-ID ENGR 260), (C-ID ENGR 260-L)

Prerequisites: Mathematics 263 and Physics 3 or 102.

Corequisite: Mathematics 275.

Advisories: Electrical Engineering Technology 120, and General Engineering 121.

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This course covers electric circuit analysis in time and frequency domains, transient, and steady state solutions. Topics include linear circuit analysis techniques, Kirchhoff's Laws, Network Theorems, mesh and nodal analysis, OP amps and amplifiers, Thevenin/Norton equivalents circuits, natural-forced-complete response of RLC circuits and Laplace Transforms. Introduction to AC circuits, phasors, three phase power, and frequency response and resonance. The laboratory includes experimental verification of the laws of AC and DC circuits, Kirchhoff's laws, and Thevenin's theorem using instruments such as multimeter, oscilloscopes, and signal generators. Laboratory will use National Instruments Laboratory Virtual Engineering Workbench (LabVIEW) with ELVIS II.

221 Engineering Probability and Statistics (3) UC:CSU IGEC Area 2A

(UC Credit Limit: General Engineering 221 combined with Mathematics 227, maximum credit one course).

Prerequisite: Mathematics 261.

LECTURE, 3 HOURS.

This is an introductory course for calculations using probabilities and concepts in statistics with a focus on applications to engineering problems. It provides an introduction to fundamental concepts and applications of probability and statistics in engineering, with focus on how these concepts are used in experimental design and sampling, data analysis, risk and reliability analysis, and project design under uncertainty. Topics include basic probability concepts, random variables and analytical probability distributions, functions of random variables, estimating parameters from observational data, regression, hypothesis testing, and Bayesian concepts.

225 Digital Circuit Analysis (4) UC:CSU

Prerequisites: Mathematics 262 and Physics 3 or 102.

Advisories: General Engineering 121 and Electrical Engineering Technology 120.

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This course is an introduction to digital circuit analysis. Topics covered include the following: Number systems, computer arithmetic, and binary codes; binary logic, Boolean algebra, and logic gates; combinational circuits, analysis and design, including adders, MUX's, decodes, etc.; and sequential circuits analysis and design. In the lab students design, implement, and debug a combinational

circuit; and perform implementation of combinational circuits using logic gates and programmable logic devices and design sequential logic circuits using gates, ROMs, and PALs. Students in the laboratory use National Instruments Laboratory Virtual Engineering Workbench (LabVIEW) with ELVIS II.

231 Dynamics (3) UC:CSU (C-ID ENGR 230)

Prerequisite: General Engineering 131.

LECTURE, 2 HOURS; DISCUSSION, 3 HOURS.

This course covers fundamentals of kinematics and kinetics of particles and rigid bodies. Topics include kinematics of particle motion, Newton's second law, work-energy and momentum methods, kinematics of planar and three-dimensional motions of rigid bodies, work-energy and momentum principles for rigid body motion, and an introduction to mechanical vibrations.

241 Strength of Materials (3) UC:CSU

Prerequisite: General Engineering 131.

LECTURE, 2 HOURS; DISCUSSION, 3 HOURS.

This course is a study of stresses, strains and deformations associated with axial, torsional and flexural loading of bars, shafts and beams, as well as pressure loading of thin-walled pressure vessels. The course also covers stress and strain transformation, Mohr's Circle, ductile and brittle failure theories, and the buckling of columns. Statically indeterminate systems are also studied.

242 Strength of Materials Laboratory (1) UC:CSU

Corequisite: General Engineering 241.

LABORATORY, 3 HOURS.

This course is the experiment based exploration of the mechanical properties of engineering material through tensile test, torsion, shear, bending, compression, buckling of columns and metallography. This hands-on laboratory provides opportunities to directly experiment the behaviors discussed in the lecture course, General Engineering 241, to operate testing equipment, to analyze experimental data, plot and graph data and to prepare reports

272 Economic Analysis for Engineers (3) UC:CSU

Prerequisite: Mathematics 261.

Advisory: General Engineering 131.

LECTURE, 3 HOURS.

This course introduces techniques of engineering economic analysis as they apply to cost analysis in engineering projects. This course covers time value of money, cost optimization, incremental and rate of return analysis, involving probabilistic outcomes, capital depreciation, and the effect of corporate tax analysis in making decisions on engineering projects.

185 Directed Study – General Engineering (1) CSU**285 Directed Study – General Engineering** (2) CSU**385 Directed Study – General Engineering** (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

THE ABOVE COURSES ALLOW STUDENTS TO PURSUE DIRECTED STUDY IN GENERAL ENGINEERING ON A CONTRACT BASIS UNDER THE DIRECTION OF A SUPERVISING INSTRUCTOR. CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from

faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Industrial Technology (IND TEK)

103 Technical Writing and Communication (2) CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course introduces the principles and practices of writing a range of technical documents including emails, letters, technical evaluations and reports, and academic and scientific papers used in the engineering, science, and technology fields. The use of graphical information such as tables and charts are covered as well as technical resumes, letters, and instruction and operation manuals.

104 Print Reading with GD&T (2)

Prerequisite: Engineering Graphics & Design 101

LECTURE, 1 HOUR; LABORATORY, 2 HOURS

This course covers the principles and practices of visualizing and interpreting engineering drawings and prints, by going over actual prints from various industries. The main topics in the course are the study of drawing types, symbology, drawing management, industry standards, and ASME Y14.5 standard for geometric dimensioning and tolerancing.

106 Shop Math and Measurements (2)

Corequisite: Manufacturing & Industrial Technology 101.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

Students obtain skills to solve technical problems by practical applications of basic math and arithmetic in industrial (shop) applications. Topics include: Units of measure and conversions; reading tools of measurement; error calculation and propagation; reading graphs and plots; perimeter/area/volume calculations using geometry.

185 Directed Study - Industrial Technology (1) CSU

285 Directed Study - Industrial Technology (2) CSU

385 Directed Study - Industrial Technology (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Industrial Technology on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Manufacturing and Industrial Technology (MIT)

101 Machine Shop Training and Safety (2) CSU

Corequisite: Industrial Technology 106.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course engages students with Machine Shop specific topics including; safety practices, hand tools, precision measuring tools, set-up and operation of band saws, drill presses, lathes, mills, pedestal grinders, and power saws.

Theoretical and manipulative practical exercises challenge students' thorough understanding of the subject matter.

201 Manufacture Processes (3) CSU

Prerequisite: Manufacturing and Industrial Technology 101.

Advisory: General Engineering 151.

LECTURE, 2.5 HOURS; LABORATORY, 2.5 HOURS.

This is an introductory course in manufacturing and manufacturing processes. This course exposes students with the fundamentals of manufacturing such as materials, mechanical properties, and processes involved in the industrial sector. Emphasis is given to processes which are more common in the industry such as, reverse engineering, rapid prototyping, plastics and composites, metal forming and generating tool paths, and casting. In addition to verbal understanding of the issues, mathematical models describing the processes of manufacturing are covered briefly in order for students to understand the relations between the parameters involved in the processes. In addition to theoretical knowledge, students are expected to gain practical experience by manufacturing sample parts in the lab.

220 Introduction to Robotics (3) CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This introductory course in robotics emphasizes hands-on experience to build a basic functional robot. Students learn about electric motors, servos, sensors, switches, actuators and their application in a robot. Students learn Basic Stamp computer programming and its integration into a working robotic unit. The course also includes mechanical assembly, connecting electronic components, wiring and soldering, and testing.

185 Directed Study- Manufacturing and Industrial Technology (1) CSU

285 Directed Study- Manufacturing and Industrial Technology (2) CSU

385 Directed Study- Manufacturing and Industrial Technology (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Manufacturing and Industrial Technology on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

English Department

E3-360 • (323) 265-8632

The East Los Angeles College English Department is dedicated to assisting students in becoming critical thinkers through the study of writing and literature, and supporting them in becoming more informed through English, Reading, and ESL courses. Our English courses, whether face-to-face or online, provide a foundation in the development of writing, critical and creative thinking, critical reading, oral communication, and literary analysis. Our Reading courses develop literacy skills from basic reading comprehension to advanced critical analysis that provide a variety of reading strategies that prepare students for college level reading and thinking, life-long learning, and professional growth. Our ESL courses guide non-native English speakers in building real-world English language skills and cultural awareness for success in academic, professional, and social endeavors. As a whole, the English department helps students explore diverse texts to gain global, cultural, and historical perspectives as well as to attain knowledge that aligns with the College's Mission of promoting outlets for artistic, civic, cultural, and social expression as well as environmental awareness. The English Department seeks to: (1) Empower students by fostering them as they expand their literacies and develop their individual voices; (2) Create a passion for lifelong learning in students by exposing them to diverse literatures that illuminate their own lives and the larger world around them; (3) Foster intellectual curiosity in students and help them hone the research skills needed to evaluate new information, enabling them to engage confidently in social discourses.

- Reading

ASSOCIATE DEGREE PROGRAM

- English for Transfer

ASSOCIATE DEGREE PROGRAM

Associate in Arts in English for Transfer

The English department offers an Associate in Arts in English for Transfer degree. This degree may enhance enrollment and transfer opportunities at California State Universities. The major provides students with a comprehensive study of composition, literary theory, and rhetorical strategies. Students become familiar with major themes, works, authors, and movements in literature, particularly British and American literature. Students are trained in composition and given a solid background in critical theory to explore literature as an intellectual discipline and art. The required courses help students hone critical thinking, research, rhetoric, and writing skills and prepare them for upper division coursework in English or a related field in which strong writing and critical thinking skills are valued, such as education, law, or business. Students must complete a minimum of 60 required semester units of CSU transferable course work with a minimum GPA of 2.0, including a minimum of 18 semester units in the major with a grade of “C” (or “P”) for each course in the major. Certified

completion of the California State University General Education–Breadth (CSU GE Breadth) or Intersegmental General Education Transfer Curriculum (IGETC) Pattern is also required.

Required Core Courses

SUBJECT & NO.	COURSE	UNITS
ENGLISH 102*	College Reading and Composition II	3
ENGLISH 103*	Composition and Critical Thinking	3
<i>Subtotal</i>		6
LIST A (SELECT TWO):		6 UNITS
ENGLISH 203*	World Literature I	3
ENGLISH 204*	World Literature II	3
ENGLISH 205*	English Literature I	3
ENGLISH 206*	English Literature II	3
ENGLISH 207*	American Literature I	3
ENGLISH 208*	American Literature II	3
ENGLISH 211*	Fiction	3
ENGLISH 212*	Poetry	3
LIST B – CHOOSE ANY COURSE FROM LIST A NOT USED OR ONE COURSE FROM THIS LIST:		3 UNITS
ENGLISH 127	Creative Writing	3
LIST C – CHOOSE ANY COURSE FROM LIST A AND B NOT USED OR ONE COURSE FROM THIS LIST:		3 UNITS
ENGLISH 215*	Shakespeare I	3
ENGLISH 216*	Shakespeare II	3
ENGLISH 218*	Children’s Literature	3
ENGLISH 239*	Women in Literature	3
ENGLISH 240*	Literature and the Motion Picture I	3
ENGLISH 241*	Literature and the Motion Picture II	3
ENGLISH 245*	Queer Literature	3

ENGLISH 252*	The English Bible as Literature	3
COMPLETE ADDITIONAL CSU UNITS, IF NEEDED, TO REACH 60 CSU TRANSFERABLE UNITS		
<i>IGETC or CSU GE Pattern</i>		
<i>Total</i>		60

Note: 9 units of major courses may be double counted towards general education.

*This course has a prerequisite.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

English (ENGLISH)

Note: NDA after a course indicates that this course will not meet the Associate degree requirement, and is non-degree applicable.

32 College Literary Magazine Editing (2) CSU*Advisory: English 101.*

LECTURE, 2 HOURS.

This course presents ways to evaluate and edit poetry, prose, and drama submitted for publication in the literary magazines of the college. Skills in critical evaluation of submissions and copy editing are developed in workshop exercises. Students prepare the issues for publication, including formatting and layout, and develop skills in magazine promotion.

33 Basic Vocabulary (3) NDA

LECTURE, 3 HOURS.

This course enlarges and enriches a student's vocabulary through reading and the study of word meanings within the context of the overall meaning and purpose of a text. It enables students to analyze the structure of words, and use context clues, as well as dictionaries and other tools for vocabulary building.

72 English Bridge (1) NDA*Corequisite: English 101.*

LABORATORY, 3 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

English 72 provides instruction in college essay writing to supplement a concurrent English 101 course. Students receive additional support in grammar, essay structure, revision techniques, and research skills specifically tied to their English 101 course content.

94 Intensive Grammar Review (3) NDA

LECTURE, 3 HOURS.

This course offers an intensive review of the principles of standard English grammar, sentence structure, and English usage and diction. The course covers the parts of speech, verb forms and tenses, fragments, run-ons, and other issues in standard grammar and usage. Students learn to identify errors and correct them as well as write sentences that reflect the conventions of standard English. Basic writing strategies are employed in drafting compositions. Students write, edit, and revise sentences in the context of paragraph development.

100 Accelerated Prep: College Writing (3) NDA*Advisory: Reading 98.*

LECTURE, 3 HOURS; LABORATORY, 1 HOUR.

This class prepares students for the academic reading, critical thinking, and writing expected in transfer and associate-degree level classes. Students plan, draft, revise, and edit compositions of increasing sophistication and complexity, progressing from paragraphs to research essays. Writing is based primarily on non-fiction college-level readings. With support and accelerated preparation, this course prepares students for English 101.

101 College Reading and Composition I

(3) UC:CSU IGETC Area 1A (C-ID ENGL 100)

Advisories: English as a Second Language 8, or English as a Second Language 10, or English 72, or Reading 101.

LECTURE, 3 HOURS.

This is a college-level freshman composition course which focuses on expository writing and argumentation and requires the writing of a minimum of 6000 words in essays

and a research paper. Students study a variety of texts written at the college level, including literature, that reflect current academic concerns relating to issues of language, ethnicity, class, gender, identity, psychology, and cultural studies.

102 College Reading and Composition II

(3) UC:CSU IGETC Area 1B, 3B (C-ID ENGL 120)

Prerequisite: English 101.

LECTURE, 3 HOURS.

This course develops reading, writing, and critical thinking skills beyond the level achieved in English 101 and requires the writing of a minimum of 10,000 words in essays and a research paper throughout the semester. It emphasizes logical reasoning, analysis, and strategies of argumentation using literature and literary criticism. Evaluations are made of texts reveal the multicultural/global aspects of our society, which include traditional and contemporary forms in fiction, poetry, essays, and drama.

103 Composition and Critical Thinking

(3) UC:CSU IGETC Area 1B (C-ID ENGL 105)

Prerequisite: English 101.

LECTURE, 3 HOURS.

This course develops critical thinking, reading, and argumentative writing skills beyond the level achieved in English 101 and requires the writing of a minimum of 10,000 words in essays and a research paper throughout the semester. It emphasizes reasoning, analysis and strategies of argumentation using interdisciplinary texts that include theoretical and literary works. Evaluations of texts reveal the multicultural/global aspects of our society.

127 Creative Writing (3) UC:CSU (C-ID ENGL 200)

LECTURE, 3 HOURS.

Note: Eligibility for English 101 is acceptable.

This course focuses on writing, reading, discussing, and interpreting student creative writing and the writing of literary masters. It is designed to promote creative expression and increase understanding and appreciation of the craft and pleasures of creative writing. The course covers the genres of poetry, fiction, writing for performance (drama, film, performance art), and creative non-fiction.

203 World Literature I (3) UC:CSU IGETC Area 3B (C-ID ENGL 140)*Prerequisite: English 101.*

LECTURE, 3 HOURS.

Note: Either English 203 or English 204 may be taken first.

Students read key works and ideas of the Western world, the Middle East, Africa, and Asia from antiquity to the seventeenth century. The course requires students to recognize and compare readings from different cultures and analyze poetic forms and literary themes significant to the cultures in reasoned analysis.

ENGLISH SKILLS COURSE SEQUENCE CHART

PATHWAYS TO ENGLISH 101

Pathway 1: Enrollment into English 101

Pathway 2: Concurrent enrollment in English 101 and either Reading 101/ESL 10

Pathway 3: Concurrent enrollment in English 101 and English 72

GPA, highest grade in last English course, and other factors will affect placement.

Questions?

Call the English Department

323-265-8632

204 World Literature II (3) UC:CSU

IGETC Area 3B (C-ID ENGL 145)

Prerequisite: English 101.

LECTURE, 3 HOURS.

Note: Either English 203 or English 204 may be taken first.

This course is a study of selected major works of World literature, covering Western Europe, the Middle East, Africa, and Asia, from the 17th century to the present. The course requires students to recognize and compare readings from different cultures and analyze poetic forms and literary themes significant to the cultures in reasoned analyses.

205 English Literature I (3) UC:CSU

IGETC Area 3B (C-ID ENGL 160)

Prerequisite: English 101.

Advisory: English 102.

LECTURE, 3 HOURS.

Note: Either English 205 or English 206 may be taken first.

In this course, students read, discuss and analyze major works of English literature from the Anglo-Saxon period to the late eighteenth century, to develop an understanding

and appreciation of the poetry, fiction, and drama of these literary periods and to express that appreciation in reasoned analyses.

206 English Literature II (3) UC:CSU

IGETC Area 3B (C-ID ENGL 165)

Prerequisite: English 101.

Advisory: English 102 or English 205.

LECTURE, 3 HOURS.

This course surveys the British Literature from the late 18th century emergence of the Romantics, such as Blake, Wordsworth, Coleridge, Byron, Shelley, and Keats; through the Victorian Era writers such as Browning, Tennyson, Austen, Stevenson, Wilde, and Shaw; and into the early twentieth century, the rise of Modernism and after writers such as Conrad, Eliot, Yeats, Woolf, Joyce, and Beckett.

207 American Literature I (3) UC:CSU

IGETC Area 3B (C-ID ENGL 130)

*Prerequisite: English 101.**Advisory: English 102.*

LECTURE, 3 HOURS.

Note: Either English 207 or English 208 may be taken first.

This course introduces American writers and writings from colonial times to 1865. Besides reading the literary works of major writers, students become acquainted with writers who suggest the diversity of subject and opinion in American literature.

208 American Literature II (3) UC:CSU

IGETC Area 3B (C-ID ENGL 135)

*Prerequisite: English 101.**Advisory: English 102.*

LECTURE, 3 HOURS.

Note: Either English 207 or English 208 may be taken first.

This course surveys the literature of the United States from the post-Civil War era to the present. Besides studying the works of well-known writers, students become acquainted with authors who suggest the diversity of subject and opinion in American literature.

211 Fiction (3) UC:CSU IGETC Area 3B*Prerequisite: English 101.*

LECTURE, 3 HOURS.

In this course, students read, interpret, and discuss selected short stories and novels from diverse perspectives, using literary concepts and applying contemporary approaches to understanding works of literature that focus on a theme chosen by the instructor for the semester.

212 Poetry (3) UC:CSU IGETC Area 3B*Prerequisite: English 101.*

LECTURE, 3 HOURS.

This course focuses on the reading, discussion, and interpretation of selected American (North and South), British, Continental, and Asian Poetry. It is designed to increase understanding and appreciation of all forms of poetry (traditional to free verse), with an emphasis on poets who are currently writing and giving readings. By encouraging students to discover their voice within the voices of the poems they study and write about through creative and analytical writing, they explore the fundamental components of poetry: imagery, texture and sound, voice, rhyme and repetition. With the aid of video readings and interviews, students gain insight into why and how poets pursue their craft.

215 Shakespeare I (3) UC:CSU IGETC Area 3B*Prerequisite: English 101.*

LECTURE, 3 HOURS.

Note: Either English 215 or English 216 may be taken first.

This course provides the historical, social, and literary contexts for the full understanding and appreciation of selected histories, comedies, and romantic tragedies of William Shakespeare. Students also study the different types of plot construction, the use of dialogue, and the dramatic conventions of the Elizabethan theater.

216 Shakespeare II (3) UC:CSU IGETC Area 3B*Prerequisite: English 101.*

LECTURE, 3 HOURS.

Note: Either English 215 or English 216 may be taken first.

This course provides the historical, political, religious, and artistic backgrounds for the full understanding and enjoyment of selected romances, problem comedies, and mature tragedies of William Shakespeare. Students study different literary genres, Shakespeare's poetic style, and his conception of human character, focusing on a selection of different works of Shakespeare than those used in English 215.

218 Children's Literature (3) UC:CSU IGETC Area 3B*Prerequisite: English 101.*

LECTURE, 3 HOURS.

This course focuses on an in-depth study of fairy tales, picture books, chapter books, bildungsroman, and other stories for children. Students learn to apply key concepts of Bruno Bettelheim's psychoanalytic theory and Joseph Campbell's idea of the monomyth, as well as understand how evolving historical, social, and theoretical attitudes toward childhood have shaped the field of children's literature.

239 Women in Literature (3) UC:CSU IGETC Area 3B*Prerequisite: English 101.*

LECTURE, 3 HOURS.

This course acquaints students with the work of women writers, historical and contemporary, who have made important contributions to literature. Writers to be read include Wollstonecraft, Woolf, Chopin, Austen, and Cather, among others. Students are expected to write critical essays and a research paper that examine the predominant themes in path-breaking literature by and (to a lesser extent) about women, as well as the various archetypes, images, roles, and statuses of women. Special attention is devoted to traditional literary analysis and interpretation of primary texts through the lens of the various schools of literary criticism.

240 Literature and the Motion Picture**I** (3) UC:CSU IGETC Area 3B*Prerequisite: English 101.*

LECTURE, 3 HOURS.

This course encourages students to read literature like filmmakers whose intent is to adapt it for the screen, as well as filmmakers who have an artistic vision or a story to explore as an original screenplay. By so doing, students hone their close reading skills on written and cinematic texts. They compare and contrast the elements of literature in both genres including theme (ideology), story (plot), narration (narratology), point of view, characterization, dialogue, setting, scene descriptions (mise en scene, imagery, symbolism, tone) and editing. The first half of the course focuses on literature 'and' film, the second on film 'as' literature.

241 Literature and the Motion Picture**II** (3) UC:CSU IGETC Area 3B*Prerequisite: English 101.*

LECTURE, 3 HOURS.

This second section of Literature and the Motion Picture focuses on an in-depth study of three filmmakers

(domestic and foreign) who have adapted literary texts to the screen or whose original screenplays are considered 'literary'. The literary conventions of narrative, point of view, character development, symbolism, and theme studied in the previous course are applied to a filmmaker's auteur approach to *mise en scene* (the framing of a shot), photography, editing, and sound. By studying the auteur theory of filmmaking, students critically compare and contrast the personal visions, styles, thematic obsessions, and ideologies of three noted filmmakers who influence their films so much that they rank as their authors, or auteurs.

245 Queer Literature (3) UC:CSU IGETC Area 3B

Prerequisite: English 101.

LECTURE, 3 HOURS.

This course acquaints students with the work of gay and lesbian writers, historical and contemporary, who have made important contributions to literature. Gay and lesbian issues and relationships (both overt and in subtext) are examined in both historical and contemporary contexts. Students read works by Whitman, Baldwin, Walker, Kushner, and Highsmith among others. In addition, students become familiar with queer theory and use the work of writers such as Foucault, Butler, and Rich to analyze texts and write critical essays that analyze predominate themes in this literature.

250 Mythology and Literature (3) UC:CSU IGETC Area 3B

Prerequisite: English 101.

LECTURE, 3 HOURS.

This course focuses on reading, discussing, and interpreting selected mythologies of cultures from around the world. It is designed to increase understanding and appreciation of their expression in oral epics, poetry, and ritual dramas. Also examined are the social, historical, geographical, and personal functions that myths perform and modern interpretations of myth and mythmaking.

252 The English Bible as Literature

(3) UC:CSU IGETC Area 3B

Prerequisite: English 101.

LECTURE, 3 HOURS.

This course surveys the Old and the New Testaments of the Bible. Assignments focus on how to read the Bible as a literary text, also incorporating historical narrative, short stories, poetry, parables, and letters to convey author's intent to the readers of their respective times as well as to contemporary society.

185 Directed Study – English (1) CSU

385 Directed Study – English (3) CSU

CONFERENCE, 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in English on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be

presented for review, but credit for internships rarely transfers to UC.

English as a Second Language (ESL or E.S.L.)

3A College English as a Second Language III: Writing and Grammar (6)

Advisories: English as a Second Language 3B and/or 3C.

This course is offered on a PASS/NO PASS basis only.

LECTURE, 6 HOURS.

This course is designed for students at the low-intermediate level of English language acquisition. This course provides instruction in basic and low-intermediate grammar, writing of sentences and short paragraphs, reading at a low-intermediate level, and verbal communication.

3B College English as a Second Language III: Reading and Vocabulary (3)

Advisories: English as a Second Language 3A and/or 3C.

This course is offered on a PASS/NO PASS basis only.

LECTURE, 3 HOURS.

This course complements ESL 3A and 3C, providing intensive instruction in reading comprehension and vocabulary development at a low-intermediate level. Emphasis is placed on identifying the main idea and details of short reading selections. Students build vocabulary using word analysis skills and learning new sight words and idioms.

3C College English as a Second Language III: Listening and Speaking (3)

Advisories: English as a Second Language 3A and/or 3B.

This course is offered on a PASS/NO PASS basis only.

LECTURE, 3 HOURS.

This course complements ESL 3A and 3B and is designed to provide low-intermediate ESL students with additional practice in conversation skills. It focuses on the development of basic speaking and listening skills necessary for college, vocational study, and everyday life. Students learn to participate effectively in a variety of academic and vocational situations, including discussions, study groups, and meetings.

4A College English as a Second Language IV: Writing and Grammar (6)

Prerequisites: English as a Second Language 3A or acceptable level of English as demonstrated in the ESL placement process.

Advisories: English as a Second Language 4B and/or 4C.

This course is offered on a PASS/NO PASS basis only.

LECTURE, 6 HOURS.

This course is designed for students at the mid-intermediate level of English language acquisition. This course provides instruction in mid- to high-intermediate grammar, writing of paragraphs and short essays, reading at a mid-intermediate level, and verbal communication.

4B College English as a Second Language IV: Reading and Vocabulary (3)

*Advisories: English as a Second Language 4A and/or 4C.
This course is offered on a PASS/NO PASS basis only.*

LECTURE, 3 HOURS.

This course complements E.S.L. 4A and ESL 4C, providing intensive instruction in reading comprehension and vocabulary development at a mid-intermediate level. Emphasis is placed on identifying the stated and implied main ideas and supporting details of readings written at the intermediate level. Students continue to develop their vocabulary.

4C College English as a Second Language IV: Listening and Speaking (3)

*Advisories: English as a Second Language 4A and/or 4B.
This course is offered on a PASS/NO PASS basis only.*

LECTURE, 3 HOURS.

This course is designed to complement E.S.L. 4A and 4B and focuses on development of intermediate speaking and listening skills necessary for college and everyday life. Students improve their abilities to hold conversations, give reports, and use vocabulary essential for everyday life situations, the college environment, the workplace, and other areas of cultural and social interest.

5A College English as a Second Language V: Writing and Grammar (6) UC:CSU

Prerequisites: English as a Second Language 4A or acceptable level of English as demonstrated in the ESL placement process.

*Advisories: English as a Second Language 5B and/or 5C.
(UC Credit Limit: Maximum credit 8 units from ESL 5A, 6A, 8)*

LECTURE, 6 HOURS.

This course is designed for students at the high-intermediate level of English language acquisition. This course provides instruction in writing essays, critical thinking, reading at the high-intermediate level, and verbal communication.

5B College English as a Second Language V: Reading and Vocabulary (3) CSU

Advisories: English as a Second Language 5A and/or 5C.

LECTURE, 3 HOURS.

This course complements E.S.L. 5A and ESL 5C, providing intensive instruction in reading comprehension and vocabulary development at a high intermediate level. Emphasis is placed on identifying the stated and implied main ideas and supporting details of reading selections as well as transitions and patterns of organization. Students continue to develop their vocabulary.

5C College English as a Second Language V: Listening and Speaking (3) CSU

Advisories: English as a Second Language 5A and/or 5B.

LECTURE, 3 HOURS.

This course complements E.S.L. 5A and 5B. ESL 5C focuses on development of high-intermediate speaking and

listening skills necessary for college and vocational study. Students improve their abilities to participate in academic and vocational discussions and meetings.

6A College English as a Second Language VI: Writing and Grammar (6) UC:CSU

Prerequisites: English as a Second Language 5A or acceptable level of English as demonstrated in the ESL placement process.

*Advisories: English as a Second Language 6B and/or 6C.
(UC Credit Limit: Maximum credit 8 units from ESL 5A, 6A, 8)*

LECTURE, 6 HOURS.

This course is designed for students at the advanced level of English language acquisition and provides instruction in writing extended essays using a variety of rhetorical modes, critical thinking, reading at the advanced level, and verbal communication.

6B College English as a Second Language VI: Reading and Vocabulary (3) CSU

Advisories: English as a Second Language 6A and/or 6C.

Lecture, 3 hours. This course complements E.S.L. 6A and ESL 6C, providing intensive instruction in reading comprehension and vocabulary development at an advanced level. Emphasis is placed on developing critical reading skills needed to understand academic texts. Students develop skills in annotating, outlining, and summarizing texts. Students acquire knowledge of more sophisticated, academic vocabulary.

6C College English as a Second Language VI: Listening and Speaking (3) CSU

Advisories: English as a Second Language 6A and/or 6B.

LECTURE, 3 HOURS.

This course complements E.S.L. 6A and 6B and focuses on development of advanced speaking and listening skills necessary for college and vocational study. Students refine their abilities to participate in academic and vocational discussions and meetings.

7B Advanced ESL: Reading and Vocabulary (3) CSU

Prerequisite: English as a Second Language 6A or acceptable level of English as demonstrated in the ESL placement process.

Advisories: English as a Second Language 8.

LECTURE, 3 HOURS.

In this advanced E.S.L. course, students learn reading comprehension, critical reading, and vocabulary skills to prepare for and support their academic work across the curriculum. This course is designed to build academic language fluency, academic vocabulary, and reading versatility.

8 Advanced ESL Composition (6) UC:CSU

Prerequisite: English as a Second Language 6A or acceptable level of English as demonstrated in the ESL placement process.

(UC Credit Limit: Maximum credit 8 units from ESL 5A, 6A, 8)

LECTURE, 6 HOURS.

In this advanced ESL course leading to English 101, students learn written composition, grammar, and critical reading skills to prepare for college work. The emphasis is on

writing based primarily on critical reading and interpretation/analysis. Students plan, draft, revise, and edit compositions of increasing sophistication and complexity, progressing from multi-paragraph 750-word essays to essays of 1000 words that reference classroom texts as well as personal experience in support of a clearly delineated thesis statement. Students practice using MLA citation and bibliographic conventions in their research. Advanced grammar skills and mechanics are emphasized throughout each lesson.

10 Advanced Integrated Language Skills (3)

Corequisite: English 101 or acceptable level of English as demonstrated in the ESL placement process.

LECTURE, 3 HOURS.

In this advanced integrated language skills course, a co-requisite to English 101, students receive additional support for topics covered in English 101, and develop critical thinking, grammar, close reading, and writing skills. Techniques for researching, documenting, analyzing, and using text-based evidence from fiction and non-fiction texts are emphasized. Students are guided through the writing

process (planning, drafting, revising, and editing) while evaluating multiple viewpoints in different genres (fiction/non-fiction). Successful completion of E.S.L. 10 and English 101 allows the student to enroll in English 102 and/or English 103.

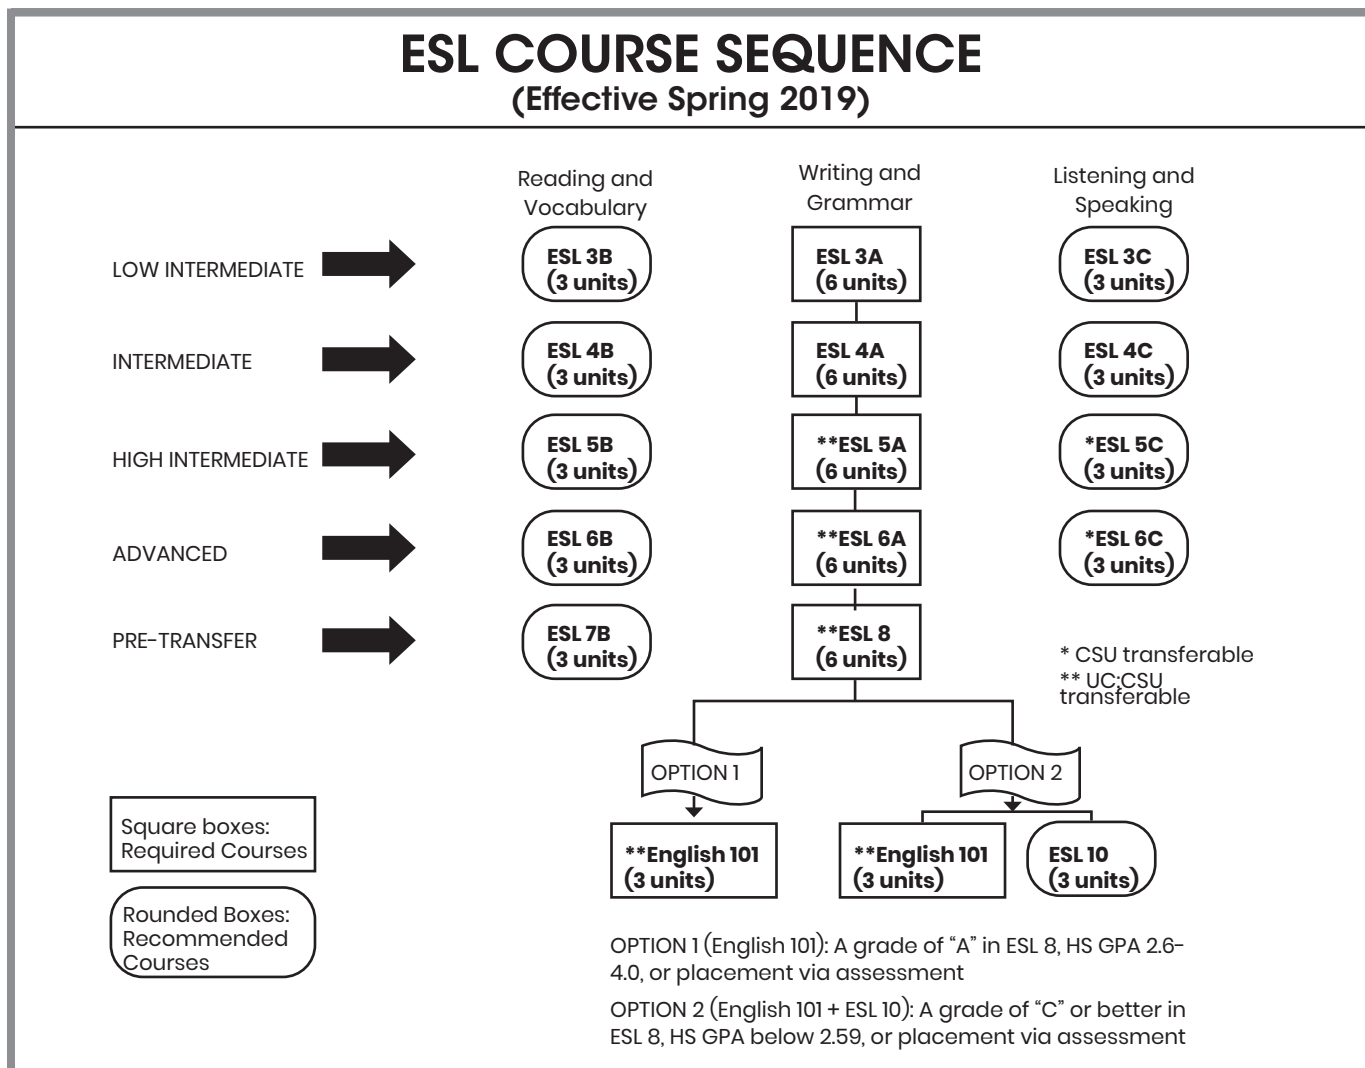

32 College English as a Second Language Digital Magazine Editing and Publishing (2)

Prerequisites: English as a Second Language 5A or acceptable level of English as demonstrated in the ESL placement process.

LECTURE, 2 HOURS.

This course offers high intermediate and advanced ESL students the opportunity to select and edit prose submitted for publication in the ESL digital (web-enhanced) magazine, Hybrid Culture: A Bridge to Language. Students develop skills in the critical evaluation of submissions and copy-editing, thereby enhancing their abilities to edit their own writing in English, and work as a team to prepare the forthcoming issue, developing skills in magazine layout and design, promotion, ADA compliance, and thematic focus.

ENGLISH AS A SECOND LANGUAGE COURSE SEQUENCE CHART

Humanities (HUMAN)

1 Cultural Patterns of Western

Civilization (3) UC:CSU IGETC Area 3B

Advisory: English 101.

LECTURE, 3 HOURS.

This course introduces the student to the predominant cultural patterns of Western Civilization as expressed in great works of literature and art from the Ancient Greeks through the medieval periods and up to the Renaissance. Literature, drama, painting, sculpture, and architecture are studied in relation to their historical background. The student is introduced to general concepts of the humanities, including applied aesthetics. Comparisons to relevant Asian and African mythology are also explored.

8 Great Women in the Humanities

(3) UC:CSU IGETC Area 3B

Prerequisite: English 101.

LECTURE, 3 HOURS.

This course provides a cultural survey of the lives and contributions of selected individuals, such as Hatshepsut, Elizabeth I, Madame Curie, Virginia Woolf, and others, whose impact helped to shape the eras in which they lived. Students explore both the lives of these individuals and their eras with an appreciation of both their historical importance and their individual contributions to our cultural heritage, illustrating the multiplicity of women's achievements in the arts and humanities.

60 People and Their World: Technology and the Humanities

(3) UC:CSU IGETC Area 3B

Advisory: English 101.

LECTURE, 3 HOURS.

This course relates technology to the humanities and provides opportunities to examine the interaction between society and technology. Questions about cultural and social values in light of the effects of technology from the Paleolithic period to the 21st century are developed and discussed. In their research, students explore the societal effects of the latest technological developments of our time.

185 Directed Study – Humanities (1) CSU

385 Directed Study – Humanities (3) CSU

CONFERENCE, 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in English on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Reading (READING)

29 Reading Across the Curriculum (3)

LECTURE, 3 HOURS.

This course provides practice in the reading and study skills most essential for understanding and retaining material in college textbooks. Students read, organize, and summarize selections from college textbooks in a variety of subject areas and have the opportunity to research, synthesize, and reflect on a single topic related to their possible major. Continued vocabulary development is an important aspect of this course. Students improve academic vocabulary knowledge, review vocabulary-in-context, and develop word analysis skills.

98 Academic Reading (3) NDA

LECTURE, 3 HOURS; LABORATORY, 1 HOUR.

This class prepares students for academic reading and foundational critical thinking. Students read a variety of texts ranging from textbook materials to novels to non-fiction.

101 College Reading and Critical Thinking (3) CSU

Advisory: English 101.

LECTURE, 3 HOURS.

This course develops critical reading strategies and analytical techniques through the reading of fiction and non-fiction texts at the college level. Components of this course include critical reading strategies, analyzing, summarizing, and evaluating texts. This course challenges students to deconstruct and to reconstruct texts ultimately creating a dialogue between authors and ideas. This course also includes analyzing visual texts and strategies for evaluating research sources.

Journalism Department

E7 - 303A • (323) 265-8875

The Journalism discipline offers a Certificate of Achievement as well as an Associate Degree in Desktop Publishing. Students can also work toward a Certificate of Achievement, an Associate Degree in Journalism or an Associate Degree in Journalism for Transfer. Students can also work as staff on the ELAC school newspaper, Campus News, or online site, elaccampusnews.com.

Associate in Arts in Journalism for Transfer

The department has an Associate of Arts degree and a certificate in Journalism and an Associate of Arts degree and certificate in Desktop Publishing under a consortium of the departments of Art, Journalism, and Media Arts. The addition of the Associate of Arts in Journalism for Transfer will assist students who are interested in Journalism and are planning on transferring to a four-year university and majoring in Journalism. Other similar concentrations are Mass Communications, Advertising, Broadcast Journalism, Photography and Public Relations. Students are required to complete a minimum of 60 required semester units of CSU transferable coursework with a minimum GPA of 2.0, including a minimum of 18 semester units in the major with a grade of "C" (or "P") for each course in the major.

*This course has a prerequisite.

Journalism (JOURNAL)

101 Collecting and Writing News (3) CSU (C-ID JOUR 110)

LECTURE, 3 HOURS.

This course provides students practice in news gathering with particular emphasis on documentation, research and news writing. Adherence to professional writing style guidelines and legal and ethical aspects of the profession are emphasized.

105 Mass Communications (3) UC:CSU

IGETC Area 4E (C-ID JOUR 100)

LECTURE, 3 HOURS.

Note: Offered in Fall semester only.

This course provides an overview of America's mass communications systems and how they affect human behavior in relation to social, political, and economic institutions. It also examines the structure and functioning in print and electronic communications including: Film, print, television, radio, the recording industry, public relations, and the Internet. Factors that influence creation and distribution of media messages, and the impact of those messages on society are also discussed.

202 Advanced Newswriting (3) CSU (C-ID JOUR 210)

Prerequisite: Journalism 101.

LECTURE, 3 HOURS.

Note: Offered in Spring semester only.

This course provides the student with principles and practice in writing enterprise and long-form stories and increases mastery of advanced research and reporting techniques. Investigative writing skills, civic journalism, and beat writing are emphasized. It includes on-and-off campus reporting for print and online coverage of courts, police, city councils, and school boards.

217-1 Publication Laboratory I (2) CSU

Prerequisite: Journalism 101.

LABORATORY, 6 HOURS.

In this beginning level course, students learn introductory newspaper production techniques through the publication of the campus newspaper, including newspaper design, layout, graphic techniques, and materials.

217-2 Publication Laboratory II (2) CSU

Prerequisite: Journalism 217-1.

LABORATORY, 6 HOURS.

In this intermediate level course, students learn intermediate newspaper production techniques through the publication of the campus newspaper, including newspaper design, layout, graphic techniques, and materials.

217-3 Publication Laboratory III (2) CSU

Prerequisite: Journalism 217-2.

LABORATORY, 6 HOURS.

In this advanced course, students learn advanced newspaper production techniques through the publication of the campus newspaper, including newspaper design, layout, graphic techniques, and materials

217-4 Publication Laboratory IV (2) CSU

Prerequisite: Journalism 217-3.

Advisory: Journalism 218-4.

LABORATORY, 6 HOURS.

In this course, students learn professional-level newspaper production techniques through the publication of the campus newspaper, including newspaper design, layout, graphic techniques and materials.

218-1 Practical Editing I (3) CSU (C-ID JOUR 130)

Prerequisite: Journalism 101.

LECTURE, 1 HOUR; LABORATORY, 6 HOURS.

In this beginning course, students are introduced to writing and publication by gathering information and producing content regularly on a weekly basis for the campus newspaper, Campus News, as well as the online news site, elaccampusnews.com, including research, information and data gathering, story composition, and regular evaluation of published stories.

218-2 Practical Editing II (3) CSU (C-ID JOUR 131)

Prerequisite: Journalism 218-1.

LECTURE, 1 HOUR; LABORATORY, 6 HOURS.

Students develop intermediate newspaper writing and editing skills through gathering and producing news content weekly for publication of the campus newspaper, Campus News, and the website, elaccampusnews.com, which are student-run media. Students develop news and other feature stories through written, visual, digital, and other multimedia formats and create a portfolio of student-created and published media projects.

218-3 Practical Editing III (3) CSU

Prerequisite: Journalism 218-2.

LECTURE, 1 HOUR; LABORATORY, 6 HOURS.

In this course, students develop advanced newspaper writing and editing skills through the publication of the campus newspaper, Campus News. This includes regular evaluation of stories published in Campus News. Editions are evaluated in regularly scheduled class meetings.

218-4 Practical Editing IV (3) CSU

Prerequisite: Journalism 218-3.

LECTURE, 1 HOUR; LABORATORY, 6 HOURS.

In this course, students develop professional-level newspaper writing and editing skills through the publication of the campus newspaper, Campus News. This includes regular evaluation of stories published in Campus News. Editions are evaluated in regularly scheduled class meetings.

219-1 Techniques for Staff Editors I (1) CSU

Prerequisite: Journalism 101.

LABORATORY, 3 HOURS.

This course provides campus newspaper editors an introduction to practices and feedback in editorial writing and the analysis of editorial problems. Emphasis is placed on developing newsroom leadership skills and formulating editorial policy.

219-2 Techniques for Staff Editors II (1) CSU

Prerequisite: Journalism 219-1.

LABORATORY, 3 HOURS.

In this course, student editors receive intermediate instruction in editorial writing and analysis of editorial problems. Students survey research methods. Emphasis is placed on developing newsroom leadership skills and formulating editorial policy.

219-3 Techniques for Staff Editors III (1) CSU

Prerequisite: Journalism 219-2.

LECTURE, 1 HOUR; LABORATORY, 6 HOURS.

In this course, students receive advanced instruction and practice in producing the student newspaper, 'Campus News.' Real newsroom techniques, practices, and techniques are stressed.

228-1 Beginning Computerized Composition (3)

Prerequisite: Journalism 217-1.

LECTURE, 1 HOUR; LABORATORY, 6 HOURS.

This course consists of instruction and practice in computerized page layout. The topics presented include editing, processing, setting of text, display types, and copy processing. Proofreading and preparation of materials for publication are also covered.

228-2 Advanced Computerized Composition (3)

Prerequisite: Journalism 228-1.

LECTURE, 1 HOUR; LABORATORY, 6 HOURS.

This advanced course consists of instruction and practice in computerized page layout. The topics presented include editing, processing, setting of text, display types, and copy processing. Proofreading and preparation of materials for publication are also covered.

260 Media Design and Copy Writing (3) CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

In this course, students learn principles and theories of publication layout as it relates to various forms of media, such as magazines, brochures, websites, newspapers, etc. The practical aspect of this class focuses on the news and public relations aspects of digital layout and copy writing. A basic introduction to typography, color, print layout, and web layout is covered with an emphasis on journalism and public relations based projects. Headline writing and editing are discussed, including formatting and Associated Press style and an introduction to design software is provided.

185 Directed Study - Journalism (1) CSU**285 Directed Study - Journalism (2) CSU****385 Directed Study - Journalism (3) CSU**

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Journalism on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC does not grant credit for variable topics courses in Journalism because of credit restrictions in this area.

Public Relations (PUB REL)**1 Principles of Public Relations (3) CSU (C-ID JOUR 150)**

LECTURE, 3 HOURS.

This course introduces Public Relations as the values-driven management of relationships with groups of people that can influence an organization's success and examines how organizations can ethically and systematically build productive, mutually beneficial relationships with such groups.

DEGREE PROGRAMS

Physical Education, Associate in Arts Degree

This program emphasizes preparation for teaching, or career opportunities in Physical Education, or a number of other fields such as physical therapy, special education, recreation, athletic training, research and for positions in private industry or in public service.

In addition to physical fitness, dance and sports activities, the program includes the study of methods of teaching and coaching; rules, procedures and officiating of sports; history and principles of physical education and its relation to education in general.

SUBJECT & NO.	COURSE	UNITS
COMPLETE EIGHT UNITS FROM THE FOLLOWING		
ANATOMY 1**	Introduction to Human Anatomy	4
AND		
PHYSIOL 1*	Introduction to Human Physiology.....	4
OR		
BIOLOGY 20*	Human Anatomy and Physiology.....	8
COMPLETE ONE OF THE FOLLOWING COURSES		
HEALTH 2	Health and Fitness.....	3
HEALTH 7	Physical Fitness and Nutrition	3
HEALTH 8	Women's Personal Health	3
HEALTH 11	Principles of Healthful Living.....	3

FREE ELECTIVES: COMPLETE 19 UNITS FROM ANY CSU OR UC TRANSFERABLE COURSES		19

LACCD GENERAL EDUCATION PLAN	21
Total	60

Note: 10 units of major courses may be double counted in LACCD General Education area A, B2, E1 and E2.

*This course has a prerequisite.

*This course has an advisory.

Associate in Arts in Kinesiology for Transfer

The East Los Angeles College in Arts in Kinesiology Transfer degree provides an opportunity for students to complete the first two years of study leading to a bachelor's degree in a California State University. By selecting the proper courses, students may have a seamless transfer to a Cal State University without loss of time or credit. Students must complete a minimum of 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0, including a minimum of 21-23 semester units in the major with a grade of "C" (or "P") for each course in the major. Certified completion of the California State University General Education Breadth (CSU GE Breadth) or Intersegmental General Education Transfer Curriculum (IGETC) pattern is also required. Students wishing to complete a Kinesiology transfer program should consult with an academic advisor to plan their program.

REQUIRED CORE COURSES

SUBJECT & NO.	COURSE	UNITS
KIN MAJ 100	Introduction to Physical Education	3
ANATOMY 1**	Introduction to Human Anatomy	4
AND		
PHYSIOL 1*	Introduction to Human Physiology	4
OR		

BIOLOGY 20* Human Anatomy and Physiology.....8

Movement-based courses: (minimum 3 units) Select a maximum of one (1) course from any three (3) of the following areas.

AQUATICS

SUBJECT & NO.	COURSE	UNITS
KIN 201	Swimming Skills	1
KIN 301-1	Swimming I	1
KIN 301-2*	Swimming II	1
KIN 303	Aqua Aerobics	1

Note: 4 units of major courses may be counted towards general education.

*This course has a prerequisite.

*This course has an advisory.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Health (HEALTH)

Note: One Health course selected from Health 2, 7, 8, or 11 is required of all students seeking an Associate Degree.

(UC Credit Limit: Health 2, 7, 8, 11 combined maximum credit, one course).

2 Health and Fitness (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY: 2 HOURS.

This course promotes healthy physical and psychological lifestyles, with emphasis on disease prevention, including violence/abuse, nutrition, sexuality, reproduction, drugs, alcohol, tobacco, aging, stress management, and weight control. The physical fitness segment emphasizes individual improvement utilizing aerobic, flexibility, and strengthening activities

7 Physical Fitness and Nutrition (3) UC:CSU

LECTURE, 3 HOURS.

This course considers the nature and importance of physical fitness and good nutrition in one's personal and social development. Various types of physical activities are analyzed and evaluated. Appropriate selection of nutritive foods for weight control and ergogenics are covered. Fad diets and food supplements are analyzed.

8 Women's Personal Health (3) UC:CSU

LECTURE, 3 HOURS.

This course comprehensively reviews important issues related to women of diverse backgrounds. This course covers practical approaches to understanding the health of women in relationship to physiological and psychological aspects of nutrition, mental health, exercise, hygiene, cardiovascular disease, cancer, sexuality, reproduction, drugs, and other diseases common to women.

11 Principles of Healthful Living (3) UC:CSU

LECTURE, 3 HOURS.

This course develops health knowledge and values with the goal of promoting a high quality of life for each individual. Areas of focus include nutrition, physical fitness, communicable diseases and other major health problems,

consumer and environmental health, human sexuality and family life, mental and emotional health, tobacco, alcohol and drugs, aging, death and dying.

12 Safety Education and First Aid (3) UC:CSU (C-ID KIN 101)

LECTURE, 3 HOURS.

This course covers the theory and detailed demonstration of first aid care of the injured. Students learn to assess a victim's condition and incorporate proper treatment. Standard first aid, CPR, and AED certification(s) are granted upon successful completion of course requirements.

15 Stress Management Strategy (3) CSU

LECTURE, 3 HOUR.

This course examines and identifies the effects of stress on our society and in particular on the individual. Several systems are explored to achieve an optimal level of health. Students learn to cope with stress as well as change potential stressors that will enrich their lives. This course covers the seven dimensions of health: mental, emotional, social, physical, occupational, spiritual, and environmental as well as examines ways to identify and control stress.

31 Focus on Health: Diabetes (1) CSU

LECTURE, 1 HOUR.

This course covers diabetes mellitus, with emphasis on positive self-care choices. Aspects of current diabetes management are covered: blood glucose testing, oral hypoglycemics, insulin, exercise, and pregnancy. Also included are the prevention and recognition of diabetes complications affecting eyes, kidneys, nerves, feet, heart/blood vessels. Hypoglycemia and hyperglycemia are also covered.

43 Men's Health and Fitness (3) CSU

LECTURE, 3 HOURS.

This course is designed to give students the knowledge and understanding of men's health issues. It studies topics such as domestic abuse and violence, stress, alcoholism, disease transmission and other physical, emotional and social topics related to men's health, fitness, and wellness.

49 Basic Life Support Skills Certification (1)

LECTURE, 0.5 HOUR; LABORATORY, 1.5 HOURS.

This course covers the content of the American Red Cross Basic Life Support (BLS)for Healthcare Providers. Students learn how to provide care for individuals who are experiencing respiratory arrest,cardiac arrest, or airway obstruction. BLS includes psychomotor skills for performing high-quality cardiopulmonary resuscitation for adults, children, and infants, use of an automated external defibrillator(AED), and relief of foreign-body airway obstruction. Upon successful completion of the course, students receive a Basic Life Support(BLS)Healthcare Providers certificate of completion.

Kinesiology (KIN)

(UC Credit Limit: any or all Kinesiology activity courses combined; maximum credit 4 units).

Activity skills instruction includes progressive skills attainment in each particular sport or activity with emphasis on technique, strategy, etiquette, and rules, as well as physical health emphasis and importance of life-long physical well-being. Kinesiology and dance classes present integrated information about physiological, social and

psychological understanding of the self through movement. Some activity courses include beginning, intermediate, and advanced levels.

Title 5 changes effective Fall 2013 substantially restrict how many times students can take specific types of classes. Students enrolled in “active participation courses” in Kinesiology, visual arts, or performing arts are limited to four (4) enrollments per “family. Failures and W grades count as enrollments. A family can contain multiple courses, but a student can only take four of them. LACCD courses in, Art, Dance Techniques, Kinesiology, Music, and Theater are all affected. For courses in the Kinesiology department, families have been created as follows:

KINESIOLOGY FAMILY NAMES AND COURSE NUMBERS:

Aerobics, Circuit Training, and Sport-Specific Strength Training.....	10, 45, 46, 48, 49, 229, 237, 246-1, 250, 327, 328-1, 328-2, 328-3, 330-1, 330-2, 330-3, 331-1, 333, 336-1, 336-2, 337, 338-1, 338-2, 339-1, 339-2, 345, 346, 346-1, 350-1, 350-2
Aquatics.....	47, 201, 301, 301-1, 301-2, 301-3, 301-4, 303
Court Sports	366-1, 366-2, 370, 371-1, 391-1
Directed Studies.....	9, 185
Individual Activities	268, 334-1, 365-1, 370, 371-1
Mind/Body Conditioning.....	DANCETQ 181, 182, KIN 247, 248-1, 248-2, 335-1
Team Sports	51, 287, 386-1, 386-2, 387-1, 387-2, 388, 390-1, 390-2, 391-1
Track & Field Mixed Activities.....	180, 307, 334-1

9 Combined Activities (1) UC:CSU

LABORATORY, 2 HOURS.

This course consists of a combination of two or more physical education activity courses, each taught for one half (or less) of the scheduled time. The combination courses are specified in the schedule of classes.

10 Kinesiology-Physical Fitness (1) UC:CSU

LABORATORY, 2 HOURS.

This course combines instruction in the conditioning aspects of strength, flexibility, endurance and muscle tone. An understanding of cardiovascular fitness and nutritional information related to exercise is emphasized. A periodic evaluation of fitness levels is included.

45 Adapted Fitness (1) UC:CSU

LABORATORY, 3 HOURS.

This course is designed to meet the needs of students with disabilities who require restricted or modified activities. Individualized exercise programs are performed by students with instruction emphasizing the basic elements of physical fitness and training principles.

46 Adapted Strength Training (1) UC:CSU

LABORATORY, 3 HOURS.

This course is designed to meet the needs of students with disabilities who require restricted or modified activities. Individualized exercise programs are performed by students with instructional emphasis placed on strength training principles and techniques.

47 Adapted Swimming and Hydroexercise (1) UC:CSU

LABORATORY, 3 HOURS.

This course meets the needs of students with disabilities requiring restricted or modified activities. Individualized exercise programs focus on basic swimming and water safety skills. Hydroexercise programs emphasize physical fitness, buoyancy, and hydrodynamic resistance principles.

49 Adapted Cardiovascular Fitness (1) UC:CSU

LABORATORY, 3 HOURS.

This course meets the needs of students with disabilities who can benefit from individualized cardiovascular endurance training. Development of cardiovascular endurance through the use of bicycle ergometers is the major focus of the course.

51 Adapted Sports and Games (1) UC:CSU

LABORATORY, 3 HOURS.

This course is designed to meet the needs of students with disabilities to develop gross motor skills and to facilitate participation in life-long activities. Activities are designed to enhance fitness, self-esteem, and social interaction. The main focus of the class is skill development. Sports may include but not limited to: Basketball, flag football, over the line, lacrosse, and bowling. Students with disabilities must provide a physician's prescription for exercises.

180 Marathon Training Course for Run/Walk (1.5) UC:CSU

LABORATORY, 4.5 HOURS.

This course develops cardiovascular endurance for a student training for a marathon using a variety of tempo runs. Students utilize and understand aerobic and anaerobic energy systems and when each is used. Race analysis and race psychology are also explained.

201 Swimming Skills (1) UC:CSU

LABORATORY, 2 HOURS.

This course enables students to gain awareness of the importance of proper swimming techniques/postural alignment, including progressive learning skills; such as water exploration, primary skills, stroke readiness, stroke development, stroke refinement, skill proficiency, and advanced skills in accordance with the seven levels of the American Red Cross. Nutrition and concepts of fitness are also covered. This course covers skills and knowledge in a logical progression for aquatic skill development in accordance with the American Red Cross Swimming and Water Safety course requirements. Students develop cardiovascular fitness through swimming.

229 Body Conditioning Skills (1) UC:CSU

LABORATORY, 2 HOURS.

This course provides students with the opportunity to participate in a variety of vigorous exercises for increasing cardiovascular fitness, muscular strength, and flexibility.

237 Boot Camp I (1) UC:CSU

LABORATORY, 2 HOURS.

This course is designed as a lower intensity style boot camp class that is conducted both on and off campus using indoor and outdoor facilities. Training exercises used during this class include basic aerobic and anaerobic conditioning, muscular strength, resistance and endurance

training, and also individual and team concepts. In addition, students are challenged to understand and apply basic fitness principles, basic anatomy and physiology, the prevention of training injuries, target heart rate and the intensity of exercise as well as nutrition for fitness. The students train individually, with a partner or in a team setting.

246 Body Sculpting Skills (1) UC:CSU

LABORATORY, 2 HOURS.

This course utilizes body sculpting techniques to achieve cardiovascular fitness, muscle toning, and endurance. Exercise bands, free exercise on mats, weights, stability balls, medicine balls, and other activities are used for a total body workout.

247 Pilates for Fitness (1) UC:CSU

LABORATORY, 2 HOURS.

This course focuses on precision alignment, core strength, and building an awareness of the body. Pilates involves a Kinesthetic awareness through a series of floor exercises, optimizing a postural alignment and muscular balance to enable maximum range of movement for body strength and flexibility. Appropriate modifications for specific fitness levels are considered. This class is easy to follow and includes instruction and understanding of Pilates methods and exercises utilizing safe and popular Pilates exercises.

248-1 Stretching for Flexibility I (1) UC:CSU

LABORATORY, 2 HOURS.

In this course, students participate in basic stretching techniques to improve overall flexibility including active and passive stretching and myofascial release training. Emphasis is placed upon flexibility, balance, breathing techniques, spatial awareness, and safety during stretching. Technique modifications to account for physical limitations are emphasized. A brief examination of the evolution of the various forms of stretching reflecting cultural differences and diversity, human anatomy, nutrition, and wellness concepts related to overall fitness, age, and gender are also addressed.

248-2 Stretching for Flexibility II (1) CSU

LABORATORY, 2 HOURS.

In this course, students participate in intermediate stretching techniques to improve overall flexibility including active and passive stretching and myofascial release training. Emphasis is placed upon flexibility, balance, breathing techniques, spatial awareness, and safety during stretching. Technique modifications to account for physical limitations are emphasized. A brief examination of the evolution of the various forms of stretching reflecting cultural differences and diversity, human anatomy, nutrition, and wellness concepts related to overall fitness, age, and gender are also addressed.

250 Weight Training Skills (1) UC:CSU

LABORATORY, 2 HOURS.

This course covers the principles of weight training for men and women. It develops a general program of progressive resistance exercises with adaptation and implication for the individual student. Attention is given to terminology, use of equipment, safety precautions, nutrition and weight control, and basic factors of anatomy and physiology.

268 Golf Skills (1) UC:CSU

LABORATORY, 2 HOURS.

This course consists of instruction in the primary skills of golf including rules, etiquette, terminology, and mock game experience. This course ranges from basic to advanced skills practice. Pitch/putt course games are played.

287 Basketball Skills (1) UC:CSU

LABORATORY, 2 HOURS.

This course introduces students to the rules, skill, and strategies of basketball. It is designed to teach all levels the basic basketball skills of passing, dribbling, shooting, and rebounding, and introduces individual and team offense and defense, as well as rules, proper etiquette, terminology, and components of fitness.

301-1 Swimming Skills I (1) UC:CSU

LABORATORY, 3 HOURS.

This course introduces students to basic aquatic skills, such as floating, kicking, and gliding, and incorporates the development, practice, and theory of basic swimming strokes. The course emphasizes the development of basic water safety techniques to assure confidence and mobility in aquatic activities and to help create confidence in the water, as well as an evaluation of physical fitness.

301-2 Swimming Skills II (1) UC:CSU

Prerequisite: Kinesiology 301-1.

LABORATORY, 3 HOURS.

This course covers intermediate techniques of swimming, terminology, and fluid mechanics in water. Swimming strokes include freestyle, backstroke, breaststroke, and butterfly. Racing starts, flip turns, dives, and touch turns are introduced on a beginning level. Interval training concepts are introduced to build endurance. Indoor and outdoor water safety is reviewed in this course.

301-3 Swimming Skills III (1) UC:CSU

Prerequisite: Kinesiology 301-2.

LABORATORY, 3 HOURS.

This course covers advanced techniques of swimming, terminology, and fluid mechanics in water. Swimming strokes include front crawl, back crawl, breaststroke, and butterfly. Racing starts, flip turns, dives, and touch turns are introduced on an advanced level. Advanced principles of training include interval training concepts, increase yardage and advanced breathing techniques to build endurance. Indoor and outdoor water safety is reviewed in this course.

301-4 Swimming Skills IV (1) UC:CSU

Prerequisite: Kinesiology 301-3.

LABORATORY, 3 HOURS.

This course helps prepare swimmers for the physical requirements of Advanced Life Saving and Water Safety instructor. Advanced techniques of swimming, terminology, and fluid mechanics in water are covered in this course. Swimming strokes include front crawl, back crawl, breaststroke, sidestroke, and butterfly. Racing starts, flip turns, dives, and touch turns are introduced on an advanced level. Advanced principles of training include: interval training concepts, increased yardage, and advance breathing techniques to build endurance. Indoor and outdoor water safety is reviewed in this course.

303 Aqua Aerobics (1) UC:CSU

LABORATORY, 3 HOURS.

This fitness conditioning class consists of a series of exercises and aerobic dance steps in conjunction with stretching and body dynamics to help promote cardiovascular and muscular fitness.

307 Swim and Run for Fitness (1) UC:CSU

LABORATORY, 3 HOURS.

This course develops cardiovascular conditioning and fitness through running and swimming laps. It enables students to gain awareness of the importance of proper running techniques/postural alignment, including progressive resistance training and conditioning for the purpose of training for a triathlon. Nutrition and concepts of fitness are also covered.

327 Lifelong Fitness Lab (1) UC:CSU

LABORATORY, 3 HOURS.

This course develops and encourages positive attitudes and habits with regards to cardiovascular efficiency, body composition, flexibility, muscular strength, and muscular endurance to achieve lifelong fitness. The students rotate through a series of weight training, core, and cardiovascular exercises in both anaerobic and aerobic training methods. Each student upon entry, is screened and assessed using a variety of physical fitness measuring techniques. The screening and assessment process is then repeated at the conclusion of the semester. This class also gives students the tools to achieve lifelong fitness and the techniques and knowledge to better prevent heart disease and diabetes.

328-1 Bicycle Spinning I (1) UC:CSU

LABORATORY, 3 HOURS.

This course develops and improves both cardiovascular endurance and leg strength through stationary bike workouts. Intensity of workouts vary. Resting and target heart rates are used to monitor improvements in the students' cardiovascular system.

328-2 Bicycle Spinning II (1) UC:CSU

Prerequisite: Kinesiology 328-1.

LABORATORY, 3 HOURS.

This course covers the intermediate principles designed to build on basic techniques from Bicycle Spinning I. Intervals, rolling hills, sprints, climbs, runs, and jumps challenges students to improve their cardiovascular system, help build leg strength, burn calories, and increase endurance.

328-3 Bicycle Spinning III (1) UC:CSU

Prerequisite: Kinesiology 328-2.

LABORATORY, 3 HOURS.

This course covers the advanced principles designed to build upon intermediate techniques from Bicycle Spinning II. Students participate in a variety of advanced rhythmic drills involving variable speed and resistance simulating rolling hills, sprints, climbs, runs, and jumps. Using high intensity interval training students improve their cardiovascular fitness, build muscular strength and endurance, and increase their resistance to fatigue.

330-1 Cardio Kickboxing I (1) UC:CSU

LABORATORY, 3 HOURS.

This course is designed to introduce the areas of cardiovascular efficiency by using basic kickboxing techniques. Students participate in low intensity kickboxing movements and work towards increasing fitness levels. It emphasizes proper alignment, execution, and timing of slower-paced movements from kickboxing, boxing, and aerobic dance.

330-2 Cardio Kickboxing II (1) UC:CSU

Prerequisite: Kinesiology 330-1.

LABORATORY, 3 HOURS.

This is the second level intermediate non-contact activity course designed to build on basic kicking and punching techniques from Cardio Kickboxing-1. New techniques and combinations are added to improve overall fitness including: Cardiorespiratory endurance, muscular strength and endurance, flexibility, body composition, aerobic dance, kickboxing, boxing, and execution.

330-3 Cardio Kickboxing III (1) CSU

LABORATORY, 3 HOURS.

This course covers the advanced principles designed to build on intermediate techniques from Cardio Kickboxing II. Knee and elbow strikes, kicking, punching, and defense positions to challenge students to improve their cardiovascular system, help build upper and lower body muscular strength, aid in calorie expenditure, and overall endurance. This is a non-contact activity course.

331-1 Cross Training I (1) UC:CSU

LABORATORY, 3 HOURS.

In this course, students learn a variety of cross training activities to achieve their personal fitness goals. The course includes lecture on nutrition, exercise physiology concepts, and participation in a workout designed to improve cardiovascular conditioning and body composition, increase muscle strength/endurance and flexibility.

333 Step Aerobics and Weight Training (1) UC:CSU

LABORATORY, 3 HOURS.

This course consists of a combination of strength training, the use of weight training machines, step aerobics, and low impact aerobics. These activities are utilized to gain fitness, emphasizing flexibility, muscular strength, and cardiovascular endurance.

334-1 Fitness Walking I (1) UC:CSU

LABORATORY, 3 HOURS.

In this course, students focus on achieving cardiovascular fitness and a healthy lifestyle through walking. Topics include basic fitness walking principles, proper technique, shoe selection, posture, gait, walking styles, flexibility, clothing, safety limitations, assessing fitness level, and the physical health benefits from walking.

335-1 Fitness and Weight Control I (1) UC:CSU

LABORATORY, 3 HOURS.

This course introduces students to healthy weight control strategies and an individualized approach towards exercise for lifelong fitness. Topics include assessing and improving fitness levels, developing a realistic exercise program, nutrient tracking, healthy meal choices, goal

setting, label reading, weekly weigh ins, and active lifestyle approaches that are involved in maintaining appropriate levels of fitness and weight control.

336-1 Zumba Fitness I (1) UC:CSU

LABORATORY, 3 HOURS.

This course enables the student to participate in basic Zumba group exercise that combines a fusion of high energy Latin and International music with unique moves and combinations. Zumba integrates some of the basic principles of aerobic, interval, and effective fitness resistance training to maximize caloric output, cardiovascular benefits, and total body toning. Zumba provides a non-intimidating opportunity for non-dancers to participate in a group aerobic class.

336-2 Zumba Fitness II (1) CSU

Prerequisite: Kinesiology 336-1.

LABORATORY, 3 HOURS.

This course enables the student to participate in intermediate Zumba group exercise that combines a fusion of high energy Latin and International music with unique moves and combinations. Zumba integrates principles of aerobic, interval, and effective fitness resistance training to maximize caloric output, cardiovascular benefits, and total body toning. Zumba provides a non-intimidating opportunity for non-dancers to participate in a group aerobic class.

337 Boot Camp II (1) UC:CSU

Prerequisite: Kinesiology 237.

LABORATORY, 3 HOURS.

This course is designed as a moderate intensity style boot camp class that is conducted both on and off campus using indoor and outdoor facilities. Training exercises used during this class includes basic aerobic and anaerobic conditioning, muscular strength, resistance and endurance training, and also individual and team concepts. In addition, students are challenged to understand and apply fitness principles, anatomy and physiology, the prevention of training injuries, target heart rate, and the intensity of exercise as well as nutrition for fitness. The students train individually, with a partner, or in a team setting.

338-1 Power Boxing I (1) UC:CSU

LABORATORY, 3 HOURS.

This beginning course is a high-intensity, full body workout that targets all of the major muscle groups. Training exercises are taught in intervals combining basic boxing combinations using punch pads, cardiovascular drills, along with body weight exercises. Students train individually, with a partner, and in a group setting.

338-2 Power Boxing II (1) UC:CSU

Prerequisite: Kinesiology 338-1.

LABORATORY, 3 HOURS.

This intermediate course is a high-intensity, full body workout that is designed to build on basic boxing techniques from Power Boxing I. New training exercises are taught in intervals combining intermediate boxing combinations using punch pads, high intensity cardiovascular drills, along with intermediate body weight exercises. New

techniques and combinations are added to improve overall fitness. Students train individually, with a partner, and in a group setting.

339-1 Spin & Sculpt I (1) UC:CSU

LABORATORY, 3 HOURS.

This course combines Indoor Cycling (AKA 'Bicycle Spinning') using the stationary bike with off-the-bike exercises for a full body workout. Students ride along to upbeat music as they burn a substantial amount of calories, lengthen and strengthen muscles, build core stability, tone biceps and triceps, and improve their cardiovascular health.

339-2 Spin & Sculpt II (1) CSU

LABORATORY, 3 HOURS.

This course covers the intermediate principles designed to build on basic techniques from Spin and Sculpt I. Intervals, rolling hills, sprints, climbs, runs, and jumps challenges students to improve their cardiovascular system, help build leg strength, aid in calorie expenditure, and increase endurance. Students participate in a variety of resistance training exercises using free weights and resistance bands off-the-bike to build muscular strength and endurance of most major muscle groups.

345 Body Dynamics Activity (1) UC:CSU

LABORATORY, 3 HOURS.

This course is designed to provide challenging fitness activity by combining strength exercises with endurance steps (rhythmical movements). Emphasis is placed on aerobics to significantly increase the efficiency with which oxygen is processed and delivered throughout the body.

346-1 Body Toning I (1) UC:CSU

LABORATORY, 3 HOURS.

This beginning body toning course enables students to gain awareness of the importance of exercise, including progressive resistance training, aerobic body conditioning and endurance training for the purpose of body shaping and toning muscles. In addition, students are challenged to understand and apply basic fitness principles, basic anatomy and physiology, the prevention of training injuries, as well as nutrition for fitness.

350-1 Weight Training I (1) UC:CSU

LABORATORY, 3 HOURS.

This course covers the basic principles of weight training. It develops a general program of progressive resistance exercises with adaptation and implication for the individual student. Attention is given to terminology, use of equipment, safety precautions, nutrition and weight control, and introductory factors of muscular anatomy and physiology.

350-2 Weight Training II (1) UC:CSU

Prerequisite: Kinesiology 350-1.

LABORATORY, 3 HOURS.

This course covers the intermediate principles of weight training for men and women. It develops a general program of progressive resistance exercises with adaptation and implication for the individual student. Attention is given to terminology, use of equipment, safety precautions, program development, fitness assessment, heavy rope training, care and prevention of injury, nutrition for fitness, steroid use, anatomy and physiology.

365-1 Introduction to Backpacking (1) UC:CSU

LABORATORY, 3 HOURS.

This course introduces the student to the fundamental techniques of backpacking. Conditioning, a survey of equipment, orienteering, hiking safety, first aid and campsite preparation will be covered. Field trips will be planned.

366-1 Badminton Skills I (1) UC:CSU

LABORATORY, 3 HOURS.

Students learn the basic fundamental skills and knowledge necessary to play badminton such as the serve, forehand, backhand, clear, drop, and smash shots. Also covered are singles and doubles strategy, along with the history of badminton, basic terminology, rules, and scoring. Safety and selection of equipment are included.

366-2 Badminton Skills II (1) UC:CSU

Prerequisite: Kinesiology 366-1.

LABORATORY, 3 HOURS.

In this course, students learn intermediate skills and knowledge necessary to play badminton such as cross court, down the line and reverse cross-court clears; at the net, from the back court, and from the mid-court drops; and forehand and backhand service. The course also covers offensive and defensive techniques of the smash as well as training drills, agility, endurance, and court coverage for competitive play.

370 Table Tennis (1) UC:CSU

LABORATORY, 3 HOURS.

This course offers instruction and practice in fundamental table tennis skills, basic techniques, rules, strategies, and competition.

371-1 Tennis I (1) UC:CSU

LABORATORY, 3 HOURS.

This class is designed to teach the basic fundamental skills and knowledge necessary to play tennis such as the forehand, backhand, serve and volley, both in singles and doubles play. This course also introduces the selection and care of equipment, rules, proper etiquette, terminology, positioning and strategies of the game, and the components of fitness.

386-1 Baseball I (1) UC:CSU

LABORATORY, 3 HOURS.

This course introduces basic drills to create beginning skills, and understanding of terminology, and rules of baseball. Drills, safety, and repetition are the primary focus in the areas of throwing, catching, and baserunning.

386-2 Baseball II (1) UC:CSU

Prerequisite: Kinesiology 386-1.

LABORATORY, 3 HOURS.

This course is a second-level baseball class that gives instruction on intermediate baseball skills, techniques, rules, and game strategies. Students are required to compete in scrimmage situations against local community college teams. This course is designed for prospective intercollegiate baseball players.

387-1 Basketball I (1) UC:CSU

LABORATORY, 3 HOURS.

This course is designed to teach basic basketball skills. It not only emphasizes fundamental basketball skills such as dribbling, passing, and shooting but it also includes the selection and care of equipment, rules, offense and defensive strategy, etiquette, terminology, and the components of fitness.

387-2 Basketball II (1) CSU

Prerequisite: Kinesiology 387-1

LABORATORY, 3 HOURS.

In this course, students practice, at an intermediate level, the fundamental skills of basketball (dribbling, shooting, rebounding, and passing) and improve their ability to perform these skills under game conditions. They learn how to be contributing team members on offense and defense by setting screens, playing various zone defenses, and running a half-court press.

388 Flag Football (1) UC:CSU

LABORATORY, 3 HOURS.

This course is designed to provide weekly participation in vigorous physical activity involving group work in flag football techniques, terminology, rules, and regulations.

389-1 Soccer I (1) UC:CSU

LABORATORY, 3 HOURS.

This course is designed to teach students the basic soccer skills of passing, dribbling, shooting, and goalkeeping. The course also introduces basic theories of individual and team offense and defense, as well as the Laws of the Game, proper etiquette, terminology, and the components of fitness. Students learn proper soccer techniques with practice skills and feedback.

390-1 Softball I (1) UC:CSU

LABORATORY, 3 HOURS.

This course introduces basic softball drills to create fundamentals, game terminology, and introduce the rules of softball. Drills, safety, and repetition are the primary focus in the areas of throwing, catching, and base running. Skill assessments and a written final exam serve to evaluate student achievement.

390-2 Softball II (1) UC:CSU

Prerequisite: Kinesiology 390-1

LABORATORY, 3 HOURS.

This course is a second-level softball class that gives instruction on advanced softball skills, techniques, rules, and game strategies. Students are required to compete in scrimmage situations against local junior college teams. This course is designed for prospective intercollegiate softball players.

391-1 Volleyball I (1) UC:CSU

LABORATORY, 3 HOURS.

This course in introductory volleyball is designed to teach the basic volleyball skills of passing, setting, spiking, serving, and blocking. The course introduces individual and team offense and defense systems, as well as the rules, etiquette, terminology, and strategies for volleyball.

185 Directed Study - Kinesiology (1) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

This course allows a student to improve fitness skills, and/or practice a specific activity independently with the guidance of his or her instructor. The student signs a contract which specified the exact expectation of the instructor for the student.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC does not grant credit for variable topics courses in Kinesiology because of credit restrictions in this area.

Kinesiology Athletics (Intercollegiate Athletics) (KIN ATH)

Note: Passing grade in 12 units is required for eligibility.

Note: Passing grade in 24 units is required for second-year competition eligibility.

Courses listed below provide the opportunity to participate in intercollegiate athletics, involving varsity competition in a recognized intercollegiate Conference and in state competition when appropriate. Participation in intercollegiate sports requires concurrent enrollment in not less than 12 units of college work and a minimum of a 2.0 GPA.

502 Intercollegiate Sports - Badminton (3) UC:CSU RPT3

LABORATORY, 10 HOURS.

This course offers instruction in the intermediate and advanced techniques of badminton. The opportunity to learn strategies and the finer points of doubles and singles play is provided. Rigorous physical conditioning skills, practice and intercollegiate competition is a part of the course activities.

503 Intercollegiate Athletics - Baseball (3) UC:CSU RPT3

LABORATORY, 10 HOURS.

This course is for the intercollegiate baseball team. It offers advanced baseball skills and techniques. It provides an opportunity to learn the fine skills and strategies needed to compete at the collegiate level. The course also provides additional exposure to students interested in articulating to four-year colleges or professional baseball programs.

504 Intercollegiate Athletics - Basketball (3) UC:CSU RPT3

LABORATORY, 10 HOURS.

This is the intercollegiate basketball team course. This course is designed to develop individual and team skills in basketball so that the student can compete on the intercollegiate level. Basketball theory, strategies, offense, defense, ball-handling skills and playing experience are emphasized. This course requires intercollegiate basketball competition.

506 Intercollegiate Athletics - Cross Country (3) UC:CSU RPT3

LABORATORY, 10 HOURS.

This is the intercollegiate cross country team course. It includes endurance workouts, speed training, hill training, and weight training. Nutritional concepts are discussed, as well as psychological preparation. This course requires the student athletes to compete as a member of the cross country team.

508 Intercollegiate Athletics - Football (3) UC:CSU RPT3

LABORATORY, 10 HOURS.

This course offers instruction in the intermediate and advanced techniques of football. The opportunity to learn strategies and the finer points of offensive and defensive play is provided. Rigorous physical conditioning skills, practice and intercollegiate competition is a part of the course activities.

511 Intercollegiate Athletics - Soccer (3) UC:CSU RPT3

LABORATORY, 10 HOURS.

This course concentrates on the theory, techniques, and practice of intercollegiate soccer. Conditioning and preparing for intercollegiate competition will assist in the development of advanced play skills and knowledge of soccer.

512 Intercollegiate Athletics - Softball (3) UC:CSU RPT3

LABORATORY, 10 HOURS.

This course offers instruction in the intermediate and advanced techniques of softball. The opportunity to learn strategies and the finer points of offensive and defensive play is provided. Rigorous physical conditioning skills, practice and intercollegiate competition is a part of the course activities.

513 Intercollegiate Athletics - Swimming and Diving (3) UC:CSU RPT3

LABORATORY, 10 HOURS.

Intercollegiate Athletic competitive swimming and diving team course for eligible athletes. Instruction, demonstration and practice of fundamental and advanced swimming and diving techniques, including starts, turns, stroke technique, breathing, interval training and intercollegiate competition.

515 Intercollegiate Athletics - Track and Field (3) UC:CSU RPT3

LABORATORY, 10 HOURS.

This course includes the theory, technique, and practice of intercollegiate track and field competition. Conditioning, event techniques, and preparing for competition in regularly scheduled track meets are emphasized.

516 Intercollegiate Athletics - Volleyball (3) UC:CSU RPT3

LABORATORY, 10 HOURS.

This course is the intercollegiate volleyball team course. In this course, students learn fundamental, intermediate, and advanced principles, theories, and skills of volleyball and practice volleyball skills, including setting, spiking, passing, and offensive and defensive strategies while participating in intercollegiate competition.

517 Intercollegiate Athletics - Water Polo (3) UC:CSU RPT3

LABORATORY, 10 HOURS.

This course is designated for the Intercollegiate Water Polo team and requires participation in intercollegiate water polo games as a member of the college team. The course covers fundamental and advanced principles/theories of water polo techniques, including instruction, demonstration, and practice of swimming, eggbeater kick, offense, defense, counter attack, and man up and man down situations as well as strategies and game play.

518 Intercollegiate Athletics - Wrestling (3) UC:CSU RPT3
LABORATORY, 10 HOURS.

This course is the intercollegiate wrestling course. The course offers instruction in intermediate and advanced techniques of wrestling and the opportunity to learn strategies and the finer points of wrestling. Rigorous physical conditioning skills, practice, and participation in intercollegiate competition are part of the course activities.

551 Intercollegiate Football - Offensive Techniques (1) UC:CSU RPT3

LABORATORY, 3 HOURS.

This course is designed for the student-athlete and provides knowledge specifically for offensive techniques for football with emphasis on offensive skills, fundamentals, data input, and offensive philosophy. The student also learns new rules and strategic plays necessary for competition at advanced levels.

552 Intercollegiate Sports - Conditioning & Skills Training (1) UC:CSU RPT3

LABORATORY, 3 HOURS.

This course is designed for the student athlete. The following areas are emphasized: The analysis and training of athletic skills, the analysis of offensive and defensive systems, physical conditioning, strength training, and aerobic conditioning.

553 Intercollegiate Football - Fitness & Skills Training (1) UC:CSU RPT3

LABORATORY, 3 HOURS.

This course is designed for the student athlete and provides an advanced strength and conditioning program specific to football with emphasis on skills, fundamentals, injury prevention, and safety. The student also learns new rules and strategic plays necessary for competition at advanced levels.

556 Intercollegiate Basketball - Fitness & Skills Training (1) UC:CSU RPT3

LABORATORY, 3 HOURS.

This course is designed for the student athlete and provides an advanced strength and conditioning program specific to basketball with emphasis on skills, fundamentals, injury prevention, and safety. The student also learns strategic play necessary for competition at advanced levels.

557 Intercollegiate Baseball - Fitness & Skills Training (1) UC:CSU RPT3

LABORATORY, 3 HOURS.

This course is designed for the student athlete and provides an advanced strength and conditioning program specific to baseball, emphasizing injury prevention and safety. The goal of this class is to improve general fitness and strength and to increase explosiveness and speed. The student athlete also learns strategic plays necessary for competition at advanced levels.

558 Intercollegiate Soccer - Fitness & Skills Training (1) UC:CSU RPT3

LABORATORY, 3 HOURS.

This course is designed for the student athlete and provides an advanced strength and conditioning program

specific to soccer with emphasis on skills, fundamentals, injury prevention, and safety. The student also learns strategic play necessary for competition at advanced levels.

563 Intercollegiate Volleyball - Fitness & Skills Training (1) UC:CSU RPT3

LABORATORY, 3 HOURS.

This course is designed to provide focused strength and conditioning exercises necessary to compete at an advanced level of volleyball competition and to emphasize safety and injury prevention. New rules and movement for volleyball are presented. Cardiovascular endurance, muscular strength, and flexibility are achieved through plyometric, isometric, and power exercises.

564 Intercollegiate Softball - Fitness & Skills Training (1) UC:CSU RPT3

LABORATORY, 3 HOURS.

This course is designed for the student athlete and provides an advanced strength and conditioning program specific to softball, emphasizing injury prevention and safety. The goal of this class is to improve general fitness and strength and to increase explosiveness and speed. The student also learns strategic plays necessary for competition at advanced levels.

565 Intercollegiate Badminton - Fitness & Skills Training (1) UC:CSU RPT3

LABORATORY, 3 HOURS.

This course is designed for the out of season badminton student-athlete. This course provides an advanced strength and conditioning program specific to badminton with emphasis on skills, fundamentals, injury prevention and safety. The student also learns intense strategic plays necessary for competition at advanced levels.

571 Intercollegiate Cheerleading - Fitness & Skills Training (1) UC:CSU RPT3

LABORATORY, 3 HOURS.

This course is designed for members of the ELAC cheerleading team and develops knowledge and provides skills to condition the body for cheer. In addition to exploring various conditioning programs, it offers an opportunity to enhance cheerleading techniques.

Kinesiology Majors (KIN MAJ)

CLASSES OPEN TO ALL STUDENTS AS WELL AS PHYSICAL EDUCATION MAJORS.

100 Introduction to Physical Education

(3) UC:CSU (C-ID KIN 100)
(UC Credit Limit: Maximum credit 8 units).

LECTURE, 3 HOURS.

This course surveys the significance of Physical Education in school programs, analyzes established standards of professional ethics, and reviews personal interests and qualifications necessary for successful leadership in this field. Emphasis is placed on career opportunities, history, philosophy, current trends, and curriculum development.

103 Introduction to Coaching Athletics (3) UC:CSU
(UC Credit Limit: Maximum credit 8 units).

LECTURE, 3 HOURS.

This course presents a comprehensive study of the organization and techniques of coaching athletic activities. Topics include facilities, management, budget, coaching techniques, philosophies, and administration.

104 Officiating Competitive Sports I (2) UC:CSU
(UC Credit Limit: 8 units from KIN MAJ 103, 104, 105, 128, 129).

LECTURE, 1 HOURS; LABORATORY, 2 HOURS.

This course includes the theory, practice, and techniques of officiating various activities in the sports of football, basketball, soccer, cross country, water polo, and other fall sports.

106 Sports Ethics (3) UC:CSU

LECTURE, 3 HOURS.

This course addresses a wide range of moral and ethical issues in sports. Topics include values, principles, racial and gender equity, coaching, commercialization, enhancing stimulants and eligibility, violence, sportsmanship and Code of Ethics in sports. Discussions include perspectives on the ethical issues facing athletes today in youth sports, intercollegiate athletics, Olympic sports, and professional sports.

109 Women in Sport (3) UC:CSU

LECTURE, 3 HOURS.

This course provides students with a chronological history, analysis and interpretation of people, events, and issues that affect women in sports. Physiological, sociological, and psychological aspects of female athletes, as related to all areas of sports, are covered. Students gain an understanding of the significant events of women in athletics from the past to the present and how their significance determines the future of women in sports.

113 Exercise Testing & Prescription (2) CSU

LECTURE, 2 HOURS.

This course covers the importance of fitness assessments and how assessment relates to overall program development. Topics include: Assessment of cardio-respiratory endurance, body composition fat analysis, evaluation of muscular strength and endurance, evaluating flexibility, measuring heart rate and blood pressure techniques, and evaluation of exercise test results. Additional topics include: Risk factor evaluations, development of individual exercise programs, factors influencing exercise programs, and the ethics of exercise testing.

114 Techniques of Instruction: Group Fitness (2) CSU

LECTURE, 1 HOUR; LABORATORY, 1 HOUR.

This course provides an introduction to the art and science of group exercise instruction and emphasizes designing and delivery of safe and effective exercise classes. In this course students learn how to teach group exercise classes with the emphasis on how to design a physiologically safe and effective group fitness exercise class which includes: Fundamentals of group exercise, primary components of group exercise, and group exercise modalities.

115 Techniques of Instruction: Strength Training (2) CSU

LECTURE, 1 HOUR; LABORATORY, 1 HOUR.

This course covers how to teach a variety of strength training techniques and activities to individuals and groups. It studies methods to teaching strength training, equipment, safety factors, principles of strength training, speed and agility training, and basic anatomy and physiology as it applies to strength training. It includes the development of strength training exercises for each body part and program designs.

116 Introduction to Exercise Physiology (3) CSU

LECTURE, 3 HOURS.

This course examines how the body functions under conditions of exercise stress. It covers the fundamentals of human movement and anatomy, the practical applications of muscle function, cardio-respiratory testing and functions, principles of exercise, training techniques, energy metabolism, and the effect of environmental conditions on exercise.

117 Personal Trainer Instructor (3) CSU

LABORATORY, 3 HOURS.

This course is designed to give students the knowledge and understanding necessary to prepare for the Personal Trainer Certification Exam and become effective personal trainers. This is a comprehensive course for designing individualized programs based on each client's unique health, fitness, and goals. The information covered by this course helps students learn how to facilitate rapport, adherence, self-efficacy and behavior change in clients, as well as design programs that help clients to improve posture, movement, flexibility, balance, core function, cardiorespiratory fitness, and muscular endurance and strength.

118 Sports Nutrition (2) CSU

LECTURE, 2 HOURS.

This course is designed to present the principles, background, and rationale for current nutrition guidelines specifically for athletes. Using a physiological basis, this course provides an in-depth look at the science behind sport nutrition and students develop an understanding of nutrition as it relates to sport and the influence of nutrition on exercise performance, training and recovery. Areas of focus include: effects of nutrition on training adaptations, weight management and body composition for athletes, recommendations for carbohydrate intake during training, the role of protein in strength and endurance training, how supplements are used in an athletes' diet, how to balance energy and the role of electrolytes and nutrition for special populations and the immune function.

125 Introduction to Physical Therapy Aide (3)

LECTURE, 3 HOURS.

This comprehensive introduction to Physical Therapy Aide course prepares students for the growing field of Physical Therapy. This course is designed to give students the knowledge and understanding necessary for gaining employment as a Physical Therapy Aide in environments such as hospitals, nursing homes, private practices, rehabilitation centers, and sports medicine clinics. Students learn how to prepare treatment areas, transport patients, and complete administrative tasks.

128 Care and Prevention of Athletic Injuries (3) UC:CSU (UC Credit Limit: 8 units from KIN MAJ 103, 104, 105, 128, 129).

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course teaches the principles, techniques, and ethics used by the athletic trainer in the care and prevention of athletic injuries. The scope of this class includes identification of common athletic injuries, their causes and preventative measures, first aid treatment, and associated follow-up care.

129 Advanced Care and Prevention of Athletic Injuries (3) UC:CSU

(UC Credit Limit: 8 units from KIN MAJ 103, 104, 105, 128, 129).

Prerequisite: Kinesiology Majors 128.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course teaches advanced understanding and illustration of the care and prevention of athletic injuries. It encompasses advanced aspects of identifying common athletic injuries, emergency treatment, preventive measures, and associated follow-up care using advanced rehabilitation techniques.

130 Sports Medicine Clinic Practicum (2) CSU

LECTURE, 1 HOUR; LABORATORY, 3 HOURS.

This course provides experience in the administration of management, prevention, and treatment of athletic injuries. The content of This course includes dramatizing the procedures for the evaluation of sports-related injuries. This hands-on course enables students to practice and be evaluated on their ability, skill, and knowledge of sports-related injuries.

131 Kinesiology Internship Experience (1) CSU

LECTURE, 0.5 HOUR; LABORATORY, 0.5 HOUR.

This course provides Kinesiology students a structured internship and opportunity for employment off-campus under the supervision of a faculty member within the Kinesiology Department. Internships enable students to develop an understanding and working knowledge of actual operations, events, planning, and management within the career fields of Kinesiology. The internship experience is an essential component in a student's course of study designed to facilitate the integration of theoretical, applied, and academic subject matter in the field.

134 Advanced Lifesaving (2) UC:CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This class provides training in and the opportunity to get certified in the latest Red Cross Lifeguarding program. The Red Cross Lifeguarding certificate includes training in cardiopulmonary resuscitation (CPR), first aid, automated external defibrillator (AED), oxygen administration, and lifeguard management materials.

135 Water Safety Instruction (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This American Red Cross water safety instructor certification course teaches individuals how to instruct students in all levels of swimming and water safety skills. An American Red Cross-Water Safety Instructor certificate is granted upon the successful course completion and qualifying physical exam.

SUBJECTS & COURSE DESCRIPTIONS

Library Science (LIB SCI)

101 College Research Skills (1) UC:CSU

LECTURE, 1 HOUR.

This is a practical course in college level research using academic libraries and related information sources. Students develop strategies to find, organize, evaluate, and cite various print and online sources effectively and ethically. These skills help students become strong researchers and life-long learners.

Life Sciences Department

G5-211 (323) 265-8877

Advances in biotechnology, medical science, and scientific research are progressing rapidly. New discoveries, new inventions, new treatments are continually being developed. In this fast changing world, it is important to be able to keep pace. However, before entering such an environment, it is important to first start with the basics. The Life Science Department at ELAC offers courses designed to teach the fundamentals of Anatomy, Biology, Biotechnology, Microbiology, and Physiology. These courses provide the foundation to succeed in any life science field. Students that complete these courses gain knowledge and skills necessary to pursue health, technology, and research careers.

The Life Sciences Department offers an assortment of courses designed to help students transfer to university as STEM majors. ELAC offers Associate of Science: Transfer degrees in Biology and in Public Health. Upon completion of the common core and lower division courses, these degrees allow for streamlined transfer to universities. The courses in Life Sciences are also designed to help students apply to professional schools in Allied Health. Students complete their prerequisites for programs such as: Nursing, Pharmacy, Physician's Assistant, Optometry, Nurse Practitioner, etc. Graduates of the degree and certificate programs can work as technicians in medical, dental, research and industrial laboratory settings. The Health Science Certificate signifies completion of standard competencies to find employment as a nursing assistant or aide. The Biotechnology Certificate provides the technical skills and basic understanding to seek entry-level positions in biomanufacturing and pharmaceutical industries.

The Life Sciences Department strives to provide the most current, accurate, and practical educational experiences for all types of students at ELAC. The goal is that all students, even those who do not major in STEM, receive a high-quality education to succeed in their life goals.

CERTIFICATE OF ACHIEVEMENT

Satisfactory completion of all courses with a "C" or better is required for all Certificates of Achievement.

Biotechnology

The Biotechnology Certificate of Achievement program prepares individuals seeking careers in the life sciences/biotechnology sector. The program is highly hands-on, promotes teamwork, and trains students with analytical, practical, and communication skills that parallel the industry environment, enabling them to think critically and solve on-the-job problems. Employment opportunities include

positions such as biological technicians, quality control analysts, manufacturing production technicians, inspectors, testers.

ASSOCIATE DEGREE PROGRAMS

Environmental Studies: Biology, Associate in Arts Degree

The Environmental Studies: Biology Program is an interdisciplinary and multidisciplinary course of study that presents an overview of environmental biology issues and studies the interrelationship between biology and the environment. The curriculum prepares students to deal with the complex environmental problems that confront society by providing a broad, basic understanding of how physical, biological and human components of the environment interact. The degree's core courses examine the relationship between nature and social systems. Furthermore, they introduce students to the interplay between natural and social systems, and the ideological foundations of humankind's attitudes and behaviors with respect to their ever-changing environments. The courses are designed to equip students with necessary lab skills that involve the scientific method, and the critical understanding of the interrelationship between science and nature; helping students to be more avid in the studying and solving of environmental problems that deal with biological science matters. Specifically, this program uses an interdisciplinary approach to introduce students to an overview of environmental biology issues from a variety of perspectives; preparing students to research, analyze, and propose solutions to the different and intricate environmental challenges that the world may face.

*This course has a prerequisite.

Associate in Science in Biology for Transfer

The Associate of Science in Biology for Transfer degree (AS-T in Biology), offered by the Life Sciences Department, is intended for students who plan to transfer and complete a Bachelor's degree in Biology at a California State University (CSU) campus. Curriculum requirements for the AS-T in Biology prepare students to evaluate living systems to address contemporary issues.

To earn the AS-T in Biology, students must complete the following:

- Completion of 60 semester units or 90 quarter units of degree-applicable courses,
- Minimum overall grade point average of 2.0,
- Minimum grade of "C" (or "P") for each course in the major, and
- Completion of IGETC for STEM and/or CSU GE-Breadth for STEM.

Students are strongly encouraged to consult with a counselor for more information regarding university admission and transfer requirements, as this AS-T in Biology may not be the best option for students intending to transfer to a particular CSU campus or to a college or university that is not part of the CSU system.

Required Core Courses

SUBJECT & NO.	COURSE	UNITS
BIOLOGY 6*	General Biology I.....	5
BIOLOGY 7*	General Biology II.....	5
<i>Subtotal.....</i>		<i>10</i>
LIST A		21-22
CHEM 101*	General Chemistry I.....	5
CHEM 102*	General Chemistry II.....	5
MATH 261*	Calculus I.....	5
PHYSICS 101*	Physics for Engineering Scientists I.....	5
AND		
PHYSICS 102*	Physics for Engineering Scientists II.....	5
OR		
PHYSICS 6*	General Physics I.....	4
AND		
PHYSICS 7*	General Physics II.....	4
COMPLETE ADDITIONAL CSU UNITS, IF NEEDED, TO REACH 60 CSU TRANSFERABLE		

UNITS

<i>IGETC for STEM or CSU GE for STEM</i>	
<i>Total</i>	60

Note: 9-10 units of major courses may be double counted in LACCD General Education requirements.

Note: *IGETC for Stem or CSU GE for Stem requires only 6 units in the Arts and Humanities (IGETC Area 3 or CSU GE Area C), and only 6 units in the Social and Behavioral Science (IGETC Area 4 or CSU Area D). Please refer to pages 90 and 92 for more information.*

Note: *Students who have already completed PHYSICS 1 and PHYSICS 3 may substitute these courses for PHYSICS 101 and PHYSICS 102.*

**This course has a prerequisite.*

Associate in Science in Public Health Science for Transfer

The Associate of Science in Public Health for Transfer (AS-T) degree offered, by the Life Science Department, is intended for students who plan to transfer and complete a Bachelor's degree in Public Health Science or a related field at a California State University (CSU) campus. Curriculum requirements for the AS-T in Public Health Science will prepare students for careers in public health by exposing them to epidemiology, the study of the distribution and determinants of disease and other health issues, and contemporary health issues such as emerging diseases, the impact of an ageing population in the community, and the costs of health care.

To earn the AS-T in Public Health Science, students must complete the following:

- Completion of 60 semester units or 90 quarter units of degree-applicable courses,
- Minimum overall grade point average of 2.0,
- Minimum grade of "C" (or "P") for each course in the major, and
- Completion of IGETC and/or CSU GE-Breadth.

Students are strongly encouraged to consult with a counselor for more information regarding university admission and transfer requirements, as this AS-T in Public Health Science may not be the best option for students intending to transfer to a particular CSU campus or to a college or university that is not part of the CSU system.

SUBJECTS & COURSE DESCRIPTIONS

Anatomy (ANATOMY)

1 Introduction to Human Anatomy (4)

UC:CSU IGETC Area 5B (C-ID BIOL 110B)

(UC Credit Limit: *Anatomy 1 + Physiology 1 combined is equivalent to Biology 20, maximum credit 8 units.*)

Advisory: Health Information Technology 133 or Biology 3.

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This course examines cells, tissues, and organs of these human systems: Integumentary, skeletal, muscular, nervous, circulatory, respiratory, digestive, urinary, endocrine, lymphatic, and reproductive. Dissection of the cat and other mammalian organs are used in conjunction with human models in the study of human anatomy.

Biology (BIOLOGY)

3 Introduction to Biology (4) UC:CSU IGETC Area 5B, 5C

(UC Credit Limit: *No credit for Biology 3 or 25 if taken after Biology 6.*)

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

Introductory organismal plant and animal biology for non-majors with an emphasis on scientific methodology and basic biological principles. Topics include basic inorganic, organic and biochemical principles, structure and function of bacteria, plant and animal cells and tissues, energy systems of photosynthesis and respiration, cellular division, genetics and inheritance including Mendelian Punnett square problem solving, its application to normal and abnormal human genetic conditions, evolution and classification of bacteria, viruses, protist, fungi, plants and animals, diversity, behavior, and ecology of communities. The anatomy and physiology of plant and animal systems, development, growth and reproduction, transport systems, nutrition, and immunity are emphasized.

6 General Biology I (5) UC:CSU IGETC Area 5B, 5C (C-ID BIOL 190)

(UC Credit Limit: *No credit for Biology 3 if taken after Biology 6.*)

Prerequisite: Chemistry 65 and Mathematics 125 or 125S or 134.

LECTURE, 3 HOURS; LABORATORY, 7 HOURS.

This course is the first semester of general introduction to biological principles designed for biology majors. Lecture focuses on concepts which are common to all biological organisms. Biological molecules, cell structure

and function, bio-energetics, molecular and organismal genetics, evolution, and biosystematics are discussed. Laboratory includes exercises illustrating lecture principles and procedures used in modern biotechnology. An additional hour is required which covers some of the tools necessary to becoming a professional biologist. Included is the writing of a curriculum vitae, writing of scientific papers, and scientific literacy.

7 General Biology II (5) UC:CSU IGETC Area 5B, 5C (Biology 6 + 7 = C-ID BIOL 135S)

(UC Credit Limit: No credit for Biology 3 if taken after Biology 6).

Prerequisite: Biology 6.

LECTURE, 3 HOURS; LABORATORY, 7 HOURS.

This course is a general introduction to the principles of organismal biology. The diversity of bacteria, protists, fungi, plants and animals, plant and animal anatomy and physiology, and ecology are covered. This major course is a continuation of Biology 6.

9 Human Ecology

(3) UC:CSU IGETC Area 5B

LECTURE, 3 HOURS.

This course utilizes basic biological concepts in an interdisciplinary approach to address environmental challenges. Topics addressed may include ecosystem characteristics and functions, population dynamics, energy and material resource use, and pollution and alternative energy sources.

20 Human Anatomy and Physiology (8)

UC:CSU IGETC Area 5B, 5C (C-ID BIOL 115BS)

(UC Credit Limit: Biology 20 is equivalent to Anatomy 1 and Physiology 1 combined, maximum credit 8 units).

Prerequisite: Chemistry 51 or 65.

Advisory: Biology 3.

LECTURE, 6 HOURS; LABORATORY, 6 HOURS.

This course integrates the fundamentals of human anatomy with the fundamentals of cellular and organ system physiology. Instruction and laboratory procedures (observation, experimentation, and dissection) are designed to provide a solid foundation in the anatomy, histology, and physiology of the organ systems of the human body.

22 Marine Biology (4) UC:CSU IGETC Area 5B, 5C

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

In this course, major principles of biology are studied in relation to marine organisms. Students examine abiotic and biotic factors contributing to marine biodiversity and adaptations. Interactions of marine organisms within and between communities are examined. Human impact on the marine environment is assessed, and mitigation and conservation strategies discussed.

25 Human Biology (3) CSU

LECTURE, 3 HOURS.

In this survey course for the nonscience major, students explain the principle human organ systems according to structure and function and examine the problems of diseases, pollution, population control, and preservation of the natural environment.

40 The Science of Biotechnology

(4) UC:CSU IGETC Area 5B, 5C

Prerequisites: Biology 6.

LECTURE, 3 HOUR; LABORATORY, 3 HOURS.

This course provides a comprehensive introduction to the science of biotechnology by providing both theory and hands-on experience with laboratory protocols that include the isolation, purification, and cloning of a gene. Students analyze the principles of gene cloning and other applications of DNA technology, including the use of restriction enzymes, electrophoresis, blotting, hybridization, and sequencing. Polymerase chain reaction is explained in detail and how it has revolutionized research in molecular biology, medicine, forensics, and systematics.

46 Genetic Analysis (3) UC:CSU IGETC Area 5B

Prerequisite: Biology 6.

LECTURE, 3 HOURS.

This course is designed for Life Science majors as a continuation of their general biology studies. It provides a comprehensive introduction to genetic analysis examining topics such as chromosome analysis, population genetics, and genomics.

51 Introduction to Public Health for Scientists and Health Professionals (3) CSU

LECTURE, 3 HOURS.

This course provides an introduction to the discipline of Public Health for scientists and health professionals. Students gain an understanding of the basic concepts and terminology of public health, and the history and accomplishments of public health officials and agencies. An in-depth examination of the core public health disciplines is covered along with epidemiology of infectious and chronic disease; prevention and control in the community.

185 Directed Study - Biology (1) CSU

285 Directed Study - Biology (2) CSU

385 Directed Study - Biology (3) CSU

Note: Concurrent enrollment in a biological science course or demonstration of comparable skills.

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses provide an opportunity for students to gain additional experience in laboratory skills and applications of biological science concepts and principles on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Biotechnology (BIOTECH)

100 Foundations of Laboratory Science (4)

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This course provides both theoretical and practical use of foundational concepts directly required in laboratory science, including discussions on good laboratory practice

(GLP), good clinical practice (GCP), and good manufacturing practice (GMP). The laboratory component provides the skills to solution and media preparation, which is achieved through calculating, assembling, and performing proper laboratory techniques. Other laboratory skills include growing, maintaining, staining, and identifying the morphology of bacteria, in which aseptic techniques are emphasized. The application of industry standard communication protocols, Food and Drug Administration (FDA) regulations, and Standard Operating Procedures (SOP) in the laboratory makes it easier for students to transition into the workforce as a laboratory technician.

101 Biological Molecules: Proteins and Nucleic Acids (5)

Prerequisite: Biotechnology 100.

LECTURE, 4 HOURS; LABORATORY, 2 HOURS.

This course focuses on protein and nucleic acid chemistry. Techniques include protein isolation, purification and characterization, protein assays, immunoassay: Enzyme-Linked Immunosorbent Assay (ELISA), Western Blot, Sodium Dodecyl Sulfate Polyacrylamide (SDS-PAGE), gel-filtration chromatography, isoelectric focusing (IEF), agarose gel electrophoresis, recombinant DNA technology, and Polymerase Chain Reaction (PCR) technology.

102 Cell Culture (4)

Prerequisite: Biotechnology 100.

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This course provides an introduction to techniques for culturing cells, including media preparation, sterile technique, freezing, thawing, subculturing, and maintaining cells. Theory includes the selection of media, maintaining sterile conditions, and preventing contamination. Practical experience includes the proper use and care of equipment for culturing cells. Stem cell technology is also examined.

103 Chromatography and Biomanufacturing (5)

Prerequisite: Biotechnology 101.

LECTURE, 4 HOURS; LABORATORY, 2 HOURS.

This course provides fundamental concepts and techniques to separate and analyze chemical mixtures, such as biomolecules. The lecture includes topics on Thin Layer Chromatography (TLC), High Performance Liquid Chromatography (HPLC), Gas Chromatography Mass Spectrometry (GC-MS), Liquid Chromatography Mass Spectrometry (LC-MS), Ion Exchange Chromatography, Affinity Chromatography, and Size-Exclusion Chromatography. The laboratory focuses on Thin Layer Chromatography (TLC), Ion Exchange Chromatography, Affinity Chromatography, and Size-Exclusion Chromatography, High Performance Liquid Chromatography (HPLC), Gas Chromatography Mass Spectrometry (GC-MS), and Liquid Chromatography Mass Spectrometry (LC-MS) to separate and analyze chemical mixtures.

Emergency Department Assistant (EDA)

9 Emergency Department Assistant/First Responder/Emergency Medical Responder Program (4)

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This training program provides a basic foundation in emergency medical lifesaving procedures. The major portion of

this program is directed towards the standardization of the training for emergency service personnel/first responders/emergency medical responders and those individuals requiring knowledge of effective lifesaving principles and procedures.

Microbiology (MICRO)

1 Introductory Microbiology (5) UC:CSU IGETC Area 5B, 5C (*UC Credit Limit: Maximum credit 1 course from Microbiology 1 and 20*).

Prerequisites: Biology 3 or Biology 6 and Chemistry 65 or Chemistry 101.

LECTURE, 3 HOURS; LABORATORY, 6 HOURS.

This is an introductory microbiology course developed to prepare students for careers in biological sciences, medicine, dentistry, and allied health professions. This course explores the early history of microbiology, microbial classification, morphology, physiology, and genetics. Emphasis is given to host-and pathogenic microbe interactions, immunology, virology, and on the effects of physical and chemical agents on microorganisms. Attention is also given to the microbiology of the air, water, soil, and milk and dairy products. The laboratory emphasizes fundamental microbiological techniques, concepts, and applications as well as current molecular diagnostic methods in microbial genetics and immunology.

20 General Microbiology (4) UC:CSU IGETC Area 5B, 5C (*UC Credit Limit: Maximum credit 1 course from Microbiology 1 and 20*).

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This course is the study of microorganisms, including their discovery, morphology, metabolism, genetics, growth requirements, and most importantly, their roles in infectious diseases. This course is recommended for nursing and allied health students. Other major topics covered are virology, immunology, and methods of control of microorganisms. The labs include microscopy, aseptic technique in the handling of bacteria, and isolation, cultivation, staining, identification, and control of bacterial populations.

Physiology (PHYSIOL)

1 Introduction to Human Physiology (4)

UC:CSU IGETC Area 5B, 5C (C-ID BIOL 120B)

(UC Credit Limit: Physiology 1 and Anatomy 1 combined is equivalent to Biology 20, maximum credit 8 units).

Prerequisites: Anatomy 1 and one of the following - Chemistry 51, 65, 101, 102, 211, 212

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This course is the study of the functions of the body. It covers all major systems of the body including the nervous, musculo-skeletal, circulatory, respiratory, digestive, urinary, endocrine, and reproductive systems. Emphasis is given to the interactions and integration of multi-systems which are required to maintain homeostasis which is essential for life. Microscopic examination of selected organs and tissues, as well as laboratory measurements of physiological functions are covered during the laboratory sessions.

6 Anatomy and Physiology (6) CSU

LECTURE 4 HOURS; LABORATORY 6 HOURS.

This course is designed for majors in health information technology, medical records, and physical therapy, as well as other health-related programs. The course introduces organ systems, from simple to complex, while correlating how the proper integration of these systems maintains the normal operation of the body. Laboratory sessions include group discussions and written assignments that highlight the significance of course material through the introduction of clinical applications. Cat dissection is not a part of this course. This course fulfills the Anatomy/Physiology requirement for certificates and degrees in Health Information Technology.

385 Directed Study – Physiology (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

This course allows students to pursue Directed Study in Physiology on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN.

Mathematics Department

G5-III • (323) 265-8886

The Mathematics curriculum provides the lower division classes necessary for a major in mathematics. It also provides the mathematical support for majors in the physical and social sciences, engineering, computer technology, business, economics, electronics, architecture, etc. This includes the calculus sequence, differential equations, statistics, finite math and linear algebra.

In a broader sense, the curriculum introduces problem solving using analytic methods, both inductive and deductive, and creates a sense of the abstract beauty and power of mathematics as it relates to the modern world.

ASSOCIATE DEGREE PROGRAMS

Mathematics, Associate in Arts Degree

The program is designed to award the Associate in Arts degree to those students who have completed a specialization in mathematics. This degree program is intended to meet the needs of mathematics students who do not require a science component for their degree. The requirements were chosen to optimize student preparation for upper division coursework at a four-year institution leading to a minor in mathematics or a Bachelor's degree in a field related to mathematics. The degree program offers training in both pure and applied mathematics leading to careers in research, business, industry, and government. In addition, many areas, such as accounting, actuarial science, finance, management, and operations research depend upon the use of mathematics in developing solutions to practical problems.

Associate in Science in Mathematics for Transfer

The Associate in Science in Mathematics for Transfer degree is designed to award an Associate in Science degree to those who are intending to transfer to the California State University system in mathematics. The Associate in Mathematics for Transfer degree is intended to meet the needs of mathematics students who do not require significant coursework in the sciences to complete their degree. The requirements for the Associate in Science in Mathematics for Transfer degree were chosen solely to meet the requirements for the Transfer Model Curriculum in Mathematics and may not be adequate preparation for transfer to institutions outside of the California State University System. Requirements for the Associate in Science in Mathematics for Transfer degree include:

1. Completion of 60 CSU transferable semester units, including (a) the Intersegmental General Education Transfer Curriculum (IGETC) or California State University General Education Breadth requirements, and (b) a minimum of 18 semester units or 27 quarter units in a major or area of emphasis.
2. Achieve a grade point average of 2.0 and earn a "C" (or "P") for each course in the major in all major courses.

Required Core Courses

SUBJECT & NO.	COURSE	UNITS

	<i>IGETC or CSU GE Pattern</i>	
	<i>Total.....</i>	<i>60</i>

Note: 3–7 units of major courses may be double counted in LACCD General Education requirements.

Note: Students who have already completed PHYSICS 1 may substitute this course for PHYSICS 101

*This course has a prerequisite.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Mathematics (MATH)

Note: There is no credit by examination for any math class.

120 Plane Geometry (5)

LECTURE, 5 HOURS.

This is a basic course in the fundamentals of Euclidean plane geometry which includes consideration of geometric properties and relationships. Practice in accurate thinking and developing logical proofs are emphasized.

125 Intermediate Algebra (5)

LECTURE, 5 HOURS.

Note: A scientific or business calculator is required for this class.

This course strengthens and further develops manipulative skills in elementary algebra. Topics include the fundamental operations on algebraic expressions, solutions of equations and inequalities, exponentiation, graphs of algebraic, exponential and logarithmic functions, systems of equations and inequalities, and an introduction to the conic sections. Applications are included in a wide variety of word problems.

125S Intermediate Algebra with Support (5)

LECTURE, 5 HOURS; LABORATORY, 2 HOURS.

Note: A scientific or business calculator is required for this class.

This course includes a mandatory lab component to review topics from prealgebra and elementary algebra. This course strengthens and further develops manipulative skills in elementary algebra. Topics include the fundamental operations on algebraic expressions, solutions of equations and inequalities, exponentiation, graphs of algebraic, exponential and logarithmic functions, systems of equations and inequalities, and an introduction to the conic sections. Applications are included in a wide variety of word problems.

134 Accelerated Elementary and Intermediate Algebra (6)

LECTURE, 4 HOURS; LABORATORY, 4 HOURS.

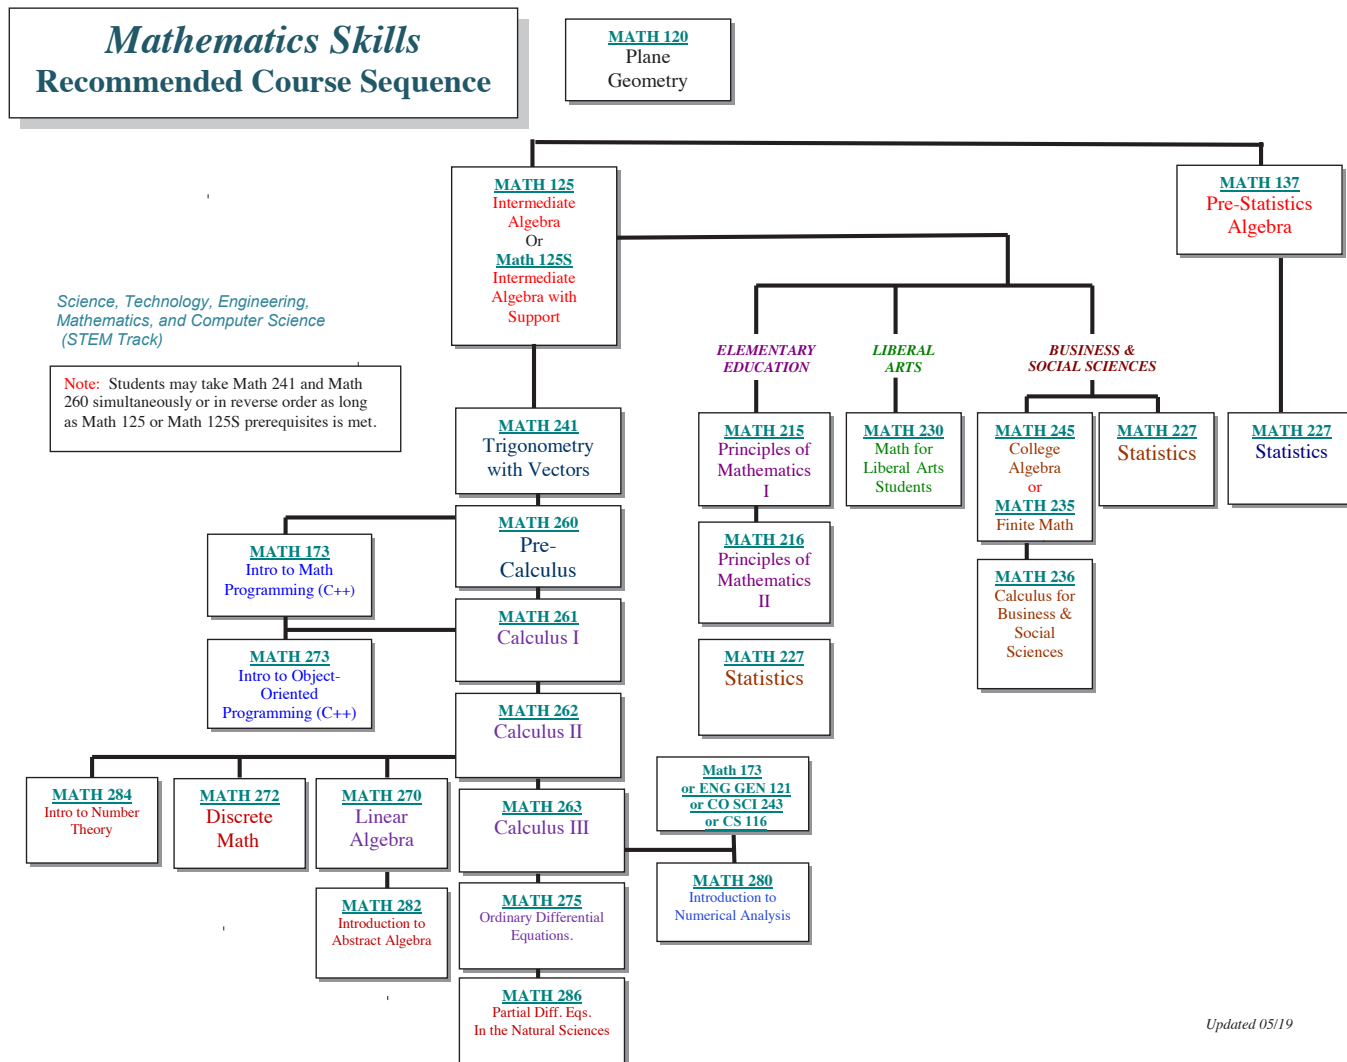

An accelerated course covering topics from Elementary and Intermediate Algebra. Topics include linear equations and inequalities, exponents, polynomials and factoring, rational expressions, rational equations and inequalities, radical expressions and equations, quadratics equations and inequalities, graphing linear and nonlinear equations and inequalities, system of linear and nonlinear equations and inequalities, functions, exponential and logarithmic functions, conics, and sequences and series. This course has a computer lab component and satisfies any Intermediate Algebra requisite.

137 Pre-Statistics Algebra (6)

LECTURE, 5 HOURS.

This course introduces algebra topics and the basic elements of exploratory data analysis. Topics in the course include: Solving algebraic equations, simplifying algebraic expressions, data analysis, sample statistics and graphs, measures of central tendency and spread, functions and their graphs, probability, sequences and series, and exponential and logarithmic functions. This class is intended as preparation for students who wish to take Statistics. Students wishing to take other 200 level math courses will require Math 125, or Math 125S, or Math 134 and should consult the college catalog for prerequisites.

MATHEMATICS SKILLS RECOMMENDED COURSE SEQUENCE

173 Object-Oriented Programming and Design (4) UC:CSU

Prerequisite: Mathematics 260.

LECTURE, 3 HOURS; LABORATORY, 2 HOURS.

This course covers major programming concepts including theory, applications, and object-oriented programming, primarily in C++. Variables and basic data types, operators, bitwise arithmetic, control structures, input and output, arrays, multidimensional arrays, strings, an introduction to the Standard Template Library, functions, an introduction to recursion, structures, pointers, references, dynamic memory management, file handling, casting operators, namespaces, operator overloading, preprocessor directives, and exception handling are discussed in detail. Classes and object-oriented programming, including constructors and destructors, inheritance, virtual functions, polymorphism, interfaces through abstract base classes, and data encapsulation and modeling principles are also covered in detail. Differences between the Java language and C++ are discussed. Commenting of code

and debugging are emphasized throughout the course. Examples from mathematics are included as well as a significant project requiring object-oriented design. Students gain practice in utilizing outside code via practice with a graphics API.

192 Graphing Calculator (1) CSU

LECTURE, 1 HOUR.

This course introduces the use of the graphing calculator. It includes topics such as graphing functions in two and three dimensions, writing programs, engineering and calculus applications, solving systems of equations using matrices, and analyzing data using statistics.

215 Principles of Mathematics I (3) UC:CSU (C-ID MATH 120)

Prerequisite: Mathematics 125 or 125S or 134.

LECTURE, 3 HOURS.

This course is intended for those who plan to teach mathematics in elementary schools. The course covers the language of sets, elementary logic, systems of numeration,

numbers, fundamental operations, functions, integers, rational numbers, real numbers, and algorithms used in calculations.

216 Principles of Mathematics II (3) UC:CSU

Prerequisite: Mathematics 215.

LECTURE, 3 HOURS.

This course is the second in the sequence intended for those who plan to teach elementary school mathematics. Topics include basic probability, introductory statistics, and introductory geometry including constructions, congruence and similarity, measurement, motion geometry, and tessellations.

227 Statistics (4) UC:CSU IGETC Area 2A (C-ID MATH 110)

(UC Credit Limit: Mathematics 227 combined with ENG GEN 221, maximum credit, one course).

Prerequisite: Mathematics 125 or Mathematics 125S or Mathematics 134 or Mathematics 137

LECTURE, 4 HOURS; LABORATORY, 1 HOUR.

Note: A calculator is required. See the instructor about the specific kind needed.

This course is an introduction to probability, measures of central tendency and dispersion, descriptive and inferential statistics including sampling, estimation, hypothesis testing. Analysis of variance, chi-square and student t-distributions; linear correlation, and regression analysis are also presented as topics.

227S Statistics with Support (4) UC:CSU IGETC Area 2A

Prerequisite: Mathematics 125 or Mathematics 125S or Mathematics 134 or Mathematics 137.

LECTURE, 4 HOURS; LABORATORY, 1 HOUR.

Note: A calculator is required. See the instructor about the specific kind needed.

This course is an introduction to probability, measures of central tendency and dispersion, descriptive and inferential statistics including sampling, estimation, and hypothesis testing. Analysis of variance, chi-square and student t-distributions, linear correlation, and regression analysis are also presented as topics.

230 Mathematics for Liberal Arts

Students (3) UC:CSU IGETC Area 2A

Prerequisite: Mathematics 125 or 125S or 134.

LECTURE, 3 HOURS.

An introduction to the spirit and style of mathematics and its pursuit as a human endeavor. Topics are chosen from a variety of mathematical fields including logic, set theory, systems of numeration, number theory, algebra, the metric system, geometry, mathematical systems, consumer mathematics, probability, statistics, graph theory, voting and apportionment which are intended to illustrate the nature of mathematical discovery, the utility of mathematical applications, and the beauty of geometric design.

235 Finite Mathematics (5) UC:CSU

IGETC Area 2A (C-ID MATH 130)

Prerequisite: Mathematics 125 or 125S or 134.

LECTURE, 5 HOURS.

Note: A calculator is required. See the instructor about the specific kind needed.

This course covers topics in finite mathematics with applications to business and social sciences. Systems of linear equations, inequalities, linear programming, mathematics of finance, matrix algebra, probability, statistics, and game theory are among the topics presented.

236 Calculus for Business and Social Science

(5) UC:CSU IGETC Area 2A (C-ID MATH 140)

(UC Credit Limit: Math 236 combined Math 261 + Math 262, maximum credit, two courses).

Prerequisite: Mathematics 235 or Mathematics 245.

LECTURE, 5 HOURS.

Note: Student should consult a counselor to determine which prerequisite is required by the university targeted for transfer.

Note: A calculator is required. See instructor about the specific kind needed.

This course consists of elementary differential and integral calculus of algebraic, exponential, and logarithmic functions, as well as partial derivatives and the method of Lagrange multipliers. Applications to business and the social sciences are emphasized.

241 Trigonometry with Vectors (4) CSU

Prerequisites: Mathematics 125 or Mathematics 125S or Mathematics 134.

LECTURE, 4 HOURS; LABORATORY, 1 HOUR.

Note: A scientific calculator is required for this class. See the instructor about the specific kind needed.

This course includes the study of the trigonometric functions and their inverses; measurement of angles in degrees and in radians; evaluating triangles; solutions of trigonometric equations; verification of trigonometric identities; vectors; complex numbers; graphing trigonometric functions and polar curves.

241S Trigonometry with Vectors with Support (4) CSU

Prerequisites: Mathematics 120 and Mathematics 125 or Mathematics 125S or Mathematics 134.

LECTURE, 4 HOURS; LABORATORY, 1 HOUR.

Note: A scientific calculator is required for this class. See the instructor about the specific kind needed.

This course includes the study of the trigonometric functions and their inverses; measurement of angles in degrees and in radians; evaluating triangles; solutions of trigonometric equations; verification of trigonometric identities; vectors; complex numbers; graphing trigonometric functions and polar curves.

245 College Algebra (3) UC:CSU IGETC Area 2A
(UC Credit Limit: Math 245 and 260 combined - maximum credit five units).

Prerequisite: Mathematics 125 or Mathematics 125S or Mathematics 134.

LECTURE, 3 HOURS; LABORATORY, 1 HOUR.

Note: A scientific calculator is required for this class. See the instructor about the specific kind needed.

This course covers topics including polynomial and rational functions, inverse, exponential and logarithmic functions, systems and matrices, analytical geometry, sequences and series, the binomial theorem, mathematical induction, counting theory, and probability.

260 Precalculus (5) UC:CSU IGETC Area 2A
(UC Credit Limit: Math 245 and 260 combined - maximum credit five units).

Prerequisite: Mathematics 125 or Mathematics 125S or Mathematics 134.

LECTURE, 5 HOURS; LABORATORY, 1 HOUR.

Note: A calculator is required. See the instructor about the specific kind needed.

This course covers topics in college algebra including polynomial and rational functions, exponential and logarithmic functions, systems of equations and inequalities, conic sections, sequences and series, and limits as a preview to calculus.

260S Precalculus with Support (6) UC:CSU IGETC Area 2A
Prerequisite: Mathematics 125 or Mathematics 125S or Mathematics 134.

LECTURE, 5 HOURS; LABORATORY, 1 HOUR.

Note: A calculator is required. See the instructor about the specific kind needed.

This course reviews topics from Intermediate Algebra, and covers topics in college algebra including polynomial and rational functions, exponential and logarithmic functions, systems of equations and inequalities, conic sections, sequences and series, and limits as a preview to calculus.

261 Calculus I (5) UC:CSU IGETC Area 2A (C-ID MATH 211)
(UC Credit Limit: Math 236 combined Math 261 + Math 262, maximum credit, two courses).

Prerequisite: Mathematics 241 and Mathematics 260 or 260S.

LECTURE, 5 HOURS.

Note: A calculator is required. See the instructor about the specific kind needed.

This is the first of a three-course sequence in calculus. Topics include limits and continuity, rates of change, derivatives, applications of differentiation, integrals, the Fundamental Theorem of Calculus, and applications of integration.

262 Calculus II (5) UC:CSU IGETC Area 2A (C-ID MATH 221)
(UC Credit Limit: Math 236 combined Math 261 + Math 262, maximum credit, two courses).

Prerequisite: Mathematics 261.

LECTURE, 5 HOURS.

Note: A calculator is required. See the instructor about the specific kind needed.

This is the second in a three-course sequence in calculus. Topics include differentiation and integration of logarithmic, exponential, circular and hyperbolic functions and their inverses, indeterminate forms, improper integrals, standard techniques of integration, parametric equations and polar coordinates, arc length, area of a surface of revolution, infinite sequences and series, and representation of functions as power series.

263 Calculus III (5) UC:CSU IGETC Area 2A (C-ID MATH 230)
Prerequisite: Mathematics 262.

LECTURE, 5 HOURS.

Note: A calculator is required, see instructor about the specific kind needed.

This is the third of a three-course sequence in calculus. Topics include vectors and the geometry of space, vector functions, partial derivatives, multiple integrals, and vector calculus.

270 Linear Algebra (3) UC:CSU IGETC Area 2A (C-ID MATH 250)
Prerequisite: Mathematics 262.

LECTURE, 3 HOURS.

This course includes the study of systems of linear equations and their solutions, matrices, determinants, vector spaces, linear transformations, orthogonality, and characteristic value problems.

272 Methods of Discrete Mathematics
(5) UC:CSU IGETC Area 2A (C-ID MATH 160)

Prerequisites: Mathematics 262.

LECTURE, 5 HOURS.

This course introduces sets, relations, functions and logic along with formal methods of proof such as contradiction, contrapositive, induction, diagonalization, recursion, and the Pigeonhole principle. These ideas and methods are developed by looking at problems from combinations and counting, elementary number theory, and graph theory. Topics from map coloring, complexity, and cryptography are also discussed.

273 Introduction to Data Structures and Algorithms (4) UC:CSU

Prerequisites: Mathematics 173.

LECTURE, 3 HOURS; LABORATORY, 2 HOURS.

This course is an introduction to the study of data structures and algorithms as well as an introduction to software development primarily in C++. The course begins with a short review of object-oriented programming, emphasizing utilizing and extending existing code through inheritance and interfaces. The review leads into more advanced topics including multiple inheritance, virtual inheritance, the diamond problem, templates, and multithreading. Complexity analysis, including Big-O notation, best case, worst case, average case, and amortized analysis are covered in detail. Data structures and algorithms are covered in a language-independent manner. Linked lists, stacks, queues, trees, heaps, and graphs are covered in detail along with associated implementation and memory management techniques. Algorithms for searching and sorting, including hashing, are covered in detail. Recursion, which was introduced in the previous course, is analyzed rigorously. The Standard Template Library is discussed in reference to each data structure and algorithm covered in the course. Software development is explored in the contexts

of event-driven programming and video game programming. A large scale project requiring significant planning, collaboration, and documentation is required.

275 Ordinary Differential Equations (3)

UC:CSU IGETC Area 2A (C-ID MATH 240)

Prerequisite: Mathematics 263.

LECTURE, 3 HOURS.

Note: A scientific calculator is required for this class.

This course provides the student with a basic understanding of the theory and content of ordinary differential equations. Various methods of solving these equations, especially first and second order, are emphasized as are solutions to physical applications problems. Other topics covered include existence and uniqueness theorems, systems of linear differential equations, numerical and graphical methods using computers, and the Laplace transform.

280 Introduction to Numerical Analysis (3) UC:CSU IGETC Area 2A

Prerequisites: Mathematics 263 and EITHER Mathematics 173 or General Engineering 121 or Computer Science Information Technology 243 or Computer Science 216.

LECTURE, 3 HOURS.

This course is designed to provide an introduction to numerical methods. Topics presented include error analysis, finding roots of non-linear equations, numerical methods for matrix operations, interpolation and curve fitting. Numerical methods in differentiation and integration also are considered.

282 Introduction to Abstract Algebra (3) UC:CSU

Prerequisites: Mathematics 270.

LECTURE, 3 HOURS.

This course is an introduction to numbers, number systems, and the basic algebraic structures of groups, rings, and fields.

284 Introduction to Number Theory

(3) UC:CSU IGETC Area 2A

Prerequisite: Mathematics 262.

LECTURE, 3 HOURS.

This course introduces topics in elementary number theory, including the study of primes, composites, the Euclidean algorithm, Diophantine equations, congruences, divisibility, multiplicative functions, quadratic residues, and continued fractions.

286 Partial Differential Equations in the Natural Sciences (5) UC:CSU

IGETC Area 2A

Prerequisite: Mathematics 275.

LECTURE, 5 HOURS.

This course introduces linear partial differential equations and boundary and initial value problems with particular emphasis on the wave equation, the heat equation, and the Laplace equation. The techniques of separation of variables, eigenfunction expansions, and the method of characteristics for nonlinear equations are also studied.

185 Directed Study – Mathematics (1) CSU

285 Directed Study – Mathematics (2) CSU

385 Directed Study – Mathematics (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Mathematics on a contract basis under the direction of a supervising instructor. The courses will grant credit for one, two or three semester units, respectively. The complexity of the topic of study will determine which course the student should take.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Noncredit Mathematics

Note: NDA after a course indicates that this course will not meet the Associate degree requirement, and is non-degree applicable.

Academic Preparation (ACAD PR)

18CE Preparatory Mathematics (0) NDA

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course covers the fundamentals of beginning algebra. Topics include signed numbers, evaluation of algebraic expressions, exponents, solving equations, polynomials, factoring, rational expressions, radicals, quadratics, graphs, systems of equations, inequalities, and applications.

Mathematics (MATH)

101 The World of Numbers (6) NDA

LECTURE, 3 HOURS.

This is the first course in the sequence of courses in mathematics. It includes reading and writing whole numbers; addition, subtraction, multiplication, division and order of operations with whole numbers; divisibility tests, factorization, finding greatest the common factor and the least common multiple of two or more whole numbers; and solving simple application problems with whole numbers.

Media Arts and Technologies Department

E7 - B41 • (323) 265-8810

ELAC offers a variety of courses in Broadcasting, Media Arts and Photography. The Photography Discipline provides education in both digital and traditional photography, as well as, studio and the laboratory processes. A wide variety of immersive courses include instruction in lighting, digital image manipulation, digital cinema and video production, custom printing, portraiture, visual communications, marketing, concept and portfolio development. These classes provide our students with the knowledge necessary to succeed in challenging and exciting fields such as family and event photography, commercial photography, broadcasting and entertainment production. Our Photography Discipline offers a total of eight Skills Certificate and Certificates of Achievement that lead to two Associate in Arts Degrees in Photography and in Desktop Publishing. Completing our program can pave the way to success, prepare you for career advancement, or assist in making a career transition. Our facility has over eight separate teaching labs including black and white and color darkrooms, a film processing lab, a commercial studio, computer lab and a variety of professional equipment for students to use.

Photographers are problem solvers who combine artistry, technique, design, and creativity to make compelling images that tell a story. The digital revolution and increasingly sophisticated imaging software mean photography is now limited only by imagination.

Faculty

Lyle, Robert A, Chair, Professor, Photography
Tsai, Michael C., Professor, Photography
O'Brien, Dylan S., Assistant Professor

Adjunct Associate Professors

SKILLS CERTIFICATES

Black and White Darkroom Laboratory Processing

SUBJECT & NO.	COURSE	UNITS
PHOTO 10	Beginning Photography	3
PHOTO 16*	Fundamental Commercial Photography..	3
PHOTO 32*	Intermediate Black and White Photography.....	3
Total.....		9

*This course has a prerequisite.

Portrait Photography

SUBJECT & NO.	COURSE	UNITS
PHOTO 10	Beginning Photography	3
PHOTO 15*	Fundamentals of Portraiture.....	3
PHOTO 31*	Advanced Portrait Techniques.....	3
Total.....		9

*This course has a prerequisite.

CERTIFICATES OF ACHIEVEMENT

Color Printing and Processing Printing and Processing

This Certificate of Achievement exposes students to problem solving the unique technical and aesthetic issues occurring in color image making. Students will become versed in subtractive color theory, color correction, printing, processing and making artistic compositional decisions with color as a variable.

SUBJECT & NO.	COURSE	UNITS
PHOTO 10	Beginning Photography	3
PHOTO 17*	Introduction to Color Photography	3
PHOTO 18*	Advanced Color Photography	3
PHOTO 30*	Creative Color Techniques.....	3
Total.....		12

*This course has a prerequisite.

Desktop Publishing

This program gives the student skills in the fields of Graphic Design, Journalism, and Photography and in the use of computers to produce newspapers, newsletters, advertising, and brochures.

SUBJECT & NO.	COURSE	UNITS
ART 635	Desktop Publishing Design.....	3
ART 639	Introduction to Digital Imaging.....	3
JOURNAL 101	Collecting and Writing News.....	3
JOURNAL 217-1*	Publication Laboratory I.....	2
PHOTO 28	Laboratory Processes.....	1
PHOTO 47	Introduction to Digital Photography.....	3
PHOTO 48	Intermediate Digital Photography.....	3
TWELVE ADDITIONAL UNITS SELECTED FROM THE LIST BELOW:		12
<i>(The student may select all twelve units from one area or from a combination of areas).</i>		
ART 201	Drawing I.....	3
ART 501	Beginning Two-Dimensional Design.....	3
ART 604*	Graphic Design I.....	3
ART 633	Introduction to Computer Graphics.....	3
JOURNAL 202*	Advanced Newswriting	
JOURNAL 218-1*	Practical Editing I.....	3
JOURNAL 219-1*	Techniques for Staff Editors I.....	1
JOURNAL 228-1*	Beginning Computerized Composition.....	3
PHOTO 10	Beginning Photography.....	3
PHOTO 17*	Introduction to Color Photography.....	3
PHOTO 22*	Creative Photo-Vision.....	3
PHOTO 32*	Intermediate Black and White Photography.....	3
Total.....		30

*This course has a prerequisite.

Digital Imaging

This Certificate of Achievement is a fast track to employment in a variety of digital imaging jobs. Students will reach a professional level of skill with digital photography, image manipulation and retouching in Photoshop, as well as printing and new media applications.

SUBJECT & NO.	COURSE	UNITS
MEDIART 101	Introduction to Digital Film/Video Production.....	3
PHOTO 10	Beginning Photography.....	3
PHOTO 47	Introduction to Digital Photography.....	3
PHOTO 48*	Intermediate Digital Photography.....	3
PHOTO 51*	Advanced Digital Techniques.....	3
PHOTO 185	Directed Studies - Photography.....	1
Total.....		16

*This course has a prerequisite.

Large Format Photography

This Certificate of Achievement trains students to work with 4x5 and 8x10 sheet film and view cameras. Students will become versed in the high-end commercial applications commonly shot in large format, i.e. architecture, product, food and fine art.

SUBJECT & NO.	COURSE	UNITS
PHOTO 5*	Photographic Sensitometry.....	3
PHOTO 10	Beginning Photography.....	3
PHOTO 12*	Advanced Photographic Techniques.....	4

PHOTO 16*	Fundamental Commercial Photography..	3

Photography, Associate in Arts Degree

The program below is designed for the student who wishes to make professional photography his/her occupational field. Previous training in photography is not required. Comprehensive studies include commercial and industrial projects, laboratory processes, portraiture and color techniques classes. Creative and advanced photographic skill classes are offered.

CAMERA REQUIREMENTS

A 35mm camera with adjustable light control features and a quality light meter are needed.

Not all classes are offered every semester. Check current class schedules for offerings.

Required Core Courses

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Broadcasting (BRDCSTG)

1 Fundamentals of Television and Radio Broadcasting (3) CSU

LECTURE, 3 HOURS.

This course provides a study of the fundamentals of radio, television and other mass media broadcasting including history, theory, and legal aspects. Different forms of broadcasting are highlighted from network, Internet, cable and first run syndication, concluding with an overview of developing technologies. The course includes debate on the innovators and issues such as the demise of financial interest in syndication rules, vertical integration, the rise of broadband and its resultant changes in what constitutes a 'broadcast.'

15 Radio and Television Production (3) CSU

LECTURE, 1 HOUR; LABORATORY, 5 HOURS.

This course teaches students to produce shows for radio and television broadcast. Emphasis will be on network or cable style programming. Students learn to operate essential production technology and to record broadcast

presentations. Students learn how to create the content for broadcast presentations including structure, scripts and performance skills. Completed projects will broadcast via over-the-air or over-the-Internet.

300 Introduction to Writing for Broadcast (3) CSU

LECTURE, 3 HOURS.

In this course, students gather information and write stories about current events and format them for broadcast on radio, television, the Internet, or other audio/visual delivery systems.

185 Directed Study – Broadcasting (1) CSU

CONFERENCE, 1 HOUR PER WEEK PER UNIT.

This course allows students to pursue directed study in Broadcasting on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Media Arts (MEDIART)

101 Introduction to Digital Film/Video Production (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This entry level class is a hands-on course in shooting, editing and production planning, which starts students down the path to an entry level job in digital production or post production for movies, television and a variety of other media. Students are introduced to the operation of digital video/film production and editing technology through practical assignments in and out of class. Topics covered include, visual storytelling, the production process, lenses, camera operation, lighting, the editing process and correctly preparing files for uploading to the web, social media, streaming services, broadcast and other distribution.

111 Intermediate Digital Film/Video Production (3) CSU

Prerequisite: Media Arts 101.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This intermediate course builds on the skills and techniques learned in Introduction to Digital Media Production. More advanced film/video cameras, lenses, lighting equipment, as well as cinematography techniques and aesthetics are covered. Camera support such as Steadicam and drones are introduced as are advanced editing and post-production techniques such as effects, time remapping, color correction and nonlinear story telling. Formats such as feature films, television series, documentaries, and reality TV are explored. This course uses project based hands-on learning to prepare students for entry level work in production and post-production for news and entertainment.

Photography (PHOTO)

3 Basic Commercial Fields (6)

Prerequisite: Photography 12.

LECTURE, 3 HOURS; LABORATORY, 9 HOURS.

This advanced course covers commercial photography. Emphasis is placed on commercial lighting and studio techniques. This course also explores fields within illustration, fashion, architectural, and product photography. Pricing, self-promotion, portfolio development, and the business of photography are stressed.

5 Photographic Sensitometry (3)

Prerequisite: Photography 16.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course covers the systematic evaluation of materials and equipment used in photography. Students gain a deeper understanding of how different types of film, digital sensors, chemistry, paper, and digital printers can reproduce photographic imagery. Topics such as the Zone System, tone, contrast tonal separation, dynamic range, density, latitude, sensitometry, and densitometry are covered along with the chemical mixing of photographic chemistry from raw chemicals using established formula.

10 Beginning Photography (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This is an introductory Photography course focusing on black and white film photography for students without photographic experience. Basic camera and darkroom laboratory techniques are studied, including camera operation and exposure, film developing, enlarging, and composition. A 35mm camera with adjustable f/stops, focus, and shutter speed is required. Students need to buy additional materials.

12 Advanced Photographic Techniques (4) CSU

Prerequisite: Photography 16.

LECTURE, 2 HOURS; LABORATORY, 6 HOURS.

The course is for photography majors and students interested in a professional photography career. Students work with many advanced techniques used currently in commercial photography fields such as advertising, editorial, promotional, and catalog. In-depth projects involve lighting in studio and on location and using professional format cameras and strobes in the context of a variety of commonly required professional assignments. Approaches to studio and location shoots, contemporary commercial styles, and maintaining a professional practice are covered.

15 Fundamentals of Portraiture (3) CSU

Prerequisites: Photography 10 and 47.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This introductory course covers all aspects of portrait photography from traditional to modern techniques. Topics covered include environmental portraiture and studio portraits. The curriculum covers lighting ratios, lighting styles, subject, pose, exposure, and print presentation.

16 Fundamental Commercial Photography (3)*Prerequisite: Photography 10.*

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course covers professional studio techniques for small product photography intended for use in advertisements, illustrations, and commercials. Topics include professional medium and large format camera operation, hand-held light meters, studio strobe photography, studio setup, and lighting. Advanced laboratory techniques and digital photography are also discussed.

17 Introduction to Color Photography (3) CSU*Prerequisite: Photography 10.*

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course is designed to cover the elements of color in photography. Topics include light and color theory, color balance, color corrections, color processes (C-41 and RA-4), and exposing and printing color negatives. Aesthetic application and decisions such as color palettes, composition, and the language of color as well as color in the context of digital media and photography are also covered.

18 Advanced Color Photography (3) CSU*Prerequisites: Photography 16 and 17.*

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This high level color course provides practical experience in color photography in both traditional and digital imaging. Color processes are explored in greater detail including light and color theory, color aesthetics, color processing, composition and proper exposure in traditional and digital imaging. Students study contemporary professional studio and location equipment and lighting. Alternative color processes are covered to enhance visual communication.

22 Creative Photo-Vision (3)*Prerequisite: Photography 10.*

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course explores the creative and artistic applications of the materials and processes of silver and non-silver photography. Emphasis is placed on the combining of technical skill with the aesthetic and expressive use of the media. This course covers topics such as toning and hand coloring, Sabattier, infrared film, collage, cyanotype, and other alternative processes.

28 Laboratory Processes (1)

LABORATORY, 3 HOURS.

This course is designed for the beginning photography student who wishes to increase laboratory skills, relative to concurrent photography classes, through extended contact with equipment and faculty. Students are not permitted to use any of the photo lab facilities if they drop or are excluded from the main photo lecture section.

29 Laboratory Processes II (1)*Prerequisite: Photography 28.*

LABORATORY, 3 HOURS.

Note: This course is offered on a PASS/NO-PASS basis only.

This course is designed for the photography student who wishes to gain intermediate laboratory skills, relative to concurrent photography classes, through additional access to facilities, equipment and faculty. Students refine and perfect introductory and intermediate level skills

before moving on to more advanced classes. Students are not permitted to use any of the labs, facilities or equipment if they drop or are excluded from the main photo lecture section.

30 Creative Color Techniques (3) CSU*Prerequisite: Photography 17.*

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course explores creative ways of using color to manipulate visual imagery. Students experiment with color materials and color processes. Combining photography and other media is also explored.

31 Advanced Portrait Techniques (3) CSU*Prerequisite: Photography 15*

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This is an advanced course for those who have extensive experience with portrait photography. Topics such as editorial and environmental portraits and various lighting techniques and their applications are covered in addition to ethics, communication, and the business of portraiture.

32 Intermediate Black and White Photography (3) CSU*Prerequisite: Photography 10.*

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course is the continuation of beginning photography. The course explores precise printing techniques, archival preparation, electronic flash, matting, and print presentation. Topics such as gaining a higher level of control in exposure and film processing and printing are a major focus of the class.

35 Travel Photography (3) CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course is an exploration of environmental photography focusing on culture, architecture, and the people of specific destination(s). Emphasis is placed on capturing moments which portray the visual essence of a culture and a sense of place through the practice of photographic documentation of people in their environments. This course is open to both beginners and experienced photographers.

36 Documentary Photography (3) CSU*Prerequisite: Photography 35.*

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

In this course, students research, shoot, edit, create, and present a documentary photography project. The course emphasizes storytelling, developing a personal vision, and in-depth coverage of social issues.

37 Visual Journalism: Photography, Video and Multimedia (4) CSU*Corequisite: Photography 36.*

LECTURE, 2 HOURS; LABORATORY, 6 HOURS.

In this course, students gain practical experience in taking documentary pictures and video including travel, culture, landscape, and architecture. Students learn videography, digital editing, and layout skills to showcase their still and video images. Emphasis is placed on real world experience, in-depth photo/video stories, digital technology, and portfolio development.

47 Introduction to Digital Photography (3) CSU

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

In this class, students learn the use of professional digital cameras, basic digital retouching, and printing. Camera controls, composition, design, and the use of available lighting are stressed. Professional digital cameras may be provided by the department for student usage. Students may use their own DSLR cameras if appropriate. The students need to buy additional materials. No prior photographic experience is necessary.

48 Intermediate Digital Photography (3) CSU

Prerequisites: Photography 10 and 47.

LECTURE, 2 HOURS; LABORATORY, 3 HOURS.

This course teaches advanced techniques in digital photographic imaging using software and hardware such as Camera Raw, Photoshop and professional scanners. Emphasis is given to creating and manipulating digital images, enhancement, compositing, and printing to various media. Professional aesthetics, workflow, and organization are also covered.

51 Advanced Digital Techniques (3) CSU

Prerequisite: Photography 48

LECTURE, 2 HOURS; LABORATORY 3 HOURS.

This course is advanced instruction in digital imaging using the software and hardware of photography and new media. Topics such as contemporary digital studio techniques, tethering, and green screen are covered. Emphasis is given to applying what students already know about photography and editing to new areas in the commercial photography industry and related areas, such as online and entertainment. Emerging media and related technological innovations are also covered. Topics and projects change based on current industry trends.

52 Advanced Laboratory Procedures (1)

Prerequisite: Photography 28.

LABORATORY, 3 HOURS.

This course concentrates on more individualized study of lab and studio process designed to familiarize students with the technology of digital photography, digital printing, and film and paper processes as well as areas such as safety and efficiency. Students are only given access to equipment and facilities for which they have qualified in other classes, please see the department chair for further instructions.

121 History and Appreciation of Photography (3) UC:CSU IGETC 3A

LECTURE, 3 HOURS.

This course is a survey of photography which introduces students to the history of the medium from its discovery/invention to the present including major historic processes, key photographers, and significant events that shaped its development. Students also examine how photography has changed and been influenced by society, culture, the marketplace, other art forms, aesthetics, communication, the sciences, and medicine.

122 Photography and Visual Media in Modern Culture (3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS.

This course is a discussion and analysis of how photographic images interact with media, culture, commerce, community, politics, social media, and current events. Photography's contemporary role is considered and critically evaluated as a visual medium and a way to document and illustrate, as well as, a mass mediated tool for social influence.

123 Photo-Discovery: Aesthetics, Craft, and Creativity (3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS.

In this course, students explore the key personalities, commentary, technologies, and creative achievements in the history of photography and relate them to current craft and creativity in photography. The course examines how artistic choices and characteristics of photographic technology, both contemporary and historic, contribute to the meaning, design, storytelling, and beauty of photographic images. Students analyze the creative principles applied to making photographic images, including: Subjects and genres, choosing cameras and formats; composition, lighting, and the manipulation of tonality; the perspective effects of long lenses and short lenses; the focus effects of small apertures and wide apertures; the filter effects in black-and-white and color photography; the motion effects as a result of shutter speed; and other creative tools.

185 Directed Study - Photography (1) CSU

285 Directed Study - Photography (2) CSU

385 Directed Study - Photography (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Photography on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC does not grant credit for variable topics courses in Photography because of credit restrictions in this area.

ASSOCIATE DEGREE PROGRAMS

Interpreter Education, Associate in Arts Degree

The American Sign Language Interpreter Education Program (IEP) degree prepares students for a career working as an entry level sign language interpreter for people who are Deaf and hard of hearing. This degree provides instruction in communication models and processes of American Sign Language, Deaf culture, interpreting skills, ethical understanding, and hands-on training in oral and manual interpreting in a wide range of situations, including Spanish-influenced settings. This degree also requires completion of 21 general education credit hours. Successful completion of this program will prepare students for certification examinations conducted in local, state, and national accrediting agencies. This degree requires a minimum of 42 credits in program requirements and general education as listed below.

It is important to note that particular courses in this program may be "double counted" for the requirement of the major as well as for general education requirements, allowing students to complete the degree with 60 units.

Modern Languages Department

SUBJECT & NO.	COURSE	UNITS
CORE REQUIREMENTS		33
A S L 4*	American Sign Language IV	4
A S L 5*	Introduction to Interpreting	3

LING 7	Phonetics of Spanish, Italian, French, and German for Artistic Performance	3
FREE ELECTIVES: COMPLETE 2 UNITS FROM ANY CSU OR UC TRANSFERABLE COURSES		2
LACCD GENERAL EDUCATION PLAN		21
<i>Total</i>		60

Note: 3 units of major courses may be double counted in LACCD General Education.

*This course has a prerequisite.

Associate in Arts in Spanish for Transfer

The Associate in Arts in Spanish for Transfer degree is appropriate for students, including bilingual individuals, who wish to continue mastering their language and overall communication skills in Spanish, demonstrating effective skills in reading, writing, speaking and listening comprehension. The primary of the Associate in Arts in Spanish for Transfer degree is to provide a student priority admission to the CSU system in a Spanish major or a major that is deemed similar by a CSU campus. Students must complete a minimum of 60 required semester units or 90 of CSU transferable course work with a minimum GPA of 2.0, including a minimum of 18 semester units in the major with a grade of "C" (or "P") for each course in the major. Certified completion of the California State University General Education-Breadth (CSU GE Breadth) or Intersegmental General Education Transfer Curriculum (IGETC) Pattern is also required.

Required Core Courses

SUBJECT & NO.	COURSE	UNITS
SPANISH 1	Elementary Spanish I	5
SPANISH 2*	Elementary Spanish II	5
<i>(Native Speaker: SPANISH 35 may be substituted for SPANISH 1 and 2)</i>		
SPANISH 3*	Intermediate Spanish I

SPANISH 37*	Spanish for Native Speakers III	5
<i>Subtotal</i>		20
LIST A (SELECT ONE):		3 UNITS
SPANISH 5*	Advanced Spanish I	5
SPANISH 6*	Advanced Spanish II	5
SPANISH 9	Civilization of Spain	3
SPANISH 10	Latin American Civilization	3
SPANISH 12	Survey of Mexican Literature	3
SPANISH 16	Mexican Civilization	3
SPANISH 27*	Cultural Awareness Through Advanced Conversation	3
HISTORY 5	History of the Americas I	3
HISTORY 6	History of the Americas II	3

COURSE SUBSTITUTIONS: IF A STUDENT PLACES OUT OF ANY CORE COURSE(S) AND IS NOT AWARDED UNITS FOR THAT COURSE, THE STUDENT WILL NEED TO TAKE ADDITIONAL UNITS FOR THAT COURSE TO COMPENSATE FOR THE COURSE/ UNITS REQUIRED TO REACH AT LEAST 18 TOTAL UNITS IN THE MAJOR (TITLE 5 REGULATIONS). STUDENTS MAY CHOOSE ANY ADDITIONAL SUBSTITUTION COURSE(S) FROM LIST A (ABOVE) OR FROM OTHER APPROVED SUBSTITUTION COURSES (SEE BELOW) TO COMPENSATE FOR LOSS OF UNITS. FOR EXAMPLE, STUDENTS WHO ARE PLACED OUT OF LOWER LEVELS OF SPANISH INTO A MORE ADVANCED LEVEL, EITHER BY THE DEPARTMENT OR THROUGH ADVANCED PLACEMENT CREDIT, MUST TAKE ADDITIONAL COURSES TO MEET THE MINIMUM 18 UNIT TITLE 5 STATEWIDE TEMPLATE REQUIREMENT

Additional Approved Substitution Courses:

SUBJECT & NO.	COURSE	UNITS
SPANISH 26	Understanding Latin America Through Film	3
SPANISH 35	Spanish for Native Speakers I	5

COMPLETE ADDITIONAL CSU UNITS, IF NEEDED, TO REACH 60 CSU TRANSFERABLE UNITS

IGETC or CSU GE Pattern

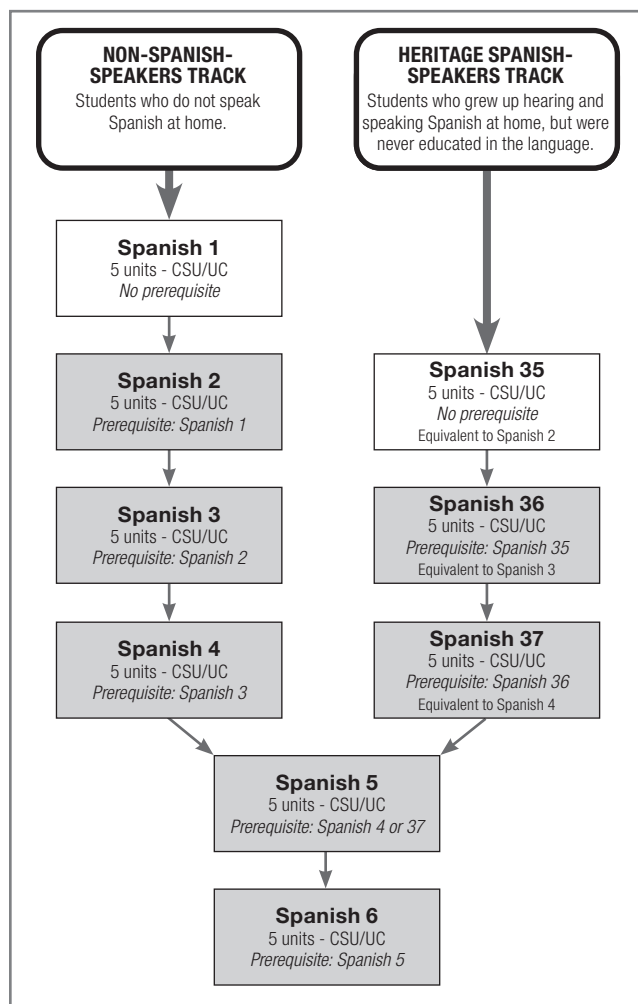

Total.....60

Note: 6-9 units of major courses may be double counted towards general education.

*This course has a prerequisite.

FLOW CHART FOR SPANISH

Refer to catalog for prerequisites and requirements. Numbering for the Heritage courses may not follow a logical sequence.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

If you possess sufficient knowledge of Spanish, the prerequisite challenge will allow you to start your studies beyond Spanish 1 or Spanish 35.

FOR MORE INFORMATION, CONTACT THE MODERN LANGUAGES DEPARTMENT (E3-100E): (323) 780-6798.

CHAIR: Eldy Dean (deanec@elac.edu, (323) 780-6840)

SUBJECTS & COURSE DESCRIPTIONS

American Sign Language (ASL)

1 American Sign Language I (4) UC:CSU

LECTURE, 4 HOURS.

This is an introductory course for developing conversational skills using the manual alphabet and American Sign Language. It is designed to assist in communicating with and in understanding the Deaf Community.

2 American Sign Language II (4) UC:CSU IGETC Area 6A

Prerequisite: American Sign Language 1.

LECTURE, 4 HOURS.

This course is a continuation of the study of elementary American Sign Language (ASL) vocabulary and grammar. Increased development of inflectional and non-manual behavior patterns are presented together with the incorporation of selected aspects of Deaf culture and community within receptive and expressive conversations. Topics are presented in readings, videos, and discussions in ASL. Non-verbal communication is emphasized.

3 American Sign Language III (4) UC:CSU IGETC Area 3B

Prerequisite: American Sign Language 2.

LECTURE, 4 HOURS.

This course provides continued development of American Sign Language grammar, with special emphasis on idiomatic constructions. Provides further development of conversational techniques focusing on expressive skills, and expanded study of Deaf cultural issues.

4 American Sign Language IV (4) UC:CSU IGETC Area 3B, 6A

Prerequisite: American Sign Language 3.

LECTURE, 4 HOURS.

This course serves as an advanced study of American Sign Language vocabulary and grammar including further development and refinement of American Sign Language skills and fluency. It accentuates aspects of Deaf culture and community through spontaneously generated conversations. Topics include: ASL transcription symbol system, development and history of ASL linguistic evolution, and selected sign types.

5 Introduction to Interpreting (3) CSU

Prerequisite: American Sign Language 3.

LECTURE, 3 HOURS.

In this course, students survey basic theories, principles, and practices of interpreting/transliterating including basic ethical considerations, a historical overview of the interpreting profession, and discuss the professional role of the interpreter. Students begin the development of interpreting/transliterating processing skills.

6 English-to-American Sign Language Interpreting/Transliterating (4) CSU

Prerequisite: American Sign Language 5.

LECTURE, 4 HOURS.

In this course students develop beginning-level interpreting and transliterating skills from English to American Sign Language.

8 American Sign Language I for Spanish Speaking Families with Deaf Children (4) CSU

LECTURE, 4 HOURS.

This is an introductory course, taught in Spanish, for developing conversational skills using the manual alphabet and American Sign Language. It is designed to assist Spanish-speaking families with Deaf Children in communicating with and in understanding the Deaf Community.

9 American Sign Language II for Spanish Speaking Families with Deaf Children (4) CSU

Prerequisite: American Sign Language 8.

LECTURE, 4 HOURS.

This course, taught in Spanish, provides continued development of conversational skills using the manual alphabet and American Sign Language. It is designed to further assist Spanish-speaking families with Deaf Children in communicating with and in understanding the Deaf Community.

10 American Sign Language-to-English Interpreting/Transliterating (4) CSU

Prerequisite: American Sign Language 4 and 5.

Advisory: American Sign Language 6.

LECTURE, 4 HOURS.

In this course, students develop beginning-level proficiency in the techniques and principles of Sign-to-English interpreting/transliterating, including such tasks as increasing receptive sign skills and English vocabulary/idioms fluency, discourse analysis skills, and vocal control to successfully convey the intent of signers.

14 Baby Signs (3) CSU

LECTURE, 3 HOURS.

This class is designed to aid in the communication between caregiver and infant through discussion of language development, and the use of baby sign language. Overview of Baby Signs topics include, but are not limited to: Basic foods, family members, animals, and emotions.

16 Creative Signing (2) CSU

Prerequisite: American Sign Language 2.

Advisory: American Sign Language 3.

LECTURE, 2 HOURS.

In this course students of ASL study the application of pantomime, visualization, facial expression, and body language to the use of ASL. Techniques used in ASL story-telling and poetry are practiced and performed.

22 Professional Issues and Practice I (1) CSU

Prerequisite: American Sign Language 5.

Advisories: American Sign Language 6 and 10.

LECTURE, 2 HOURS.

The course introduces students to theoretical and practical issues related to various educational interpreting settings (K - post-secondary levels) that require specialized language and/or techniques. Students continue to develop vocabulary for a variety of topics/settings, an analysis of the Registry of Interpreters for the Deaf and National Association of Deaf (RID-NAD) Code of Professional Conduct, and professional decision-making and problem-solving skills.

23 Professional Issues and Practice II (1) CSU

Prerequisite: American Sign Language 5.

Advisories: American Sign Language 6 and 10.

LECTURE, 2 HOURS.

This course expands on the theoretical and practical issues related to various community interpreting settings (medical, mental health, religious, etc.) requiring specialized language and/or techniques. The course focuses on continued development of vocabulary appropriate for a variety of topics/settings, analysis of the Registry of Interpreters for the Deaf and National Association of Deaf (RID-NAD) Code of Professional Conduct, and continued development of professional decision-making and problem-solving skills.

25 Conversational American Sign Language (2) CSU

Prerequisite: American Sign Language 2.

LECTURE, 2 HOURS.

Students acquire conversational proficiency and expand their vocabulary by signing brief narratives related to contexts such as shopping, travel, food, sports, and leisure activities.

33 Fundamentals of Fingerspelling (2) CSU

Prerequisite: American Sign Language 1.

LECTURE, 2 HOURS.

This course helps students develop skills in the expressive and receptive use of the Manual Alphabet. It explores specific individual problems and techniques for corrections. Overview of topics include: Hand positioning (location and angle), handshapes, rhythm, fluency, spelling, and numbers; reception of fingerspelled handshapes, patterns and pauses/transitions. Emphasis is placed on techniques to improve receptive skills, expressive fluency, and accuracy.

35 Trilingual Interpretation: American Sign Language, English, Spanish I (3) CSU

Prerequisite: American Sign Language 45 and Spanish 35.

LECTURE, 3 HOURS.

This course introduces ASL students to effective communication in Spanish-influenced settings. It includes exploring history and background of Deaf education in the U.S. and in Spanish-speaking countries, the variations of Latin American Spanish as well as strategies on how to interpret in contexts where code-switching, and Anglicisms are used. Students learn how to render successful interpretations in the presence of diverse linguistic registers and regionalisms.

36 Trilingual Interpretation: American Sign Language, English, Spanish II (3) CSU

Prerequisite: American Sign Language 35.

LECTURE, 3 HOURS.

The course explores strategies and techniques to effectively interpret in Spanish influenced settings, including simultaneous, consecutive, and three-person interactive interpretations.

40 Introduction to Deaf Culture (3) UC:CSU IGETC Area 4

LECTURE, 3 HOURS.

This course is an introduction to trends, concepts, and issues in Deaf culture and the Deaf community. It

emphasizes the Deaf community as a linguistic and American cultural minority, and the importance of language, values, traditions, and diversity in this group.

45 Deaf Latino Culture (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course is an introduction to trends, concepts, best practices, and issues in Deaf culture and the Deaf Latino community. It emphasizes general demographics, cultural knowledge, and terminology from the complex Deaf Latino cultural perspective.

55 Interpreting (4) CSU

Prerequisites: American Sign Language 6 and American Sign Language 10 and English 101.

Advisories: American Sign Language 23 and American Sign Language 65.

LECTURE, 4 HOURS.

Students develop interpreting skills from spoken English to American Sign Language (ASL) and ASL to spoken English in various contexts.

65 Transliterating (4) CSU

Prerequisites: American Sign Language 6 and American Sign Language 10 and English 101.

Advisories: American Sign Language 23 and American Sign Language 55.

LECTURE, 4 HOURS.

Development of beginning level simultaneous transliterating skills (spoken English to signed English and signed English to spoken English).

Chinese (CHINESE)

1 Elementary Chinese I (5) UC:CSU

LECTURE, 5 HOURS.

Note: Units cannot be earned for both Chinese 1 and Chinese 21.

This course develops basic skills in understanding, speaking, reading, and writing Mandarin Chinese. It concentrates on pronunciation, vocabulary, sentence structure and idiomatic expressions. The course also introduces geographical, historical, cultural and social features of Chinese speakers relevant to language learning. Students are expected to learn 250 written Chinese characters.

2 Elementary Chinese II (5) UC:CSU IGETC Area 6A

Prerequisite: Chinese 1.

LECTURE, 5 HOURS.

This course continues to develop listening, speaking, reading, and writing skills of Mandarin Chinese with an emphasis on pronunciation, vocabulary, sentence structures, idiomatic expressions, and written characters while improving accuracy and fluency, and also increasing an understanding of cultural features relevant to language learning.

3 Intermediate Chinese I (5) UC:CSU IGETC Area 3B, 6A

Prerequisite: Chinese 2.

LECTURE, 5 HOURS.

This course increases speed and fluency of Mandarin Chinese with expanding vocabularies and idioms in conversation, reading comprehension and written expression. Topics cover daily activities, relationships, college

life, employment, Chinese customs, traveling, geography, social issues, current events and comparisons between Chinese and American cultures.

7 Conversational Chinese (3) UC:CSU

Prerequisite: Chinese 2.

LECTURE, 3 HOURS.

This course increases listening comprehension and oral fluency in Mandarin Chinese through role-playing in practical situations and discussions with audiovisual aids. It enables students to carry on simple conversations about daily activities, current affairs, cultural events, travel information, and personal interests.

10 Chinese Civilization (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This is an introductory course to Chinese civilization and its cultural heritage. Chinese 10 surveys the development of China from the ancient period to the modern era, exploring the country's customs, political institutions, economic development, history, philosophy, literature, and art as well as science and technology. This course is taught in English.

61 Elementary Chinese Conversation (2) CSU

LECTURE, 2 HOURS.

This course is designed for students who do not have any previous Mandarin Chinese background, and introduces practical Chinese vocabulary, high-frequency expressions, and sentence patterns in a conversational setting. Themes discussed in class vary to meet the survival needs of students, tourists, and business people to function in Mandarin-speaking environments. Contemporary culture in Chinese-speaking regions is also introduced.

French (FRENCH)

1 Elementary French I (5) UC:CSU

LECTURE, 5 HOURS.

Note: Units cannot be earned for both French 1 and French 21.

This introductory course builds basic competencies in French through intensive practice of the sound system and study of grammatical patterns and expressions that prepare students to function within the contexts relevant to everyday life. Topics include greeting people and getting acquainted, comparing tastes and preferences in music, film, art, and other activities, telling time, making plans with others, and describing family and friends. Information about France and other French-speaking cultures of the world is presented through readings supported and enhanced by multimedia.

2 Elementary French II (5) UC:CSU IGETC Area 6A

Prerequisite: French 1.

LECTURE, 5 HOURS.

This course completes the introduction of basic structures of the French language. Emphasis is on developing vocabulary and refining communication skills needed to function in everyday situations. Further study of France and French-speaking cultures of the world is made through reading and class discussions enhanced by multimedia activities.

3 Intermediate French I (5) UC:CSU IGETC Area 3B, 6A

Prerequisite: French 2.

Advisory: French 10.

LECTURE, 5 HOURS.

This course reinforces the basic patterns of French and develops oral expression and reading proficiency. Focus is on establishing a firm linguistic base for self-expression by practicing key structures in a variety of communicative formats. Integrated film, video and readings from literature and the media foster increased awareness of French-speaking cultures.

4 Intermediate French II (5) UC:CSU IGETC Area 3B, 6A

Prerequisite: French 3.

Advisory: French 10.

LECTURE, 5 HOURS.

This course emphasizes the study of complex grammar and idioms through authentic texts and media derived from a variety of sources, including literature, film, art, history, and contemporary life. Analysis and discussion of works by well-known artists and writers are used to enable students to practice critical thinking skills as they develop proficiency in French through oral and written composition.

5 Advanced French I (5) UC:CSU IGETC Area 3B, 6A

Prerequisite: French 4.

LECTURE, 5 HOURS.

This course explores the works of selected French and Francophone writers from medieval to the present time while reviewing grammar and developing linguistic skills of a more advanced level. Topics include methods of literary analysis, review of literary tenses, advanced linguistic structure, stylistics, and the practice of writing research papers in French.

7 Conversational French (3) UC:CSU

Prerequisite: French 2.

LECTURE, 3 HOURS.

This course is designed for students who have taken introductory language courses in French and would like to develop their oral skills while exploring topics such as everyday life and routines, shopping, running errands, traveling, sports, family relations and celebrations, medical conditions, and education.

10 French Civilization (3) UC:CSU IGETC Area 3B

Advisory: French 2.

LECTURE, 3 HOURS.

This course is a study of the geography, history, government, and institutions of France. Readings on the French people, their customs and way of life, their values and important contributions to world culture in scientific, intellectual, and artistic domains are also included. The course is conducted in English.

21 Fundamentals of French I (3) UC:CSU

LECTURE, 3 HOURS.

French 21 is the first half of French 1. This course builds basic competencies in French through intensive practice of the sound system and study of grammatical patterns and expressions that prepare students to function within the contexts relevant to everyday life. Topics include greeting people and getting acquainted, comparing tastes and

preferences in music, film, art, and other activities, telling time, and making plans with others. Information about France and other French-speaking cultures of the world is presented through readings that are supported and enhanced by multimedia. Credit can not be earned for both French 1 and for French 21.

26 Understanding French Culture Through Film (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

In this course, students explore the prolific output of feature and documentary films that emphasize social and cultural themes in France. Discussion centers on how French film reflects the French social, cultural, and historical climate. Students become acquainted with the evolution of French cinema from the post WWII era to the present. The course is conducted in English. Films are subtitled in English.

61 Elementary French Conversation (2) CSU

LECTURE, 2 HOURS.

This course is designed to introduce the student to high-frequency expressions and practical French vocabulary in a conversational setting. The focus of the course varies according to the needs of the particular population, such as teachers, teachers' aides, tourists, or students in a study abroad program seeking to function in a French-speaking culture.

385 Directed Study - French (3) CSU

CONFERENCE 1 HOUR.

This is a directed study course conducted in French with a supervising instructor. The instructor and student will design a specific program of activities involving one or more of the following activities: theater workshop; reading and discussion of texts in French; preparation of interim and final reports.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Japanese (JAPAN)

1 Elementary Japanese I (5) UC:CSU

LECTURE, 5 HOURS.

Note: Units cannot be earned for both Japanese 1 and Japanese 21.

This course develops basic Japanese language proficiency in the four language skills--listening, speaking, reading, and writing--and introductory cultural knowledge. The course provides an active learning environment to obtain skills and includes some cultural activities to enhance learning.

2 Elementary Japanese II (5) UC:CSU IGETC Area 6A

Prerequisite: Japanese 1.

LECTURE, 5 HOURS.

This course offers students an opportunity to improve basic skill in understanding, speaking, reading and writing modern Japanese. Various cultural activities are included as a part of this course.

3 Intermediate Japanese I (5) UC:CSU IGETC Area 3B, 6A

Prerequisite: Japanese 2.

LECTURE, 5 HOURS.

This course provides additional training in comprehension, speaking, reading and writing modern Japanese. The reading materials include descriptions of daily and school life, cultural aspects, seasonal changes and activities, traveling, transportation, geography, food, and traditional customs.

4 Intermediate Japanese II (5) UC:CSU IGETC Area 3B, 6A

Prerequisite: Japanese 3.

LECTURE, 5 HOURS.

The course provides additional training in the comprehension, speaking, grammar, and reading and writing of modern Japanese. Topics and cultural information relevant to the daily lives of Japanese (i.e. food, transportation, seasons, geography, traveling and traditional customs) are included.

7 Conversational Japanese (3) UC:CSU

Prerequisite: Japanese 2.

LECTURE, 3 HOURS.

This course is designed for students who have taken introductory language courses in Japanese and would like to develop their oral skills while exploring topics such as everyday life and routines, shopping, traveling, free-time activities, family relations and celebrations, and education.

9 Japanese Civilization (3) UC:CSU IGETC Area 3B, 4F

LECTURE, 3 HOURS.

The course explores the origins and evolution of Japanese civilization. Topics include socio-political issues, religion, philosophy, and the arts. Lectures and discussions are in English.

61 Elementary Japanese Conversation (2) CSU

LECTURE, 2 HOURS.

This course is designed for students who do not have any previous Japanese background, and introduces basic and practical Japanese vocabulary, high-frequency expressions, and sentence patterns in a conversational setting. The focus of the course varies according to the needs of the particular population, such as teachers, teachers' aides, tourists, working professionals or students in a study abroad program seeking to function in a Japanese-speaking culture. Contemporary culture in Japan is also introduced.

385 Directed Study - Japanese (3) CSU

CONFERENCE 3 HOURS.

This course allows students to pursue directed study in Japanese on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Linguistics (LING)

7 Phonetics of Spanish, Italian, French, and German for Artistic Performance (3) UC:CSU

LECTURE, 3 HOURS.

This course is designed for voice majors to explore basic phonetics of Spanish, Italian, French, and German. The International Phonetic Alphabet (IPA) is introduced as the fundamental tool for improving diction for artistic performance. Students participate in oral and written exercises which improve their diction in these languages. This course is not a substitute for foreign language study.

Spanish (SPANISH)

1 Elementary Spanish I (5) UC:CSU (C-ID SPAN 100)

LECTURE, 5 HOURS.

This introductory course explores basic grammar and communication through listening, reading, speaking, and writing. It emphasizes clear pronunciation, vocabulary building, the study of grammatical patterns and expressions, and idiomatic usages that prepare students to function within the contexts relevant to everyday life. Culture and geography are also integrated through readings, and supported and enhanced by multimedia. This class is not designed for those students who grew up speaking Spanish. Those students should enroll in Spanish 35.

2 Elementary Spanish II (5) UC:CSU

IGETC Area 6A (C-ID SPAN 110)

Prerequisite: Spanish 1.

Note: Credit given for only one of Spanish 2 or Spanish 35.

LECTURE, 5 HOURS.

This course continues the introduction of the fundamentals of Spanish grammar, emphasizing communication of basic topics such as travel, housing, the extended family, health, shopping, and technology. The course stresses oral and written communication in the past, present, and future tenses and introduces basic compound tenses. Further studies on the cultural heritage of Latin America and Spain enrich students' understanding of the language.

3 Intermediate Spanish I (5) UC:CSU

IGETC Area 3B, 6A (C-ID SPAN 200)

Prerequisite: Spanish 2.

Note: Credit given for only one of Spanish 3 or Spanish 36.

LECTURE, 5 HOURS.

This intermediate course reviews the simple tenses, including the present, past, and future, and also introduces in

detail the subjunctive mood. Students develop skills in reading and writing in Spanish through work with journalistic articles, short stories and short films. This class also emphasizes the cultural heritage of Latin America and Spain.

4 Intermediate Spanish II (5) UC:CSU

IGETC Area 3B, 6A (C-ID SPAN 210)

Prerequisite: Spanish 3.

LECTURE, 5 HOURS.

This course explores oral and written expression through advanced grammar, focusing on the compound tenses in both indicative and subjunctive moods. A high emphasis is placed on reading and writing descriptive and narrative compositions while short stories, films, and journalistic articles serve to explore the cultural heritage of Latin America and Spain.

5 Advanced Spanish I (5) UC:CSU IGETC Area 3B, 6A*Prerequisite: Spanish 4 or 37.*

LECTURE, 5 HOURS.

This course is designed to help students develop the skills to interpret literary works from different genres, focusing on prose, poetry, and drama. Students analyze, interpret, and respond critically to literary works while they explore the formal elements that enrich the reading and writing experience. Works written in Spanish from Latin America, Spain, and the U.S. are included.

6 Advanced Spanish II (5) UC:CSU IGETC Area 3B, 6A*Prerequisite: Spanish 5.*

LECTURE, 5 HOURS.

This course introduces student to the four literary genres--poetry, prose, drama, essay--written in Spain and Latin America during different historical periods. Analysis of these texts will include how to identify literary devices and understand their purpose in conveying meaning. All literary works are analyzed within their historical framework. This course is conducted in Spanish.

7 Conversational Spanish (3) UC:CSU*Prerequisite: Spanish 2.*

LECTURE, 3 HOURS.

This course is designed for students who have taken introductory language courses in Spanish and would like to develop their oral skills while exploring topics such as everyday life and routines, shopping, running errands, traveling, sports, family relations and celebrations, medical conditions, and education.

9 Civilization of Spain (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course introduces the student to the origins and evolution of Spanish civilization. It will emphasize Spain's cultural history including the visual arts, literature, architecture, and music.

10 Latin-American Civilization (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course introduces students to the civilizations that have shaped Latin America. It explores how Amerindian,

European, and African societies contributed to the political, economic, and social development in the region as well as to the diverse cultural expressions of its people.

12 Survey of Mexican Literature (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

The course introduces students to variety of literary genres written in Mexico from different historical periods. General themes may include, but are not limited to: representation of indigenous identities, the Spanish conquest, gender representation, nation-building, the Revolution of 1910, the drug trade, modernization and globalization.

16 Mexican Civilization (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

The course explores the civilizations that have historically contributed to Mexico's economic, political, and social development. It further emphasizes the literature, music, art, and gastronomy that have shaped Mexico's cultural identity.

18 Conversational Spanish for Hospitality and Food Service Workers (3) CSU

LECTURE, 3 HOURS.

This course emphasizes oral communication for hospitality and food service personnel through vocabulary building, accurate pronunciation, and use of phrases and idiomatic expressions needed for daily communication.

19 Conversational Spanish for Public Safety Personnel (3) CSU

LECTURE, 3 HOURS.

This course emphasizes vocabulary-building, pronunciation, and an awareness of the linguistic variations of the Spanish-speaking communities in the Los Angeles area that enables public safety personnel to communicate effectively with these communities.

24 Spanish for Medical Personnel (3) CSU

LECTURE, 3 HOURS.

This course emphasizes oral communication for medical personnel through vocabulary-building exercises, useful phrases and expressions. Minor grammar structures are covered for the most common contexts in the medical field.

26 Understanding Latin America Through Film (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

In this course, students explore the prolific output of feature and documentary films that emphasize social themes, particularly social justice and political conflict in Latin America. Discussion centers on how various Latin American countries express their resistance to and engagement with repressive social and political practices that often seek to stifle the voice of marginalized groups. The course is conducted in English. Films are subtitled in English.

27 Cultural Awareness Through Advanced Conversation (3) UC:CSU*Prerequisite: Spanish 35.*

LECTURE, 3 HOURS.

This course is designed to improve oral, formal Spanish through class discussion, debates, and oral presentations

for those students who have some degree of proficiency in Spanish or are heritage speakers. Through the use of a variety of texts, including short stories, newspapers and magazines, essays, and specialized Web pages, students explore contemporary cultural topics in their political, economic, and social context, while addressing the structural and lexical differences between formal and informal Spanish. The course also promotes a greater awareness of the Spanish language in its historical, political, and social context. Included in the course are guest speakers, and/or community service projects.

35 Spanish for Spanish Speakers

I (5) UC:CSU IGETC Area 6A

LECTURE, 5 HOURS.

Note: Credit given for only one of Spanish 2 or Spanish 35.

This accelerated course is designed for students who have grown up speaking Spanish but have not formally studied it in an academic environment. It will stress the formal aspects of the language, including acquisition of vocabulary, spelling, and accent rules, and grammar, focusing on the present, past, and future tenses, and the present subjunctive. A high emphasis is placed on reading and writing. Students receive credit for either Spanish 2 or Spanish 35, but not both.

36 Spanish for Spanish Speakers II (5)

UC:CSU IGETC Area 3B, 6A (C-ID SPAN 220)

Prerequisite: Spanish 35.

LECTURE, 5 HOURS.

Note: Credit given for only one of Spanish 3 or Spanish 36.

This course is the second part of a sequence of two designed for students who are native speakers of Spanish but have had little or no academic preparation in standard Spanish. The course focuses on complex grammar, emphasizing the subjunctive mood and the compound tenses. A high emphasis is placed on reading and writing, including the use of written accents, spelling, and those areas of grammar with a high degree of English interference. Students also study the diverse cultures of the Spanish-speaking world. Students receive credit for Spanish 36 or Spanish 3 but not both.

37 Composition and Conversation for Spanish Speakers (5) CSU IGETC Area 3B, 6A (C-ID SPAN 230)

Prerequisite: Spanish 36.

LECTURE, 5 HOURS.

This course develops proficiency in writing and presentational modes of communication, through more complex forms of expression, including advanced grammar and formal structures of communication. Thematically, the course explores topics common to the literary and cultural production of the US Latino population. The course familiarizes students with authentic texts written in different styles to provide a platform from which to practice the presentational mode and various rhetorical modes of writing, such as description, narration, exposition, and argumentation. Final projects consist of a research paper and a formal presentation.

48 Introduction to Spanish Translation I (3) CSU

Prerequisite: Spanish 3 or Spanish 36.

LECTURE, 3 HOURS.

This course provides an introduction to basic translation theory with emphasis on advanced Spanish grammar, vocabulary, and idiomatic expressions. The focus is on English-to-Spanish translation of documents related to public services and community activities, as well as consumer-oriented texts such as commercial advertisements. Recommended for students whose career options require bilingual skills.

61 Elementary Spanish Conversation (2) CSU

LECTURE, 2 HOURS.

This course is designed to introduce the student to high-frequency expressions and practical Spanish vocabulary in a conversational setting. Themes discussed in class vary to meet the needs of particular populations, such as teachers, teachers' aides, tourists, and students seeking to function in Spanish-speaking cultures.

Music Department

S2-107M • (323) 265-8894

The ELAC Music Department provides an outstanding comprehensive curriculum for the student who aspires to become a professional musician, song writer, performing artist, music composer, plans to enter the teaching profession, for whom music is a part of a general education, or who intends to pursue an advanced degree in music.

The Applied Music Program meets the lower-division requirements of most colleges and universities offering a four-year curriculum leading to a bachelor's degree with a major in music. Our Commercial Music Program provides students comprehensive skills to make them competitive in the music industry, including in facets of the industry such as performing, recording, engineering, producing, song and score writing, music notation, and management. This industry offers jobs in promotion, sales, music business, and marketing that combine management skills with music. Our state-of-the-art recording studio, equipped with the latest sophisticated technology and software, gives students valuable hands-on training and experience.

Our distinguished faculty brings a depth of knowledge and experience to our students. Many are world-class musicians, performing on the international concert stage, as well as being active in numerous music organizations as established teachers and adjudicators. ELAC has performance opportunities in a wide variety of ensembles, including Orchestra, Jazz Band, Symphonic Band, Chamber Chorale, College Choir, and Philharmonic Choir, and Pop Ensemble. Our choirs and bands have garnered critical acclaim participating in numerous festivals and competitions, while our students place highly or win piano, vocal, instrumental and music theory competitions. Our S2 Music Building houses smart classrooms, a state-of-the-art recording studio, and a beautiful 350-seat recital hall with its exceptional acoustics allows our faculty and students to experience performing on a world-class concert stage. Please call (323) 265-8894 or visit our website at <https://www.elac.edu/academics/departments/music/index.htm> for information about performances, recitals, and other events, ticket reservations, or inclusion on the mailing list.

CERTIFICATES OF ACHIEVEMENT

Commercial Music: Instrumental Vocal Performer

The Certificate of Achievement in Instrumental/Vocal Performer is designed to assist students who are pursuing or planning to pursue careers in the field of music performance. The certificate is designed and managed by commercial music professionals and provides students with skill sets not typically required in traditional music curricula. Students master music theory, ear-training, vocal and/or instrumental technique, sight-reading skills, and ensemble skills. Students enjoy the hand-on approach offered by commercial and traditional music faculty, with labs being a primary source of direct learning and collateral experience.

ASSOCIATE DEGREE PROGRAMS

Commercial Music and Recording, Associate in Arts Degree

This program provides the student a comprehensive study in commercial music and recording arts. It is designed to award the Associate in Arts degree to those students who have completed a specialization in Commercial Music and Recording Arts. The requirements are chosen to optimize student preparation for upper-division coursework at a four-year institution leading to the major of Music or a field related to the discipline of Music. The degree program can

lead to careers in music composition, song writing, performance, music production, music business, music recording, or education.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Title 5 changes effective Fall 2013 substantially restrict how many times students can take specific types of classes. Students enrolled in “active participation courses” in Kinesiology, visual arts, or performing arts are limited to four (4) enrollments per “family”. Failures and W grades count as enrollments. A family can contain multiple courses, but a student can only take four of them. LACCD courses in, Art, Dance Techniques, Kinesiology, Music, and Theater are all affected. For courses in the Music department, families have been created as follows:

MUSIC FAMILY NAMES AND COURSE NUMBERS:

Classical GuitarMUSIC 651, 652, 653, 654
PianoMUSIC 321, 322, 323, 324, 341-1, 341-2, 341-3, 341-4
String InstrumentsMUSIC 611, 612, 613, 614
VoiceMUSIC 411, 412, 413, 414, 531
Woodwind InstrumentsMUSIC 621, 622, 623, 624

Music (MUSIC)

101 Fundamentals of Music (3) UC:CSU

Note: For the general student.

LECTURE, 3 HOURS.

This course is designed for the general student and is a study of the fundamentals of music, including notation, time signatures and rhythms, major and minor scales and key signatures, intervals, triads, and musical symbols and terminology. Students are introduced to the piano keyboard layout.

111 Music Appreciation I (3) UC:CSU

IGETC Area 3A (C-ID MUS 111)

LECTURE, 3 HOURS.

This course is a survey of musical masterpieces in western music from the Middle Ages to the present day with an emphasis on perceptive, active listening. Topics include the elements of music, musical forms, music periods, styles, musical genres, and the role of music and musicians in the western world.

116 Survey and History of Rock, Pop and Soul Music (3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS.

This course covers the origin, stylistic development, and cultural impact of rock, pop, and soul music. The course is designed to increase student awareness of the relationship between popular music and society.

118 Film Music Appreciation (3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS.

This introductory survey course helps students understand, appreciate, and analyze the relationship between music and moving images in film. From the “silent film” era to the present day, this course examines various ways that a wide variety of musical styles have combined with visuals to form cinematic experiences.

121 Music History and Literature I (3) UC:CSU IGETC Area 3A

Advisory: Music III.

LECTURE, 3 HOURS.

This course examines the relationship between Western classical music and the cultures surrounding it at various

points in history from antiquity to 1750. Major figures, trends, and developments in the early eras of Western classical music history (the Middle Ages, European Renaissance, and “Baroque” Era) are contextualized within their original social, political, economic, and other historical circumstances, as well as in the present day. Although this course is designed for music majors and other students who are fluent in reading music notation, it is open to all students.

122 Music History and Literature

II (3) UC:CSU IGETC Area 3A

Advisory: Music III.

LECTURE, 3 HOURS.

This course examines the relationship between Western classical music and the cultures surrounding it at various points in history from 1750 to the present day. Major figures, trends, and developments in the later eras of Western classical music history (the “Classical” Period, 19th, 20th, and 21st centuries) are contextualized within their original social, political, economic, and other historical circumstances, as well as in the present day. Although this course is designed for music majors and other students who are fluent in reading music notation, it is open to all students.

123 Opera Appreciation for Teachers (2) CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course is an introductory opera appreciation class and is an analysis of the history of opera from its beginnings in the late 16th century to the current day. This course analyzes how opera reflects the cultural and political attitudes of its time and is designed for teachers. The classes are held at the Los Angeles Opera facilities. Materials and strategies for integrating opera in the classroom are discussed, including tools for critical listening, examining the libretto, adapting source material, and more.

132 Music of Mexico (3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS.

This course introduces students to the predominant regional musical styles of Mexico, from Pre-Cuauhtemoc to contemporary times. Students examine a cross section of styles including folk, classical, sacred, secular, border, dance and pop. The students are exposed to the effect that Latin American, African and European cultures have had on Mexico and understand what effect the indigenous music of Mexico has had on the rest of the world.

141 Jazz Appreciation (3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS.

This course is the study of the elements of jazz literature and traces the development and evolution of styles and structure. Listening skills are developed to enable the student to recognize the many differences in individual solo as well as jazz ensemble interpretations.

161 Introduction to Music Technology (3) CSU

Advisory: Music 101.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course introduces students to the latest procedures used to produce music recordings in today’s music industry. In a state-of-the-art facility with the latest equipment, students receive practical real-world experience. They are exposed to the most advanced techniques as they produce their own projects.

165 Introduction to Recording Arts (3) CSU

LECTURE, 3 HOURS.

This course is an introduction to the theory and practice of acoustics, audio, and recording. Topics include the nature of sound, basic acoustics, audio systems and terminology, microphone principles and usage, recording styles, recording studio equipment, and multi-track recording procedures.

181 Applied Music I (0.5) UC:CSU (C-ID MUS 160)

Corequisite: Music 250-1.

LABORATORY, 1 HOUR.

This course offers individual instruction of one-half hour per week in voice, piano, guitar, or band/orchestral instruments, with an assigned instructor on the Applied Music staff. Emphasis is placed on technical development, interpretation, and musicianship at the lower-intermediate level. Performance for a faculty jury is required at the end of the semester. All students must successfully audition to enroll.

182 Applied Music II (0.5) UC:CSU (C-ID MUS 160)

Prerequisite: Music 181.

Corequisite: Music 250-2.

LABORATORY, 1 HOUR.

This course offers individual instruction of one-half hour per week in voice, piano, guitar, or band/orchestral instruments, with an assigned instructor on the Applied Music staff. Emphasis is placed on technical development, interpretation, and musicianship at the intermediate level. Performance for a faculty jury is required at the end of the semester.

183 Applied Music III (0.5) UC:CSU (C-ID MUS 160)

Prerequisite: Music 182

Corequisite: Music 250-3.

LABORATORY, 1 HOUR.

This course offers individual instruction of one-half hour per week in voice, piano, guitar, or band/orchestral instruments with an assigned instructor on the Applied Music staff. Emphasis is placed on technical development, interpretation, and musicianship at the upper-intermediate level. Performance for a faculty jury is required at the end of the semester.

184 Applied Music IV (0.5) UC:CSU (C-ID MUS 160)

Prerequisite: Music 183.

Corequisite: Music 250-4.

LABORATORY, 1 HOUR.

This course offers individual instruction of one-half hour per week in voice, piano, guitar, or band/orchestral instruments, with an assigned instructor on the Applied Music staff. Emphasis is placed on technical development, interpretation, and musicianship at the upper-intermediate/advanced level. Performance for a faculty jury is required at the end of the semester.

200 Introduction to Music Theory (4)

UC:CSU (C-ID MUS 125 and C-ID MUS 120)

Advisory: Music 101.

LECTURE, 3 HOURS; LABORATORY, 2 HOURS.

Designed for the Music major, this is an intensive review of all music fundamentals in preparation for Music 201 and 211. This course also includes an early introduction to the basic principles of harmonic analysis as well as a strong focus on ear training, singing solfege, and keyboard skills. It is strongly recommended that students entering Music 200 have prior basic knowledge of the fundamentals of music.

201 Harmony I (3) UC:CSU IGETC area 3A (C-ID MUS 130)

Prerequisite: Music 200.

Corequisites: Music 211.

LECTURE, 3 HOURS.

Note: Required of Music majors.

This course provides a study of diatonic harmony, including primary and secondary triads and the dominant seventh chord. Topics considered include the fundamental principles of part-writing in root position and inversions, the harmonization of simple melodies and figured bass lines, as well as harmonic analysis.

202 Harmony II (3) UC:CSU (C-ID MUS 140)

Prerequisite: Music 201.

Corequisites: Music 212.

LECTURE, 3 HOURS.

This course is the study of chromatic harmony including secondary functions, common chord modulations, mode mixture, the Neapolitan chord, and augmented sixth chords. Musical form is also covered.

203 Harmony III (3) UC:CSU (C-ID MUS 150)

Prerequisite: Music 202.

Corequisites: Music 213.

LECTURE, 3 HOURS.

This course continues the study of advanced chromatic harmony, including chromatic mediants, tall chords, altered chords, and enharmonic and chromatic modulation. Also included are twentieth century techniques such as modal harmony, Impressionism, tone rows, set theory, polytonality, pandiatonicism, and advanced meter/rhythm.

205 Commercial Harmony I (3) CSU

Prerequisite: Music 101.

LECTURE, 3 HOURS.

This course explores harmonic chord progressions used in popular music including rock, jazz, Latin, funk and fusion, among others. Students are introduced to song writing by adding a melody over given harmonic structures.

206 Commercial Harmony II (3) CSU

Prerequisite: Music 205.

LECTURE, 3 HOURS.

This course is a continuation of Commercial Harmony I. Students incorporate extended and altered chords to enhance the basic chord progressions previously learned to compose original compositions using different instrumentation

and styles. A variety of compositional techniques and considerations as they apply to client needs, time, and budget constraints are also discussed.

211 Musicianship I (1) UC:CSU (C-ID MUS 135)

Prerequisite: Music 200.

Corequisite: Music 201.

LABORATORY, 3 HOURS.

This course is correlated to Music 201 or Harmony I. It includes singing diatonic intervals and melodies, two part play-and-sing drills, playing and singing diatonic chord progressions, and simple rhythmic, melodic, and harmonic dictation.

212 Musicianship II (1) UC:CSU (C-ID MUS 145)

Prerequisite: Music 211.

Corequisite: Music 202.

LABORATORY, 3 HOURS.

This course is correlated to Music 202 or Harmony II. Students apply and develop the rhythmic, melodic, and harmonic materials of more advanced diatonic and beginning chromatic harmony through sight singing, keyboard playing, and ear training.

213 Musicianship III (1) UC:CSU (C-ID MUS 155)

Prerequisite: Music 212.

Corequisite: Music 203.

LABORATORY, 3 HOURS.

This course is correlated to Music 203 or Harmony III. Students apply and develop the rhythmic, melodic, and harmonic materials of advanced chromatic and twentieth century techniques through sight singing, keyboard playing, and ear training.

241 Music Notation and Copying I (1) CSU

Prerequisite: Music 101.

LECTURE, 1 HOUR.

This course provides instruction and experience in the 'much in demand' field of music notation. Students receive 'hands-on' training in how to create computer generated sheet music as is needed in the music industry.

242 Music Notation and Copying II (1) CSU

Prerequisite: Music 241.

LECTURE, 1 HOURS.

This course provides advanced instruction and 'hands-on' training in computer music notation. Students receive experience on professional projects in preparation for entering the music industry at an entry-level position.

250-1 Music Performance Workshop I (1) UC:CSU

Corequisite: Music 181.

LABORATORY, 3 HOURS.

This course provides students the opportunity to perform in a master class environment. This includes concert preparation, practice techniques, memorization, stage deportment, and critical analysis of performances.

250-2 Music Performance Workshop II (1) UC:CSU

Corequisite: Music 182.

LABORATORY, 3 HOURS.

This course is the second level of Music Performance Workshop and provides students the opportunity to perform in a master class environment. This second level focuses on musical interpretation and includes concert preparation, further practice techniques, memorization, stage deportment, and critical analysis of performances.

250-3 Music Performance Workshop III (1) UC:CSU

Corequisite: Music 183.

LABORATORY, 3 HOURS.

This course is the third level of Music Performance Workshop and provides students the opportunity to perform in a master class environment. This level includes preparation as life as a musician, entrepreneurship, some music business topics, concert preparation, practice techniques, memorization, stage deportment, and critical analysis of performances.

250-4 Music Performance Workshop IV (1) UC:CSU

Corequisite: Music 184.

LABORATORY, 3 HOURS.

This course is the fourth level of Music Performance Workshop and provides students the opportunity to perform in a master class environment. This course includes concert preparation, practice techniques, memorization, stage deportment, performance anxiety, performance success, and critical analysis of performances.

251 Jazz Improvisation Workshop (1) UC:CSU

LABORATORY, 3 HOURS.

This course trains students in the art of instrumental improvisation in a traditional jazz setting. Topics include scales and chord structures involved in traditional jazz and pop. Each student is given the opportunity to experience spontaneous composition while other students accompany them. Sufficient instrumental skills are necessary before taking this course; therefore, this course is not for beginners.

261- 1 Music Technology Workshop I (1) CSU

Prerequisite: Music 161.

LECTURE, 2 HOURS; LABORATORY 2 HOURS.

This course is a continuation of Music 161 and is a part of the ProTools series of certification courses. Students apply advanced electro-acoustic music equipment, software and techniques used in a contemporary music project studio. The production of music using advanced synthesis, computer applications, MIDI, signal processing, and recording techniques are emphasized.

271 Songwriters' Workshop I (3) UC:CSU

LECTURE, 3 HOURS.

Students learn song composition and the conventions of songwriting including melodic construction, lyrics and text underlay, the relationship of lyrics and music, harmony, and song structures. Students analyze a wide variety of songs and apply the conventions of songwriting in their composition and performance of original songs.

280 The Business of Commercial Music (3) CSU

LECTURE, 3 HOURS.

This course explores the many careers available in the Music Industry. Students will learn how to establish a relationship with record labels as well as promote and market their music on the Internet. Some of the topics covered in the class include: Copyrights, publishing, record contracts, and group dynamics.

281 Commercial Music Techniques I (3) CSU

Prerequisite: Music 101.

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course specializes in the skills and knowledge necessary to produce live recording sessions. Simple music writing, orchestration, recording procedures, and mixing are covered. Students receive the experience of conducting recording sessions with professional musicians playing the student's compositions.

295 Computer Music Recording (1) CSU

Prerequisite: Music 101.

LECTURE, 1 HOUR.

This course introduces students to the process of recording music on computers using M.I.D.I. software. They receive practical training with M.I.D.I. controllers, software sound sources, and computer mixing. Knowledge of the piano keyboard is recommended.

321 Elementary Piano I (2) UC:CSU

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

This course provides instruction in basic piano skills, with emphasis on proper technique, note-reading, playing five-finger patterns, scales, chord progressions, transposition, basic musicianship, and beginning pieces. Music theory and terminology are also covered.

322 Elementary Piano II (2) UC:CSU

Prerequisite: Music 321.

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

This course provides continuing instruction in basic piano skills, emphasizing all major and selected minor scales, primary chord progressions, triads, transposition, harmonization, repertoire and memorization.

323 Elementary Piano III (2) UC:CSU

Prerequisite: Music 322.

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

This course is continued instruction in developing and refining piano skills with emphasis on major and minor scale techniques, chord progressions, triads, arpeggios, harmonization, transposition, memorization, and moderate to advanced beginning-level repertoire from the major historical periods.

324 Elementary Piano IV (2) UC:CSU

Prerequisite: Music 323.

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

This course continues instruction in developing and refining piano skills with emphasis on piano technique, harmonization, transposition, stylistic consideration, and more advanced beginning repertoire from the major historical periods.

341-1 Intermediate Piano I (2) UC:CSU

Prerequisite: Music 324.

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

This course is for those having studied two or more years of private or class piano. Piano technique, stylistic consideration, and interpretation are further explored through the study and performance of level one intermediate piano literature from the four stylistic periods: Baroque, classical, Romantic, and 20th/21st centuries. Exercises for further technical development are also studied.

341-2 Intermediate Piano II (2) UC:CSU

Prerequisite: Music 341-1.

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

This course further explores piano technique, stylistic consideration, and interpretation through the study and performance of level two intermediate piano literature from the four stylistic periods: Baroque, classical, Romantic, and 20th/21st centuries, building on skills acquired in Music 341-1. Exercises for further technical development are also studied.

341-3 Intermediate Piano III (2) UC:CSU

Prerequisite: Music 341-2.

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

This course further explores piano technique, stylistic consideration, and interpretation through the study and performance of level three intermediate piano literature from the four stylistic periods: Baroque, classical, Romantic, and 20th/21st centuries, building on skills acquired in Music 341-2. Exercises for further technical development are also studied.

341-4 Intermediate Piano IV (2) UC:CSU

Prerequisite: Music 341-3.

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

This course further explores piano technique, stylistic consideration, and interpretation through the study and performance of level four intermediate piano literature from the four stylistic periods: Baroque, classical, Romantic, and 20th/21st centuries, building on skills acquired in Music 341-3. Exercises for further technical development are also studied.

411 Elementary Voice I (2) UC:CSU

Advisories: Music 101 and 501.

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

The course is the first level of beginning voice instruction. The purpose of this course is to train the singing voice. Students use their voice to the maximum advantage and develop its range and power, interpret songs suited to their ability and develop their appreciation of music.

412 Elementary Voice II (2) UC:CSU

Prerequisite: Music 411.

Advisories: Music 501 and 561.

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

This course is the second level of beginning voice instruction. The purpose of this course is to train the singing voice. Students use their voice to the maximum advantage and develop range and power, interpret songs suited to their ability and develop their appreciation of vocal repertoire.

413 Elementary Voice III (2) UC:CSU

Prerequisite: Music 412.

Advisories: Music 501 and 561.

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

This is the third level of beginning voice instruction. The purpose of this course is to train the singing voice. Students use their voice to the maximum advantage and develop range and power, interpret songs suited to their ability, and develop their appreciation of vocal repertoire.

414 Elementary Voice IV (2) UC:CSU

Prerequisite: Music 413.

Advisories: Music 501 and Music 561.

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

This course is the fourth level of beginning voice instruction. The purpose of this course is to train the singing voice with healthy, vocal techniques. Students use their voice to the maximum advantage and develop its range, placement, tonal quality, agility, power, intonation, freedom, song interpretation, and develop their appreciation of song repertoire. Practice techniques, practice scheduling, and discipline are highly stressed and explored.

501 College Choir (1) UC:CSU RPT3 (C-ID MUS 180)

Advisories: Music 101 and 411.

Laboratory, 3 hours. Note: Students audition at the beginning of the semester.

This course is an introduction to choral ensemble singing. Emphasis is on vocal technique and choral elements such as blend, intonation, diction, and music reading. Repertoire is chosen on the basis of group ability and represents historical and current styles of music. Students are required to perform in a public performance at the end of the semester.

531 Philharmonic Choir (1) UC:CSU (C-ID MUS 180)

LABORATORY, 3 HOURS.

This course is designed so that the student prepares, rehearses, and performs selected musical works for a large intermediate choir, focusing on rhythmic precision, good intonation, diction, dynamics, expression, blend and balance, following the conductor, appropriate performance practice, and professional standards of conduct. (Confirmation of enrollment subject to audition.)

561 Chamber Chorale (1) UC:CSU RPT3 (C-ID MUS 180)

Advisories: Music 411, 412, 413 and 414.

LABORATORY, 3 HOURS.

Note: Confirmation of enrollment is subject to audition.

This course is designed for the intermediate choral singer. The students analyze, rehearse and perform choral music suited to a small group of singers, with and without accompaniment. Choral literature from the Renaissance through the 21st century is explored. Emphasis is on increased skill in reading music and sight singing, score interpretation, vocal technique, diction, ear training, and preparation for public performances.

611 String Instrument Instruction I (2) UC:CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course offers instruction in violin, viola, cello, and bass. It is recommended for students interested in learning to play, write, and arrange for string instruments.

612 String Instrument Instruction II (2) UC:CSU

Prerequisite: Music 611.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course is the second level of instruction in violin, viola, cello, and bass. The class develops string techniques and is recommended for students interested in learning to play a string instrument as well as writing and arranging music for string instruments.

613 String Instrument Instruction III (2) UC:CSU

Prerequisite: Music 612.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course is the third level of instruction in violin, viola, cello, and bass. The class develops string techniques and is recommended for students interested in further developing their skills to play a string instrument with increased emphasis on advanced bow and fingering techniques and advanced music reading skills as well as writing and arranging music for string instruments.

614 String Instrument Instruction IV (2) UC:CSU

Prerequisite: Music 613.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course is the fourth level of instruction in violin, viola, cello, and bass. The class covers very advanced string instrument techniques and is recommended for advanced students interested in furthering their skills to play a string instrument, with primary emphasis on development of very advanced bowing and fingering techniques, shifting to higher positions (7th through 11th), and advanced music reading skills as well as writing and arranging music for string instruments.

621 Woodwind Instrument Instruction I (2) UC:CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

Students learn basic woodwind instrumental techniques. The instruments may include: Flute, oboe, clarinet, bassoon, and saxophone. Students must provide their own instruments.

622 Woodwind Instrument Instruction II (2) UC:CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

Prerequisite: Music 621.

This course is the second level of instruction for flute, oboe, clarinet, bassoon, and saxophone. The class continues to develop more advanced woodwind techniques. There is a stronger emphasis on music reading skills, embouchure development and endurance, as well as range. Students must provide their own instruments. (If prerequisite is not met, enrollment is subject to audition.)

623 Woodwind Instrument Instruction III (2) UC:CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

Prerequisite: Music 622.

This course is the third level of instruction in flute, oboe, clarinet, bassoon, and saxophone. The class continues to develop more advanced instrument techniques. The primary emphasis is on performance skills and more complex rhythmic notation. Students must provide their own instruments. (If prerequisite is not met, enrollment is subject to audition.)

624 Woodwind Instrument Instruction IV (2) UC:CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

Prerequisite: Music 623.

This course is the fourth level of instruction in flute, oboe, clarinet, bassoon and saxophone. Primary emphasis is on the refinement of advanced instrumental techniques, as well as advanced examination of solo and small ensemble literature. Students provide their own instruments. (If prerequisite is not met, enrollment is subject to audition.)

651 Classical Guitar I (2) UC:CSU

LECTURE, 1 HOUR; LABORATORY-PERFORMANCE, 2 HOURS.

This course consists of basic instruction in classical guitar playing at beginning level. It includes fundamental music reading, right and left hand playing techniques, and exercises to develop technical facility, basic chords sight-reading, and performance of elementary solo guitar repertoire.

652 Classical Guitar II (2) UC:CSU

Prerequisite: Music 651.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course consists of the second level of continued study of basic instruction in classical guitar playing. It includes music reading, right and left hand playing techniques, and exercises to develop technical facility, basic chords, sight-reading and performance of second level elementary solo guitar repertoire. This course is a continuation of Music 651.

653 Classical Guitar III (2) UC:CSU

Prerequisite: Music 652.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course consists of the third level of continued study of basic instruction in classical guitar playing. It includes music reading, right and left hand playing techniques, and exercises to develop technical facility, chords, sight-reading, and performance of solo guitar repertoire. This course is the continuation of Music 652.

654 Classical Guitar IV (2) UC:CSU

Prerequisite: Music 653.

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course consists of the fourth level of continued study of basic instruction in classical guitar playing. It includes music reading, right and left hand playing techniques, and exercises to develop technical facility, chords, sight-reading, and performance of solo guitar repertoire. This course is the continuation of Music 653.

721 Orchestra (1) UC:CSU RPT3 (C-ID MUS 180)

LABORATORY, 3 HOURS.

This course provides an opportunity for musicians who play string, woodwind, brass, and percussion instruments to be a part of a performing ensemble that rehearses orchestral literature until it reaches performance level. The orchestra performs during the semester. Students must already play an instrument and are auditioned at the beginning of the semester.

745 Symphonic Band (1) UC:CSU RPT3 (C-ID MUS 180)

LABORATORY, 3 HOURS.

Note: Confirmation of enrollment is subject to audition.

This course provides training and experience in rehearsal and performance of music suitable for symphonic band, discussion of various aspects of ensemble musical performances and technique and practice in symphonic band literature. Students are required to perform at community and college events both on and off campus.

775 Jazz Ensemble (1) UC:CSU RPT3 (C-ID MUS 180)

LABORATORY, 3 HOURS.

Note: Proficiency on a band instrument.

This course consists of the study of standard Jazz Ensemble literature with the intent to develop an individual's technical and artistic abilities through experiences with a wide range of Jazz Ensemble literature. Public performances are presented. Theory, history, rehearsal and performance of music in Jazz idiom are covered. Students participate in a large ensemble typically consisting of 15 hours, rhythm section, bass, drum set, piano, guitar and optional vocalist. Instructional trips are required. This course is an overview of various techniques and interpretation as applied to Jazz Ensemble and performance. (Enrollment Subject to audition).

783-1 Pop Music Workshop I (1) CSU

LABORATORY, 3 HOURS.

In this course, students are assigned pop songs, folk music, rock music, musical pieces, and/or Broadway musical songs, rehearse and perform in a variety of small combo settings. Emphasis is placed on presentation, live performances, and interaction with student arrangers.

783-2 Pop Music Workshop II (1) CSU

Prerequisite: Music 783-1.

LABORATORY, 3 HOURS.

This is the second level in this course sequence. Students are assigned second level pop songs, folk music, rock music, musical pieces, and/or Broadway musical songs, rehearse and perform in a variety of small combo settings. Emphasis is placed on presentation, live performances, and interaction with student arrangers.

783-3 Pop Music Workshop III (1) CSU

Prerequisite: Music 783-2.

LABORATORY, 3 HOURS.

This is the third level of this course. Students are assigned third level pop songs, folk music, rock music, musical pieces, and/or Broadway musical songs, rehearse and perform in a variety of small combo settings. Emphasis is placed on presentation, live performances, and interaction with student arrangers.

783-4 Pop Music Workshop IV (1) CSU

Prerequisite: Music 783-3.

LABORATORY, 3 HOURS.

This is the fourth level in this course sequence. Students are assigned fourth level pop songs, folk music, rock music, musical pieces, and/or Broadway musical songs, rehearse and perform in a variety of small combo settings. Emphasis is placed on presentation, live performances, and interaction with student arrangers.

185 Directed Study - Music (1) CSU

285 Directed Study - Music (2) CSU

385 Directed Study - Music (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Music on a contract basis under the direction of a supervising instructor. The courses will grant credit for one, two or three semester units, respectively. The complexity of the topic of study will determine which course the student should take.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

EDUCATIONAL PROGRAMS

The Nursing Department offers three state-approved programs for both generic students and licensed vocational nurses to become registered nurses. At the conclusion of our programs, the student is eligible to take the registered nurse licensure examination, NCLEX-RN.

CERTIFICATE OF ACHIEVEMENT

- Licensed Vocational Nurse to Registered Nurse, (30 unit option)

ASSOCIATE DEGREE PROGRAMS

- Nursing, Registered (R.N).
- Licensed Vocational Nurse to Registered Nurse

CERTIFICATE OF ACHIEVEMENT

Licensed Vocational Nurse to Registered Nurse (30 unit option/non-graduate)

Prerequisites include a current California VN license. (High school graduate or equivalent required prior to BRN licensure examination NCLEX - RN.

Students must complete Physiology I and Microbiology I or 20 before enrolling in core requirements 8 -9

First Semester

SUBJECT & NO.	COURSE	UNITS
NURSING 267*	Nursing Process and Practice in the Care of the Adult Client II	4

NURSING 268*	Nursing Process and Practice in the Care of Clients with Alterations in Mental Health.....	4
NURSING 276**	Introduction to the Nursing Process.....	1.5
NURSING 277**	Health Assessment.....	1.5

NURSING 272*	Nursing Process and Practice in the Care of the Adult Client IV	6
NURSING 274*	Role Transition II.....	0.5
Total.....		31-32

*This course has a prerequisite.

**This course has a corequisite.

ASSOCIATE DEGREE PROGRAMS

Nursing, Registered (R.N), Associate in Science Degree

PREREQUISITES FOR FALL 2019-2020

- High School graduate, or equivalent (GED or California High School Proficiency Test or United States College Degree).
- GPA demonstrating satisfactory academic progress. GPA of 2.5 overall in Anatomy/Physiology and Microbiology.
- Satisfactory completion of each of the following college courses before entering the program (all required course must be completed with a grade of "C" or better):
 - Anatomy I/Physiology I: College courses in Anatomy/Physiology* with laboratory (minimum 8 semester units) or Biology 20 (a combined course of Anatomy/Physiology).

*Has Chemistry prerequisite (1 year high school chemistry with a Laboratory, acceptable provided a minimum satisfactory grade "C" was achieved in both semesters).

- Microbiology 1 or 20: Microbiology with laboratory (minimum 4 semester units).
 - Psychology I: General Psychology (minimum 3 semester units).
 - Psychology 4I: Life-Span Psychology (minimum 3 semester units).
 - Math 125 or 125S or 134: Intermediate Algebra.
 - English 101: College Reading and Composition I (minimum 3 semester units).
- Health: The student must be free from any condition that would present a threat to the well-being of the consumer (Title 22, California Code of Regulations, Division, Section 70723 (a). A complete physical examination with select immunizations will be required upon acceptance.

In order for an application to be considered, a completed packet must be received in the Nursing Office.

Note: DO NOT SUBMIT APPLICATIONS OR TRANSCRIPTS TO THE ADMISSIONS OFFICE. INCOMPLETE APPLICATIONS WILL NOT BE REVIEWED.

The Nursing program maintains a waiting list of all eligible applicants. Selection of students is done by lottery. Students who have met the criteria for selection will be notified by email and reminded that names are on the waiting list.

To expedite receipt of your transcripts, request that all transcripts be mailed to your home, then bring them to nursing unopened.

Note: Anticipate completion of a background check before entering the Nursing Program; if unsuccessful, you will not be admitted.

The following courses are required in order to receive an Associate in Science (A.S.) degree in Nursing:

Nursing Core Courses:

Nursing 276 and 277 1.5 units each
Nursing 265, 266, 267, 268, 270, 271 4 units each
Nursing 269 5.5
Nursing 272 6
Nursing 273/274 0.5/0.5
Nursing 275A/B 1 unit each

**Nursing core courses are short-term, 5, 6, and 8 weeks each.*

All courses have clinical components EXCEPT Nursing 276, Nursing 275A/B, Nursing 273 and Nursing 274.

The 4, 5.5 unit and 1.5 unit courses have a clinical component.

Nursing clinical or laboratory classes are scheduled in select healthcare facilities during the day and/or evening shifts, Monday - Sunday.

The program of integrated general education and nursing core courses is as follows:

Note: The Nursing courses listed below are eight weeks in length. See Prerequisites for acceptance into program.

First Semester

SUBJECT & NO.	COURSE	UNITS
NURSING 265**	Fundamentals of Nursing.....	4
NURSING 266**	Nursing Process and Practice in the Care of the Adult Client I.....	4
NURSING 276**	Introduction to the Nursing Process.....	1.5
NURSING 275A	Pharmacology Part I.....	1
NURSING 275B*	Pharmacology Part II.....	1
NURSING 277**	Health Assessment.....	1.5
KIN or DANCETQ	Any Area E2 activity course.....	1

Second Semester

SUBJECT & NO.	COURSE	UNITS
NURSING 267*	Nursing Process and Practice in the Care of the Adult Client II.....	4
NURSING 268*	Nursing Process and Practice in the Care of Clients with Alterations in Mental Health.....	4

NURSING 270*	Nursing Process and Practice in the Care of Children.....	4
NURSING 272*	Nursing Process and Practice in the Care of the Adult Client IV.....	6
NURSING 274*	Role Transition II.....	0.5
GENERAL EDUCATION REQUIREMENTS AREA B1		3
Total		74.5

**This course has a prerequisite.*

***This course has a corequisite.*

Licensed Vocational Nurse to Registered Nurse, Associate in Science Degree

Includes current California VN LICENSE. NURSING 276 and 277 must be taken the semester prior to the start of the regular semester. The curriculum for the L.V.N. who chooses Option 1 is the same as that of a generic R.N. student. Credit will be given for Nursing 265, 266, and Nursing 275 A/B.

PREREQUISITES FOR FALL 2018

- a. High School graduate, or equivalent (GED or California High School Proficiency Test or United States College Degree).
- b. GPA demonstrating satisfactory academic progress, however, a 2.5 GPA must be attained in Anatomy/Physiology and Microbiology.
- c. Satisfactory completion of each of the following college courses before entering the program: (all required recourses must be completed with a grade of "C" or better).
 - 1. Anatomy 1/Physiology 1: College courses in Anatomy/Physiology* with laboratory (minimum 8 semester units) or Biology 20 (a combined course of Anatomy/Physiology).

**Has Chemistry prerequisite (1 year high school chemistry with a Laboratory, acceptable provided a minimum satisfactory grade "C" was achieved in both semesters).*

- 2. Microbiology 1 or 20: Microbiology with laboratory (minimum 4 semester units).
- 3. Psychology I: General Psychology (minimum 3 semester units).
- 4. Psychology 41: Life-Span Psychology (minimum 3 semester units).
- 5. Math 125 or 125S or 134: Intermediate Algebra.

- 6. English 101: College Reading and Composition I (minimum 3 semester units).
- d. Health: The student must be free from any condition that would present a threat to the well-being of the consumer (Title 22, California Code of Regulations, Division, Section 70723 (a). A complete physical examination with select immunizations will be required upon acceptance.

The following General Education courses should be completed before applying to the LVN degree program.

1. Communication Studies 101 (3 units)
2. Sociology I or II or Anthropology 102 (3 units)
3. Humanities (any course from the graduation requirements list in the area of Humanities) (3 units)
4. American Institutions or U.S. History (3 units)
5. LACCD General Education Area E2 activity course (1 unit)

In order for an application to be considered, a completed packet must be received in the Nursing Office.

Note: The student is not considered a graduate of this nursing program and does not qualify for the A.S. degree. Students selecting this option must be counseled by the Nursing Chairperson.

The program of integrated general education and nursing core courses is as follows:

Note: The Nursing courses listed below are eight weeks in length. See Prerequisites for acceptance into program.

First Semester

*This course has a prerequisite.

**This course has a corequisite.

SPECIAL NOTES: Applied to All Curricula

1. Nursing courses are scheduled sequentially in each quarter/semester and must be completed before progressing to the next semester.
2. No substitutions are allowed for the general education courses as all subjects must meet with the board of registered nursing approval.
3. Please check the catalog for the transfer status of the General Education courses under Graduation Plan "B". Completion of ELAC's Nursing Degree Program is transferable to CSU and UC systems. SCHOLASTIC REQUIREMENT: Satisfactory completion required in all General Education and Nursing courses.
4. See Nursing Student Handbook for Challenge/Transfer information.
5. Students who have a break in enrollment from a core nursing course will be Subject to the new prerequisites, corequisites, and policies in effect when they return.
6. Malpractice Insurance is required for the nursing program.
7. Background checks must be done and successfully completed by all students accepted into the program. Students failing the background check will not be allowed to start the program.
8. Students transferring from another school of nursing will be evaluated by a Nursing Department Committee for nursing course transfer credit. Syllabi and college catalog must accompany application. In addition, all transfers must submit a letter from their former nursing chairperson stating they are clinically safe.
9. LVNs doing 30-unit option may not transfer from the certificate program to the degree program once the program starts.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Nursing (NURSING)

252 Mathematics of Drugs and Solutions (2) CSU

LECTURE, 2 HOURS

This elective course involves the computation of drug dosages and the conversion of the three major systems (metric, apothecary, and household) of measurement necessary for the administration of medications.

265 Fundamentals of Nursing (4) CSU

Prerequisites: Nursing 276, 277, 275A and 275B.

LECTURE, 2 HOURS; LABORATORY, 6 HOURS.

This course introduces fundamental concepts of the nursing profession, including its history, theory, ethical, and legal considerations as well as program's conceptual framework utilizing the Nursing Process, Maslow's Hierarchy of Needs, and Erikson's Developmental Theory.

266 Nursing Process and Practice in the Care of the Adult Client I (4) CSU

Prerequisite: Nursing 265.

LECTURE, 2 HOURS; LABORATORY, 6 HOURS.

This beginning medical-surgical nursing course integrates critical thinking skills as it introduces the student to concepts and principles of basic nursing care for clients with alterations in hematological, immunological, oncological and integumentary systems utilizing the Nursing Process, Maslow's Hierarchy of Needs, and Erikson's Developmental Theory.

267 Nursing Process and Practice in the Care of the Adult Client II (4) CSU

Prerequisite: Nursing 266.

Corequisite: Nursing 273.

LECTURE, 2 HOURS; LABORATORY, 6 HOURS.

This medical-surgical nursing course provides theoretical and clinical experiences in the care of the adult client with alterations in oxygenation, ventilation, tissue perfusion, metabolic, hormonal regulation utilizing the Nursing Process, Maslow's Hierarchy of Needs, and Erikson's Developmental Theory.

268 Nursing Process and Practice in the Care of Clients with Alterations in Mental Health (4) CSU

Prerequisite: Nursing 266.

Corequisite: Nursing 273.

LECTURE, 2 HOURS; LABORATORY, 6 HOURS.

This course provides theoretical and clinical experience in the care of clients with alterations in mental health utilizing the Nursing Process, Maslow's Hierarchy of Needs, and Erikson's Developmental Theory.

269 Nursing Process and Practice in the Care of the Adult Client III (5.5) CSU

Prerequisites: Nursing 267, 268, 273.

LECTURE, 3 HOURS; LABORATORY, 7.5 HOURS.

This medical-surgical nursing course provides theoretical and clinical experiences in the care of the adult client with alterations in genitourinary, fluid/electrolyte,

musculoskeletal, gastrointestinal, and hepatobiliary systems utilizing the Nursing Process, Maslow's Hierarchy of Needs, and Erikson's Developmental Theory.

270 Nursing Process and Practice in the Care of Children (4) CSU

Prerequisites: Nursing 269 and 271.

LECTURE, 2 HOURS; LABORATORY, 6 HOURS.

This course is designed to prepare the student to provide safe and effective nursing care to the pediatric client utilizing the Nursing Process, Maslow's Hierarchy of Needs, and Erikson's Developmental Theory. Theoretical/clinical concepts include health maintenance and complications emphasizing emotional, psychosocial, cultural, and legal aspects.

271 Nursing Process and Practice in the Care of Women and the Newborn (4) CSU

Prerequisites: Nursing 267, 268, and 273.

LECTURE, 2 HOURS; LABORATORY, 6 HOURS.

The course is designed to prepare the student to undertake his/her role in providing safe and effective care to women and the newborn. Emphasis is made on the physiological care and complications, including the emotional, psychological, cultural and legal aspects, utilizing the Nursing Process, Maslow's Hierarchy of Needs, and Erikson's Developmental Theory. Clinical experience is provided in a variety of community settings.

272 Nursing Process and Practice in the Care of the Adult Client IV (6) CSU

Prerequisites: Nursing 269 and 271.

LECTURE, 3 HOURS; LABORATORY, 9 HOURS.

This medical-surgical nursing course provides theoretical and clinical experiences in the care of adult clients with complex medical and/or surgical alterations and emergency situations utilizing the Nursing Process, Maslow's Hierarchy of Needs, and Erikson's Developmental Theory.

273 Role Transition (.5) CSU

Prerequisite: Nursing 266.

Corequisites: Nursing 267 and Nursing 268.

LECTURE, 0.5 HOUR.

This course introduces the role of professional nursing from past to present, addressing legal/ethical issues and delivery of care in a multicultural society. Emphasis is placed on professional accountability and the ability to demonstrate critical thinking when solving complex client care issues.

274 Role Transition II (0.5) CSU

Prerequisites: Nursing 270 and 272.

LECTURE, 0.5 HOUR.

This theory course is the second Role Transition class which offers students the opportunity to explore major factors involved in the transition from the student role to that of the professional registered nurse, focusing on effective leadership and management, utilizing the Nursing Process, Maslow's Hierarchy of Needs, and Erikson's Developmental Theory in managing client care.

275A Pharmacology Part I (1) CSU

Corequisites: Nursing 276 and 277.

LECTURE, 1 HOUR.

This course introduces basic pharmacological therapy and mathematical computations of drugs to first year nursing students utilizing the Nursing Process, Maslow's Hierarchy of Needs, and Erikson's Developmental Theory.

275B Pharmacology Part II (1) CSU

Prerequisites: Nursing 275A.

LECTURE, 1 HOUR.

This course focuses on the nurse's role and responsibilities in the medication administration process. Emphasis is placed on assessment of a client's health status, knowledge of various pharmacological agents, expected outcomes and health teaching utilizing the Nursing Process, Maslow's Hierarchy of Needs, and Erikson's Developmental Theory.

276 Introduction to the Nursing Process (1.5) CSU

Corequisites: Nursing 277, Nursing 275A and 275B.

LECTURE, 1.5 HOURS.

This course introduces Nursing Process, critical thinking, Maslow's Hierarchy of Needs, and Erikson's Developmental Needs and how to develop a nursing care plan.

277 Health Assessment (1.5) CSU

Corequisites: Nursing 276, 275A and Nursing 275B.

LECTURE, 1 HOUR; LABORATORY, 1.5 HOURS.

This course introduces beginning nursing students to basic physical assessment tools and skills in developing a client's health history and conducting head-to-toe physical examinations. The Nursing Process, Maslow's Hierarchy of Needs, and Erikson's Developmental Theory are discussed and utilized to integrate assessment findings.

185 Directed Study-Nursing (1) CSU**285 Directed Study-Nursing** (2) CSU**385 Directed Study-Nursing** (3) CSU

CONFERENCE 1 HOUR PER UNIT.

The above courses allow students to pursue Directed Study in Nursing on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Philosophy Department

F7-318 • (323) 265-8774

Courses and seminars in philosophy offer serious reflection and analysis of the approaches and perspectives of the philosophers who shaped Western culture. Philosophy provides students with the concepts and skills necessary to understand the theories that have been developed and, more importantly, to evaluate rationally alternative approaches, including their own. Philosophical study provides an overview of influential attempts to synthesize diverse philosophical insights into fully developed world views, world views with far-reaching implications for how we live and interact.

Philosophy contributes depth and perspective to the study of law, government, psychology, history, and literature. From philosophy, students of natural science derive a heightened awareness of what is positive and what is problematical in their field of inquiry. Mastery of the techniques of philosophical analysis is relevant to the preservation of clarity of thought in every field of inquiry.

Seen as a discipline with a rich history and heritage, philosophy presents an imaginative array of perspectives on the basic questions of life. In your study of philosophy, you will join with thinkers throughout the ages, share their wonder, and reflect philosophically in thinking about yourself, your life, and the world in which you live.

EDUCATIONAL PROGRAM

ASSOCIATE DEGREE PROGRAM

- Philosophy for Transfer

DEGREE PROGRAM

Associate in Arts in Philosophy for Transfer

The goal of the Associate in Arts in Philosophy for Transfer degree is to prepare students for seamless transfer into the CSU system to complete a baccalaureate degree in Philosophy or similar major. One objective of the degree is to provide students with a strong, basic foundation in core areas

of the discipline of philosophy through curriculum that is required for lower-division Philosophy majors. Upon completion of the AA-T in Philosophy, students are guaranteed transfer admission into a California State University campus to further the study of philosophy.

Students are required to complete 60 semester units or 90 quarter units of CSU transferable coursework with a minimum overall grade point average of 2.0, including a minimum grade of "C" (or "P") for each course in the major, and completion of IGETC and/or CSU GE-Breadth.

Note: 9-18 units of major courses may be double counted towards general education or 6-15 units in IGETC, depending on which GE plan is chosen.

**This course has an advisory.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Philosophy (PHILOS)

1 Introduction to Philosophy (3) UC:CSU IGETC Area 3B (C-ID PHIL 100)

LECTURE, 3 HOURS.

In this course, students are provided with an understanding of the major topics in philosophy with an emphasis on primary philosophical texts, including metaphysics, epistemology and axiology. Students experience philosophy as an activity characterized by asking questions and answering them through persistent, critical analysis. The study of philosophy helps satisfy higher-level human needs, increases personal awareness, deepens tolerance, refines analytical powers, and equips us to deal with life's uncertainties.

6 Logic in Practice (3) UC:CSU C-ID PHIL 110)

LECTURE, 3 HOURS.

This course is designed to foster logical and critical thinking skills, through the examination of both formal and informal logical concepts and systems with an emphasis on validity, translation, truth tables, syntax, semantics, and proof method in sentential logic. By appealing to these traditional formal and informal techniques of logic, a number of general issues connected with rational criticism of arguments are explored. These include a discussion of the special features associated with critical thinking in different fields of argumentation and a discussion of fallacies as non-formal failures in the process of reasoning.

8 Deductive Logic (3) UC:CSU (C-ID PHIL 210)

LECTURE, 3 HOURS.

This course concerns two basic analytical skills: Logical and critical analysis. Logical analysis teaches the nature of logical structure. Critical analysis teaches why arguments sometimes fail. Students acquire skills necessary for success in upper-division college course work.

12 History of Greek Philosophy (3)

UC:CSU IGETC Area 3B (C-ID PHIL130)

LECTURE, 3 HOURS.

This course surveys the general historical accomplishments in ancient Greek philosophy from the Classical to the Hellenistic periods (roughly 5th century B.C.E. to the 2nd century C.E.). Students critically examine some of the major philosophers of this period, such as Parmenides, Socrates, Plato, Aristotle, Epicurus, Epictetus, and Aurelius, with the specific aim of discovering how their ideas relate to such topics as ontology, epistemology, politics and human happiness, as well as ultimately uncovering the historical impact these ideas have on human thought.

13 History of Medieval Philosophy (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course surveys the general historical accomplishments in western medieval philosophy from the 1st to the 15th centuries. Students critically examine some of the major philosophers of this period, such as Philo, Plotinus, Augustine, Boethius, Erigena, Ibn Sina, Al-Ghazali, Ibn-Rushd, Maimonides, Anselm, Aquinas, Duns Scotus, and William of Ockham with the specific aim of discovering how their ideas relate to such topics as ontology, epistemology, politics and human happiness, as well as ultimately uncovering the historical impact these ideas have on human thought.

14 History of Modern European Philosophy

(3) UC:CSU IGETC Area 3B (C-ID PHIL140)

LECTURE, 3 HOURS.

This course surveys the general historical accomplishments in modern European philosophy from the 16th to the 19th centuries. Students critically examine some of the major philosophers of this period, such as Descartes, Spinoza, Bacon, Hobbes, Locke, Hume, Kant, Hegel, Kierkegaard, Marx, and Nietzsche, with the specific aim of discovering how their ideas relate to such topics as ontology, epistemology, politics and human happiness, as well as ultimately uncovering the historical impact these ideas have on human thought.

15 History of Contemporary Philosophy

(3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course studies the general historically relevant philosophical accomplishments during the contemporary period, from the mid-19th to present with a particular emphasis on recent philosophical developments in Continental and/or Anglo-American philosophy. Students critically examine some of the major philosophers of this period, such as Nietzsche, Heidegger, Husserl, Sartre, Derrida, Foucault, Gadamer, Ricoeur, Habermas, Dewey, James, Russell, Wittgenstein, Quine, Davidson, Nussbaum, Gilligan, and Rorty. This is done with the specific aim of discovering how these philosophers' ideas relate to such topics as ontology, epistemology, politics and human happiness, as well as ultimately uncovering the historical impact these ideas have on human thought and culture, as well as the student's own philosophical perspectives.

19 Contemporary Problems in

Bioethics (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course examines moral problems in biomedical ethics, examining the work of philosophers, jurists, biologists, legal theorists, healthcare professionals and researchers. Major ethical theories are examined and applied to contemporary issues such as human cloning, genetic engineering, and assisted suicide.

20 Ethics (3) UC:CSU IGETC Area 3B (C-ID PHIL120)

LECTURE, 3 HOURS.

This course introduces ethics in a balanced mix of theory and practice that is unified and coherent, engaging and compelling. As a result of this course, students should be able to: See the moral overtones in their own lives, feel the urgency of ethics, the pressing personal and social need to

perceive and confront the moral dimensions of everyday experiences, and understand, analyze, and resolve moral dilemmas.

28 Environmental Ethics (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This is an introductory course on the ethics surrounding ecology. Students examine theories and perspectives, both traditional and contemporary, which have shaped and defined environmental issues, nature, and the role and nature of human beings.

31 Philosophy of Religion (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This is an introductory survey course covering philosophical considerations on the origin and nature of religious thought; the use of language in formulating religious statements; epistemological exploration of claims based on faith and on reason, noting their similarities and differences; and an introduction to the concept of God including arguments for and against God's existence.

33 Comparative Survey of World Religions (3) CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course provides a survey of the historical development of the world's great religions including their origins, teachings, growth, contributions to culture, and intellectual history.

44 Feminist Philosophy (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course surveys the various philosophical accomplishments in feminist philosophy. Students explore feminist philosophical methods and perspectives in such areas as human nature, epistemology, and aesthetics, while focusing specifically on gender related socio-political and ethical issues.

185 Directed Study - Philosophy (1) CSU

CONFERENCE 1 HOUR PER UNIT.

The above course allows students to pursue Directed Study in Philosophy on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Physics Department

GS-201E (323) 265-8922

Physics is regarded as one of the most fundamental of the sciences. Using the scientific method, a student of physics tries to understand the properties of physical reality, such as space, time, motion, matter, energy, force, etc. The objective is to gain a working knowledge and be able to make practical applications of the laws that govern the universe.

Physics is a required Subject for most majors in scientific and technical fields such as Physics, Chemistry, Engineering, Biology, Medicine, Astronomy, Geology, Earth Sciences, etc.

ASSOCIATE DEGREE PROGRAM

- Physics for Transfer

DEGREE PROGRAM

Associate in Science in Physics for Transfer

The Associate in Science in Physics for Transfer Degree (AS-T) is intended for students who plan to transfer and complete a bachelor's degree in Physics at a CSU campus. Students completing the AS-T degree in Physics are guaranteed admission to the CSU system, but not necessarily to a particular CSU campus or major of their choice. Students should consult with a counselor for more information on university admission and transfer requirements as

this AS-T in Physics may not be the best option for students intending to transfer to a particular CSU campus or to a college or university that is not part of the CSU system.

To earn an AS-T in Physics, students must complete the following:

- Completion of 60 semester units or 90 quarter units of degree-applicable courses,
- Minimum overall grade point average of 2.0.
- Minimum grade of "C" (or "P") for each course in the major, and
- Completion of IGETC and/or CSU GE-Breadth

		<i>Total.....</i>
		<i>60</i>

Note: Students who have already completed the PHYSICS 1, 2, 3, and 4 sequence, may substitute these courses for the PHYSICS 101, 102, and 103 sequence.

**This course has a prerequisite/corequisite.*

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Astronomy (ASTRON)

1 Elementary Astronomy (3) UC:CSU IGETC Area 5A

LECTURE, 3 HOURS.

This course is a general introduction and overview of Astronomy and covers many topics including constellations, seasons, the history of Astronomy, the electromagnetic spectrum, telescopes, the Earth and other planets of our solar system, the Sun, binary stars, the Milky Way Galaxy, properties of galaxies, and the Big Bang Theory. Students are kept abreast of current developments in the field.

5 Fundamentals of Astronomy

Laboratory (1) UC:CSU IGETC Area 5C

Corequisite: Astronomy I.

LABORATORY, 3 HOURS.

Various astronomical phenomena are investigated using a variety of modes such as in-class laboratory exercises and experiments, Internet-based investigations, and out-of-class sky observations. Through these different means, students gain a thorough knowledge and experience of discovering the properties of moons, planets, stars, constellations and galaxies.

15 Astrobiology (3) UC:CSU IGETC Area 5A

LECTURE, 3 HOURS.

This course explores the origins of life in the universe and the conditions for a planet to be habitable. It also examines the evidence of life on Mars and other bodies in the solar system such as Europa and Titan. It further investigates the methods of detecting exoplanets and ascertaining their properties and whether life could exist on them. Finally, it examines the methods of searching and communicating with extraterrestrial intelligence.

Physics (PHYSICS)

6 General Physics I (4) UC:CSU IGETC Area 5A, 5C (C-ID PHYS 105) (UC Credit Limit: 1 series from Physics 1, 2, 3, and 4, or Physics 6 and 7, or Physics 21 and 22).

Prerequisites: Physics 11 or 17 or 20 and Mathematics 241 or 241S.

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

In this course, students learn the kinematics of one- and two-dimensional motion, including linear, projectile, and circular motion. They study the physics of linear and rotational dynamics using Newton's laws, work and energy, momentum and torque. The course also delves into the field of fluid statics and dynamics, wave dynamics, wave resonance and the Doppler Effect. They explore the field of Thermodynamics including properties of substances such as specific heat and the Three Laws of Thermodynamics. Students use the tools of algebra and trigonometry to solve a wide variety of problems.

7 General Physics II (4) UC:CSU IGETC Area 5A, 5C (C-ID PHYS 110)

Prerequisite: Physics 6.

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

In this course, students learn the essentials of electricity and magnetism, including topics such as electric field, electric potential, capacitors, resistors, RC circuits, magnetic force and torque. They examine the field of Optics

such as the properties of mirrors and lenses and how images are formed. They delve into the topics of Modern Physics such as Relativity, Quantum Physics, Atomic and Nuclear Physics and Particle Physics. Students use the tools of algebra and trigonometry and the knowledge acquired in Physics 6 to solve a wide variety of problems.

11 Introductory Physics (4) UC:CSU IGETC Area 5A, 5C

(UC Credit Limit: No credit is given if taken after 1, 6, or 21).

Prerequisite: Mathematics 125 or Mathematics 125S or Mathematics 134.

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This is an introductory course that covers the wide range of topics included in a basic Physics course such as kinematics of one- and two-dimensional motion, circular motion, Newton's laws, work and energy, thermodynamics, wave motion, oscillation, optics, electricity and magnetism, and nuclear and atomic Physics. Students analyze conceptual questions as well as solve quantitative problems using Algebra.

17 Energy and the Environment

(4) UC:CSU IGETC Area 5A, 5C

Advisory: Mathematics 125 or 125S or 134.

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

This course teaches about the many different sources of energy such as fossil fuels, wind, water, solar, biomass, nuclear and geothermal. It examines the advantages and disadvantages of each source and investigates the past and present examples of their use and future plans for new technology to utilize these sources.

20 Physics Bootcamp (2)

Prerequisite: Mathematics 241 or 241S.

LECTURE, 1.5 HOURS; LABORATORY, 2.5 HOURS.

The purpose of this course is to prepare students to take the Physics 11 prerequisite challenge test to get into either Physics 1, 6 or 21. The course also prepares students for the higher level physics sequence and provides students with some basic laboratory experience; as such, it is intended to bridge the gap between Physics 11 and the higher level courses and is therefore more rigorous than Physics 11. Students are introduced to Kinematics, Dynamics, Fluid Statics and Dynamics, wave resonance and the Doppler Effect as well as the fields of Thermodynamics, Electricity and Optics. Students use the tools of algebra and trigonometry to analyze a wide variety of content and gain a firm foundation in physics concepts as well as problem solving. Some time is afforded to work out problems in class and ask questions from the homework. On the last day of class, students are given the opportunity of taking the Physics 11 prerequisite challenge test.

21 General Physics I with Calculus

(4) UC:CSU IGETC Area 5A, 5C

(UC Credit Limit: 1 series from Physics 1, 2, 3, and 4, or Physics 6 and 7, or Physics 21 and 22).

Prerequisites: Physics 11 or 17 or 20 and Mathematics 261.

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

In this course, students learn the kinematics of one- and two-dimensional motion, including linear, projectile, and circular motion. They study the physics of linear and rotational dynamics using Newton's laws, work and energy,

momentum and torque. The course also delves into the field of fluid statics and dynamics, wave dynamics, wave resonance and the Doppler Effect. They explore the field of Thermodynamics including properties of substances such as specific heat and the Three Laws of Thermodynamics. Students use the tools of algebra, trigonometry, and calculus to solve a wide variety of problems.

22 General Physics II with Calculus

(4) UC:CSU IGETC Area 5A, 5C

Prerequisite: Physics 21.

LECTURE, 3 HOURS; LABORATORY, 3 HOURS.

In this course, students learn the essentials of electricity and magnetism, including topics such as electric field, electric potential, capacitors, resistors, RC circuits, magnetic force and torque. They examine the field of Optics such as the properties of mirrors and lenses and how images are formed. They delve into the topics of Modern Physics such as Relativity, Quantum Physics, Atomic and Nuclear Physics and Particle Physics. Students use the tools of algebra, trigonometry and calculus and the knowledge acquired in Physics 21 to solve a wide variety of problems.

101 Physics for Engineers and Scientists I

(5) UC:CSU IGETC Area 5A, 5C (C-ID PHYS 205)

Prerequisites: Physics 11 or Physics 17 or Physics 20 and Mathematics 261.

LECTURE, 3 HOURS; LABORATORY, 6 HOURS.

In this course, students learn the kinematics of one- and two-dimensional motion, including linear, projectile, and circular motion. They also study the physics of linear and rotational dynamics and statics using Newton's laws, work and energy, momentum, torque and moment of inertia, Newton's Law of Gravity and Kepler's Three laws of planetary motion, fluid statics and dynamics. The course ends with a study of oscillatory motion. Students use the tools of algebra, trigonometry, and calculus to solve a wide variety of problems.

102 Physics for Engineers and Scientists II

(5) UC:CSU IGETC Area 5A, 5C (C-ID PHYS 210)

Prerequisite: Physics 101.

Corequisite: Mathematics 262.

LECTURE, 3 HOURS; LABORATORY, 6 HOURS.

In this course, students explore the field of Thermodynamics including properties of substances such as specific heat and the Three Laws of Thermodynamics. Then they delve into the fields of electricity and magnetism, including topics such as electric field, electric potential, capacitors, resistors, RC circuits, magnetic force and torque, solenoids, Faraday's Law, AC circuits involving resistors, capacitors and inductors. Students use the tools of algebra, trigonometry and calculus to solve a wide variety of problem.

103 Physics for Engineers and Scientists III

(5) UC:CSU IGETC Area 5A, 5C (C-ID PHYS 215)

Prerequisite: Physics 101.

Corequisite: Mathematics 263.

LECTURE, 3 HOURS; LABORATORY, 6 HOURS.

In this course, students learn about wave dynamics and study topics such as wave propagation, wave resonance and the Doppler Effect, and the field of optics such as the properties of mirrors and lenses and how images are

formed. Students then they delve into the essentials of light waves such as the diffraction, interference and polarization of light as well as the nature of light such as its wavelength, frequency, momentum, and pressure. Students then examine the topics of modern physics such as relativity, quantum physics, atomic and nuclear physics, and particle physics. Students use the tools of algebra, trigonometry, and calculus to solve a wide variety of problems.

185 Directed Study - Physics (1) CSU

285 Directed Study - Physics (2) CSU

385 Directed Study - Physics (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Physics on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Psychology Department

F7-316 • (323) 265-8955

Psychology is the scientific study of humans and animals. Psychology is a natural and social science that includes research, practical and creative applications. Psychology covers a wide range of topics ranging from the way the social environment influences the individual to the inner workings of the body with particular attention to brain function. Psychologists teach, conduct research, and provide clinical treatment for people of all ages and various cultural groups who are experiencing psychological difficulties. In addition, psychologists might work with business and governmental agencies to improve productivity in the workplace environment, or study how attitudes and prejudices develop, and influence human behavior.

CERTIFICATE OF ACHIEVEMENT

Addiction Counselor

The Psychology Department offers a Certificate of Achievement in Chemical Dependency Counselor. This certificate provides academic preparation and fieldwork experience for individuals employed, or preparing for employment, in public and private agencies that serve clients with alcohol and drug problems.

Note: In some cases, students may substitute appropriate Psychology courses for Addiction Studies course. Please contact Psychology department for specific details.

DEGREE PROGRAM

Associate in Arts in Psychology for Transfer

This Associate in Arts in Psychology for Transfer degree is designed for students wishing to pursue a Bachelor's Degree in Psychology or a Psychology related field at a California State University. The degree provides students with a comprehensive understanding of the major theoretical perspectives in the field of psychology as well as a solid foundation in conducting and analyzing psychological research. Students completing this degree will be well prepared to pursue upper division coursework in Psychology at a CSU. In addition to the core coursework, students must complete additional units from either the CSU GE or IGETC approved course list. It is advised that students wishing to pursue this transfer degree consult with an academic advisor to plan their program. Students are required to complete a minimum of 60 required semester units of CSU transferable coursework with a minimum GPA of 2.0, including a minimum of 21 semester units in the major with a grade of "C" (or "P") for each course in the major.

Required Core Courses

SUBJECT & NO.	COURSE	UNITS
PSYCH 1	General Psychology	3
PSYCH 91*	Statistics for the Social and Behavioral Sciences.....	4
OR		
MATH 227*	Statistics.....	4
PSYCH 92*	Psychological Research Methods.....	5
	Subtotal.....	12
LIST A: SELECT ONE COURSE		3 UNITS
PSYCH 2*	Biological Psychology	3
LIST B: SELECT ONE COURSE		3 UNITS
PSYCH 11*	Child Psychology.....	3
PSYCH 13*	Social Psychology	3
PSYCH 41	Life-Span Psychology.....	3
PSYCH 43	Principles of Group Dynamics.....	3
LIST C: SELECT ONE COURSE		3 UNITS

PSYCH 93*	Multivariate Statistical Analysis for the Social and Behavioral Sciences.....	3
COMPLETE ADDITIONAL CSU UNITS, IF NEEDED, TO REACH 60 CSU TRANSFERABLE UNITS		
<i>IGETC or CSU GE Pattern</i>		
	Total.....	60

Note: 9 units of major courses may be double counted towards general education.

*This course has a prerequisite.

**This course has an advisory.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Addiction Studies (ADDICST)

1 Understanding Addiction and Counseling (3) CSU (Formerly Psychology 64)

LECTURE, 3 HOURS.

This course is an introductory survey on alcohol and drug use and abuse. The history, classification, impact, and treatment of psychoactive drugs and addiction are covered. Public policies and social attitudes on alcohol and drug abuse, as well as mental health and drugs, are also examined.

7 Addiction Treatment and Recovery (3) CSU (Formerly Psychology 65)

LECTURE, 3 HOURS.

This course addresses intervention, treatment, and recovery issues in chemical dependency. Topics include approaches to intervention, obstacles to intervention, and stages of formal intervention. The medical, behavioral, social, and family systems models of treatment, and various approaches to treatment are also discussed.

10 Addiction and the Family (3) CSU (Formerly Psychology 37)

LECTURE, 3 HOURS.

This course explores the etiology of codependence from a developmental, trauma, and family systems perspective. The course provides students with an introduction to the assessment process and treatment strategies which are most effective for clients with codependence.

16 Continuing Recovery: Strategies and Basic Skills (3) CSU (Formerly Psychology 67)

Prerequisite: Addiction Studies 1.

Corequisite: Psychology 43.

LECTURE, 3 HOURS.

This course examines the impact of substance use, abuse, and dependence upon individuals and their families. The course focuses on effective counseling skills and techniques for the chemically dependent population.

22 Prevention Specialist Training (3) (Formerly Psychology 63)

LECTURE, 3 HOURS.

This course addresses strategies used to prevent alcohol and drug problems in different settings including: industry, school, family, and community and rehabilitation centers.

25 Clinical Counseling for Co-Occurring Disorders (3) CSU (Formerly Psychology 34)

Prerequisites: Addiction Studies 1 and Addiction Studies 7 and Addiction Studies 22 and Psychology 14.

Corequisites: Addiction Studies 10 and Addiction Studies 16 and Psychology 43 and Psychology 68.

LECTURE, 3 HOURS.

This course addresses the coexistence of chemical dependency and mental health disorders. The course focuses on identification and assessment, current treatment approaches, understanding medications, making appropriate referrals, and how chemical dependency counselors may interface with the mental health community. Attention is given to special populations, including the culturally diverse, HIV/AIDS population, and the physically disabled.

26 Substance Abuse Assessment Strategies and Techniques (2) CSU

Prerequisite: Addiction Studies 25.

LECTURE, 2 HOURS.

This course provides the student with training in the various assessment measures used in the substance abuse field, with particular attention to the American Society of Addiction Medicine (ASAM) criteria. Students learn about screening, assessment, diagnosis, referral, and the continuum of care.

81 Outpatient Field Work Practicum (3) CSU (Formerly Psychology 81)

LECTURE, 1.5 HOURS; LABORATORY, 5 HOURS.

This course provides students with the opportunity to gain clinical and practical counseling skills as interns in an outpatient alcohol and drug treatment agency with a focus on using the 12 Core Clinical Functions.

82 Inpatient Field Work Practicum (3) CSU (Formerly Psychology 82)

Corequisite: Addiction Studies 81.

Note: This course is offered on a PASS/NO-PASS basis only.

LECTURE, 1.5 HOURS; LABORATORY, 5 HOURS.

This course provides students with the opportunity to gain clinical and practical counseling skills as interns at a residential alcohol and drug treatment center with an emphasis on using the 12 Core Clinical Functions.

Psychology (PSYCH)

1 General Psychology I (3) UC:CSU IGETC Area 4I (C-ID PSY 110) (UC Credit Limit: Psychology 1 and 6 combined, maximum credit one course).

LECTURE, 3 HOURS.

This course introduces the scientific study of human behavior and experience, including research methods in psychology, the biological basis of behavior, learning and memory, motivation, theories of personality, psychological disorders and their treatments, and other selected topics.

2 Biological Psychology (3) UC:CSU

IGETC Area 5B (C-ID PSY 150)

Prerequisite: Psychology 1.

LECTURE, 3 HOURS.

An analysis of the physiological, evolutionary, and developmental mechanisms of behavior and experience. Human and other animal models are examined with an emphasis on structure–function relationships of neurons and glial cells, and the nervous system as a whole. Topics include the neurochemistry underlying behavior, sensation and perception, movement, regulatory processes, reproductive behaviors, emotion, the biology of learning and memory, language and cognition, as well as disorders resulting from nervous system injury or malfunction. Methodology and ethical considerations of human and animal research are discussed and evaluated throughout the course.

11 Child Psychology (3) UC:CSU IGETC Area 4I*Prerequisites: Psychology 1.*

LECTURE, 3 HOURS.

This course explores biological, cognitive, emotional, psychological and social development from conception through adolescence with an emphasis on differing theories specific to the field. The course is geared toward practical application of child psychology.

13 Social Psychology (3) UC:CSU IGETC Area 4 (C-ID PSY 170)I*Prerequisite: Psychology 1.*

LECTURE, 3 HOURS.

This course examines how individuals are influenced by their social environment. A diversity of topics are discussed, including social cognition, social perception, attitude formation, social influence, interpersonal attraction, group processes, prosocial behavior, aggression, and prejudice. Throughout this course, students sharpen their critical thinking skills and gain a better appreciation for the complex interaction that occurs between the person and the environment.

14 Abnormal Psychology (3) UC:CSU IGETC Area 4I*Advisory: Psychology 1.*

LECTURE, 3 HOURS.

This course examines the definition, possible causes, signs and symptoms and treatment of psychological disorders. Topics such as anxiety, mood disorders, schizophrenia, substance related disorders, and personality disorders are emphasized.

32 Psychology of Women (3) UC:CSU IGETC Area 4D, 4I*Advisory: Psychology 1.*

LECTURE, 3 HOURS.

This course focuses on psychological issues related to women. Topics include social construction of gender and gender identity development. The effect of gender stereotypes and gender role expectations on school, work, family, and relationships are discussed. Gender differences in cognitive abilities, social and personality characteristics, and communication styles are also covered. Cultural influences on gender are integrated throughout the course.

41 Life-Span Psychology: From Infancy to Old Age (3) UC:CSU IGETC Area 4I

LECTURE, 3 HOURS.

This course explores human development from conception to death. It includes the study of relevant theories of development, with an emphasis on research concerning physical, intellectual, emotional, and social development across the human lifespan. Additional areas of investigation for each phase of the life cycle cover biological influences, brain growth, learning, intelligence, personality, self-concept, social roles, interpersonal relationships, death, and grieving.

43 Principles of Group Dynamics I (3) CSU

LECTURE, 3 HOURS.

This course is an introduction to the dynamics of group interaction with an emphasis on the individual's first-hand experience as the group studies itself. Under supervision, the factors involved in problems of communication, effective theory/practice skills, and individual growth are highlighted.

52 Psychological Aspects of Human Sexuality (3) UC:CSU IGETC Area 4I

LECTURE, 3 HOURS.

This course explores the psychological aspects of human sexuality from the perspective of the individual as well as romantic couples. Topics include male and female sexual anatomy, sexual arousal and response, gender identity, sexual orientation, love and attraction, effective relationship communication, pregnancy, methods of contraception, sexually transmitted infections, normal versus abnormal sexual behavior and sexual coercion.

68 Biopsychology of Chemical Dependency: Drugs, Behavior and Health (3) CSU*Prerequisite: Psychology 1.*

LECTURE, 3 HOURS.

This course focuses on the science of drug action and its effects on the nervous system, behavior, mood, and health. Both legal and illegal chemical substances are considered, including various "street" drugs, common prescription drugs, over-the-counter medications, tobacco, and alcohol. Special importance is placed on the synaptic effects of these substances and their impact on specific neurotransmitter systems. Historical trends, routes of administration, absorption, metabolism and elimination, addiction, and tolerance and withdrawal are also considered.

77 Sport Psychology (3) CSU

LECTURE, 3 HOURS.

This course explores the psychological factors that influence and predict peak performance, human behavior, and human development both in and out of sport settings. In particular, research-based psychological principles are applied to topics such as peak performance, goal setting, motivation, teamwork, confidence, visualization, relaxation, leadership, burnout, character building, drug abuse, and race and gender issues as they relate to stereotyping, participation, and opportunity.

91 Statistics for the Social and Behavioral Sciences (4) UC:CSU IGETC Area 2A

Prerequisites: Mathematics 125 or Mathematics 125S or Mathematics 134 or Mathematics 137.

LECTURE, 3 HOURS; LABORATORY, 2 HOURS.

This course presents a thorough introduction to the analysis of research data for the behavioral and social scientist. This course is an introduction to probability, measures of central tendency, descriptive statistics and inferential statistics including sampling, estimation, hypothesis testing, effect size analysis, contingency tables and chi-square analysis, t-tests, one-way analysis of variance, two-way analysis of variance, correlation, and bivariate regression. Students also learn to code, structure, and interpret data using SPSS. Ultimately, students are able to analyze and interpret data from a variety of behavioral and social sciences disciplines including psychology, sociology, child development, business, life sciences, health sciences, and education.

92 Psychological Research Methods (5)

UC:CSU IGETC Area 4I (C-ID PSY 200)

Prerequisites: Psychology 91 or Mathematics 227 or 227S and English 101.

Advisory: Psychology 2.

LECTURE, 5 HOURS.

This course is an introduction to the scientific method as it applies to questions about human behavior, for students who wish to pursue psychological science in greater depth. The course examines experimental and non-experimental research methods, with an emphasis on data collection, statistical analysis, and presentation of research results through APA-style scientific writing and presentation, all with a multi-cultural perspective.

93 Multivariate Statistical Analysis for the Social and Behavioral Sciences (3) CSU

Prerequisites: Psychology 91 or Mathematics 227 or 227S.

Advisory: Psychology 92.

LECTURE, 3 HOURS.

This course provides an overview of key multivariate statistical analysis techniques as they relate to research in the social and behavioral sciences. In particular, students learn the conceptual underpinnings and the mathematical basis of multiple regression, logistic regression, and path analysis. Students apply these techniques to research data, and learn how to interpret and present the results in meaningful ways.

185 Directed Study - Psychology (1) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allows students to pursue Directed Study in Psychology on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Social Sciences Department

F7-307 • (323) 265-8829

Social Sciences are concerned with almost every aspect of human interrelationships, including relationships to the environment. In this connection, students in Social Sciences must be aware of the contributions which the various subjects such as Anthropology, Economics, Geography, History, Political Science, Sociology, and Social Psychology make in giving us a better understanding of the world we live in. It is used for students with a broad interest in the humanities.

Students taking this curriculum should seek to acquire a broader education and be better equipped to consider the problems of the world in which they live. Opportunities for employment are in areas which do not require a highly specialized background such as one gets in a particular discipline.

ASSOCIATE DEGREE PROGRAMS

Environmental Studies: Humanities–Social Science, Associate in Arts Degree

The Environmental Studies: Humanities–Social Science Program is an interdisciplinary and multidisciplinary course of study that presents an overview of environmental issues and studies the interrelationship between humans and the environment. The curriculum prepares students to deal with the complex environmental problems that confront society by providing a broad, basic understanding of how physical, biological and human components of the environment interact. The degree's core courses examine the relationship between nature and social systems. Furthermore, they introduce students to the interplay between natural and social systems, and the ideological foundations of humankind's attitudes and behaviors with respect to their ever-changing environments. The courses are designed to equip students with necessary lab skills that involve the scientific method, and the critical understanding of the interrelationship between science and nature; helping students to be more avid in the studying and solving of environmental problems. Specifically, this program uses an interdisciplinary approach to introduce students to an overview of environmental issues from a variety of perspectives; preparing students to research, analyze, and propose solutions to the different and intricate environmental challenges that the world may face.

Note: 12 units of major courses may be double counted in LACCD General Education.

Associate in Arts in Economics for Transfer

The Associate in Arts in Economics for Transfer provides students with a foundation of applying economic theories and economic reasoning to real world situations using the concepts of scarcity, opportunity cost, and supply and demand for both individual (micro) and collective (macro) decision-making. Students who successfully earn the Associate in Arts in Economics for Transfer by completing a maximum of 60 transferable units are guaranteed transfer admission into a California State University (CSU) campus to further the study of economics.

While at least a baccalaureate degree is recommended for preparation for those considering professional careers, completion of this curriculum will demonstrate commitment to the field and provide comprehensive preparation for further academic study through upper-division course work. This curriculum specifically prepares the prospective transfer student for upper-division coursework in Economics or a similar major at a California State University (CSU) campus. Students should consult a counselor and/or the catalog of the transfer college or university to plan a specific program of study to meet the college or university's requirements.

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer". The AA-T degree is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T) are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept the AA-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree (unless the major is designated "high-unit," which economics is not). This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system.

To earn an AA-T in Economics students must complete the following:

- A minimum of 18 semester units in the economics major
- California State University General Education Breadth requirements or the Intersegmental General Education Transfer Curriculum (IGETC)
- Elective course to complete a minimum of 60 units of CSU transferable coursework

- Have an overall GPA of 2.0

Students must complete all major courses with a grade of "C" (or "P") for each course in the major.

Required Core Courses

Associate in Arts in History for Transfer

The Associate in Arts in History for Transfer creates a transfer pathway for students who plan to complete a Bachelor of Arts in History at a CSU, and is designed to provide students with an introduction to and overview of history, which is the study of change over time. Historians analyze cause and effect, construct narratives from primary sources, and explain the actions of people in the past. Students in history courses learn how to interpret, debate, and draw conclusions. History majors acquire a broad perspective on the human experience and appreciate how the past has shaped the present.

Requirements:

- a. Completion of 60 CSU transferable semester units;

- 18 semester units in the approved History courses;
- Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements (CSU GE);

- b. Achieve a grade point average of 2.0

- c. Earn a C (or "P") for each course in the major.

Associate in Arts in Political Science for Transfer

The Associate in Arts in Political Science for Transfer Degree creates a transfer pathway for students who plan to complete a Bachelor of Arts in Political Science or similar major at a California State University (CSU). With successful completion of this degree, students will possess foundational knowledge and skills that comprise the core content of the lower division requirements of many baccalaureate programs in Political Science. Students completing the Associate in Arts in Political Science for Transfer Degree will be able to apply, analyze and evaluate the leading theories and essential concepts in American Government, Comparative Politics, International Relations, and Political Thought. This degree program provides preparation in Political Science Research Methodology as well as historical and comparative analysis of Women in Politics. Through this foundational knowledge, students completing the Associate in Arts in Political Science for Transfer Degree will be prepared for successful completion of a Bachelor of Arts in Political Science.

Requirements:

- Completion of 60 CSU transferable semester units;
 - 18 semester units in the approved Political Science courses;
 - Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements (CSU GE);
- Achieve a grade point average of 2.0
- Earn a "C" (or "P") for each course in the major.

Associate in Arts in Social Justice Studies for Transfer

The Associate in Arts in Social Justice Studies for Transfer degree with an **emphasis in Gender Studies** is designed to meet the minimum requirements for transfer to a California State University (CSU) Bachelor of Arts Degree program in Women Studies, Gender Studies or a related field at a California State University. The Transfer degree assures a competitive advantage for transfer opportunities at California State Universities. The degree provides students with a foundational set of preparatory courses designed to maximize their transfer success as they pursue a degree in Women Studies, Gender Studies or a related field. The degree is an inter-disciplinary academic program of study that enlarges students' understanding and appreciation of women's lives and experiences both historically and in contemporary societies worldwide.

Students are required to complete 60 semester units or 90 quarter units of CSU transferable coursework with a minimum overall grade point average of 2.0, including a minimum grade of "C" (or "P") for each course in the major, and completion of IGETC and/or CSU GE-Breadth.

Associate in Arts in Sociology for Transfer

The Associate in Arts in Sociology for Transfer provides students with a strong, basic foundation in core areas of the sociology discipline through curriculum that is required for lower-division Sociology majors. Students who successfully earn the Associate in Arts in Sociology for Transfer by completing a maximum of 60 transferable units are guaranteed transfer admission into a California State University campus to further the study of sociology.

Requirements:

- a. Completion of 60 CSU transferable semester units;

- 18-19 semester units in the approved Sociology courses;
- Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements (CSU GE);
- b. Achieve a grade point average of 2.0
- c. Earn a "C" (or "P") for the course in the major.

Women/Gender Studies, Associate in Arts Degree

Women/Gender Studies at East Los Angeles College is an interdisciplinary academic program which aims to expand students' understanding and appreciation of women's lives and experiences both historically and in contemporary societies worldwide. In the Women/Gender Studies curriculum, students are exposed to the scholarship and theoretical framework of Women/Gender Studies and learn how the application of a gendered lens has challenged traditional, historical, and cultural assumptions.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

African-American Studies (AFRO AM)

4 The African-American in the History of the U.S. I (3) UC:CSU IGETC Area 4C

LECTURE, 3 HOURS.

A survey of the social, economic and political construction of the United States from its colonial origins through the formation of the United States constitutional government and its Civil War period. This course provides a background in the political and social development of the United States for students majoring in the Social Sciences, with a supplement of focused study on the evolution of the institution of slavery, to gain a better understanding of 17th, 18th and 19th Century race construction in America.

5 The African-American in the History of the U. S. II (3) UC:CSU IGETC Area 4C

LECTURE, 3 HOURS.

The course covers post-Civil War United States history, identifies significant figures and events of the second half of the 19th Century, the entire 20th Century and the early decades of the 21st Century. This course examines the cultural shifts of the 19th Century Reconstruction

and Redemption Periods, analyzes the 20th Century social change movements in the context of race, equality and social justice in contemporary black history. This course documents the laws, policies and culture that sought to deconstruct America's race caste system over 150 years and will help students understand the theories and motivations behind racial behaviors, race based social patterns and attitudes that forged U.S. political, social and economic inter-race relations from 1865 to the Present.

Asian-American Studies (ASIAN)

1 The Asian American in the History of the United States (3) UC:CSU IGETC Area 4C

LECTURE, 3 HOURS.

This course examines the historical backgrounds and political, economic, and social issues affecting Asians in America. The representative groups and communities include Chinese, Japanese, East Indians, Filipino, Korean, Laotian, Cambodians, and Vietnamese.

2 Contemporary Issues of Asians in America (3) UC:CSU IGETC Area 4C

Lecture, 3 hours.

This course examines contemporary and ongoing political, economic, and social issues affecting Asians in America. The representative groups and communities include Chinese, Japanese, Koreans, Filipinos, South Asians, and Southeast Asians.

3 The Peoples and Cultures of Asia

(3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course introduces geographical and historical backgrounds, traditional customs, family and social structures, religions and philosophies, and educational systems of Asia.

11 Chinese Civilization (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course provides an introduction to the geography, history, government and institutions, customs, literature, and arts of China and China's contributions to Asian and global civilization.

20 Asian and Asian American Film

(3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS.

This course examines major themes, aesthetics, history, and theory in the development of Asian and Asian American film and visual culture from the early twentieth century to the present day.

Economics (ECON)

1 Principles of Economics I (3) UC:CSU

IGETC Area 4B (C-ID ECON 201)

Prerequisite: Mathematics 125 or 125S or 134, or 137.

LECTURE, 3 HOURS.

Microeconomics studies how markets allocate resources, goods and services, and incomes throughout the economy. It analyzes the implications of government's involvement in particular markets and in the economy as a whole via policies to improve economic performance or distributional

equity. The course is designed to develop a core set of skills useful in analysis of economic issues while maintaining a commitment to a liberal arts education. Topics include fundamentals of economic thinking, economic systems, particularly the market system, how markets operate and how the concept of elasticity relates to them, production costs, various market structures, including pure competition, pure monopoly, monopolistic competition, oligopoly, and resource markets.

2 Principles of Economics II (3) UC:CSU

IGETC Area 4B (C-ID ECON 202)

Prerequisite: Mathematics 125 or 125S or 134 or 137.

LECTURE, 3 HOURS.

This course is a survey and integrative introduction to the discipline of economics stressing the following topics: fundamentals of economic thinking, how markets operate, economic systems, national income accounting, basic Keynesian concepts, macroeconomic equilibrium analysis, fiscal policy, money, banking, and monetary policy, and international trade and finance from a macroeconomic perspective.

11 Economics of Globalization (3) UC:CSU IGETC Area 4

LECTURE, 3 HOURS.

In this course, students examine the phenomenon of globalization using economic analysis to explore controversial themes of the globalization debate such as off shoring, sweatshops, environmental standards, intellectual property protection, cultural diversity, economic development, and immigration as well as the international flow of goods, services, labor, and capital. Topics include the history of globalization, the consequences of international trade, the migration of labor, global financial flows, the implications of globalization for growth and poverty, the environment, governance, and international institutions (e.g., the World Bank, the North American Free Trade Agreement, the International Monetary Fund, and the World Trade Organization).

20 Statistics for Economics (3) CSU

Prerequisite: Mathematics 125 or 125S or 134, or 137.

LECTURE, 3 HOURS.

This course covers topics in regression, correlation, experimental design, sampling methods, and other statistical methods with emphasis on their application to problems in the study of micro and macro economics. The students learn to apply the above statistical methodologies to economic analyses.

30 Comparative Economics Systems

(3) UC:CSU IGETC Area 4

LECTURE, 3 HOURS.

In this course, students examine how different economic systems function. A major focus is on the differences between market and planned command economies, both in theory and practice. The issues surrounding transformation are considered. Case studies in the course include: The Soviet Union, China, Mexico, England and the United Kingdom, Sweden, Poland, the Russian Federation, Japan, and the Middle East.

60 Economics and the Environment (3) UC:CSU

Advisory: Economics 1.

LECTURE, 3 HOURS.

This course provides an overview of natural and environmental resources and their relationship with economics. Course themes include: The optimist and pessimist models, property rights, externalities, public goods, population growth, and valuation issues, as well as a study of natural resources, including renewable, nonrenewable, and non-exhaustible resources, a study of local and global pollution and potential solutions to pollution issues, a comparative analysis of Less Developed Countries and the United States, an examination of the role of agriculture and population, a reconsideration of global and local sustainability issues, and analysis of the impacts of economics on environmental policies.

185 Directed Study – Economics (1) CSU

285 Directed Study – Economics (2) CSU

CONFERENCE, 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Economics on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

History (HISTORY)

1 Introduction to Western Civilization I (3)

UC:CSU IGETC Area 3B, 4F (C-ID HIST 170)

Advisory: English 101.

LECTURE, 3 HOURS.

Note: History 1 does not have to be taken before History 2.

This course is a historical survey of Western Civilization from its origins (ca. 8000 B.C.E) that progresses both chronologically and geographically, starting in Mesopotamia, Egypt, and adjacent areas to the Mediterranean Sea. The course then examines the developments of Medieval Civilizations in the Middle East and Western Europe. Finally, the course examines Early Modern European societies and their interactions with the Americas, concluding in 1660 C.E. Moreover, throughout the course, connections are made between Western and Non-Western civilizations (i.e. Chinese, Indian, and Mongolian) to show cultural continuity in the history of the World.

2 Introduction to Western Civilization II

(3) UC:CSU IGETC Area 3B, 4F (C-ID HIST 180)

LECTURE, 3 HOURS.

Note: History 2 may be taken before History 1.

This course is a historical survey of Western Civilization from 1660 C.E. to the Present. The course progresses both chronologically and geographically, focusing primarily on Western Europe, while including Eastern Europe, the Americas, and the colonies and territories established by

Western nations in Africa and Asia. The goal of this course is to demonstrate the political, social, and cultural influences that the West imparted on world civilization since 1660.

5 History of the Americas I (3) UC:CSU IGETC Area 4F

LECTURE, 3 HOURS.

Note: History 5 does not have to be taken before History 6.

This course covers the History of the Americas--North, Central and South America -- from the arrival of the first humans to the liberation of the Americas from the European powers - England, France, Spain and Portugal, 1783-1824. As the course covers a long time span and a huge geographic area, the emphasis is on Native American civilizations, European colonization and American Democracy. The course analyzes the American Declaration of Independence and the United States Constitution, as well as the new Latin American nations and the United States to 1830.

6 History of the Americas II (3) UC:CSU IGETC Area 3B, 4F

LECTURE, 3 HOURS.

Note: History 6 may be taken before History 5.

This course is a comparative survey of the political, social, economic, and cultural development of the Americas from the era of independence to the present, with special emphasis on the relationship between the United States and the Latin American nations. It covers issues including class, race, gender, social change, and revolution, in addition to examining the evolving history and impact of the U.S. Constitution.

7 The World's Great Religions (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course introduces students to the great religions of the world, exploring their evolution and impact on society throughout history. The course begins with animisms and ancient religions, before examining the more familiar religions that emerged during and soon after the Axial Age such as Hinduism, Buddhism, Jainism, Confucianism, Taoism, and the Abrahamic Religions - Judaism, Christianity, Islam.

11 Political and Social History of the United States I (3)

UC:CSU

IGETC Area 3B, 4F (C-ID HIST 130)

LECTURE, 3 HOURS.

Note: History 11 does not have to be taken before History 12.

This course is the standard survey of United States history from its origins to 1877: The pre-colonial era through the Civil War and Reconstruction. It focuses on political and social developments in the formation of the United States, but it also includes economic and cultural trends.

12 Political and Social History of the United States II

(3) UC:CSU

IGETC Area 3B, 4F (C-ID HIST 140)

LECTURE, 3 HOURS.

Note: History 12 may be taken before History 11.

This course is the standard survey of United States history from 1877 to the present. It provides an analytical study of the history of the United States from the Reconstruction era to today, focusing not only on political and social developments in the history of the United States but also on economic and cultural developments, how various

Amendments to the Constitution have influenced American society, and analyzes the United States' ongoing and changing role in international affairs.

20 History of California and the Pacific Coast (3) CSU

LECTURE, 3 HOURS.

In this course, students are presented with a comprehensive survey of the history of California from pre-Columbian times to the present. The course focuses on the cultures of indigenous peoples; the exploration, colonization, and development of Hispanic California; California as briefly a republic and its' subsequent statehood as part of the United States; and the political, economic, and cultural developments of California and its various peoples and cultures in the latter 19th century, throughout the 20th century, and in the early 21st century.

23 History of Latin American Civilizations

(3) UC:CSU IGETC Area 3B, 4F

LECTURE, 3 HOURS.

This is a course designed to introduce students to the history of Latin America and to the political, social, economic, artistic, and cultural developments, in historical context, that have shaped the lives of people in Latin America.

52 The Role of Women in the History of the United States (3) UC:CSU

IGETC Area 4D and 4F

LECTURE, 3 HOURS.

This course covers the political, economic, social, and intellectual history of women in the United States and explores contributions of women as well as challenges facing women in American history from colonial days to the present with a special emphasis on contemporary concerns.

78 The Environment in World History

(3) UC:CSU IGETC Area 4F

LECTURE, 3 HOURS.

This course explores the impacts of human societies on natural environments as well as ecological limits to civilization from ancient through modern times. Students examine how historical contexts can provide a lens to evaluate current environmental conditions and policies.

81 A History of Working People in the United States I (3) UC:CSU IGETC Area 4F

LECTURE, 3 HOURS.

Note: History 81 does not have to be taken before History 82.

This course is a history of the early United States from the perspective of its multicultural working people. Colonial life, revolution, the early republic, the antebellum period, the Civil War and its aftermath are viewed through the eyes of farmers, skilled and unskilled laborers, indentured servants, and slaves.

82 A History of Working People in the United States II

(3) UC:CSU

IGETC Area 3B, 4F

LECTURE, 3 HOURS.

Note: History 82 may be taken before History 81.

This course is a history of the United States since Reconstruction from the perspective of its multicultural working people. Beginning with the Gilded Age and proceeding through the contemporary era of 'globalism', the course

examines a wide variety of issues including class, gender, and race, work conditions, living standards, and the impact of collective action. Special attention is paid to Constitutional amendments, legislation, and court interpretations affecting the lives of working people.

86 Introduction to World Civilization I (3)

UC:CSU IGETC Area 3B, 4F (C-ID HIST 150)

Advisory: *English 101*

LECTURE, 3 HOURS.

Note: History 86 does not have to be taken before History 87.

This course surveys the historical origins, development, and interactions among world civilizations from circa 8000 B.C.E. to the early modern era (1500 C.E.). The course shall provide comparative analyses of cultural, economic, geographic, political, religious, and social forces that affected world civilizations. Includes topics related to Asia, the Americas, Africa, and Europe.

87 Introduction to World Civilization II

(3) UC:CSU IGETC Area 4F (C-ID HIST 160)

LECTURE, 3 HOURS.

Note: History 87 may be taken before History 86.

This course surveys interactions of world civilizations from the early modern era (ca. 1500 C.E.) to the present. A comparative analysis of cultural, economic, geographic, political, religious, and social forces of world civilizations. Includes topics related to Asia, the Americas, Africa, and Europe.

97 Introduction to the History of Science (3) UC:CSU IGETC Area 4F

LECTURE, 3 HOURS.

This course introduces the history of science and its antecedents from the Paleolithic to the present. A review of ancient and medieval ideas about the physical world sets the stage for a more detailed look at scientific investigation in the modern world.

Political Science (POL SCI)

1 The Government of the United States

(3) UC:CSU IGETC Area 4H (C-ID POLS 110)

LECTURE, 3 HOURS.

This course is an introduction to government and politics in the United States. Students study the theoretical foundations of American political institutions, the U.S. Constitution, the Constitution of California and Federal System including relations between state and federal governments. The structure, function, powers and politics of the legislative, executive and judicial branches of the Federal government and California state government are also examined. Special topics include: civil liberties, civil rights, political parties, interest groups, media, public opinion, campaigns, the electoral process and the domestic and foreign policy-making processes. This course fulfills graduation requirements for the U.S. Constitution and California state and local government.

2 Modern World Governments (3)

UC:CSU IGETC Area 4H (C-ID POLS 130)

LECTURE, 3 HOURS.

This course introduces students to the major governments of the modern world in terms of their ideologies, political

institutions and processes, political cultures, and foreign policies, and informs debates about creating or designing new political orders. The course addresses the varying degrees of democracy and authoritarianism, varying levels of political and social conflicts, varying levels of wealth, and the influence of each of these factors on various modern world governments. Emphasis is placed on the governments of ten countries: Brazil, China, France, Germany, India, Iran, Japan, Nigeria, the Russian Federation, the United Kingdom, and the United States.

5 The History of Western Political Thought

(3) UC:CSU IGETC Area 4H (C-ID POLS 120)

LECTURE, 3 HOURS.

This course traces the evolution of Western political thought, paying special attention to concepts of human nature and their implications for the organization of societies. Questions that are examined and debated include how our understanding of the human animal has changed our understanding of justice; where the State derives its authority from and how far it extends; what freedoms must we be prepared to sacrifice for the common good; and whether startling advances in the human sciences changes our concept of justice. Students examine developments in political theory and investigate their relationship to classics of antiquity and modernity, as well as develop an appreciation of the fundamental questions of political theory and an understanding of the strengths and weaknesses of the deepest answers our civilization has devised.

7 Contemporary World Affairs (3)

UC:CSU IGETC Area 4H (C-ID POLS 140)

LECTURE, 3 HOURS.

This course presents the major issues and problems in contemporary world affairs, primarily, but not exclusively, from the United States perspective involving American policies and the government agencies which carry them out. Goals of other nations and the role of the United Nations are also discussed.

19 Women in Politics (3) UC:CSU IGETC Area 4D, 4H

LECTURE, 3 HOURS.

This course combines historical and topical approaches of where women and politics stand today in U.S. and around the world; the battles they have fought to get where they are and the various possibilities and strategies for women's political participation on local, state, and national levels. The course also focuses on topics such as women's political rights, education and employment, familial and reproductive rights, political activism, leadership, and global awareness of cross-national statistics on current issues such as declining birthrates, the global economy, and state-funded family leave around the world (in the European context, both Western and Eastern Europe, Latin & Central America, Africa, and Southeast Asia--women and Islam).

40 Law and Democracy (3) UC:CSU IGETC Area 4

LECTURE, 3 HOURS.

Note: Credit given for only one of Political Science 40 or Sociology 14.

This course is an interdisciplinary exploration of themes such as the law and democracy, equality, citizenship,

participation, access, and social justice. Students look critically at how law structures as well as limits democracy and examines the idea of democracy as a universal value. This course includes community-based learning that is directly related to the content of the course. This course is offered as a requirement for the State Bar of California's 'Pathway to Law School' initiative at East Los Angeles College.

50 Introduction to Research in Political Science

(3) UC:CSU IGETC Area 4H (C-ID POLS 160)

LECTURE, 3 HOURS.

This course is designed to introduce students to the philosophy and practice of social sciences and to the modes of research in major sub-fields of political science. Major themes include methodology and research techniques, political theories of the individual and the state, and the impact of these themes on modern political ideologies. This course concentrates on the logic and methods that support the scientific study of political phenomena, including theory development, research design, conceptualization and measurement, hypothesis testing, and both quantitative and qualitative data analysis.

185 Directed Study – Political Science (1) CSU**285 Directed Study – Political Science** (2) CSU**385 Directed Study – Political Science** (3) CSU

CONFERENCE, 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Political Science on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

Sociology (SOC)**1 Introduction to Sociology** (3) UC:CSU

IGETC Area 4J (C-ID SOCI 110)

LECTURE, 3 HOURS.

This course is a general introduction to the subject matter, basic concepts and techniques of sociology as a social science. Patterns and origins of social behavior in a diverse society are analyzed.

2 American Social Problems (3) UC:CSU

IGETC Area 4J (C-ID SOCI 115)

LECTURE, 3 HOURS.

This course examines some of the major contemporary problems of American society, such as human relations, poverty, crime, drugs, and global issues that affect American society. Social problems are analyzed in terms of their relation to the values and institutions of American society. The role of power in the definition of social problems is considered as are the causes and consequences of social problems. Students evaluate proposed solutions and interventions used to address American social problems.

3 Crime and Delinquency (3) CSU (C-ID SOCI 160)

LECTURE, 3 HOURS.

This course examines the nature, extent and patterns of crime, delinquency and criminality, theories of causation, and efforts by society to cope with law violations. Emphasis is placed upon programs regarding prevention, correction, and rehabilitation within justice systems with attention to methodology as well as methodological issues encountered in research in criminology.

4 Sociological Analysis (3) UC:CSU

IGETC Area 4J (C-ID SOCI 120)

Prerequisite: Sociology 1.

LECTURE, 3 HOURS.

This class is an introduction to the scientific study of social phenomena. Topics include research design, conceptualization, measurement, sampling methodology, and both qualitative and quantitative data analysis. Students analyze specific data collected in the field.

7 Juvenile Delinquency (3) CSU

LECTURE, 3 HOURS.

This non-technical course is especially for students preparing to be social workers or police officers; it deals with problems of maladjusted juveniles, from the potential delinquent to the institutionalized offender. The relationship between delinquency and other areas of social disorganization, such as family problems, gangs, alcoholism and drug addiction is explored.

11 Race and Ethnic Relations (3) UC:CSU

IGETC Area 4C, 4J (C-ID SOCI 150)

LECTURE, 3 HOURS.

This course examines the sociological perspective of majority-minority relations in the U.S., including how these relationships developed historically. It also explores the social, political and economic forces that maintain or act to change these relationships. The course focuses on sociological analysis of race, ethnicity, and racism and examines the cultural, political, and economic practices and institutions that support or challenge racism, racial and ethnic inequalities, as well as patterns of interaction between various racial and ethnic groups.

12 Marriage and Family Life (3) UC:CSU

IGETC Area 4G, 4J (C-ID SOCI 130)

LECTURE, 3 HOURS.

This course considers social and cultural patterns of domestic life in human society, past and present. It also analyzes the common and unique features of marriage and family systems especially in American society, including subcultural variations within that society.

13 Society and Personality (3) UC:CSU

IGETC Area 4J (C-ID PSY 170)

LECTURE, 3 HOURS.

This course is designed as an introduction to the sociological perspective of society and personality. Central to social psychology from the sociological perspective is the recognition that behavior is not simply the product of our individual personalities, but is influenced strongly by social situations. Students investigate the relationship between the social environment and the individual. Topics include main theoretical components, research approaches and

concepts ranging from socialization, self, identity, social perception, symbolic communication, social influence, altruism, aggression, and deviant behavior to group structure and processes.

14 Law and Democracy (3) UC:CSU IGETC Area 4J

LECTURE, 3 HOURS.

Note: Credit given for only one of Sociology 14 or Political Science 40.

This course is an interdisciplinary exploration of themes such as the law and democracy, equality, citizenship, participation, access, and social justice. Students look critically at how law structures as well as limits democracy and examines the idea of democracy as a universal value. This course includes community-based learning that is directly related to the content of the course. This course is offered as a requirement for the State Bar of California's 'Pathway to Law School' initiative at East Los Angeles College.

19 Introduction to the Social Services (3) UC:CSU

LECTURE, 3 HOURS.

This course covers the history and development of social services. A particular emphasis is placed on social work, case work, and urban generalists. Institutions such as the welfare system, community organizations, healthcare and Medicare are explored. Social service work as a career, including social work, urban generalists, counseling, addiction specialists, and their qualifications are also covered.

21 Human Sexuality (3) UC:CSU IGETC Area 4J

LECTURE, 3 HOURS.

This course provides a comprehensive introduction to the cultural, behavioral, biological, and psychosocial aspects of human sexuality. Topics presented include acquired immune deficiency syndrome and other sexually transmitted diseases, as well as sexual variance and dysfunction, and sexuality throughout the human life cycle.

22 Sociology of Women (3) UC:CSU

IGETC Area 4D, 4J (C-ID SJS 120)

LECTURE, 3 HOURS.

This course is a sociological analysis of women, gender and sexuality in American society. A particular emphasis is placed on the political, social and economic status of women as well as the relationships between women and men. Topics include social forces that shape the experience of women such as race, ethnicity, social class and the social construction of gender.

23 Issues of Manhood in U.S. Society (3) CSU

LECTURE, 3 HOURS.

This course examines the qualities and responsibilities of men in US society. Issues of masculinity across ethnicities are explored to answer questions of why men act the way they do. Topics include aggression and self-defense; sexuality; fatherhood; and female expectation.

84 SIMSOC: Simulated Society (1)

LECTURE, 1 HOUR.

Students simulate a society, actively learning sociological concepts such as status, role, primary group, power, inequality and stratification. The activity takes

approximately 14 hours to play and students learn about the workings of society and how societal structure emerges from group dynamics and the exchange of resources.

86 Popular Culture (3) UC:CSU IGETC Area 3B

LECTURE, 3 HOURS.

This course is designed to introduce students to the analysis of the historical and current development and emergence of American popular culture and its relationship to social institutions, collective behavior, and roles in people's lives. Social, technological, political, and economic aspects of society are examined with regard to the adoption, maintenance, and changes in popular culture, including the consumption of mass media, fashion, music, consumerism, and food. Distinctions between popular culture and culture, mass culture, and folk culture and its contribution to society's contemporary outlook is analyzed.

Theater Arts Department

P2-101A • (323) 415-5034

The ELAC Theater Arts Department offers a comprehensive holistic program, providing students with quality academic training which is reinforced with hands-on experience in practical live performances. We provide a multidisciplinary approach to the study of theater. Specializations include acting, directing, stage management, scenery, costumes, lighting, props, sound, and theater in the community.

BEGIN YOUR JOURNEY: A career in the entertainment industry starts with great training. ELAC Theater Arts offers great training. No other two-year program comes close. Compare these advantages with any other program and the choice is clear.

PERFORMANCE OPPORTUNITIES: Students in ELAC Theater Arts can participate as actors or technicians in their first semester. Every year we produce five major productions, a touring theater production, three student directed productions, and a summer Shakespeare showcase. We participate annually at the Kennedy Center American College Theater Festival where our acting students have won awards and scholarships.

DESIGN OPPORTUNITIES: Design and technical theater students work on numerous productions during their training. Students who show exceptional interest may design our productions, including scenery, costumes, lighting, sound, props, and makeup. Students learn professional design software as part of their training. Our design students have won regional and national awards at the Kennedy Center American College Theater Festival.

NETWORKS, INTERNSHIPS, AND WORK-STUDY: Our department offers opportunities for students to connect with

professional theater companies, including: Center Theatre Group, LA Opera, A Noise Within, The Garry Marshall Theatre, The Geffen Playhouse, The Actors' Gang, Boston Court, Los Angeles Theatre Center, East West Players, Bootleg Theatre, LA MusArt, City of Commerce Parks and Recreation, Ramona Gardens Boys & Girls Club, and more. Plus, we offer paid work-study opportunities in the department, as well as alerts about internships with the Los Angeles County Arts Commission.

COURSES: Performance studies courses include acting, directing, playwriting, voice, dialects, movement, theater history, and script analysis. We also offer a unique area of study in Theater in the Community. Technical theater study includes design and technical courses in lighting, sound, scenery, props, costumes and crafts, makeup and hair, and scenic art. We also offer management courses in stage management and box office management.

DEGREES and CERTIFICATES: We offer a comprehensive AA degree in theater arts which provides the maximum amount of courses for students who wish the most theater training. Students can choose an emphasis in acting, technical theater, costumes, or dance. We also offer an AA-T (transfer) degree with fewer theater arts courses and more general education courses. Both degrees are transferable but the CSU system gives students with the AA-T degree priority status for transfer.

FACILITY: Great training needs a great facility. Our 24,000 sq.ft. building is dedicated exclusively to theater arts training. We have a 165 seat proscenium stage, a 120 seat black box theater, and a small 70 seat experimental theater. Our theaters have state-of-the-art lighting, sound, and projection equipment. Students interested in technical theater have the opportunity to train in our scene shop, costume shop, or prop shop with access to an array of industry standard equipment and computerized machinery not often found in college shops including a CNC router, a digital fabric printer, and a laser cutter.

FACULTY: Our acting and design faculty have extensive backgrounds in the professional world with credits in theater, film, television, and opera. For a complete overview of our faculty and their education, professional credits, and awards visit <https://elactheater.org/Faculty-1>

PRICE: Acting and design training can be expensive if you choose a four-year college or university or a private conservatory. Our training can match the quality of these expensive institutions at a much more affordable price without competing with third and fourth year students for performance and design opportunities. Our students have transferred to four-year institutions such as: CalArts, Pepperdine, UCLA, UC San Diego, UC Irvine, UC Santa Barbara, UC Riverside, Cal Poly Pomona, Cal State LA, Cal State Long Beach, Cal State Fullerton, and Cal State Northridge.

COMPARE and DECIDE: Add it up and the choice is clear. Our training program has it all: Great performance and design opportunities, awesome theaters and shop spaces, exceptional faculty, comprehensive courses, networking, degrees and certificates, at an affordable price. Visit our

website at elactheater.org or email Lisa Hashimoto Stone, Chair of Theater Arts at stonelh@elac.edu for one-on-one counseling and a tour of the building.

ASSOCIATE DEGREE PROGRAM

Theater, Associate in Arts Degree

Our primary AA degree provides professional theatrical training to prepare students to enter the entertainment field or transfer to a four year institution. It is a rigorous two years program where students learn valuable skills in the major areas of Theater, with emphases in either Acting, Technical Theater, Costuming, or Dance. The program is designed for the student who recognizes the social and occupational value of this training.

ELECTIVES: COMPLETE ANY CSU OR UC TRANSFERABLE COURSES 1-9

LACCD GENERAL EDUCATION PLAN 21

Total 60

Note: 3 units of major courses may be double counted in LACCD General Education area C.

* This course has a prerequisite.

Associate in Arts in Theater Arts for Transfer

Our Associate of Arts in Theater for Transfer is designed for students to complete the majority of their lower division General Education requirements prior to transferring to a four year institution. This transfer degree grants priority admission into a California State University campus, where the student will further their study of Theater Arts.

Students who earn the AA-T in Theatre Arts will be able to:

- Transfer to a four-year CSU institution to pursue baccalaureate in Theatre Arts or a related field.
- Appreciate Theatre Arts and other performing arts.
- Recognize and apply different types of Theatre Arts techniques and methods.

Requirements:

- Completion of 60 CSU transferable semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
 - The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
 - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0. Students must earn a "C" (or "P") for each course in the major.

TRANSFER CURRICULUM

Information regarding lower division major preparation requirements required to transfer to a University of California (UC) or California State University (CSU) campus may be obtained at www.assist.org. For information about independent or out-of-state colleges/universities, please consult with a counselor.

SUBJECTS & COURSE DESCRIPTIONS

Title 5 changes effective Fall 2013 substantially restrict how many times students can take specific types of classes. Students enrolled in "active participation courses" in Kinesiology, visual arts, or performing arts are limited to four (4) enrollments per "family". Failures and W grades count as enrollments. A family can contain multiple courses, but a student can only take four of them. LACCD courses in, Art, Dance Techniques, Kinesiology, Music, and Theater are all affected. For courses in the Theater department, families have been created as follows:

Theater Family names and course numbers:

Acting for the Camera:.....	THEATER 278
Acting Study and Professional Applied Acting	THEATER 200, 260, 270, 272, 273
Directing:.....	THEATER 225
Movement:.....	THEATER 265
Professional Ensemble Performance:..	THEATER 232, 235, 293
Professional Performance Preparation: ...	THEATER 205, 276

Voice Theory:THEATER 240, 244

Technical Stage Production (TECTHTR)

300 Stagecraft (3) UC:CSU (C-ID THTR 171)

LECTURE, 3 HOURS.

This course provides a survey of the technical phases of play production: Scenery, properties, lighting, sound, costuming, stage management, and organization of stage activity.

305 Orientation to Technical Careers in Entertainment

(2) CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

In this course students learn about careers as professional technicians in American entertainment industries, including methodology and techniques for seeking and gaining employment in theatre, film, television, commercials, theme park, special events, and new media. The students develop their own portfolios, resumes, and interview skills.

311 Introduction to Theatrical Lighting

(3) UC:CSU

LECTURE, 3 HOURS.

This course introduces the basic elements of lighting design through an understanding of its history, collaborative nature, and role in the production process. Students also develop practical skills through the realization of lighting design projects.

313 Scenic Art for Theater

(3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

This course provides the student scenic artist with an aesthetic understanding of the art and culture of representational painting for performance. Scenic artists paint large-scale landscapes, cityscapes, murals and other backgrounds, and also faux surfaces such as marble or wood grain for theatre, film, television, theme parks, industrial shows and interior decor. This course consists of an overview of scenic Art History and the practical application of basic methods and techniques. It includes training on equipment, materials, painting steps and processes as well as standard safety practices in the entertainment industry.

315 Introduction to Design for Theatre

(3) UC:CSU (C-ID THTR 172)

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course offers students a survey of scenery, lighting, sound, props, costumes and make-up, theatrical equipment, and construction techniques through demonstration and laboratory experience.

323 Stage Management

(3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

In this course students learn to be multi-tasking managers of the play production process, from auditions through rehearsals to the final performance.

330 Sound Design for Theatre

(3) UC:CSU

LECTURE, 3 HOURS.

This course explores the concepts of sound design for theatre including: Script analysis, selection of sound effects and music, and the physical properties of sound in theaters. Students develop and execute a sound design with recording, editing, and playback technology.

340 Technical Theatre Practicum

(4) UC:CSU (C-ID THTR 192) RPT2

LABORATORY, 12 HOURS.

In this course, theatre students study the practices of managerial and technical theatre plus technical shops and theatre spaces. Study culminates in a college public performance entered in the American College Theater Festival. Production work may consist of the following: Carpentry, costumes, painting, lighting, sound, props, and stage management.

342 Technical Stage Production (2)

UC:CSU (C-ID THTR 192) RPT3

LABORATORY, 6 HOURS.

In this course, students participate in the various backstage areas of a live theatre production. Students are involved in the complete process of running a show including technical rehearsals, dress rehearsals, performances, and strike. This course offers practical work experience with specific show assignments including stage management, deck crew, fly crew, wardrobe crew, prop crew, makeup crew, light board operator, sound board operator, follow spot operator, or projections operator. Specific assignments are made according to the student's area of interest as well as the needs of the production.

343 Scenery Practicum (2) UC:CSU (C-ID THTR 192) RPT2

LABORATORY, 6 HOURS.

In this course, theatre students study the practices of managerial and technical theatre plus technical shops and theatre spaces. Emphasis is placed on scene shop operations including building and painting scenery for entertainment projects. Study culminates in a college public performance entered in the American College Theater Festival.

344 Props Practicum (2) UC:CSU (C-ID THTR 192) RPT2

LABORATORY, 6 HOURS.

In this course, students study the practices of managerial and technical theatre plus technical shops and theatre spaces. Emphasis is placed on prop operations including researching and creating props for entertainment projects.

345 Costume Practicum (2) UC:CSU (C-ID THTR 192) RPT2

LABORATORY, 6 HOURS.

In this course, theatre students study the practices of managerial and technical theatre plus technical shops and theatre spaces. Emphasis is placed on costume and make-up operations including researching and creating costumes, make-up, and running wardrobe for entertainment projects. Study culminates in a college public performance entered in the American College Theatre Festival.

346 Lighting Practicum (2) UC:CSU (C-ID THTR 192) RPT2

LABORATORY, 6 HOURS.

In this course, theatre students study the practices of managerial and technical theatre plus technical shops and theatre spaces. Emphasis is placed on lighting operations including hang, focus, and operation of lights for entertainment projects.

347 Sound Practicum (2) UC:CSU (C-ID THTR 192) RPT2

LABORATORY, 6 HOURS.

In this course, theatre students study the practices of managerial and technical theatre plus technical shops and

theatre spaces. Emphasis is placed on sound operations including researching and creating sound for entertainment projects.

348 Stage Management Practicum

(2) UC:CSU (C-ID THTR 192) RPT2

LABORATORY, 6 HOURS.

In this course, theatre students study the correct procedures and practices of stage managers in production for a variety of scripts, performances types, and spaces. Students review and practice practical safety training in stage operations and equipment. The course provides practical experience working in stage management tasks for entertainment projects.

349-1 House Management Practicum

I (2) UC:CSU (C-ID THTR 192)

LABORATORY, 6 HOURS.

In this course, theatre students study the practices of managerial and technical theatre plus technical shops and theatre spaces. The emphasis in this course is practical experience working as part of a house management team with an overview of house management operations including ticket sales, ushering, bookkeeping, and publicity for entertainment projects with a particular emphasis on patron safety and services.

349-2 House Management Practicum

II (2) UC:CSU (C-ID THTR 192)

Prerequisite: Technical Stage Production 349-1.

LABORATORY, 6 HOURS.

In this course, theatre students study the practices of managerial and technical theatre plus technical shops and theatre spaces. The emphasis in this course is practical experience working as part of a house management team with an overview of house management operations including ticket sales, ushering, bookkeeping, and publicity for entertainment projects with a particular emphasis on ticket sales and bookkeeping for entertainment projects.

349-3 House Management Practicum III (2) UC:CSU

Prerequisite: Technical Stage Production 349-2

LABORATORY, 6 HOURS.

In this course, theatre students study the practices of managerial and technical theatre plus technical shops and theatre spaces. The emphasis in this course is practical experience working as a house management supervisor over all house management operations including ticket sales, ushering, bookkeeping, and publicity for entertainment projects.

350 Make-Up for Theatre (3) UC:CSU (C-ID THTR 175)

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course is a study of the basic tools, materials, techniques, and methods of makeup application which might be used for the various roles in modern and classical stage plays. Theatrical makeup design and application is performed by students on their own faces, including glamour, aging, facial hair, stylizing, gore, facial contouring, impersonations, fantasy characters, and the use of makeup for theatre, film, and television.

351 Applied Makeup Design (2) UC:CSU RPT3

LABORATORY, 6 HOURS.

This course, students study the practices of designing and executing makeup and hair designs for a college public performance and the students' professional portfolio entered in the American College Theatre Festival. Emphasis is placed on the design process from beginning to end including: Script analysis, concept, collaboration, design, technical paperwork, project management, production, and strike.

355 Make-Up Practicum (2) CSU

LABORATORY, 6 HOURS.

In this course, theatre students study the practices of managerial and technical theatre plus technical shops and theatre spaces. Emphasis is placed on makeup and hair operations including researching and executing makeup and hair for entertainment projects. Study culminates in a college public performance entered in the American College Theatre Festival.

360 Costume Design for Theater (3) UC:CSU (C-ID THTR 174)

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course explores the process of costume design from script to stage. Students learn to see as a designer, think like an artist, and communicate ideas visually and verbally. A study of the history of the costume and clothing as an expression and indicator of status, class, culture, and historical era is also covered. The class also uses projects to enhance practical design and sewing skills.

361 Applied Costume Design (2) UC:CSU RPT3

LABORATORY, 6 HOURS.

This course, students study the practices of designing and executing costume designs for a college public performance and the students' professional portfolio entered in the American College Theatre Festival. Emphasis is placed on the design process from beginning to end including: Script analysis, concept, collaboration, design, technical paperwork, project management, production, and strike.

363 Costume Crafts, Dye, and Fabric Printing (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course provides practical application of textile modification techniques for costumes: Various dyes, painting, batik, stencil, aging, distressing, and digital fabric sublimation.

364 Costume Sewing and Pattern Making (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course covers the theory and practice of creating stage and film costumes and costume accessories through draping and pattern making.

365 Historical Costume Sewing and Pattern Making (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course covers the theory and practice of creating historically accurate stage and film costumes and costume accessories through draping and pattern making.

366 Fantasy Costume Sewing and Pattern Making (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course covers the theory and practice of creating fantasy stage, film, and cosplay costumes and costume accessories through draping and pattern making.

367 Costume and Fashion History

(3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS; LABORATORY, 0.25 HOUR WITH HOMEWORK AND 0.75 HOUR WITHOUT HOMEWORK.

This course provides an exploration of costume and fashion from ancient to modern times with a focus on the artistry and history of the time period, geography, culture, and politics and their influences on costume design for stage, film, and television.

370 Lighting Design for Theatre (3) UC:CSU (C-ID THTR 173)

LECTURE, 3 HOURS.

This course creates an understanding of the basic methods, physical techniques, and work ethics of the lighting designer/technician. The process includes training in the creative concepts of design and how to create a light plot as well as in the practical use and operation of the equipment used to execute the design. Specific attention is paid to entertainment industry work and safety standards that prepares the student for work in the industry.

380 Scenic Design for Theatre (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course offers students training in the art of designing scenery for theatre from the conceptualization to the realization of a complete theoretical design through the use of advanced drafting, model making, and other pre-visualization techniques.

382 Sketching and Rendering for Design (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course focuses on sketching, drawing, and painting techniques used for visual communication. It also offers Photoshop and Illustrator training to express theatrical design concepts in scenery, costumes, and lighting. These skills are required for presentations of designs in the entertainment industry.

384 Computer Drafting for Theatre (3) UC:CSU

LECTURE, 3 HOURS.

This course explores the drafting techniques and skills needed to express the art of theatrical design in scenery and lighting through the medium of the computer. This course focuses on the computer drafting programs known as AutoCAD, Vectorworks, and also introduce SketchUp and Lightwright.

700 Theatre Festival Workshop (2) UC:CSU RPT3

LABORATORY, 6 HOURS.

In this course, students learn methods, strategies and skills to compete in theater festivals, for example the Kennedy Center American College Theatre Festival. Students learn the rules of competition and prepare performances or presentations for competition. Areas of competition include: Auditioning for scholarships, professional companies, and

college and university programs; stage management; costume, light, sound, and scenic design; allied theater crafts; play writing; dramaturgy; and others which may arise.

701 Shakespeare Festival Workshop I (2) UC:CSU LABORATORY, 6 HOURS.

In this course, students are introduced to the basics of poetry speaking, period movement, and voice and diction through practical application to a Shakespearean set speech or soliloquy of appropriate age and range. Work prepares students for audition and employment at Shakespeare festivals or other venues.

702 Shakespeare Festival Workshop II (2) UC:CSU *Prerequisite: Technical Stage Production 701.*

LABORATORY, 6 HOURS.

In this course, students continue practice of poetry speaking, period movement, and voice and diction through work on a Shakespearean set speech or soliloquy and are introduced to scene work of appropriate age and range. Work prepares students for audition and employment at Shakespeare festivals or other venues.

703 Shakespeare Festival Workshop III (2) UC:CSU *Prerequisite: Technical Stage Production 702.*

LABORATORY, 6 HOURS.

In this course, students are introduced to the rhythms of prose and its hidden poetry, intermediate period movement and dance, broadsword combat, and continued voice and diction through work on a prose set speech/soliloquy and a prose scene, as well as continued poetry work on a sonnet from the works of Shakespeare. Work prepares students for audition and employment at Shakespeare festivals or other venues.

704 Shakespeare Festival Workshop IV (2) UC:CSU *Prerequisite: Technical Stage Production 703.*

LABORATORY, 6 HOURS.

Students are introduced to the advanced elements of performing Shakespeare including irony, ambiguity, and heightened and naturalistic verse with continued focus on poetry speaking and physicality applied to a complex set speech/soliloquy, a sonnet, and a complex and lengthy scene from the works of Shakespeare. Work prepares students for audition and employment at Shakespeare festivals or other venues.

921 Cooperative Education – Technical Stage Production (2) CSU RPT3

Note: Requires 15 to 19 hours per week; paid employment related to the occupational major and enrollment in at least 7 units (which include Co-op Ed).

Cooperative Education is a work experience program involving the employer, the student-employee, and the college to ensure that the student receives on the job training and the unit credit for work experience or volunteer work/internship. Students must be employed or volunteering/interning in order to participate in the program. During the fall and spring semesters, students shall be enrolled in at least one additional course in a U.S. regionally accredited institution.

Theater Arts (THEATER)

100 Introduction to the Theater (3) UC:CSU IGETC Area 3A (C-ID THTR 111)

LECTURE, 3 HOURS.

Note: Open to all students. Required of all Theater Arts majors and other students desiring to participate in the production of plays. A survey study and analysis of the various elements that make up the institution called the Theatre. Subjects range from origins of primitive drama to contemporary structure and direction of our modern Theatre.

101 Acting in History and in Style (3) UC:CSU IGETC Area 3A LECTURE, 3 HOURS.

In this course, students are introduced to the development of acting from classical style to modern systems through lecture, discussion, demonstration, and various assigned exercises.

110 History of the World Theater (3) UC:CSU IGETC Area 3A LECTURE, 3 HOURS.

In this course, students study the history and development of theater and drama, from the 5th century BCE to the 17th century CE. Students examine how, from pre-civilization to present day, theatre has served a variety of functions within different cultures and societies and examine how, throughout history, theatre changes in response to the changing needs and concerns of a given culture, so that students can understand and articulate the relationship between theatre and society.

112 History of World Theater II (3) UC:CSU IGETC Area 3A LECTURE, 3 HOURS.

In this course, students study the history and development of theater and drama, its plays and playwrights, and structures and methods of staging and acting from the English Restoration through the 21st Century. Students examine how, throughout history, theatre changes in response to the changing needs and concerns of a given culture and understand and articulate the relationship between theatre and society and the individual, as well as its changing relevance over the past 400 years.

114 Script Analysis (3) UC:CSU (C-ID THTR 114) LECTURE, 3 HOURS.

This course provides principles, theories, and techniques of play script analysis for theatrical production.

130 Playwriting (3) UC:CSU LECTURE, 3 HOURS.

This course introduces the student to the fundamental principles and techniques of playwriting. This hands-on, practical introduction culminates with the student's original one-act play being presented by student actors to a live audience.

200 Introduction to Acting (3) UC:CSU *(UC Credit Limit: Theater 200 and 270 combined, maximum credit, one course).*

LECTURE, 3 HOURS.

Through lecture, discussion, demonstration, and various assigned exercises, the student is introduced to the development of acting from classical style to modern systems.

205 Actor's Orientation to Professional Theater (2) CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

The student learns about a career as a professional actor in the American entertainment industry including methodology and techniques for seeking and gaining employment in theatre, film, television, commercials, and new media, which includes all forms of electronic performance.

225 Beginning Direction (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

This course leads students from the basics through all the elements necessary to get a play on stage; interpretation, casting, scheduling, movement, blocking, business, pace, and timing. It also provides firm guidance for beginning directors in the technical handling of a script from preparation of a Prompt Book to working out technical plots.

226 Directors Project Practicum (2) CSU RPT3

LABORATORY, 6 HOURS.

In this course, under the guidance of student directors and producers, students work together on all elements necessary to rehearse and stage a one-act play for public performance.

232 Play Production II (2) UC:CSU

LABORATORY, 6 HOURS.

Theatre students study performance and managerial practices while participating in public performances. Performance and production work may consist of acting and stage management.

235 Play Production and Company Performance (5) UC:CSU RPT3

LABORATORY, 15 HOURS.

Theatre students study the real practices of performance, managerial and technical theatre while participating in college public performances, technical shops and theatre spaces. Production work may consist of the following: Acting, carpentry, costumes, painting, lighting, sound, props and stage management.

240 Voice and Articulation for the Theater (3) UC:CSU

LECTURE, 3 HOURS.

This course is designed to emphasize speech practice and technique for the stage, motion pictures, television and the Lecture platform. Students are introduced to the fundamentals of good speech, including breathing, posture, resonance, projection and articulation. A study is made of the psychological and acoustical factors determining vocal quality, force, time and pitch. Students are introduced to the International Phonetic Alphabet and how to drop into their natural voice.

244 Voice and Articulation for Performance (3) UC:CSU

LECTURE, 3 HOURS.

This course is designed to emphasize speech practice and technique for scene performance on the stage, motion pictures, and television. Students apply fundamentals of good speech, including breathing, posture, resonance, projection, and articulation to performance texts that require two or more actors. Students apply the International Phonetic

Alphabet to General American Speech and learn how to maintain this dialect and their natural voice in a scene performance that requires physical effort.

246 Dialects for the Actor (3) UC:CSU

LECTURE, 3 HOURS.

In this course, students learn to speak English with dialects. They apply the International Phonetic Alphabet, observation of professional actors and research of authentic speakers to performance for stage and recorded media. Dialects include, but are not limited to, General American Speech, Upper Class British, Cockney, Irish, Russian, French, Southern, and New York.

251 Theater in the Community: Tour for Children (2) CSU

LECTURE, 0.5 HOUR; LABORATORY, 5.5 HOURS.

This course is focused on the rehearsal, performance, and tour of a play for young audiences. The student is introduced to practical skills to teach creative drama for children and youth through the rehearsal process, readings, and lecture. The student then applies these skills in creative drama workshops for children or youth. Students pay a fee for background check, live scan fingerprinting, and TB test.

252 Children's Theater: Production and Methods Practicum (2) CSU

LECTURE, 0.5 HOUR; LABORATORY, 5.5 HOURS.

This course focuses on the rehearsal, performance, and tour of a play for a young audience. Students are introduced to the pedagogy of teaching creative drama for children and youth through the rehearsal process, classroom teaching practice, field classroom observation, readings, and lectures. Students then apply this knowledge and practice in performance workshop situations as a workshop assistant. Students pay a fee for background check, live scan fingerprinting, and TB test.

256 Theater in the Community: Tour for Seniors (2) CSU

LECTURE, 0.5 HOUR; LABORATORY, 5.5 HOURS.

This course is focused on the rehearsal, performance, and tour of a play for an audience over fifty years of age. Students are introduced to the pedagogy of teaching and facilitating theatrical experiences for older actors through the rehearsal process, classroom teaching practice, on-site observation, readings, and lectures. Students then apply this knowledge and practice in a performance workshop situation as a workshop assistant. Students pay a fee for background check, live scan fingerprinting, and TB test.

257 Inter-Generational Theater: Production and Methods Practicum (2) CSU

LECTURE, 0.5 HOUR; LABORATORY, 5.5 HOURS.

This course is focused on the rehearsal, performance, and tour of a play for an audience over fifty years of age. Students are introduced through the rehearsal process, readings, and lectures to practical skills that facilitate creative theatrical experiences for older actors or workshop participants. Students then apply these skills in performance workshops for older adults or actors. Students pay a fee for background check, live scan fingerprinting, and TB test.

259 The Arts in the Community (3) CSU

LECTURE, 3 HOURS.

This course introduces the cultural origins, history, and practice of community-based visual and performing arts. Historical and contemporary case studies of arts programming are examined and evaluated. Emphasis is placed on developing awareness of professional careers and opportunities in education and auxiliary professions in the arts beyond the gallery or performance venue.

260 Acting Fundamentals (3) UC:CSU (C-ID THTR 151)

LECTURE, 3 HOURS.

Students are introduced to the basics of the craft of acting through a structured sequence of lectures, discourse, and assignments regarding theories, steps, and techniques.

265 Movement for the Actor (2) UC:CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This course is designed to develop the actor's physical expressiveness on stage. Physical exercises, improvisations, mask work, and other explorations lead to enhanced strength, balance, energy, flexibility, and physical freedom for character development and performance.

270 Beginning Acting (3) UC:CSU (C-ID THTR 151)

(UC Credit Limit: Theater 200 and 270 combined, maximum credit, one course).

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

Students are introduced to the basics of the craft of acting.

272 Intermediate Applied Acting (3) UC:CSU (C-ID THTR 152)

Prerequisite: Theater 260 or Theater 270.

LECTURE, 2 HOURS; LABORATORY, 4 HOURS.

Intermediate acting principles and stage techniques are expanded and applied to staged public performances. The emphasis is on comprehension of material and technique, and translating them into dramatic action and performance.

273 Advanced Acting (2) UC:CSU

Prerequisite: Theater 272.

LECTURE, 3 HOURS.

The course provides advanced study of acting methods and techniques which are then applied and performed in scenes from playwrights including Shakespeare, Chekhov, Pinter, and others.

278 Film and Television Acting (3) UC:CSU

LECTURE, 2 HOURS; LABORATORY, 2 HOURS.

The basic fundamentals of acting for the camera are explored. Demonstration, exercises, and improvisations are used to practice the techniques. Scenes are practiced, taped, and critiqued.

286 Stanislavsky: The Art of the Actor (2) CSU

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

The course provides advanced study of the acting methods and techniques developed by Konstantin Stanislavsky which are the basis for most contemporary acting approaches. This technique is then applied and performed using the scenes from works of contemporary playwrights including Chekhov, O'Neill, Miller, and others.

293 Rehearsals and Performances

III (3) UC:CSU RPT3 (C-ID THTR 191)

LABORATORY, 9 HOURS.

Theatre students study the rehearsal and performance practices of performing in theatre productions assigned as lead actors, character actors, or bit parts. Study culminates in a college public performance entered in the American College Theatre Festival.

505 History of Motion Pictures (3) UC:CSU IGETC Area 3A

LECTURE, 3 HOURS.

This course traces the foundational development and maturation of American motion pictures contextualized with developments in European cinema. Emphasis is placed on the foundational scientific, economic, cultural, and artistic forces that propelled motion pictures into one of America's most influential industries.

185 Directed Study - Theater (1) CSU

285 Directed Study - Theater (2) CSU

385 Directed Study - Theater (3) CSU

CONFERENCE 1 HOUR PER WEEK PER UNIT.

The above courses allow students to pursue Directed Study in Theater on a contract basis under the direction of a supervising instructor.

CREDIT LIMIT: A MAXIMUM OF 6 UNITS IN DIRECTED STUDY MAY BE TAKEN FOR CREDIT.

Note: UC Credit for variable topics courses in this discipline is given only after a review of the scope and content of the course by the enrolling UC campus. This usually occurs after transfer and may require recommendations from faculty. Information about internships may also be presented for review, but credit for internships rarely transfers to UC.

921 Cooperative Education - Theater (2) CSU RPT3

Note: Requires 15 to 19 hours per week; paid employment related to the occupational major and enrollment in at least 7 units (which include Co-op Ed).

Theater is approved for Cooperative Education, Work Experience, and Internships. See listing under Cooperative Education.

Noncredit Department

E3-100 • (323) 260-8174

Courses shown in this “Noncredit” section provide adults with skills that are critical to their ability to succeed in college or on the job. These courses help students learn English, learn to read and write, prepare for the GED (General Educational Development) test, gain American citizenship, and learn a job skill. All of the courses and services are free. Because these courses are noncredit, none of the courses provides units and cannot be counted towards a degree.

Faculty

*Villacorte, Dennis A., Chair, Professor,
Noncredit Basic Skills*

Perronne, Michael, Assistant Professor, Noncredit ESL

Adjunct Associate Professors

Bernhard, Gregory S.

Cerdenio, Rachel

Chen, Lei

Cho, Hannah

Chuah, Cheng

Dentino, John

Elgudin, Lev

Garamvolgyi, Ann Mari

Hayes, Mihaels

Hodgson-DeSilva, Krishana

Joven, Michael L.

Kelley, Suzanne

King, Sandra L.

Koupai, Kathy

Lay, Nancy

Munoz-Nebbia, Maria Elena

Nicassio, Nicholas

- Engineering Technologies and Applications
- English as a Second Language, Level 1
- English as a Second Language, Level 2
- English as a Second Language, Level 3
- English as a Second Language, Level 4
- Environments
- Foundations for Academic Success
- Front Office Medical Assistant
- Introduction to Patient Transporting
- Job Readiness
- Job Readiness and Career Exploration
- Land Surveying
- Non-Medical In-Home Health Care Aide
- Nutrition for a Healthy Lifestyle
- Pharmacy Clerk
- Play
- Programming and APPs
- Sewing Essentials and Alterations
- Tailoring
- Workplace Skills

CERTIFICATES OF COMPETENCY

- English as a Second Language Communication Competency
- Reading and Writing Foundations

ACADEMIC PREPARATION/GED

Academic Preparation courses are designed for students who wish to improve reading, writing, math, and study skills before enrolling in college-level courses for credit. These courses also prepare students to take the GED test.

ESL CLASSES

The ESL program consists of four core ESL levels and elective offerings which include conversation classes and a variety of workshops. Certificates of Completion are offered if the student successfully completes core sections by meeting certain criteria. The ESL program can assist students to improve their English skills in order to live in the U.S.A. and also to prepare to transfer to a credit English class.

CITIZENSHIP CLASSES

Citizenship courses are designed to prepare students to take the U.S. citizenship exam. Instruction is provided in the areas of government, current events, test-taking strategies, and appropriate English Skills.

NONCREDIT LABORATORY

The Noncredit Laboratory includes a computer laboratory, a basic skills faculty member, and tutors to assist you. Internet access for research and study as well as programs for reading skills are available on the computers.

SUBJECTS & COURSE DESCRIPTIONS

Academic Preparation (ACAD PR)

1CE Language Arts: Writing Mechanics (0)

LECTURE, 1.5 HOURS.

This course is an introduction to the essential elements of the structure of the English language. Word forms and their functions, punctuation rules and guidelines are presented and discussed as they are combined in order to express meaning.

2CE Language Arts: Writing Sentences (0)

LECTURE, 1.5 HOURS.

This Language Arts, Writing Sentences course develops your ability to identify errors in sentence structure and to correct them in your own writing. Students learn about compound sentences and complex sentences, as well as how to correct sentence fragments and run-on sentences.

3CE Language Arts: Writing Essays (0)

LECTURE, 1.5 HOURS.

This Language Arts, Writing Essays course develops your ability to write short essays by following a step-by-step approach. Students learn about the process of writing, from coming up with ideas, organizing these ideas into a well-structured essay, to editing and revising your ideas into final form.

4CE Language Arts: Reading Fiction (0)

LECTURE, 1.5 HOURS.

This Language Arts, Reading Literature course develops your ability to read and understand literature in its various genres: fiction, poetry, and drama. Whether you are preparing to take the GED (General Educational Development) Exam, or planning to enroll in college credit courses, you will build your reading skills by reading different forms of literature.

5CE Language Arts: Reading Non-Fiction (0)

LECTURE, 1.5 HOURS.

This Language Arts, Reading Nonfiction course develops the ability to read and understand various form of nonfiction, including newspapers, magazines, and longer genres such as biography. Students preparing to take the GED

(General Educational Development) Exam, or planning to enroll in college credit courses, build their reading skills by reading different forms of nonfiction.

6CE Reading and Writing I (0)

LECTURE, 5 HOURS.

This course helps build a solid foundation of basic vocabulary, reading, and writing. Readings emphasize fiction and personal narrative. Topics include finding main ideas and details in expository text and writing summaries of paragraphs and articles. This course is recommended for students who need an intensive review of basic reading and vocabulary skills.

7CE Reading and Writing II (0)

LECTURE, 5 HOURS.

The course is designed for students reading below an 8th grade level. Using a variety of fiction and nonfiction texts, the course is designed to build basic reading skills, which cover reader response, annotation, comprehension, vocabulary, retention, and analysis of basic textual forms; and basic writing skills, which cover the writing process and writing mechanics.

11CE Mathematics: Whole Numbers and Decimals (0)

LECTURE, 1.5 HOURS.

This course is a review of the basic number functions of whole numbers and decimals. Students practice and improve their skills in addition, subtraction, division and multiplication. Basic number concepts are reviewed and applied.

12CE Mathematics: Fractions (0)

LECTURE, 1.5 HOURS.

This course teaches the student how to add, subtract, divide and multiply fractions. It includes a review of the foundations as well as the practical applications of fractions to academic and to daily experience.

14CE Mathematics: Ratio, Proportion and Percent (0)

LECTURE, 1.5 HOURS.

This class uses a task-based approach to teach the concepts and applications of ratios, proportions and percents. The students apply problem-solving techniques to solve assignments.

15CE Data Analysis (0)

LECTURE, 2 HOURS.

This course covers measurement and units of measure, basic statistics and probability, and reading and interpreting various types of charts and graphs. Students explore how data is organized and visually presented and how to solve problems using this information. This class can be used to help students prepare for the GED, HISET and TASC high school equivalency exams.

16CE Algebra (0)

LECTURE, 3 HOURS.

This course covers the fundamentals of algebra. Topics include evaluating algebraic expressions, solving equations, understanding mathematical patterns and functions, rational expressions, graphing linear and quadratic

equations, determining the slope of lines, and evaluating functions. This class can be used to help students prepare for the GED, HISET and TASC high school equivalency exams.

17CE Geometry (0)

LECTURE, 2 HOURS.

This course covers the fundamentals of geometry. Students learn to identify various types of geometric figures including angles, triangles, polygons, and 3-dimensional figures and calculate perimeters, areas, and volumes. This class can be used to help students prepare for the GED, HISET and TASC high school equivalency exams.

40CE Foundations: Critical Thinking (0)

LECTURE, 1.5 HOURS.

This course in critical thinking and problem-solving guides the student through the well-established Bloom's taxonomy of knowing, understanding, applying, analyzing, synthesizing, and evaluating. The students learn by doing activities which follow, support, and reinforce each successive step.

41CE Foundations: Study Skills (0)

LECTURE, 1.5 HOURS.

This course in learning techniques and strategies covers preferred learning styles, note taking, test preparation strategies, test-taking techniques, and time management. The approach is task-based, practical, and easily applied to content coursework.

Basic Skills (BSICSKL)**2CE Basic English Skills (0)**

LECTURE, 3 HOURS.

This course prepares students for the GED Language Arts: Reading test. Students develop the ability to revise and edit workplace and informational documents through the study of grammar and punctuation. Writing the essay is also taught.

28CE Basic Skills Pre-Algebra (0) RPT4

LECTURE, 8 HOURS.

This is a preparatory course for students who want to attain a readiness for Basic Skills Algebra 1. It is designed to help students develop mathematical, organizational and study skills necessary to succeed in Basic Skills Algebra 1.

29CE Basic Skills Algebra 1 (0) RPT4

LECTURE, 8 HOURS.

This course is designed to help students understand variable and symbol manipulation and the relationships between them. Topics include: algebraic concepts and methods involving quantities with expressions, equations, inequalities, and matrices; tables and graphs as tools to interpret expressions, equations, and inequalities; operating on expressions and matrices and solving equations and inequalities; and the power of mathematical abstraction and symbolism.

30CE Basic Skills Geometry (0) RPT4

LECTURE, 8 HOURS.

This course includes the study of two and three dimensions from an algebraic point of view. Topics include: translation between synthetic and coordinate representation; deduction of properties of figures using transformations

and coordinates; identification and classification of figures in terms of congruence and similarity; interpretation and use of three-dimensional objects and geometric models; and application of properties of figures. Students utilize the extension of trigonometry to angles greater than 90 degrees as a precursor to the development of circular function trigonometry in later courses. Students also analyze properties of Euclidean transformations, relate translations to vectors, and develop an understanding of an axiomatic system through investigations and proofs.

31CE Basic Skills Algebra 2 (0) RPT4

Lecture, 8 hours. This course complements and expands on the mathematical concepts of Algebra 1 and some concepts of Geometry. Emphasis is placed on abstract thinking skills, the function concept, and the algebraic solution of problems in various content areas, including the solution of systems of equations, logarithmic and exponential functions, the binomial theorem, and the complex number system.

32CE Basic Skills Trigonometry/ Precalculus Preparation (0) RPT4

LECTURE, 8 HOURS.

This course utilizes the techniques of both algebra and geometry. Trigonometric functions are defined geometrically, rather than in terms of algebraic equations.

33CE Developing Mathematical Thinking (0) RPT4

LECTURE, 2 HOURS.

This course is for students who want to attain a readiness for the study of Mathematics. It is designed to help students begin to develop the thinking, problem solving, organizational, and study skills necessary to succeed in Mathematics.

61CE Academic Preparation for Students with Disabilities (0)

LECTURE HRS: 1.33

This course is designed for students with disabilities who would like to get introduced to the college environment in order to have a better opportunity for success and prepares students with disabilities for successful transition into credit courses. It introduces students to essential basic vocabulary associated with college. Emphasis is placed on campus resources, information on certificates, AA/AS, AA-T/AS-T, and transfer.

62CE Basic Computer Literacy for Students with Disabilities (0)

LECTURE HRS: 1.33

This course introduces students with disabilities to various types of adaptive software and hardware. Students learn to utilize assistive technology more efficiently. The course is based on student needs and also covers topics on Internet usage and operating systems. Students learn basic elements of Microsoft Word, PowerPoint and management of an e-mail account. The course will provide an overview of the registration process and an introduction to search engines. Students need to bring an 8GB flash drive.

67CE Supervised English Tutoring (0) RPT4

LECTURE, 20 HOURS.

This course assists students in achieving objectives for any class that requires writing. Through individual as well

as group tutoring outside of class time, students learn to develop critical thinking and writing skills at all levels from invention to organization, analysis, and clarity. Additionally, computer grammar programs and workshops assist students in strengthening their mechanical skills, and a conversation lab allows ESL students to practice their speaking skills.

82CE GED Preparation: Reading Skills (0) RPT4

LECTURE, 3 HOURS.

This course prepares students for any high school equivalency exam, such as the General Educational Development (GED), High School Equivalency Test (HSET) or Test Assessing Secondary Completion (TASC), in the area of Reading. Students develop the ability to read closely across a range of informational texts as well as texts from literature. They read and respond to questions at the career and college ready level of text complexity.

84CE GED Preparation: Mathematics (0) RPT4

LECTURE, 4 HOURS.

This course prepares students for any high school equivalency exam, such as the General Educational Development (GED), Hi-SET or TASC in Mathematics. The class reviews arithmetic, the metric system, algebra, geometry, statistics, and probability. Students learn various test-taking strategies and tips designed to improve test performance.

85CE GED Preparation: Science (0)

LECTURE, 3 HOURS.

This course prepares students for any high school equivalency exam, such as the General Educational Development (GED), High School Equivalency Test (HSET) or Test Assessing Secondary Completion (TASC), in the area of Science. Students develop the ability to read, understand, and use information in this context, with a focus on life science, earth science, and physical science.

86CE GED Preparation: Social Studies (0)

LECTURE, 3 HOURS.

This course prepares students for any high school equivalency exam, such as the General Educational Development (GED), High School Equivalency Test (HSET) or Test Assessing Secondary Completion (TASC), in the area of Social Studies. Students develop the ability to read, understand, and use information in this context, with a focus on the core areas of civics and government, United States history, economics, and geography and the world.

88CE GED Preparation: Language Skills (0) RPT4

LECTURE, 3 HOURS.

This course prepares students for any high school equivalency exam, such as the General Educational Development (GED), High School Equivalency Test (HSET) or Test Assessing Secondary Completion (TASC), in the area of Language Skills. Students develop command of a foundational set of conventions of standard English. This core set of skills includes essential components of grammar, usage, capitalization, and punctuation, as well as the effective organization of ideas.

Citizenship (CITIZN)

50CE Citizenship For Immigrants (0)

LECTURE, 5 HOURS.

This course prepares students to take the United States of America citizenship examination. Instruction is provided in government organization, current events, test-taking strategies, and appropriate English writing and speaking skills. Citizenship forms, documents, and regulations are explained.

English as a Second Language (ESL NC)

40CE Writing/Grammar/Reading/ Vocabulary/Listening/Speaking I (0)

LECTURE, 10 HOURS.

This course is designed for students at the low-beginning level of English. It provides instruction in introductory grammar, simple reading and writing, basic sentence structure, spelling and phonemic correspondences, and verbal communication skills. Emphasis is placed on simple English, clear pronunciation, correct grammar, punctuation, and spelling.

41CE Writing/Grammar/Reading/ Vocabulary/Listening/Speaking II (0)

LECTURE, 10 HOURS.

This course is designed for students at the high-beginning level of English acquisition. It provides instruction in reading and writing, sentence structure, spelling and phonemic correspondences, and verbal communication skills. Emphasis is placed on general understanding of simple spoken and written English, clear pronunciation, correct grammar, punctuation, and communicative effectiveness.

42CE Writing/Grammar/Reading/ Vocabulary/Listening/Speaking III (0)

LECTURE, 5 HOURS.

This course is designed for students at the low-intermediate level of English language acquisition. It provides instruction in grammar, verbal communication skills, and comprehension of spoken English. Emphasis is placed upon a general understanding of spoken English and overall communicative effectiveness.

43CE Writing/Grammar/Reading/ Vocabulary/Listening/Speaking IV (0)

LECTURE, 5 HOURS.

This course is designed for students at the high-intermediate level of English acquisition. It provides instruction in reading and writing, sentence and paragraph structure, verbal communication skills, and comprehension of everyday spoken English. Activities include the direct study of grammatical structures appropriate for the level, reading and discussion of short stories or short articles, writing sentences, fully developed paragraphs, listening for comprehension, and the practice of pronunciation and intonation patterns necessary for successful communication.

44CE Conversation (0)

LECTURE, 5 HOURS.

This course provides students the opportunity to speak, hear, and use the English language in a relaxed and friendly

environment. Listening and conversation skills along with social, functional, grammatical, and topical knowledge are greatly improved.

45CE Workplace English (0)

LECTURE, 5 HOURS.

This class is designed for students at the high-intermediate level of English acquisition. A workplace context is used in order to provide instruction in reading and writing, sentence and paragraph structure, verbal communication skills, and comprehension of everyday spoken English. Activities include the study of vocabulary, functions, content, and grammatical structures appropriate for the workplace.

46CE Writing (0)

LECTURE, 5 HOURS.

This class is designed for students at the high-intermediate level of English acquisition. It provides instruction in sentence and discourse grammar, critical thinking, organization, topic and supporting sentences, and paragraph structure. Activities include the writing and rewriting of selected assignments, as well as the direct use of grammatical elements appropriate for the level.

50CE Beginning Conversation (0)

LECTURE, 5 HOURS.

This course is designed for students who wish to improve their listening comprehension of English and to increase their ability to make themselves understood, using conversational American English speech. This is the introductory level ESL conversation course.

51CE Intermediate Conversation (0)

LECTURE, 5 HOURS.

This intermediate-level course is for students who already have the basic ability to listen and to speak in English. It continues the development of listening comprehension and speaking skills. Listening focuses on comprehension of oral instructions and questions, high-frequency vocabulary in context, and main ideas and details in conversations and class lectures. Speaking focuses on the clear pronunciation of common words and continues the development of English pronunciation patterns. Students observe and practice appropriate verbal and nonverbal behavior in one-on-one and/or small group settings.

54CE Writing Summaries and Paragraphs: Academic Bridge (0)

LECTURE HRS: 5

This noncredit English as a Second Language course is designed for students at the low intermediate level who wish to transition into credit ESL 4A. Emphasis is placed on writing summaries and paragraphs, as well as vocabulary development and spelling.

55CE Reading and Vocabulary: Academic Bridge (0)

LECTURE HRS: 5

This noncredit English as a Second Language course is designed for students at the low intermediate level who wish to transition into credit ESL 4B. Emphasis is placed on reading fluency, comprehension, and speed, as well as vocabulary development and spelling.

56CE Beginning ESL Skills, Part A (0)

LECTURE HRS: 5

This course is the first class in a series of three (56CE, 57CE, and 58CE) designed for students at the beginning level of English acquisition. It provides instruction in introductory reading, vocabulary, listening, pronunciation, and speaking skills. Emphasis is placed on an understanding of simple spoken and written English, intelligible pronunciation, correct grammar, and meaningful communicative effectiveness.

57CE Beginning ESL Skills, Part B (0)

LECTURE HRS: 5

This course is the second class in a series of three (56CE, 57CE, and 58CE) designed for students at the beginning level of English acquisition. It provides instruction in introductory reading, writing, and vocabulary, while reinforcing listening, pronunciation, and speaking skills. Emphasis is placed on an understanding of simple spoken and written English, intelligible pronunciation, correct grammar, and meaningful communicative effectiveness.

58CE Beginning ESL Skills, Part C (0)

LECTURE HRS: 5

This course is the third class in a series of three (56CE, 57CE, and 58CE) designed for students at the beginning level of English acquisition. It provides continued instruction in introductory writing, and as well as applying vocabulary, listening, pronunciation and speaking skills to life skills. Emphasis is placed on an understanding of simple spoken and written English, intelligible pronunciation, correct grammar and meaningful communicative effectiveness.

Older Adults (OLD ADL)**77CE Successful Aging I (0)**

LABORATORY, 1 HOUR.

This non-credit course is designed for the Emeritus College for seniors, ages 55 and over. This course assists this population to gain a basic understanding of health and wellness, and to introduce the concept of successful aging. The topics that are covered include, but are not limited to: Body and brain physiology, cognitive changes and importance of attitude for seniors, methods of socialization and introduction to productive work, basic creative processes, goal setting, self-care techniques and understanding a living legacy. This course is balanced with lecture and discussion as well as hands-on exercises, games, and experiences. Upon completion of this course, a senior will have a basic knowledge about the principles and practices of successful aging.

78CE Successful Aging II (0)

LABORATORY, 1 HOUR.

This non-credit course is designed for the Emeritus College for seniors, ages 55 and over. This course is meant to assist this population to understand health and wellness and success in aging at an intermediate level. The topics that are covered include, but are not limited to: Nutrition for brain and body wellness, exercise techniques for flexibility and mobility, specific body and brain physiology, mental health disorders, cognitive decline and compensatory methods, and attitude changes for seniors. This course is balanced with lecture and discussion as well as hands-on exercises,

games, and experiences. Upon completion of this course, a seniors have an intermediate knowledge about the principles and practices of successful aging.

79CE Successful Aging III (0)

LABORATORY, 1 HOUR.

This non-credit course is designed for the Emeritus College for seniors, ages 55 and over. This course assists this population to cultivate an advanced level understanding and an all-around health and wellness plan to follow for optimal successful aging. The topics that are covered include, but are not limited to: Advanced body and brain physiology, cognitive changes associated with aging, specific methods of socialization for senior groups, and plans to engage in productive work. Advanced experiences in creative processes, exploration of goal setting, self-care techniques, and developing a fully personalized living legacy are presented. This course is balanced with lecture and discussion as well as hands-on exercises, games, and experiences. Upon completion of this course, a senior has an advanced knowledge about the principles and practices of successful aging.

80CE Shallow Water Aqua Aerobics for Older Adults (0)

LABORATORY, 1 HOUR.

This course promotes overall body fitness using shallow water resistance exercises to focus on strength and aerobic exercise for older adults. Areas of focus include: Principles of water safety, center pool warm-up routines and warm-ups against the wall, aerobic exercise, exercise with flotation devices, resistance and strength exercises, cool down exercises against the wall and in the pool center. No swimming skills are required.

81CE Modified Aqua Zumba for Older Adults (0)

LABORATORY, 1 HOUR.

This course promotes overall body fitness by integrating the Zumba formula and philosophy into traditional aqua fitness disciplines for older adults. Aqua Zumba blends it all together into a safe, challenging, water based workout that's cardio-conditioning and body toning. Areas of focus include: Principles of water safety, warm-up routines, modified merengue, modified salsa, modified cumbia and modified reggaetón, aerobic routines and cool down exercises. No swimming skills are required.

82CE Swimming Skills for Older Adults (0)

LABORATORY, 1 HOUR.

This course promotes overall body fitness and introduces students to basic aquatic skills, such as floating, kicking and gliding, and incorporates the development and practice of basic swimming strokes. Areas of focus include: Safety and protection around the pool, warm-up exercises, basic shallow water skills, swimming strokes (freestyle, backstroke, breaststroke and butterfly), treading water, survival floating, introduction to deep water exercise, lap swimming and a cool down.

Note: Upon verified completion of OLD ADL 80CE, OLD ADL 81CE, and OLD ADL 82CE, students may apply for Credit by Exam for KIN 303. Please contact the Kinesiology Department for details.

83CE Low Impact Aerobic Conditioning for Older Adults (0)

LABORATORY, 1 HOUR.

This course promotes overall body fitness using low impact aerobic conditioning exercise that is geared toward improving endurance through continuous movement to music, and with range of motion and coordination mixed in. Areas of focus include: Warm-up exercises, stationary exercises, travelling movements, arm movements, floor exercises, social interaction exercises and cool down exercises.

84CE Resistance Strength Training for Older Adults (0)

LABORATORY, 1 HOUR.

This course covers the basic principles of resistance strength training for older adults. It develops a general program of progressive resistance exercises with adaptation and implication for the individual student. Areas of focus include: Safety and equipment, warm-up exercises, muscle groups for functional activities, chair exercises, resistance bands, wall exercises, ball exercises, body weight exercises, machine weights, free weights and cool down exercises.

85CE Zumba Fitness for Older Adults (0)

LABORATORY, 1 HOUR.

This course enables the student to participate in basic Zumba group exercise that combines a fusion of high energy Latin and International music with unique moves and combinations specifically for older adults. Zumba integrates some of the basic principles of aerobic, interval, and effective fitness resistance training to maximize caloric output, cardiovascular benefits, and total body toning. Zumba provides a non-intimidating opportunity for non-dancers to participate in a group aerobics class.

Note: Upon verified completion of OLD ADL 83CE, OLD ADL 84CE, and OLD ADL 85CE, students may apply for Credit by Exam for KIN 327. Please contact the Kinesiology Department for details.

86CE Tai Chi I - Basics (0)

LECTURE, 1 HOUR.

This course is designed to provide students with basic introductory knowledge of the art and basic principles of Tai Chi for older adults. It develops a comprehensive introduction to Tai Chi, its unique features as well as health benefits. Areas of focus include: Art and practice of Tai Chi, basic posture, basic foot movements, basic hand forms, and movement and basic stances.

87CE Tai Chi II - Forms (0)

LECTURE, 1 HOUR.

This course is designed to provide students with basic introductory knowledge of 14 popular forms used in Tai Chi. Students learn each form individually, so they can memorize the movements quickly and start to understand the principles of Tai Chi. Areas of focus include: Forms for cardiovascular health, forms for stress relief and low back pain, forms for balance and forms for coordination.

88CE Tai Chi II - Routines (0)

LECTURE, 1 HOUR.

This course is designed to provide students with the knowledge of performing smooth routines in Tai Chi. Students learn each routine individually, so they can understand the flow of Tai Chi. Areas of focus include: Six-form routine consisting of the following forms – cloud hands, single whipping, playing lute, brush knee and twist step, parting mustangs mane and grasp sparrows tail, the twelve-form routine and the basic push hands with a partner.

Supervised Learning Assistance (TUTOR)**IT Supervised Learning Assistance (0) RPT4**

LABORATORY, 20 HOURS.

Upon faculty/counselor referral, students receive tutoring and computer-assisted instruction in designated subject areas in various tutoring and computer labs on campus. Cumulative progress and attendance records will be maintained for this non-credit, open-entry course.

Vocational Education (VOC ED)**60CE Custodial Technician Training (0) RPT4**

LECTURE, 1 HOUR; LABORATORY, 2.5 HOURS.

This course provides students with the knowledge and hands-on training needed to apply for entry-level building maintenance service positions in the public and private sectors. Students learn and practice basic safety protocols, the use of common custodial tools, and specific cleaning processes for different types of building areas.

70CE Introduction to Automotive Technology (0) RPT4

LECTURE, 1.5 HOURS; LABORATORY, 1.5 HOURS.

This non-credit course is designed to introduce fundamentals and operation of an automobile and its systems to students with little or no automotive knowledge. Discussion, demonstration, and hands-on exercises are used throughout the course to facilitate the overall understanding of how a vehicle operates. Students acquire a basic understanding of automotive systems as well as develop essential skills to continue in the automobile technology program.

90CE Career Exploration/Classroom to Real World (0) RPT4

LECTURE, 1 HOUR; LABORATORY, 2 HOURS.

This noncredit course covers vocational topics, including but not limited to career descriptions, employment outlook, compensation, training and preparation, college programs and prerequisites needed to pursue jobs within a particular career field. Following classroom preparation and research, students will rotate through a series of job assignments working along with professionals employed in the area of specialization chosen for the course. Throughout all rotations, students work closely with their teacher for supervision and monitoring of work related objectives/course assignments. Upon completion of career rotations, the students will have acquired real world experience needed to facilitate educational, career, and personal planning and goal setting.

96CE Blueprint for Workplace Success (0) RPT4

LECTURE, 2 HOURS.

This accelerated non-credit course is designed to provide students with the necessary tools and skills in order for them to create a plan for themselves with respect to the workplace. The topics covered include, but are not limited to, self-discovery, time management, job market realities, workplace skills (in-depth), effective communication, contacting employers, preparing for the interview, getting hired, and keeping your job.

97CE Blueprint for Customer Service (0) RPT4

LECTURE, 1 HOUR.

This short-term Vocational Education course is designed to provide new and incumbent workers customer service skills required in getting to know their customer or client and increase their employability. The topics include knowing what customers want, listening to customers, and telephone customer service.

98CE 30 Ways to Shine as a New Employee (0) RPT4

LECTURE, .33 HOUR.

This short-term course is designed to provide new and incumbent workers "30 ways to Shine as a New Employee" and increase their level of customer service and colleague relations. The topics covered include understanding the workplace culture and dealing with change.

101CE Workplace Skills 1: Computer Basics (0)

LECTURE, 1.33 HOURS.

This noncredit course provides students with the basis for understanding the basic concepts of information systems used in the workplace. Emphasis is placed on components of the computer, including the system unit, input, output, and storage, file management, and the Internet. This course can be offered in multiple languages.

102CE Workplace Skills 2: Computer Keyboarding (0)

LECTURE, 0.66 HOUR; LABORATORY, 0.66 HOUR.

This noncredit course provides students with the touch-type method of learning the keyboard and developing proper computer keyboard techniques to build speed and accuracy.

282CE Fundamentals of DC Circuits (0)

LECTURE, 1 HOUR; LABORATORY, 1 HOUR.

In this introductory course students learn linear circuit analysis and practice its application to areas of importance in electrical engineering such as resistive circuits, Kirchhoff laws, capacitors and inductors. Students also perform laboratory exercises to learn how to create circuit designs using electronic components and to use instruments such as millimeters, oscilloscopes, and signal generators.

283CE Fundamentals of Engineering Graphics Design Application (0)

LECTURE, 1 HOUR; LABORATORY, 1 HOUR.

In this introductory course students learn engineering graphics communication and the application in 2D and 3D CAD software such as AutoCAD and SolidWorks. Students integrate the Engineering Design Process while applying science, technology, engineering, and mathematics principles to hands-on projects. The CAD software knowledge

is applied to manufacturing techniques such as 3D printing, reverse engineering, metal working, machining, and more through these hands-on projects.

293CE Fundamentals of Robotics (0)

LECTURE, 1 HOUR; LABORATORY, 1 HOUR.

This noncredit course covers the basics in robotics emphasizing hands-on experience to build a basic functional robot. Students learn about electric motors, servos, sensors, switches, actuators and their application in a robot. Students learn Basic Stamp computer programming and its integration into a working robotic unit. The course also includes mechanical assembly, connecting electronic components, wiring and testing.

295CE Fundamentals of Arduino (0)

LECTURE, 1 HOUR; LABORATORY, 1 HOUR.

This noncredit course covers, basic skills in programming and electronics engineering. Arduino is a groundbreaking, open-source electronics prototyping platform based on flexible, easy-to-use hardware and software. The Arduino board can read sensors, control motors and lights, and upload your hand-built code that interacts with the real world. Learn the Arduino programming language, which is based on C/C++.

297CE Fundamentals of APPs Design and Development (0)

LECTURE, 1 HOUR; LABORATORY, 1 HOUR.

This course provides the student with an introduction to mobile application development. The course covers the basics of the mobile application industry as well as the basics of programming. This course assumes a familiarity with the computer and mobile devices, but does not assume that the student has any prior programming experience. At the end of this course the students have the opportunity to earn the industry certification offered by the WebProfessionals.org association. The Mobile Application Design and Development Apprenticeship Certification is a full industry certification and the certification exam must be taken at an approved proctored location either physical or online.

298CE Land Surveying Topics and Applications for Adult Education I (0)

LECTURE, 1 HOUR; LABORATORY, 1 HOUR.

This course is designed for students at the low-intermediate level of the English language. The course provides instruction in basic land surveying principles, field techniques, and technologies. Students will be required to complete basic technical writing and project based field activities. In addition, this course prepares students to enter a career and an academic pathway in geospatial engineering and technologies in land surveying, photogrammetry, and drafting.

299CE Land Surveying Topics and Applications for Exercise (0)

LECTURE, 1 HOUR; LABORATORY, 1 HOUR.

This is a second course in land surveying designed for students at the low-intermediate level of the English language. The course provides instruction for students interested in pursuing a career in land surveying. Topics include horizontal linear measurements and differential leveling,

electronic distance measurement (EDM), computation of azimuth, bearing, latitude, departure and coordinates and area of a traverse.

350CE Nutrition, Diet, and the Importance of Exercise

LECTURE 1 HOUR.

This course develops health knowledge and values with the goal of promoting a high quality of life for each individual. Areas of focus include essential nutrients for a healthy diet, basic dietary guidelines, adopting a healthy lifestyle for successful weight management, and how a balanced diet combined with an active lifestyle can improve health and lower the risk for disease. This non-credit course leads to a Certificate of Completion in Wellness and Healthy Living and provides students with knowledge and skills in preparation for credit courses in health.

352CE Diabetes, Heart Disease, and Other Chronic Illnesses

LECTURE 1 HOUR.

This course develops health knowledge and values with the goal of promoting a high quality of life for each individual. Areas of focus include defining diabetes, symptoms and treatments for diabetes, minimizing your risk factors for diabetes, understanding cardiovascular disease, and protection against infectious diseases. This non-credit course leads to a Certificate of Completion in Wellness and Healthy Living and provides students with knowledge and skills in preparation for credit courses in health.

353CE First Aid and Basic CPR Training (0)

LECTURE 1 HOUR.

This course develops knowledge and describes detailed demonstrations of basic CPR and first aid care of an injured person. Students develop the ability to respond appropriately to non-breathing and cardiac emergencies and learn how to assess a victim's condition and incorporate immediate care to a suddenly injured or ill person. Students become proficient in performing CPR, and in the use of AED as well as also explaining techniques for all ages along with emergency action plans, safety, and prevention of disease transmission. This non-credit course leads to a Non-Medical In-Home Health Care Aide Certificate of Completion and provides students with knowledge and skills in preparation for credit courses in health.

354CE Nonmedical In-Home Support Services Provider (0)

LECTURE, 1.5 HOURS; LABORATORY, 0.5 HOUR.

This course is designed to introduce students to the health care field, working with residents and patients in long-term care facilities, the acute care setting and the in-home care setting. Emphasis is given to safety principles, infection control, methods for providing care, emotional and social support. Students learn to provide comfort, hygiene, nutrition, elimination, sleep and rest care activities to clients with an emphasis on the role of in-home health care aide, personal-care services and cleaning and care tasks of the home. This non-credit course leads to a Non-Medical In-Home Health Care Aide Certificates of Completion and provides students with knowledge and skills in preparation for home health aide training and in-home support services provider credit courses in nursing.

355CE Nutritional Requirements: Components and the Guidelines of a Healthy Diet (0)

LECTURE, 1 HOURS.

This course develops nutritional health knowledge with the goal of promoting a high quality of life for each individual. Areas of focus include; Dietary recommendations for carbohydrates, fats, proteins, water, vitamins and minerals, dietary guidelines that includes the MyPlate food guidance system, components and guidelines for a healthy diet and managing your intake of sugar, alcohol and sodium. This non-credit course leads to a Nutrition for a Healthy Lifestyle Certificate of Completion and provides students with knowledge and skills in preparation for credit courses in health and nutrition.

356CE Weight Management, Energy Balance and Planning Your Diet (0)

LECTURE, 1 HOURS.

This course develops nutritional health knowledge with the goal of promoting a high quality of life for each individual. Areas of focus include; Factors that influence body weight and obesity, assessing body weight and body composition, how you can lose weight healthfully, how to maintain weight loss, health implications of being overweight, energy balance and needs in the body, and designing a successful weight-loss program. This non-credit course leads to a Nutrition for a Healthy Lifestyle Certificate of Completion and provides students with knowledge and skills in preparation for credit courses in health and nutrition.

357CE Nutrition for Exercise and Making Informed Choices about Food (0)

LECTURE, 1 HOURS.

This course develops nutritional health knowledge with the goal of promoting a high quality of life for each individual. Areas of focus include; Nutrition for exercise, does exercise increase your need for carbohydrates or fats, do supplements provide improved health or sports performance, a close up look at food labels, benefits and risks of food additives, foodborne illnesses and organic foods. This non-credit course leads to a Nutrition for a Healthy Lifestyle Certificate of Completion and provides students with knowledge and skills in preparation for credit courses in health and nutrition.

360CE Sewing Essentials (0)

LECTURE, 1.5 HOURS; LABORATORY, 1.5 HOURS.

This course examines the basics of machine sewing operation and sewing techniques. Students create samples and projects demonstrating sewing techniques. This Non-credit course leads to a certificate and provides students with knowledge and skills in preparation for credit courses in Technical Theater.

361CE Sewing Alterations (0)

LECTURE, 1.5 HOURS; LABORATORY, 1.5 HOURS.

This course examines the basics of garment alterations for fit, function, and repairs using machine and hand sewing techniques. Students create sewing samples and projects demonstrating alteration techniques. This Noncredit course leads to a certificate and provides students with knowledge and skills in preparation for credit courses in Technical Theater.

362CE Tailoring I (0)

LECTURE .58 HOUR.

This course examines the principles and techniques of tailoring men's garments used in costuming. Students with basic experience in hand and machine sewing may be better prepared for this course, although introductory tailoring sewing skills will be covered. Students create tailored men's garments utilizing sewing and patterning techniques. This non-credit course provides students with knowledge and skills for union sewing exams and a career in tailoring and costume construction. This course requires basic knowledge in costume construction, patterning, and sewing machine operation. Tailoring I focuses on the construction of a men's vest. This noncredit course leads to a Certificate of Completion in Tailoring.

363CE Tailoring II (0)

LECTURE .58 HOUR.

This course examines the principles and techniques of tailoring men's garments used in costuming. Students with basic experience in hand and machine sewing may be better prepared for this course, although introductory tailoring sewing skills will be covered. Students create tailored men's garments utilizing sewing and patterning techniques. This non-credit course provides students with knowledge and skills for union sewing exams and a career in tailoring and costume construction. This course requires basic knowledge in costume construction, patterning and sewing machine operation. Tailoring II focuses on the construction of a men's suit coat. This noncredit course leads to a Certificate of Completion in Tailoring.

429CE Technical Skills Training for Patient Transporters (0)

LECTURE, 0.33 HOUR; LABORATORY, 0.67 HOUR.

This course provides individuals who are interested in working as patient transporters with the appropriate technical skills to work in a healthcare facility, ambulance company, or other type of facility. These individuals are skilled professionals who contribute significantly to the healthcare industry even though the care they provide is not medical. Responsibilities include assisting patients out of vehicles when they arrive at the hospital and taking them to registration, lifting patients on and off their beds for therapy, and moving them from their rooms to treatment areas using wheelchairs, stretchers, or moveable beds. Their help, reassurance and companionship make a significant difference in the patient experience. Keeping the patient safe and comfortable during the relocation process is vital to this role.

430CE Basic Medical Terminology (0)

LECTURE, 0.67 HOUR.

This course introduces basic medical terminology to students entering career as a patient transporters. The course focuses on the basic component parts of medical terms: Prefixes, suffixes and word roots. Emphasis is placed on the spelling, definition, and pronunciation of terms used in medical documentation. The course covers basic terms related to terms transporters will become familiar with such as abbreviations, operative, diagnostic, and therapeutic and basic symptomatic terminology of body systems.

431CE Communication in Healthcare (0)

LECTURE, 0.67 HOUR.

This course offers students the foundational knowledge and skills to communicate effectively in a variety of health care workplace settings. Students review basic types of communication techniques, examine channels of communication, including the development of interpersonal and technology-related communication; and the impact of interdisciplinary communication.

432CE Community Pharmacy (0)

LECTURE, 1 HOUR.

This course helps the student learn the basic operations of a community pharmacy. This course assists the student in gaining employment in a community pharmacy such as an independent pharmacy, chain pharmacy, mass merchandiser pharmacy or food store pharmacy as a pharmacy clerk.

433CE Medical Records and Scheduling (0)

LECTURE, 2 HOURS.

This course gives a front office medical assistant the basic understanding of how computers work and how they are used in health care in order to be employable.

434CE Legal Obligations and Medical Ethics (0)

LECTURE, 2 HOURS.

This course helps a health care worker to understand their legal responsibilities for the protection of their patients/clients, their co-workers, their employers, and themselves. This course also identifies policies that are in place to ensure that everyone working in a hospital or outpatient practice maintains confidentiality.

500CE Child Development Experiences-Growing and Learning (0)

LECTURE, 1.33 HOURS.

This course examines child development theories, developmental milestones, and developmentally appropriate practices. Students analyze the importance of how children grow and develop, how to promote quality learning environments, and how to apply theory into developmentally appropriate practices. This non-credit course leads to certificates and provides students with knowledge and skills in preparation for credit courses in child development.

501CE Child Development Experiences-Care (0)

LECTURE, 1.33 HOURS.

This course examines how to best care for children and explores specific needs for infants/toddlers, preschool, and school age children. Knowledge of theories related to children's development are explored as: Abraham Maslow's Hierarchy of Needs: Basic needs, safety, love and belonging, respectful interactions, identity development, cultural values and connecting with children and families. Students analyze the importance of theories of child development and develop optimal strategies to implement into practice with children. This non-credit course leads to a certificate and provides students with knowledge and skills and prepares them for credit courses in child development.

502CE Child Development Experiences-Environment (0)

LECTURE, 1.33 HOURS.

Students compare and contrast different environmental settings for children including family child care, home environments, center based programs, afterschool programs, mixed-age environments, Reggio inspired philosophy/curriculum, Head Start, K-5th grade environments, and indoor and outdoor environments. This non-credit course leads to a certificate and provides students with knowledge and skills in preparation for credit courses in child development.

503CE Child Development Experiences - Play (0)

LECTURE, 1.33 HOUR.

This course examines different approaches in developing play strategies for infants/toddlers, preschoolers, and school age children. Emphasis is placed on enhancing development in the six developmental domains: Language, cognitive, social, emotional, fine, and gross motor skills. This non-credit course leads to a certificate and provides students with knowledge and skills and prepares them for credit courses in child development.

521CE The Effects of Aging on Body Systems (0)

LECTURE 1 HOUR.

This course provides an overview of changes that occur in the human body during the aging process. Introduces body systems, activities of daily living and instrumental activities of daily living in the field of gerontology. Includes nutrition as it relates to immunity, digestive problems and decline in senses. Students analyze everyday scenarios and provide recommendations to maximize physical potential of older adults.

Glossary of Terms

Academic Probation - After attempting 12 units, a student whose cumulative grade-point average falls below 2.00 is placed on academic probation.

Academic Renewal - A student may initiate a petition to have his/her record reviewed for the removal of grade(s) from permanent record for the purpose of computing the grade-point average. A student must meet specific conditions and may only have a maximum of 30 units removed.

Add Permit - A form issued by an instructor which permits the student to add the class if the instructor determines that there is room. Enrollment in the class is official only if the add permit is processed by the office of Admissions and Records.

Advisory - An Advisory is a condition of enrollment that a student is advised (but not required) to meet before, or in conjunction with, enrollment in a course.

Appeal - A student request for reconsideration of a decision made affecting disciplinary action, grade change, prerequisite challenge, etc.

Application for Admission - A form provided by the office of Admissions and Records on which the student enters identifying data and requests admittance to a specific semester.

Articulation Agreement - The community colleges work together with the University of California, the California State University and private post-secondary colleges/universities to establish a course agreement to enable transfer students to receive credit for their academic programs.

Assessment - Assessment is the process the college uses to evaluate student skills in areas such as reading, English, English as a Second Language (ESL) and Mathematics.

ASU (Associated Student Union) - An organization which all enrolled students are eligible to join.

Associate Degree - A degree (Associate in Arts, A.A., or Associate in Science, A.S., or Associate Degree for Transfer, ADT), granted by a community college which recognizes a student's satisfactory completion of an organized program of study consisting of a minimum of 60 degree applicable semester units.

Audit - A student's attendance in a class with permission of the instructor and payment of a fee. No college credit nor grade is given.

CalWORKS Program - CalWORKS (California Work Opportunity and Responsibility to Kids), previously GAIN, is an East Los Angeles College program offering training and support services to students receiving TANF (Temporary Assistance to Needy Families), previously AFDC.

Catalog Rights - Catalog rights refer to the right of every continuing student to choose one, and only one, catalog under whose course requirements the student is to be evaluated for the purpose of determining whether the student meets the requirements for ELAC graduation.

The continuing student may select the catalog which was in effect when the student initially enrolled at ELAC, or any catalog in effect thereafter through and including the semester when the student petitions for graduation or transfer certification.

Certificate of Achievement - Programs designed for students who are looking for instruction with a high degree of specialization. Certificates of Achievement vary in length, may require less than two years of full-time study, and may be pursued on a part-time basis. At the point of completion, students may request the issuance of a Certificate of Achievement.

Certificate of Competency - A document confirming that a student has completed a program or sequence of noncredit courses that prepares him or her to be better prepared to undertake degree-applicable credit courses in the subjects of English, English as a Second Language, Math, Reading, or Basic Skills.

Certificate of Completion - A document confirming that a student has completed a program or sequence of noncredit courses that prepares him or her to progress in a career path or to undertake degree-applicable or nondegree-applicable credit courses.

Certification of CSU General Education Requirements - Completion of a body of transfer courses which meet the general education requirements of the California State University system (CSU).

Class Number - A five-digit class identification num-

ber which appears in the first column in the class schedule before the time of day or evening the class meets.

Concurrent Enrollment - A student may enroll in two mutually dependent courses within the same semester and/or may be simultaneously enrolled at both ELAC and a high school or another college.

Continuing Student - A student who maintains continuous attendance, which is defined as no more than one semester absence within a school year, excluding Summer Session and Winter Intersession.

Cooperative Education - An instructional program that is designed to complement the student's academic training with realistic on-the-job experiences.

Corequisite - A condition of enrollment consisting of a specific course a student is required to take simultaneously in order to enroll in another course.

Counseling - Guidance provided by professional counselors in academic, vocational, and personal matters.

Course - A Subject of study identified by Title and Number; for example: Accounting 1.

Credit by Examination - Credit granted for proficiency previously accomplished through testing.

Cross - Referenced - Course content is the same as another course, e.g. GEOG 31 and GIS 31.

CSU - California State University.

Dismissal - A student on academic or progress probation for three semesters may be dismissed from the College. Once dismissed, the student may not attend any college within the Los Angeles Community College District for a period of one year and must petition for readmittance at the end of that period of time.

Drop - A student's official withdrawal from a class.

Elective - Courses which a student may choose without restriction of a particular major program-curriculum.

EW - Excused Withdrawal - Occurs when a student must withdraw from a course or courses under circumstances beyond their control.

Full-Time Student - A student enrolled and active in 12 or more unit, during the Fall or Spring Semester.

General Education Requirements - A group of courses from several Subject areas which are required for graduation by state law.

Grade Point - The numerical value of a college letter grade. A=4, B=3, C=2, D=1, F=0, times the number of units of the course: An "A" in a 5 unit course equals 20 points.

Grade-Point Average (GPA) - The GPA is determined by dividing the total grade point earned by the number of attempted units.

Honors - The East Los Angeles College Honors Program is designed for students with a 3.0 GPA or higher who plan on transferring to a four year College or University.

IGETC - Intersegmental General Education Transfer Curriculum. Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the California State University or the University of California system.

INC - Incomplete. The administrative symbol "INC" is recorded on the student's permanent record in special situations in which the student has not been able to complete a course due to circumstances beyond the student's control.

IP - In Progress. A symbol which indicates a course which continues over parts or all of two semesters.

Lower Division - College courses at the freshman and sophomore levels.

Major - A concentration of study in a specified discipline.

Matriculation - A combination of assessment of reading, English, mathematics, and Chemistry skills; orientation to college programs and services; academic advising and counseling; and the programs and services that enable a student to reach his or her educational goals.

MESA - Serves educationally and financially disadvantaged students, and to the extent possible by law, emphasizes participation by students from groups with low eligibility rates to four-year colleges.

MW (Military Withdrawal) – This occurs when a student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. Upon verification of such orders, a withdrawal symbol may be assigned at any time after the last day of the fourteenth week of instruction or 75% of the time the class is scheduled to meet, whichever is less.

NDA (Non-Degree Applicable) – Credit courses that do not apply toward a degree and are not transferable.

Non-Penalty Drop Period – The first two weeks of a regular semester during which a student's enrollment in a class is not recorded on the student's permanent record if the student drops by the deadline. This deadline will be different for short-term and summer session courses.

Pass/No-Pass – A form of grading whereby a student receives a grade of Pass (P) or No Pass (NP) instead of an A, B, C, D, or F. A "P" is assigned for class work equivalent to a "C" or above. "NP" denotes work below a grade of "C."

Permit to Register – A form listing an appointment day and time at which the student may register.

Prerequisite – A condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program.

Progress Probation – After enrolling in 12 units, a student whose total units for which a W, NP or INC has been assigned equals 50 percent or more of the units enrolled is placed on progress probation.

RD (Report Delayed) – A temporary administrative symbol which is recorded on the student's permanent record when a course grade has not been received from the instructor. It is changed to a letter grade when the grade report is received.

Returning Student – A previously enrolled student who did not attend the College during the previous two semesters. Attendance during the summer session and winter intersession are not included.

Satisfactory Completion – Completion of a course with a grade of "C" or better.

Schedule of Classes – A schedule giving directions for enrollment and detailed information about the times,

locations, and instructors of the classes to be offered for each semester, summer session, and winter intersession.

Semester – One-half of the academic year, usually 16 weeks.

SEP – Student Educational Plan.

Skills Certificate – A document confirming that a student has completed a sequence of credit courses, generally 11 units or less, that prepared him or her to progress in a career path. Skills Certificates are not listed on the student's transcript.

Subject Deficiency – Lack of credit for a course or courses required for some particular objective such as graduation or acceptance by another institution.

Substandard Grade – An earned grade of "D" or "F."

Transcripts – A student's permanent record and an official list of all courses taken at a college or university showing the final grade received for each course.

Transfer – A student may change from one collegiate institution to another after having met the requirements for admission to the second institution.

Transfer Courses – Courses designed to match lower-division courses of a four-year institution and for which credit may be transferred to that institution.

Transferable Units – College units earned through satisfactory completion of courses acceptable for credit at a four-year college or university.

UC – University of California.

Units – The amount of college credit earned by satisfactory completion of a specific course taken for one semester. Each unit represents one hour per week of Lecture or recitation, or a longer time in laboratory or other exercises not requiring outside preparation.

Units Attempted – Total number of units in courses for which a student was ever actively enrolled.

Units Completed – Total number of units in courses for which a student received a grade of A, B, C, D, or P.

Units Enrolled – Total number of units in which the student is enrolled at the end of the non-penalty drop period, which is the total number of units for all courses appearing on the student's transcripts.

Glossary of Terms

W - An administrative symbol assigned to a student's permanent record for all classes which a student has dropped or has been excluded from by the instructor after the end of the non-penalty drop date, but by the last day to drop.

Withdrawal - The action a student takes in dropping all classes during any one semester and discontinuing coursework at the College.

Faculty

A

Acosta, Maria Guadalupe (2015)

Assistant Professor, English
B.A., English, University of California, Los Angeles

M.A., English, California State University, Los Angeles

Adsit, Randall J. (2016)

Assistant Professor, Earth Science
B.S., Geology, San Diego State University

M.S., Geology, California State University, Los Angeles

Akiyama, Kevin S. (2016)

Assistant Professor, Counseling
A.A., Liberal Studies, East Los Angeles College

B.A., Art (Design) Cal Stateytechnic University, Pomona

M.A., Educational Counseling, Azusa Pacific University

M.S., Physical Education, Azusa Pacific University

Alemu, Dawit (1998)

Professor, Mathematics
B.S., Addis Ababa University, Ethiopia
M.S., California State University, Los Angeles

Almaraz, Steven M. (2019)

Assistant Professor, Psychology
B.A., Psychology, University of California, Los Angeles

M.A., Social Psychology, Miami University

Ph.D., Social Psychology, Miami University

Alvarado, Jennifer J. (2015)

Assistant Professor, Business
B.A., Political Science, University of California, Los Angeles

M.A., Business Administration, California State Polytechnic University, Pomona

Alvarez, Nathasha M. (2015)

Librarian
Assistant Professor, Library Science
B.A., History and French, Cornell University

M.A., Archives and Public History, New York University

M.S., Library and Information Science, Long Island University, CW Post

Anderson, My Hanh V. (2008)

Chair, Communication Studies
Professor, Communication Studies
A.A., General Education, Cypress College

B.A., Communication, California State University, Long Beach

M.A., Communication, California State University, Long Beach

Anderson, Olivia Vasquez (1989)

Professor, Real Estate, Law
B.A., English Literature and Comparative Literature, University of Southern California

J.D., University of Southern California

Arenas, Ruben (2008)

Vice President, Instructional Services
Professor, Mathematics
B.S., Mathematics, Harvey Mudd College

M.S., Mathematics, University of California, San Diego

Arias, Robert John (1999)

Professor, History
B.A., University of California, Los Angeles

M.A., Claremont Graduate School

Armstrong, Myeshia (2018)

Vice President of Administrative Services
B.S., Finance, California State University, Long Beach

M.B.A., Business Administration, DePaul University

Atallah, Reem (2018)

Assistant Professor, English

Atha, Tom (1996)

Professor, Communication Studies, Theater Arts
B.A., Speech, State College of Iowa, Cedar Falls, IA

M.A., Drama, California State University, Los Angeles

Avila, Raul (2006)

Professor, Respiratory Therapy
A.S., Respiratory Therapy, Mount San Antonio College

B.S., Business/Management, University of Phoenix

M.P.H., Emergency Management

Ayyuce, Orhan (2013)

Associate Professor, Architecture
B.Arch., Southern California Institute of Architecture

B

Babic, Djuradj (2017)

Associate Dean, STEM
MESA Program Director
B.S., M.S., Ph.D., Computer Science, Florida International University

Banks, Dray (2017)

Assistant Professor, Counseling
A.A., Psychology, Cerritos College

B.A., Sociology, California State University, Dominguez Hills

M.A., Guidance and Counseling, Loyola Marymount University

Banuelos, Adrian (2000)

Chair, Automobile Technology
Professor, Automobile Technology
A.S., Electronics, Pierce College

B.A., M.A., University of Phoenix

Banuelos, Elvia B. (1999)

Chair, Child, Family, and Education Studies

Professor, Child Development
A.A., East Los Angeles College

B.A., M.A., California State University, Los Angeles

Barilari, Gia (2016)

Assistant Professor, English
A.A., English, Pasadena Community College

B.A., English: Concentration in Literature, University of California, Berkeley

M.A., English: Concentration Composition, San Francisco State University, Los Angeles

Behseta, Sara (2008)

Professor, English as a Second Language
B.A., University of Wisconsin, Milwaukee

M.A., Alliant University, San Diego

Faculty

Benavides, Julie (1997)

Vice President, Student Services
Professor, Child Development and Education
B.S., California State University, Long Beach
M.A., Whittier College

Benjamin, Michele (2011)

Associate Professor, Child Development
B.A., Child Development, California State University, Los Angeles
M.A., Education – ECE, California State University, Los Angeles
Ph.D., Education – ECE, Walden University

Bermudez, Nadine (2009)

Honors Director
Associate Professor, Chicana/o Studies
B.A., Liberal Studies/Sociology, California State University, Long Beach
M.A., Chicana/o Studies, California State University, Northridge

Multiple Subjects Teaching Credential, California State University, Long Beach

Ph.D., Graduate School of Education Social Science and Comparative Education, Race and Ethnic Studies, University California, Los Angeles

Bernard, Julienne (2008)

Professor, Anthropology
B.A., University of California, Berkeley
M.A., Ph.D., University of California, Los Angeles

Betancourt, Maria E. (2016)

Assistant Professor, English
B.A., Spanish, California State Polytechnic University
M.A., English, California State Polytechnic University
Certificates of Reading, English, California State University, Fullerton

Blanco, Erika (2006)

Chair, Kinesiology
Professor, Kinesiology
B.A., Liberal Studies, California State University, Fresno
M.A., Physical Education, Azusa Pacific University

Blandon, Ruth (2010)

Chair, English
Associate Professor, English
B.S., Kinesiology, California State University, Los Angeles
M.A., English, California State University, Los Angeles
Ph.D., English, University of Southern California

Booth, Kevin (2007)

Professor, Respiratory Therapy
A.A., Liberal Studies, Mt. San Antonio College
B.A., History and Sociology, Occidental College
California Commission on Teacher Credentialing Ryan Designated Subjects Credential, Therapeutic Services

Brown, Wendi (2014)

Associate Professor, Art History
B.A., French, English Minor, California State University, Los Angeles
M.A., Art History, California State University, Los Angeles

Burrell, Vernita L. (2016)

Assistant Professor, English
B.A., English, Hunter College (CUNY)
M.A., English, Loyola Marymount University
Ph.D., English, Fordham University

C

Cagigas, Marcia P. (2016)

Director, Child Development Center
A.A., East Los Angeles College
B.A., Child Development, California State University Los Angeles
M.S., Early Childhood Education, University of Laverne

Calienes, Jorge L. (1989)

Professor, Kinesiology
A.A., East Los Angeles College
B.S., University of California, Los Angeles
M.A., Ph.D., Ashbourne University

Canales, Nohelia (2006)

Professor, Biology, Physiology
B.S., Biology and Philosophy, Mount St. Mary's College
M.S., Tumor Biology, Mayo Clinic Graduate School of Medicine

Cantu, Laura (2016)

Dean, Career Development/Student Equity
B.A., Ethnic Studies, University of California, Berkeley
Ed.D., Educational Leadership, University of California, Los Angeles

Carlos, Maria Dolores (2008)

Professor, English
M.A., English Literature, California State University, Dominguez Hills

Carter Jr., Douglas (2017)

Assistant Professor, Mathematics
B.S., Mathematics, Winston-Salem State University
M.S., Mathematics, Winthrop University
Ph.D., Mathematics, Georgia State University

Castellon, Viviana (2000)

Professor, Mathematics
B.A., University of La Verne
M.S., University of Wisconsin, Madison
Ph.D., University of California, Los Angeles

Castro, Gabriel (2007)

Professor, Mathematics
A.A., Liberal Studies, East Los Angeles College
B.S., Mathematics/Economics, University of California, Los Angeles
M.S., Applied Mathematics, California State University, Long Beach

Cavanaugh, Janis (2008)

Professor, Administration of Justice
A.S., Police Science, Rio Hondo College
B.S., Criminal Justice, California State University, Los Angeles
M.S., Public Administration, University of La Verne
D.P.A., Public Administration, University of La Verne

Centeno, Carlos M. (2008)

Puente Director
Professor, English
B.A., English, California State University, Fullerton
M.A., English, California State University, Fullerton

Chaiprasert, Kenneth (2016)

Assistant Professor, Political Science
B.A., Political Science and History, University of California, Los Angeles
J.D., University of Wisconsin
Ph.D., Political Science, University of California, Irvine

Chan, Brenda M. (1999)

Professor, Nursing
A.S., East Los Angeles College
B.S., Pacific Union College
M.S., University of California, Los Angeles
Certificates in: RN, Public Health Nurse, Family Nurse Practitioner, Clinical Specialist

Chan, Cecilia Chinru (2007)

Professor, English
 B.A., English, Tunghai University, Taiwan
 M.A., Applied Linguistics, Teachers College, Columbia University
 M.A., Spanish, Fugen Catholic University, Taiwan

Chao Furuyama, Hiroko (2001)

Professor, Japanese
 B.A., English Literature, Doshisha University, Kyoto Japan
 M.A., Japanese Linguistics in East Astan,
 Languages and Cultures, University of California, Los Angeles

Chavez, Theresa (1989)

Professor, Counseling
 A.A., East Los Angeles College
 B.A., Social Work, California State University, Los Angeles
 M.S.W., Social Work, University of Southern California

Chelstrom, Gina (2016)

Associate Dean, Learning Support Services
 B.A., Art, California State University, Fullerton
 M.A., Marriage, Family Therapy, Pacific Oaks College

Chhun, Bunnarith (2013)

Associate Professor, Respiratory Therapy
 B.S., Health Sciences, California State University, Los Angeles
 Registered Respiratory Therapist

Chin, Chris (2018)

Assistant Professor, Business
 B.A., Economics, University of Illinois
 M.A., Business Administration, Baylor University

Choi, Na Ri (2016)

Assistant Professor, Mathematics
 B.S., Mathematics, University of California, Irvine
 M.A., Mathematics, University of Southern California

Chung, Hyo Jin (2016)

Assistant Professor, Mathematics
 B.S., Mathematics, California State University, Long Beach
 M.S., Applied Mathematics, California State University, Long Beach

Cleveland, Cathy S. (2009)

Professor, Psychology
 B.A., Radio/TV/Film, California State University, Northridge
 M.A., Ph.D., Psychology, University of California, Riverside

Colling, Michael (2001)

Professor, History
 B.A., Anthropology, Sonoma State University
 M.A., History, California State University, Northridge
 M.L. S., Library and Information Science, University of California, Los Angeles

Collins, Edward V. (2015)

Assistant Professor, Accounting
 M.A., Business, Chapman University

Combes-Brighton, Patricia (2000)

Professor, Architecture
 B. ARCH, Ecole Nationale Supérieure D'Architecture Marseilles, France
 M.A., Architecture and Urban Planning, University of California, Los Angeles
 Registered Architect in Europe

Concoff-Kronbeck, Mandy E. (2010)

Associate Professor, English
 B.A., English, University of California, Los Angeles
 M.A., Literature, California State University, Dominguez Hills

Cone, Allen J. (1994)

Professor, Health/Kinesiology
 B.A., Physical Education, California State University, Northridge
 M.A., Physical Education, California State University, Los Angeles

Coson, Murniz Allen (2016)

Assistant Professor, Economics
 B.S., Business Administration, California State Polytechnic University, Pomona
 M.A., International Political-Economy, Claremont Graduate University
 Ph.D., Economics, Claremont Graduate University

Couture, Francois-Pierre (2016)

Assistant Professor, Theater Arts
 B.F.A., Theatre Design, Concordia University
 M.F.A., Scenic and Lighting Design for Theatre, University of California, Los Angeles

Crawford Jr., Richard C. (1996)

Professor, Dance
 B.A., English Literature, Wittenberg University, Springfield, OH
 M.F.A., Dance, University of California, Irvine

Cross, Karen (2006)

Professor, Computer Applications and Office Technologies
 A.A., A.S., Cypress College
 B.S., M.B.A., Business Administration: Management Information Systems, California State University, Long Beach
 Office Specialist Master Instructor Certification, Microsoft

D**Dahi, Khetam (2009)**

Associate Professor, English as a Second Language
 A.A., Liberal Arts, Victor Valley College
 B.A., English Composition, California State University, San Bernardino
 M.A., English Composition/TESL, California State University, San Bernardino
 Reading Certificate, University of California, Irvine
 Gifted and Talented Education (GATE) Certificate, University of California, Irvine

Davey, Sherrie (2006)

Chair, Psychology
 Professor, Psychology
 B.A., Psychology, University of California, Davis
 M.A., Ph.D., Psychology, University of California, Riverside

Davidian, Artin M. (2012)

Associate Professor, Engineering and Technologies
 M.S., Mechanical Engineering, California State University, Los Angeles
 F.E., Fundamentals of Engineering, Certified by the State of California

Davis, Alison A. (2001)

Chair, Life Sciences
 Professor, Microbiology
 B.S., Biology, University of Southern California
 M.S., Biology, University of Southern California

Daw, Pauletta E. (1999)

Distance Education Coordinator
 Professor, Kinesiology
 B.A., Physical Education/Coaching, Azusa Pacific University
 M.A., Education Emphasis in Physical Education, Azusa Pacific University

Faculty

De La Cerda, Paul (2013)

Dean, Foundation, Government Relations
B.A., Engineering, Oklahoma State University
M.B.A., Oklahoma State University

Dean, Eldy C. (2009)

Chair, Modern Languages
Associate Professor, Spanish
B.A., Spanish and English,
University of California, Los Angeles

Sigman, Michael (2000)

Professor, Philosophy

B.A., Philosophy, University of California, Santa Barbara

M.A., Philosophy, California State University, Long Beach

Silva, Juan S. (2015)

Assistant Professor, English

B.A., M.A., English, California State University, Los Angeles

Singh, Surana (2008)

Professor, Art

B.A., History of Art, University California, Santa Cruz

M.S., Theory, Criticism, and History of Art, Design and Architecture, Pratt Institute

Siswanto, Anne S. (2000)

Professor, Mathematics

B.S., University of California, Los Angeles

M.A., University of California, Los Angeles

Smith, Regis A. (2008)

Professor, Mathematics

B.S., Mathematics, Vanderbilt University

M.A., Mathematics, University of California, Los Angeles

Smith, Ryan L. (2009)

Associate Professor, Communication Studies

B.A., Communication Studies, Texas Tech University

M.A., Communication Studies, California State University, Long Beach

Faculty

Snead, Timothy A. (2006)

Chair, Philosophy
Professor, Philosophy
A.A., Cypress College
B.A., Philosophy, University of California,
Irvine M.A., Philosophy,
California State University, Long Beach

Solis, Alex C. (2009)

Associate Professor, English
B.A., English, California State University,
Los Angeles
M.A., Composition, Rhetoric and
Language, California State University,
Los Angeles Reading Certificate,
California State University, Fullerton

Song, David K. (2013)

Associate Professor, Asian-American
Studies
B.A., History, University of California,
Berkeley
M.A., Asian American Studies,
University of California, Los Angeles

Soriano, Maribel (2006)

Professor, Child Development
A.A., Child Development, Cerritos
College
B.S., Child and Adolescent Studies,
California State University, Fullerton
M.S., Child Development, La Verne
University
Program Director Permit, Commission
on Teacher Credentialing

Soto, Carmen (2016)

Counselor
Assistant Professor, Counseling
B.A., Sociology, Loyola Marymount
University
M.Ed., Educational Counseling,
University of Southern California

Soto-Ortiz, Luis F. (2015)

Assistant Professor, Mathematics
B.S., Mathematics, University of
California, Los Angeles
M.S., Mathematics, University of
California, Los Angeles

Souki, Stuart K. (2014)

Assistant Professor, Biology
Single Subject Credential, Biology
and Chemistry, Loyola Marymount
University
B.A., Biology and Chemistry, University
of Northern Colorado
Ph.D., Medical Microbiology, University
of California, Irvine

Stapleton, Jean A. (1973)

Chair, Journalism
Professor, Journalism
B.A., English, University of New Mexico
M.S., Journalism, Northwestern
University

Stevenson, J. Edward (2012)

Associate Professor, Journalism
B.A., Communication Studies, Azusa
Pacific University
M.A., Communication Studies,
California State University, Northridge

Stevenson, Mel (2007)

Professor, Administration of Justice
A.A., Administration of Justice, Los
Angeles City College
B.S., Occupational Studies, Vocal Arts,
California State University, Long Beach
M.S., Emergency Management
Administration, California State
University, Long Beach

Stone, Lisa Hashimoto (2009)

Chair, Theater Arts
Associate Professor, Theater Arts
B.A.R.C.H., Pennsylvania State University
M.F.A., Technical Theatre, California
State University, Long Beach

Su, Melari Y. (1997)

Professor, Counseling
B.A., Linguistics, University of California,
Los Angeles
M.S., Counseling, California State
University, Los Angeles

Suarez, Rita M. (2015)

Librarian
A.A., General Studies, Pasadena City
College
B.A., Anthropology, California State
University, Los Angeles
MLIS, Library & Information Science,
University of California, Los Angeles

Sunda, Pauline (1995)

Professor, Nursing
R.N., B.S.N., P.H.N., M.S.N., California State
University, Los Angeles

Swerdlow, Nadia (2013)

Associate Professor, English
B.A., M.A., Ph.D., English, University of
Illinois at Chicago

Szklarek, Dina (2016)

Assistant Professor, English
B.A., Law and Society, English (Minor),
University of California, Santa Barbara
M.A., English, California State University,
Northridge

T

Tall, Issa A. (2013)

Associate Professor, Mathematics
B.A., Mathematics, Cheik Anta Diop
University
M.A., Mathematics, Cheik Anta
Diop University
Ph.D., Mathematics, Institut National
des Sciences Appliquees de Ruen

Tang, Jennifer (2017)

Assistant Professor, Counseling
B.A., Economics, University of California,
Los Angeles
M.S., Counseling, Student Development
in Higher Education, California State
University, Long Beach

Tapia, Beatriz (2008)

Chair, Chicana/o Studies
Professor, Chicana/o Studies
B.A., Sociology, University of California,
Berkeley
M.A., Ethnic Studies, University of
California, Berkeley

Teola, Dorothy V. (2008)

Professor, Counseling
A.A., Liberal Arts, Los Angeles Pierce
College
B.A., Physical Education, California
State University, Northridge
M. A., Education, Azusa Pacific
M.S., Counseling, California Lutheran
University

Thompson, Brigette (2000)

Professor, Child Development
B.A., Child Development, California
State University, Northridge
M.A., Marriage, Family & Child Therapy,
Azusa Pacific University
Program Director Permit, Commission
on Teacher Credentialing

Thurston, Monica (2013)

Chair, Allied Health
Associate Professor, Health
Information Technology,
HIT Program Director
B.S., Health Information Management,
Norfolk State University
M.B.A., Master in Business
Administration, American
InterContinental University

Tinker Diaz, Rosa E. (2015)

Assistant Professor, English
B.A., English, University of California,
Berkeley
M.A., English, California State University,
Long Beach

Tiscareno, Emma (2016)

Professor, Counseling
A.A., West Los Angeles Community
College

B.A., Loyola Marymount University

M.A., Loyola Marymount University
Ed.D., Pepperdine University

Toledo, Angelica (2006)

Dean, Health and Human Services
A.A., Bilingual/Bicultural Education,
Los Angeles Mission College

B.A., Liberal Studies, California State
University, Northridge

M.A., Early Childhood Education/
Emphasis Special Education, California
State University, Northridge

Tsai, Mike (2008)

Professor, Photography

of Design

Turk, Christopher (2001)

Professor, Art
B.A., Art, California State University,
Northridge

M.F.A., Ceramics, California State
University, Northridge

U**Ukita, Courtney (1999)**

Professor, Counseling
A.A., East Los Angeles College

B.A., University of California, Los
Angeles

M.S., California State University, Long
Beach

Urdiales, Juan (2018)

Dean, Continuing Education
B.A., Child Development, California
State University, Los Angeles

M.S., Education, Mount Saint Mary's
College, Los Angeles

Ed.D., Educational Leadership,
California State University, Los Angeles

Urrutia, Liliana (2008)

Professor, History
A.B., Latin American History, Harvard-
Radcliffe College

M.A., U.S. History, University of California,
Los Angeles

Uyekawa, Jim (1994)

Professor, Art
A.A., Art, Golden West College

B.F.A., Drawing and Painting, California
State University, Long Beach

M.F.A., Drawing and Painting,
Claremont Graduate University

V**Valle, Ralph (2000)**

Professor, Counseling,
Head Wrestling Coach
A.A., East Los Angeles College

B.A., Physical Education, California
State University, Los Angeles

M.S., School Counseling, University of
La Verne

Professional Clear Teaching and Pupil
Personnel Services Credential

Valmonte, Jade (2014)

Assistant Professor, Nursing
M.S.N., Nursing/Healthcare Education

University of Phoenix

Certificates in: RN, Public Health Nurse

Valverde, Vanessa (2006)

Professor, Chemistry
B.A., Business Administration, University
of Costa Rica

B.Sc., Chemistry, California State
University, Fullerton

M.S., Physical Chemistry, California
State University, Fullerton

Van Houten, Kevin W. (2012)

Associate Professor, English
A.A., General Studies, Cuesta College

B.A., Modern Languages and
Literatures, California Polytechnic
State University, San Luis Obispo

M.A., Teaching English to Speakers of
other

Languages, California State University,
Los Angeles

Vartanian, Lisa M. (2009)

Associate Professor, Psychology
B.A., Psychology, University of Southern
California

M.A., Clinical Psychology, Pepperdine
University

Ph.D., Psychology, University of
Southern California

Vega, Norma (2008)

Professor, Spanish
Ph.D., Hispanic Languages and
Literatures, University of California, Los
Angeles

Velasquez, Kelly (2019)

Judith L. Isle, *Bread and Roses*, 1976

The cover art was chosen in celebration of the 100th Anniversary of Women's Suffrage. This artwork references several women organizers and activists through American history including supporters of Women's Suffrage and the 19th Amendment, as well as supporters of the Equal Rights Amendment (ERA), and women from The American Federation of Labor and Congress of Industrial Organizations (AFL-CIO), the United Farm Workers Labor Union (UFW), and other organizations striving for justice.

AS WE COME MARCHING, MARCHING IN
THE BEAUTY OF THE DAY,
A MILLION DARKENED KITCHENS
A THOUSAND MILL LOFTS GRAY,
ARE TOUCHED WITH ALL THE RADIANCE
THAT A SUDDEN SUN DISCLOSES,
FOR THE PEOPLE HEAR US SINGING,
BREAD AND ROSES, BREAD AND ROSES.

AS WE COME MARCHING, MARCHING,
WE STRUGGLE TOO FOR MEN,
FOR THEY ARE WOMEN'S CHILDREN,
AND TOGETHER WE CAN WIN.
OUR LIVES SHALL NOT BE SWEATED
FROM BIRTH UNTIL LIFE CLOSES,
HEARTS STARVE AS WELL AS BODIES
GIVE US BREAD, BUT GIVE US ROSES

AS WE COME MARCHING, MARCHING
UNNUMBERED WOMEN DEAD
GO CRYING THROUGH OUR SINGING
THEIR ANCIENT SONG FOR BREAD
SMALL ART AND LOVE AND BEAUTY
THEIR STRUGGLING SPIRITS KNEW.
YES IT IS FOR BREAD WE FIGHT FOR—
BUT WE FIGHT FOR ROSES, TOO

AS WE COME MARCHING, MARCHING,
WE BRING THE GREATER DAYS
THE RISING OF THE WOMEN
MEANS THE RISING OF US ALL
NO MORE THE DRUDGE AND IDLER—
TEN THAT TOIL WHERE ONE REPOSES,
BUT A SHARING OF LIFE'S GLORIES,
BREAD AND ROSES, BREAD AND ROSES.

Poem: James Oppenheim, "Bread and Roses" *The American Magazine*, December, 1911
